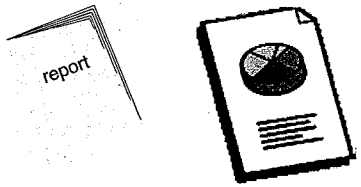
List of Categorized Issues

Fairfax County



Report to Board of Supervisors

Operations

- Evaluate consequences of County getting out of direct waste removal
- Enforcement issues (need to enforce County Code)
- Need for unified recycling activities
- New materials to collect recycling
- Contract all operations of sanitary district collection
- Procurement of County contracts
- Difficulty of inspections and permitting of vehicles
- High bond amounts
- Need for drop-off centers when new recycling program is implemented
- Commingling of waste and recyclables (i.e., recycling market)
- Proper "disposal" of recyclables (i.e., recycling market)
- Definitions of waste such as brush, special collections, CDD, yard waste, etc. – Revisit Chap. 109
- Responsibility of collection companies during emergencies
- Encourage vacuum leaf collection by private companies in the county

Customer Service

- Frequency – Fair Market (level of service)
- Competition
- Communication
- Missed collections
- Weight of collection containers and size of brush
- Rate increases should be included in rate increase announcements
- Safety issues (i.e., traffic congestion, zig-zagging on streets)
- Extra charges for special collections
- Strategy for emergencies
- Contracting with collectors

Environmental

- Air emissions from trucks
- Materials to be collected
- Use of special fuels
- Plastic vs. paper bags for collections of yard waste and leaves
- Separate collection of yard waste within HOAs that have grounds maintenance contracts
- E-Waste
- Removal of Nicad batteries from waste stream
