32. **OUT-OF-TURN PLAN AMENDMENT FOR PROPERTIES ON DRANESVILLE ROAD** (Tape 4)

Supervisor Mendelsohn said that the owner of property located at 1100 Dranesville Road in Herndon has expressed an interest in constructing an independent living facility on his property. This property, which is bisected by the Fairfax/Loudoun County line, is located between the Town Center at Herndon Junction and Bowl America. The Loudoun County portion of the property is zoned for 16 dwelling units per acre. Based upon the current land uses of the adjacent parcels, the proposal for a plan amendment consistent with those uses seems to have merit. Research by staff has shown the plan recommends that this property and the adjacent property (currently, Bowl America), which are located between Hughes Branch and Woodson Road, be utilized as public parkland. He said that as a follow-up to this research he asked staff to do the following:

- Determine how and when this plan designation was established.
- Discuss with Park Authority staff whether the property is in a good location and of sufficient size to serve as a public park.

In response to his inquiry, staff has provided the following information: the Plan research indicates that the area between Hughes Branch and Woodson Road, as well as most of Sugarland Run, was designated the 100-year floodplain Plan category when the PLUS Plan was adopted in 1975. During the 1977 Annual Plan Review (APR), the 100-year floodplain Plan category was eliminated and areas within the 100-year floodplain designation were changed to either public park or private open space. Pursuant to this process, the subject properties and Sugarland Run were re-designated public park.

Supervisor Mendelsohn said that staff further concluded that the plan designation of floodplain in 1975 was an error, since most of this area was not, and currently is not, within the floodplain. If the 1977 APR item had included a re-evaluation of the areas designated with the Plan's 100-year floodplain category, the subject properties may have been re-planned at that time to a designation other than Public Park.

Park Authority staff has determined that the subject property has little value as public parkland since it is not contiguous to existing Park Authority property and does not appear to be suitable for recreational development due to its size and location.

Since 1975 a major planning objective for this area of the County has been to preserve the stream valleys of Sugarland Run and its tributaries. Therefore, preserving the floodplain and Resource Protection Area (RPA) portions of the property will be a critical issue to address in re-planning this area.

With this background, Supervisor Mendelsohn said that staff should evaluate the appropriateness of re-planning the property between Hughes Branch and Woodson Drive and should identify appropriate planned land uses on the property.

Therefore, Supervisor Mendelsohn moved that the Board authorize an Out-of-Turn Plan Amendment for the parcels on Tax Map Number 6-3((1))11 and 11A for the purpose of considering:

- How the area's floodplain and RPA should be preserved.
- Whether single family use at a density of up to four dwelling units per acre and an option for institutional uses, such as senior housing, is appropriate on the remainder.

- Any proposed changes to the plan must be in conformance with changes adopted in APR 98-III-12UP.

33. **HEALTH DEPARTMENT RULES CONCERNING THE OPERATION OF YOUTH ATHLETIC EVENT FOOD STANDS** (Tape 4)

(BACs) Supervisor Mendelsohn referred to the issue of the Health Department changing the rules concerning the operation of youth athletic event food stands and he moved that the Board direct staff to:

- Draft proposed language on proposed amendments to the Code of the County of Fairfax to incorporate swim league groups in the exemption for a public hearing to be held before the Board in the fall.
- Refer this issue to the Health Care Advisory Board so it can work with community groups and report with a recommendation prior to the advertisement of a public hearing.

Chairman Hanley seconded the motion.

Without objection, it was so ordered.

36. **FURTHER CLARIFICATION REQUESTED FOR URBAN FORESTRY NOTICES** (Tape 4)

Supervisor Hyland said that in April this year, he requested language simplification for notices and advisory boards concerning public hearings. He requested the same consideration be given to waivers provided to his office by the Urban Forestry Branch.

Although staff had given an elaborate verbal description of why the waiver was being requested and why it was being granted, the notice itself is void of any detail.

Therefore, Supervisor Hyland asked unanimous consent that the Board direct staff to research and make recommendations to the Board for requiring that waivers being recommended by Urban Forestry include more detail. Without objection, it was so ordered.

37. **FIRE SUPPRESSION** (Tape 4)

Supervisor Hyland noted the need for additional fire suppression in certain areas of Fairfax County in more rural places. Certain sections of the Mason Neck is one such area.

During a meeting he had with Chief Edward L. Stinnette of the Fire and Rescue Department, the Chief indicated that there will be replacement of an older fire suppression truck with a new one. (Normally these trucks are traded in or sold.) Supervisor Hyland said that keeping the truck will give the County additional fire suppression equipment. If this Board so directs, Chief Stinnette would keep the truck, which will "float" to where and when it is needed anywhere in the County for fire suppression purposes.

Therefore, Supervisor Hyland asked unanimous consent that the Board direct staff to review this issue. Without objection, it was so ordered.

There was a brief discussion regarding this issue.

The Trauma Center is a joint sponsor of the competition and will use proceeds raised to benefit child head trauma prevention programs through education and equipment projects. She noted that the competition will be held Saturday, September 30 at Lake Accotink Park and will include many family-related activities.

Supervisor McConnell asked Members of the Board to join her in sponsoring the event and helping to recruit additional sponsors from within their respective districts. She referred the Board to Lt. Purvis Dawson at the Franconia District Station or her office staff for further information or assistance. She encouraged businesses and citizens to support this worthwhile cause.

44. **OCCOQUAN WATERSHED SIGNS** (Tape 5)

Supervisor McConnell reminded the Board that several months ago it approved the installation of signs alerting motorists when they were entering the Occoquan Watershed area. The same motion requested the Fairfax County Water Authority (FCWA) to pay for the signs. She said that subsequently the FCWA indicated that it would not pay for the signs.

Citing grants the Water Authority has distributed for projects outside of the County, Supervisor McConnell asked unanimous consent that the Board write again to the FCWA asking them to pay for the signs alerting motorists that they are in the Occoquan Watershed. She stated that the purpose of the signs is to encourage people to better protect the water supply, conserve water use, and be responsible in the discarding of possible pollutants.

Following discussion, with input from Anthony H. Griffin, County Executive, Chairman Hanley relinquished the Chair to Vice-Chairman Hyland and asked to

amend the request that she write on behalf of the Board regarding the proposal and transmit it to the FCWA.

Following further discussion, with input from Mr. Griffin, the request, as amended, was so ordered.

Supervisor Bulova stated that it had been called to her attention that in June of 1997 the Virginia Department of Transportation (VDOT) damaged a bus shelter on the southwest corner of Ravensworth Road and Braddock Road while extending a turn lane. According to neighbors in the area, it took VDOT five months to replace the shelter. Just a few months later, the replacement shelter

was damaged by a vehicle. She said that VDOT decided that the damaged bus shelter was a danger and removed it in June of this year.

Supervisor Bulova expressed the residents' concern about the history of the length of time it has taken for a replacement shelter. Additionally, her office contacted the County's Department of Transportation (DOT) about this issue and was told that VDOT is not planning to replace any shelters that it has removed. She stated her understanding that DOT has a list of several critical replacement shelters that are currently unfunded. However, at the same time, the County is proceeding with plans to install new shelters with enhancement funds received for this purpose. She stated the difficulty of explaining to a neighborhood whose bus shelter has been removed because it was damaged that it cannot have it replaced while at the same time the County is installing new shelters in new locations.

Accordingly, Supervisor Bulova moved that the Board direct staff to examine this issue and report with a recommendation on how to resolve this situation. Chairman Hanley seconded the motion and, after relinquishing the Chair to Vice-Chairman Hyland, asked to amend the motion to direct staff to ask VDOT staff to:

- Replace bus shelters that are being razed.
- Provide an update on bus shelters in general.

This was accepted.

The question was called on the motion, as amended, which carried by a vote of eight, Supervisor Connolly and Supervisor Frey being absent.
