# County of Fairfax, Virginia

FY 2009

Adopted Budget Plan

Volume 2 Capital Construction and Other Operating Funds

## Fairfax County, Virginia

## Fiscal Year 2009 Adopted Budget Plan

# Volume 2: Capital Construction and Other Operating Funds

Prepared by the
Fairfax County Department of Management and Budget
12000 Government Center Parkway
Suite 561
Fairfax, Virginia 22035

http://www.fairfaxcounty.gov/dmb/

The County of Fairfax is committed to a policy of nondiscrimination in all County programs, services and activities and will provide reasonable accommodations upon request. To request special accommodations, call 703-324-2391, TTY 711. Special accommodations/alternative information formats will be provided upon request. Please allow five working days in advance of events in order to make the necessary arrangements.

## **Fairfax County Vision Elements**

#### To protect and enrich the quality of life for the people, neighborhoods and diverse communities of Fairfax County by:

### Maintaining Safe and Caring Communities -

The needs of a diverse and growing community are met through innovative public and private services, community partnerships and volunteer opportunities. As a result, residents feel safe and secure, capable of accessing the range of services and opportunities they need, and are willing and able to give back to their community.

#### **Building Livable Spaces -**

Together, we encourage distinctive "built environments" that create a sense of place, reflect the character, history and natural environment of the community, and take a variety of forms - from identifiable neighborhoods, to main streets, to town centers. As a result, people throughout the community feel they have unique and desirable places to live, work, shop, play and connect with others.

#### **Connecting People and Places -**

Transportation, technology and information effectively and efficiently connect people and ideas. As a result, people feel a part of their community and have the ability to access places and resources in a timely, safe and convenient manner.

#### **Maintaining Healthy Economies -**

Investments in the workforce, jobs, and community infrastructure and institutions support a diverse and thriving economy. As a result, individuals are able to meet their needs and have the opportunity to grow and develop their talent and income according to their potential.

#### **Practicing Environmental Stewardship -**

Local government, industry and residents seek ways to use all resources wisely and to protect and enhance the County's natural environment and open space. As a result, residents feel good about their quality of life and embrace environmental stewardship as a personal and shared responsibility.

#### **Creating a Culture of Engagement -**

Individuals enhance community life by participating in and supporting civic groups, discussion groups, public-private partnerships and other activities that seek to understand and address community needs and opportunities. As a result, residents feel that they can make a difference and work in partnership with others to understand and address pressing public issues.

#### **Exercising Corporate Stewardship -**

Fairfax County government is accessible, responsible and accountable. As a result, actions are responsive, providing superior customer service and reflecting sound management of County resources and assets.

## **BUDGET CALENDAR**

#### For preparation of the FY 2009 Budget

#### July 1, 2007

Distribution of the FY 2008 budget development guide. Fiscal Year 2008 begins.

#### August - September 2007

Agencies forward completed budget submissions to the Department of Management and Budget (DMB) for review.

#### September - December 2007/ January 2008

DMB reviews agencies' budgets. Meetings with County Executive, Senior Management Team and budget staff for final discussions on the budget.

#### February 14, 2008

School Board advertises its FY 2009 Budget.

Volume 2 contains information on non-General Fund budgets or "Other Funds." A fund accounts for a specific set of activities that a government performs. For example, refuse disposal is an activity and therefore, a fund that is classified as a Special Revenue Fund.

Each County fund is represented with its own narrative that contains programming and budgetary information. The narratives have several elements including:

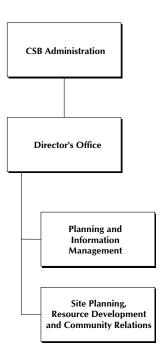

- Organization Chart
- ► Agency Mission and Focus
- ▶ New Initiatives and Recent Accomplishments in Support of the County Vision
- ► Budget and Staff Resources
- ► Funding Adjustments
- ► Cost Centers (funding and position detail)
- ► Cost Center Specific Goals, Objectives and Key Performance Measures
- Performance Measurement Results
- Fund Statement
- Summary of Capital Projects
- ▶ Project Detail Tables

Not all narratives will contain each of these components. For example, funds that are classified as Capital Funds will not have organization charts because staff positions are not budgeted in these funds; that is, they only provide funding for the purchase and construction of capital construction projects. However, Capital Funds do have a summary of capital projects that lists the cost of each project in a fund. A brief example of each section follows.

#### **Organization Chart:**

The organization chart displays the organizational structure of each fund. An example depicting the organizational structure of the Community Services Board - Administration is shown below.

## COMMUNITY SERVICES BOARD ADMINISTRATION

#### **Agency Mission and Focus:**

The agency mission is a broad statement reflecting intended accomplishments for achievement of the agency's public purpose. It describes the unique contribution of the organization to the County government and residents receiving services and provides a framework within which an agency operates. The agency focus section includes a description of the agency's programs and services. The agency's relationship with County boards, authorities or commissions may be discussed here, as well as key drivers or trends that may be influencing how the agency is conducting business. The focus section is also designed to inform the reader about the strategic direction of the agency and the challenges that it is currently facing. Highlights of these challenges can be found in the "Thinking Strategically" box in the focus section.

#### New Initiatives and Recent Accomplishments in Support of the County Vision:

To further strengthen the link between the budget and the strategic direction of both the County and each agency, each agency's new initiatives and recent accomplishments are presented by County vision element. There are seven County vision elements which are depicted by small icons. The vision elements include:

Maintaining Safe and Caring Communities

**Building Livable Spaces** 

Connecting People and Places

Maintaining Healthy Economies

Practicing Environmental Stewardship

Creating a Culture of Engagement

**Exercising Corporate Stewardship** 

Individual agency narratives identify strategic issues, which were developed during the agency strategic planning efforts, link new initiatives and recent accomplishments, as well as core services to the vision elements, and expand the use of performance measures to clearly define how well the agency is delivering a specific service.

#### **Budget and Staff Resources:**

It is important to note that expenditures are summarized in three categories. *Personnel Services* consist of expenditure categories including regular pay, shift differential, limited and part-time salaries, and overtime pay. *Operating Expenses* are the day-to-day expenses involved in the administration of the agency, such as office supplies, printing costs, repair and maintenance for equipment, and utilities. *Capital Equipment* includes items that have a value that exceeds \$5,000 and an expected life of more than one year, such as an automobile or other heavy equipment. In addition, some agencies will also have a fourth expenditure category entitled *Recovered Costs*. Recovered Costs are reimbursements from other County agencies for specific services or work preformed or reimbursements of work associated with capital construction projects. These reimbursements are reflected as a negative figure in the agency's budget, thus offsetting expenditures.

A Summary Table is provided including the agency's positions, expenditures less recovered costs, and income/revenue (if applicable).

#### **Funding Adjustments:**

This section summarizes changes to the budget. The first section includes adjustments from the FY 2008 Revised Budget Plan necessary to support the FY 2009 program. In addition, any adjustments resulting from the Board of Supervisors deliberations on the Advertised budget are highlighted here.

The second section includes revisions to the current year budget that have been made since its adoption. All adjustments as a result of the FY 2007 Carryover Review, the FY 2008 Third Quarter Review, and any other changes through April 21, 2008 are reflected here. Funding adjustments are presented programmatically. For example, the entire cost to open a new facility is presented in one place and includes personnel costs, operating expenses and other costs.

#### Cost Centers:

As an introduction to the more detailed information contained for each functional area or Cost Center, a list of the cost centers is included with a graphic representation of the FY 2009 budget by Cost Center. In addition, each Cost Center is highlighted by several icons which indicate the various vision elements that are supported by the programs and services within the Cost center. A listing of the staff resources for each cost center is also included.

#### **Key Performance Measures:**

Most cost centers include goals, objectives and performance indicators. Goals are broad statements of purpose, generally indicating what service or product is provided, for whom, and why. Objectives are outcome-based statements of specifically what will be accomplished during the budget year. Ideally, these objectives should support the goal statement, reflect the planned benefit(s) to customers, be written to allow measurement of progress and describe a quantifiable target. Indicators are the first-level data for reporting performance on those objectives.

A Family of Measures is provided to present an overall view of a program so that factors such as cost can be balanced with customer satisfaction and the outcome ultimately achieved. The concept of a Family of Measures encompasses the following types of indicators and serves as the structure for a performance measurement model that presents a comprehensive picture of program performance as opposed to a single-focus orientation.

Input: Value of resources used to produce an output.

Output: Quantity or number of units produced.

Efficiency: Inputs used per unit of output.

Service Quality: Degree to which customers are satisfied with a program, or the accuracy or

timeliness with which the product/service is provided.

Outcome: Qualitative consequences associated with a program.

#### Performance Measurement Results:

This section includes a discussion and analysis of how the agency's performance measures relate to the provision of activities, programs, and services stated in the agency mission. The results of current performance measures are discussed, as well as conditions that contributed to the level of performance achieved and action plans for future-year improvement of performance targets.

#### Fund Statement:

A fund statement provides a breakdown of all collected revenues and total expenditures and disbursements for a given fiscal year. It also provides the total funds available at the beginning of a fiscal year and an ending balance. An example follows:

|                                |   | FUND STATEMENT    |                                   |                                   |                                      |                                   |   |  |  |

<sup>&</sup>lt;sup>1</sup> The FY 2009 amount reflects prior year actual receipts. In order to account for revenues and expenditures in the proper fiscal year, audit adjustments have been made which decrease the FY 2007 ending balance by \$193,694.12. A commensurate impact is reflected in the balance carried forward to FY 2008. In particular, revenues are increased by \$811.37 and expenditures are increased by \$194,505.49. These adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

 $<sup>^2</sup>$  The FY 2009 decrease is due to anticipated declines in developer fee income. Developer fees for FY 2009 are estimated to be \$158,275 for Cedar Ridge and \$100,000 for Olley Glen.

<sup>&</sup>lt;sup>3</sup> The FY 2009 decrease is due to anticipated declines in program income from Fund 142, Community Development Block Grant; Fund 143, Homeowner and Business Loan Program; and Fund 340, Housing Assistance Programs.

#### Summary of Capital Projects:

A summary of capital projects is included in all Capital Project Funds, and selected Enterprise Funds, Housing Funds and Special Revenue Funds that support capital expenditures. The summary of capital projects provides detailed financial information about each capital project within each fund, including: total project estimates, prior year expenditures, revised budget plans, and proposed funding levels. The summary of capital projects may include some projects without a Total Project Estimate amount. These projects are considered "Continuing" projects, or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

#### **Project Detail Tables:**

Project detail tables are included for each capital project funded in FY 2009. This table includes financial information and a narrative description of the project, including project location, description, and the source of funding which will support the FY 2009 funded amount (i.e., general funds, general obligation bonds, transfers from other funds, or other). The example below is for Parks – Grounds Maintenance, and can be found in Fund 303, County Construction.

| 009442     | Parks – Grounds Maintenance |            |
|------------|-----------------------------|------------|
| Countywide |                             | Countywide |
| ,          |                             | Countywide |

**Description and Justification:** This project provides for grounds maintenance at non-revenue producing countywide parks. Grounds maintenance includes the upkeep of sidewalks and parking lots, bridges, recreation and irrigation equipment, picnic equipment, tennis courts and trails. In addition, grounds maintenance includes contracted mowing of grassy areas at park sites. FY 2009 funding in the amount of \$987,076 is included for grounds maintenance needs at designated Park Authority sites throughout the County.

#### **EXPLANATORY NOTE:**

The "Total Available" indicates the revenue in each fiscal year that is to be used to support expenditures. This amount is the total revenue adjusted by the amount of funding that is either appropriated from fund balance or added to fund balance. In some instances, adjustments to fund balance that are not currently reflected in the "Changes in Fund Balance" table also affect the "Total Available," Explanations for these adjustments are provided below. The "Total Available," plus (minus) the effect of these changes matches the expenditure totals by fiscal year on the "Expenditure by Fund/Summary of Appropriated Funds," net of any transfers between funds.

#### <sup>1</sup> Not reflected are the following adjustments to balance which were carried forward from FY 2006 to FY 2007:

Fund 191, School Food and Nutrition Services, change in inventory of (\$387,084)

Fund 308, Public Works Construction, balance of \$6,029,807 reflected in Fund 303, County Construction, Fund 304, Transportation Improvements, and Fund 318, Stormwater Management Program, beginning in FY 2007. This action officially eliminated Fund 308 and allowed for similar projects to be accounted for in a more appropriate fund.

Fund 313, Trail Construction, balance of \$36,955 reflected in Fund 307, Pedestrian Walkway Improvements, beginning in FY 2007. This action officially eliminated Fund 313 and allowed for similar projects to be accounted for in a more appropriate fund.

Fund 403, Sewer Bond Parity Debt Service, non-appropriated amortization expense of (\$7,629)

Fund 501, County Insurance, net change in accrued liability of \$1,519,074

Fund 590, Public School Insurance, net change in accrued liability of \$1,752,690

#### <sup>2</sup> Not reflected are the following adjustments to balance which were carried forward from FY 2007 to FY 2008:

Fund 090, Public School Operating, assumes (\$10,000,000) differential between the Schools projected appropriation and the FY 2008 Adopted appropriation. This anticipates School action to appropriate FY 2007 available balance to be carried forward to fund the FY 2009 budget.

Fund 191, Public School Food and Nutrition Services, assumes carryover of available FY 2007 balance of \$9,568,064 to balance the FY 2008 budget

Fund 403, Sewer Bond Parity Debt Service, non-appropriated amortization expense of (\$7,629)

Fund 591, School Health Benefits Trust, assumes carryover of premium stabilization reserve of \$30,634,821 and GASB 45 reserve of \$10,000,000

#### 3 Not reflected are the following adjustments to balance which were carried forward from FY 2007 to FY 2008:

Fund 403, Sewer Bond Parity Debt Service, non-appropriated amortization expense of (\$7,629)

#### <sup>4</sup> Not reflected are the following adjustments to balance which were carried forward from FY 2008 to FY 2009:

Fund 001, General Fund, reserve for FY 2008 Third Quarter requirements or FY 2009 budget development of (\$2,628,347)

Fund 090, Public School Operating, assumes carryover of available FY 2008 balance of \$24,991,434 to balance the FY 2009 budget

Fund 102, Federal/State Grant Fund, assumes carryover of available FY 2008 balance of \$2,000,000 to meet FY 2009 Local Cash Match requirements

Fund 191, Public School Food and Nutrition Services, assumes carryover of available FY 2008 balance of \$9,024,636 to balance the FY 2009 budget

Fund 200/201, Consolidated Debt Service, assumes carryover of available FY 2008 balance of \$5,000,000 to balance the FY 2009 budget

Fund 403, Sewer Bond Parity Debt Service, non-appropriated amortization expense of (\$7,629)

Fund 500, Retiree Health Benefits, assumes (\$147,702) transfer of balances to Fund 603, OPEB Trust Fund at FY 2008 Carryover Review

Fund 590, Public School Insurance, assumes carryover of available FY 2008 balance of \$6,418,091 to balance the FY 2009 budget

Fund 591, School Health Benefits Trust, assumes carryover of premium stabilization reserve of \$43,093,782 and GASB 45 reserve of \$18,000,000

#### <sup>5</sup> Not reflected are the following adjustments to balance which were carried forward from FY 2008 to FY 2009:

Fund 090, Public School Operating, assumes carryover of available FY 2008 balance of \$24,991,434 to balance the FY 2009 budget

Fund 102, Federal/State Grant Fund, assumes carryover of available FY 2008 balance of \$2,000,000 to meet FY 2009 Local Cash Match requirements

Fund 144, Housing Trust Fund, assumes carryover of available FY 2008 balance of \$1,000,000 to be transferred back to the General Fund as a result of a project close-out.

Fund 191, Public School Food and Nutrition Services, assumes carryover of available FY 2008 balance of \$9,024,636 to balance the FY 2009 budget

Fund 312, Public Safety Construction, assumes carryover of available FY 2008 balance of \$2,000,000 to balance the FY 2009 budget.

Fund 403, Sewer Bond Parity Debt Service, non-appropriated amortization expense of (\$7,629)

Fund 500, Retiree Health Benefits, assumes (\$147.702) transfer of balances to Fund 603, OPEB Trust Fund at FY 2008 Carryover Review

Fund 590, Public School Insurance, assumes carryover of available FY 2008 balance of \$6,418,091 to balance the FY 2009 budget

Fund 591, School Health Benefits Trust, assumes carryover of premium stabilization reserve of \$43,093,782 and GASB 45 reserve of \$18,000,000

<sup>&</sup>lt;sup>6</sup> As part of the FY 2009 Advertised Budget Plan, all activity in Fund 500, Retiree Health Benefits, has been transferred to Fund 603, OPEB Trust Fund, in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB). Any remaining balances remaining in Fund 500 at the end of FY 2008 will be moved to Fund 603 as part of the FY 2008 Carryover Review.

<sup>&</sup>lt;sup>1</sup> FY 2009 Advertised Budget Plan expenditures for Fund 090, Public School Operating, are reduced by \$55,848,345 to offset the discrepancy between the proposed Transfer Out from the General Fund and the Superintendent's Proposed Transfer In to Fund 090.

<sup>&</sup>lt;sup>2</sup> <u>FY 2009 Advertised Budget Plan</u> expenditures for Fund 192, School Grants & Self Supporting, are increased by \$4,959 to offset the discrepancy between the proposed Transfer Out from Fund 105, Cable Communications, and the Superintendent's Proposed Transfer In to Fund 192.

<sup>&</sup>lt;sup>3</sup> As part of the FY 2009 Advertised Budget Plan, all activity in Fund 500, Retiree Health Benefits, has been transferred to Fund 603, OPEB Trust Fund, in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB). Any remaining balances remaining in Fund 500 at the end of FY 2008 will be moved to Fund 603 as part of the FY 2008 Carryover Review.

<sup>&</sup>lt;sup>4</sup> Total Appropriated Funds Expenditures are reduced by Internal Service Fund Expenditures, as the amounts are already included.

<sup>&</sup>lt;sup>1</sup> As part of the FY 2009 Advertised Budget Plan, all activity in Fund 500, Retiree Health Benefits, has been transferred to Fund 603, OPEB Trust Fund, in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB). Any remaining balances remaining in Fund 500 at the end of FY 2008 will be moved to Fund 603 as part of the FY 2008 Carryover Review.

### Fund 002 Revenue Stabilization

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **FY 2010 Budget Development Guidelines**

- Recognizing that the County's General Fund revenue situation may continue to deteriorate, the Board directs staff to return to the Board with recommendations for short term adjustments to the Revenue Stabilization Reserve policy that may be required should the County Executive need to respond quickly should revenues drop precipitously.
- On a longer term basis and as part of the Lines of Business review, the County Executive is directed to provide recommendations for adjustments to the Revenue Stabilization Reserve criteria to maximize flexibility of the fund while providing for and maintaining adequate reserves to address County emergency requirements. Recommended adjustments could include increasing the size of reserve once the economy recovers to allow for some tax rate stabilization, identifying reserve replenishment procedures, and criteria for authorizing the County Executive to utilize the fund under certain circumstances as a short term remedy while longer term strategies are being developed.

#### **Focus**

The Board of Supervisors, during deliberations on the FY 1999 Carryover Review, approved the establishment of Fund 002, Revenue Stabilization Fund (RSF). The purpose of this fund is to provide a mechanism for maintaining a balanced budget without resorting to tax increases and expenditure reductions that aggravate the stresses imposed by the cyclical nature of the economy.

The Board of Supervisors established the Reserve under the directive that the Revenue Stabilization Fund will not be used as a method of addressing the demand for new or expanded services; it is solely to be used as a financial tool in the event of a significant economic downturn. Therefore, the Board of Supervisors established a policy for utilizing the Revenue Stabilization Fund that identified three specific criteria that must be met in order to make a withdrawal from the Fund:

- Projected revenues reflect a decrease greater than 1.5 percent from the current year estimate;
- Withdrawals from the Fund shall not exceed one-half of the fund balance in any fiscal year; and
- Withdrawals from the Reserve shall be used in combination with spending cuts or other measures.

The Revenue Stabilization Fund has a target balance of 3.0 percent of General Fund disbursements. The Fund shall be separate and distinct from the County's 2.0 percent Managed Reserve, which was initially established in FY 1983. However, the aggregate balance of both reserves shall not exceed 5.0 percent of General Fund disbursements.

### Fund 002 Revenue Stabilization

The target balance of 3.0 percent of General Fund disbursements was to be accomplished by transferring funds from the General Fund over a multi-year period. The Board of Supervisors determined that a minimum of 40 percent of non-recurring balances identified at quarterly reviews would be transferred to the Revenue Stabilization Fund and the Fund would retain the interest earnings on the balance, and the retention of interest would continue until the Reserve was fully funded. It should be noted that as a result of Board of Supervisors' approved general fund transfers along with projected interest earnings the fund achieved fully funded status in FY 2006 by reaching its target level of 3.0 percent of General Fund disbursements. Based on the projected earnings on the balance in the fund and depending on the average yield for the portfolio, it is anticipated that the fund will remain fully funded by retaining its interest earnings. However, if adjustments to disbursements result in a target level which exceeds the amount of interest projected to be earned by the fund, a General Fund Transfer to this fund would be required to maintain the 3.0 percent of disbursements fully funded target level. Conversely, if the amount of interest projected to be earned by the fund exceeds the amount required to maintain fully funded status, Fund 001, General Fund, will retain the additional interest earnings.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

There have been no revisions to this fund since approval of the <u>FY 2008 Adopted Budget Plan</u>.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

| <b>Total Available</b>             | \$96,683,018      | \$99,913,731                      | \$101,476,940                     | \$101,288,083                        | \$101,476,940                     |
| Transfer Out:                      | \$0               | \$0                               | \$0                               | \$0                                  | \$0                               |
| <b>Total Disbursements</b>         | \$0               | \$0                               | \$0                               | \$0                                  | \$0                               |
| <b>Ending Balance</b> <sup>2</sup> | \$96,683,018      | \$99,913,731                      | \$101,476,940                     | \$101,288,083                        | \$101,476,940                     |

<sup>&</sup>lt;sup>1</sup> Based on projected General Fund revenue growth in FY 2009, County Disbursements are projected to grow at a constrained level. As a result the fund will not need to retain interest earnings in FY 2009 to meet the 3.0 percent targeted level. Interest earnings on the Revenue Stabilization Fund balance will be retained by Fund 001, General Fund.

<sup>&</sup>lt;sup>2</sup> Fluctuations in the ending balance reflect the Board of Supervisors policy that a minimum of 40 percent of non-recurring balances identified at quarterly reviews would be transferred to the Revenue Stabilization Fund until it was fully funded and the policy that the fund will retain the interest earnings on this balance and/or will receive additional transfers from the General Fund to remain fully funded.

### **Special Revenue Funds**

#### **Overview**

Special Revenue Funds account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. These proceeds include state and federal aid, income derived through activities performed by the Solid Waste Management Program, special levies, program activity revenue and operation of the public school system. The funds that are classified within the Special Revenue Funds group are listed below.

#### STATE AND FEDERAL AID

These funds administer programs that benefit Fairfax County residents in accordance with County policy. Included are funds for programs that attempt to identify and alleviate the causes of poverty; manage grant resources for a variety of County programs ranging from public safety to human services issues; aid aging citizens within Fairfax County; and conserve and upgrade low and moderate-income neighborhoods.

- Fund 102 Federal/State Grant Fund
- Fund 103 Aging Grants and Programs
- Fund 106 Fairfax-Falls Church Community Services Board
- Fund 142 Community Development Block Grant
- Fund 145 HOME Investment Partnership Grant

#### CONSOLIDATED COMMUNITY FUNDING POOL

These grants enable community-based organizations to leverage their existing program funding to provide services that are most appropriately delivered by non-governmental organizations. Starting in FY 2001, the Consolidated Community Funding Pool initiated grant awards on a two-year funding cycle to provide increased stability for the community-based organizations. Prior to FY 2001, the County awarded grants from the pool on a one-year cycle.

Fund 118 – Consolidated Community Funding Pool

#### **INFORMATION TECHNOLOGY (IT)**

This fund supports the critical role of information technology in improving the County's business processes and customer service, and in recognition of the ongoing investment necessary to achieve such improvements.

Fund 104 - Information Technology

#### FAIRFAX-FALLS CHURCH COMMUNITY SERVICES BOARD (CSB)

Funding to support CSB programs in the areas of mental health, mental retardation, and alcohol and drug services is derived from a variety of sources including the cities of Fairfax and Falls Church, the state and federal governments, client/program fees and transfers from the General Fund.

Fund 106 - Fairfax-Falls Church Community Services Board

### **Special Revenue Funds**

#### **SOLID WASTE MANAGEMENT**

These funds provide for the collection and disposal of refuse within Fairfax County, as well as the disposal of refuse delivered by local jurisdictions. Revenue is derived from collection and disposal charges of the various program components.

- Fund 108 Leaf Collection
- Fund 109 Refuse Collection and Recycling Operations
- Fund 110 Refuse Disposal
- Fund 112 Energy/Resource Recovery Facility (E/RRF)
- Fund 114 I-95 Refuse Disposal

#### **COMMUNITY CENTERS**

These funds provide for the construction, operation, and maintenance of community centers for use by the residents within the special tax districts who pay a special levy based on assessed value of real property.

- Fund 111 Reston Community Center
- Fund 113 McLean Community Center
- Fund 115 Burgundy Village Community Center

#### **INTEGRATED PEST MANAGEMENT PROGRAM**

The Integrated Pest Management Program gains revenue through a special countywide tax levy on residential, commercial, and industrial properties to allow for the treatment of the gypsy moth, cankerworm and emerald ash borer population as well as the prevention of the West Nile Virus. It should be noted that upon Board of Supervisors' approval of the service district amendments in June 2003, this fund was renamed from Forest Integrated Pest Management Program to Integrated Pest Management Program.

Fund 116 - Integrated Pest Management Program

#### **CONTRIBUTORY AGENCIES**

This fund was established to reflect the General Fund support of contributory agencies. Funding for the County's contribution to various organizations and/or projects are reflected in this fund. Support of this program was previously included in the General Fund in Agency 88, Contributory Agencies. However, because the expenditures made to these organizations are typically not in direct support of County operations, a separate fund was established.

Fund 119 - Contributory Fund

#### **E-911 FUNDS**

This fund was created to satisfy a state legislative requirement that E-911 revenues and expenditures be accounted for separately. All expenditures associated with the Public Safety Communications Center (PSCC) are budgeted in this fund.

Fund 120 - E-911

### **Special Revenue Funds**

#### **DULLES RAIL PHASE I TRANSPORTATION IMPROVEMENT DISTRICT**

The District was formed by the Board of Supervisors on February 23, 2004 based on petition of the owners of commercial and industrial property in order to fund the extension of the Metro line in the vicinity of the West Falls Church station to a point in the vicinity of Wiehle Avenue, including construction of five new stations. The owners of industrial and commercial property within the District are subject to a maximum additional tax assessment of 22 cents per \$100 of assessed value before approval of a Full Funding Grant Agreement (FFGA) by the federal government. No expenditures from the District can be made prior to approval of the FFGA.

Fund 121 – Dulles Rail Phase I Transportation District Improvements

#### **COUNTY AND REGIONAL TRANSPORTATION**

These funds provide for planning, coordinating and implementing a multi-modal transportation system for Fairfax County that moves people and goods, consistent with the values of the community.

Fund 124 - County and Regional Transportation Projects

#### **PROGRAM ACTIVITY REVENUE**

The primary sources of revenue for program activity funds are derived from receipts generated through program operations. These funds support the County's bus and commuter rail service, and the County's cable operations.

- Fund 100 County Transit Systems
- Fund 105 Cable Communications

#### **OPERATION OF THE PUBLIC SCHOOL SYSTEM**

These funds provide for recording expenditures required to operate, maintain, and support the Fairfax County Public School system programs, as well as the procurement, preparation, and serving of student breakfasts, snacks, and lunches. Primary sources of revenue include federal and state aid, transfers from the General Fund and receipts derived through food sales.

- Fund 090 Public School Operating
- Fund 191 Public School Food and Nutrition Services
- Fund 192 Public School Grants and Self-Supporting Programs
- Fund 193 Public School Adult and Community Education

#### **DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT**

Narratives for Fund 141, Elderly Housing Programs; Fund 142, Community Development Block Grant; Fund 143, Homeowner and Business Loan Programs; Fund 144, Housing Trust Fund; and Fund 145, HOME Investment Partnership Grant can be found in the Housing and Community Development Programs section of this Volume.

# Fund 090 **Public School Operating**

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors increased the FY 2009 General Fund Transfer to the Fairfax County Public Schools by \$40.0 million over the proposed transfer for School operations. The FY 2009 General Fund Transfer for school operations totals \$1,626,600,722, an increase of \$40,000,000, or 2.52 percent, over the FY 2008 Revised Budget Plan transfer of \$1,586,600,722.

#### **Focus**

Expenditures required for operating, maintaining and supporting the instructional program of Fairfax County Public Schools (FCPS) are recorded in Fund 090, Public School Operating. These expenditures include the costs for salaries and related employee benefits, materials, equipment and services to continue current programs, as well as costs for projected changes in membership and inflation. Revenue to support these expenditures is provided by a transfer from the County General Fund, state and federal aid, tuition payments from the City of Fairfax, as well as other fees and transfers.

It should be noted that the following fund statement reflects the FY 2009 Fairfax County Public School Superintendent's Proposed Budget, which was released on January 10, 2008 and included a request for a 3.5 percent increase to the General Fund transfer. Adjustments to the Superintendent's Proposed Budget, adopted by the Fairfax County School Board on February 14, 2008 were discussed in the Overview Volume of the County's FY 2009 Advertised Budget Plan. All financial schedules included in the FY 2009 Adopted Budget Plan reflect a funding level equal to a \$40.0 million increase over the FY 2008 General Fund Transfer as approved by the Board of Supervisors on April 28, 2008. The County General Fund Transfer for School operations in FY 2009 totals \$1,626,600,722.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$91,457 has been reflected as an increase to FY 2007 revenues and an audit adjustment in the amount of \$1,103,541 has been reflected as an increase to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on November 29, 2007 during their FY 2008 Midyear Review. The Fairfax County School Board adjustments were officially reflected in the County's FY 2008 Third Quarter Review, which was acted upon by the Board of Supervisors on April 21, 2008.

<sup>&</sup>lt;sup>3</sup> Reflects an additional \$24,991,434 in projected FY 2008 ending balance to be carried over to fund the FY 2009 budget.

<sup>&</sup>lt;sup>4</sup> The <u>FY 2009 Adopted Budget Plan</u> expenditures have not yet been adjusted as a result of the additional \$40 million provided by the

Board of Supervisors as part of their deliberations on the FY 2009 budget pending School Board adoption of their FY 2009 budget. Final adjustments will be reflected at the FY 2008 Carryover Review.

## Mission

To provide safe, reliable, clean and effective public transportation service that complements the other elements of the multi-modal transportation system in Fairfax County and provides a cost-saving alternative to Washington Metropolitan Area Transit Authority (WMATA) Metrobus service. To fund the County's share of operating costs for the Virginia Railway Express (VRE).

### **Focus**

### **FAIRFAX CONNECTOR Bus System**

Fund 100, County Transit Systems, provides funding for operating and capital expenses for the FAIRFAX CONNECTOR bus system, comprising the Huntington, Reston-Herndon and the West Ox Divisions. The Fairfax County Department of Transportation (FCDOT) manages, oversees and coordinates the activities of the FAIRFAX CONNECTOR bus system, which by the end of FY 2009 is expected to operate 68 routes

providing both intra-county service and access to Metrorail stations serving County residents. FAIRFAX CONNECTOR is operated private contractors. **FAIRFAX** 202 **CONNECTOR** utilizes authorized buses, and an additional 30 rebuilt buses as a reserve fleet. These buses operate from two existing bus operations centers at Huntington and Reston-Herndon, owned by the County, and from a new bus operations center to be opened at West Ox.

Total FY 2009 funding of \$60,505,917 is provided for the FAIRFAX CONNECTOR. The budget incorporates proposed increases to fund FY 2009 partial year operations of the new West Ox Bus Operations Center, costs associated with new operational and service contracts for CONNECTOR operations, updated pricing on replacement buses for the annual bus replacement program, and additional estimated CONNECTOR fuel costs based on continuing increases in diesel fuel prices.

The West Ox Bus Operations Center, at the intersection of West Ox Road and Lee Highway, entered the construction stage in FY 2007 and construction is slated for completion in fall 2008. The site eventually could support 300 buses. It will be used jointly by Fairfax County CONNECTOR service and WMATA, which contributed to the capital costs of the project. Phase I will have a total maximum space for 100 WMATA buses and 75 County buses. Under the Joint Use Agreement with WMATA, WMATA will pay its share of on-going operating and maintenance costs to the County.

The West Ox Division will commence revenue service in the first half of 2009, with a planned 10 bus routes connecting Centreville and Chantilly with the Vienna – Fairfax/GMU

Picture of the West Ox Bus Operations Center under construction, slated for completion in fall 2008.

Metrorail Station. The new center will provide more optimal and effective service to the western portion of the County and initially will house new FAIRFAX CONNECTOR services that will replace WMATA's 12s and 20s non-regional Metrobus routes, as approved by the Board of Supervisors in February 2006. In FY 2009,

total projected County costs of \$3.7 million for bus routes and facility costs, and WMATA share of facility costs of \$1.7 million, are included in the budget for an anticipated 5 months of total West Ox Division costs. WMATA's share of facility costs are offset by \$1.7 million in WMATA revenue. In late FY 2009 and/or future years some existing FAIRFAX CONNECTOR bus routes now operating from other divisions may be shifted to the West Ox location to optimize service. Newly available funds, resulting from the General Assembly's April 2007 approval of House Bill (HB) 3202 enabling the County to implement an increase in the commercial real estate tax in support of transportation, will be available in FY 2009 and future years to expand CONNECTOR bus services. The fixed operational costs of a new facility will therefore be spread over, and support, a greater number of bus service hours.

FY 2009 service in the Huntington Division will consist of 26 routes providing local service to the Huntington, Van Dorn and Franconia-Springfield Metrorail Stations, express service to the Pentagon Metrorail Station and cross-county service between Springfield and Tysons Corner.

FY 2009 service in the Reston-Herndon Division will consist of 32 routes. The operation includes express service from Reston and Herndon to the West Falls Church – VT/UVA Metrorail Station, express service from Reston to the Pentagon and Crystal City, local service between Herndon, Reston, and Tysons Corner, local service within Reston, and cross-county service between Fair Oaks and Reston.

In order to provide assistance to customers who use public transit services, FCDOT installed SmarTrip-capable fareboxes in late FY 2007. The new technology has proven successful in offering CONNECTOR riders ease of fare payment by swiping a SmarTrip debit card, thereby greatly reducing waiting times associated with the

payment of cash fares. It is anticipated that SmarTrip usage on FAIRFAX CONNECTOR will continue to increase over the next few years.

As part of Fairfax County's participation in the Sierra Club "Cool Counties" initiative, in the first quarter of FY 2008, FAIRFAX CONNECTOR equipped all buses with front-mounted bike racks able to carry two bikes. Bike racks have been well received across the County by FAIRFAX CONNECTOR riders, as they offer a healthier, more environmentally friendly commuting choice.

To address the concerns of the special needs population in Fairfax County, FAIRFAX

CONNECTOR has implemented a policy for the securing of mobility devices that meets Americans with Disabilities Act (ADA) requirements. In addition, all buses in the FAIRFAX CONNECTOR fleet were made 100 percent wheelchair accessible in FY 2008.

In response to a facility audit, FCDOT began a facility restoration project at the Herndon Operations Center to meet current transit, safety, and ADA requirements. In FY 2007 and FY 2008, Phase I addressed emergency electrical, plumbing and roof repairs. Phase II, to begin after the opening of the West Ox Bus Operations Center, will renovate and expand the facility, adding a second office administrative level, providing storage for tires, and creating training space.

FCDOT continues it's commitment with the Emission Reduction Program as an agency focus. The program comprises the following four components: 1) Converting the fleet to Ultra Low Sulfur Diesel fuel; 2) Reducing idling, and programming bus engines for auto shut-down; 3) Re-powering 30 foot buses to reduce horsepower and emission output; and 4) Installing Diesel Particulate Filters (DPF) on the existing fleet. Toward the end of FY 2007 and during early FY 2008, FAIRFAX CONNECTOR received and placed into service 68 new buses and upgraded almost 34 percent of the authorized fleet. These buses are the first ordered with state-of-the-art factory equipped emission reduction equipment. They also are FAIRFAX CONNECTOR's first low-floor buses. All new bus acquisitions will be in compliance with Environmental

Protection Agency (EPA) mandates. An additional 26 replacement buses are on order for delivery during the first half of FY 2009.

Timely replacement of aging FAIRFAX CONNECTOR buses is ensured by following a Board approved FAIRFAX CONNECTOR Transit Bus Fleet Replacement Policy, which includes a FAIRFAX CONNECTOR bus replacement schedule based on a 12-year useful life cycle. Approximately seven percent of the fleet is replaced annually so that future bus service reliability is sustained, fluctuations in annual requirements are reduced, and the fleet stays fresh. Funding is included in the FY 2009 budget for the replacement of 15 FAIRFAX CONNECTOR buses that will reach established replacement criteria.

Coupled with the above is a rebuilding program that enables the FAIRFAX CONNECTOR to take retired buses and create a reserve fleet. This program is presently funded to rebuild 30 buses with new engines, transmissions, bulkheads, wheelchair lists and other major components. These rebuild buses enable the FAIRFAX CONNECTOR to have a more adequate spare ratio to address maintenance campaigns should they arise, provide more protection to the active fleet, allow for the deployment of strategic buses to provide system reliability and dependability, enable training without impacting service delivery and provide a contingency fleet in the event of unforeseen regional emergencies.

### **Commuter Rail**

Fund 100, County Transit Systems, includes the County's share of the subsidy for commuter rail services operated by the Virginia Railway Express (VRE). The Board of Supervisors approved the County's participation in the regional rail service on August 1, 1988. The service is a joint effort among the Northern Virginia Transportation Commission (NVTC), the Potomac and Rappahannock Transportation Commission, the Virginia Department of Rail and Public Transportation, and the participating jurisdictions of Fairfax County, Manassas, Manassas Park, Fredericksburg, Prince William County, and Stafford County. The City of Alexandria and Arlington County are also contributing jurisdictions.

The operation and maintenance costs associated with the commuter rail system are funded from a combination of ridership revenues (which accrue directly to VRE), state contributions and contributions from the participating and contributing local jurisdictions. According to the Master Agreement, at least 50 percent of the operating costs must be paid by passenger fares, with the remainder funded by the participating jurisdictions. The estimated FY 2009 subsidy is \$5.51 million, an increase of \$0.81 million or 17 percent over the FY 2008 Revised Budget Plan. Factors driving this increase include using the jurisdictional subsidy to replace one-time federal funding used by VRE in FY 2008 to subsidize the operating budget, full debt service payments for the purchase of 50 new bi-level railcars (as approved by the Board of Supervisors in April 2006), and VRE-projected increases in fuel, locomotive maintenance, operating expenses and insurance.

In FY 2009 Fairfax County's anticipated share of the local jurisdictional contribution to VRE is approximately 31.9 percent, based on the second year of a phased-in change to the allocation formula which apportions financial responsibility to participating jurisdictions. The VRE and participating jurisdictions approved a change in the formula to transition from the previous calculation based on 90 percent ridership and 10 percent population, to a purely ridership-based formula more favorable to Fairfax County.

It was previously anticipated that VRE would have an additional source of operating and

capital funding support for the FY 2009 budget year. On April 4, 2007, the General Assembly approved the Governor's substitute for House Bill 3202 (HB 3202). Under the provisions of this legislation, on January 1, 2008 the Northern Virginia Transportation Authority (NVTA) implemented a series of taxes and fees

to support Northern Virginia transportation projects and services, Metro, and \$25 million in annual funding for VRE operating and capital expenses. In February 2008 the Virginia Supreme Court ruled that the taxing authority of the NVTA was unconstitutional, invalidating the NVTA taxes and fees that were this source of this revenue. Discussions will continue at the State level on how best to replace this funding to meet the transportation challenges of northern Virginia, Metro and the VRE.

# **General Fund Impact**

The FY 2009 General Fund Transfer to Fund 100 is \$35,867,083, an increase of \$1,200,000 or 3.5 percent over the FY 2008 Revised Budget Plan. This increase supports price increases in the cost of diesel fuel for CONNECTOR buses. In addition to General Fund Transfer support, \$12,000,000 in newly authorized State Aid support for mass transit and \$512,496 available in County State Aid balances held at the Northern Virginia Transportation Commission (NVTC) will support other FY 2009 projected expenditures. The newly authorized mass transit support results from a provision within HB 3202 that provides for an earmark for mass transit of 2 cents per \$100 of State recordation tax collections. This funding portion of the HB 3202 was unaffected by the recent Virginia Supreme Court decision.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Connecting People and Places   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Meet the future bus transportation needs of Fairfax County through the opening of the new West Ox Bus Operations Center in the second half of FY 2009. This Center will initially provide a base for the Centerville/Chantilly routes replacing routes taken over from WMATA, subsequent to Board of Supervisor approval in February 2006. In the future it will also allow some existing bus service routes serving the northern and western part of the County to be shifted to the West Ox location for more optimal and cost-effective service, as well as provide the capacity to expand existing and new bus routes within the County. |                   | K                     |
| Connecting People and Places   | Recent<br>Success | FY 2009<br>Initiative |
| Continue the support of future railcar capacity for VRE through subsidy funding to support debt service on 50 additional cars purchased in 2006. Financing for the 50 cars was obtained from a Federal Railroad Administration (FRA) loan and was  |                   | lacksquare            |
| approved by all VRE members participating in funding debt service costs. Federal and state funds also support the financing.   |                   |                       |

| Practicing Environmental Stewardship   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to focus on environmentally friendly transit through the FCDOT Emission Reduction Program. This program is comprised of the following four components: 1) Conversion of the fleet to Ultra Low Sulfur Diesel fuel (completed in FY 2007); 2) Reducing idling and programming bus engines for auto shut-down; 3) Re-powering 30 foot buses to reduce horsepower and emission output; and 4) Installing Diesel Particulate Filters (DPF) on the existing fleet. | ð                 | ¥                     |
| Continue the replacement of FAIRFAX CONNECTOR buses with low-floor and EPA compliant buses, with state-of-the-art factory equipped emission reduction equipment. FCDOT received the first order of new buses in FY 2007 equipped with emissions reduction equipment that comply with federal regulations.  | ď                 | ¥                     |
| Continue the replacement of FAIRFAX CONNECTOR support vehicles with hybrid vehicles.   |                   |                       |
| <b>Exercising Corporate Stewardship</b>  | Recent<br>Success | FY 2009<br>Initiative |
| In order to provide the best bus service possible, continue to work both internally and with service provider contractors to implement driver safety, customer service, and vehicle maintenance programs with the goal of providing safe, timely and reliable service in a customer service-oriented culture.  | ď                 | $ \mathbf{Z}$         |

# **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Increased Funding in Support of FAIRFAX CONNECTOR Services

\$11,940,951

An expenditure budget increase of \$11,940,951 includes an accounting change of \$5,300,000 for the County direct collection of farebox revenues to maintain appropriate internal control over revenue. In prior years this collection was performed by the bus operations contractor and taken as a credit against contractor expenditures. In addition, an increase of \$6,640,951 is included for contractual and insurance requirements, including adjustments to inflate the current bus operations contract rate for an anticipated partial year increase for a new bus operations contract for the Reston-Herndon and Huntington Divisions, as well as increases to other contracts such as the telephone information center and CONNECTOR stores based on new pricing under renegotiated contracts and contract inflation rates. It is noted that the current Reston Herndon contract expires in fall 2008 and the Huntington contract in spring 2009.

# ♦ West Ox Bus Operations Center

\$5,397,985

The amount of \$5,397,985, including total projected County costs of \$3,675,341 for five months of West Ox bus route and facility costs and WMATA facility costs of \$1,722,644 million, are included in the budget. Construction of the new West Ox Bus Operations Center is scheduled for completion in October 2008, and bus revenue service to commence in February or shortly thereafter. West Ox facility and fuel costs are offset by \$1,722,644 in estimated WMATA payments for its portion of costs. It is noted that, as a result of the County's provision of Centreville/Chantilly bus service in areas previously serviced by WMATA's 12s and 20s routes, expenditures in Fund 100, County Transit Systems increase, while the County subsidy to WMATA in Fund 309, Metro Operations and Construction, decreases.

# **♦** Department of Vehicle Services Charges

\$1,673,262

An increase of \$1,673,262 for Department of Vehicle Services (DVS) charges based on continuing increases in the price of fuel.

### ♦ Virginia Railway Express (VRE) Local Jurisdiction Subsidy Increase

\$987,155

An increase of \$987,155, or 21 percent over the *FY 2008 Revised Budget Plan*, is included to fund Fairfax County's estimated share of VRE expenses. The Fairfax County FY 2009 anticipated VRE subsidy total of \$5,687,663 is based on replacing one-time federal capital funding used by VRE in FY 2008 to subsidize the operating budget, full debt service payments for the purchase of 50 new bi-level railcars (as approved by the Board of Supervisors in April 2006), and VRE-projected increases in fuel, locomotive maintenance, operating expenses, and insurance.

# **♦ FAIRFAX CONNECTOR Bus Replacement**

\$396,338

An increase of \$396,338 for an annual inflationary increase, combined with \$5,103,662 already included in the baseline FY 2008 budget, will allow for the purchase of 15 replacement FAIRFAX CONNECTOR buses in FY 2009. Bus replacements follow a replacement schedule to more equally spread out the rate of bus replacements.

### **♦** Carryover Adjustments

(\$20,650,260)

A decrease of \$20,650,250 due to the carryover of one-time expenses included as part of the *FY 2007 Carryover Review*, including \$16,282,874 in encumbered carryover, \$1,808,386 in unencumbered carryover for continuing urgent repairs to the Reston/Herndon Bus Operations Center, and \$2,559,000 in other increases primarily to appropriate new Northern Virginia Transportation Commission (NVTC) funds in support of one-time facility and fleet requirements.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ Fuel Costs \$1,650,000

An increase of \$1,650,000 for Department of Vehicle Services charges is based on anticipated requirements due to higher costs for unleaded and diesel fuels. An increase in the General Fund Transfer will support this adjustment.

### **♦** County Subsidy for Commuter Rail (VRE)

(\$179,858)

As part of its deliberations on the FY 2009 budget, the Board of Supervisors reduced expenditures by \$179,858 for the County subsidy for VRE, based on adjustments made and adopted by VRE in its final budget plan. The General Fund Transfer is also decreased by \$179,858.

# ♦ EZ Bus to Burke VRE Station

(\$270,142)

As part of its deliberations on the FY 2009 budget, the Board of Supervisors reduced expenditures and General Fund Transfer support of EZ Bus Service to the Burke VRE Station, based on the planned completion of newly constructed parking at the VRE Station by the beginning of FY 2009, eliminating the need for bus service from a remote lot.

# **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

## **♦** Carryover Adjustments

\$20,350,768

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$20,350,768, including a one-time decrease of \$299,492 for the Virginia Railway Express (VRE) based on the spring 2007 approval of a change in the subsidy allocation formula by all jurisdictions participating in the VRE Master Agreement, and other increases of \$20,650,260. These increases included \$16,282,874 in encumbered carryover associated with the purchase of replacement buses, equipment for the new West Ox Bus Operations Center, Bike Rack installation on all CONNECTOR buses, EPA compliance equipment for CONNECTOR divisions, and the CONNECTOR engine liner replacement program. In addition, \$1,808,386 in unencumbered carryover supported by NVTC funds was associated with urgent repairs to the Reston/Herndon Bus Operations Center. Repair work continued into FY 2008 due to the complexity of the project which included a roof replacement, a bus wash replacement system conforming to EPA clean water standards, electrical upgrades and a stormwater management pond. The FY 2007 Carryover Review also included \$2,559,000 in other increases, including the appropriation of proffer revenue and Fund 307 Pedestrian Walkway funds to continue 15 minute intervals for the Reston-Tysons CONNECTOR Route 505 line, as well as the appropriation of new NVTC funds primarily for continuing lease costs of the Springfield Park and Ride lot, additional equipment and software requirements for the new West Ox Bus Operations Center, continuation of the rebuild program to extend the life of CONNECTOR buses, interim bus storage costs while repairs continue at the Reston-Herndon facility, and the installation of solar power lights at additional bus stops.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

\$2,158,227

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$2,158,227. Of this amount, \$1,358,227 reflects funds available at the Northern Virginia Transportation Commission and supports five CONNECTOR projects to address safety issues, a new facility opening, and essential revenue handling equipment. These projects include \$518,227 for the timely placement of orders for furniture, office equipment, and technical consulting support for the new West Ox Bus Operations Center; \$400,000 for eight mobile lifts in the Herndon garage to replace unsafe lifts that cannot accommodate the heavier model buses now being used; \$200,000 for the replacement of exhaust hoses and fans in existing bus garages to meet safe temperature ratings; \$160,000 for bill validators for fare boxes on all buses to read the new United States Treasury \$5 bill not recognized by current validators, and \$80,000 in one-time NVTC support of additional liability insurance coverage through the Virginia Transit Liability Pool. In addition, \$800,000 reflects an accounting adjustment increasing expenditures, because revenue now received by the County from the new SmarTrip cards will be booked as a revenue rather than received by the bus operations contractor and applied as an expenditure credit.

# **Cost Centers**

There are two main cost centers in Fund 100, County Transit Systems. The first represents the FAIRFAX CONNECTOR bus service, including two existing divisions, Huntington and Reston-Herndon, as well as the West Ox division due to open in FY 2009. The second cost center is focused on Commuter Rail, the Virginia Railway Express (VRE).

# Fairfax Connector 🛱 💲 🛅

# **Key Performance Measures**

# **Objectives**

- ♦ To provide service to 10,901,053 FAIRFAX CONNECTOR passengers in FY 2009, including new passengers served through the West Ox Division. This amount reflects an increase of 7.14 percent from FY 2008.
- ♦ To provide an exemplary transit bus system, which is cost effective and competitive in the Washington Metropolitan Region by providing 582,289 platform hours of service and 9,450,735 platform miles of service in FY 2009.

<sup>(1)</sup> The new West Ox Bus Operations Center is projected to begin operations in mid-FY 2009, increasing the number of passengers served in the latter part of the year. The increase in passengers transported represents an increase of 5.73 percent for the existing Reston-Herndon and Huntington Divisions, and an additional increase of 1.41 percent attributable to the new West Ox Division.

# **Performance Measurement Results**

The FAIRFAX CONNECTOR has an authorized fleet level of 202 buses. This level includes 26 buses approved by the Board of Supervisors in late FY 2006 to support the transition of Metrobus non-regional 12s and 20s routes to the FAIRFAX CONNECTOR. The additional buses currently operate from the Huntington and Reston-Herndon CONNECTOR Divisions, pending the opening of the new West Ox Operations Center in FY 2009.

The new West Ox Bus Operations Center will add an additional 10 routes to those now provided. It is estimated that after opening to service in the latter part of FY 2009, West Ox will serve 248,053 passengers on the Centreville/Chantilly routes previously serviced by WMATA's 12s and 20s buses, providing primarily commuter service for residents traveling to and from the Vienna – Fairfax/GMU Metrorail Station.

<sup>(2)</sup> The County subsidizes CONNECTOR operating costs from County General Fund dollars, bus advertising revenue, proffer funding, State reimbursements, and State Aid available through NVTC. The FY 2008 operating subsidy includes FY 2007 encumbered carryover of \$5.7 million for the Huntington and Reston-Herndon divisions for one-time projects and outstanding contractor payments; it does not include \$4.2 million for West Ox start-up equipment and a revenue handling system funded through State Aid at NVTC, since these items need to be purchased prior to the start of operations and do not represent an operational cost. The FY 2009 operating subsidy includes 5 months costs of the new West Ox division, scheduled to open during FY 2009. FY 2009 WMATA estimated costs of \$1,722,644, for WMATA's share of space and operations at the new West Ox Bus Operations Center, are fully covered by revenue received from WMATA, and are not reflected in the operating costs and operating subsidy.

The performance data is strong evidence that the FAIRFAX CONNECTOR is succeeding in its goal of providing safe, timely and reliable service with an emphasis on customer service. For example, over two years, the FAIRFAX CONNECTOR experienced a 15 percent increase in ridership from 8,474,143 in FY 2005 to 9,717,392 in FY 2007. The FAIRFAX CONNECTOR's FY 2007 total number of adverse comments was slightly higher than anticipated, at 16 per 100,000 passengers, as a result of late arriving buses due to traffic congestion.

The FAIRFAX CONNECTOR, through internal efforts, has optimized existing service and increased ridership while sustaining the current level of service. Overall system ridership is projected to steadily grow in FY 2008 and FY 2009. Due to the increased usage of the SmarTrip farecard combined with anticipated passenger growth, farebox revenues are expected to increase in FY 2009.

# **Key Performance Measures**

# **Objectives**

♦ To provide a reliable alternative mode of transportation to Fairfax County residents utilizing the Virginia Railway Express (VRE).

<sup>(1)</sup> County construction of a new garage and additional surface parking at the Burke Center Station will provide additional parking spaces.

# **Performance Measurement Results**

VRE ridership for Fairfax County decreased in FY 2007 to an estimated 753,620 annual boardings. Daily a.m. boardings at Fairfax County stations decreased to 1,538 in FY 2007, a decrease of 8.5 percent, due to chronic problems with on-time-performance. Recent FY 2008 data suggests that VRE efforts to address this issue have been effective, and that ridership is again increasing.

VRE efforts to maintain a cost-effective system resulted in the elimination of one low performing non-peak hour train in FY 2007; VRE eliminated another low performing non-peak hour train in FY 2008. Ensuring future capacity on crowded lines, VRE signed a contract with the Sumitomo Corporation of America for the purchase of 61 new bi-level railcars, including the initial purchase of 11 and an additional 50 railcars approved for financing in FY 2006; delivery will occur through FY 2009. The purchase of this equipment will help maximize the seating capacity of the VRE fleet. The addition of some of these railcars to the Manassas lines, where 3 of the County's stations are located, will positively affect the number of passengers boarding at Fairfax County stations in FY 2008 and FY 2009. Similarly, the availability of a new garage and surface parking lot in the final months of FY 2008 at the Burke Center station is anticipated to have a positive impact on Fairfax County ridership.

The commuter rail system needs more parking, rail cars, new stations and station improvements, rolling stock storage, and track improvements to keep pace with the existing and projected systemwide growth in demand. Continuing examination of the Rolling Road Station parking lot will determine what improvements can be implemented at that facility. Development proposals continue to be offered at the Backlick and Lorton VRE stations for possible enhancements.

The County annual VRE subsidy and subsequent cost per County VRE trip will rise in FY 2009 as a result of the impact of VRE-projected increases for debt service on 50 of the 61 ordered bi-level cars, fuel, maintenance, operating and insurance costs. The FY 2009 VRE subsidy increase also reflects, in part, the elimination of FY 2008 one-time federal capital revenue support applied to the operating budget.

<sup>&</sup>lt;sup>1</sup>Miscellaneous revenue reflects reimbursement from the Washington Metropolitan Area Transit Authority (WMATA) for the value of WMATA tokens collected on FAIRFAX CONNECTOR routes. In FY 2009, WMATA token revenue decreases due to a projected increase in SmarTrip and WMATA's plan to eliminate tokens.

<sup>&</sup>lt;sup>2</sup>FAIRFAX CONNECTOR bus revenue was previously collected by the bus operations contractor and applied against payments due to the contractor from the County, decreasing the County's expenditures. SmarTrip was implemented in mid FY 2008 with those revenues coming directly to the County. In FY 2009 the County will assume the collection of all revenues, including Farebox revenue. The FY 2009 expenditures are adjusted upwards from the FY 2008 Revised Budget Plan by the amount of \$4,500,000 to reflect this accounting change.

<sup>&</sup>lt;sup>3</sup>Funding provided by the Virginia Department of Rail and Public Transportation (VDRPT) for the Dulles Corridor Rapid Transit Project. Funding has remained relatively constant since FY 2003.

<sup>&</sup>lt;sup>4</sup> State Aid for operational costs of service in the Route One Corridor has been provided annually since FY 2005. FY 2007 revenue reflects State revenue for both the FY 2006 and FY 2007 Richmond Highway Grant.

<sup>&</sup>lt;sup>5</sup>In FY 2008 proffer funds were combined with a one-time transfer from Fund 307, Pedestrian Improvements, in support of the continuation of expanded services on FAIRFAX CONNECTOR Route 505 in Reston. FY 2008 represents the final year of applied Plaza America proffer balances supporting this service.

<sup>&</sup>lt;sup>6</sup>In FY 2009 the West Ox Bus Operations Center, currently under construction, will open as a joint use facility for WMATA and the County. WMATA is anticipated to occupy its share of the facility in mid FY 2009, and under the Joint Agreement, will reimburse the County for its share of facility and operating costs. In FY 2009, \$1,722,644 in expenditures, fully offset with revenue, is included for costs associated with WMATA square footage and operations. The balance of \$3,675,341 reflects County costs for its portion of the facility and 5 months of bus service operations. The FY 2008 Revised Budget Plan includes payments to the bus operations contractor for the purchase of startup equipment not included in the capital project, including fluid and revenue handling equipment, snow removal equipment, security cameras, tools/support equipment, office equipment and furniture, systems management software, and contractor technical assistance for equipment procurement and joint operating procedures.

<sup>7</sup> In FY 2009, \$12.0 million in new State transportation revenue for mass transit is projected to be available to support the operations of the FAIRFAX CONNECTOR. This new revenue results from the General Assembly's passage of HB 3202, which provides for a State earmark of 2 cents/\$100 of recordation tax collections for mass transit. This revenue is disbursed to the Northern Virginia Transportation Commission, where it is made available to the County.

<sup>8</sup> Northern Virginia Transportation Commission (NVTC) funds are appropriated in support of mass transit requirements, and have historically been used to support infrastructure needs within Fund 100. In FY 2009, NVTC funds support the opening of the new West Ox Bus Operations Center. In FY 2008, these funds supported the timely advance ordering of equipment, tools and software for the West Ox.Division. In addition, FY 2008 NVTC funds supported the purchae of safety-related garage equipments and new bill validators with the capacity to identify the new \$5 Treasury bill.

<sup>9</sup>A General Fund Transfer increase of \$1,200,000 over the prior year primarily reflects General Fund support for diesel fuel price increases, offset by savings from a lower than anticipated requirement for the Commuter Rail (Virginia Railway Express) subsidy based on the VRE adopted budget, and savings realized from EZ Bus service to the Burke VRE Station. That service is no longer needed due to the opening of new parking at the VRE Station, and a portion of the savings will support the timely opening of the new Burke Library.

<sup>10</sup> Fairfax County participates in the VRE Master Agreement, and provides an annual subsidy to Virginia Railway Express operations and construction. The FY 2009 Adopted County contribution to VRE is consistent with the VRE adopted budget. While it is a net increase over the FY 2008 subsidy, the FY 2009 subsidy incorporates the second year of savings realized by of a phased-in change to the subsidy allocation formula. The formula change was approved by the Board of Supervisors on April 30, 2007.

<sup>11</sup> The fund balance in Fund 100, County Transit Systems, is maintained at adequate levels relative to projected operating and capital equipment requirements. These costs change annually and a substantial percentage of unspent funding is carried forward each year, thus resulting in ending balances that fluctuate.

## Mission

To provide reserves for unanticipated and anticipated grants awarded to Fairfax County from federal, state, and other funding sources. The reserves enable Fairfax County to accept grant funding to enhance services provided to the residents of Fairfax County.

### **Focus**

In order to provide a comprehensive summary of grant awards to be received by the County in FY 2009, awards *already received* and awards *anticipated to be received* by the County for FY 2009 are included in the Fund 102, Federal/State Grant Fund budget. The total FY 2009 appropriation within Fund 102, Federal/State Grant Fund is \$67,035,439, an increase of \$8,443,389 or 14.4 percent, from the <u>FY 2008 Adopted Budget Plan</u> total of \$58,592,050 and includes both grant awards already received and grants that are anticipated. The total for grant awards already received is \$668,635 in FY 2009. Funds for grants held in reserve until the grant award is received and approved by the Board of Supervisors total \$66,366,804 in FY 2009.

In order to secure grant funding, the grantor often requires that a certain percentage of funds be matched from local funding sources. In FY 2009, the total General Fund commitment for Local Cash Match totals \$989,833 a decrease of \$3,956,079, or 80.0 percent, from the FY 2008 Adopted Budget Plan total of \$4,945,912. This decrease is due in part to the availability of new transportation money in Fund 124, County and Regional Transportation Projects will be utilized as the Local Cash Match for the Congestion Mitigation Air Quality (CMAQ) program, Job Access/Reverse Commute (JARC) program, and Federal Appropriations. Additionally, the General Fund commitment for Local

Cash Match has been reduced by \$2,000,000 due to the availability of Local Cash Match carried over from previous years. It should therefore be noted that although the FY 2009 anticipated need for Local Cash Match is \$2,989,833, only \$989,833 has been budgeted as the General Fund transfer for Local Cash Match. The FY 2009 Local Cash Match total for grant awards already received is \$668,635, while funds for grants held in reserve until the grant award is received and approved by the Board of Supervisors totals \$2,989,833, including \$989,833 from the General Fund and \$2,000,000 in Local Cash Match carried over from prior years.

Prior appropriation of the anticipated grants will allow for grants to be handled in an expeditious manner when actual awards are received. As specific grants are awarded and approved, a supplemental appropriation of the required funds is made to the specific agency or agencies administering a grant. This increase in a specific agency grant appropriation is offset by a concurrent decrease in the grant reserve. The list of anticipated grants to be received in FY 2009 was developed based on prior awards and the most recent information available concerning future awards. A detailed list of grant programs by agency, including a description of the grant programs funded, the number of positions supported, the residents served, and the funding sources (federal/state grant funds, General Fund support, and other support) is included. In addition, an amount of \$1,075,000, the same level as in FY 2008, is included as part of the reserve to allow for grant awards that cannot be anticipated.

Effective September 1, 2004, the Board of Supervisors established new County policy for grant applications and awards that meet certain requirements. If a grant is \$100,000 or less, with a required Local Cash Match of \$25,000 or less, with no significant policy implications, and if the grantor does not require Board of Supervisors' approval, the agency can work directly with the Department of Management and Budget to receive the award and reallocate funding from the anticipated/unanticipated reserve directly to the agency. If an award exceeds these limitations but was listed in the Anticipated Grant Awards table in the Adopted Budget for the current fiscal year, the Board of Supervisors' approval is not required unless the actual funding received differs significantly from the projected funding listed in the budget. For any grant that does not meet all of the specified criteria, the agency must obtain Board of Supervisors' approval in order to apply for or accept the grant award.

# **Appropriated Grant Awards**

The Community Oriented Policing Services (COPS) Grants from the U.S. Department of Justice (DOJ) are appropriated directly to the Police Department in the amount of \$668,635. The COPS grants are multi-year federal awards to localities aimed at increased community policing. The FY 2009 appropriation includes the third and final year of a COPS in Schools award received in FY 2006 of which no federal funding will be received and Local Cash Match funding of \$668,635 is required to be met within Agency 90, Police Department. For additional information please see Agency 90, Police Department in the Public Safety section of Volume 1.

<sup>&</sup>lt;sup>1</sup> It should be noted that sufficient Local Cash Match funding of \$772,496 (both appropriated grant awards totaling 668,635 and anticipated requirements totaling \$103,861), is available in Agency 90 to cover the General Fund obligation for all Agency 90, Police Department grants. The FY 2009 Local Cash Match total in Agency 90 includes funding sources carried over from previous fiscal years. Please see Agency 90, Police Department for additional information.

### **Funding in Reserve within Fund 102**

An amount of \$66,366,804 is included in FY 2009 as a reserve for grant awards. Grant awards are principally funded by two general sources – federal/state grant funding and Local Cash Match. The FY 2009 reserves for each of these sources are estimated for anticipated grant awards and for unanticipated grant awards. The Reserve for Grant Funding and the Reserve for Local Cash Match are shown on the fund statement as both estimated revenue and estimated expenditures.

In FY 2009, the Reserve for Grant funding is \$63,376,971, including the Reserve for Anticipated Grant Funding of \$62,376,971 and the Reserve for Unanticipated Grant Funding of \$1,000,000. This reflects an increase of \$9,745,907 or 18.2 percent from the FY 2008 Adopted Budget Plan Reserve for Grant Funding of \$53,631,064. This increase is primarily attributable to increased estimated funding for grants in the Department of Family Services, the Department of Transportation, and the Police Department.

In FY 2009, the Reserve for Local Cash Match is \$2,989,833 including the Reserve for Anticipated Local Cash Match of \$2,914,833 and the Reserve for Unanticipated Local Cash Match of \$75,000. This reflects a decrease of \$1,303,658, or 30.4 percent, from the FY 2008 Adopted Budget Plan Reserve for Local Cash Match of \$4,293,491. The decrease in Local Cash Match requirements is due primarily to a shift of anticipated Local Cash Match requirements from the General Fund to new funding in Fund 124, County and Regional Transportation Projects. The Reserve for Local Cash Match of \$2,989,833 includes \$989,833 budgeted as a transfer from the General Fund as well as \$2,000,000 in Local Cash Match carried over from prior years. The Reserve for Local Cash Match is a projection of the County contributions required for anticipated and unanticipated grant awards. Additionally, funding of \$103,861 in required Local Cash Match for Police Grants is available in Agency 90, Police Department. The anticipated Local Cash Match required by agencies is as follows:

|   | FY 2009 ADOPTED  |
|---|------------------|
| AGENCY  | LOCAL CASH MATCH |
| Office of the County Executive, Office of Partnerships        | \$44,000         |
| Department of Transportation                                  | \$112,500        |
| Department of Community and Recreation Services               | \$48,346         |
| Department of Family Services                                 | \$2,429,412      |
| Juvenile and Domestic Relations District Court                | \$28,575         |
| Police Department (available in Agency 90, Police Department) | \$103,861        |
| Fire and Rescue Department                                    | \$252,000        |
| Reserve for Unanticipated Grant Awards                        | \$75,000         |
| Total   | \$3,093,694      |

The following table provides funding levels for the <u>FY 2009 Adopted Budget Plan</u> for the fund including the awards in the reserves for anticipated and unanticipated awards. Actual grant awards received in FY 2009 may differ from the attached list.

The Centers for Disease Control provide funding for Focus Area A of the Bioterrorism Grant through the Virginia Department of Health to fund a position that serves the Fairfax/Falls Church Health District. The major goal is to have an emergency response plan that is coordinated with local agencies, hospitals, physicians, and laboratories in the County and the region. For FY 2009, total projected funding for Focus Area A is \$114,134 for 1/1.0 SYE grant position.

The Centers for Disease Control provide funding for Focus Area B of the Bioterrorism Grant through the Virginia Department of Health to fund a district epidemiologist who will provide surveillance and investigation of general communicable diseases, disease outbreaks and other diseases of public health significance in the County and region. For FY 2009, total projected funding for Focus Area B is \$85,766 for 1/1.0 SYE grant position.

The Centers for Disease Control provide funding through the Virginia Department of Health for a Community Arthritis Prevention and Control Project. The purpose of the project is to increase understanding of arthritis in some of its most common forms, to educate the community about the benefits of evidence-based intervention programs and select the interventions best suited for people with arthritis in Fairfax County, and to develop private and public partnerships to assist in promoting and marketing the availability of the programs.

| Pandemic Influenza Grant (71028G) | 0/0.0 | \$211,559 | \$0 | \$211,559 | \$0 |
|-----------------------------------|-------|-----------|-----|-----------|-----|
|-----------------------------------|-------|-----------|-----|-----------|-----|

The Centers for Disease Control and Prevention provide funding through the Virginia Department of Health for the purpose of supporting pandemic influenza preparedness and response. The intended use of this funding is to enhance the current pandemic influenza planning activities in Fairfax County. Fairfax County has taken a coordinated approach in pandemic influenza planning, which includes planning and outreach activities and working with partners in hospitals and private practice.

The Virginia Department of Criminal Justice Services has awarded funds to establish an Evening Reporting Center. The goal of the program is to provide a community-based alternative to detention for moderate and high-risk youth currently on probation who might otherwise be detained pending further court action. The 30 day program will provide highly structured group activities during the high-risk time period between 3 p.m. and 7 p.m., develop skills in youth that will support pro-social behaviors, and repair harm done to the community by providing community service opportunities. The project a is collaboration between the Juvenile and Domestic Relations District Court, the Department of Community and Recreation Services, the Department of Systems Management, Adult Detention Services and Fairfax County Public Schools. It should be noted that 1/1.0 SYE position supporting this grant is located in Agency 50, Department of Community and Recreation Services.

The responsibilities and procedures for national urban search and rescue activities provided by the Department's Urban Search and Rescue Team and National Medical Emergency Response Team are identified in memorandums of agreement with the Federal Emergency Management Agency (FEMA). Activities are performed at the request of a government agency and are provided at the option of the local jurisdiction. Upon activation, an appropriation is necessary to cover initial expenses for procuring or replacing emergency supplies and to cover Personnel Services expenditures. All expenditures related to activations are reimbursed by the appropriate agency requesting the deployment. This appropriation is restricted to the necessary expenditures resulting from the activation of the Fairfax County Urban Search and Rescue Team (VA-TF1) and the National Medical Emergency Response Team.

A memorandum with the U.S. Agency for International Development (USAID), Office of Foreign Disaster Assistance (OFDA) exists to provide emergency urban search and rescue services internationally. Funding is provided to enhance, support, and maintain the readiness of the Department's Urban Search and Rescue Team, equipment cache, and medical supplies. The last year of a five-year agreement is anticipated to begin in FY 2007. The total value of this agreement over the five-year grant period (exclusive of deployment costs) exceeds \$3,000,000. Application will be made to enter into another multi-year agreement and it is anticipated that OFDA will make the base year award in FY 2008. Based on the current award, required Local Cash Match for this program is 10 percent of personnel-related costs, including overtime.

The Department of Homeland Security (DHS) funds several initiatives to support state and local emergency preparedness efforts through its First Responder Programs, including the Urban Areas Security Initiative (UASI) program and Homeland Security Grant Program. The purpose of the UASI program is to allow local governments to enhance capabilities in the areas of law enforcement, emergency medical services, emergency management, fire service, public works, public safety communications, and public health through the purchase of response equipment that will be necessary to prepare for and respond to emergencies arising out of terrorist or other mass casualty events affecting public safety. The purpose of the Homeland Security Grant Program is to enhance the capacity of state and local emergency responders to prevent, respond to and recover from a weapons of mass destruction terrorism incident involving chemical, biological, radiological, nuclear and explosive devices and cyber attacks. The Homeland Security Grant Program combines several previous grants into one program, including the State Homeland Security Program, Law Enforcement Terrorism Prevention Program, and Citizens Corps Grant program. It is anticipated that Fairfax County will receive at least \$10,000,000 in FY 2008 through the DHS First Responder Programs.

<sup>&</sup>lt;sup>1</sup> Includes funding of \$103,861 in required Local Cash Match for Police Grants is available in Agency 90, Police Department. For additional information please see Agency 90, Police Department in the Public Safety section of Volume 1.

<sup>&</sup>lt;sup>2</sup> Funding for the FY 2009 appropriation for the Community Oriented Policing Services (COPS) Grants from the U.S. Department of Justice (DOJ) of \$668,635 is required to be met within Agency 90, Police Department. For additional information please see Agency 90, Police Department in the Public Safety section of Volume 1.

<sup>&</sup>lt;sup>3</sup> The total number of grant positions in Fund 102, Federal/State Grant Fund, includes 3/3.0 SYE additional positions (1/1.0 SYE Training and Exercise Coordinator, 1/1.0 SYE NIMS Compliance Manager and 1/1.0 SYE Security Analyst) that are not summarized in the *Anticipated Grant Awards* table. These positions in the Office of Emergency Management are associated with the Urban Areas Security Initiative Grant (02917G) and the Metropolitan Medical Response System (02919G). Although additional grant funding for these positions is not anticipated in FY 2009, the grant periods for awards already received extend through FY 2009, thus allowing the positions to continue through FY 2009. Therefore, the overall position total in Fund 102, Federal/State Grant Fund, is 323/319.5 SYE.

### Fund 102 Federal/State Grant Fund

<sup>1</sup>The <u>FY 2009 Advertised Budget</u> Beginning Balance reflects \$2,000,000 in available Local Cash Match carried over from previous years. It should therefore be noted that although the FY 2009 anticipated need for Local Cash Match is \$3,093,694, only \$1,093,694 has been budgeted as the General Fund transfer for Local Cash Match. Savings of \$2,000,000 will be identified as part of the *FY 2008 Carryover Review* from current Local Cash Match sources.

<sup>2</sup>The FY 2009 Adopted Budget Beginning Balance reflects \$2,000,000 in available Local Cash Match carried over from previous years. It should therefore be noted that although the FY 2009 anticipated need for Local Cash Match is \$2,989,833 only \$989,833 has been budgeted as the General Fund transfer for Local Cash Match. Savings of \$2,000,000 will be identified as part of the FY 2008 Carryover Review from current Local Cash Match sources.

<sup>3</sup> The FY 2008 Revised Budget Plan Beginning Balance reflects \$8,849,809 in Local Cash Match carried over from FY 2007, including \$3,031,601 in Local Cash Match previously appropriated to agencies but not yet expended and \$5,818,208 in the Reserve for Estimated Local Cash Match consisting of the balance of the Reserve not used during FY 2007 plus Local Cash Match returned to the Reserve as the result of grant closeouts. Thus, the total Reserve for Estimated Local Cash Match in FY 2008 is \$7,741,847.

<sup>4</sup> Emergency Preparedness grant funding is reflected as a separate category in order to centrally identify grant funds earmarked for security and emergency preparedness requirements. Agencies involved in this effort include the Office of Public Affairs, Department of Purchasing and Supply Management, Facilities Management Department, Department of Public Works and Environmental Services, Department of Transportation, Department of Family Services, Department of Information Technology, Health Department, Police Department, Office of the Sheriff, Fire and Rescue Department, and the Office of Emergency Management.

<sup>5</sup>The Ending Balance in Fund 102, Federal/State Grant Fund, fluctuates primarily due to timing, as some revenues received late in the fiscal year have not been by spent by June 30 as the time period for spending grant funds often continues beyond the end of the fiscal year.

#### Mission

To promote and sustain a high quality of life for older persons residing in Fairfax County by offering a mixture of services, provided through the public and private sectors, that maximize personal choice, dignity and independence.

#### **Focus**

Fund 103, Aging Grants and Programs, serves as the fiscal entity for federal and state grants awarded to the County primarily through the Virginia Department for the Aging. Grant funds are received and administered by the Fairfax Area Agency on Aging (AAA), part of the Adult and Aging Division within the Department of Family Services. With additional support from the County, these funds provide the following types of community-based services: case management/consultation services, legal assistance, insurance counseling, transportation, information and referral, volunteer services, home-delivered meals, nutritional supplements, congregate meals, fan care and cooling assistance, and services for and support to caregivers of older adults. In addition, the regional Northern Virginia Long-Term Care Ombudsman Program provides services to the residents of Alexandria, Arlington, Fairfax County, Fairfax City, Falls Church City, Loudoun County, Manassas, Manassas Park and Prince William County. For those older adults who cannot live independently in the community, staff and volunteers with the Northern Virginia Long-Term Care Ombudsman Program work with residents, families, and area nursing and assisted living facilities to provide information, assistance and mediation to ensure that residents' rights are being upheld.

Deriving its purpose and structure from the Federal Older Americans Act, which established local area agencies on aging, the AAA exists to provide community leadership on aging issues and to promote community-based programs and activities that enhance the quality of life for elderly persons and their caregivers. In addition to playing a key role linking practice and policy, the AAA serves as the focal point for the network of County and private sector agencies serving older adults. The AAA helps older adults remain in the community through the administration and coordination of social service programs for older persons whose needs are varied and may require intervention by one or more agency programs.

The Fairfax Area Commission on Aging (COA), appointed by the Board of Supervisors and the cities of Fairfax and Falls Church, serves as the official advisory body to the Fairfax Area Agency on Aging, the Board of Supervisors and the City Councils of Fairfax and Falls Church regarding local long-term care issues, legislative concerns, fiscal requirements, and program and policy issues. The COA has responsibility for tracking the success of the Board of Supervisors 50+ Action Plan, presenting an annual scorecard, and advising the Board of Supervisors about any aging-related issues. members are also represented on the Fairfax Long-Term Care Coordinating Council charged with implementing the strategic plan of the Citizen's Task Force for Long-Term Care.

Key driving forces of the Fairfax Area Agency on Aging's future direction is based on the increasing numbers of older adults, the diversity of older adults, the increasing incidence of disabilities among adults as they live longer, supporting family caregivers, and the increasing number of

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- Increasing public awareness;
- Connecting people to services;
- Promoting independent and supportive living;
- Improving an expanding long-term care workforce: and
- Creating a long-term care delivery system.

persons eligible to retire in this thriving business community.

- Thirty years ago, people 65 and older were just over one-in-every 33 residents of Fairfax County, but by 2020 older adults will be more than one out of every nine residents. Persons age 65 and over are growing at a faster rate than the overall population of Fairfax County. By 2020, it is projected that there will be 138,600 persons age 65 and older living in Fairfax County, representing 11.6 percent of the total population.
- In 1980, more than 13 percent of older adults spoke a language other than English at home and by 2000 the number had more than doubled and continues to grow. From 1980 to 2000, the percentage of minorities in the older adult population increased from 6.4 to 18.3 percent. Although the older adult population is not as diverse as the general Fairfax County population, it is becoming more diverse.
- The incidence of disabilities among elderly persons everything from arthritis to Alzheimer's doubles every five years after the age of 65. Because the oldest baby boomers will turn 75 in 2021, the need for assistive services and programs will accelerate rapidly sometime after 2020.
- With increasing life expectancies, more of the working-age population is part of the "sandwich" generation, those caring for both children and elders. These caregivers may care for their elders for a longer period of time. Longevity also means there are older adults with their own health and financial needs caring for other older adults such as siblings and spouses. It is increasingly prevalent in the County that more grandparents are caring for a minor child and support to those grandparents as caregivers is different from the support needed to care for an aging spouse.
- Fairfax continues to be a great place for businesses to locate and thrive but the growth in Fairfax County's labor force is not expected to keep pace with the growth in jobs during the next two decades. Within Fairfax County government alone, almost one in every four employees will be eligible to retire within the next five years.

The Long-Term Care Citizen's Task Force found that the greatest barrier to services is lack of information on existing services and how to access them and strongly recommended strategies to maximize service resources through information and communication. Improving communication, information, and awareness with a dramatically changing and diverse population as identified above are among the AAA's primary initiatives.

Strategies to accomplish these initiatives include information and referral lines staffed by bilingual volunteers who receive ongoing training, educational seminars, resource fairs, and caregiver support groups conducted in languages other than English, recruiting volunteers from a variety of cultures to provide service to older adults and advocacy to older adults and their families, increasing large-print, taped, and translated resource materials, providing culturally sensitive and palatable meals and service delivery to persons receiving home-delivered meals and congregate meals, offering respite and support groups to family caregivers of older adults and to grandparents caring for grandchildren, and providing resource fairs for Baby Boomers considering volunteering while continuing in the workforce part-time or upon retirement.

A current and emerging focus for the AAA is the Board of Supervisors' Committee on Aging's 50+ Action Plan which includes recommendations on how to plan now for a more aging friendly community tomorrow. The AAA provides lead support to the on-going committee and has been designated by the Board to respond to community inquiries about its Action Plan.

### New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to provide staff support to the Board of Supervisors' Committee on Aging as initiatives and recommendations move forward.   | Y                 | <b>S</b>              |
| Received the 2006 Human Rights Award from the Fairfax County Virginia Human Rights Commission for the Long-Term Care Volunteer Ombudsman Program. Volunteers enable long-term care residents to advocate for quality of care in their facility through weekly visits.  | ð                 |                       |
| Develop a training program to include power-point presentation, exercises and handouts on the Long-Term Care Ombudsman Program, Resident's Rights and Subtle Abuse. The program will be on CD and provided to all 110 long-term care facilities in Northern Virginia for use during Residents' Rights Week and for training purposes, educating staff and enhancing the quality of life for residents of 10,803 beds in Northern Virginia, including 64 facilities in Fairfax and 5,923 residents. |                   | <b>∀</b>              |

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Partnered with the Virginia Coalition for Culture Change and Goodwin House Bailey's Crossroads to provide a Culture Change seminar featuring an expert from the Centers for Medicare and Medicaid Services (CMS) to address how long-term care facilities can enhance the quality of life of residents while meeting regulatory guidelines mandated by law. Culture Change advocates for facilities to move toward a home environment and promotes residents rights and choices in a long-term care facility. | ð                 |                       |
| Cluster care model recognized in the report "The Maturing of America" sponsored by the National Association of Area Agencies on Aging (n4a), the MetLife Foundation, and the International City/County Management Association; recognized again in "A Blueprint for Action: Developing a Livable Community for All Ages."   | ð                 |                       |
| Implemented a pilot program in the summer of 2007 among selected Congregate Meal Program sites to insure complete client confidentiality and improve efficiencies in communicating information on clients through an encrypted email system. The successful pilot facilitated DFS/IT in planning for a department-wide roll-out in the fall of 2007.  | ð                 |                       |
| Connecting People and Places  | Recent<br>Success | FY 2009<br>Initiative |
| The Family Caregiver program will continue to collaborate with public and private partners on initiatives such as respite, assisted transportation, Kinship   |                   |                       |
| Care and other caregiver services.  | V                 | lacksquare            |
| Care and other caregiver services.  Participated in a high-level multi-agency transportation planning committee to recommend the most effective and efficient strategies to serve the older adult and disabled populations resulting from several local and regional transportation studies.  | <b>■</b>          | <b>M</b>              |

| Maintaining Healthy Economies   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| The Family Caregiver program will provide outreach to employers to help them set up programs and policies that will benefit employed family caregivers as well as the employer.   |                   | ¥                     |
| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
| Expanded the Vietnamese Meals on Wheels program from one initial route to three routes, improving the nutrition to more homebound elderly. A Middle Eastern Meals On Wheels pilot started in Fall 2007 at the Tysons Towers, a low-income congregate housing facility with a large population of elderly residents from the Middle East. Additional enhancements to the Meals on Wheels program will be made as funding and programming allow to address the growing diversity in the County. | ð                 | ¥                     |
| Presented a conference workshop on Ethnic Home Delivered Meals for Diverse Elderly Populations at the n4a annual conference in San Francisco, CA in July 2007, sharing outreach strategies to diverse populations, benefits of culturally familiar food, and volunteer recruitment from ethnic communities.   | ð                 |                       |
| Added two new home-delivered meals routes in the Centreville and Burke areas to address increased demand for nutritional services among homebound older adults in the County.   | ď                 |                       |
| Customer satisfaction surveys were translated and administered to non-English-speaking participants in the Congregate Meals Program in FY 2007. Of the 707 surveys received, 422 or approximately 60 percent of the surveys were completed in Spanish, Farsi, Chinese, Korean, or Vietnamese.   | V                 |                       |
| Developed a Kinship Care Committee in partnership with other County offices and Fairfax County Public Schools and will continue to provide ongoing support groups for grandparents and other relatives raising minor children. Collaborated to: develop the "Resource Guide for Grandparents and Other Relatives Raising Children;" offer three separate respite days for Kinship Care families; and produce a Kinship Care video for Cable Channel 16.                                       | V                 | ¥                     |
| AAA established a Korean Senior Information Line in the fall of 2006 offering Korean-speaking older adults access to information about services through trained bilingual volunteers. A partnership among the AAA, the Korean Community Service Center, and the Korean Central Senior Center, recruited additional volunteers to the program in May 2007.   | V                 |                       |
| Convened a Chinese focus group in January 2007 with 29 participants to identify the needs of the Chinese-speaking older adult population and provide ideas for outreach with translated materials.  | V                 | $\blacksquare$        |

| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Outreach initiatives to the Vietnamese community have included seminars conducted in Vietnamese on County resources for caregivers, fall prevention and medication management. The AAA, in partnership with community organizations, has begun planning for a Vietnamese Senior Information Line that will continue in FY 2009.   | ð                 | ¥                     |
| In an effort to respond to a growing need for services and to utilize baby boomer volunteers, the AAA Volunteer Unit partnered with Fairfax County Libraries, Volunteer Fairfax, and the Retired and Senior Volunteer Program to host "Ventures Into Volunteering" in March 2007. More than 25 community and County agencies participated and over 200 potential volunteers attended. These events, including an event held in Fall 2007, will continue to be offered in other parts of the County. | Ŋ                 | $ \mathbf{Y}$         |
| Continue the Independent Living Project in partnership with INOVA HealthSystems, faith communities, and other County agencies to provide community outreach to older adults in Franconia/Rose Hill and Annandale. The program offers in-home assessments, information referral, fall prevention, exercise, and classes in cooking and food safety.  | lacksquare        | $ \mathbf{Y}$         |
| Offered Respite Days to grandparents and other relatives caring for children in November 2006 and in April 2007 in separate locations in the County to offer safe and fun child care so they are able to enjoy some free time. Community and Recreation Services coordinated a full day of activities for the children. Respite Days will expand to additional locations in FY 2009.  |                   | $ \mathbf{Z}$         |
| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative |
| Convened and facilitated a collaborative public-private Universal Design Workgroup in Summer 2007 in response to the Board of Supervisor's request to encourage universal design as countywide policy. The following groups participated in the workshop: DFS Disabilities Services Planning & Development and Area Agency on Aging, DPWES, DHCD, FFCCSB, the Fairfax LTCCC, The Open Road Initiative, RPJ Housing, and a Universal Design consultant.  | ð                 |                       |
| <b>Exercising Corporate Stewardship</b>   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to provide volunteer opportunities, recruitment, screening, training and support for over 2,000 volunteers providing more than 90,000 hours of service in FY 2007 valued at more than \$1.5 million.   | d                 | ¥                     |
| Following the Board of Supervisor's new volunteer leave benefit for County employees effective July 2007, the AAA Volunteer Unit hosted roundtable discussions for Volunteer Coordinators from County agencies to explore publicizing opportunities to volunteer in County agencies, attracting volunteers to County programs and encourage volunteering as a means of engaging in one's community.   | ð                 |                       |

| <b>Exercising Corporate Stewardship</b>   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| The AAA's volunteer program responded to an increased need for volunteers to provide services to the growing number of Cluster Care clients. As of May 2007, 85 volunteers were providing services such as transportation, grocery shopping, and simple home repairs so that clients could remain at home and connected to their community through socialization with community volunteers. | ð                 |                       |
| Continue to implement the Cluster Care model of service delivery that incorporates task-based home care, greater emphasis on home-delivered meals, and volunteer services. As a result, DFS has realized significant savings that have been reinvested in other programs serving older adults and adults with disabilities.   | A                 | A                     |

<sup>&</sup>lt;sup>1</sup> In order to account fo expenditures in the proper fiscal year, an audit adjustment in the amount of \$35,367 has been reflected as an increase to FY 2007 expenditures to primarily redistribute expenditures between the Department of Family Services and Fund 103, Aging Grants and Programs accurately. This impacts the amount carried forward resulting in a net decrease of \$35,367 to the FY 2008 Revised Budget Plan. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR). Details of the FY 2007 audit adjustments were included in the FY 2008 Third Quarter Package.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$140,157

An increase of \$140,157 in Personnel Services associated with salary adjustments is necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### ♦ Federal and State Award Adjustments

\$145,216

A net increase of \$145,216 is due to changes from federal and state revenue sources and other funding adjustments in the Title III-B Community-Based Social Services program. Specifically, there was a net increase of \$102,814 in Personnel Services and \$42,402 in Operating Expenses.

#### ♦ Program Year 2007 Funding

(\$2,503,149)

A decrease of \$2,528,531 is attributable to the carryover of unexpended FY 2007 grant funds in programs such as the Congregate Meals, Home-Delivered Meals and Community-Based Social Services programs to FY 2008 which is necessary to provide funding through Program Year 2007 which ended on September 30, 2007. An increase of \$25,382 is due one-time reductions in federal and state funding allocations in Program Year 2007.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$38,961

An increase of \$38,961 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$2,810,964

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved carryover funding of \$2,810,964 of which \$2,528,531 is unexpended grants for Program Year 2007 and a net increase of \$282,433 primarily due to revised federal and state funding allocations. A portion of the additional funding supports 1/1.0 SYE merit grant position in the Title III B, Community-Based Social Services grant.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

(\$44,032)

A decrease of \$44,032 due to a reduction of state revenue. This decrease is due to state reductions in the Community-Based Social Services program, Long-Term Care Ombudsman program, and Care Coordination for the Elderly Virginian program.

#### **Key Performance Measures**

#### Goal

To promote and sustain a high quality of life for older persons by offering a mixture of services, provided through the public and private sectors, which maximize personal choice, dignity and independence.

#### **Objectives**

- ♦ To maintain at 80 percent the percentage of elderly persons and adults with disabilities receiving case management services who continue to reside in their homes one year after receiving services.
- ♦ To maintain at 95 percent the percentage of older adults receiving community-based services who remain living in their homes rather than entering a long-term care facility after one year of service or information.
- ♦ To maximize personal health by serving nutritious meals so that 40 percent of clients receiving homedelivered meals and 80 percent of clients receiving congregate meals score at or below a moderate risk category on the Nutritional Screening Initiative, a risk tool.
- ♦ To meet the state standard by maintaining the percent of Adult Protective Services (APS) completed within 45 days at 90 percent or more.

<sup>(1)</sup> The home-delivered meal client satisfaction survey is administered periodically.

#### **Performance Measurement Results**

In FY 2007, the Adult and Aging Services Division surpassed its goals related to helping individuals continue to reside in their own homes. The percent of elderly and disabled clients who continued to reside in their homes after one year of receiving case management services was 87 percent, which is seven percentage points higher than the target of 80 percent. The percent of clients who remained in their homes rather than entering a long-term care facility after one year of receiving information or community-based services (CBS) was 98 percent, which is three percentage points higher than the target of 95 percent. The Adult and Aging Services Division met these goals primarily by coordinating services across the organization and with community partners, including volunteers, and by improving access to services. The cost per long-term care client decreased by 17 percent in FY 2007 to \$2,823 due to the full implementation of cluster care task-based services, a new and more efficient model of service delivery that provides home-based care services based on the task to be performed rather than an hourly rate. The cost per CBS client also declined in FY 2007, from \$152 to \$132. It is anticipated that future costs will increase due to rate increases which have been absorbed by the department and an incentive premium. Home care providers are noting issues with retention of home care aides and with the complicated scheduling and management oversight required for task-based services. Additional rate increases will also be necessary in FY 2009.

The number of clients served in CBS in FY 2007 reflects a decrease of 14.7 percent from FY 2006 and slightly less than the estimate. This was due to opposing factors in two of the CBS programs. On the one hand, the Virginia Insurance Counseling and Assistance Program (VICAP) served 50 percent fewer clients in FY 2007, following the boom in FY 2006 with the launch of Medicare Part D and open enrollment through May 15, 2006. On the other hand, Information and Assistance increased service to clients in FY 2007 by 16 percent over those served in FY 2006 due to a higher degree of awareness and need for information and assistance and a larger number of inquiries resulting in referrals to Adult Protective Services.

The Adult and Aging Services Division once again surpassed its goal for improving the nutritional health of persons receiving nutrition services in FY 2007 with 48 percent of clients who received home-delivered meals, compared to a target of 40 percent, and 87 percent of clients who received congregate meals, compared to a target of 80 percent, scoring at or below moderate risk on the Nutritional Screening Initiative.

The number of meals provided in the older adult nutrition programs exceeded the estimate by 8.7 percent and was up 12.9 percent, or more than 65,000 meals, from FY 2006. This is due to a 10.4 percent increase in Home-Delivered Meals associated with new ethnic meals routes, as well as the addition of regular routes, and an 11 percent increase in the need for Nutritional Supplements. At the same time, Congregate Meals increased by 15.7 percent, primarily due to two factors. One, there was a significant increase in the number of older adults attending congregate meal sites to connect with others who share their language, culture and special programs. Second, Braddock Glen, the Fairfax County Assisted Living Facility which serves residents three meals a day, opened in FY 2007.

It should be noted that the client satisfaction with the "meal quality and quantity" was 81 percent for Home-Delivered Meal clients, compared to 96 percent in FY 2004 (this client population is not surveyed every year) and is most likely due to a major change in survey methodology (different questions were asked, more specific to the meal quality and quantity versus courtesy of the volunteers as was surveyed in the past). In addition, 87 percent of Congregate Meal Program clients were satisfied with their meals, down from 92 percent in FY 2006, possibly due to an increasing ethnic client population with different food and nutritional needs, preferences, and expectations. Staff is working with the food vendors to improve meals to better meet the needs of clients receiving Home-Delivered Meals and Congregate Meals.

| Total Disbursements                           | \$6,178,234       | \$6,914,080                             | \$9,645,645                       | \$7,507,268                             | \$7,546,229                       |
|   | . , -,            | , | , , , , , , , , , ,               | , ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, | . , = =,==3                       |
| <b>Ending Balance</b> <sup>2</sup>            | \$1,699,812       | \$0                                     | \$0                               | \$0                                     | \$0                               |

<sup>&</sup>lt;sup>1</sup> In order to account for expenditures in the proper fiscal year, an audit adjustment in the amount of \$35,367 has been reflected as an increase to FY 2007 expenditures to primarily redistribute expenditures between the Department of Family Services and Fund 103, Aging Grants and Programs accurately. This impacts the amount carried forward resulting in a net decrease of \$35,367 to the FY 2008 Revised Budget Plan. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR). Details of the FY 2007 audit adjustments were included in the FY 2008 Third Quarter Package.

<sup>&</sup>lt;sup>2</sup>The FY 2008 Revised Budget Plan ending fund balance is \$0 and reflects the utilization of the FY 2007 ending fund balance of \$1,699,812 to partially offset grant expenditures in FY 2008 based on program year requirements.

#### Mission

Through the effective use of technology and service enhancements, provide quality customer service; improve the means of providing access to services electronically; expedite responses to citizen inquiries; improve operational efficiencies; increase performance capabilities; and ensure optimum management decisions.

#### **Focus**

Fund 104, Information Technology, was established in FY 1995 to strengthen centralized management of available resources by consolidating major Information Technology (IT) projects in one fund. A General Fund transfer, revenue from the State Technology Trust Fund, and interest earnings are sources for investment in Information Technology projects. In addition, the FY 2009 budget includes transfers from the Health Benefits Trust Fund and the Cable Communications Fund.

The County's technological improvement strategy has two key elements. The first element is to provide an adequate infrastructure of basic technology for agencies to use in making quality operational improvements and efficiencies. The second is to redesign business processes and apply technology to achieve large-scale improvements in service quality and achieve administrative efficiencies. The County's long-term commitment to provide quality customer service through the effective use of technology is manifested in service enhancements, expedited response to citizen inquiries, improved operational efficiencies, better information for management decisions and increased performance capabilities.

In addition, the Senior Information Technology Steering
Committee, which is comprised of the County Executive
and senior County managers, adopted five IT priorities which guide the direction of this fund. They include:

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Supporting mandated requirements;
- o Leveraging prior investments;
- o Enhancing County security;
- o Improving service quality and efficiency; and
- o Ensuring a current and supportable technology infrastructure.

Mandated Requirements: Provide support for requirements enacted by the federal government, Commonwealth of Virginia or Board of Supervisors; are Court ordered or a result of County regulation changes.

- ♦ Completion of Prior Investments: Provide support for multi-year lease purchases, to implement a project phase or to complete a planned project.
- Enhanced County Security: Provide support for homeland security, physical security, information security and privacy requirements.
- ♦ Improved Service and Efficiency: Promote consolidated business practices; support more efficient government; optimize management and use of County assets and data; enhance systems to meet the expectations and needs of citizens; and promote service that can be provided through the Internet/ e-government. Includes corporate and strategic initiatives that add demonstrable value to a broad sector of government or to the County as a whole, which also provide productivity benefits and/or effectively manages the County's information and knowledge assets.
- Maintaining a Current and Supportable Technology Infrastructure: Focus on technology infrastructure modernizations which upgrade, extend or enhance the overall architecture or major County infrastructure components, including hardware and software and its environment. Ensure that citizens, businesses and County employees have appropriate access to information and services.

In keeping with guidelines established for FY 2009, agencies were instructed that project requests must meet the following criteria: funding for new projects would be considered if the project met one of the five IT investment priorities and/or was low cost, short-term and small in scope; additional funding for existing projects would be considered for contractual obligations and/or to complete a phase of the project; and the project must be completed and maintained without additional staff.

A Project Review Team consisting of business and technical staff from the Department of Information Technology (DIT) and the Department of Management and Budget (DMB) reviewed all submissions. The project review included identification of projects that provide opportunities for improvement; those that help sustain the performance and reliability of the County technology infrastructure; and those poised to take advantage of technological advancements.

In addition, projects were reviewed from both a business and a technical perspective. On the business side, consideration included whether the implementation of the project would benefit citizens, the County or both. Benefits of the project were weighed against the cost of the project and several risk factors, including the risk of cost and scope escalation due to factors such as the type of technology chosen, organizational disruption, schedule viability and the impact of delaying the project.

On the technical side, factors examined included how closely the project matched, and its impact on, existing County IT infrastructure, and the technical uncertainty of the project as it pertained to the commercial availability of, and the organizational experience with, the proposed hardware, software and resource support. In addition, consideration was given to the availability of human resources both in DIT and the sponsoring agency to staff the project.

#### FY 2009 Initiatives

In FY 2009, funding of \$19.1 million, which includes a General Fund transfer of \$7.4 million, a Health Benefits Trust Fund transfer of \$7 million, a transfer from the Cable Communications Fund of \$2.5 million, State Technology Fund revenue of \$1 million and interest income of \$1.2 million, is provided for initiatives that meet one or multiple priorities established by the Senior Information Technology Steering Committee. These initiatives include a mix of projects that provide benefits for both citizens and employees and that adequately balance continuing initiatives with the need for maintaining and strengthening the County's technology infrastructure. Funded projects will support initiatives in the Human Services, Planning and Development, General County Services and Public Safety program areas. Although many initiatives meet more than one of the technology priorities, for narrative purposes below, projects have been grouped into only one priority area.

| Priority  | FY 2009<br>Adopted<br>Funding |
|---|-------------------------------|
| Mandated Requirements   | \$0.3 million                 |
| Completion of Prior Investments                                 | \$1.7 million                 |
| Enhanced County Security  | \$5.7 million                 |
| Improved Service and Efficiency                                 | \$7.9 million                 |
| Maintaining a Current and Supportable Technology Infrastructure | \$3.5 million                 |
| TOTAL   | \$19.1 million                |

#### Mandated Requirements - \$0.3 million

In FY 2009 funding of \$179,571 is included to upgrade and bring ParkNet, Fairfax County Park Authority's aging business application into compliance with the recently enacted Payment Card Industry Standards (PCI) and replace aging hardware and operating system. The ParkNet system is critical to a range of agency core functions including recreation center and golf course point of sale activities to program and camp registration and payments via the internet and IVR portal, nature centers, and lake front parks. This initiative ensures conformity with current County supportable IT architecture and security standards, as well as compliance with Payment Card Industry mandates for accepting credit card payments over the internet and on the IVR.

FY 2009 funding of \$126,000 is provided to replace Department of Housing and Community Development's aging mainframe Loan Processing System which monitors loans made to resident homeowners under a number of County and Federal programs. Through the years both the functionality and technology associated with this system have become dated and the agency's needs for a more robust loan processing system have grown. Implementing a current loan servicing system that utilizes web technology to properly account, service and report on the excess of \$46 million in loans in the HCD portfolio, many of which are not captured in the current system, will allow for enhanced revenue, and compliance with federally mandated HUD programs.

#### **Completion of Prior Investments - \$1.7 million**

The County's IT program focuses on using technology as an essential tool to enable cost-effective delivery of services, and continues to stress the need to build reliable, supportable projects for these services in a timely manner. Many projects funded can be completed within that fiscal year, while others are multi-phase projects that require more than one year of funding.

In FY 2009, funding of \$188,218 is included to complete development of an Integrated Facilities and Grounds Management System used by the Facilities Management Department (FMD) and the Fairfax County Park Authority (FCPA). The system will increase the effectiveness and efficiency of staff and the utilization of capital resources required to maintain and manage County and Park facilities and properties. Funding in FY 2009 provides for final documentation, integration and implementation of the maintenance module, inventory management and bar coding module, and GIS integration.

In FY 2009 funding of \$988,960 (revenue from the State Technology Fund) will continue enhancement of Circuit Court's Court Modernization Project comprised of the Court Automated Records System (CARS) and the Court's Case Management System. The CARS project is designed to provide an integrated workflow process, using a single media and data storage system. The system provides the ability to scan, cashier, index, store and retrieve more than 100 different types of land record and other non-deed documents, including marriage licenses, financing statements, fictitious names, and charters. The Case Management Project focuses on implementation of an enhanced case management system that encompasses the civil, criminal and financial areas of the court, utilizes judicial resources more effectively, monitors case loads, increases accessibility and enhances efficiency by adding electronic filing, forms and document imaging and management

In FY 2009, funding of \$500,000 will support continued technology rollout to new courtrooms in the newly expanded Courthouse. Of this amount, \$300,000 is supported by a transfer from the Cable Communications Fund. The project provides the necessary consulting services and required hardware and software needed to outfit a modern day courtroom. These technologies include integrated and mobile evidence presentation, real-time court reporting, wireless access, electronic way-finding, video conferencing, video arraignment, and judges' control of the technologies from the bench. This project will improve citizen access, internally and externally, to the Courts; facilitate trials and hearings in the most effective and efficient means possible; allow for all three Courts (General District, Circuit Court and Records, and Juvenile and Domestic Relations District Court) to share common resources and provide for flexibility and adaptability to incorporate future changes in technology and court proceedings; and allow the Courts to keep up with the increasing demand and docket backlogs that currently exist.

#### **Enhanced County Security - \$5.7 million**

Ensuring the security of the County's IT investments and information assets is of primary importance to the Department of Information Technology. Through many projects and initiatives, efforts are focused on the security of various levels of County data, from email to homeland security measures. During FY 2009, the County will continue to implement a multi-faceted approach to securing County data and assets.

FY 2009 funding of \$4,147,000 is included for the continuation of a multi-phase effort to implement a modern, comprehensive Law Enforcement Records Management System to replace the existing Police Department disparate information systems. The new system will improve the ability to prevent, respond to, manage, and analyze situations relating to the safety and property of County residents. Intelligence led policing, improved criminal justice, and overall strategic public safety resource deployment will be improved upon implementation. The system will expand the capacity of the Police Department, allowing it to better analyze – statistically and through geographic-based means – data on incidents and personnel. It will also aid in identifying trends, and assist in staffing decisions and monitoring departmental effectiveness. The system will integrate with the Computer Aided Dispatch (CAD) system in the Department of Public Safety Communications, ensuring a unified technology platform approach that facilitates the seamless sharing of processes and data across public safety functions and leverages available technologies.

FY 2009 funding of \$200,067 is provided for the implementation of a Fire Station Alerting Technology system, which is funded by a transfer from the Cable Communications Fund. This alerting system is a critical component of the 911 system to meet the public safety goals of reduced response times, enhanced communication, and immediate, relevant access to critical information. The system will reduce reflex time for response by providing immediate unit based visual and verbal alert indication at time of dispatch and prior to radio voice distpatch, provide safe lighting and alert process throughout station for personnel response to vehicles, provide personnel with immediate relevant information regarding the event by text display and verbal recorded announcement, provide station alerting capabilities as required by NFPA 1221, and streamline maintenance and support for system components. The project will integrate the Fire and Rescue Department's station alerting system with the new Public Safety Computer Aided Dispatch and Records Management System (PS CAD/RMS).

FY 2009 funding of \$416,691 will support continued implemenation of the Emergency Medical Services Electronic Patient Care Reporting System (ePCRS) of the Fire and Rescue Department's Incident Reporting and Records Management Project. This system enables the Fire and Rescue department to comply with the Commonwealth of Virginia's Office of Emergency Medical Services (OEMS) mandated emergency medical services (EMS) data reporting requirements. Funding will support integration of mobile computers in the field to ehnance patient care by improving documentation, electronically capturing immediate point of care data, tracking transport, paperless incident reporting, and billing. The FY 2009 funds will also support project management services and initial hardware for the Fire and Rescue Department's CAD/RMS infrastructure components. Funding for these components are critical to the overall Public Safety CAD/RMS project payment and milestones.

FY 2009 funding of \$300,752 is provided for the Distribution Node Intrusion Protection System (IPS) project to provide the means to monitor and block data traffic as it traverses key intersections on the County's Wide Area Network (WAN), which provides connectivity for approximately 185 facilities through eight (8) aggregation points known as Distribution Nodes. Each Distribution Node serves as the access point for 12 to 30 remote County offices including Fire/Police Stations, Libraries, Park Authority sites, Senior Centers, etc. The implementation of the IPS at the Distribution Nodes will help mitigate the risk of malware propagation that could results in a potential shut down of County networks and disruption of essential services to citizens. This project is supported by a transfer from the Cable Communications Fund.

Funding of \$663,223 is provided in FY 2009 for the fifth year of a seven year annual lease-purchase payment for the new Public Service Radio System network infrastructure. The project replaced a 20 year old Public Service Communications System, which provided two-way radio communications for all County non-public safety agencies, as well as the Fairfax County Public Schools Transportation Department (school buses),

FASTRAN and Fairfax Water, with updated technology that meets the needs of user agencies. The system provides adequate call processing capacity and area coverage to more than 90 percent of the area within the jurisdictional boundaries of Fairfax County. The new network eliminates two zones within the County and provides seamless coverage on one system. Based on a portion of project costs, derived from the number of radios users operating on the system, \$1,272,088 will be recovered from Non-General Fund Supported agencies, Fairfax County Public Schools and Fairfax Water in FY 2009.

#### Improved Service and Efficiency - \$7.9 million

There are several projects funded in FY 2009 that provide for additional improvement in service and efficiency. These improvements support County on line and direct services to residents and the business community as well as enhance internal County processes that result in improved efficiencies and service delivery.

The Legacy Systems Replacement is a complex multi-phased initiative designed to replace the County's aging legacy corporate systems that support core business functions including budget, purchasing, finance, and human resource management. The County's aging human resource management system is most vulnerable to obsolescence and the first to be replaced in a phased approach. Previous funding was provided to begin an assessment of the legacy systems used to support core business functions; identify, review and streamline existing business processes currently supported by the legacy systems; perform and analyze a review of existing and future trends in the software and systems implementer marketplace; and identify and refine functional business requirements necessary in the future software. FY 2009 funding of \$7,000,000 is provided to continue the investment in this initiative, positioning the project to award the software and systems implementer contracts. Automation and modernization will empower both employees and managers to execute processes more efficiently, and make the best strategic decisions based on the most timely and accurate information. This shifts the orientation of the system from that of a data repository to one of an information system solution. This project is funded by a transfer from the Health Benefits Trust Fund. This balance is available from savings in employer contributions for health insurance and will be used to offset the costs of Phase I of the project which will replace the Human Resources system.

Funding of \$158,840 in FY 2009 provides continued funding for the County's planned on-going maintenance of essential Geographic Information System (GIS) data. GIS provides County staff the means to electronically access, analyze and display land related data and is an integral part of public systems such as LDS Net and My Neighborhood as well as numerous internal County applications. The updated planimetric and contouring data will impact on wide range of applications by user agencies. It will enhance security oriented applications such as emergency response preparedness, preplanning fire and rescue, hazardous material spills, crime mapping. Planimetric data will be one of the key data sets used by the new Computer Aided Dispatch system's mobile units in Police and Fire and Rescue vehicles.

FY 2009 funding of \$208,190 will continue integration of the County's e-government channels (Interactive Voice Response (IVR), Kiosk, Web, Infoweb, and Wireless) in order to enhance public access to electronic services and improve the County's public web site. Efforts will continue to ensure compliance with Section 508 standards requiring electronic and information technology accessibility to people with disabilities. Furthermore, the project will continue to improve the security of the County's E-Gov platforms, enhance E-Gov channels, and generate economies of scale by providing the needed infrastructure support for the ever-increasing demand for e-commerce/e-government services.

In FY 2009 funding of \$300,000 will continue efforts to establish a single access point with a common database for County government information and service requests by constituents by integrating and augmenting existing technologies. Funding will support integration and technical architecture requirements for deployment to agencies with current call center capabilities. The project will establish an enterprise solution for "citizen-in-take", enable employees to answer citizen questions, and log service requests through a standard interface and knowledge database. This will eliminate the need for citizens to navigate through hundreds of County telephone numbers to find the right one, reduce the number of transfer calls from one agency to another, and minimize the non-emergency help and assistance calls to 9-1-1.

Funding of \$200,000 is provided in FY 2009 for continued implementation of the Court Scheduling and E-Summons Project, a multi-phase project focused on automating and streamlining traffic summons and related processes. The project is a partnership between Fairfax County General District Court and the Fairfax County Police Department. With completion of Court Scheduling (phase one), the current project is focused on implementation of an electronic summons solution for traffic tickets in Fairfax County. The goal is for officers to capture and transmit traffic summons information to the Court electronically via hand held or in-vehicle electronic devices. The project aims to eliminate manual data entry, ensure data integrity, provide accurate code section violations to officers in the field, facilitate faster and safer ticketing process for police department, and enhance public access to traffic ticket and case information.

#### Maintain a Current and Supportable Technology Infrastructure - \$3.5 million

In an ever changing technical environment, maintaining a current and supportable technology environment is a challenge that must be addressed. The County's technological improvement strategy strives to balance the need to pursue existing initiatives with the desire to adopt new industry technology, and previous infrastructure investments with the need to take advantage of newer features and functionality. Various projects are funded in FY 2009 supporting the goal of having consistent, reliable hardware and software, and ensuring that residents, the business community and County staff have appropriate access to information and services via technology.

Funding of \$1,892,458 will continue FY 2009 support to the Public Safety Architecture Modernization Project for implementing of a Computer Aided Dispatch (CAD) and Public Safety Records Management Systems (RMS), including public safety communications, as well as Police, Fire and Rescue, and Emergency Medical Services records management. The project will implement an integrated public safety information architecture enabling data sharing across functional areas of the CAD and RMS in order to support key public safety lines of businesses and provide flexibility to respond to both internal and external data sharing requirements. In a multi-track and multi-phase project, the legacy CAD, Police RMS and Fire and Rescue RMS will be replaced, and a new Fire Emergency Medical Services Incident Reporting system (EMSIR) will be implemented.

FY 2009 funding of \$1,534,750 will be used to continue implementation of this multi-year Telecommunication Modernization Project designed to provide proven, advanced technologies to streamline business processes, take advantage of economies of scale, enhance operational efficiency and reduce costs. An additional core benefit will be the use of distributed telecommunications applications across an enterprise-wide network. The new voice communications platform will provide secure communications to support telework, and will integrate with e-mail and other messaging systems. This change will ensure that the telecommunications infrastructure serves the needs of County agencies and advances service delivery to citizens, while maintaining flexibility to adopt future technologies with a minimal need for new spending. This project is supported by a transfer from the Cable Communications Fund as the I-NET system serves as an important part of the network infrastructure.

Funding of \$100,000 has been included in FY 2009 to provide for information technology training and certification in recognition of the challenges associated with maintaining skills at the pace of technological changes and to ensure that the rate of change in information technology does not out-pace the County's ability to maintain proficiency. As the County's workforce becomes increasingly dependent on information technology, training support has become more essential.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

**♦** Project Adjustments

(\$3,721,500)

A total decrease of \$3,721,500 in expenditures resulting from a combination of reductions in IT projects and the elimination of selected IT projects included in the FY 2009 Advertised Budget Plan. For further detail, please see the Project Summary table included in the Fund 104 narrative. Additionally, Fund 104 will utilize additional revenues, estimated at \$400,000, generated from the State approved increase in the subscription rate for remote access to land, civil and criminal records as well as the new \$5 fee per document for e-recording land records to fund costs associated with the redaction of social security numbers from electronic land records. Funding adjustments associated with this additional revenue will be made as a part of FY 2008 Carryover Review.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

**♦** Carryover Adjustment

\$31,522,950

At the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$31,522,950 due to the carryover of unexpended project balances of \$30,512,700 and the appropriation of higher than anticipated interest income of \$1,010,250.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

The following table lists the projects contained in Fund 104, Information Technology. Descriptions for FY 2009 funded projects follow the Project Summary table. Information regarding technology initiatives can also be found in the <u>FY 2009 Information Technology Plan</u> prepared by the Department of Information Technology.

| IT0004, Geographic Information System | IT Priorities: | • | Completion of Prior Investments;                                      |
|---------------------------------------|----------------|---|---|
|                                       |                | • | Enhanced County Security;   |
|                                       |                | • | Improved Service and Efficiency;                                      |
|                                       |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$480,977    | \$1,162,667         | \$158,840              | \$158,840           |

**Description and Justification:** This project provides continued funding for the County's planned multiyear implementation and maintenance of essential Geographic Information System (GIS) data including oblique imagery, orthoimagery and planemetric data. GIS provides County staff the means to electronically access, analyze and display land related data and is an integral part of public systems such as LDS Net and My Neighborhood as well as numerous internal County applications. The original project to develop the GIS base map for the entire County was completed in 1997.

FY 2009 funding of \$158,840 will enable additional updating of planemetric features to aid in modeling surface water runoff and providing the County a more complete and detailed set of planemetric features including enhanced contouring and Digital Terrain Models (DTM) that provide added features such as elevation and slope. Aerial Imagery provided by the state's Virginia Base Mapping Program will be used as the basis for updates. Existing project funds will continue to support ongoing oblique imagery and orthoimagery efforts.

**Return on Investment (ROI):** The updated GIS data will enhance the County's security oriented applications such as emergency response preparedness, preplanning fire and rescue, hazardous material spills, and crime mapping. Planimetric data will also be one of the key data sets used by the new Computer Aided Dispatch system's mobile units in Police and Fire and Rescue vehicles. The GIS database with new impervious features and contouring will facilitate key agencies land use applications following Fairfax County's Environmental Quality Advisory Council (EQAC) recommendations and contribute to overall Improved services and efficiency. The updated GIS data will also provide County agencies readily accessible data necessary for engineering and design projects in any location in Fairfax County. A wide range of County agencies utilize planimetric data including Police, Fire and Rescue, the Departments of Transportation, Housing and Community Development, Public Works and Environmental Services, Planning and Zoning Tax Administration and the Board of Supervisors offices.

Oblique imagery provides the County the ability to view field conditions from a desktop without traveling to the site, providing significant savings to County staff in various agencies. Oblique imagery provides inhouse staff the ability to perform more timely assessments by allowing them to view the façades of buildings at their desktop, allowing field staff the time necessary for property assessments and planning purposes. Oblique imagery has proved a vital tool for the Department of Tax Administration, Public Safety agencies, and the Department of Planning and Zoning. It is also the source of 3-D imagery which has been requested by the Board of Supervisors through their Land Use Information Advisory Committee.

On-going orthoimagery efforts are of great value and use by County residents and commercial real estate parties relative to sales, rental and relocation of residential and commercial properties. Potential buyers and sellers often view property location via web access for their homes and offices without having to drive to the actual site.

| IT0010, Information Technology Training | IT Priorities: | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |
|---|----------------|---|---|
|   |                |   | IIIIastructure  |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$234,162    | \$256,155           | \$200,000              | \$100,000           |

**Description and Justification:** This project provides funding for information technology training in recognition of the challenges associated with maintaining skills at the same pace as technology changes. The rate of change in information technology is an ongoing challenge for the County in maintaining relevant proficiencies for its technology workforce, and enabling quick adoption of technology that is beneficial in meeting the County's mission, goals and objectives. As the County's business has become increasingly dependent on information technology, training support has become more essential.

FY 2009 funding of \$100,000 will provide for necessary training required for Department of Information Technology staff. In addition, a project management certification and training program has been developed for County staff that is assigned project manager roles for funded Information Technology projects, allowing for consistency and enhanced communications between agencies.

**Return on Investment (ROI):** Continued funding will address instruction in new technologies, network management, computer operations, and software applications development and maintenance to assist County staff and systems.

| Circuit Court Technology                            | IT Priorities: | • | Completion of Prior Investments; |

| Case Management System (CMS) – IT0039               |                |   |                                  |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$625,481    | \$3,426,377         | \$988,960              | \$988,960           |

Description and Justification: Court Automated Recording System (CARS) The Clerk's Office of the Fairfax County Circuit Court is responsible for providing Fairfax County citizens with reliable, timely, and accessible public records. The Land Records, Public Services and Probate sections of the Circuit Court identified numerous deteriorating documents, which were repetitively accessed by the public and were constantly exposed to light, photocopying, fluorescence, and handling stresses. The Court Public Access Network (CPAN) is a web-based, online retrieval system which records and maintains over 36 million land records, public services and probate images. It is available virtually 24 hours a day, 7 days a week, with more than 2,200 subscribers located in twenty-nine states and the District of Columbia and internationally in the Philippines and India. These subscribers include citizens of Fairfax County, title examiners, law offices, mortgage companies, banks, Commissioner of Accounts and County agencies. Funding for this project is provided by revenue from the State Technology Trust Fund.

FY 2009 funding of \$988,960 is included to support the CARS project. The CARS project was designed to provide an integrated workflow process, using a single media and data storage system. The system provides the ability to scan, cashier, index, store and retrieve more than 100 different types of land record and other non-deed documents, including marriage licenses, financing statements, fictitious names, and charters. An imaging system was designed and implemented to automate a labor intensive manual recording process, reducing duplication of effort, facilitating the transfer of information to other County agencies, and provide a more accurate means of accessing these records.

The system enables customers to electronically file documents creating greater efficiencies for land professionals, citizens, and staff. Other initiatives include incorporating the electronic filing of mortgage releases. To date, over 75,000 electronic documents from 15 different mortgage lenders have been accepted and recorded. In 2006, the system was modernized by adding debit and credit card processes to the land records and public services cashiering system operations. Additionally significant enhancements have been made to the administration of estate system by permitting electronic signature of forms and automatic generation of images. These initiatives have resulted in significant improvements in efficiency, service to the public.

Description and Justification: Case Management System (CMS). The CMS project, initially called Court Modernization, began in 1997 with the County-initiated merger of the Circuit Court Judicial Operations agency with the Circuit Court and Records agency. At the time of the merger, the Clerk of Court and Circuit Court Judges identified that a common, more robust case management system was essential for a successful merger of the two agencies. It was decided that an alternative was needed that would be capable of replacing the entire legacy system. The goal of this project is to implement an enhanced case management system that encompasses the civil, criminal and financial areas of the court. The system will make more effective use of judicial resources, to assist in monitoring case loads, to increase accessibility to the courts and to enhance the efficiency of the system by adding Electronic filing, forms and document imaging and management.

Electronic filing utilizes the web to allow customers to electronically send and file documents, exhibits, briefs and other case-related data directly to the court without driving to the courthouse or incurring postage or delivery costs. Document Imaging will significantly enhance case processing because the documents and indexes will be accessible immediately and concurrently to staff. This will enable rapid responses to inquiries, usually while the customer is still in the office or on the telephone.

**Return on Investment (ROI): Court Automated Recording System.** The enhanced system will ensure the integrity of the information captured and provides a means of correcting errors. The system will provide added functionality to search for and correct errors that occurred in documents recorded in the previous land record's system. Benefits of this project include enhanced retrieval and administration of Circuit Court records which will improve operational efficiency and customer service. In addition, the imaging system is designed to eliminate or reduce existing labor-intensive, manual recording processes by automating as many of these processes as possible, reducing duplication of effort, and coordinating the transfer of information to the Department of Tax Administration and the Department of Public Works and Environmental Services.

**Return on Investment (ROI):** Case Management System Future imaging and electronic filing enhancements that are anticipated to be made to this system will enhance the security and integrity of court case files and their associated documents Electronic accessibility to case documents will be granted to appropriate parties as well as the ability to file documents from their offices or home, eliminating the need to travel to the courthouse which will have an significant impact on the ever increasing traffic in the area and bring to fruition a portion of the County Executive's objective of a "government without walls or clocks" or 24 X 7 accessibility. Potential interfaces through workflow with other jurisdictions which will allow the exchange of electronic documents and/or data will virtually eliminate the current labor intensive manual transfer of paper. Smart documents that will allow predefined data elements to populate the fields within the case management system will save staff time and effort currently spent re-entering case information.

| IT0024, Public Access to Information | IT Priorities: | • | Improved Service and Efficiency;                                      |
|--------------------------------------|----------------|---|---|
|                                      |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007<br>Expenditu |      |             | 2009<br>I Budget Plan Adopt | FY 2009<br>ted Budget Plan |
|----------------------|------|-------------|-----------------------------|----------------------------|
| \$565,310            | 91,1 | 85,192 \$40 | 00,000                      | \$208,190                  |

**Description and Justification:** This project provides funding for initiatives that improve public accessibility to government information and services. A comprehensive approach is employed to ensure efficient infrastructure capable of supporting multiple business solutions. In addition to the benefits to constituents by providing more opportunities for access to services and information on-line and improved customer service, public access technologies continue to be the means that County government uses to achieve greater internal efficiencies and support the expanding demand for services associated with County growth and diversity.

FY 2009 funding of \$208,190 will continue integration of e-government architectures (Interactive Voice Response (IVR), Kiosk, Web, Infoweb, and Wireless) in order to enhance the delivery of timely information and services and improve the County's public web site. The project will develop and promote the aggregation of content and services provided across government agencies, will provide improved search options, and increase the ability to meet service requirements that cross jurisdictional lines. The result is improved information and services provided to citizens, and the ability to implement new, required services faster. Additionally in FY 2009 effort will continue to ensure compliance with Section 508 standards requiring electronic and information technology accessibility to people with disabilities. Furthermore, the project will continue to improve the security of the County's E-Gov platforms, enhance E-Gov channels, and generate economies of scale by providing the needed infrastructure support for the ever-increasing demand for e-commerce/e-government services.

Kiosk enhancements will include the integration of new information and applications available through the Web and Integrated Voice Response (IVR), deployment of additional kiosks.

Interactive Voice Response enhancements include the continued integration of Web and IVR via XML technology, and translating existing applications into multiple languages.

Wireless enhancements will allow for the continued integration of applications across.

**Return on Investment (ROI):** This project will continue to provide a single information architecture and supporting infrastructure for all platforms needed to provide new information and e-services to the public. The project will continue to generate economies of scale by providing the necessary support required for the increasing demand for e-commerce/e-government services. The project will develop and promote the sharing of data across jurisdictional lines, thereby increasing the scope and value of information and services provided to citizens, and facilitate new services. It will further expand the capabilities of the newly implemented content management system in order to improve automated workflow, revision control, indexing, and search and retrieval for countywide systems. The project will further improve the search capability for citizens and constituents. The County will be able to build applications quicker and more efficiently by maintaining reusable components. Public access technologies will minimize staff resources needed to provide basic information, thereby allowing staff to be deployed to more complex tasks, as well as to respond to requests requiring more detailed or specialized information.

| IT00048, Incident Reporting and Records Management | IT Priorities: | • | Completion of Prior Investments; |
|--|----------------|---|----------------------------------|
|  |                | • | Enhanced County Security;        |
|  |                | • | Improved Service and Efficiency  |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$76,188     | \$3,727,277         | \$416,691              | \$416,691           |

**Description and Justification:** The Fire and Rescue Department's Incident Reporting and Records Management Project is a multi-phased implementation of a highly integrated Fire Records Management System. In FY 2007 work began on the third major system development initiative, the Emergency Medical Services Electronic Patient Care Reporting System (ePCRS).

The ePCRS constitutes the deployment of tablet computers to all Fire and Rescue units. Patient treatment information is collected directly on the tablet PC while the crew members treat the injury/medical problem. The patient information is linked via secure wireless service to the electronic Patient Care Servers for direct storage. The process is fully HIPPA compliant and is actually more secure than the current method of producing hard-copy reports.

The one-time entry of patient and incident information reduces the overall time required to complete the required reporting process through the elimination of duplicate processes, provides more accurate information for better recordkeeping, and this system will enable the Fire and Rescue department to comply with the Commonwealth of Virginia's Office of Emergency Medical Services (OEMS) mandated emergency medical services (EMS) data reporting requirements.

FY 2009 funding of \$416,691 will support integration of mobile computers in the field to enhance patient care by improving documentation, electronically capturing immediate point of care data, tracking transport, paperless incident reporting, and billing, as well as project management services and initial hardware for the Fire and Rescue Department's CAD/RMS infrastructure components.

**Return on Investment (ROI):** The Electronic Patient Care Reporting System will provide more timely and accurate tracking of patient transport information. This will be accomplished by creating more detailed and legible patient treatment documents electronically with a tablet device directly interfaced with the current Computer Aided Dispatch system. With this system, billing information can be readily and securely extracted and electronically transmitted to the billing vendor. This will greatly improve the efficiency of billing and revenue collection.

The system is designed for on-scene reporting of information while treatment is being delivered. Patient care is enhanced through accurate documentation and information dissemination to the medical facility when the patient is transported. Furthermore, a reduction in the staff time required to complete patient care and incident reports should provide units with a guicker "return to service" time.

| IT0050, Public Service Communications<br>Replacements | IT Priorities: | • | Completion of Prior Investments;                                      |
|---|----------------|---|---|
| •   |                | • | Enhanced County Security;   |
|   |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$2,036,468  | \$2,583,259         | \$663,223              | \$663,223           |

**Description and Justification:** This provides continuing funding for the project that replaced the Public Service Communications System, which provides two-way radio communications for all County non-public safety agencies, as well as the Fairfax County Public Schools Transportation Department (school buses), FASTRAN and Fairfax Water, with updated technology that meets the needs of user agencies. The completed system provides adequate call processing capacity and area coverage to more than 90 percent of the area within the jurisdictional boundaries of Fairfax County.

The previous 20-year old Public Service Communications System was based on a design that used two transmitter tower locations and 20 radio channels, with 10 channels at each tower. The transmitter tower sites were located in Lorton, on the Energy/Resource Recovery Facility smokestack, and in Fairfax City, on the rooftop of the Massey building. The system only provided geographical coverage for approximately 60 percent of the County and had limited call processing capacity, frequently resulting in unavailability for users. In addition, the previous design required users to manually select the correct radio channel based on their location within the County, requiring knowledge of the coverage each channel provided to the different parts of the County. There were large geographic areas where radio communications were not possible and many of these locations were heavily populated areas of the County. The network did not meet the user needs for additional coverage nor provide for future growth or for advanced features, such as mobile data communications.

The FY 2009 funding of \$1,935,311 includes the fifth year of a seven year annual lease-purchase payment for the new radio network infrastructure, including the increase of radio repeater locations from two to seven sites, to ensure greater than 90 percent call coverage, and for operating costs during the year. The new network eliminates the two zones within the County and provides seamless coverage on one system regardless of location, as well as provides ample reserve capacity for peak use periods and future fleet expansion. Based on a portion of project costs, derived from the number of radios users operating on the system, \$1,272,088 will be recovered from Non-General Fund Supported agencies, the Fairfax County Public Schools and Fairfax Water in FY 2009.

**Return on Investment (ROI):** The replacement system provides reliable radio coverage to many areas of the County that are not covered by the old radio system. This provides the necessary protection and safety for bus drivers and other staff that depends on reliable communications, improves customer service to County citizens and County agencies, and reduces reliance on commercial wireless networks in addition to future cost avoidance and other non-quantifiable benefits. The completed system is fully compatible with the mobile and portable radios used by the County's public safety radio system which allows for direct communication between public safety and public service users for incident or disaster management, and provides a separate backup system for the public safety system. The County realized a cost avoidance of over \$3 million by using the public service system to serve as the backup to the public safety system, rather than modifying the public safety system.

| IT0060, Telecommunications Modernization | IT Priorities: | • | Improved Service and Efficiency;                                      |
|--|----------------|---|---|
|  |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$4,086,633  | \$5,956,688         | \$1,534,750            | \$1,534,750         |

**Description and Justification:** Presently, Fairfax County relies on a telephone network based on outdated 1980's technology and standards for its voice communications needs. This includes a mix of 15 different models of Private Branch Exchanges (PBXs), telephone company-provided technology, and single-line telephones. Modernization of the County's telecommunications network is by necessity an ongoing and evolving process. As industry standards mature and inter-networking requirements change, the telephone communications network's capacity and configuration must do so as well.

FY 2009 funding of \$1,534,750, supported by a transfer from the Cable Communications Fund, will continue implementation of this multi-year project to provide proven, advanced technologies that help streamline business processes, take advantage of economies of scale, enhance operational efficiency and most importantly - reduce costs. An additional core benefit will be the use of distributed telecommunications applications across an enterprise-wide network. The new voice communications platform will provide secure communications to support telework, and will integrate with e-mail and other messaging systems. This change will ensure that the telecommunications infrastructure serves the needs of County agencies and advances service delivery to citizens, while maintaining flexibility to adopt future technologies with a minimal need for new spending.

The Telecommunications Modernization Project is replacing the County's current network of disparate voice systems with an enterprise-level platform. This new platform is based on current technology and is being implemented using the County's Institutional Network (I-Net) for site-to-site connectivity and transport mechanism. Furthermore, the new telephony network architecture will accommodate the projected growth in communications needs, integrate with business applications, and facilitate cost savings through standardization, streamlined maintenance, and consolidation of telephone line costs. The new voice infrastructure will integrate with the other County communications and messaging platforms, and align Fairfax County's telephone network with industry trends.

**Return on Investment (ROI):** The benefits derived from the implementation of this project are substantial and quantifiable. Direct cost savings include: a reduction in leased circuit costs; a reduction in message unit costs for outside phone calls; and a reduction in overall maintenance costs, including moving phones, adding new phone lines and changes to existing phone service. In addition, the new voice infrastructure will allow Fairfax County to leverage embedded technology assets and to improve service delivery quality. Business processes will be streamlined because of the ability to share information over an integrated communications platform.

| IT0061, Information Technology Security | IT Priorities: | • | Enhanced County Security;       |
|---|----------------|---|---------------------------------|
|   |                | • | Improved Service and Efficiency |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$242,173    | <b>\$248,717</b>    | \$500 <i>,</i> 752     | \$300,752           |

**Description and Justification:** FY 2009 funding of \$300,752 is provided for the Distribution Node Intrusion Protection System (IPS) project to give the County's Information Security Office the means to monitor and block data traffic as it traverses key intersections on the County's Wide Area Network (WAN). The WAN provides connectivity for approximately 185 facilities through eight (8) aggregation points known as Distribution Nodes. Each WAN Distribution Node serves as the on-ramp for 12 to 30 remote County offices including Fire/Police Stations, Libraries, Park Authority sites, Senior Centers, etc.

Currently network traffic is monitored at key sites including the Government Center and the Massey Campus, but there is no visibility into other traffic on the remainder of the network. At present, one infected host at a satellite office has the capability to propagate malware to the remainder of the network. In turn, thousands of other network devices could become infected. The cumulative effect of malware propagation would jeopardize availability of all of the County's critical information systems to internal staff and external citizens. With implementation of the Intrusion Protection System in the County's WAN Distribution Nodes the County's Information Security Office will be able to detect and block traffic close to the source.

The plausibility of this scenario is undeniable in this age of mobile computing. Current information security trends show massive increases in malware propagation and security threats. In 2007, Internet security experts noted that malware detections have doubled over 2006 levels. Threat trends in recent years have broken from traditional uni-dimensional viruses and Trojans to complex threats including botnets. A botnet is a collection of infected hosts attached to the Internet that execute commands under the command and control of a botmaster. The Storm Worm botnet (started January 2007) has an unknown size that is estimated to be between 250,000 to several million hosts. It and other botnets have been used to spend spam, conduct identity theft, achieve bank fraud, and perform other criminal activity. The anomaly or behavioral detection capability of the Intrusion Protection System will be leveraged to combat deviations in network traffic generated by botnets. The system also provides traditional signature-based detection.

**Return on Investment (ROI):** The implementation of the Intrusion Protection System at the Distribution Nodes will help mitigate the risk of malware propagation that results in a Denial of Service (DOS) condition. Botnet traffic could also be detected and blocked. A typical (DOS) attack attempts to consume computing resources (network bandwidth, CPU, memory, etc.) and create an outage scenario. Should such an event occur, employees may be unable to access basic applications such as e-mail, mainframe, web-based applications, and routine database transactions. Cleanup efforts from such an attack can last for weeks and months. The loss of productivity will be very costly and ongoing outages would disrupt delivery of County services to citizens. Early detection and blocking through IPS is pivotal in preventing the rapid spread of malware and ensuring network availability for critical information transmissions.

| IT0062, Police Records Management System | IT Priorities: | • | Improved Service and Efficiency; |
|--|----------------|---|----------------------------------|
|  |                | • | Completion of Prior Investments; |
|  |                | • | Enhanced County Security         |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$414,977    | \$2,815,130         | \$4,947,000            | \$4,147,000         |

**Description and Justification:** Historically, this project included funding to automate manual processes and combine several stovepipe applications to improve data security and reliability. In prior years, efforts within the Police Department included the development of a Graphical User Interface (GUI) and the Universal Name Information System (UNIS) module, as well a browser-based GIS mapping component. In FY 2005, funding was provided to automate the Police Evidence Section, which is responsible for the cataloging, storage and security of all evidence collected by the Police Department; in FY 2006 the current manual crime analysis process was automated; and in FY 2007, this project began the first phase of a multiphase effort to replace existing Police Department disparate information systems with an integrated Law Enforcement Records Management System (LERMS).

The new system will improve the ability to prevent, respond to, manage, and analyze situations relating to the safety and property of County residents. Intelligence led policing, improved criminal justice, and overall strategic public safety resource deployment will be improved upon implementation. Improvement in the reliability, accuracy, and quality of data will be realized and the system will operate on the principles of "single point of data entry and query" for all functions. The system will expand the capacity of the Police Department, allowing it to better analyze - statistically and through geographic-based means – data on incidents and personnel. It will also aid in identifying trends, and assist in staffing decisions and monitoring departmental effectiveness. The system will integrate with the Computer Aided Dispatch (CAD) system in the Department of Public Safety Communications, ensuring a unified technology platform approach that seamlessly shares processes and data across public safety functions and leverages available technologies.

FY 2009 funding of \$4,147,000 continues the selection, purchase and implementation of the Law Enforcement Records Management System (LERMS) as part of the new CAD/RMS system. This project, as well as related Fire and Rescue Department (FRD) service projects, is highly reliant on the new Public Safety Architecture Modernization Project, which provides essential infrastructure components for these related initiatives. Executive project management will be provided by Department of Information Technology staff to insure that implementation of the records management systems funded in existing projects (IT0048 and IT0062) share integrated and coordinated work plans and leverage resources across phases and functional areas.

**Return on Investment (ROI):** The LERMS project will ultimately include all aspects of police work and police information linked through an integrated system. A new system that assures accurate, timely, reliable and accessible information on events, County geography and police information will permit the Police Department to efficiently act upon events, from initial response through tracking, investigation and reporting. Additionally, having reliable and accessible data from the system will result in the ability to effectively address staffing, crime analysis, resource allocation, tactical planning and strategic planning. The new system will provide opportunities to increase effectiveness by eliminating redundant work and open up opportunities for information sharing and interoperability between law enforcement agencies. This is a significant tool in developing investigative leads, linking crimes across jurisdictional boundaries, and conducting crime analysis.

| IT0065, Facility Maintenance Management System | IT Priorities: | • | Completion of Prior Investments; |
|--|----------------|---|----------------------------------|
| oyotem   |                | • | Improved Service and Efficiency  |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$345,000    | \$523,125           | \$403,218              |                     |

**Description and Justification:** This project supports the acquisition of an Integrated Facilities and Grounds Management System as a single, integrated facilities information resource for the Facilities Management Department (FMD) and the Fairfax County Park Authority (FCPA). An updated system will increase the effectiveness and efficiency of staff and the utilization of capital resources required to maintain and manage County and Park facilities and properties. In FY 2005, FMD and FCPA partnered to pursue a joint system to replace the existing Maintenance Management System (work orders and asset inventory), update the current hardware and software capabilities, and enhance customer use of the data, while enabling the FCPA to retire its 16 year-old, out-dated facility management system. The new system provides enhanced data collection methods and tools, improved warranty tracking, elimination of redundant facilities information databases, user-friendly interfaces for internal and customer access, a strong reporting system, and the use of wireless technology to improve maintenance operations.

FY 2009 funding of \$188,218 provides for system documentation, transition and integration services required for the completion of project milestones including the maintenance, GIS integration, Inventory Management and Bar Coding, and Key Management Modules.

**Return on Investment (ROI)**: Savings will be realized through the streamlining of communications and processes throughout FMD and FCPA, with the most quantifiable savings being derived from time saved by field personnel (crafts, trades, and grounds personnel) and Work Control Center staff within the agencies. The new system provides enhanced data collection methods and tools, improved warranty tracking, elimination of redundant facilities information databases, user-friendly interfaces for internal and customer access, a strong reporting system, and the use of wireless technology to improve maintenance operations. The replacement system will provide bar coding and wireless technology, which will greatly improve the speed and consistency of data collection necessary to better utilize field staff by the elimination of excessive hand recording of information that is entered into the system at a later time and/or by a different individual. Duplicate work orders will be eliminated; work performed by vendors for inventory that is under warranty will be more efficiently monitored; and multiple tasks will be consolidated onto single work orders – all equating to savings through cost avoidance.

| IT0071 – E-Summons and Court Scheduling | IT Priorities: | • | Completion of Prior Investments; |
|---|----------------|---|----------------------------------|
|   |                | • | Improved Service and Efficiency  |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$0          | \$876,929           | \$200,000              | \$200,000           |

**Description and Justification:** Funding of \$200,000 is provided in FY 2009 for continued implementation of the Court Scheduling and E-Summons Project, a multi-phase project focused on automating and streamlining traffic summons and related processes. The project is a partnership between Fairfax County General District Court (GDC) and the Fairfax County Police Department. With in-house completion of Court Scheduling (phase one), the current project is focused on implementation of an electronic summons solution for traffic tickets in Fairfax County. The goal is for officers to capture and transmit traffic summons information to the Court electronically via hand held or in-vehicle electronic devices. The project aims to eliminate manual data entry, ensure data integrity, provide accurate code section violations to officers in the field, facilitate faster and safer ticketing process for officers, and enhance public access to traffic ticket and case information.

Currently summonses are issued utilizing the Commonwealth of Virginia's paper summons. The summons is completed by hand by the issuing officer and is then signed by the citizen. The multi-part form provides copies to the citizen, issuing officer, General District Court, and the FCPD Central Records. Once received by Central Records the data is entered in the Police Records Management System (PRMS). Summons data is then transferred to the GDC's case management system.

Often the handwritten summonses are difficult to read and result in data entry errors with potentially serious consequences for the public. The current system can also result in duplicate data entry by Court personnel if summons information is not received in a timely manner from the Police Department's Records Management System to the Court's case management system. It is the intent of the E-Summons initiative to reduce roadside officer/citizen contact time, increase data entry accuracy, reduce data entry workload, and reduce latency of data transfer to the Court's case management system

The project's goal is to provide a device to police officers in the field that will allow electronic capture of information related to a summons and near real time transfer the data to a database which will dramatically decrease the time it take for data to be available to the Courts and the public. Also, by providing strong data edits and referential integrity to hundreds of state and local traffic offense codes overall quality of summons data will improve.

**Return on Investment (ROI):** Reducing data entry efforts and increasing data quality as it relates to accuracy, integrity, reliability, and timeliness are the primary factors contributing to this project's return on investment. Eliminating double data entry, reducing redundancies between agencies, and streamlining court scheduling and docketing processes, will create multiple opportunities to improve existing operations and provide better customer service to the citizens of Fairfax County. Near real time transfer of summons information will enhance the public's ability to review their case information and pay traffic fines using the Internet or IVR. Currently there are long delays from the time tickets are issued to the time they are available to the public for payment. Furthermore, improved accuracy of offense codes cited in the summons can result in enhanced County revenues.

| IT0072, Citizen Relationship Management | IT Priorities: | • | Improved Service and Efficiency;                                      |
|---|----------------|---|---|
|   |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$484,568    | \$365,432           | \$300,000              | \$300,000           |

**Description and Justification:** This project is designed to improve the County's ability to provide information and services across County agencies by developing a communication gateway for residents and businesses to access County information and request non-emergency services with the establishment of a cost-effective, long-term Customer Relationship Management (CRM) solution. Currently County agencies, in response to information requests, use a variety of sources to retrieve information from multiple products. County agencies use different, non-integrated systems to complete requests including Web tools, individual contact tracking applications, legacy applications, and specialized business systems.

FY 2009 funding of \$300,000 will continue the efforts to deploy CRM for agencies with call centers. This will support the County's effort for a central disturbed platform for handling citizens inquires for information and services while maintaining a centralized knowledge base. The project will use industry standard CRM, Call Center solutions. It will enable a common method of telephony to answer citizen questions and log service requests through a standard interface. The strategy includes a three digit 311 number that will eliminate the need for citizens to navigate through hundreds of County telephone numbers to find the right one, reduce the number of transferred calls from one agency to another, and minimize the number of nonemergency help and assistance calls to 9-1-1. A virtual single access point with a common database for County government information and service requests by constituents will be established. Through the use of technology, call-takers receiving calls on a phone line do not have to be co-located, nor do they have to be stationed at a County desk to receive the call. The CRM project aligns with the County's strategic initiatives to link agencies and communications to serve the residents of the County and to allow County agencies to work across agencies for maximum benefit. Citizens will be able to make a phone call to one number and County staff, using a central database, will service the request immediately or transfer the call to a specified business representative that is best able to handle the request. County management will have access to a number of tools that will allow them to manage the calls for service more efficiently and streamline processes, establish consistent service delivery standards in responding to telephone and Web requests, and track transactions. This will eliminate guesswork, improve workflow capabilities, and reduce paperwork transfers from one agency to another.

**Return on Investment (ROI):** With the CRM solution, citizens will be able to make a single phone call, while County staff, using a central database, will be able to either service the request immediately or transfer the call to a specified business representative. County management will have access to a number of tools that will allow them to manage service calls more efficiently, streamline processes, establish consistent service delivery standards, and track transactions. Industry reports indicate a 35 percent to 50 percent reduction in non-emergency calls to 9-1-1 due to implementation of a CRM call center. Based on research and industry reports, 70 percent of calls can be expected to be handled immediately by the first contact and only 10 percent will be referred to a business specialist. Other cost reduction opportunities and time savings will result from reduced calls and e-mails, and time spent researching responses to citizen requests, resulting in enhanced operational efficiencies.

| IT0078 Courthouse Expansion<br>Technology | IT Priorities: | • | Completion of Prior Investment; |
|---|----------------|---|---------------------------------|
|   |                | • | Improved Service and Efficiency |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$11,565     | \$1,718,435         | \$500,000              | \$500,000           |

**Description and Justification:** Based on the courtroom technology prototype project, a cooperative effort of the three Fairfax Courts; Circuit Court, General District Court, Juvenile and Domestic Relations District Court, the Office of the Sheriff, and other County agencies; this project will continue the implementation of modern courtroom technologies recommended and considered appropriate for the newly expanded County Courthouse.

These technologies include integrated and mobile evidence presentation, real-time court reporting, wireless access, electronic wayfinding, video conferencing, video arraignment and judges' control of the technologies from the bench. The courtroom technologies proposed will advance the recommendations provided in the original Courthouse design master plan and supported by the Courtroom 21 Project associated with the College of William and Mary Law school.

FY 2009 funding of \$500,000 will support the second phase of implementing the recommended technologies in the new wing of the expanded Courthouse. Of this amount, \$300,000 associated with video arraignments are supported by a transfer from the Cable Communications Fund. Funding will support the necessary consulting services, procurement of the necessary hardware and software, and other specialties needed to outfit a modern day courtroom. Consistency and standardization between the three Courts is necessary to maintain efficient courtroom operations and optimize available resources.

**Return on Investment (ROI):** The primary benefit will be improved efficiencies and the facilitation of court processes and services that will provide a direct impact to the citizens, businesses and employees that reside in the County. The main objectives seek to improve citizens access, internally and externally, to the Courts, facilitate trials and hearings in the most effective and efficient means possible, allow for all three Courts to share common resources and provide for flexibility and adaptability to incorporate future changes in technology and court proceedings and allow the Courts to keep up with the increasing demand and docket backlogs that currently exists.

| IT0079, Legacy Systems Replacement | IT Priorities: • Enhanced County Security; |   | Enhanced County Security;   |
|------------------------------------|--|---|---|
|                                    |  | • | Improved Service and Efficiency;                                      |
|                                    |  | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$0          | \$800,000           | \$7,000,000            |                     |

**Description and Justification:** The Fairfax County government and school system have embarked on a multi-year joint initiative that will modernize the portfolio of enterprise systems that support finance, human resources, budget, procurement and related administrative applications with a modern, integrated corporate solutions applications suite. The project seeks to mitigate the risk that antiquated and disjointed systems pose for system failure and inferior data.

The project partners, County government and school system, are committed to fully participate and dedicate the necessary resources to successfully support the initiative. Additionally, as is the current methodology, the government and school system will operate on a unified financial, budget and purchasing system and will strongly consider future use of a joint human resources system.

The current 'stovepipe' legacy corporate systems are on various legacy technology platforms using a variety of hardware and software architectures integrated through a number of interfaces, integration and reporting tools. Previous assessments of these aging systems revealed that they are past their projected useful lifecycle, no longer meet today's technology standards, and do not meet the demands of resource and financial management and decision-making. System limitations continue to drive the proliferation of multistep tasks to produce desired data and the development of numerous 'workaround' systems to gain necessary functionality currently not available. This has also resulted in an exponentially increased risk for fraud and security flaws. Due to their age, many of these systems have no vendor support and rely on senior in-house staff for maintenance. The systems are written in technical code that is outdated, not practiced by the vast majority of the industry labor pool, and thus are unable to be integrated with future mandated requirements.

Of these systems, the County government's Personnel Resource Information System Management (PRISM) is the most vulnerable to immediate obsolescence issues. It is over 20 years old and highly customized based on historical County operational practices to the extent that it cannot be further enhanced. Further, attrition of in-house technical staff as they approach retirement age is jeopardizing future support for maintaining this legacy application with the other systems approaching a similar expert support dilemma.

A governance body of senior officials of the County and school system stakeholder agencies is working to identify the optimal strategy to pursue in its effort to procure an integrated financial/procurement/human resources/budget suite that will support agencies in the delivery of government and school services and activities, take advantage of best practices, provide the opportunity for multi-faceted data-driven decisions, significantly improve the efficiency and effectiveness of existing processes, enhance e-government initiatives and promote telework opportunities, and aid in the transformation and standardization of financial and human resource processes. This initiative will foster an environment of change and redesign to allow for more efficient and effective processes.

Previous funding was provided to begin an assessment of the legacy systems used to support core business functions; identify, review and streamline existing business processes currently supported by the legacy systems; perform and analyze a review of existing and future trends in the software and systems implementer marketplace; and identify and refine functional business requirements necessary in the future software. FY 2009 funding of \$7 million is provided to continue the investment in this initiative, positioning the project to award the software and systems implementer contracts. The FY 2009 funding is provided by a transfer from the Health Benefits Trust Fund. This transfer is available as a result of savings in employer contributions for health insurance and will be used to replace the portion of the project to replace the Human Resources system.

**Return on Investment (ROI):** Automation and modernization will empower both employees and managers to execute processes more efficiently, and make the best strategic decisions based on the most timely and accurate information. This shifts the orientation of the system from that of a data repository to one of an information system solution. With the migration to a more standard, supportable database and development environment that incorporates workflow and Web technology, the project expects to:

- Create a collaborative environment where access to data and information, even from remote locations, is based on system "look and feel," flexibility, intuition, data definition, data stewardship and security;
- Provide a seamless integration of a new system with existing applications;
- Reduce the number of shadow systems and reconciliations between systems;
- Align the reporting strategy with the County government and school system overall data management and data warehousing strategy. This must enable and support performance reporting and consistent information management throughout the organizations;
- Incorporate fully integrated best business practices;
- Develop a system that is user-friendly and that empowers users to improve their business processes;
- Add and improve functionality in back-office functional areas;
- Improve the quality and accessibility of information for decision support;
- Reduce redundant data entry, storage, and paper processing;
- Support the countywide balanced scorecard initiative;
- Improve operational effectiveness and productivity;
- Enhance web self-service and improve customer service; and
- Retire existing legacy and back office systems and tools.

| IT0083, Public Safety Architecture<br>Modernization | IT Priorities: | • | Enhanced County Security;   |
|---|----------------|---|---|
|   |                | • | Improved Service and Efficiency;                                      |
|   |                | • | Maintaining a Current and<br>Supportable Technology<br>Infrastructure |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$0          | \$2,687,750         | \$2,592,458            | \$1,892,458         |

**Description and Justification:** The Public Safety Architecture Modernization project supports implementation of an integrated Computer Aided Dispatch (CAD) and Public Safety Records Management Systems (RMS), including public safety communications, as well as Police, Fire and Rescue, and Emergency Medical Services records management. The project will implement an integrated public safety information architecture enabling data sharing across functional areas of the CAD and RMS in order to support key public safety lines of businesses and provide flexibility to respond to both internal and external data sharing requirements. In a multi-track and multi-phase project, the legacy CAD, Police RMS and Fire and Rescue RMS will be replaced, and a new Fire Emergency Medical Services Incident Reporting system (EMSIR) will be implemented. Options for integrating with the existing Office of the Sheriff's information system will be evaluated as well.

This project provides the underlying architecture for the operational components of a CAD and RMS including network development; augmentation of the enterprise Geographic Information System (GIS) to meet public safety requirements; and provision of an interim commercial broadband wireless service pending completion of the regional broadband wireless network under development by the National Capital Region (NCR) Urban Areas Security Initiatives (UASI). Wideband service will migrate from commercial services to the local government owned and operated NCR network when it is completed. Executive project management will be provided by the Department of Information Technology to ensure that implementation of RMS systems funded in existing projects (IT0048 and IT0062) share integrated and coordinated work plans and leverage resources across phases and functional areas.

FY 2009 funding of \$1,892,458 is provided to continue support of an integrated public safety information architecture with network support, infrastructure, hardware technicians to support end-users, and provisioning of broadband wireless services.

**Return on Investment (ROI):** The Public Safety Architecture Modernization project represents the first joint initiative undertaken by the public safety agencies in Fairfax County (Department of Public Safety Communications, Police Department, Fire and Rescue Department, Sheriff's Office and Office of Emergency Management) and provides an integrated public safety suite for CAD and RMS, with supporting network infrastructure to support robust GIS including automatic vehicle location (AVL), automatic vehicle routing recommendations (AVRR), broadband wireless data services and automated field reporting.

| IT0085, Loan Processing System<br>Replacement | IT Priorities: | • | Mandated Requirement;           |
|---|----------------|---|---------------------------------|
| neplacement                                   |                | • | Improved Service and Efficiency |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$0          | <b>\$0</b>          | \$126,000              | \$126,000           |

**Description and Justification:** FY 2009 funding of \$126,000 is provided to replace Department of Housing and Community Development's aging mainframe Loan Processing System (LPS) which monitors loans made to resident homeowners under a number of County and Federal programs.

Through the years both the functionality and technology associated with the existing system have become dated and the agency's needs for a more robust loan processing system have grown. A number of critical requirements are not longer supported by the existing Loan Processing System including: the ability to track changing interest rates during the loan period, track loans by funding source, track and calculate changes to the amortization schedule, calculate interest payable, monitor ground lease payments, track bond fees (MIP balances, bond servicing, monitoring fees), track loans above \$1 million, as well as numerous escrow accounts and non-traditional loans. Due to the lack of an adequate system, these needs have been met by less efficient spreadsheet applications.

To address current shortcomings of the LPS system, the County would need to invest substantial time and money and discontinue its plan to phase out the inefficient IDMS mainframe systems and their associated maintenance costs, and still face the prospect of an antiquated system that is costly to maintain and enhance.

**Return on Investment (ROI):** Procuring and implementing a loan servicing system that utilizes web technology is needed to properly account, service and report on the excess of \$46 million in loans in the HCD portfolio, many of which are not captured in LPS. It would also allow for enhanced revenues through the use of database matches (e.g., the Clerk of the Court, DPZ, etc.) which would allow HCD to independently determine if the conditions for loan repayment have become due. Given the large dollar amounts in our Proffer and various deferred loan programs the opportunities to enhance revenues or deter the loss of funds justify the need for this new system.

| IT0086 Fire Station Alerting Technology<br>Replacement | IT Priorities: | • | Enhanced County Security;       |
|--|----------------|---|---------------------------------|
|  |                | • | Mandated Requirements;          |
|  |                | • | Improved Service and Efficiency |

| FY 2007      | FY 2008             | FY 2009                | FY 2009             |
|--------------|---------------------|------------------------|---------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan |
| \$0          | \$0                 | \$993,067              | \$200,067           |

**Description and Justification:** The purpose of this project is to provide a replacement fire station alerting system. This alerting system is a critical component of the 911 system and public safety response, and is a requirment specified in the National Fire Protection Association (NFPA) 1221 Standard for the Installation, Maintenance, and Use of Emergency Services Communications Systems 2007 Edition.

The business and operational objective is to purchase and impelment a proven alerting system to help Fairfax County meet the public safety goals of reduced response times, enhanced communication, and providing immediate, relevant access to critical information. The proposed solution will provide a required technical refreshment to the current station alerting equipment. The current equipment is nearing end-of-life and will not meet NFPA requirements w . Furthermore, the solution will replace multiple interfaced system components with at turn-key off-the-shelf system that will streamline maintenance and troubleshooting, while providing full compliance with NFPA 1221 through both Network and Radio alerting circuits. The system is scalable so that enhanced features, such as multiple text/video displays, can be added with new construction or renovation projects.

FY 2009 funding of \$200,067 is provided to bring the Fire and Rescue Department's station alerting system to a technical level that will allow integration to the selected Public Safety Computer Aided Dispatch and Records Management System (PSCAD/RMS).

**Return on Investment (ROI):** The overall Public Safety CAD/RMS system will provide the most efficient system for all public safety information and technology utilization. The systems have been combined and/or interfaced when appropriate to leverage existing systems and processes and reduce duplicatitive efforts within the County's public safety communities

This is a life-cycle replacement from aging and incompatable equipment to an integrated COTS system. Maintenance and support for system components will be streamlined. Additionally, the system will reduce reflex time for response by providing immediate unit based visual and verbal alert indication at time of dispatch and prior to radio voice dispatch, provide safe lighting and alert process throughout station for personnel response to vehicles, provide personnel with immediate relevant information regarding the event by text display and verbal recorded announcement, and provide station alerting capabilities as required by NFPA 1221.

|                                 |                | • | Improved Service and Efficiency |

| FY 2007      | FY 2008             | FY 2009                | FY 2009                     |
|--------------|---------------------|------------------------|-----------------------------|
| Expenditures | Revised Budget Plan | Advertised Budget Plan | Adopted Budget Plan         |
| \$0          | \$0                 | \$1 <i>7</i> 9,571     | \$1 <i>7</i> 9,5 <i>7</i> 1 |

**Description and Justification:** In FY 2009 funding of \$179,571 is included to upgrade and bring ParkNet, Fairfax County Park Authority's aging business application into compliance with the recently enacted Payment Card Industry Standards (PCI) and replace aging hardware and operating system platforms with a County-compliant, Windows-based hardware and operating system platform to serve the Park Authority and its citizen-customers.

Project objectives include: securing the Parknet application from the threat of virus infection by using County-standard tools for anti-virus protection; securing the ParkNet application from threat of environmental mishap and promote Continuity of Operations Planning (COOP) by relocating it from the Herrity Building to the Enterprise Operations Center; increase availability to staff and citizens, placing the administration of the ParkNet platform under the auspices and standards of the agency's organizational unit; providing a faster application for agency staff (which benefits County citizen-customers); and eliminate the need for special DEC Alpha Cluster and Open VMS skill for Automation Services Branch staff.

**Return on Investment (ROI):** The ParkNet application represents a significant investment of resources in the core software product and in the custom enhancements which have been specified and implemented over the years the agency has owned the product. The migration from the current hardware and operating system platforms to a new Windows Server 2003-based platform preserves the investment the agency has made without replacing the core software product.

The ParkNet system is critical to a range of agency core functions including recreation center and golf course point of sale activities to program and camp registration via the internet and IVR portal, nature centers, and lake front parks. This initiative ensures conformity with current supportable IT architecture and security standards, as well as compliance with Payment Card Industry mandates for accepting credit card payments over the internet and on the IVR. Opportunites exist for enhanced revenue because of increased uptime and availability of the ParkNet system and the Internet class registration capability. The project protects the application, agency information, and citizen information by moving the server the County's Enterprise Operations Center (EOC), and promotes Continuity of Operations Planning (COOP) by involving County staff and resources in the protection of the data.

<sup>&</sup>lt;sup>1</sup> Funding from the Health Benefit Trust Fund will support the legacy replacement system.

<sup>&</sup>lt;sup>2</sup> Funding from the Cable Communications Fund will support telecommunications-related initiatives.

<sup>&</sup>lt;sup>3</sup> Information Technology projects are budgeted based on the total project costs. Most projects span multiple years. Therefore, funding is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

The Department of Cable Communications and Consumer Protection (DCCCP) is the umbrella agency for four distinct functions: Consumer Services; Communications Policy and Regulation; Communications Productions; and Print, Mail and Administrative Services. The total agency staff is dispersed over three funding sources. In FY 2007, the department reorganized the Consumer Protection Division into three separate branches, Consumer Affairs; Regulation and Licensing; and Public Utilities, in an effort to raise the functions of consumer protection to a higher visibility within the County structure. To better reflect the range of services provided by the three branches, the Consumer Protection Division was renamed Consumer Services. Consumer Services, which mediates complaints, educates consumers, regulates taxicabs, issues licenses and provides utility rate case intervention, is presented within the Public Safety Program Area (Volume 1) and is fully supported by the General Fund. The Cable Communications function, which includes the Communications Policy and Regulation Division and the Communications Productions Division, is responsible for communications regulation and for television programming, and is presented in Fund 105 (Volume 2). Fund 105 is supported principally by revenue received from local cable operators through franchise agreements. The Print, Mail and Administrative Services Division administers countywide printing and duplicating services, mail services and publication sales, and accounting and finance services. Mail Services and Publication Sales along with Accounting and Finance are programs presented in the Legislative-Executive Functions/Central Services Program Area in (Volume 1) and are fully supported by the General Fund. Printing and Duplicating Services, presented in Fund 504 (Volume 2), is funded by revenues received from County agencies and the Fairfax County Public Schools (FCPS). The Department of Information Technology is responsible for management of the Multi-Functional Digital Device/Copier Program and the fiber Institutional Network (I-Net). While the functions of the Department of Cable Communications and Consumer Protection provide diverse services, they all provide quality customer service to the community and work collaboratively with County agencies, neighboring jurisdictions and professional organizations.

## Mission

To promote the County's cable communications policy, to enforce public safety, customer service and regulatory requirements among the County's franchised cable operators, and to produce television programming for Fairfax County Government Channel 16 and the Fairfax County Training Network (FCTN).

To accomplish its mission, Cable Communications encourages competition, innovation and inclusion of local community interests in the countywide deployment of cable communications services; negotiates, drafts and provides regulatory oversight and enforcement of cable communications contracts, ordinances, statutes, and customer service policies; protects the health, safety and welfare of the public by rigorously enforcing safety codes and construction standards; ensures community access to local, public,

Fairfax County government's Channel 16 is one of the best government access cable television stations in the nation

educational, and governmental programming; develops and maintains reliable means of mass communication of official information during public safety emergencies; provides digital media production services to create informational programming for County residents accessible through a variety of distribution channels; and supports internal communications, including remote origination and viewing of training programs for County employees and emergency first-responders.

### **Focus**

The Cable Communications Fund (CCF) was established by the Board of Supervisors in 1982 to provide accurate and auditable accounting of revenues and expenses associated with the administration of the County's Cable Communications Ordinance and Franchise Agreements, communications productions, and the provision of cablerelated consumer and policy services. supporting this fund comes from Institutional Network (I-Net) and Public, Educational, and Governmental (PEG) access capital grants and franchise fees received from local cable operators based on the operators' gross revenues. In FY 2009, CCF revenue is estimated to be \$14.9 million based on FY 2007 actual revenues. In the third quarter of FY 2007, Virginia replaced local collection of cable franchise fees with state collection of the Virginia Communications Sales and Use Tax. Changes in the calculation of gross revenues under the new CST may affect future CCF revenue growth.

The Communications Policy and Regulation Division (CPRD) negotiates cable franchise agreements and is responsible for regulatory oversight of the County's three franchised cable television providers. In FY 2007, there were 250,000 cable subscribers within the County. CPRD ensures that cable operators provide high quality customer service, safe cable system construction and operation, and access to PEG programming and emergency information to their subscribers. CPRD also proactively monitors federal and state legislation and regulations and advises the Board of changes that may

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- Ensuring the development, compliance and enforcement of federal, state and local communications standards in a rapidly changing industry and uncertain regulatory environment;
- Investigating and resolving resident complaints involving cable service and technical performance issues;
- Providing quality educational and informational cable television programming that meets the needs of a diverse community;
- Utilizing new cost-effective technologies to convey information to the public; and,
- Maintaining a highly skilled and knowledgeable workforce that interacts with a dynamic communications industry.

impact the County's historical authority over land use decisions, negotiation of new contracts, enforcement of existing franchises, and the ability to ensure public safety, consumer protection, and fair competition within the County.

In conjunction with the Office of the County Attorney, CPRD is working to negotiate additional franchise agreements with other interested cable service providers. As of FY 2007, more than one-third of County residents have a choice of cable service providers. Comcast and Cox provide service in separate, non-overlapping franchise areas, and Verizon is on target to provide service throughout the County by 2012. Franchised cable service providers continue to offer a "triple-play" or "quadruple-play" of video, broadband Internet access, voice, and wireless services. CPRD will continue to respond to a broader array of technical, legal, regulatory, and policy inquiries.

CPRD enforces all federal, state, and County cable communications construction codes and standards on a competitively neutral basis. CPRD inspects 20 percent of all cable communications system construction sites, resolves 100 percent of cable construction complaints filed by residents, and promotes a "safety-first" attitude among construction crews. CPRD's work ensures public safety, restoration of streets and sidewalks, safe underground burying and aerial hanging of cables, proper use of work zone traffic controls, control of soil erosion, and adherence to cable picture signal quality and interference-reduction standards. CPRD inspection and enforcement efforts have resulted in increased compliance with federal, state, and local codes. In FY 2007, 94 percent of inspected work sites were in compliance with applicable codes. Moreover, in FY 2007, the industry outreach efforts of CPRD resulted in nearly 87 percent of all construction problems being properly corrected after one non-compliance notice, thus reducing the disruption to County residents. In FY 2009, Verizon will continue construction of its new fiber optic cable communications system and Cox will continue to replace and upgrade portions of its hybrid coaxial-fiber cable communications system. This is anticipated to result in a continued need for construction-related inspections and complaint investigations.

In FY 2007, CPRD worked to analyze a significant amount of proposed state and federal communications legislation and regulation. Working with the Office of the County Attorney, the Office of the County Executive's legislative liaison and other national municipal organizations, CPRD was able to assist in defeating federal legislation that would have preempted the local cable franchising process with a one-size-fits-all federal franchise process. In FY 2007, CPRD submitted a report to the FCC finding that the first year of head-to-head competition between traditional telephone and cable companies had yielded lower prices for bundled cable-Internet-telephone service packages, but higher prices for stand-alone cable service. In FY 2008 and FY 2009 CPRD will continue to work with the Office of the County Attorney, the Office of the County Executive's legislative liaison, and the Department of Management and Budget to track the fiscal impact on Fund 105 of the 2007 Virginia Communications Sales and Use Tax and to draft legislative amendments as necessary to ameliorate any adverse or unintended consequences of the new communication sales and use tax. CPRD will also continue to work with the County Executive's legislative liaison to monitor new developments in cable and broadband legislation, regulation and technology, and to work with other DCCCP divisions and branches to develop consumer education materials focused on understanding television, cable, Internet and telephone technologies. The CCF will continue to support on-going cable and broadband technology, legal, and regulatory training for County staff in multiple agencies.

CPRD continues to administer financial support for construction, activation, and repair of the Institutional Network (I-Net). The system is comprised of more than 4,000 km of fiber linking over 400 County and Fairfax County Public Schools (FCPS) locations. In FY 2008, high-speed data and voice services will be migrated to the I-Net in some County facilities. CPRD also continues to be active with public safety and new technology initiatives. CPRD is working with the Department of Information Technology and the federal Department of Homeland Security in a cooperative initiative with other regional jurisdictions and state and federal agencies to establish inter-jurisdictional communications network links that improve public safety response during public emergencies, such as natural disasters and terrorist incidents.

The Communications Productions Division (CPD) is responsible for the production of television programming for Fairfax County Government Channel 16, the public information channel, and the Fairfax County Training Network (FCTN). Channel 16 programming includes both Board-directed programming and the highest-rated program proposals submitted by County agencies. In FY 2009, Channel 16 will televise an estimated 334 live meetings of the Board of Supervisors, Planning Commission, and Board of Zoning

Appeals, County Executive projects, Board-directed special programming, town meetings and monthly video newsletters for members of the Board of Supervisors. In addition, programs and teleconferences highlighting the services of County agencies will be televised. The final number of informational programs produced in FY 2009 will be determined by the Fairfax County Communication Strategy's quarterly program proposal process. In addition, all Channel 16 programming is now video streamed, reaching an even larger audience. Channel 16 reaches an estimated 600,000 residents with informational programming about County programs and services that serve the community.

In addition to programming for the public, the CPD is responsible for programming on closed-circuit FCTN via the Fairfax County I-Net. In FY 2009, the CPD will televise training and internal communications productions, as well as national satellite conferences, telecommunication courses, video training, and lectures on areas such as leadership, team work, self-improvement and management techniques. FCTN programming reaches approximately 25,000 combined County and Fairfax County Public Schools' employees, providing the latest training and professional development programming to improve services to residents.

The Communications Productions Division will continue to operate an emergency message system for residents, serve as a centralized resource for loan pool equipment for County agencies, manage a satellite downlink for County teleconferencing, and support the video magistrate system, County kiosk system, video teleconferencing and video streaming of Channel 16 on the Internet to better serve County residents. CPD also provides engineering support services to County agencies and new County facilities featuring complex audio and video installations.

In conjunction with the implementation of the Fairfax County Communication Strategy, the CPD will continue to evaluate and redesign Channel 16 and FCTN programming in FY 2009; develop an external/internal communications campaign to publicize County programs and initiatives; and enhance current operations and customer service through technology changes. The CPD will continue to maintain a national presence, be a leader in the quality of programming produced and research new services to enhance operations.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$157,149

An increase of \$157,149 in Personnel Services associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

## **♦** Carryover Adjustments

(\$7,673,778)

A decrease of \$7,673,778 including \$6,780,564 in Operating Expenses and \$893,214 in Capital Equipment due to carryover from FY 2007 for costs associated with both encumbered carryover and implementing the I-Net.

## ♦ I-Net Adjustments

(\$2,334,726)

A decrease of \$2,334,726 in costs associated with implementing the I-Net. These costs are projected to decrease in the short term as the construction of the I-Net phases down, but are likely to increase again in the long term as equipment is replaced in future years.

### **♦** Capital Equipment

\$250,000

An amount of \$250,000 is funded for audio/visual equipment to support the Communications Production Division. This includes funding for video production equipment the television studio and the Board Auditorium, as well as a remote studio to permit production of live offsite events to be broadcast on the Fairfax County Government Channel 16, Fairfax County Training Network, and I-Net.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

**♦** Pay for Performance

\$42,086

An increase of \$42,086 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

**♦** Carryover Adjustment

\$7,673,778

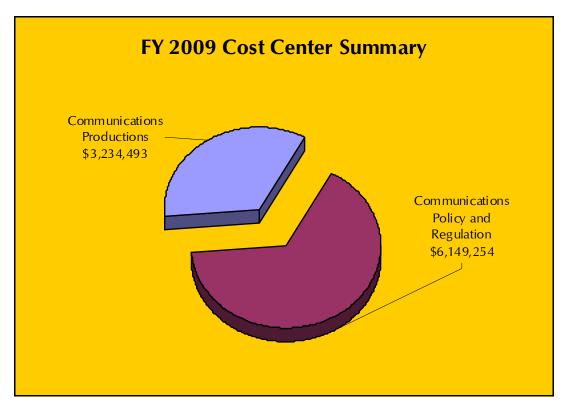

As part of the *FY 2007 Carryover Review*, \$7,673,778 was carried forward into FY 2008. This amount includes \$2,080,269 as encumbered carryover, \$5,102,256 as unencumbered carryover, and the appropriation of \$491,253 in higher than anticipated I-Net and equipment grant revenue received in FY 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

The Board of Supervisors made no adjustments to this agency.

## **Cost Centers**

The two cost centers within Fund 105, Cable Communications that work together to achieve the mission of the Fund are the Communications Productions Division and the Communications Policy and Regulation Division. In FY 2009, approximately \$3.9 million of the \$6.1 million in the Communications Policy and Regulation Division is dedicated for I-Net initiatives.

## **Key Performance Measures**

### Goal

To encourage competition and innovation in countywide deployment of cable communications services; to protect the public by rigorously enforcing cable communications construction safety codes and procedures, customer service regulations, consumer protection statutes, franchise agreements, the Fairfax County Communications Ordinance and applicable law; to respond to public and County agency inquiries regarding communications policy, statutes, regulations and technological developments; to support development of community networks to cost-effectively transport video and data; and to maintain reliable means of mass communication of official information during public safety emergencies.

## **Objectives**

- ♦ To inspect 20 percent of cable communications construction work sites within the County and achieve 100 percent correction of all identified instances of non-compliance with applicable federal, state and County cable construction and public right-of-way codes and standards.
- ♦ To inspect 100 percent of all homeowner cable communications construction complaints requiring investigation by inspectors within 1 business day and to complete 100 percent of such complaint investigations.
- ♦ To achieve a 90 percent favorable resolution rate of cable communications service complaint investigations.
- ♦ To meet response deadlines for regulatory, legislative and policy inquiries, and to complete 100 percent of all inquiries.
- ◆ To meet measurement requirements for construction, activation and repair of the I-Net.

### **Performance Measurement Results**

Verizon's anticipated construction of its new fiber optic cable communications system and higher than anticipated levels of Cox construction work to replace and upgrade portions of its hybrid coaxial-fiber cable communications system resulted in a significant increase in FY 2007 in the number of cable communications construction sites. CPRD anticipates that in FY 2009 construction work will return to FY 2006 levels. In FY 2007, CPRD inspectors were able to use a combination of efficient route planning and more effective communication among staff members to increase staff efficiency per site inspection. CPRD has updated its service quality and outcome measures for regulatory, legislative, and policy inquiries to better reflect the stated objective.

The new I-Net related performance measures reflect completion of the initial phase of I-Net construction and video activation.

## **Key Performance Measures**

#### Goal

To provide a centralized video production center and satellite conferencing facility for the Board of Supervisors, County Executive, and all County agencies in order to communicate critical County information to residents and training for employees, and to provide related production services in new technologies to benefit the public and County operations.

### **Objectives**

♦ To serve the public information needs of the County and the educational needs of the County workforce by completing 98 percent of live, studio and field program hours requested for both Channel 16 and FCTN while maintaining cost, quality and work hour efficiencies.

## **Performance Measurement Results**

While total program hours remains fairly constant from year to year, total hours of live, studio and field program hours varies as requested by the Board of Supervisors, the County Executive and as requested by County agencies through the Fairfax County Communication Strategy. Communications Productions Division staff manages resources as needed to meet the changing demands. Performance measures reflect a change in Service Quality and Outcomes measures instituted in FY 2007. Service Quality and Outcome data is now classified by live, studio and field programming instead of Channel 16 and FCTN programming for consistency with output and efficiency indicators.

| Ending Balance <sup>7</sup>                  | \$22,291,090      | \$10,264,939                      | \$11,604,395                      | \$9,298,877                          | \$3,563,533                       |
| Reserve for PC Replacement                   | \$52,800          | \$31,500                          | \$31,500                          | \$31,500                             | \$31,500                          |
| Unreserved Ending Balance                    | \$22,238,290      | \$10,233,439                      | \$11,572,895                      | \$9,267,377                          | \$3,532,033                       |

<sup>&</sup>lt;sup>1</sup> The Transfer Out to the General Fund represents compensation for staff and services provided by the County for cable-related activities.

<sup>&</sup>lt;sup>2</sup> This funding reflects a direct transfer to Fairfax County Public Schools (FCPS) to support the educational access grant. The amount is calculated as one percent of the gross revenues of all franchise operators. The actual amount to be transferred to the FCPS on an annual basis is based on actual gross receipts. Annual reconciliation of the revenue and subsequent transfer will be conducted and adjustments to the transfer level will be incorporated in next year's budget.

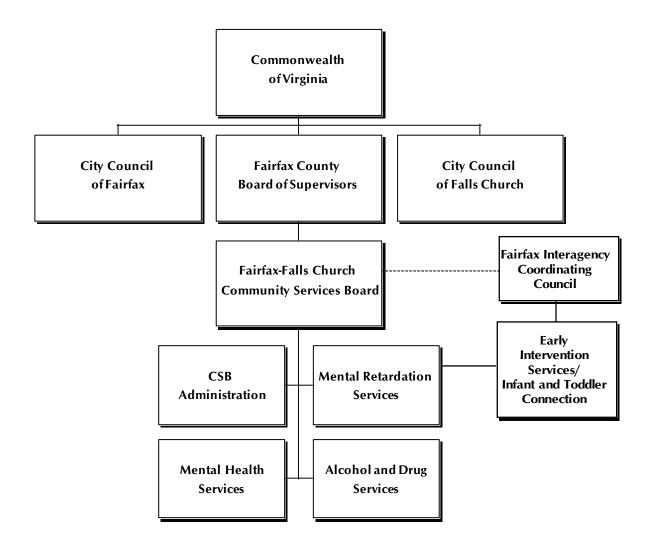

<sup>&</sup>lt;sup>3</sup> This funding reflects a direct transfer to FCPS to support a replacement equipment grant of \$250,000.

<sup>&</sup>lt;sup>4</sup> This funding reflects a direct transfer to Fund 104 to support the Voice network modernization project, as well as a cable-related technology project in the courtrooms.

<sup>&</sup>lt;sup>5</sup> This funding reflects a direct transfer to Fund 303 to support extending the I-Net to new County facilities.

<sup>&</sup>lt;sup>6</sup> This funding reflects a direct transfer to Fund 505 to support staff and equipment costs related to the I-Net.

<sup>&</sup>lt;sup>7</sup> Actual ending balances fluctuate year to year, as ending balances are reappropriated within Fund 105. Equipment and services expenditure requirements fluctuate year to year based on I-Net construction and maintenance schedule.

## Mission

The Fairfax-Falls Church Community Services Board (CSB) partners with individuals, families and the community to empower and support Fairfax-Falls Church residents with or at risk of developmental delay, mental retardation, mental illness, and alcohol or drug abuse or dependency.

The CSB provides leadership to ensure the integration of the principles of resilience, recovery and self-determination in the development and provision of services. The CSB maintains accountability by ensuring that continuous system improvement is anchored in best practice, outcome and effectiveness measurement, and the efficient use of resources.

As the public support network, the CSB provides services which assist, improve and maximize the potential of individuals affected by these conditions and strengthen their capacity for living self-determined, productive and valued lives within the Fairfax-Falls Church community.

## **Focus**

The CSB was created in 1969 and is comprised of 16 members; 14 appointed by the Fairfax County Board of Supervisors and one each appointed by the Councils of the Cities of Fairfax and Falls Church. The CSB is established under the <u>Code of Virginia</u>; however, under a Memorandum of Agreement between the CSB and the local jurisdictions, the CSB carries out its roles and responsibilities under an Administrative Policy Board structure and observes County rules and regulations regarding financial management, personnel management and purchasing activities. The CSB directly operates and contracts with outside entities for the provision of many services.

In the aftermath of the Virginia Tech tragedy, the CSB responded to the media and local community by offering information, counseling and support. The reforms recommended as a result of this tragic incident are expected to have a long standing impact on the structure and priorities within the state mental health system. Prior to the Virginia Tech tragedy, the Commission on Mental Health Law Reform was in the process of conducting a comprehensive review, which included examinations of the state's civil commitment process, access to services, and diversion of individuals with serious mental illness away from the criminal justice system and into the mental health system. The CSB staff has been actively involved in evaluating necessary changes to the laws and services to more effectively meet the needs of people with mental illness. Further complicating existing service delivery challenges is the downsizing of some state facilities and previous decreases in local psychiatric hospital beds. While the scrutiny following the Virginia Tech shootings is likely to bring new attention to some of the current issues in community and institutional treatment, an adequate funding source to comply with pending legislation related to commitment of consumers to inpatient or outpatient care has not been identified.

Another significant influence on the work of the CSB this past year has been the transformation initiative established by the Department of Mental Health, Mental Retardation and Substance Abuse Services that is described in the following vision statement: "We envision a consumer-driven system of services and supports that promotes selfdetermination, empowerment, recovery, resilience, health and the highest possible level of consumer participation in all aspects of community life, including work, school, family, and other meaningful relationships. This vision also includes the principles of inclusion, participation, and partnership." The implementation of these principles is visible in the CSB's visionary goals, in its strategic planning effort with its Board and staff, and in a significant number of change initiatives directed toward a more person-centered, recovery-oriented service system. An example is evident in the CSB's selection as a site for the Virginia Services Integration Project (VASIP). As part of this project, the CSB

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Providing an array of services that are comprehensive and effective and meet demands for service;
- o Maximizing stakeholder involvement in planning the service delivery system;
- o Providing infrastructure to support service delivery; and
- o Securing funding to support quality programs.

is training all mental health and alcohol and drug services staff to become more effective in the provision of services to persons with the dual disorders of mental illness and substance abuse. The CSB is also better integrating mental health and alcohol and drug services and promoting a much closer partnership with consumers and families in the design and evaluation of services. A joint assessment tool, researched and developed by the CSB staff, was successfully piloted in FY 2007 and is currently being implemented by staff in Mental Health and Alcohol and Drug Services. This tool will streamline the assessment process for consumers with mental health or substance use disorders seeking services from the CSB, and is an example of a best practice model.

Another major piece of transformation work currently being undertaken is the CSB Recovery Initiative. Mental health consumers, advocates and staff are working closely to improve the "feel" of the CSB's service system for those who use it. Efforts include new educational materials, wellness seminars, consumer leadership development, the hiring of consumers in CSB peer support positions and a general focus on a

welcoming, informed and compassionate service experience, which is inclusive of the expertise of consumers and families.

An additional area of significant change in Mental Health services is the reduction of the waiting list for services, achieved through the implementation of a rapid access assessment model for adult consumers. Waiting periods for services, which were over 120 days in early 2006, have been reduced to two to ten days for persons not requiring immediate emergency services. This rapid access approach will continue to require additional resources to meet the best practice standards of an assessment appointment within 2-10 days of the consumer's call for services.

Major staff resources are currently committed to support the work of the Josiah H. Beeman Commission. The Commission, named for the former CSB Board Chairman, who passed away in 2006, was established by the Board of Supervisors in FY 2007 to review Mental Health Services and to recommend the design of a highly transformed system of care. This Commission consists of locally and nationally recognized mental health service administrators/providers and community stakeholders, and their recommendations will establish a vision and framework for a future mental health delivery system grounded in best practices. There is hope that the Commissioners' future recommendations for Mental Health Services, anticipated to be released in spring of calendar year 2008, will strongly align with current change initiatives now underway in the CSB as a whole.

A realignment of resources is also apparent in the organizational transfer of the CSB's Domestic Abuse and Sexual Assault Services Program to the Department of Family Services, which will be completed at the conclusion of FY 2008. This transfer is aligned with the vision of the County Executive's Domestic Violence Planning and Policy Council for a community-based partnership approach to critical domestic violence services.

Changes in the area of Mental Retardation Day Services are occurring with the ongoing development of Self-Directed (SD) Services. The CSB staff, along with representatives from the Office of the County Executive, Office of the County Attorney, Department of Management and Budget, and Department of Administration for Human Services, recommended implementation of SD Services as an alternative model to traditional day support and employment services. SD services will provide adults with mental retardation and their families (including recent graduates from local public and private school special education programs) the opportunity to self-direct day support or employment services to maximize self-determination, enhance personalized service delivery, promote greater community involvement, and reduce service costs. Initiation of SD Services began in FY 2008 via use of Individualized Purchase of Service contracts for two consumers, and is currently being evaluated.

Transformation efforts within the CSB are also evident in the arena of technology. In FY 2007, the CSB began implementing the last major component of its Electronic Health Record (EHR) system, the service planning and progress notes feature. Although implementation was temporarily postponed due to connectivity and functionality issues, the implementation process is expected to resume in the spring of CY 2008. At the state level, an EHR vision and a data dictionary are currently being developed and the Community Consumer Submission, Version Three (CCS3), a data collection mechanism that allows data exchange between the CSB and the Commonwealth, is being implemented. The implementation of the CCS3 is a significant step toward improved data reporting, facilitated by the consolidation of information in a central data warehouse.

Regional projects also demonstrate the CSB's current transformation efforts. Through state-initiated funding mechanisms, several recovery projects are underway that empower consumers with mental illness to provide direct services to their peers and to become leaders and trainers in the field. The CSB staff has also been involved in the Northern Virginia Regional Health Information Organization effort, the goal of which is facilitating health information exchanges among the medical community in order to improve consumer care and coordination. On a smaller scale, the Northern Virginia CSBs have established a regional database of information related to consumer hospitalizations. This database is expected to be operational by the end of FY 2008.

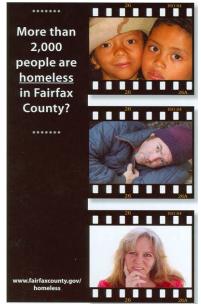

System transformation necessitates a significant level of support and training for staff. Over the past year, there have been many system-wide training events related to transformation principles. The transition of service approaches, funding alternatives and full use of the EHR all require a significant amount of time to fully integrate with the changing demographic face of the community.

Major strategic planning efforts are underway. The CSB began work on the Balanced Scorecard, a countywide strategic planning initiative for FY 2008. Additionally, the CSB Board developed a new mission

statement and is developing initiatives that focus on short-term and measurable goals for the CSB. The first step in this process involved the completion of CSB's "dashboard," a collection of critical data elements for regular review by the Board and CSB staff.

The changing demographics in the Fairfax-Falls Church community offer many opportunities to improve current services and address future needs. For example, the CSB is an active contributor to the County's planning for citizens' long term care needs. Persons served in the CSB's residential programs or supported housing wish to age-in-place and require additional resources to meet their needs for barrier-free living as their needs for medical services increase. In addition, the CSB is actively contributing to other countywide initiatives, including Gang Prevention and the Ten Year Plan to End Homelessness.

Revenue maximization efforts in FY 2009 continue to focus on Medicare The CSB has been successful in assisting consumers with choosing and maintaining benefits through Medicare Part D. Another example of the CSB's expanded opportunities through revenue maximization is evident in the state's enactment of Medicaid coverage for select Alcohol and Drug Services. With staff positions funded from this new revenue source, Alcohol and Drug Services joins Mental Health and Mental Retardation Services in offering much needed case management and support services funded through Medicaid dollars.

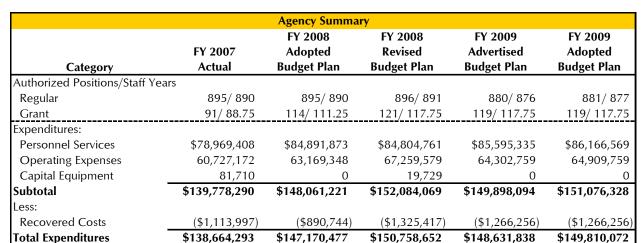

The Board of Supervisors endorsed the goal of ending homelessness in Fairfax County within 10 years.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$2,417,920

A net increase of \$2,417,920 is attributable to an additional \$2,625,341 in Personnel Services for salary adjustments necessary to support the County's compensation program, partially offset by an increase of \$207,421 in Recovered Costs for reimbursed mental health salaries. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### **♦** Mental Health Adult Outpatient Services

\$571,038

An increase of \$571,038 in Personnel Services is associated with ongoing efforts to maintain the elimination of the waiting list for Mental Health Services. Funding will ensure that access and caseload standards can be met by maintaining current clinical capacity, continuing retiree and Exempt Limited Term employee options and utilization of the County's workforce planning strategies.

#### **♦** Medicaid Grant Positions

\$193,419

An increase of \$193,419 in Personnel Services is associated with the establishment of 3/3.0 SYE new Medicaid grant positions to support additional staffing needs at three directly-operated Mental Retardation group homes as part of the *FY 2007 Carryover Review*. These expenses are completely offset by additional Medicaid revenue and maximize the recovery of state Medicaid dollars for Mental Retardation Services.

### **♦** Personnel Services Reduction

(\$1,612,598)

A decrease of \$1,612,598 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

### **♦** Contract Rate Adjustments

\$924,305

An increase of \$924,305 in Operating Expenses supports a 2.71 percent contract rate increase for providers of contracted mental health, mental retardation, alcohol and drug abuse treatment, early intervention services and CSB-wide services.

◆ FASTRAN \$517,537

An increase of \$517,537 in Operating Expenses is based on an annual adjustment of FASTRAN operating expenses.

#### ♦ Domestic Abuse and Sexual Assault (DASA) Program Transfer

(\$1,713,272)

A decrease of \$1,713,272, which includes a decrease of \$1,232,816 in Personnel Services, as well as 15/14.0 SYE merit positions and 4/2.0 SYE grant positions, and a decrease of \$480,456 in Operating Expenses, is associated with the transfer of the DASA Program to the Department of Family Services as part of a multi-agency effort to streamline the County's domestic violence services.

#### **♦** Carryover and Miscellaneous Adjustments

(\$4,062,570)

A net decrease of \$4,062,570 associated with decreases of \$150,000 for unencumbered carryover, \$1,737,140 for encumbered carryover and \$2,175,430 in grant and other miscellaneous adjustments. This adjustment is comprised of decreases of \$326,221 in Personnel Services, \$3,716,620 in Operating Expenses and \$19,729 in Capital Equipment.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$797,242

An increase of \$797,242 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Reduction in Limited-Term Funding

(\$226,008)

A decrease of \$226,008 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

### ♦ Restore Funding for Contract with Inova Health Care Services

\$347,000

An increase of \$347,000 in Mental Health Inpatient Services to restore funding to Inova Health Care Services at Mt. Vernon Hospital for contacted non-emergency psychiatric services.

### Restore Funding to CrisisLink

\$135,000

An increase of \$135,000 in Mental Health Emergency Services to restore funding to CrisisLink to support a contract for 24/7 emergency and information and referral call-in services.

#### Restore Funding to Alternative House

\$75,000

An increase of \$75,000 in Mental Health Residential Services to restore funding to Alternative House to fully support an FY 2009 contract for mental health residential respite care and transitional housing services.

♦ Fuel Cost \$50,000

An increase of \$50,000 for Department of Vehicle Services charges is based on anticipated requirements due to higher costs for unleaded and diesel fuels.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$4,225,582

As part of the FY 2007 Carryover Review, a net increase of \$4,225,582 is attributable to the carryover of \$1,737,141 in encumbered funding, \$150,000 in unencumbered funding, \$338,608 in unexpended grant balances, and \$1,999,833 associated with administrative adjustments. This adjustment is comprised of increases of \$485,299 in Personnel Services, \$3,888,645 in Operating Expenses, \$19,729 in Capital Expenses, and \$168,091 in Recovered Costs.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

(\$637,407)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a net decrease of \$637,407 including an increase of \$78,000 for expenditures associated with support of the Josiah H. Beeman Commission, a net decrease of \$57,977 based on required adjustments and a decrease of \$773,384 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. The across the board reduction accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

### **♦** Position Adjustment

\$0

During FY 2008, 1/1.0 SYE position was transferred from Agency 68, Department of Administration for Human Services (DAHS) to Fund 106, Fairfax-Falls Church Community Services Board, Alcohol and Drug Services.

## **FUND STATEMENT**

<sup>&</sup>lt;sup>1</sup> This total does not include all of the state funds allocated to the Fairfax-Falls Church Community Services Board (CSB) that are used to provide services to CSB clients. In FY 2009, an estimated \$32.8 million in community Medicaid services will be paid directly by the State to private providers.

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan Ending Balance of \$523,832 is a decrease of 89 percent and reflects utilization to offset FY 2008 program requirements and the General Fund Transfer. The FY 2009 Advertised Budget Plan Ending Balance of \$199,977 is a reduction of 62 percent and reflects utilization to offset FY 2009 program requirements and the General Fund Transfer.

## Mission

To provide strategic management and direction to programs and services of the Fairfax-Falls Church Community Services Board (CSB), as well as to provide support services to the 16 members of the CSB Board.

### **Focus**

CSB Administration provides strategic management and direction to CSB programs and supports the 16 citizen members of the CSB Board. CSB Administration also serves as the liaison between the CSB; Fairfax County; the cities of Fairfax and Falls Church; the Virginia Department of Mental Health, Mental Retardation and Substance Abuse Services (DMHMRSAS); Northern Virginia Regional Planning; and the federal government. In addition, CSB Administration staff is responsible for site planning and development, overseeing property management support, leasing and renovations for a growing inventory of over 160 residential, commercial and County properties.

CSB Administration includes two cost centers, CSB Administration and CSB-Wide Projects. The CSB Administration cost center includes the Director's Office, the Planning and Information Management team, the Site Planning and Resource Development team and the Quality Improvement team. The Director's Office provides overall leadership, policy direction and oversight of all programs and services while supporting advocacy efforts at the state level to promote policy changes and increased funding. This includes an emphasis on identifying and implementing best practice programming throughout the service system. CSB leadership has worked closely with the Department of Human Resources and the Department of Management and Budget through the semi-annual workforce planning processes. Workforce planning has assured a staffing plan that aligns with evolving consumer requirements. The Planning and Information Management staff promotes the use of technology that maximizes efficiency in service delivery and statewide benchmarking of services to evaluate and adjust approaches. A major initiative is the implementation of the CSB Electronic Health Record, which will provide comprehensive electronic connectivity to health information. In addition, system wide strategic planning efforts for both the agency and the CSB Board are staffed from this office. The Site Planning and Resource Development staff provides vital residential and facility development work to support treatment programs and to address unmet housing needs of CSB The Quality Improvement staff focuses on implementing a detailed system-wide quality improvement plan with an emphasis on risk management, training and human rights.

CSB staff has held a number of key leadership positions across the state in recent years. This includes chairmanship of several committees, including the State Mental Retardation (MR) and Alcohol and Drug Services (ADS) councils. Through these venues, as well as state wide documentation streamlining and data management efforts, Fairfax-Falls Church has contributed to the improvements in processes that will assist staff in the daily performance of their jobs. Among these are the streamlining of documentation requirements, developing congruence among licensing and Medicaid requirements, and identifying other strategic efforts. Participation in countywide efforts has also enhanced the partnerships and collaborations, among other county agencies and the private sector. CSB leadership is committed to improving internal and external community relations. The CSB has developed a communications strategy and team to enhance the agency's public information and education efforts.

The CSB continued its work on the implementation of the electronic health record (EHR) by installing the treatment planning and progress notes feature, the final component of the EHR scheduled for implementation. Although training was halted by connectivity and functionality issues in FY 2007, this effort is back on course in FY 2008. Staff have participated in trainings and presentations related to the development of EHRs. Furthering this effort are state wide initiatives involving the streamlining of documentation and development of a data dictionary, a critical step toward the exchange of health information.

The CSB has a number of individuals readying for retirement, many in key leadership positions. In order to facilitate the transfer of knowledge and development of skills, the CSB began work on identifying core competencies for its management and supervisory positions. The CSB has been chosen to be part of the County phase one succession planning pilot and anticipates that its participation will be a great asset in the leadership of the system transformation already underway.

The CSB-Wide Projects cost center reflects centralized business costs associated with supporting all CSB programs and services, such as information technology, travel/training and insurance premiums for workers' compensation, as well as general liability, furniture, fixtures, appliances and property maintenance and repair for CSB program sites.

The rate of Central Administration staff to CSB merit and exempt status positions is 1:100. The CSB Central Administration budget is 1.23 percent and the CSB-Wide Projects budget is 1.67 percent of the overall Fund.

## New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to coordinate with the Department of Public Works and Environmental Services to plan three Capital Improvement programs: 1) large addition to accommodate service coordination and improve community access at the Mt. Vernon Community Mental Health Center; 2) new dual-diagnosis treatment residence built on the current Gregory Drive site; and, 3) substantial renovation or relocation of the Woodburn Community Mental Health Center.   | ¥                 | ð                     |
| Continue developing an automated database to track adverse incidents and provide opportunities for analysis of this information to support the CSB's Risk Management Program. Implement a continuous quality improvement strategy that incorporates consumer and family feedback, analysis of critical incidents and human rights complaints, and utilizes this information to make improvements in service delivery.  | ď                 | ¥                     |
| Participated in regional emergency management activities, including planning for future events, safety and care continuity for recipients of CSB services. Responded to weather related emergency and Virginia Tech outreach efforts.  |                   |                       |
| Building Livable Spaces  | Recent<br>Success | FY 2009<br>Initiative |
| Emphasized the design and development of barrier-free homes for consumers who are medically fragile or physically disabled.  |                   |                       |
| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to improve nursing retention and recruitment. The Department of Human Resources (DHR) completed a behavioral health nurse classification series for the CSB to address recruitment and retention issues. The CSB was a key partner in bringing the George Mason University School of Nursing to the County, which resulted in Master of Science in Nursing course offerings on-site in County facilities. The CSB nurses are now developing undergraduate and graduate student nurse training preceptorships. | ¥                 | V                     |

| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue to partner with the Community HealthCare Network (CHCN) to increase access to behavioral healthcare for persons served by the CHCN through the deployment of a CSB psychiatrist; additional initiatives are underway to improve access to primary and behavioral healthcare with the non-profit community. |                   | $ \mathbf{A}$         |
| Improved community awareness through news media and advocacy efforts of the CSB Board with the establishment of a communications team, including a public information officer and communications specialist.  |                   |                       |
| Piloted an integrated assessment instrument to be utilized in assessing the service needs of all Mental Health and Alcohol and Drug Services consumers, and evaluated a systemic evaluation of the co-occurring disorder treatment capability of CSB staff and system.  |                   |                       |
| <b>Exercising Corporate Stewardship</b>   | Recent<br>Success | FY 2009<br>Initiative |
| Incorporated Alcohol and Drug Services into the Medicaid maximization efforts to offset County costs of providing services.   |                   |                       |
| Continue to identify and implement technological opportunities, training and support of staff, as well as ensured that an adequate infrastructure exists to implement a fully electronic health record system, with a goal of comprehensive electronic connectivity to health information no later than 2010.       |                   | $ \mathbf{A} $        |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$40,530

An increase of \$40,530 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Personnel Services Reduction

(\$26,940)

A decrease of \$26,940 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

#### **♦** Internal Funding Adjustment and Realignment Between CSB Agencies

\$412,419

An increase of \$412,419, comprised of \$110,000 in Personnel Services and \$302,419 in Operating Expenses, is due to funding adjustments and realignment between CSB agencies to reflect expenditure requirements for FY 2009.

#### ♦ Contract Rate Increases

\$4,512

An increase of \$4,512 in Operating Expenses is due to a 2.71 percent contract rate increase for contracted CSB-wide service providers.

### ♦ Domestic Abuse and Sexual Assault (DASA) Program Transfer

(\$88,177)

A decrease of \$88,177 in Operating Expenses is due to the transfer of the DASA Program to the Department of Family Services as part of a multi-agency effort to streamline the County's domestic violence services.

## **♦** Carryover Adjustments

(\$330,273)

A decrease of \$330,273 is due to the carryover of one-time encumbered funding of \$310,544 in Operating Expenses and \$19,729 in Capital Equipment as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$14,293

An increase of \$14,293 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$330,273

As part of the FY 2007 Carryover Review, an increase of \$330,273, comprised of \$310,544 in Operating Expenses and \$19,729 in Capital Equipment, is due to encumbered items.

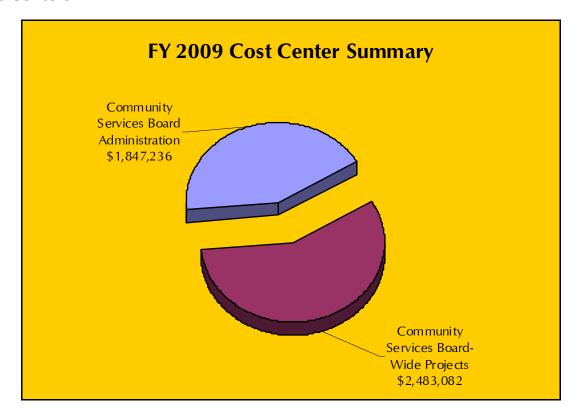

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

## **♦** Third Quarter Adjustments

\$120,771

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved a net increase of \$120,771 including an increase of \$133,889 in expenditures to support cell phone, pager, blackberry and wireless card telecommunication costs across the department offset by a decrease of \$13,118 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. The across the board reduction accelerated the Personnel Services reduction included for FY 2009 in the <u>FY 2009 Adopted Budget Plan</u>.

## **Key Performance Measures**

#### Goal

To provide overall leadership, policy direction and oversight of all programs and services supported by Fund 106, Fairfax-Falls Church Community Services Board (CSB).

## **Objectives**

♦ To provide direction and management support to CSB programs so that 80 percent of service quality and outcome goals are achieved.

| Indicator   | FY 2005<br>Actual | Prior Year Actu<br>FY 2006<br>Actual | FY 2007<br>Estimate/Actual | Current<br>Estimate<br>FY 2008 | Future<br>Estimate<br>FY 2009 |
|---|-------------------|--------------------------------------|----------------------------|--------------------------------|-------------------------------|
| Outcome:  |                   |                                      |                            |                                |                               |
| Percent of CSB service quality and outcome goals achieved | 81%               | 81%                                  | 80% / 77%                  | 80%                            | 80%                           |

## **Performance Measurement Results**

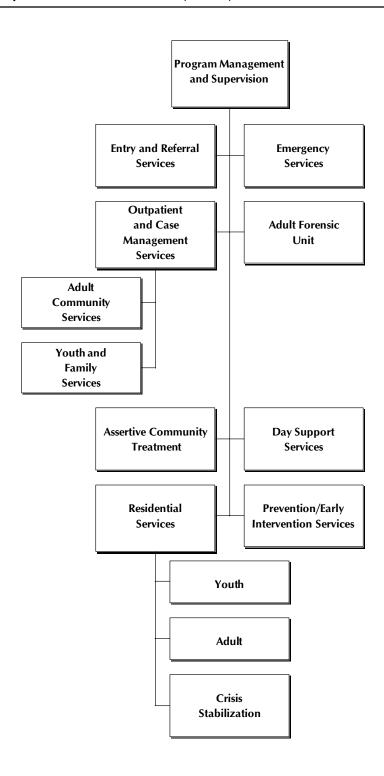

In FY 2007, CSB met 36 of 47, or 77 percent, of the service quality and outcome performance goals throughout the CSB system. This is slightly below the goal of 80 percent. CSB staff continues to be active in local, regional and state efforts related to outcomes and data integrity. Ongoing agencywide work on quality improvement and data management will support these initiatives.

Fund 106 Community Services Board (CSB) - Mental Health Services

## Mission

To partner with residents and service providers of Fairfax County and the cities of Fairfax and Falls Church in establishing a network of integrated, accessible, and recovery oriented mental health services that will ensure safety and promote wellness, compassion, respect and dignity for individuals and families. The goals of these services are to assist consumers to:

- Stabilize mental health crises and symptoms;
- Promote recovery in the community with the least restrictive setting;
- ♦ Prevent relapse of symptoms; and
- ♦ Acquire adaptive living skills.

## **Focus**

Mental Health Services provides leadership in the management, supervision, planning, evaluation and resource allocation of local, state, federal and grant funds to ensure that consumers and families of persons with serious mental illness and serious emotional disturbance receive quality clinical and community support services. Mental Health Services manages service delivery at seven directly-operated community mental health sites, more than 10 24-hour residential treatment facilities, and a 24-hour emergency services program. In addition, contracted mental health services provided by private vendors are overseen by Mental Health Services. Services are provided through eight cost centers: Program Management and Supervision, Regional Inpatient Services, Emergency, Day Support, Residential, Outpatient and Case Management, Prevention/Early Intervention and Assertive Community Treatment.

Program Management and Supervision Services provides management, programming, financial monitoring, training and general support services and the other six cost centers provide directly-operated and contracted mental health services to clients.

Regional Inpatient Services utilizes six local hospitals for state funding of Local Inpatient Purchase of Services (LIPOS). Staff from Emergency Services place at-risk consumers with no financial resources into beds at these local hospitals when beds are unavailable at the Northern Virginia Mental Health Institute (NVMHI). Discharge planners then monitor consumers' stays and facilitate transfers to NVMHI as needed.

Emergency Services serves high-risk adults, adolescents and children who are in a psychiatric crisis. Through emergency walk-in sites and the Mobile Crisis Unit, Emergency Services takes crisis intervention into the community, working closely with consumers, families and public safety. The Mobile Crisis Unit includes a 24-hour-per-day rapid deployment team that responds to hostage/barricade incidents with the Special Weapons and Tactics (SWAT) team and police negotiators. The Adult Forensic Unit addresses the needs of Adult Detention Center inmates who have serious mental illnesses by providing forensic evaluations, risk screenings, crisis intervention, placement recommendations, and medication and release planning. The Court Independent Evaluators program provides the services of clinical psychologists to evaluate individuals who have been involuntarily hospitalized prior to a final commitment hearing, as required by the Code of Virginia. They assist the court in reaching decisions about the need and legal justification for longer-term involuntary hospitalization. The Entry and Referral Unit serves as the primary point of contact for individuals seeking services. Staff members gather information from callers, assess for immediate risk, connect persons with emergency needs to immediate care and assure appointments for those requiring continuing services.

Day Support Services provides an intensive, highly-structured stabilization, evaluation and treatment setting for adults with serious mental illness and adolescents with serious emotional disturbance, including those who are experiencing the co-occurring disorders of mental illness and addiction. In addition to a directly-operated Comprehensive Day Treatment program, Day Support includes contracted all-day rehabilitative programs which place special emphasis on vocational preparation and placement.

For those requiring more support, Residential Services provides residential treatment and support services to adults with serious mental illness and youth with serious emotional disturbance. In addition to traditional residential services, Residential Services includes two acute care programs seeking to divert individuals from

more restrictive and costly psychiatric hospitalization. These programs, Adult Crisis Care and Youth Crisis Care, provide short-term intensive crisis intervention and stabilization services in a residential setting. Likewise, the Women's Shelter is a short-term confidential crisis program providing crisis intervention, counseling and case management services for victims of domestic abuse and their children. The Youth Crisis Care program began providing services in January 2007, serving 25 clients in FY 2007.

Outpatient and Case Management Services provides recovery-oriented individual and group treatment, case management and medication services to adults, children and their families. In FY 2009, the Men's Program (ADAPT), the Victim Assistance Network (VAN) and the Women's Shelter programs, formerly provided by Prevention/Early Intervention, will be moved to the Department of Family Services/Office for Women as part of a multi-agency effort to streamline the County's domestic violence services. For those individuals with symptoms and impairments who, for reasons related to their mental illness, resist or avoid involvement with traditional office-based outpatient services, the Program for Assertive Community Treatment (PACT) team offers intensive outreach and mental health treatment and case-management services. These services are typically provided to individuals in their homes, work places or other environments of need. Additionally, active hospital discharge planning and discharge planning for jailed individuals who suffer from mental illnesses are available. Historically, many people with severe mental illness are arrested for status offenses such as disorderly conduct or trespassing. The Jail Diversion Program is helping to break the cycle of criminalizing these individuals and to connect or re-connect them with intensive mental health services.

## **Trends in Mental Health Services**

Mental Health Services is currently undergoing significant system transformations. Consumer satisfaction, consumer feedback via focus groups, treatment surveys and workgroups provide a blueprint for ongoing changes in treatment services that are both effective and responsive to the needs and preferences of those individuals receiving services.

A major factor in mental health system transformation is the concept of recovery and recovery-oriented services. Individuals with mental illness can build or restore a meaningful sense of belonging in the community and build a life that is positive and fulfilling despite or within the limitations imposed by mental illness. Some individuals can fully recover, others can achieve recovery with the assistance of ongoing medication and support, and still others can develop the skills they need to manage symptoms and define themselves beyond having a disability. All of these individuals can engage in meaningful activities, interests, and relationships. Mental health services are designed to support that recovery process with the consumer as a collaborative partner in treatment.

There is a growing emphasis in mental health on the recognition of co-occurring disorders (mental illness and substance use disorders) and the provision of integrated treatment as an effective intervention for both disorders. System transformation requires that no matter where or when an individual with co-occurring disorders enters mental health or addiction treatment, they receive competent assessment and treatment that addresses the full range of services needed.

The continuing reduction of available psychiatric beds, due to lack of profitability for hospitals, requires that hospitalizations focus on acute stabilization, which increases the importance of alternatives to psychiatric hospitalization being available in the community. Within this context, case management becomes an essential service to assist individuals with serious mental illness to manage in the community, receive needed medical and psychiatric services and begin their recovery process.

#### Factors that may impact how business is conducted

♦ To ensure that Mental Health Services meets current and future community needs, the Board of Supervisors established the Josiah H. Beeman Commission in FY 2007. This Commission consists of locally and nationally recognized mental health service administrators/providers and community stakeholders, and their recommendations will establish a vision and framework for a future mental health delivery system grounded in best practices. The Commission began its work in February 2007, and anticipates issuing a final report and recommendations in calendar year 2008.

- ♦ From November 2005 to June 2006, there was a large turnover of adult outpatient clinicians. Around mid-year 2006, there were more than 14 full-time vacancies to fill, approximately 25 percent of the adult clinical staff. The large number of vacancies had a direct impact on consumer services and significantly increased the wait time for an intake appointment. Initiatives were undertaken to address client/staff issues like waiting time, caseloads and paperwork, since it was determined from staff feedback, solicited by management, that these vacancies reflected staff attitudes about the difficulty of their workload.
- Waiting time was reduced through initiatives like the Access units (See New Initiatives and Recent Accomplishments section); size of caseloads was studied and resulted in an objective standard for realistic size, which was set at a maximum of 40 cases per clinician; and, paperwork expectations were reduced through the use of an outside consultant and coordinating staff workgroups. All of these initiatives and more, coupled with a streamlined hiring process implemented through the cooperation of the Fairfax County Department of Human Resources, reduced the vacancy factor to the point that this personnel shortfall has largely been closed.
- ♦ Northern Virginia has experienced more demand for beds to serve persons referred to a hospital through the Commonwealth of Virginia's Civil Commitment process. In FY 2006, Northern Virginia averaged 170 Temporary Detention Orders per month, while in FY 2007, the monthly average rose to 187. The increased demand has been accommodated by shortening the length of stay at the Northern Virginia Mental Health Institute and by expanding Residential Crisis Stabilization Services (See New Initiatives and Recent Accomplishments section). CSB Emergency Services admitted a total of 473 County consumers to Crisis Care Facilities in FY 2007. It is still possible that another 44 psychiatric beds for adults operated by the private sector will close in the future.
- While bed availability has diminished, needs have increased. People seeking care from Mental Health Services are coming with increasingly severe illnesses and this magnifies the inpatient bed shortage crisis. When individuals need psychiatric hospitalization, they may be placed in beds at great distances from their homes or forced to manage in the community when there are no beds available, which impedes the recovery process for many individuals. CSB Emergency Services have now assumed the local responsibility, previously held by the Northern Virginia Mental Health Institute (NVMHI), for finding post-hearing commitment beds. Emergency Services is responsible for coordinating these hospital placements for over 500 insured and uninsured consumers a year to both the private and state hospital systems.
- Newer medications can make a difference in treatment outcomes, but they are very costly. More effective medications, reduced hospital stays and lower long-term health care costs have helped to improve the quality of life and periods between hospitalizations for many consumers; however, the newest medications are very expensive and are being used in the treatment of approximately 90 percent of adult consumers in Mental Health Services.
- ♦ The viability of Medicaid has never been more critical to mental health service delivery. It has become a larger portion of state support of mental health service delivery as the State has been maximizing Medicaid reimbursement rates to localities while reducing state general fund contributions. The CSB has used good business practices to analyze the ways Medicaid dollars can be brought in and maximized for funding clinical service delivery. For example, in order to maximize Medicaid reimbursement and provide much needed services, 7/7.0 SYE new grant positions, fully funded by Medicaid, were added in FY 2006. In FY 2008, 16/15.5 SYE new grant positions, fully funded by Medicaid, were added. Mental Health Services has also initiated chart audits, with resulting training, to insure that clinicians are accurately billing for Medicaid case management services, which has resulted in increased billable services.
- ♦ The lack of affordable housing remains one of the most critical issues facing low-income consumers who have a serious mental illness. The lack of housing frequently interferes with discharge planning and can put persons at risk of becoming homeless. In addition, the number of consumers waiting for a permanent place to live is increasing.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| In the aftermath of the Virginia Tech tragedy, CSB Emergency Services responded to the media and the local community closely related to the incident by offering counseling, direction and support. Additionally, Emergency Services was called upon to develop mutually agreed upon Outpatient Commitment Procedures with the local court system to clearly articulate management of these cases within the community.  | ð                 |                       |
| During FY 2007, Emergency Services screened and admitted a total of 473 County consumers to Crisis Care facilities. Approximately 65 percent of these admissions were diversions from traditional psychiatric inpatient hospitalization, saving approximately 1,995 bed days of care for alternate use or to offset the regional crisis of diminishing psychiatric hospitalization beds. This reduction also reflects the best practice philosophy of treating consumers in the least restrictive environment and the Recovery principle of utilizing more normative, community based programming if possible.   | ð                 |                       |
| Adult Comprehensive Services (ACS) achieved major advancements in integrating professional nursing care into the mental health system during FY 2007. By partnering with multiple personnel and nursing stakeholders, a new Behavioral Nurse Series was created in the CSB's personnel system. Based on a projected utilization study, five contract Licensed Practical Nurses were hired to assist with ACS Medical Services thereby freeing up other professional medical staff for more important duties. Additionally, the Partial Hospitalization Program was reshaped to allow a single manager over the two sites, which allowed the implementation of nurse practitioner services at both sites. | <b></b> ✓         |                       |
| A state-funded Forensic Discharge Planner/Case Manager position continues to provide face-to-face assessments and discharge planning services to incarcerated adults with serious and persistent mental illnesses. Goals are to support consumers' successful return to the community, link them with appropriate community services and prevent future involvement with the criminal justice system. Utilizing resources from the same state fund, the Jail Diversion Program created a Jail Diversion Program Manager position in FY 2007 to better organize this alternative, increasingly chosen over incarcerating the mentally ill.  | ð                 |                       |
| Mental Health Services continues to engage in a comprehensive effort to enroll all eligible consumers in Medicare Part D, the federal program that funds some prescription medications for consumers. Mental Health Adult Residential Services enrolled 97 percent of their eligible consumers and Adult Community Services enrolled 93 percent of their eligible consumers in FY 2007. Another direct medication benefit for consumers came with the implementation of a Level IV Medication Services pilot program in FY 2007 for 30 psychiatrically stable consumers in need of medication services only.   | <b></b> ✓         | ð                     |

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| The contract for the Youth Crisis Care Center on Leland Road was awarded to United Methodist Family Services of Virginia (UMFS) in FY 2007. Through this public/private partnership, youth, ages 12 to 17, and families in crisis are receiving short-term intensive psychological/psychiatric services and remain in the community. The Youth Crisis Care Center is an eight-bed co-ed facility with stabilizing treatment lasting up to 45 days. During FY 2007, this program was successfully implemented in conjunction with the efforts of multiple County agencies, public/private organizations and UMFS.  | ð                 |                       |
| In FY 2007, Mental Health Services partnered with four other community agencies – Virginia Department of Probation and Parole, Fairfax County Office of the Sheriff; Opportunities, Alternatives and Resources (OAR), and the Northern Virginia Workforce Investment Board – to successfully lobby the Virginia Department of Corrections to fund Virginia Serious and Violent Offenders Re-entry Program (VASAVOR), a demonstration program that this interagency team has operated for the past three fiscal years using federal grant funds. VASAVOR deals exclusively with offenders who have been convicted of serious and violent crimes and are typically returning to the community after long incarceration. National recidivism rates in this specific population are approximately 35 percent. However, this unique combination of wraparound services, which include a CSB psychiatrist and therapist to address mental health/psychotropic medication issues, has reduced the recidivism rate to 3 percent. The Fairfax-Falls Church CSB's participation has been so valued, that the U. S. Department of Labor requested that the agency apply for grant funding to support a second VASAVOR model program, currently under review. | Ĭ                 | <b>∑</b>              |
| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
| The Program for Assertive Community Treatment (PACT) Peer Specialist initiated a series of Wellness Recovery Action Plan (WRAP) groups, in which 100 PACT consumers have participated thus far. WRAP is a peer-to-peer program in which a consumer certified as a facilitator instructs other consumers in skills and tools to manage their mental illness. The individualized plans the consumers develop include self-care strategies and safety crisis plans that are incorporated into their overall treatment plan. PACT intends to extend the opportunity to participate in WRAP groups to every PACT consumer.   | <b>V</b>          | <b>S</b>              |
| In response to a long and growing waiting list for outpatient services for adults, Mental Health Services designed an access/assessment (Access) function, accessible to individuals requiring mental health services within 2 to 10 days from the point of original contact. Access provides quick assessment of risk, vulnerability and severity of symptoms, allowing necessary treatment services to be secured through referral to community resources or within the CSB. The Access pilot began in FY 2007, with full implementation completed in October 2007.   | <b>∀</b>          |                       |

| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| The CSB was awarded funding in FY 2007 to participate in the statewide Virginia Service Integration Project (VASIP). As part of this project, the CSB is conducting a full assessment of Mental Health Services and Alcohol and Drug Services, and is currently implementing action plans for achieving effective dual diagnosis assessment and treatment capacity in all programs. Staff development, training, hiring and mentoring are included in the process of achieving co-occurring disorders capacity in all programs, as well as co-occurring disorders enhancement and specialty skills in designated programs. Four major training events for CSB staff have been held, facilitated by a nationally recognized consultant on co-occurring disorders. In calendar year 2007, approximately 86 percent of CSB staff participated in this training. Additionally, 71 CSB staff representing all major program areas have agreed to serve as agency change agents to assist in implementing this major service initiative. | <b>\</b>          | ¥                     |
| The Mental Health Adult Residential Services' Unified Team, at the Woodburn Center, implemented a Wellness Recovery Action Plan (WRAP) group in FY 2007. WRAP is a self-help program, which teaches concepts, skills and strategies to clients coping with various psychiatric symptoms. In keeping with the spirit of recovery, the group members are trained, supported and encouraged to continue to meet as a group, invite others to join and maintain a continuous recovery process. This effort will be reinvigorated in FY 2008 through a redesign that will offer medication clinics to monitor co-morbidity of physical illnesses among consumers, as well as supporting wellness through continuing education of CSB staff and consumers. The program will continue in FY 2009.   | ð                 | ¥                     |
| In FY 2007, Adult Crisis Care staff, supplemented by four new Peer Support Specialists, successfully implemented a program of Wellness and Recovery principles in a short-term, crisis stabilization program. All staff actively participated in teaching the Recovery model and two classes, totaling 55 consumers, have already graduated from these formal Wellness/Recovery courses. Consumers now take an active role in welcoming and orienting new residents as well as helping to facilitate "community" meetings of the "house." They also provide consumer feedback about the program through the in-house Recovery group and survey forms at discharge.   | ¥                 |                       |
| In FY 2007, Youth and Family Services partnered with several County and state agencies on collaborative efforts to seek out new funding resources. In conjunction with the Fairfax County Public Schools (FCPS), Child and Family Services applied for a demonstration grant to educate school personnel on early identification of mental health issues in youth, which results in directing families of school age children to appropriate community mental health services in a timelier, more efficient manner. Partnering with the Fairfax County Juvenile Court, the CSB initiated a successful application for a state grant to expand services to youth in the Fairfax County Juvenile Detention Center. Youth and Family Services also partnered with the Fairfax County Department of Family Services (DFS) to design, issue and award a Request for Proposals (RFP) to provide mental health services at the new Katherine K. Hanley Family Shelter.  | Ĭ                 |                       |

| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| The Mental Health Multicultural and Older Adults teams brought consultation and clinical support to the domestic violence program at the Islamic organization, Foundation for Appropriate and Immediate Temporary Help (FAITH) in FY 2006 through its Multicultural Program. In August 2006, FAITH honored the program with an award for outstanding contributions. In addition, the Older Adults team will continue to conduct face-to-face outreach services to elders in the Arabic community through a weekly support group on stress and depression at the All Dulles Area Muslim Society (ADAMS) Islamic Center in Herndon. The Older Adults team has also collaborated with Boat People SOS to implement a 3-year Substance Abuse and Mental Health Services Administration (SAMHSA) grant, begun in FY 2006, to provide mental health services to Vietnamese elders and their families. | ð                 | ¥                     |
| Spanish and Vietnamese Wellness Groups were implemented at the Woodburn Site in FY 2007. These structured groups help individuals work toward recovery and assist them with work/life balance. The Vietnamese group is a multi-family model which also connects consumers with social entitlement programs and links them to other available benefits.  | A                 |                       |
| Adult Community Services designed and completed an Adult Consumer Treatment Survey to ascertain what services consumers value and what they identify as a continuing need. Results showed that consumers valued structured groups designed to help them work toward recovery, achieve a work/life balance, and enhance vocational skills. Based upon information received, new Wellness, Transition and Vocational groups were developed in FY 2007.  | d                 |                       |
| The Program for Assertive Community Treatment (PACT) Team was chosen by the Virginia Department of Mental Health Mental Retardation and Substance Abuse Services (DMHMRSAS) in FY 2007 to be a "Mentor Site" for this state of the art service model and provides consultation for other teams from across the country who wish to implement this model program. PACT also provides "inhouse" consultation/partnering with other CSB staff to expand peer partnerships, facilitate peer training and help reshape services to become more recovery oriented. Additionally, PACT was chosen to host an educational field visit by the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) so that CMS regulators could appreciate the functional impact and consequences of the current and future regulations that they write.                       | ð                 |                       |
| With the award of new state regional funds for Gero-psychiatric Services, the CSB will work with its regional partners and the private sector to provide intensive Mental Health Services in assisted living facilities, nursing homes and community settings to: divert people from Eastern State Hospital to community care with intensive support; create viable community options and placements for Northern Virginians at Eastern State Hospital in their own communities; and, assure sustainable community placements for elderly persons being discharged from local acute psychiatric units.  |                   | ¥                     |

| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| In partnership with other County agencies, the Hypothermia Program was retooled throughout FY 2007 to improve overall effectiveness and accessibility for the County's homeless population. CSB Residential Services staff and other volunteers assisted in the County's interagency effort to prevent hypothermia, while outreach to the "street homeless" was expanded. Also, a new Homeless Healthcare Program, which provides psychiatric street outreach to homeless individuals across the County, was launched in partnership with other County agencies. In FY 2007, 64 consumers were served by the Homeless Healthcare Program, and 145 consumers are expected to be served in FY 2008.  | ď                 |                       |
| Building Livable Spaces  | Recent<br>Success | FY 2009<br>Initiative |
| In FY 2007, the CSB successfully implemented the Housing First Apartment Program, a collaborative initiative of the CSB and Pathway Homes. In FY 2007, 12 individuals entered the program directly from the street or homeless shelters, with similar numbers of individuals expected to be served in FY 2008 and FY 2009. Once housed, consumer stress is reduced and individuals are able to accept the support and treatment necessary to assist them in their transition from homelessness. Individuals served by this program have a long-term history of living in the woods, tents, cars and abandoned buildings or homeless shelters. Additionally, they generally have multiple failed attempts at treatment and services. Once the consumer is housed, the CSB staff works to engage individuals with treatment services and provide support to address consumers' individual needs. | ď                 | ¥                     |
| In FY 2007, the CSB developed four "Housing First" permanent supportive housing beds and six additional transitional supportive housing beds for homeless consumers. Additionally, the CSB designed a Community Treatment Team North Program to serve an additional 11 homeless consumers in FY 2008 with little to no turnover expected in FY 2009.   | ď                 | Ø                     |
| Using a best practice, continual redesign model, the overall Residential housing plan for co-occurring (Mental Health / Substance Abuse) consumers was redesigned in FY 2007, resulting in an increased number of available beds for this challenging population. Further redesign enhancements included the creation of a Residential Intensive Care Level II Program for Residential consumers who did not require the more intensive and resource-demanding Level I service delivery.   | ď                 |                       |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$1,118,028

A net increase of \$1,118,028 is associated with \$1,325,449 in Personnel Services for salary adjustments necessary to support the County's compensation program, partially offset by an increase of \$207,421 in personnel-related Recovered Costs due to a greater recovery of salary costs for services to other agencies. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Mental Health Adult Outpatient Services

\$571,038

A one-time increase of \$571,038 in Personnel Services is associated with ongoing efforts to maintain the elimination of the waiting list for Mental Health Services. Funding will ensure that access and caseload standards can be met by maintaining current clinical capacity, continuing retiree and Exempt Limited Term employee options and utilization of the County's workforce planning strategies.

## **Fund 106**

## **Community Services Board (CSB) - Mental Health Services**

## ♦ Personnel Services Reduction

(\$848,019)

A decrease of \$848,019 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

♦ FASTRAN \$51,938

An increase of \$51,938 in Operating Expenses is based on an annual adjustment of FASTRAN operating expenses.

#### **♦** Contract Rate Increases

\$328,537

An increase of \$328,537 in Operating Expenses is due to a 2.71 percent contract rate increase for providers of contracted mental health services.

#### ♦ Domestic Abuse and Sexual Assault (DASA) Program Transfer

(\$1,625,095)

A decrease of \$1,625,095, comprised of \$1,232,816 in Personnel Services and \$392,279 in Operating Expenses, is due to the transfer of the DASA Program to the Department of Family Services as part of a multi-agency effort to streamline the County's domestic violence services.

#### **♦** Carryover and Miscellaneous Adjustments

(\$1,613,078)

A net decrease of \$1,613,078 is associated with decreases of \$1,314,465 in grant adjustments, \$167,960 for encumbered carryover and \$150,000 for unencumbered carryover, offset by an increase of \$19,347 in non-grant adjustments. These adjustments are comprised of decreases of \$394,077 in Personnel Services and \$1,219,001 in Operating Expenses.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$399,200

An increase of \$399,200 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Restore Funding for Contract with Inova Health Care Services

\$347,000

An increase of \$347,000 in Mental Health Inpatient Services to restore funding to Inova Health Care Services at Mt. Vernon Hospital for contacted non-emergency psychiatric services.

### **♦** Restore Funding to CrisisLink

\$135,000

An increase of \$135,000 in Mental Health Emergency Services to restore funding to CrisisLink to support a contract for 24/7 emergency and information and referral call-in services.

### **♦** Restore Funding to Alternative House

\$75,000

An increase of \$75,000 in Mental Health Residential Services to restore funding to Alternative House to fully support an FY 2009 contract for mental health residential respite care and transitional housing services.

♦ Fuel Costs \$16,831

An increase of \$16,831 for Department of Vehicle Services charges is based on anticipated requirements due to higher costs for unleaded and diesel fuels.

#### Reduction in Limited-Term Funding

(\$167,434)

A decrease of \$167,434 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$1,503,252

As part of the *FY 2007 Carryover Review*, a net increase of \$1,503,252 is comprised of increases of \$1,051,975 in adjustments to current grant awards; \$457,751 in new grant program year awards; \$167,960 for encumbered items; \$150,000 in unencumbered carryover for the Josiah H. Beeman Commission; and \$69,638 in unexpended FY 2007 grant balances; offset by a net decrease of \$394,072 due to other adjustments. These other adjustments include an increase of \$27,778 for CSB System Transformation Consultant and CSB Priority Area initiatives to appropriate additional block grant project and federal pass-through revenue, offset by a \$421,850 decrease for My Friend's Place, with a commensurate decrease in state initiative and CSA fee revenue, as a result of suspended services due to program dependency on CSA revenues generated by occupancy, reduced caseloads, and a systemwide review of youth service needs. In particular, this is an increase of \$66,656 in Personnel Services and an increase of \$1,604,687 in Operating Expenses, offset by an increase of \$168,091 in Recovered Costs.

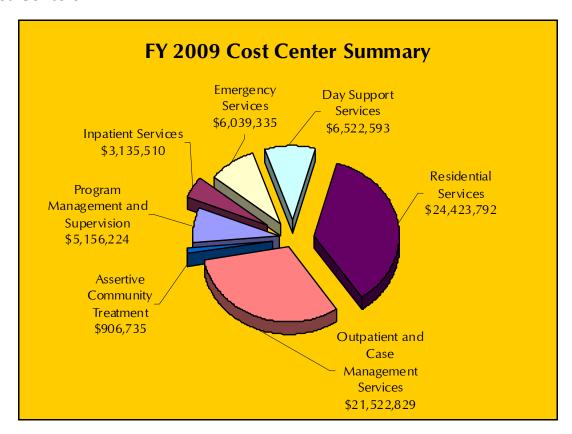

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

(\$370,864)

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved a net decrease of \$370,864 including an increase of \$78,000 for expenditures associated with support of the Josiah H. Beeman Commission, a net decrease of \$45,013 based on required program adjustments and a decrease of \$403,851 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. The across the board reduction accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

## **Key Performance Measures**

#### Goal

To provide management, programming, financial monitoring, training, and general support services to ensure that treatment interventions are delivered in an efficient and effective manner throughout Mental Health Services.

## **Objectives**

♦ To provide direction and management support to Mental Health programs so that 70 percent of service quality and outcome goals are achieved.

## **Performance Measurement Results**

In FY 2007, 67 percent of service quality and outcome estimates were met by Mental Health programs. Most of these unmet estimates can be attributed to a higher acuity of consumers' mental health needs and a lack of resources outside of Mental Health programs, such as hospital beds and affordable housing, which assist Mental Health services in discharging duties. The strengths of Mental Health Services lie in the ability to prevent the hospitalization of consumers, preventing consumers from being incarcerated, and assisting consumers in maintaining stable housing.

| Total Expenditures | <b>\$2,557,417</b> | \$2,902,213        | \$2,775,594        | \$2,788,510        | \$3,135,510 |  |  |  |

Regional Inpatient Services utilizes six local hospitals for state funding of Local Inpatient Purchase of Services (LIPOS). Staff from Emergency Services place at-risk consumers with no financial resources into beds at these local hospitals when beds are unavailable at the Northern Virginia Mental Health Institute (NVMHI). Discharge planners then monitor consumers' stays and facilitate transfers to NVMHI as needed.

## **Key Performance Measures**

### Goal

To provide 24-hour per day comprehensive psychiatric emergency services which includes: providing all preadmission evaluations for voluntary and involuntary hospitalization and crisis residential services, providing evaluations for persons who have been temporarily detained at a hospital because they are a danger to themselves or others, and providing Mobile Crisis Unit services to assist individuals in crisis in the community.

## **Objectives**

- ♦ To provide stabilization services outside of the hospital to 95 percent of clients seen in General Emergency Services.
- ◆ To conduct 80 percent of evaluations within 24 hours after initial contact.

### **Performance Measurement Results**

General Emergency Services provided 28,479 hours of service to 5,086 consumers in FY 2007. Emergency Services exceeded the persons served targets as well as the hours of service targets, which is indicative of consumers entering into Emergency Services with greater clinical needs and requiring more hours of service.

Independent evaluators are licensed Clinical Psychologists who evaluate persons temporarily detained at a hospital because they have been judged by staff to be a danger to themselves or others due to their mental illness. Independent evaluators make recommendations to a Special Justice at Commitment Hearings as to whether or not individuals should be committed to a hospital (against their will) for treatment of their mental illness. In FY 2007, independent evaluators provided 1,594 hours of service to 540 consumers exceeding both estimates.

With regard to outcomes, General Emergency Services exceeded its goal of 95 percent of all people receiving stabilization services not requiring admission to a psychiatric hospital. The Independent Evaluators surpassed the goal of 80 percent of all evaluations being completed within 24 hours, which required overcoming several challenges in service delivery. The sheer volume of consumers requiring this service often hampers the ability to provide this service in a timely manner. There was a 2 to 4 week period in FY 2007 in which a legal concern brought forward by the special justices impacted the ability of the independent evaluators to complete their evaluations. Additionally, the lack of an adequate number of hospital beds in the region has caused difficulties in previous years. At times, the lack of hospital beds makes proximal placement difficult and this requires evaluators to travel outside of Fairfax County to complete their evaluations.

## **Key Performance Measures**

#### Goal

To provide a continuum of services that will improve the community stabilization and functional capacity of adults who have serious mental illness (SMI) and children who have serious emotional disturbance (SED). Services include Adult Day Treatment, Adolescent Day Treatment, Adult Psychosocial Rehabilitation programs, Sheltered Employment, Supported Employment and Transitional Employment. Services will be coordinated seamlessly in partnership by the CSB and contract providers.

## **Objectives**

- ♦ To enable 80 percent of consumers in adult day treatment services for more than 30 days to avoid hospitalization for at least 6 months.
- ◆ To improve functioning of 70 percent of consumers served by the Adolescent Day Treatment Program.

## **Performance Measurement Results**

In FY 2007, Adult Day Treatment exceeded the estimate of consumers served while not meeting the estimates for hours of service. This is due to some staffing shortages throughout the year, though, since most Adult Day Treatment services are delivered in a group setting, the number of consumers served still exceeded the FY 2007 estimate. Adolescent Day Treatment exceeded the hours of service estimates while not meeting the consumers served estimates. This is due to the complexity of consumers' needs and the subsequent need for consumers to receive services for longer periods of time. Adolescent Day Treatment was required to lower consumer capacity due to a lack of qualified applicants for staff vacancies in FY 2007.

In FY 2007 Adult Day Treatment exceeded the outcome estimate of 75 percent of consumers who receive more than 30 days of treatment and are not hospitalized within the following 6 months. Adolescent Day Treatment was not able to meet either the Service Quality or Outcome estimates. While 87 percent of family and consumers were satisfied with overall services, 94 percent of parents were satisfied with services while 79 percent of the students were satisfied. The students often resist treatment, contributing to lower satisfaction rates, while parents are satisfied with the program's utilization of modeling techniques that can be used in the home. Staff report that consumers are demonstrating higher levels of clinical symptoms, which is contributing to the lower consumer improvement numbers. This may lead to adjusted estimates in FY 2009 and beyond to reflect the changing consumer population.

## **Key Performance Measures**

## Goal

To provide treatment and support to adults with serious mental illness residing in group homes, apartments, domiciliary care and homeless shelters and to assist them with community living.

## **Objectives**

- ♦ To enable 55 percent of consumers served in the Supervised Apartment program to move to a more independent residential setting within one year.
- ♦ To enable 90 percent of consumers served by Supportive Services to maintain stable housing for at least one year.

### **Performance Measurement Results**

A major goal for individuals with serious mental illness is to have their own home and live in the community with the appropriate clinical and residential supports. Supervised Services provides residential treatment in a stable, supportive, therapeutic setting in which consumers with a serious mental illness learn and practice the life skills needed for successful community living. The ultimate goal is for these consumers to transition into the most manageable independent living environment. Supportive Services provides services that support consumers to acquire their own long-term permanent housing and maintain their independent long-term permanent residential arrangement.

The Supervised Apartments program did not meet the FY 2007 outcome estimate, primarily due to the ongoing lack of affordable housing in Fairfax County which does not allow consumers to move on to independent housing. This causes consumers to remain longer in Mental Health residential services. The affordable housing shortage also prevented the Supportive Living program from meeting its FY 2007 Service Quality estimate.

## **Key Performance Measures**

### Goals

**Adults:** To stabilize mental health crises and symptoms, facilitate optimal community integration, assist in managing reoccurrence of symptoms and building resilience, and promote self-management, self-advocacy and wellness.

**Youth and Family:** To provide assessment, evaluation, multi-modal treatment, case management, psychoeducational and pharmacological services to the children, youth and families (ages 3 to 18) of Fairfax County. These services will be provided though interagency collaboration and practice as mandated by the Comprehensive Services Act.

### **Objectives**

♦ To schedule 100 percent of consumers referred for an assessment within 7 days of discharge from the hospital.

## **Performance Measurement Results**

In FY 2007 Outpatient and Case Management Services met the FY 2007 consumer served estimate, while also achieving 95 percent of the service hours provided estimate. The actual number of service hours provided improved in FY 2007 over FY 2006 actuals, and should continue improving in the future due to the hiring of additional staff.

Outpatient Services utilizes a state-mandated consumer satisfaction instrument, in addition to focus groups, to solicit information from consumers about their experiences. The FY 2007 consumer satisfaction instrument results indicate that 85 percent of consumers expressed overall satisfaction with Mental Health Services, thereby meeting the service quality estimate. Outpatient and Case Management Services did not meet the FY 2007 outcome estimate, assessing only 77 percent of consumers within 7 days of discharge from a hospital. This is an improvement over FY 2006 and is expected to continue improving with the full implementation of the Mental Health Access Unit.

# 

In FY 2009, all Prevention/Early Intervention budget and staff resources have been transferred to the Department of Family Services/Office for Women as part of a multi-agency effort to streamline the County's domestic violence services.

## **Key Performance Measures**

#### Goal

To offer prevention and early intervention services for at-risk populations, as well as educate families, community agencies, the public and other providers about the needs of individuals with mental illness.

## **Objectives**

- ♦ To enable 70 percent of participants in the Men's Program (ADAPT) to successfully complete the program.
- ♦ To enable 98 percent of individuals completing the Men's Program (ADAPT) to avoid being returned to the program by the Courts.

## **Performance Measurement Results**

In FY 2007, Prevention and Early Intervention met or exceeded all of its estimates. This success is attributable to a more stable staffing pattern over the past year, which results in staff delivering services at a high quality level. In FY 2009, the Men's Program (ADAPT), the Victim Assistance Network (VAN) and the Women's Shelter programs will all be moved to the Department of Family Services.

## **Key Performance Measures**

#### Goal

To provide assertive, out of the office treatment, rehabilitation, crisis intervention and support services 365 days per year to adults with severe and persistent mental illness resulting in lowered hospitalization, incarceration and homelessness rates.

## **Objectives**

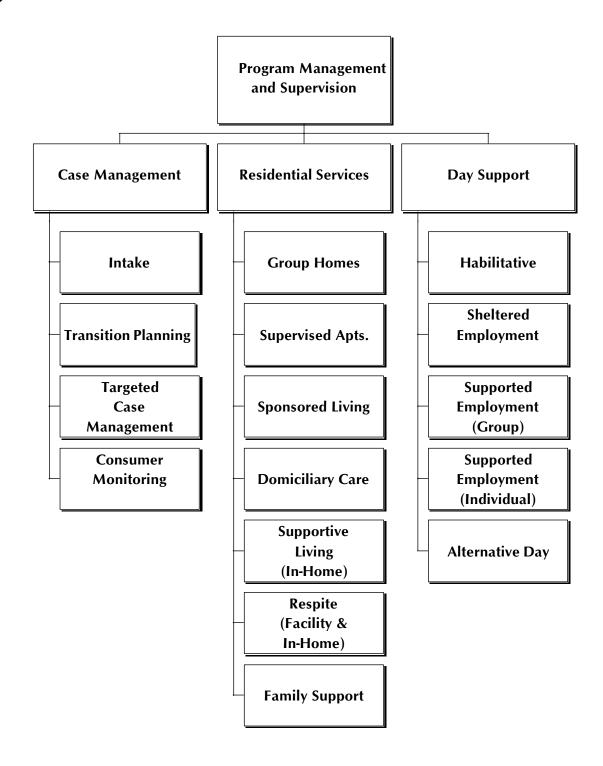

♦ To improve community tenure for PACT consumers so that 90 percent reside outside of the jail or hospital for at least 330 days in a year.

## **Performance Measurement Results**

In FY 2007, the PACT program exceeded the consumers served estimate, while also meeting 99 percent of the service hours provided estimate. PACT continues to meet outcome estimates which measure consumers' ability to remain out of jails and hospitals for the majority of the year. The FY 2007 actual annual cost per consumer exceeded the estimate due to higher than anticipated program costs. PACT asks consumers to provide feedback through a satisfaction survey, and 98 percent of PACT consumers surveyed in FY 2007 were satisfied with the services they received. This data illustrates the effectiveness of PACT's model in helping residents with serious mental illness achieve their goal of living successfully in the community.

Fund 106 Community Services Board (CSB) - Mental Retardation Services

### Mission

It is the mission of Mental Retardation Services (MRS) to promote services and supports which enable people with mental retardation and their families to attain a personally desired and valued quality of life. MRS will achieve its mission by directly providing individualized services and by building community capacity to provide services that are effective and efficient.

It is the vision of MRS that all people with mental retardation and their families in Fairfax County and the Cities of Fairfax and Falls Church, have access to quality, individualized services, offered locally, and are empowered to participate in developing and evolving those services.

MRS values services and supports that:

- Empower individuals/families to maximize their independence and quality of life (with a minimum, but necessary degree of structure to achieve their desired independence and quality of life);
- Are flexible and diverse to meet existing and changing individual/family needs and preferences;
- Protect individual/family health, safety, and confidentiality;
- Are provided in an integrated, community-based setting; and
- Are of quality in nature valuing excellence and professionalism in services, supports and workforce.

### **Focus**

Mental Retardation Services provides direct services to individuals with mental retardation and oversees services provided by private vendors. Services are provided through four cost centers: Program Management and Supervision, Case Management, Residential Services and Day Support.

## **Program Management and Supervision**

Program Management and Supervision is provided to all mental retardation programs, both directly-operated and under contract, to ensure service quality, customer satisfaction, sound fiscal management and the appropriate allocation of resources. Agency senior managers continue to serve as leaders and participate in numerous collaborative efforts throughout the region and State. Primary areas of focus for these efforts currently include: public policy formulation; program planning and development; interagency collaboration (including efforts to expand the number of Medicaid MR and Day Support Waiver slots); statewide systems transformation and services expansion; transportation services planning for persons with disabilities; long-term care coordination; regional emergency preparedness planning for individuals with special needs; human rights and ethics; and mental health services access, coordination, and quality for individuals who are dually-diagnosed with mental retardation and mental illness (MR/MI). Leadership in these activities demonstrate and ensure that Mental Retardation Services continues to have significant influence and impact on the provision of services to individuals with disabilities throughout the Northern Virginia region and the entire Commonwealth of Virginia.

In addition, the MRS Management Team, responding to the County Executive's call for formal strategic planning activities within all departments, convened a committee to evaluate the existing MRS strategic plan including its: mission, vision, and values; organizational structure (including departmental responsibilities); organizational strengths, weaknesses, opportunities, and threats; performance measures and evaluation processes; succession planning; and the strategic planning needs/process for the mental retardation service system community-wide. Using the Balanced Scorecard approach, the MRS strategic planning committee developed strategic elements, initiatives, performance measures, and a strategy map to insure that the services and supports which enable people with mental retardation and their families to attain a personally desired and valued quality of life remain available and viable in an environment of projected limited resources. Implementation of the strategic plan commenced in FY 2008.

## **Fund 106**

## **Community Services Board (CSB) - Mental Retardation Services**

#### **Case Management**

Case Management is the intervention which assures that service systems and community supports are responsive to the specific, multiple, and changing needs of individuals and families. Case Management Services ensure that individuals are properly connected to, and involved in, the appropriate services and supports in order to maximize opportunities for successful community living. Case Managers assist in gaining access to needed homes and jobs, social service benefits and entitlement programs, therapeutic supports, social and educational resources, and other supports essential to meeting basic needs. Through face to face contacts, phone contacts, and review of various reports, the Case Manager helps assess the needs of the individual and develops a service plan, links the individual to services and supports, coordinates and monitors services and provides technical assistance, and advocates for the individual.

The Department of Mental Health, Mental Retardation, and Substance Abuse Services (DMHMRSAS) regulations require that case management services must be provided to all individuals who are enrolled in Medicaid and who request Case Management. These individuals who are recipients of Medicaid benefits receive a full cadre of case management support such as interdisciplinary team planning, coordination of services, intake and assessments, advocacy, and resource planning. Those individuals who do not have Medicaid may also receive the same or similar service coordination based on need. In addition, the State mandates Case Management services to those who are in need of emergency assistance pursuant to §37.1-194 of the Code of Virginia. Pre-admission screening and pre-discharge planning from state training centers or hospitals is also required under the Community Services Performance Contract 5.3.1 and 5.3.3 pursuant to the Code of Virginia.

Adults or children age six or older must have a confirmed diagnosis of mental retardation to be determined eligible for case management services. For a child three to six years of age, there must be confirmation of a cognitive developmental delay. Individuals served may be as young as three years of age and range through consumers over age 70. People with mental retardation are now living longer and as a result, many MRS consumers experience the same health and aging related issues as the general population. In addition, individuals served are more medically fragile. People may be brittle diabetics, on oxygen, or require gastrointestinal tubes for feeding. Case Managers are required to monitor the medications the individual takes and the possible side effects. In addition, the community has become increasingly multi-cultural and multi-linguistic, requiring specialized training for MRS case managers.

Case management services were provided to 1,834 persons with mental retardation in FY 2007. Of that total, 1,202 individuals received targeted case management, and 632 people received consumer monitoring. Case management staff continues to coordinate not only County-funded services, but also approximately \$31 million in Medicaid-funded services paid directly to private providers providing covered services to residents of Fairfax County, Fairfax City, and the City of Falls Church. For all case management services, Medicaid reimbursed the CSB over \$2.8 million in FY 2007 — a 7.7 percent

The goal of MRS is to ensure that all people with mental retardation and their families in Fairfax County and the Cities of Fairfax and Falls Church, have access to quality, individualized services.

increase over the FY 2006 total of \$2.6 million, and a 47.4 percent increase over the FY 2005 total of \$1.9 million. In order to further maximize Medicaid reimbursement and coordinate the perpetually increasing need for mental retardation services, 1/1.0 SYE new Medicaid case management grant position was approved in FY 2008.

Transition of youth from schools continues to be a priority activity for case management. A continuing trend is the increasing number of students who are medically fragile or require extensive physical or personal care. In addition to the anticipated transition of these youth, there is an extensive case management intake demand from people moving into the County requiring case management services. Since case management is the "gate-keeper" for all other Mental Retardation Services, this intake process is a very significant activity.

Finally, there is a trend toward increasing external documentation requirements necessitating increased quality assurance, training, and specialized administrative and managerial supports. Additionally, some of these requirements involve additional assessment activities that must be performed in person by the case manager. In order to meet the external requirements imposed by licensure, DMHRMSAS State Performance Contract, DMHMRSAS Performance and Outcome Measurement System, and Medicaid, there is an increased emphasis on monitoring documentation and utilization review.

#### **Residential Services**

Residential Services provide housing and residential support services in the community for individuals with mental retardation. These services provide an array of residential supports designed around individual needs and desires, with an emphasis on providing opportunities for full inclusion in community life. The majority of residential services are provided through CSB partnerships with approved private providers. Contract management oversight is provided by the CSB for all of the residential programs - public or private - through onsite observations, clinical consultations with case managers and other professionals in the community, review of outcome measures and coordination with quality assurance activities.

- Group Homes provide small-group living arrangements for individuals located in homes that are integrated in surrounding neighborhoods. These programs may be directly operated by the CSB, operated by private providers under contract with the CSB, or by private providers not under contract with the CSB but funded through Medicaid. Approximately 75 percent of group home services are privatized. Staff support services are available on a 24-hour basis and concentrate on developing supportive relationships, independent living skills, and a network of friends and opportunities in the community.
- Intermediate Care Facilities (ICF-MR's) provide group living arrangements for four through 12 individuals located in homes that are integrated in surrounding neighborhoods. These programs are operated by private providers under contract with the CSB and are funded by Medicaid. Staff support services are available on a 24-hour basis and concentrate on developing supportive relationships, independent living skills, and a network of friends and opportunities in the community. Due to the active treatment required in these programs, support services such as doctors, nurses, pharmacists and social workers are required.
- Residential Supported Living provides services to individuals living in their own homes or in shared living arrangements (e.g., apartments and town homes). These services may be provided by the CSB or by private providers. The extent of support provided ranges from daily to drop-in, is based on individual needs, and takes into account individual preference, choice, and independence. Staff supports include individual and group counseling, training and assistance in community living and personal skills, and linkage with other more natural support networks in the community. Support services to individuals living in their own homes are all privatized, and over 90 percent of the drop-in support services for people living in program-leased apartments and town homes are privatized.
- Sponsored Living Arrangements provide residential opportunities for individuals in the homes of single individuals or families through the CSB. Individuals are matched with individual providers under contract who provide assistance, training, and community inclusion.

- Respite Services provide trained respite care providers (short-term relief), available by telephone
  referral, who are scheduled for hourly or overnight assistance to families needing time away from
  caring for their family members with mental retardation. Services are also available at a licensed 24hour home for longer-term respite and emergency services. Respite services are provided through
  private providers.
- Domiciliary Care provides individualized residential placements for individuals with highly specialized needs that may not be available otherwise in the local community. CSB contracts with private providers and individuals for these services.
- Family Support Services ease care-giving demands and assist in providing needed community supports or services for infants with developmental disabilities, and children and adults with mental retardation. Eligible individuals and families may apply for limited financial assistance for needed services or supplies. Support groups are offered for parents and siblings of children with mental retardation. Information, referral to community resources, or speakers to address community groups are also available. This service is managed by the CSB.

In FY 2007, Residential Services provided housing and residential support to 615 individuals, with 314 of those individuals being served through directly-operated and contracted group homes. A serious challenge confronting Residential Services is the number of individuals who are aging in place and require more physically-accessible, barrier-free living environments. In FY 2007, one directly-operated group home relocated to a site with fewer stairs to accommodate mobility needs and to provide essential health and safety. Two additional directly-operated group homes will be relocating to new sites in FY 2008. This same need exists for many individuals residing in other group homes, but there is a notable shortage of available, affordable, and accessible housing in Fairfax County. Residential Services continues to explore opportunities for the creation of barrier-free group homes and/or more accessible apartments, which provide better residential options for individuals requiring such living arrangements.

#### **Day Support**

Day Support provides assistance and training to improve individual independence and self-sufficiency, and/or to obtain vocational training and support to enter and remain in the workforce. Vocational and day support services for individuals with mental retardation are provided primarily through contracts with private, non-profit agencies.

- Developmental Services provide self-maintenance training and nursing care for individuals who are
  the most severely disabled in areas such as: intensive medical care, behavioral interventions,
  socialization, communication, fine and gross motor skills, daily living and community living skills, and
  possibly limited remunerative employment.
- Sheltered Employment provides individuals full-time, remunerative employment in a supervised setting with support services for habilitative development.
- Group Supported Employment provides individuals intensive job placement assistance for off-site, supervised contract work and competitive employment in the community. Job retention services are also provided.
- Individualized Supported Employment provides remunerative employment with necessary support services. This service primarily serves persons with less severe disabilities and stresses social integration with non-disabled workers.

The Cooperative Employment Program (CEP) provides supported competitive employment services to eligible individuals with developmental disabilities. The CEP is jointly funded and operated by the Department of Rehabilitative Services (DRS) and the CSB. Using an individualized approach, program staff assesses skills, analyze job requirements, and provide on-the-job training for disabled individuals, and disability awareness training for employers. Extensive follow-up services are provided to ensure the success of the job placement. In addition to the job-training component, the CEP offers mobility training to enhance individuals' abilities in the use of public transportation.

Transportation for day support services is contracted by the CSB through FASTRAN, providing morning and evening transportation for persons to-and-from employment and vocational training sites throughout the Fairfax-Falls Church service area. Alternative transportation services may be available from other qualified providers, including providers who have been approved by the Virginia Department of Medical Assistance Services as eligible for Medicaid reimbursement. The CSB has a fee policy in effect requiring a monthly flat fee collection for non-Medicaid-funded transportation services.

In FY 2007, day support and employment services were provided to 1,188 individuals with mental retardation. The average annual earnings for the 565 people surveyed in FY 2007 that received community-based group and individual employment services were \$8,731, a 5.2 percent increase above their prior year average annual earnings of \$8,301. The total gross earnings for these 565 people totaled \$4,933,289. In the directly-operated Cooperative Employment Program (CEP), a total of 130 persons were served and 20 new job placements or replacements occurred during FY 2007. Average hourly wages for 105 of these individuals increased 2.1 percent above the FY 2006 average hourly wage level to \$10.92/hour, and total wages earned increased to over \$1.89 million. The average number of hours worked by these individuals was 32 hours per week, and over 26 percent of them earned over \$25,000 during FY 2007. In addition, over 70 percent of the employed individuals served by CEP received full or partial benefits as part of the compensation package offered by their employers.

As directed by the Board of Supervisors in FY 2006, CSB staff (along with representatives from the Office of the County Executive, Office of the County Attorney, Department of Management and Budget, and Department of Administration for Human Services) recommended implementation of Self-Directed (SD) Services as an alternative model to traditional day support and employment services. SD services will provide adults with mental retardation and their families (including recent graduates from local public and private school special education programs) the opportunity to self-direct day support or employment services to maximize self-determination, enhance personalized service delivery, promote greater community involvement, and reduce service costs. Initiation of SD Services began in FY 2008 via use of Individualized Purchase of Service contracts for two consumers, and is currently being evaluated. Its continuation beyond FY 2009 is contingent upon completion of an evaluation of the program's strengths and weaknesses.

Working with Fairfax County Public Schools, Mental Retardation Services has determined that there are 70 special education students with mental retardation leaving the school system in June 2008 who require day support or employment services. Through a combination of new Medicaid MR Waiver slot allocations, program attrition, efficient use of existing funding and continuation of recently implemented management initiatives, MR Services projects fully funding day support or employment services for all 70 of these individuals in FY 2009.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Successfully partnered with RPJ Housing to relocate a directly-operated group home into a barrier-free, accessible home in FY 2007. Two additional directly-operated group homes will be relocating to new sites in FY 2008. MRS continuously strives to provide a safe and health environment for all individuals within residential program settings, and to develop viable, cost-effective residential options that support individuals with increasing and continually changing medical needs. These efforts include assessing relocation properties for directly operated residential services sites for their ability to address the needs of persons requiring barrier-free, accessible homes.   | ¥                 | ¥                     |
| Evolved Self-Directed (SD) services by offering to provide funds directly to two consumers and their families through an Individual Purchase of Service contract. SD services are an alternative to traditional day support and employment services that empowers the individual and his/her family to achieve greater self-determination while reducing costs for services.  |                   | ¥                     |
| Collaborated with the Northern Virginia Training Center (for persons with mental retardation), George Mason University's Dual Diagnosis/Intellectual Disabilities Clinic, and the Community Services Boards of Alexandria, Arlington, Loudoun and Prince William to implement a community-based, crisis stabilization service for individuals dually diagnosed with mental retardation and mental illness. The Clinical Response Team (CRT) provides psychiatric and behavioral consultation services in home or residential settings to individuals in crisis or at risk of hospitalization, to stabilize individuals and preserve residential placements. Implemented as a pilot program in FY 2007, the CRT provided acute treatment and intervention for 15 individuals in Northern Virginia, five of whom were from Fairfax County, and reduced psychiatric hospital bed utilization by an estimated 360 days. |                   |                       |
| Successfully placed all individuals requesting day support and vocational services into appropriate programs, including all special education graduates from the school system. Evaluate alternative service models to traditional day support services, employment services, and residential services which increase consumer choice, address the changing needs of people with mental retardation, and reflect best practices. Such models may include, but not be limited to: self-directed services, recreation programs, medically and behaviorally supervised services, and services resulting from entrepreneurial endeavors (by private sector service providers).  | ď                 | ð                     |
| Maintaining Healthy Economies   | Recent<br>Success | FY 2009<br>Initiative |
| Reinforce regional partnerships and support local area providers by emphasizing ongoing enrollment of all private providers by the Virginia Department of Medical Assistance Services (DMAS). Enrollment by DMAS enables contractors to receive reimbursement for the provision of Medicaid Waiver services, thus allowing local funds to be used for other purposes.   |                   | ¥                     |

| Exercising Corporate Stewardship   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Initiated evaluation of the methodology used to project day support and employment services attrition and utilization. Such evaluation enables MRS staff to understand better the service system's ability to accommodate and fund both (1) students leaving public and private schools in Fairfax-Falls Church, and (2) adults with mental retardation from the community at large who seek day support and employment services.  | ď                 |                       |
| Collaborate with the State to maximize the number of Medicaid Waiver slots awarded to eligible Fairfax-Falls Church citizens. For FY 2008, Fairfax County received 45 new Medicaid MR Waiver slots bringing the County's total to 589. During FY 2007, Mental Retardation Services also participated in the completion of 240 Elderly and Disabled Waiver assessments to determine individuals' eligibility for services provided under that Waiver program.   | ď                 | d                     |
| Maximize Medicaid revenue by converting eligible individuals from County-funded services to Medicaid State Plan Option (SPO) and Medicaid Waiver services. During FY 2007, all program areas in Mental Retardation Services collected \$4.3 million in Medicaid. In FY 2008, \$4.5 million in Medicaid revenue is projected for Mental Retardation Services.   | ¥                 | M                     |
| Collaborate with private providers to seek service efficiencies and reduce system-wide costs. In February 2006, a regional Request for Proposals (RFP) was published seeking providers of day support, employment, and self-directed services for adults with mental retardation. The RFP was created in collaboration with four other Northern Virginia Community Services Boards (Alexandria City, Arlington County, Loudoun County, and Prince William County). Its objectives were to provide prospective vendors an opportunity to suggest alternative service models to address changing consumer needs, innovative ways to build community partnerships, and additional ways to contain costs. Review of the RFP concluded in FY 2008 with implementation commencing during the second half of that fiscal year.  | ď                 | ď                     |
| Connecting People and Places   | Recent<br>Success | FY 2009<br>Initiative |
| Collaborate on addressing the transportation needs of seniors and individuals with disabilities on local, regional, and State levels to ensure the highest quality of services and maximum coordination of efforts. Interact daily with regional transportation providers, including FASTRAN, LogistiCare, MetroAccess, and other vendors. Participate on the County-wide Transportation Coordinating Council. Regionally, staff hosts a bimonthly regional forum on transportation provider issues for state officials, providers, regional CSB representatives, human rights advocates, and other interested stakeholders. On the state level, staff participates in the Medicaid Transportation Advisory Committee, which represents all 40 Virginia CSBs. In addition, as needed, staff participates in METRO advisory activities, training events, and local public hearings. | ď                 | ď                     |
| Supported increased integration of individuals into their community through the use of Medicaid-funded assistive technology and environmental modifications. In FY 2007, 72 requests for assistive technology and 34 requests for environmental modifications were made and fulfilled.   | Ø                 |                       |

| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Provided information and education to consumers, families, service providers, and advocacy organizations to enhance their ability to advocate the needs of people with mental retardation and their families. Such advocacy support resulted in the Virginia General Assembly allocating 45 new Medicaid Waiver slot to Fairfax County in FY 2007, and approving a 15 percent Northern Virginia Medicaid Waiver rate differential. | ¥                 |                       |
| Continue facilitating collaborative activities among Community Services Boards, and public and private providers of services to people with mental retardation and their families in Northern Virginia. Collaborative activities include, but are not limited to training, advocacy, crisis response and requests for proposals.   | ď                 | ¥                     |
| Continue providing technical support to consumers, families, advocates, private providers, Fairfax County Public Schools, and the Virginia Department of Rehabilitative Services. Technical support and communication topics include, but are not limited to the identification and incorporation of best practices, financial practices, licensure, human rights and behavior management, training and services transitions.      | ď                 | $ \mathbf{Y}$         |
| Began offering access to The College of Direct Support to direct support staff and supervisors, which will continue to be offered in FY 2009. This curriculum is a nationally recognized and validated interactive, web-based training curriculum that will enhance the skills and competencies of MRS staff.  | ₫                 | V                     |
| Expanded the membership of the Northern Virginia Training Coalition to better meet the training needs of public/private networks. In FY 2007, the Northern Virginia Training Coalition grew from 20 to 26 member organizations, and additional groups have expressed interest in future membership.  | Ø                 | <b></b>               |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

**\$268,61**1

A total increase of \$268,611 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Medicaid Grant Positions

\$193,419

An increase of \$193,419 in Personnel Services is associated with the establishment of 3/3.0 SYE new Medicaid grant positions to support additional staffing needs at three directly-operated Mental Retardation group homes as part of the *FY 2007 Carryover Review*. These expenses are completely offset by additional Medicaid revenue and maximize the recovery of state Medicaid dollars for Mental Retardation Services.

## **♦** Personnel Services Reduction

(\$179,525)

A decrease of \$179,525 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

# **Fund 106**

# **Community Services Board (CSB) - Mental Retardation Services**

### ♦ Contract Rate Increases

\$533,247

An increase of \$533,247 in Operating Expenses is associated with a 2.71 percent contract rate increase for providers of contracted mental retardation services.

♦ FASTRAN \$363,462

An increase of \$363,462 in Operating Expenses is based on an annual adjustment of FASTRAN operating expenses.

### ♦ Internal Funding Adjustment and Realignment Between CSB Agencies

(\$302,419)

A decrease of \$302,419 in Operating Expenses is due to funding adjustments and realignment between CSB agencies to reflect expenditure requirements for FY 2009.

#### **♦** Carryover and Miscellaneous Adjustments

(\$943,877)

A net decrease of \$943,877 is associated with decreases of \$835,553 for encumbered carryover, \$249,705 to reflect expenditure requirements for FY 2009, \$45,000 in residential family support services to appropriate a decrease in federal block grant funding, and \$9,750 due to a one-time increase for the court guardianship project, offset by an increase of \$196,131 in grant adjustments. These adjustments are comprised of an increase of \$196,131 in Personnel Services and decrease of \$1,140,008 in Operating Expenses.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$88.778

An increase of \$88,778 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

♦ Fuel Costs \$15,149

An increase of \$15,149 for Department of Vehicle Services charges is based on anticipated requirements due to higher costs for unleaded and diesel fuels.

#### **♦** Reduction in Limited-Term Funding

(\$33.069)

A decrease of \$33,069 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

# **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$1,029,869

As part of the FY 2007 Carryover Review, an increase of \$1,029,869, comprised of increases of \$184,566 in Personnel Services and \$845,303 in Operating Expenses, is attributable to \$835,553 for encumbered items; \$184,566 for 3/3.0 SYE new Medicaid grant positions to support additional staffing needs at three directly-operated Mental Retardation group homes; and \$9,750 due to an increase for the court guardianship project that deferred cash to FY 2008 within DMHMRSAS guidelines.

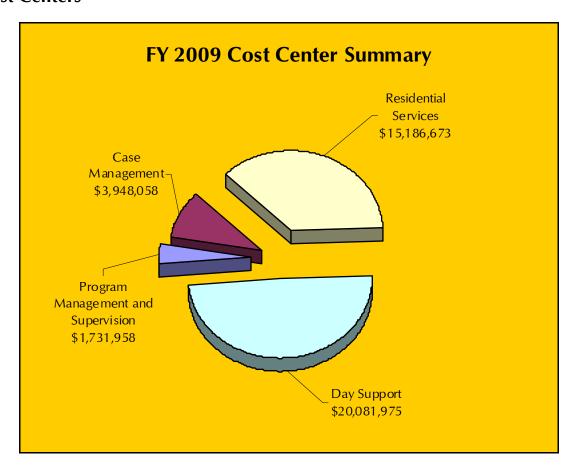

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

(\$351,943)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a net decrease of \$351,943 including a decrease of \$264,592 primarily as a result of adjustments to contractor services expenditures and a decrease of \$87,351 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. The across the board reduction accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

# **Key Performance Measures**

### Goal

To provide services to individuals with mental retardation to promote personal health, safety and welfare and to ensure sound fiscal management and distribution of resources.

## **Objectives**

♦ To provide direction and management support to Mental Retardation programs so that 80 percent of service quality and outcome goals are achieved.

### **Performance Measurement Results**

In FY 2007, eight of eight, or 100 percent, of Mental Retardation (MR) Services' service quality and outcome goals were met or exceeded. Overall, these results indicate that MR programs are operating effectively and meeting the needs of people receiving services. All service quality indicators in each service area exceeded FY 2007 targets by between 2 and 7 percentage points. Outcome indicators exceeded their FY 2007 targets by between 3 and 6 percentage points.

## **Performance Measurement Results**

In FY 2007, 97 percent of individuals surveyed were satisfied with Case Management services, as compared to a goal of 90 percent. Ninety-eight percent of individual service plan objectives were achieved versus a goal of 95 percent. The FY 2007 number of individuals receiving targeted case management services increased by almost 4 percent above FY 2006 levels, but was 4 percent below target. This shortfall was observed and offset by higher than anticipated numbers of people receiving monitoring services instead of targeted case management. Annual cost per individual served was \$2,698, only minimally higher than the originally projected amount of \$2,690. This increase represents a 3 percent change above the \$2,611 annual cost per individual receiving targeted case management amount incurred in FY 2006.

### **Performance Measurement Results**

In a survey of individuals receiving residential services, 90 percent reported satisfaction with services, exceeding the FY 2007 goal of 88 percent. In FY 2007, 99 percent of individuals living in group homes were able to maintain their current level of service, despite the fact that those served were more medically or behaviorally challenging. Efforts continue to occur to support individuals living in their own homes. Overall, 314 individuals were served in group homes in FY 2007, which was slightly higher than a projected total of 305 individuals. This variance is most likely due to unanticipated turnover in the individuals served. The average FY 2007 cost to the County per client served in group homes increased to \$35,281 due to rent increases, a 6 percent increase above the FY 2006 level; but only 3 percent above the FY 2007 projected amount.

## **Performance Measurement Results**

According to an annual survey, in FY 2007, 95 percent of individuals receiving day support services reported satisfaction, thereby exceeding the goal of 90 percent. Total wages earned by the 378 people surveyed who received group supported employment services in FY 2007 was \$1,950,323, for average annual earnings of \$5,160. This FY 2007 average wage total was \$203 higher than this group's FY 2006 average wage total of \$4,957. Total wages earned by the 187 people surveyed who received individual employment services in FY 2007 were \$2,982,967, for average annual wage earnings of \$15,952. This group's average annual wage earnings were \$839 higher than their FY 2006 average earnings of \$15,113, as well as 4.5 percent above the FY 2007 target. Overall, in FY 2007, the percentage change in average wages reported by individuals in all contracted supported employment programs was an increase of over 4 percent versus a target of one percent.

The FY 2007 total of 677 non-Medicaid individuals receiving day support is actually a decrease from the FY 2006 total of 711; it is also lower than the originally projected number of 727 due to higher than anticipated attrition rates in FY 2007. The cost per individual served with local funds for Day Support was \$16,815 in FY 2007, a 2.8 percent decrease from the FY 2006 amount and 10.3 percent below the FY 2007 estimate. These decreases in the annual cost per individual served are attributable to more individuals leaving day support services and more Waiver slots becoming activated in Fairfax-Falls Church than anticipated. This decrease was achieved despite higher expenses for private providers in the following areas: direct-care personnel; increased medical, behavioral and accessibility needs for aging consumers; energy and fuel costs for facilities and vehicles; higher insurance premiums; and, necessary provisions for emergency management. The cost per individual served with local funds for Supported Employment was \$11,661 in FY 2007, a 7.3 percent increase from the FY 2006 cost but 0.4 percent below the FY 2007 estimate. These estimates are determined up to two years ahead of time based on estimated state and local funding, number of projected consumers, expected program attrition, and foreseeable contract rate adjustments. Since these variables are continuously changing, the cost per individual for MR Day Support services is difficult to accurately project.

Fund 106 Community Services Board (CSB) - Alcohol and Drug Services

### Mission

To reduce the incidence and prevalence of alcohol and drug abuse in Fairfax County and in the cities of Fairfax and Falls Church by providing prevention, treatment and rehabilitation services to individuals and their families who abuse and/or are addicted to alcohol and drugs.

## **Focus**

Alcohol and Drug Services (ADS) provides substance abuse prevention, early intervention and treatment services to residents of Fairfax County and the cities of Fairfax and Falls Church. Services are provided through directly-operated programs and contractual providers through six cost centers: Program Management and Supervision, Residential, Outpatient and Case Management, Prevention/Early Intervention, Day Treatment and Emergency Services.

Two new revenue sources became available effective July 1, 2007 for the expansion of substance abuse treatment services. First, the Commonwealth authorized Substance Use Disorder as a primary diagnosis for purposes of establishing Medicaid eligibility, assuming the person meets other eligibility requirements. This resulted in ADS being able to seek Medicaid reimbursement for substance abuse treatment services for children and adults including emergency services, evaluation and assessments, outpatient services including intensive outpatient services, case management, opioid treatment and day treatment. In order to maximize Medicaid reimbursement and provide much needed services, 5/5.0 SYE new grant positions, fully funded by Medicaid, were added in FY 2008. In addition, ADS received a \$25,000 increase in State Substance Abuse Residential Purchase of Service (SARPOS) funding to expand adult and youth services for substance use disorders.

**Program Management and Supervision** provides leadership in the management of services and staff; planning and development of programs; evaluation; quality assurance; and, resource allocation of local, state, federal and grant funds. This cost center also provides volunteer support services and administrative support.

**Residential Services** provides comprehensive services to include individual, group and family therapy; medication management and case management. Residential treatment settings are matched to the level of care needed by adolescent and adult clients. Treatment services include detoxification, intermediate and long term treatment, supervised apartment programming, supported living services and aftercare services. Specialized care is provided for clients with co-occurring substance use disorders and mental illness, pregnant and post-partum women, persons whose primary language is Spanish, and persons who are homeless. The CSB has used good business practices to analyze ways Medicaid dollars can be brought in and maximized for funding residential service delivery. For example, in order to maximize Medicaid reimbursement and provide much needed services, 1/1.0 SYE new grant position, fully funded by Medicaid, was added to Residential Services in FY 2008.

In FY 2009, Residential Services will continue a transitional housing program for Latino men who complete the Northern Virginia Regional Latino Residential Treatment Program. Continuing care services are offered for these individuals to assist them in their transition back into the community. Additionally, Residential Services has established a continuum of service between the Recovery Women's Center (day treatment services) and New Generations (residential treatment services). The redesign at New Generations allows an intermediate length of stay for pregnant and post-partum women and their children while their needs are addressed by staff clinicians.

**Outpatient and Case Management Services** provides case management and individual, group and family counseling for adult and adolescent clients, with specialized care for the dually diagnosed, pregnant and post-partum women, those whose primary language is Spanish and those with HIV/AIDS. Psychiatric consultation to assist in treatment planning and case management is provided. The Fairfax Adult Detention Center provides services that include court-ordered assessments, evaluations, referral to community treatment, as well as direct services within the jail. Services are provided through the Intensive Addictions Program and the True Freedom Program, which are designed for persons who have a co-occurring disorder. Education groups are also provided in English and Spanish. Psychiatric treatment and medication management are provided as needed through the psychiatrist assigned to the jail.

In FY 2007, Adult Outpatient Services established a sixteen session treatment track for both English and Spanish speaking consumers. Consumers who are assessed as appropriate for this treatment component have the option of attending once a week for sixteen weeks or twice a week for eight weeks, which allows individuals to receive treatment with minimal disruptions to personal and professional obligations. Additionally, in an effort to address the long waiting list for admission to the CSB's Latino residential treatment program, Nueva Dia, Outpatient and Case Management Services established a process to provide outpatient and case management services until placement in the higher level of care can occur.

**Prevention/Early Intervention Services** provides education, consultation, training, screening and referral services, as well as specialized programming to at-risk and high-risk populations. Services are offered in the community and reach those that would not usually seek or access services in traditional manners. Early Intervention services are designed to interrupt the cycle of substance use in high-risk adolescents.

Prevention/Early Intervention Services directly implements and trains community partners in the facilitation of the ACT (Adults and Children Together) Against Violence program. ACT is a violence prevention project that focuses on adults who raise, care for, and teach children ages 0 to 8 years. It is designed to prevent violence by providing young children with positive role models and environments that teach nonviolent problemsolving. In FY 2009, Prevention/Early Intervention Services is also continuing in tandem the multi-week programs Get Real About Violence (GRAV), targeting youth, and Guiding Good Choices (GGC), targeting parents. GRAV encourages youth to change norms that promote and perpetuate violence and addresses factors that put them at risk for violence. GGC teaches parents to set clear guidelines, to help their children develop healthy behaviors and to increase their involvement in the family.

In FY 2010 and beyond, Prevention/Early Intervention Services plans to expand the Leadership and Resiliency Program (LRP) and the Student Assistance Program (SAP), which are intensive, school-based programs, to a total of 28 Fairfax County public high schools. LRP is currently offered in 15 high schools, and is a substance abuse and violence prevention program for high school students. Participants discover and strengthen personal resiliency traits, which include goal setting, healthy relationships, and coping skills. SAP is an alcohol and drug screening, assessment, and early intervention program serving adolescents and their families, which is currently implemented in 15 high schools.

Additionally, Prevention/Early Intervention Services continues to provide *Girl Power* programming and technical assistance to service providers from private and nonprofit agencies that facilitate this program for capacity building and sustainability. This effort allows Prevention/Early Intervention Services to collaborate with service providers in providing training and technical assistance for replication and expansion of services. Prevention/Early Intervention staff plays a vital role in increasing public knowledge about substance abuse awareness and available resources.

Day Treatment Services provides daily intensive case management, individual, group and family counseling to substance abusing adults and adolescents who need

Photo of participants in Girl Power/Parent Night

more intensive services than the standard outpatient treatment services. Psychiatric consultation to assist in treatment planning and case management is provided. Adolescents' services are provided at schools and at the Juvenile Detention Center.

In FY 2009, Day Treatment Services will continue a contract with the Virginia Department of Corrections, Department of Parole and Probation to provide relapse prevention services for offenders in need of such specialized service.

**Emergency Services** provides crisis intervention, assessment, evaluation, case management and emergency substance abuse services for all adult Alcohol and Drug Services programs and provides referrals to private treatment programs when needed. Specialized services are offered to those whose primary language is Spanish and those clients with co-occurring substance use disorders and mental illness.

The individuals served throughout these programs include pregnant women, those diagnosed with HIV/AIDS, individuals needing intensive residential treatment services and high-risk youth. These services help the individuals attain recovery from abuse and addiction, increase positive pregnancy outcomes, reduce homelessness, increase work/school/social productivity, reduce criminal justice involvement and reunite families.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| A three-year grant for over \$192,000 from the Virginia Tobacco Settlement Foundation (VTSF) was awarded and began on July 1, 2006. Al's Pals, a preschool substance abuse and violence prevention program, was implemented in 19 classrooms in 4 preschools/Head Start Programs in FY 2007. This initiative reached over 300 3-to-5 year old children during the year. In FY 2008, the program is projected to reach over 500 3-to-5 year old children in 35 classrooms at 12 preschool/Headstart centers. The program is expected to repeat FY 2008 results in FY 2009.  | ď                 | <b>∀</b>              |
| Continue the Road DAWG (Don't Associate With Gangs) Camp, which expanded in its third year from a single site in the central region of the County to include two new sites in the north and south county areas. Ninety-six participants attended the camp in FY 2007. Programming addresses risk factors associated with gang involvement, substance use and other delinquent behaviors. The Camp is a collaborative project among the Fairfax County Police Department, the CSB, Community and Recreation Services, Juvenile and Domestic Relations District Court and Fairfax County Public Schools.   | ď                 | ð                     |
| Concluded the Smart Kids/Safe Choices program, which delivered violence/gang prevention programming to older, elementary school-age children and built community capacity to deliver general prevention programming. CSB trained 25 partner nonprofit organizations, and provided materials and a stipend for successful program completion. Funding was provided through the Office of the County Gang Prevention Coordinator by a grant from the Virginia Department of Criminal Justice Services. Thirty partners successfully implemented the Smart Kids/Safe Choices program. Over 500 4 <sup>th</sup> through 6 <sup>th</sup> graders participated in the program. | ď                 |                       |

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Increased the capacity of the Crossroads Adult and Cornerstones programs to serve consumers with co-occurring disorders by adding a psychiatric nurse practitioner to the treatment team. This cost effective approach decreases the number of expensive psychiatric hours needed while allowing the program to quickly and effectively respond to consumer needs. Psychiatric services have been established at each outpatient site and day treatment program. The services include psychiatric screenings and assessments, monitoring, and prescribing activities related to psychiatric medication for consumers with co-occurring disorders.  | ¥                 |                       |
| After the implementation of a successful pilot program in FY 2007, the CSB, in conjunction with the Alexandria Community Services Board, expanded the use of Buprenorphine, a medication that assists opiate dependent consumers in recovery, to all ADS residential programs and contractual services. Buprenorphine reduces cravings for opiates by bonding with receptor sites in the brain, and is less likely to be abused because it does not produce euphoria. The form of Buprenorphine that is used, Suboxone, is formulated in such a way that any misuse of the medication results in the individual experiencing withdrawal symptoms. Individuals who use this medication experience reduced cravings, thus enabling them to maintain a higher level of functioning. Approximately 15 clients are receiving Buprenorphine through these programs in FY 2008, and the CSB expects to serve additional clients in FY 2009. | ¥                 | M                     |
| In FY 2008, Adult Outpatient services added a pilot program at the Fairfax Outpatient site. The pilot program offers the addiction prescription medication Suboxone to opiate addicts who would benefit from this pharmacological intervention. This non-addictive, non-mood altering medication has been proven effective in assisting opiate addicts interrupt the cycle of addiction by decreasing cravings and blocking the effect of other narcotics. It has a very low potential for abuse and diversion. The CSB expects to continue the Suboxone program in FY 2009  | ¥                 | ð                     |
| In collaboration with Mental Health Services (MHS), developed a joint assessment tool, which will allow access to either ADS or MHS programs without multiple consumer appointments and duplication of staff efforts. The assessment tool queries pertinent information related to presenting and historical mental health, substance use and medical issues, as well as suicide and violence risk assessments, resulting in coordinated treatment referrals that address complex case management needs. The joint assessment will be available for use in ADS and MHS programs in FY 2008.  | ď                 |                       |
| Continue to operate the re-established Jail Diversion program to divert individuals in the community requiring alcohol and drug services from jail to treatment. This is a collaborative project with the Fairfax County Police Department and the Office of the Sheriff. In FY 2007, there were a total of 681 admissions to this program. This represents Police and Sheriff time savings of approximately 2,043 hours in FY 2007 which were utilized addressing more serious crimes.  | ď                 | ¥                     |

| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Participate in the implementation of the Fairfax-Falls Church Community Plan to Prevent and End Homelessness, which involves redesigning services to better meet the needs of homeless people in the community, as well as ensuring that individuals in need receive shelter and are not at risk of death due to hypothermia. ADS will continue service delivery using the <i>Housing First</i> model, whereby individuals are moved directly from homelessness into housing. Support services are offered on site to assist individuals toward stability and permanent housing. The ADS Housing First project began in April 2007. To date, two consumers have been housed with approximately 100 others receiving outreach and support services. | ✓                 | M                     |
| Continue to extensively collaborate with Mental Health Services on Systems Transformation, a service model redesign process that impacts services for consumers with co-occurring disorders.   | V                 | Ø                     |
| <b>Exercising Corporate Stewardship</b>  | Recent<br>Success | FY 2009<br>Initiative |
| The Volunteer and Intern Program will continue recruiting qualified interns in FY 2009. The program recruited and placed 94 individuals in the agency in FY 2007. Sixty-three were interns from area colleges and universities, and 31 volunteers were members of the community seeking to augment services throughout the treatment continuum. The volunteers and interns provided 15,495 hours of service during FY 2007, equivalent to \$290,698, as determined by the Virginia Employment Commission Economic Information Services Division, including curriculum development, trainings, workshops, transportation and clinical services.   | ď                 | ð                     |
| Spearheading a multi-agency team that is collaborating to re-establish a women's day treatment program in the South County in FY 2009 based on approval for Medicaid reimbursement for day treatment and intensive outpatient services. Programming will be rooted in established best practices for women's substance abuse treatment. Planning includes the establishment of basic operations in FY 2009, made possible through the redeployment of existing resources.  |                   | ð                     |
| Crossroads Adult and Youth Residential programs achieved accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) in FY 2007. CARF standards are best practices and could increase funding reimbursements from Medicaid and third-party payers. Sunrise Youth Residential program maintained CARF accreditation throughout FY 2008. Reaccredidation for Sunrise occurs in the fall and winter of calendar year 2008.   | ¥                 | ¥                     |

# **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **Employee Compensation**

\$857,887

A total increase of \$857,887 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### **Internal Funding Adjustment and Realignment Between CSB Agencies**

(\$110,000)

A decrease of \$110,000 in Personnel Services is due to funding adjustments and realignment between CSB agencies to reflect expenditure requirements for FY 2009.

#### **♦** Personnel Services Reduction

(\$517,867)

A decrease of \$517,867 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

♦ FASTRAN \$102,137

An increase of \$102,137 in Operating Expenses is based on an annual adjustment of FASTRAN operating expenses.

#### ♦ Contract Rate Increases

\$31,691

An increase of \$31,691 in Operating Expenses is associated with a 2.71 percent contract rate increase for providers of contracted alcohol and drug treatment services.

#### Carryover and Miscellaneous Adjustments

(\$1,083,255)

A net decrease of \$1,083,255 is associated with a decrease of \$181,871 in grant adjustments comprised of decreases of \$305,164 for HIDTA, \$7,509 for HUD and \$500 for Al's Pals, offset by increases of \$127,471 for Medicaid and \$3,831 for Day Reporting. Additionally, this adjustment reflects a decrease of \$403,354 for encumbered carryover and a decrease of \$498,030 in non-recurring grant and other miscellaneous adjustments. This adjustment is comprised of a decrease of \$173,005 in Personnel Services and a decrease of \$910,250 in Operating Expenses.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$273, 605

An increase of \$273,605 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Reduction in Limited-Term Funding

(\$23,962)

A decrease of \$23,962 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

#### **♦** Fuel Costs

\$18,020

An increase of \$18,020 for Department of Vehicle Services charges is based on anticipated requirements due to higher costs for unleaded and diesel fuels.

# **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$1,222,770

As part of the *FY 2007 Carryover Review*, an increase of \$1,222,770, comprised of increases of \$241,157 in Personnel Services and \$981,613 in Operating Expenses, is attributable to \$403,354 for encumbered items; \$341,317 in new grant program year awards; \$268,970 in unexpended FY 2007 grant balances; and \$209,129 due to other adjustments. The \$209,129 in other adjustments are due to \$80,000 for substance abuse/mental health co-occurring regional residential treatment at Cornerstones to appropriate additional Federal Substance Abuse Prevention and Treatment Block Grant revenues; \$77,790 for nongrant programs that deferred cash to FY 2008 within DMHMRSAS guidelines to appropriate additional state and/or federal block grant revenue; \$25,000 for limited term staff at A New Beginning to appropriate additional State SARPOS funding; \$23,099 for VASIP training and consultative projects to appropriate additional federal COSIG revenue; and \$3,240 for Post Partum Women case management services to appropriate additional state general funds.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

(\$249,574)

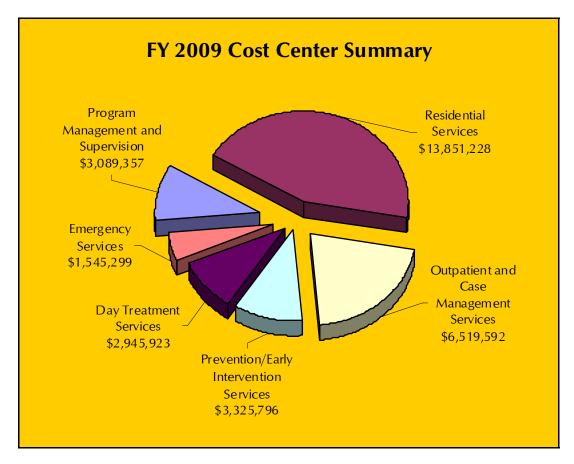

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$249,574 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

#### **♦** Position Adjustment

\$0

During FY 2008, 1/1.0 SYE position was transferred from Agency 68, Department of Administration for Human Services (DAHS) to Alcohol and Drug Services.

# **Key Performance Measures**

#### Goal

To provide program management, quality assurance, evaluation, administrative support and volunteer support services for the agency's alcohol and substance abuse treatment programs.

### **Objectives**

♦ To provide direction and management support to Alcohol and Drug Services programs so that 80 percent of service quality and outcome goals are achieved.

|  | FY 2005 | Prior Year Actu<br>FY 2006 | Current<br>Estimate        | Future<br>Estimate |         |
|--|---------|----------------------------|----------------------------|--------------------|---------|
| Indicator  | Actual  | Actual                     | FY 2007<br>Estimate/Actual | FY 2008            | FY 2009 |
| Outcome:   |         |                            |                            |                    |         |
| Percent of ADS program performance indicators (service quality and outcome) achieved | 87.5%   | 87.5%                      | 80.0% / 94.0%              | 80.0%              | 80.0%   |

### **Performance Measurement Results**

In FY 2007, 15 out of 16 or 94 percent of service quality and outcome goals were met by Alcohol and Drug Services thereby exceeding the target of 80 percent. The performance measures are designed to measure service satisfaction, access to services, consumer service delivery, consumer productivity in school and/or work, and reduction of illegal substance use. ADS will use the results of the FY 2007 performance measures to engage in continuous quality improvement activities throughout FY 2008 and FY 2009.

# **Key Performance Measures**

### Goal

To provide detoxification services, intermediate and long-term residential substance abuse treatment services for adults, adolescents, pregnant women and mothers with infant children in order to improve their overall functioning in the community.

## **Objectives**

- ♦ To provide substance abuse treatment to clients in the Crossroads program so that 80 percent of clients receiving at least 90 days of treatment are either employed or in school upon leaving the program.
- ♦ To provide substance abuse treatment to clients in the Intermediate Rehabilitation Services (Phoenix) program so that 80 percent of clients receiving at least 30 days of treatment are either employed or are in school upon leaving the program.

### **Performance Measurement Results**

In FY 2007, the Crossroads long-term residential treatment program, met 83 percent of its goal, serving 128 consumers. This is slightly lower than the projected goal of 155 consumers served. Consumers with co-occurring disorders generally require longer care episodes due to the complexity of their needs, which necessitates limiting the number of consumers clinicians can reasonably and safety serve. Fewer consumers are projected to be served in FY 2009 in order to adequately address the complex needs of co-occurring consumers served. The program has remained at full capacity throughout the year.

Intermediate Rehabilitation, which is a contracted service, served 12 adults, which is 50 percent below the FY 2007 estimate. Lower than anticipated performance is attributable to a reallocation of funds within the CSB to other contracted programs for medical detoxification and long term residential treatment in order to meet the needs of the consumer population. The Intermediate Rehabilitation cost per client is projected to increase in FY 2009, due to a 38 percent increase in the cost of contracted services. It is projected that 18 consumers will be served through Intermediate Rehabilitation in FY 2009.

Consumers continue to report high levels of satisfaction with both the Crossroads and Intermediate Rehabilitation programs. In FY 2007, 97 percent of consumers in the Crossroads program were satisfied with services, exceeding the goal of 90 percent. In the Intermediate Rehabilitation program, 85 percent of consumers indicated that they were satisfied with services, achieving the goal of 85 percent.

Of the consumers participating in 90 days of service at Crossroads, the program surpassed its target with 92 percent demonstrating improvement in employment/school status. Of the consumers that participated in 30 days of service in Intermediate Rehabilitation, 100 percent demonstrated improvement in employment/school status.

# **Key Performance Measures**

### Goal

To provide outpatient and case management services that allow people to continue functioning and being productive in their homes, workplace, schools and neighborhoods while receiving treatment.

### **Objectives**

- ♦ To improve the employment and/or school status for 80 percent of adults who participate in at least 30 days of outpatient treatment.
- ♦ To improve the employment and/or school status for 80 percent of youth who participate in at least 30 days of outpatient treatment.

### **Performance Measurement Results**

In FY 2007, Adult Outpatient met 73 percent of the estimate, serving 1,450 consumers, 550 fewer adult consumers than estimated. Adult Outpatient Services previously re-tooled treatment programming to accommodate more consumers with co-occurring substance use and mental health disorders. Consumers with co-occurring disorders generally require longer care episodes due to the complexity of their needs, which necessitates limiting the number of consumers clinicians can reasonably and safely serve. This also results in reductions in consumer turnover. The output goal has been adjusted to reflect the length of stay required for the consumers. Youth Outpatient Services served 1,004 consumers in FY 2007, exceeding the estimate by four.

Ninety-five percent of adult consumers and 92 percent of youth consumers were satisfied with services, exceeding the targets of 90 percent. This can be attributed to quality improvement initiatives within the agency that incorporated feedback from narrative portions of previous consumer satisfaction surveys.

In regards to outcome measures, 81 percent of adults achieved improvement in their employment and/or school status after 30 days of treatment. Ninety-seven percent of youth consumers showed improvement, surpassing the target of 80 percent.

# **Key Performance Measures**

### Goal

To reduce the incidence of substance abuse, as well as provide community prevention, education, consultation, training and information to business, schools, service providers and residents in order to prevent subsequent alcohol and/or drug abuse.

# **Objectives**

♦ To increase knowledge of healthy lifestyles, substance abuse warning signs and available alcohol and drug abuse resources among 85 percent of participants in prevention education programs.

### **Performance Measurement Results**

In FY 2007, Prevention Services exceeded the goal for prevention education by 29 percent, providing 3,598 units of service, as defined by the State Performance Contract. The increase in units of service is attributable to increased efficiency and system changes in the Commonwealth of Virginia's Prevention database system, which allows staff to more accurately record activities and program delivery of services. In light of these recent improvements, the service delivery goal for FY 2009 is increased to 3,500 units of service.

Eighty-nine percent of consumers demonstrated improved knowledge of healthy lifestyles and the warning signs of substance abuse, exceeding the FY 2007 goal of 85 percent.

#### **Performance Measurement Results**

In FY 2007, Adult Day Treatment served 147 consumers, exceeding the estimate by 5 percent. As is the case with other service areas, adult day treatment services involves the provision of complex care for consumers with co-occurring disorders, thereby limiting the number of consumers clinicians can reasonably and safely serve. Youth Day Treatment met 66 percent of the FY 2007 estimate, serving 119 consumers. The Youth Day Treatment cost per client is projected to increase in FY 2009 due to increasingly longer periods of consumer service provision.

Ninety-five percent of adult consumers and 92 percent of youth consumers were satisfied with services, exceeding the targets of 80 percent. This can be attributed to quality improvement initiatives within the agency that incorporated feedback from narrative portions of previous consumer satisfaction surveys.

For adult consumers, 81 percent of those served demonstrated improvement in their employment/school status from admission to discharge. It should be noted that this is one of the most difficult populations that the agency serves. It is not unusual that consumers requiring residential care meet residential exclusionary criteria and are subsequently placed in day treatment, which is a lower level of care. Exclusionary criteria include issues related to criminal histories that have the potential of risk of jeopardy to other consumers in a residential setting.

Ninety-nine percent of youth consumers showed improvement in employment and/or school status, greatly surpassing the target of 80 percent. Youth tend not to present the same residential risk issues that adults do and are more likely to be placed in the level of care needed.

# **Key Performance Measures**

### Goal

To provide prompt responses to adult clients seeking crisis intervention, assessment, evaluation and/or emergency substance abuse services and provide centralized entry to all Alcohol and Drug Services programs, as well as referrals to private treatment programs when needed.

### **Objectives**

♦ To improve emergency crisis intervention and assessment services so that 85 percent of assessed clients receive the appropriate level of care based on American Society of Addiction Medicines (ASAM) criteria.

### **Performance Measurement Results**

In FY 2007, 2,027 clients were served, which exceeded the targeted amount of 2,000 clients. Ninety-six percent of consumers reported satisfaction with services, exceeding the goal of 95 percent. The goal for consumers accessing the appropriate level of care based on their needs was 91 percent, exceeding the target of 85 percent. The level of severity of consumers being assessed has significantly increased. More consumers with severe co-occurring disorders are being served through the Assessment and Referral Center, with many of these consumers unable to access community care until stabilized in hospitals or crisis care centers.

### Mission

To support and serve eligible children and their families in order to enhance their day to day activities, facilitate community integration, and promote their overall development. Early Intervention Services (also known as Infant and Toddler Connection or ITC) collaborates with community stakeholders to identify every infant and toddler having a developmental delay, a diagnosis with a high probability of delay, and/or atypical development in a timely manner. ITC staff has the expertise to incorporate and advance best practices in the provision of federally-mandated early intervention services and support.

#### **Focus**

Early Intervention Services supports the Infant and Toddler Connection (ITC), a statewide program that provides federallymandated early intervention services to infants and toddlers as outlined in Part C of the Individuals with Disabilities Education Act (IDEA). ITC provides family-centered intervention to children ages birth to 3 years who need strategies to assist them in acquiring the skills they need such as sitting, crawling, walking and/or talking. Families are entitled to a multidisciplinary evaluation, service coordination and Individual Family Service Plan (IFSP) free of charge. Through a public/private partnership, ITC provides federally-mandated services including, but not limited to: physical, occupational and speech therapy; special instruction; medical, health and nursing services; hearing and vision services; assistive technology (e.g., hearing aids, adapted toys and mobility aids); family training and counseling; service coordination; and transportation. A local coordinating council, known as the Fairfax Interagency Coordinating Council, serves to advise and assist the local lead agency, while the Fairfax-Falls Church Community Services Board (CSB) serves as the fiscal agent and local lead agency. There has been significant growth in the demand for services over the last several years and this is

expected to continue. From FY 2000 through FY 2007, the program has experienced an average yearly growth rate of over 10 percent. Currently, ITC of Fairfax-Falls Church serves over 20 percent of all the children receiving Individuals with Disabilities Act (IDEA) Part C services in the Commonwealth of Virginia. Given the rising incidence of autism in Fairfax County, the ITC continues to develop ongoing relationships with the Virginia Autism Research Center and Fairfax County Public Schools (FCPS) to address the early identification of children who might need specialized preschool services for this particular disability.

ITC continues to provide high-quality evaluations, ongoing service delivery, and service coordination to a growing number of Medicaid families. Medicaid reimbursement rates have made home visits to Medicaid

families cost prohibitive for private providers who are not employed by the CSB. Consequently, ITC therapeutic staff is the only provider of these services for all new children with Medicaid. Since FY 2006, most Medicaid families served by ITC also had their coverage transferred into one of Virginia's Medicaid managed care organizations (MCO). This change drastically reduced the amount of potential revenues receivable by ITC for reimbursement of costs associated with each evaluation and direct intervention session provided to Medicaid families. In FY 2009, development of a Medicaid State Plan amendment for early intervention services may help address this situation. The State Part C office is updating a Part C System of Payments Study completed in 2003, which identified a series of equity and parity issues related to the Commonwealth's implementation of Federal Part C requirements regarding fiscal matters. It is anticipated that implementation of the recommendations from that report will help establish standardized reimbursement for all early intervention services across Virginia, which will offer new opportunities for provider growth necessary to meet the Commonwealth's anticipated growth in child enrollment.

ITC staff also continues to strengthen outreach and support efforts by expanding collaborations with the Fairfax County Health Department, INOVA Fairfax Hospital, and FCPS to ensure that infants and toddlers get appropriate services as soon as delays are expected or detected. The growing cultural diversity needs of families requiring ITC services across the County is addressed by a list of 43 interpreters maintained by ITC and under contract to provide translation services. These interpreters are fluent in 10 languages, including Spanish, Urdu, Mandarin Chinese, Korean and American Sign Language.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to support a learning forum for public and private service providers to foster professional development and improve service delivery. Recent successes include hosting quarterly provider forums related to indicators of child progress, grief and loss in early intervention, and assessing the social and emotional development of toddlers. Ongoing work with the Child Protective Services staff has allowed for continued implementation of the Child Abuse and Prevention Treatment Act (CAPTA) provisions that require substantiated cases of abuse and neglect be referred to ITC. ITC staff participates in a countywide Vulnerable Infants Workgroup that provides cross-agency trainings.   | R                 | ð                     |
| Connecting People and Places   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to maintain and increase the number of families participating in ITC sponsored parent support groups. Families receive mutual support and guidance from each other through attending events with other families who have children with developmental delays or disabilities. This source of support helps families feel they are better able to meet their children's needs. In FY 2007, 484 families participated in ITC sponsored parent support groups, exceeding the target of 300 families by 61 percent. ITC plans to start a new Feeding Group in FY 2008 that will also be videotaped and used as a resource by providers throughout the area. Feeding groups bring together children and families who are struggling with food refusal and subsequent nutritional issues. Occupational therapy, speech therapy, and family counseling are provided over 16 weeks with the goal of increasing the children's acceptance of different foods. | d                 | ð                     |

# **Fund 106**

# **Community Services Board (CSB) - Early Intervention Services**

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$132,864

An increase of \$132,864 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Personnel Services Reduction

(\$40,247)

A decrease of \$40,247 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

#### ♦ Contract Rate Increases

\$26,318

An increase of \$26,318 in Operating Expenses is associated with a 2.71 percent contract rate increase for providers of contracted early intervention services.

### **♦** Grant Adjustments

(\$92.087)

A net decrease of \$92,087 is due to grant adjustments for the Infant Toddler Connection (ITC) Part C and Medicaid grants, comprised of additional funding of \$44,730 in Personnel Services, offset by a decrease of \$136,817 in Operating Expenses.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$21,366

An increase of \$ 21,366 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Reduction in Limited-Term Funding

(\$1,543)

A decrease of \$1,543 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

# Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$139,417

As part of the FY 2007 Carryover Review, an increase of \$139,417 reflects an adjustment to the current year Part C grant award, including a decrease of \$7,080 in Personnel Services offset by an increase of \$146,497 in Operating Expenses.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

\$214,203

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved a net increase of \$214,203 including an increase of \$233,693 due to various out-of-cycle program year grant adjustments offset by a decrease of \$19,490 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. The across the board reduction accelerated the Personnel Services reduction included for FY 2009 in the <u>FY 2009 Adopted Budget Plan</u>.

# **Key Performance Measures**

#### Goal

To provide early intervention services to infants and toddlers with disabilities and their families to reduce or eliminate the effects of disabling conditions.

### **Objectives**

♦ To complete evaluations and develop an Individualized Family Service Plan (IFSP) for 100 percent of families within 45 days from intake call.

|  | Prior Year Actuals |                   |                            | Current<br>Estimate | Future<br>Estimate |

| Percent of families who received completed IFSP within 45 days of intake call  | 92%                | 86%               | 100% / 94%                 | 100%                | 100%               |
| Average number of days from referral to completion of IFSP   | 42                 | 35                | 32 / 38                    | 32                  | 32                 |

### **Performance Measurement Results**

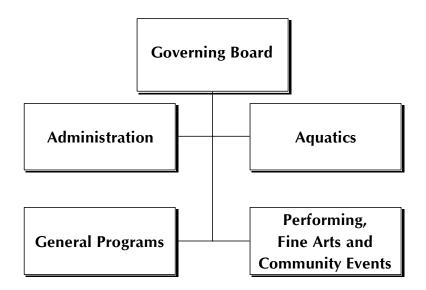

In FY 2007, one of three (33.3 percent) of ITC's service quality and outcome goals were met or exceeded. The percentage of families who agreed that early intervention services made them feel more confident in meeting their child's needs was 96 percent in FY 2007, versus a goal of 95 percent.

The average number of days from referral to completion of an Individualized Family Service Plan (IFSP) was 38 days in FY 2007, versus a goal of 32 days. This indicator was a new performance measure added in FY 2006 to evaluate the actual time required for completion of an IFSP. In combination with the indicator highlighting percentage of IFSPs completed within 45 days, this indicator allows more precise measurement of ITC's performance and efficiency. The percentage of families receiving a completed IFSP within 45 days of intake call was 94 percent, versus a federally-mandated goal of 100 percent.

ITC of Fairfax-Falls Church served 1,850 infants and toddlers in FY 2007, a 6 percent increase above the FY 2006 level of 1,739. The continued increase in the number of children served is reflective of the large and rapid growth in demand for early intervention services consistently seen over the past several years. This trend is expected to continue in the future and, consequently, ITC was not able to maintain 100 percent compliance with the federally-mandated requirement that IFSPs be completed within 45 days of intake call, and/or meet the average number of days from referral to completion of IFSP target of 32 days. The rapidly increasing demand for early intervention services and staff vacancies arising from insufficient reimbursement rates or revenues from other sources contributed significantly to this shortfall. During FY 2007, two additional Part C grant Service Coordinator positions, a Director of Quality Assurance, and an Office Manager position were established to help address the increased clinical and administrative requirements associated with this program's continued growth and aid in meeting the FY 2008 and FY 2009 outcome estimates.

The actual annual cost per individual served in FY 2007 was \$1,467, thereby exceeding the anticipated annual cost of \$1,403 per individual served by 5 percent. However, this amount represents a 10 percent decrease from the FY 2006 annual cost per individual served of \$1,635.

# Fund 111 Reston Community Center

## Mission

To create positive leisure experiences which enhance the quality of life for all people living and working in Greater Reston by providing a broad range of programs in arts, aquatics, enrichment and life-long learning, and creating and sustaining community traditions through special events, outreach activities, and facility rentals.

#### **Focus**

Reston Community Center (RCC) is a community leader, bringing the community together through enriching leisure time experiences that reach out to all and contribute to Reston's *sense* of *place*.

RCC provides four 'lines of programming' to the Reston community: Performing, Fine Arts and Community Events, Aquatics, General Programs (i.e., programming designed by age cohort), and Facility Rentals. The vast majority of programs and events are presented in RCC's two facilities, RCC Hunters Woods and RCC Lake Anne. Average program participation rates for both programming and rentals are well over 80 percent and facility utilization is near capacity.

RCC has continued to improve the processes that deliver programs and services to the community; in particular, program registration, booking of facility rentals and program planning. The result has been more informed and timely handling of patron queries, improved accuracy in program registration and significant improvements in the facility rental process.

### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Continuing a broad range of programs in arts, aquatics, enrichment and life-long learning;
- Increasing participation in offered programs and activities;
- o Creating and sustaining community traditions through special events, outreach activities and facility rentals;
- o Enhancing programming efforts by forming partnerships with non-profit organizations and businesses; and
- o Increasing awareness of offered programs through community outreach.

# Fund 111 Reston Community Center

RCC operations are supported by revenues from a special property tax collected on all residential and commercial properties within Small District 5. As part of their deliberations on the FY 2007 Advertised Budget Plan, the Board of Supervisors reduced the Small District 5 tax rate for FY 2007 to \$0.047 per \$100 of assessed property value, a decrease of \$0.005 from the FY 2006 rate of \$0.052 per \$100 of assessed value. In addition, the Board passed a resolution in March 2006 that changed the boundaries of Small District 5, resulting in a reduction of 274 parcels. It should be noted that in FY 2007, total property assessments in Small District 5 rose 9 percent over FY 2006 reflecting an assessment base that is 61 percent residential and 39 percent non-residential.

RCC also collects internal revenues generated by program registration fees, theatre box office receipts, gate admissions and facility rental fees. These activity fees are set at a level substantially below the actual cost of programming since Small District 5 property owners have already contributed tax revenues to fund RCC operations. Consequently, Small District 5 residents and employees enjoy RCC programs at a reduced rate. RCC patrons residing outside Small District 5 pay a higher, non-resident activity fee. In 1986, the RCC Board of Governors adopted a policy that internally generated revenues will not recover more than 25 percent of RCC operating costs. The RCC Board reaffirmed that policy in February 2007. In FY 2007, internally generated revenues recovered 10.6 percent of operating costs – well below the Governing Board's established limit.

Beginning in 2002, the RCC Board of Governors adopted a managed reserve structure to provide long-term fiscal security and stability for the fund. The available fund balance is divided into three reserve accounts designated to provide funds for unforeseen catastrophic facility repairs, feasibility studies for future programming and future capital projects.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue specific offerings and training efforts designed to proactively engage teens during non-school hours and the summer months. Three examples of this include expansion of the Road Rulz summer day camp, more intense tutoring and skill building in the Students on Suspension program, and the agency's artist residency work that engaged ESL students with professional artists. Administratively, staff completed training to become certified in CPR/AED to provide the capability to address health emergencies at both physical locations and while out in the field with program participants. |                   | ¥                     |
| Continue to collaborate with a variety of partners throughout Small District 5 to enhance programming and maximize use of community resources. The Hunter Mill District Supervisor's office, the Reston Association, Reston Interfaith, the YMCA-Reston, Reston Hospital, and the Greater Reston Chamber of Commerce are among the organizations that partnered with RCC during FY 2007 and will continue partnering in coming fiscal year.  |                   | ¥                     |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$191,007

An increase of \$191,007 associated with salary adjustments necessary to support the County's compensation program and to provide for the projected increase in General Programs related to larger class sizes and additional class sessions in an effort to reduce waitlists and better accommodate patrons. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Other Adjustments

\$283.402

An increase of \$283,402 in Operating Expenses is due to temporary office and off-site rental for programs as well as moving expenses associated with the Heating Ventilation and Air Conditioning (HVAC) system replacement and renovation of the pool spa and theatre areas.

#### **♦** Capital Projects

\$1,895,490

Funding of \$1,895,490 is required to support RCC capital improvements primarily for the renovation of the pool and spa, the replacement of the Heating Ventilation and Air Conditioning (HVAC) system and installation of electrical rigging in the theatre.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$28,406

An increase of \$28,406 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$605,336

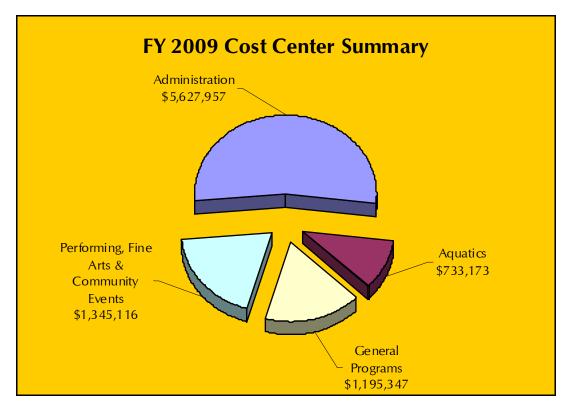

As part of the FY 2007 Carryover Review, the Board of Supervisors approved encumbered funding of \$605,336 in unexpended Capital Projects balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Cost Centers**

The four cost centers in Fund 111, Reston Community Center are Administration, Performing, Fine Arts and Community Events, Aquatics, and General Programs. These distinct program areas work to fulfill the mission and carry out the key initiatives of the Reston Community Center.

Note: The Administration Cost Center includes an amount of \$1,895,490 for FY 2009 Capital Projects.

| Funding Summary                  |                   |                                   |                                   |                                      |                                   |  |  |

### **Key Performance Measures**

#### Goal

To provide effective leadership, supervision and administrative support for Center programs in order to maintain and prepare the facilities of the Reston Community Center for residents of Small Tax District 5.

#### **Objectives**

♦ Achieve 95 percent public awareness and 90 percent patron satisfaction with RCC programs and facilities in Small District 5 of the Reston Community Center and its mission.

|   | Prior Year Actuals |                   |                            | Current<br>Estimate | Future<br>Estimate |

#### **Performance Measurement Results**

RCC contracted with the UVA Center for Survey Research to develop and implement a customer satisfaction feedback instrument during FY 2005. The second biennual survey was conducted at this time, but covered the period of calendar year 2004. In that survey, 94.65 percent of patrons indicated satisfaction with RCC programs and facilities, while 94.80 percent indicated awareness of the Community Center. The results of this survey allowed the board and staff to better determine patron satisfaction with their facility rental experience and overall RCC customer service. In addition, the survey results determined that Small District 5 patrons recognize the RCC name but do not always know the wide range of class and room rental offerings. As a result, RCC began a marketing effort to assure that the community is better informed about RCC programs and services.

The survey is not intended to be an annual project, but to be completed upon approval by the RCC Board of Governors. The goal is to have the survey completed approximately every other year, depending on need. It should be noted that a third citizen survey was recently approved by the RCC Board covering the period of calendar year 2007 and is in the process of being completed. This data will be published as soon as it is available.

## **Performing, Fine Arts and Community Events**

### **Key Performance Measures**

#### Goal

To provide Performing Arts, Arts Education and Community Event presentations to the residents of Small Tax District 5 in order to increase the cultural awareness of the community in disciplines of dance, theatre, music and related arts as well as to create and sustain community traditions through community events.

#### **Objectives**

- ♦ To achieve attendance for Professional Touring Artist Series performances that averages 60 percent or better of capacity.
- ◆ To achieve enrollment in arts education offerings that averages 85 percent or better of capacity.

#### **Performance Measurement Results**

In 2007, the agency restructured to more appropriately align Community Events within the Performing and Fine Arts cost center. The cost center wss renamed Performing, Fine Arts and Community Events. The relevant objective for Community Events programming is to achieve participation levels of 85 percent in each event as determined by event-related capacities. Relevant to Performing and Fine Arts, the previously stated objective to achieve attendance for Professional Touring Artists season that averages 60 percent or better capacity was changed to reflect RCC's newly adopted strategic plan. Previous years' data reflected participation and activity encompassing both the community-based work presented by the theatre's rental clients as well as participation in the Professional Touring Artists Series programming underwritten by the RCC. The theatre rental policy and fee structure underwent review to examine the best way to revise rental fees and policies to better reflect the current fiscal climate of fee structures in similar facilities and to preserve the policy intentions of RCC operations. Since theatre rental rates have not been adjusted since 1987, they are far below current rates charged in similar facilities and will be increased. In order to allow for a graduated implementation of new rates that would not adversely impact current organizations' fiscal planning, a proposal to increase theatre rental revenue by 10 percent per year until it reaches an appropriate rental rate schedule was discussed with affected arts organizations. The proposal is pending review by RCC Board of Governors Program/Policy Committee and full RCC Board approval, which is also in line with the adopted strategic plan.

Figures in the Performance Indicators are therefore adjusted to reflect a more accurate assignment of costs to participants aligned with proportions of the Performing Arts Budget dedicated to each of the two service areas: The Professional Touring Artist Series, and the Community Arts (rental) season activity. In the past the Performance Indicators combined all costs and all participation. To better align with the strategic plan objectives, staff reviewed and assigned percentages of overall cost center expenditures that could be identified with relative precision as being exclusive to one area of the department activity or another. Thus the figures for participation are only for the Professional Touring Artist series and the participant cost is based on expenditures identified solely with that program area. Figures were further adjusted in the FY 2009 presentation to reflect changes driven by the restructuring and the realigned department relationships and cost assignments.

The attendance during FY 2007 was impacted by a high-profile artist's cancellation, winter weather conditions that decreased both interest and ability to attend, and limited marketing due to a director of communications vacancy until May 2007. Media and public relations outreach are of paramount importance for events and performances that are one-time in nature. In FY 2008, it is anticipated that by scheduling fewer events in February when weather had the most extreme impact on operations, and utilizing a coordinated branding and event campaign approach to marketing performances, the strategic plan goal of 60 percent will be met and exceeded. For FY 2009, there are likely to be some anomalies due to the impact of the closure related to the HVAC renovation. While the number of professional touring artist series events may be constant, it is likely that they will be held in venues other than the CenterStage location making the overall capacity a more variable issue. This will be noted in data reports related to Performance Indicators. Arts Education offerings were highly successful in FY 2007 achieving 87 percent of capacity enrollment with few class cancellations. Projected costs for FY 2009 reflect increased costs in service provider fees, which reflect both their higher expenses incurred in doing business, as well as increasingly higher quality in the caliber of instruction. Patron expectations of RCC arts education offerings are for high-quality instruction offered by seasoned professionals

in their respective arts fields. While costs have risen, so have enrollments resulting in increased revenue. Both trends will likely continue.

#### **Performance Measurement Results**

The FY 2007 increase in patrons served of 20.7 percent contributed to the decrease in cost per patron from \$5.24 to \$4.16. Additionally, large inventory purchases made at the end of FY 2006 allowed for fewer replenishment orders being made during FY 2007. FY 2009 projections are based on limited instructional offerings to historically desirable lesson times while maintaining a wide diversity of classes for all age cohorts.

#### **Performance Measurement Results**

In FY 2007 the General Programs Department exceeded the estimated number of patrons served by 475. This achievement supports the overall Strategic Plan goal to increase participation in RCC programs within capabilities allowable by facility features and RCC resources.

The overall enrollment capacity for registered programs was also larger than originally anticipated with 1,256 additional seats provided. This increase in capacity is related to larger class sizes and additional class sessions in an effort to reduce waitlists and better accommodate patrons. Despite attracting more patrons in FY 2007 than in previous years, the increased enrollment capacity affected the percentage of enrollment thereby reducing it slightly to 74.68 percent.

Three out of four age-cohort departments, Youth, Teen, and Adult, registered more patrons in FY 2007 compared to FY 2006 despite offering a similar or equal number of programs. This increase in enrollment can be attributed to a refinement of class offerings, updating of historically under-enrolled programs, introducing new programs and additional sessions of popular programs as indicated by waitlists. In the Youth department, additional class sessions were implemented for Happy Times, Cooking Camps and Kids Night Out. Within the Teen Department, two additional Road Rulz camps were offered and one additional SAT program. The Adult Department introduced StrollerFit ® and multiple intergenerational programs, Mother/Daughter Tea, Father/Son Bowling, to support the new All Ages section of the RCC seasonal program guide. The Senior Adult Department showed a slight decline in registered participants from FY 2006 to FY 2007. This is directly attributed to transitioning both the Older American's Month social event and the Dance Under the Stars event from registered to drop-in programming.

<sup>&</sup>lt;sup>1</sup> The fund balance in Fund 111, Reston Community Center, is maintained at adequate levels relative to projected personnel and operating requirements. Available fund balance is divided into three reserve accounts designated to provide funds for unforeseen catastrophic facility repairs, feasibility studies for future programming and funds for future capital projects.

<sup>&</sup>lt;sup>2</sup> Funds reserved for capital projects are not encumbered based on normal accounting practices; however, they are allocated for future capital projects.

#### Mission

The mission of the McLean Community Center is to provide a sense of community by undertaking programs; assisting community organizations; and furnishing facilities for civic, cultural, educational, recreational, and social activities apportioned fairly to all residents of Small District 1, Dranesville.

#### **Focus**

McLean Community Center (MCC or the Center) fulfills its mission by offering a wide variety of civic, social and cultural activities to its residents including families, local civic organizations, and businesses.

MCC offers classes and activities for all ages at nominal fees such as aerobics, computers, acting and tours. Special events and seasonal activities such as McLean Day, Fourth of July, Summer Camp, and a Craft Show are held at MCC, schools and parks. The Alden Theatre presents professional shows, travel films and entertainment for children. The Old Firehouse is a popular teenage social and recreation center in downtown McLean, operated by the Center. Drop-in activities sponsored by MCC are available such as open bridge games and children's cooperative play.

Facilities and operations of the MCC are supported primarily by revenues from a special property tax collected from all residential and commercial properties within Small District 1, Dranesville. The Small District 1 real estate tax

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Creating a strong central hub for McLean;
- o Increasing community involvement of families and seniors;
- Creating greater awareness of community activities;
- o Maintaining fiscal integrity and increasing community partnerships; and
- o Expanding the Center's facility to meet the needs of the community.

rate for FY 2009 is \$0.026 per \$100 of assessed property value which is a decrease of \$0.002 from the FY 2008 tax rate. Other revenue sources include program fees and interest on investments. In FY 2007, total

property assessments in Small District 1 rose 18.2 percent, reflecting an assessment base that is 95.0 percent residential and 5.0 percent nonresidential.

Financial and operational oversight of the Center is provided by the MCC Governing Board, elected annually, MCC receives its expenditure authority from the Fairfax County Board of Supervisors each fiscal year.

The MCC Governing Board and staff have developed and refined a strategic business plan which directs the expansion of the agency's functions for the next three years. MCC will renovate the theatre as part of the continuing improvements. MCC will train staff to provide information to enhance the Center's capability as a "one-stop shop" for printed and online information on community activities. MCC also seeks to develop programs that increase community involvement of all age groups. Residents and businesses will be included in identifying McLean's community needs and MCC staff will analyze those needs to determine potential areas of expanded programming facilities.

Over the last several years, MCC's Governing Board and staff members have been considering a possible expansion of the main facility, and a relocation or renovation of the Teen Center, a satellite program of MCC that provides after school programs, activities, events and a summer camp program for middle-school-age students. In FY 2007 a survey of Small District 1 residents and users was conducted to provide information concerning their experiences taking classes, attending performances and special events and renting meeting rooms at the Center. The results of the survey will be used to gather residents and users' opinions about the Center's plans to expand its facilities and programs.

Creating greater awareness of and participation in community activities is also a part of MCC's strategic business plan. MCC will continue to support outreach and marketing and community activities.

MCC will maintain fiscal integrity and expand partnerships in support of the strategic plan by obtaining contractual professional support for fundraising and increasing business partnerships and sponsors of MCC activities.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue to expand summer camp program to extended care from 3:00 p.m. to 6:00 p.m., for approximately 80 additional youth. | V                 | V                     |
| Continue hosting events by nonprofit community organizations including youth summit, parent workshops and lectures.         | <b>T</b>          | Ø                     |

| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Replace theatre carpeting and theatre seats upholstery and hardware, design and engineer improved theatre sound system and replace wood window frames as part of the continuing improvement of the MCC.                       |                   | <b>V</b>              |
| Proceed with strategic plan to determine feasibility and scope of possible expansion of the Center facility.  |                   |                       |
| Connecting People and Places  | Recent<br>Success | FY 2009<br>Initiative |
| Continue the use of two passenger vans to transport students from the middle school (Longfellow) to the Old Firehouse Teen Center. Also transport students for the summer camp Teen Center program.                           | ð                 | ¥                     |
| Continue to distribute the seasonal program guide three times a year. Continue to improve the Web site for ease of access and information. Continue to improve the e-flyer, which currently is sent to over 4,000 recipients. |                   | ¥                     |
| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
| Continue to provide information and activities about ethnic programming.  |                   |                       |
| Hosted a Community Dialogues event, in conjunction with the Department of Family Services, to engage citizens in conversation regarding multi-cultural and multi-ethnic issues.   |                   |                       |
| Hosted Celebrate Virginia in conjunction with Celebrate Virginia committee to provide activities and events highlighting the programs and talents of Virginians.  | ð                 |                       |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$70,229

An increase of \$70,229 in Personnel Services including \$51,623 associated with salary adjustments necessary to support the County's compensation program, and \$18,606 for a limited term Theater Technician position to assist in the lighting, sound and general operation of the theater. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Operating Expenses

\$356,605

An increase of \$356,605 is primarily due to higher costs for professional and consultant contracts for class instructors, youth programs and initiation of a local tours program, repairs and maintenance, and training, partially offset by carryover of one-time expenses included as part of the FY 2007 Carryover Review.

#### **♦** Capital Equipment

\$36,000

Capital Equipment funding of \$36,000 is included for Light Emitting Diode (LED) wash light fixtures and additional spotlight color engines to enhance energy efficiency and cost savings in the operation of the theatre.

#### **♦** Capital Projects

\$227,000

Total Capital Projects funding of \$227,000 is included for the installation of a theatre sound system, design for an HVAC upgrade, and expansion of office space for the Scene Shop.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$17,159

An increase of \$17,159 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$723,194

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved encumbered and unencumbered funding of \$723,194 including \$172,214 in Operating Expenses primarily associated with open purchase orders for professional and consulting contracts supplies, repairs and maintenance, computer software and marketing posters and flyers, an amount of \$22,300 in Capital Equipment for theatre lighting systems that were delayed in the purchasing process, and \$528,680 in unexpended Capital Project balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

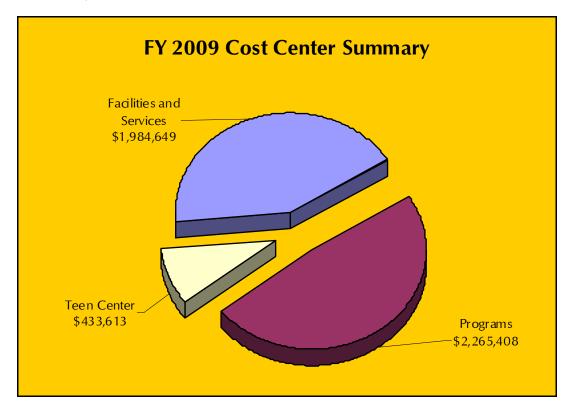

#### **♦** Third Quarter Adjustments

\$328,585

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an expenditure increase of \$328,585 including operating expenses of \$333,000 due to increased contractual services for class instructors offset by Capital Equipment savings of \$4,415 associated with the purchase of lighting fixtures. Revenues were increased \$375,000 for fee receipts associated with the actual class schedules' participants.

#### **Cost Centers**

The three cost centers in Fund 113, McLean Community Center are Facilities and Services, Programs and Teen Center. These distinct program areas work to fulfill the mission and carry out the key initiatives of the McLean Community Center.

## **Key Performance Measures**

#### Goal

To administer the facilities and programs of the McLean Community Center, to assist local public groups' planning activities and to provide information to citizens in order to facilitate their integration in the life of the community.

#### **Objectives**

♦ To increase the number of patrons attending events, activities and classes by 6.3 percent from 172,942 to 183,887.

#### **Performance Measurement Results**

The number of patrons calculated as the number of persons participating in classes or other activities in the facility, decreased 3.4 percent from 182,140 in FY 2006 to 175,943 In FY 2007 with no change in the number of complaints received through the Taxpayer and Participant Satisfaction Survey. The increased cost per patron from \$8.10 in FY 2006 to \$10.24 in FY 2007 is due mainly to the fact that there were one-time charges for the "Celebrate Virginia" event.

## **Key Performance Measures**

#### Goal

To provide programs and classes to McLean Community Center district residents of all ages in order to promote personal growth and a sense of community involvement.

#### **Objectives**

- To maintain the number of patrons participating in classes and activities at 38,500.
- ♦ To maintain the number of patrons attending major community Special Events, such as July 4th fireworks, while improving the quality of the events.
- ♦ To increase the number of patrons served by Performing Arts activities by 1.9 percent from 32,000 to 32,600.
- ♦ To increase the number of patrons participating in Youth Activities by 17.5 percent from 13,196 to 15,500.

<sup>(1)</sup> The cost per Patron participating in classes and Senior Adult Activities has increased significantly starting with FY 2007. This is primarily due to increased expenditures to cover the Contract Instructor payments. As of FY 2007, instructors are paid through CASPS as expenditures. These payments are covered by identical increases in Instructional Fees revenue. Formerly, these Contract Instructor payments were deducted from Revenue. An adjustment for FY 2008 is anticipated as part of the FY 2008 Third Quarter Review and will be reflected in the FY 2008 Adopted Budget Plan.

#### **Performance Measurement Results**

The number of patrons has decreased in some of the programs offered by MCC and increased in others. This is due to variances in the anticipated participation and attendance in the activities and programs offered at the Center.

Service Quality is measured by customer satisfaction surveys. These are conducted at the conclusion of the classes and other activities, and on-site at special events that attract large crowds. A high level of approval has been noted in every aspect of operation, which is corroborated by the minimal number of complaints received.

## **Key Performance Measures**

#### Goal

To provide a facility for local youth in grades 7 through 12 in order to promote personal growth and provide a safe recreational and productive environment.

#### **Objectives**

- ♦ To increase the number of weekend patrons by 20.0 percent, from 5,194 to 6,233.
- ♦ To increase the number of weekday participants by 30.0 percent from 10,000 to 13,000.

#### **Performance Measurement Results**

The number of patrons participating in Teen Center weekend activities decreased mainly because of a drop in the attendance at the Friday night dances. The programs have been revamped and as a result attendance has been increasing. Weekend activities decreased 54.8 percent from 9,577 in FY 2006 to 4,328 in FY 2007. The number of weekday participants increased 3.0 percent from 9,612 in FY 2006 to 9,900 in FY 2007. The cost per patron increased from \$20.26 in FY 2006 to \$37.50 in 2007. This is mainly due to one time costs for facility repairs and improvements including the parking lot, outside lighting, a new phone system and setup of office space.

<sup>1</sup> The increasing ending balance is being set aside to fund a future expansion of the main facility and potentially a relocation or renovation of the Old Firehouse Teen Center, a satellite program of McLean Community Center, providing after school programs, activities, events and a summer camp program for middle-school-age students. In FY 2007 a survey of Small District 1 residents and users was conducted to provide information concerning their experiences taking classes, attending performances and special events and renting meeting rooms at the Center. It is anticipated that the survey will assist in determining the size and scope of the expansion and/or relocation. It is anticipated that the funding in the Capital Project Reserve will be directed to the expansion and relocation plans. By building up this reserve, the amount of bond funding required will be reduced accordingly.

<sup>&</sup>lt;sup>2</sup> Funds reserved for equipment replacement are not encumbered based on normal accounting practices; however, they are allocated for future equipment replacement purchases.

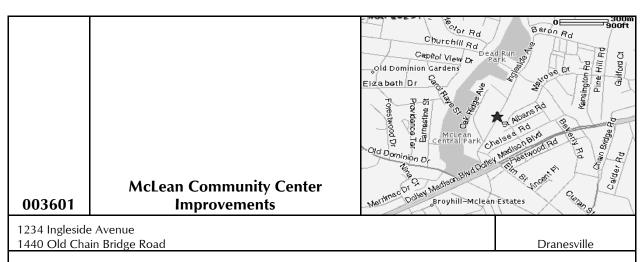

<sup>&</sup>lt;sup>3</sup> Funds reserved for capital projects are not encumbered based on normal accounting practices; however, they are allocated for future capital projects.

<sup>&</sup>lt;sup>4</sup> The FY 2009 tax rate is reduced to \$0.026 from \$0.028 per \$100 of Assessed Value as approved by the McLean Community Center Governing Board.

**Description and Justification:** Center improvements funded through this project in prior years included parking lot expansion, carpet purchase and installation, landscaping, Heating Ventilation and Air Conditioning (HVAC) modifications, a feasibility study to expand the facility and for the McLean Project for the Arts (MPA) renovation project, the replacement of wood window frames, theatre carpet, theatre seat upholstery, theatre hardware and theatre sound system design and engineering equipment. FY 2009 funding provides for the installation of a theatre sound system, design for an HVAC upgrade and expansion of office space for the Scene Shop.

#### **Operating Budget Impact:**

This project will have no measurable impact on the operating budget.

#### Mission

To provide and maintain a facility for the citizens of the Burgundy Village district so they may have an opportunity to plan, organize, and implement recreational, social, and civic activities.

#### **Focus**

Fund 115, Burgundy Village Community Center, was established in 1970, along with a special tax district, to finance the operations and maintenance of the Burgundy Village Community Center for use by residents of the Burgundy Community. Residents of this district currently pay an additional \$0.02 per \$100 of assessed value on their real estate taxes to fund the Center. The subdivisions of Burgundy Village, Somerville Hill, and Burgundy Manor are included in the special tax district. Funding for Center operations and maintenance is derived from the tax district receipts, interest on Center funds invested by the County, and rentals.

The Burgundy Village Community Center is used for meetings, public service affairs, and private parties. Residents of the Burgundy Community rent the facility for \$35 per event; non-residents are charged \$200 per event. There is no charge for community activities or meetings such as the Burgundy Civic Association, Neighborhood Watch, and community events sponsored by the Operations Board.

The Center is currently governed by a five-member Operations Board elected by the Burgundy Village Community residents.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Burgundy Community residents used the center 24 times in FY 2007 for activities, events, and meetings that contributes to the community's cohesiveness and speaks to the usefulness of the facility for residents of the Village. | ð                 |                       |
| Completed ADA compliance renovations for the Center's entrances and public access areas to include better accessibility for front and back ramping.   | A                 |                       |
| Replaced and installed new countertops in the Center's kitchen.   |                   |                       |
| Continue to sponsor Community Oktoberfest, ice cream social, festive spaghetti dinner, and plant exchange.  | Y                 | <b>d</b>              |
| Replace wall sound panels; obtain consultation on floor cracks, replace boundary fence posts, and upgrade telecommunications equipment.   |                   | V                     |
| Implement marketing strategies to utilize no-charge announcements offered by various public media.  |                   | ¥                     |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$519

An increase of \$519 is associated with salary adjustments necessary to support the County's compensation program.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

◆ The Board of Supervisors made no adjustments to this agency.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no revisions to this fund since approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

The Board of Supervisors made no adjustments to this agency.

### **Key Performance Measures**

### **Objectives**

♦ To increase community center rentals by 5.3 percent, from 209 estimated in FY 2008 to 220 in FY 2009, in order to create a focal point in the community.

|  |                   | Prior Year Actu   | Current<br>Estimate        | Future<br>Estimate |         |

| Percent change in facility use to create a community focal point | (29.8%)           | (5.4%)            | 25.0% / 13.1%              | 5.0%               | 5.3%    |

<sup>(1)</sup> The methodology to calculate the cost per rental was revised to include operating costs less one time expenditures offset by rental revenue. Prior to the FY 2006 Actual, the calculation included interest revenue in the determination of the cost per rental. Small variations in revenue and/or operating expenses can have a significant impact on the cost per rental calculation.

#### **Performance Measurement Results**

Actual rentals increased as the center successfully engaged a regularly scheduled weekly rental throughout the fiscal year. Future year rentals are projected to increase as the Center anticipates the continuation of regularly scheduled weekly rentals, and the Center will continue its' advertising campaign to attract additional renters. The center's cost per rental has a net effect of zero due to minimal operating expenditures and increased rental revenues that off-set the total direct costs. The satisfaction rate for users of the Center has declined, but is still relatively positive. It should be noted that the decline is primarily due to an increase of neutral responses, indicating neither a positive response nor a negative response. The Burgundy Village Community Center Operations Board has indicated a need to revise the survey tool to allow for a more definitive rating system so as to provide clarity with regard to user satisfaction with the community center.

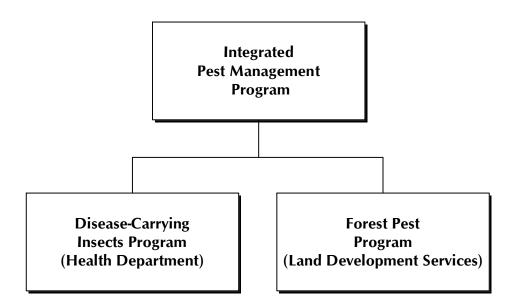

### **FUND STATEMENT**

<sup>&</sup>lt;sup>1</sup> The Burgundy Village Community Center maintains fund balances at adequate levels relative to projected operation and maintenance requirements. These costs change annually; therefore, funding is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

#### Mission

To suppress forest pest infestation and insect transmitted human disease throughout the County through surveillance, pest and insect control, and public information and education, so that zero percent of the County tree cover is defoliated and human morbidity and mortality are minimized while protecting the environment.

#### **Focus**

Fund 116, Integrated Pest Management Program, includes two separate programs – the Forest Pest Program managed by Land Development Services (Department of Public Works and Environmental Services) and the Disease-Carrying Insects Program managed by the Health Department. The Forest Pest Program currently focuses on preventing the spread of gypsy moth caterpillars, cankerworms, and emerald ash borers in the County. The Disease-Carrying Insects Program focuses on controlling the spread of the West Nile virus and Lyme disease, as the prevention of epidemics and the spread of disease is one of the core functions of the Health Department.

A countywide tax levy financially supports Fund 116 activities and this levy is subject to change annually due to funding requirements based on the level of infestation. Since FY 2001, the Board of Supervisors-approved tax rate has been \$0.001 per \$100 assessed value and has provided support for both the Forest Pest and the Disease-Carrying Insects Programs. In FY 2009, the same tax rate, along with

the existing fund balance, will continue to support both programs.

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- Coordinating inter-jurisdictional and multi-agency activities to maximize program results;
- Preventing and/or minimizing the occurrence of West Nile virus cases through surveillance, management, public education activities and interjurisdictional cooperation; and
- o Preventing defoliation from forest pests while minimizing any resulting environmental impacts.

#### **Forest Pest Program**

The Forest Pest Program is a cooperative program with the United States Department of Agriculture (USDA) Forest Service and the Virginia Department of Agriculture and Consumer Services (VDACS). VDACS maintains a list of insects that are eligible for control by this Program. Currently, three insects are listed – the gypsy moth, the cankerworm, and the emerald ash borer.

The gypsy moth program and the cankerworm program investigate tree damage due to both pests by conducting annual monitoring surveys. The surveys check egg masses and larval densities, have an approximate 20 foot radius, are conducted every 2,000 feet throughout the County and are Forest Service approved. Forested areas with high gypsy moth and cankerworm populations are identified for possible treatment the following spring. The proposed treatment plan and resource requirements for these pests are submitted annually to the Board of Supervisors for approval in February; the County may also be eligible for partial reimbursement for aerial treatment costs from the federal government assuming funding is available. Treatment is conducted in late April through early May before the gypsy moth and cankerworm can damage trees. Throughout the year, staff conducts public hearings, displays information at fairs and exhibits, and distributes brochures, educating Fairfax County communities about pest suppression methods and measures that they may take to alleviate potential forest pest population infestations.

The emergence of the emerald ash borer in Fairfax County was identified by VDACS in late 2003. In an effort to ensure that the insects did not spread any further, guidance was given by the USDA Animal Plant Health

Inspection Service (APHIS) regarding eradication. Eradication efforts took place in spring 2004 before the adult borers emerged. Those efforts were coordinated among Fairfax County Forest Pest program staff, APHIS, and VDACS; and, federal funding for eradication efforts was provided to the State. Forest Pest program staff continued to assist in eradication efforts through monitoring and surveying of the treated area; however, County financial assistance in these efforts is not expected to have a significant impact on Fund 116 due to the relatively low emerald ash borer populations found in monitoring years 2005, 2006 and 2007, and potential financial assistance from the Commonwealth of Virginia.

It is noted that the size of pest populations for gypsy moths and cankerworms is cyclical. Populations will be high for a period of years, and then drop for a period, only to rise again. For example, in the early to mid 1990s, annual treatment requirements for the gypsy moth fluctuated from 3,000 to 45,000 acres. Gypsy moth populations have moderated in recent years. Since FY 2001 treatment acreage has fluctuated between 5,500 acres and zero acres annually with the average being 2,100 acres. Based on field surveys conducted in the fall of 2007, staff estimates that 10,000 acres will require treatment in FY 2008.

Cankerworm populations have also moderated in recent years. On average, County staff annually treats Treatment has not been necessary since 2003 and none is anticipated for FY 2008. The proposed FY 2009 budget plan infestations. provides capacity to treat 2,500 acres of gypsy moths and 2,500

2.100 acres to combat the gypsy moth

acres for cankerworms, should the egg mass surveys conducted between August and January of that fiscal year indicate the need. Prior to treating, the confirmed number of acres requiring treatment will be presented to the Board of Supervisors for approval.

#### **Disease-Carrying Insects Program**

The West Nile virus (WNV) is transmitted from birds to humans through the bite of infected mosquitoes, and it continues to be a public health concern. The first sign of the virus in Fairfax County was in 2000 when a positive bird was detected, and subsequently it has been found in mosquitoes, horses and eventually in humans. To date there have been 21 human cases detected in the County (13 in FY 2003, three in FY 2004, one in FY 2005, zero in 2006, three in 2007 and one in 2008), with two fatalities, one occurring in FY 2003 and one in FY 2005.

In order to address the presence of emerging diseases, the County established a multi-agency mosquito surveillance and management committee and the Health Department secured contract services in 2002 to

carry out specialized activities in avian (bird) and mosquito surveillance and mosquito control. In FY 2003, the County hired a medical entomologist to further develop and guide the West Nile Virus (WNV) program. Currently the program consists of three major components: surveillance, control and outreach/education. Inter-jurisdictional cooperation is also a key component of the WNV program, allowing for coordination of surveillance and management activities on public lands and with surrounding jurisdictions.

Since the 2004 WNV season (May to October), avian and mosquito surveillance activities have been performed by County staff in lieu of contracted services. However, the contracted services have been retained for the more labor-intensive preemptive control activities that require a significant fleet of vehicles and specialized equipment. The County continues to proactively treat the storm water catch basins in an effort to reduce the population of *Culex* mosquitoes that transmit WNV. Catch basins are treated in several six week cycles from May through October. Treatment cycles totaling 115,000 catch basins are projected to ensure the aggressive suppression of the disease. Weather conditions are the principal factors that determine the number of catch basins that will be treated any given year. Inspection and larviciding activities are carried out in targeted areas of the County identified as significant mosquito breeding areas. A comprehensive larval surveillance program was carried out in FY 2005 and FY 2006 to evaluate the actual extent of breeding sites in the County. The cost per capita reflects the combined funding of West Nile virus activities provided under the Health Department (General Fund) and Fund 116, Integrated Pest Management Program.

As WNV is an emerging disease in the County, the response to the virus is relatively new and will be adjusted as time progresses. This has already been demonstrated by the adjustment of the timing of catch basin treatment cycles and larval surveillance program. Program activities will continue to be modified in order to better conform to new information and data as it becomes available, allowing the WNV program to have a more focused approach to managing WNV in the County.

The outreach and education component of the WNV program is aimed at increasing residents' awareness of actions that can be taken for self protection and reduction of potential mosquito breeding areas on private property. The program continues to produce and distribute outreach material in English, Chinese, Farsi, Korean, Spanish, Urdu and Vietnamese. In FY 2007, the program produced and printed a third edition 18-month calendar with complementary captions, facts, figures, important dates, and helpful reminders of things for readers to do around the home to manage mosquitoes and ticks and protect residents from mosquito and tick-borne diseases. General facts, local figures and brief descriptions of the County's efforts were included to educate the public about basic mosquito biology and inform them specifically about mosquitoes and West Nile virus in Fairfax County. Early in FY 2008 the program updated and printed four new brochures, replacing some of the old ones. All of the newly produced material is also posted on the Web.

A pilot tick surveillance program was added to the Disease Carrying Insects Program in 2005 and has continued on a yearly basis. The program involves the collection and identification of tick species in the County to determine their distribution and infection rate with Lyme disease, as well as an outreach and education component aimed at increasing public awareness of actions that can be taken for self protection. Outreach and education of ticks and tick-borne diseases was enhanced in FY 2007.

|--|-------------------|-----------------------|
| The Health Department will continue to closely monitor a comprehensive inhouse mosquito surveillance program, serving as the first indicator for the presence of the West Nile virus, its distribution throughout the County, the mosquito species involved in transmission, as well as the magnitude of infection rate of these mosquitoes. |                   | <b>A</b>              |

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| In cooperation with the Virginia Department of Health, a tick surveillance program will be continued to understand the magnitude of tick-borne disease in the County and define the areas of greatest risk. The program began as a pilot in FY 2005 and involves the identification and distribution of tick species in the County, and seeks to improve the level of community understanding for how Lyme disease is transmitted to residents of the County.   | ð                 | Ø                     |
| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to enhance the protection of forest cover in residential, public and urban environments of Fairfax County by continuing to eliminate dead trees and monitoring pests that contribute to forest infestation and safety. A healthy forest complex, in new and old neighborhoods, is critical in maintaining a quality of life that Fairfax County residents desire.  | ð                 | ¥                     |
| Practicing Environmental Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
| Continue to utilize Integrated Pest Management (IPM) techniques for gypsy moth, emerald ash borer, and cankerworm control. IPM ensures that pesticide use is minimized and that residents are educated about alternative control options. Forest Pest Program staff monitors pest populations and determines the level of aerial pesticide application necessary, eliminating the need for individual homeowners to spray. The impact is that less spray material is delivered to an area because it is done in a controlled manner.  | ð                 | ¥                     |
| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
| Continue to update and distribute an 18-month calendar that has proved successful as an outreach tool to educate the public about basic mosquito biology and provide specific information about mosquitoes and West Nile virus in the County.   |                   | ¥                     |
| Continue to enhance outreach campaign by conducting public meetings, promoting educational activities, and distributing materials on the Forest Pest and Disease Carrying Insects (DCI) programs. Public meetings help ensure that residents are aware of County treatment activities and that they have ample opportunity to provide input into the planning process. Activities involve interactive web pages, fair exhibits, and meetings tailored to citizens' informational needs. Educational materials for Forest Pest and DCI will be distributed in English and Spanish and will be disseminated through news releases, interviews, mailings, and public service announcements via several media outlets. In addition, DCI materials will be distributed in Chinese, Farsi, Korean, Urdu and Vietnamese. | ð                 | ¥                     |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$34,034

An increase of \$34,034 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Carryover Adjustments

(\$251,950)

A decrease of \$251,950 is due to the carryover of \$245,019 for one-time Operating Expenses and \$6,931 for Capital Equipment as part of the FY 2007 Carryover Review.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$8,110

An increase of \$8,110 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Charges for Personnel Services

\$200,000

An increase of \$200,000 in Personnel Services is included to allow the Integrated Pest Management Program to be charged for positions in Health Department general fund budget that work directly on the disease-carrying insects program. A commensurate reduction is shown in Agency 71, Health Department.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$251,950

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved encumbered funding of \$251,950 in Operating Expenses and Capital Equipment for arborvirus prevention and program supplies which had been ordered but not yet received.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this agency.

## **Key Performance Measures**

#### **Objectives**

- ♦ To control the infestation of gypsy moths, cankerworms, and emerald ash borers through detection and abatement programs so that no more than 1 percent of the County tree cover is defoliated in a given year.
- ♦ To suppress the transmission of West Nile virus from infected mosquitoes to the human population, holding the number of human infections to no more than three.

| Confirmed human cases of West<br>Nile virus in Fairfax County,<br>Fairfax City and Falls Church City<br>as reported by VDH (2) | 1                  | 0                 | 3 / 1                      | 3                   | 3                  |

<sup>(1)</sup> Cost per capita in FY 2004, FY 2005, and FY 2006 was calculated by dividing the total WNV program budget by the service area population. Beginning in FY 2007, Cost per capita will be calculated based on estimated expenditures divided by the service area population.

<sup>(2)</sup> VDH = Virginia Department of Health

# Fund 116 Integrated Pest Management Program

#### **Performance Management Results**

**Forest Pest Program:** Staff surveys for caterpillars and egg masses conducted in mid-summer and early fall of 2006, indicated that gypsy moth populations were increasing and some aerial treatment was necessary. To adequately address this increase, aerial treatment for the gypsy moth was 5000 acres in the spring of FY 2007. Surveys for the cankerworm completed this past winter indicated that no treatment was necessary during the spring. Defoliation surveys for both insects conducted in the summer of 2007 indicated that there were 89 acres of defoliation in Fairfax County during this timeframe.

<u>Disease-Carrying Insects (DCI) Program</u>: The goal of the DCI Program in FY 2009 is to continue to hold the number of human cases of West Nile virus (WNV) as reported by the Virginia Department of Health to no more than three cases.

WNV program costs are based on the number and size of treatment rounds in a given year, as well as education, outreach, and surveillance activities carried out in-house. Treatment rounds even though dependent on weather conditions remain relatively constant throughout the years, maintaining a relatively stable program cost. The total DCI program cost per capita was \$1.66 in FY 2007. This was higher than the target of \$1.10 per capita. The higher than anticipated costs were due to the need for aggressive larvicide and adulticide treatments in the Huntington area following the flood of June 2006 and increased surveillance and education activities in response to increased concern over Lyme disease. Cost per capita in future years may increase depending on environmental factors, insecticide treatments resulting from larval inspections and surveillance activities, as well as follow-up studies for the evaluation of the outreach program.

The pilot tick surveillance program initiated in late FY 2005 was expanded in FY 2007 in cooperation with the Virginia Department of Health. The objective of the pilot program is to understand the magnitude of tickborne disease in the County and define the regions of greatest risk. The increased testing of ticks as the program expands is also expected to impact the cost per capita in future years.

<sup>&</sup>lt;sup>1</sup> Due to the cyclical nature of pest populations, the treatment requirements supported by this fund may fluctuate from year to year. Therefore, Ending Balances may also fluctuate depending on the level of treatment necessary to suppress gypsy moth, cankerworm, emerald ash borer or WNV-carrying mosquito populations in a given year.

#### Mission

To provide a pool of funds to be awarded on a competitive basis for human service programs offered by community-based agencies. The Department of Systems Management for Human Services (DSMHS) and the Department of Administration for Human Services (DAHS) have oversight responsibility for this funding pool.

#### **Focus**

The formation of the Consolidated Community Funding Pool (CCFP) began in FY 1997, when the Board of Supervisors' approved the development and the implementation of a competitive funding process to fund services best provided by community-based agencies and organizations. These organizations were formerly funded through a contribution or through a contract with an individual County agency. In accordance with the Board's direction, this process was operational in FY 1998 and was guided by the following goals:

- Provide support for services that are an integral part of the County's vision and strategic plan for human services;
- Serve as a catalyst to community-based agencies, both large and small, to provide services and leverage resources;
- ♦ Strengthen the community's capacity to provide human services to individuals and families in need through effective and efficient use of resources; and
- Help build public/private partnerships and improve coordination, especially within the human services regions of the County.

Fund 118 was established in FY 1998 to provide a budget mechanism for this funding process. In FY 2000, CDBG funding for community-based organizations was incorporated to form the CCFP.

The CCFP process reflects significant strides to improve services to County residents and to usher in a new era of strengthened relations between the County and community nonprofit and faith-based organizations. First, all programs funded through this process are required to develop and track program outcome measures. To aid agencies in meeting this requirement, the County has provided several performance measurement training opportunities for staff and volunteers from all interested community-based agencies. Second, the criteria used to evaluate the proposals explicitly encourage agencies to leverage County funding through strategies such as cash match from other non-County sources, in-kind services from volunteers or contributions from the business community and others. Third, the criteria encourage agencies to develop approaches which build community capacity and involve residents and the individuals and families in the neighborhoods being served. Fourth, the County has provided a nonprofit organizational development initiative to strengthen current and potential CCFP applicant organizations.

Continued efforts have been made to streamline the funding process for both County and community-based agencies. FY 2009 will be the tenth year of a consolidated process for setting priorities and awarding funds from both the CCFP and Community Development Block Grant (CDBG) processes.

FY 2009 initiatives will include:

- Continue utilization of the two-year contract awards cycle for agencies receiving funds through the CCFP.
- Provide ongoing technical assistance and contract management oversight and support to nonprofit recipients of CCFP funds.
- Promote approaches which build community capacity and leadership and the involvement of residents and, where feasible, the population being served in the targeted communities.

• Review documented service needs and demographic trends and continue to gather relevant information from public meetings, reports and studies, and data from County and nonprofit human service agencies.

The Board of Supervisors approved the Consolidated Community Funding Advisory Committee's (CCFAC) FY 2009/FY 2010 recommended priorities on July 9, 2007. A major responsibility of the CCFAC is to recommend funding priorities for the CCFP. The CCFAC maintains an ongoing process for the review and analysis of both data and community input that provides the information on which funding priority allocations are based. Community input processes include a variety of citizen and provider input activities conducted throughout the year around the County. Subsequent to the receipt and review of public comments, the CCFAC finalizes the funding priorities and forwards them to the Board of Supervisors for action.

FY 2009 is the first year of a new two-year funding cycle. The CCFAC has organized the FY 2009/FY 2010 funding priorities according to four areas, and adopted corresponding goal statements. The CCFAC also recommended, and the Board approved, target percentage ranges for each priority area for FY 2009/FY 2010, which are intended to be used as guidelines for applicants and for the citizen Selection Advisory Committee.

| Priority Area                                   | Goal   | Target   |
|---|--|----------|
| Prevention                                      | Families and individuals remain independent and have the tools and resources to prevent dependence.                                    | 15 - 25% |
| Crisis Intervention                             | Individuals and families in crisis receive sufficient help to move quickly back to self-sufficiency.                                   | 5 - 15%  |
| Self-Sufficiency                                | Individuals and families attain self-sufficiency.  | 55 - 65% |
| Ongoing Assistance<br>for Independent<br>Living | People who have continuing and long-term needs achieve or maintain healthy, safe and independent lives to the maximum extent feasible. | 5 - 15%  |

A Request for Proposal (RFP) was issued in the fall of 2007, utilizing these funding criteria as approved by the Board of Supervisors. Funds were awarded for a two-year period on a competitive basis after a citizen Selection Advisory Committee reviewed responses from all eligible community organizations to the RFP. The citizen Selection Advisory Committee recommended two-year funding awards to the Board of Supervisors on April 28, 2008.

The Department of Systems Management for Human Services and the Department of Administration for Human Services have administrative oversight responsibility for the CCFP. Together with the Fairfax County Department of Housing and Community Development, the Department of Family Services and the Department of Community and Recreation Services, they are responsible for planning, implementation and oversight of all facets of the CCFP process.

Prior to FY 2000, the CCFP grant process and the CDBG process were similar activities that operated under different time frames, with separate application requirements and different evaluation criteria. With the December 1997 approval of the Board of Supervisors, these two processes were merged under the title of Consolidated Community Funding Pool. The CCFP is funded from federal CDBG funds for Targeted Public Services and Affordable Housing; federal Community Services Block Grant (CSBG) funds; and local Fairfax County General Funds. Although the process for setting priorities and awarding funds has been consolidated, Fund 118 contains only the local Fairfax County General Fund and CSBG portion of the funds. The federal CDBG funds remain in Fund 142, Community Development Block Grant, for grant accounting purposes. It should also be noted that the CSBG funding is not detailed separately from the General Fund Transfer. In FY 2009, these funding sources will provide \$11,008,502 to community organizations. A breakdown of this funding is shown in the following table:

| Funding Source                                    | FY 2009 Adopted Budget |
|---|------------------------|
| General Fund Transfer                             |                        |
| (includes estimated CSBG revenue to General Fund) | \$8,970,687            |
| CDBG  |                        |
| (shown in Fund 142, CDBG) <sup>1</sup>            | \$2,037,815            |
| Total CCFP  | \$11,008,502           |

<sup>&</sup>lt;sup>1</sup> The Fund 142, CDBG award is currently an estimate and allocation of funding will be made as part of the FY 2008 Carryover Review.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Performance and Leverage Requirements

\$249,918

An increase of \$249,918, or 3 percent, in the General Fund Transfer is associated with performance and leverage requirements for nonprofit organizations, and provides additional funding to community organizations to meet human service needs in the County.

#### **♦** Carryover and Other Adjustments

(\$241,218)

A decrease of \$241,218 in Operating Expenses is associated with the carryover of \$239,803 to complete and settle all FY 2007 Consolidated Community Funding Pool (CCFP) contracts for 16 projects. An additional decrease of \$1,415 reflects a one-time appropriation of remaining fund balance in FY 2008.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$239,803

As part of the *FY 2007 Carryover Review*, \$239,803 was added due to encumbered carryover. Encumbrances are required to be carried over to complete and settle all FY 2007 Consolidated Community Funding Pool (CCFP) contracts for 16 projects.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Projected Allocation**

The <u>FY 2009 Adopted Budget Plan</u> shows the funding allocations for Fund 118, Consolidated Community Funding Pool and the funding distribution for the Community Development Block Grant (CDBG). The following chart summarizes the projected FY 2009 funding awards (the first year of a new two-year cycle) from the Consolidated Community Pool as recommended by the CCFP Citizen Selection Advisory Committee and as approved by the Board of Supervisors on April 28, 2008. It should be noted that Fund 142, CDBG, amounts are based on the federal FY 2008 CDBG allocations from the United States Department of Housing and Urban Development (HUD), and reflect a reduction of \$35,023 from the estimated CDBG funding amount shown in the <u>FY 2009 Advertised Budget Plan</u>. The CDBG funding was approved by the Board of Supervisors as part of the Consolidated Plan One-Year Action Plan for FY 2009 pending approval of the final HUD award.

| Wesley Housing<br>Development<br>Corporation      | Building for the<br>Future           | Self sufficiency and basic needs through computer skills training.  | \$67,644          |                   |
| Western Fairfax<br>Christian Ministries<br>(WFCM) | Emergency Services                   | Emergency financial assistance, food, transportation, clothing and furnishings for low income families to prevent homelessness and hunger.  | \$75,000          |                   |
|   |                                      | Total FY 2009 Award (117 programs) <sup>1</sup>   | \$8,970,687       | \$2,002,792       |

¹It should be noted that the County Executive is recommending FY 2009 funding in the amount of \$8,970,687 for the General Fund Transfer to Fund 118, Consolidated Community Funding Pool. In addition, it should be noted that the County Executive's proposed budget included an estimate of CDBG funding of \$2,037,815. Based on information received from the United States Department of Housing and Urban Development (HUD), the anticipated FY 2009 CDBG allocation will be \$2,002,792. Adjustments to reflect this allocation level will be made as part of the *FY 2008 Carryover Review*, however, the above chart reflects the actual allocation to be received from HUD with the anticipated allocations by project.

#### **Contributory Overview**

Fund 119, Contributory Fund, was established in FY 2001 to reflect General Fund support for agencies or organizations that receive County contributions. Funding for these organizations was previously included in the General Fund under Agency 88, Contributory Agencies. However, because the expenditures made to these organizations are not in support of direct County operations, the use of direct expenditures from the General Fund distorts the cost of County operations. Therefore, a separate fund was established to show the General Fund support of these organizations in the form of a transfer, rather than as a direct expenditure. FY 2009 funding totals \$13,553,053 and reflects a decrease of \$55,085 or 0.4 percent from the FY 2008 Revised Budget Plan funding level of \$13,608,138. The required Transfer In from the General Fund is \$13,553,053. Individual contributions are described in detail on the following pages.

Contributory funding is in compliance with the Board of Supervisors' policy to make General Fund appropriations of specified amounts to various nonsectarian, nonprofit or quasi-governmental entities for the purpose of promoting the general health and welfare of the community. Contributory agency positions are not part of the County merit system and funding for all contributory agencies is reviewed annually. Each request is reviewed on the basis of the benefit to Fairfax County citizens, contractual or regional commitments, the responsibilities of state agencies, and a prior County commitment of funding. When appropriate, a nonprofit agency that provides specific contractual partnership services may be referred to Fund 118, Consolidated Community Funding Pool, for funding consideration by the Consolidated Community Funding Advisory Committee.

Since public funds are being appropriated, disbursements provided to designated agencies are currently made contingent upon submission and review of quarterly, semiannual and/or annual reports. This oversight activity includes reporting requirements prescribed by the County Executive, requiring designated agencies to accurately describe the level and quality of services provided to County residents, as well as the overall financial strength and stability of the County's contributory agencies. Various County agencies may be tasked with oversight of program reporting requirements. Contributory agencies that do not file reports as requested, may, at the discretion of the County Executive, have payments withheld until appropriate reports are filed and reviewed.

It should be noted that population is used by several of the organizations as the basis for their requests for FY 2009 funding from Fairfax County. The population figures cited by the individual organizations for Fairfax County may differ somewhat from one another due to the particular projection service utilized.

The chart on the following pages summarizes the FY 2009 funding for the various contributory organizations.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

♦ The Legislative-Executive Functions/Central Service Agencies program area increases \$46,980 or 2.4 percent for several organizations based on per capita requirements and adjusted County population figures for which population is cited and used in the calculation. This increase is primarily attributable to the Metropolitan Washington Council of Governments (MWCOG) contribution, which increases \$26,092 or 3.0 percent due to an increase in the FY 2009 per capita rate; an increase of \$19,599 or 9.4 percent associated with a dues increase for the Virginia Association of Counties (VACo) based on a higher per capita rate; an increase of \$1,936 or 1.1 percent for the Northern Virginia Transportation Commission (NVTC) based on the share of revenue to be received by NVTC on behalf of the County; and an increase of \$1,013 or 5.0 percent for a projected dues increase for the National Association of Counties (NACo). These increases are partially offset by a decrease of \$1,660 or 0.3 percent for the Northern Virginia Regional Commission (NVRC), based on a County population estimate which is slightly reduced from the previous year's estimate. It should be noted that population, as determined by the County's own Urban Development Information System (UDIS), maintained by the Fairfax County Department of Systems Management for Human Services, may differ from other particular projection services, e.g., Weldon

Cooper Center for Public Service, used by various contributory agencies as the basis for their contributions.

- ♦ The Public Safety program area decreases \$136,770 or 65.3 percent due to a reduction in the County's share for the Northern Virginia Regional Identification System (NOVARIS) as a result of decreased lease and maintenance requirements based on obligations that have been met. Fairfax County's FY 2009 contribution to NOVARIS totals \$22,551 and consists of \$20,526, for the County's annual share of costs associated with operations and upgrades of NOVARIS and \$2,025 in funding for lease agreements and other costs associated with equipment that is specific to Fairfax County operations.
- ♦ The Health and Welfare program area increases \$177,189 or 9.6 percent due to an increase for the Northern Virginia Healthcare Center/Birmingham Green Adult Care Residence, known collectively as Birmingham Green. The increase for Birmingham Green is mainly attributable to budgeting for full-year costs associated with the completed construction of the new expanded assisted living facility, which opened in April 2008, as well as per diem increases of 2.4 percent in the subsidy rate for the Adult Care Residence, from \$62.50 per day to \$64.00 per day, and 8.3 percent for the Nursing Facility, from \$24.00 per day to \$26.00 per day based on higher labor costs, as well as increases in food, lab and therapy services, medical supplies and utility costs.
- ♦ The Parks, Recreation and Cultural program area decreases \$73,910 or 1.5 percent due to a decrease of \$100,000 for the Pentagon Memorial Fund, which was provided by the Board of Supervisors as a one-time contribution for the organization in FY 2008. The decrease is partially offset by increases of \$13,687 or 4.9 percent for the Fairfax Symphony Orchestra, which has historically received a Personnel Services adjustment; \$7,997 or 0.4 percent for the Northern Virginia Regional Park Authority to support the County's annual per capita contribution; and \$4,406 or 2.0 percent for the Fairfax County Arts Council, which also receives a Personnel Services adjustment.
- The Community Development program area decreases \$68,574 or 1.5 percent due to a decrease of \$112,371 or 3.8 percent for the Convention and Visitors Corporation based on the reduction of \$248,256 funded as part of the FY 2008 Third Quarter Review for an annual adjustment necessary to reconcile actual Transient Occupancy Tax receipts resulting from the additional 2 percent Transient Occupancy Tax with the funding that is provided to the Convention and Visitors Corporation, partially offset by an increase of \$135,885 to Convention and Visitors Corporation based on projected transient occupancy tax revenue for FY 2009; as well as a decrease of \$1,533 or 1.6 percent for the Northern Virginia Community College primarily due to shifts in population among the contributing jurisdictions. In addition, partially offsetting these decreases is an increase of \$26,196 or 5.6 percent for the Northern Virginia Soil and Water Conservation District due to a Personnel Services adjustment; an increase of \$6,778 or 6.0 percent for the Occoquan Watershed Monitoring Program based on Fairfax County's share of the cost; an increase of \$6,610 or 2.4 percent for the Northern Virginia Conservation Trust based on increases to the Consumer Price Index (CPI); an increase of \$4,761 or 2.4 percent for the Southeast Fairfax Development Corporation due to CPI increases; an increase of \$969 or 3.4 percent for Celebrate Fairfax Inc. based on the collection and disposal of waste for the annual Fairfax Fair and an increase of \$16 or 0.1 percent for the OpenDoor Housing Funding - formerly known as the Washington Area Housing Trust Fund - to support the County's annual per capita contribution.
- ♦ The Nondepartmental Program area funding includes \$92,657 for the Fairfax Public Law Library, which is consistent with the FY 2008 contribution.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$100,000

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved a one-time expenditure increase of \$100,000 for the County's support of a Pentagon Memorial in honor of the victims of September 11, 2001.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Fairfax Convention and Visitors Corporation

\$248,256

As part of the FY 2008 Third Quarter Review, the General Fund transfer to Fund 119, Contributory Fund was increased by \$248,256 for the Fairfax County Convention and Visitors Corporation due to an annual adjustment necessary to reconcile actual Transient Occupancy Tax receipts resulting from the additional 2 percent Transient Occupancy Tax with the funding that is provided to the Convention and Visitors Corporation based on FY 2007 and prior year actual Transient and Occupancy Tax revenues received by the County. It should be noted that the additional Transient Occupancy Tax revenue received by the County that is necessitating this increase was reflected in the FY 2007 actual revenues.

#### **♦** Tree Canopy Organizations

\$108,000

As part of the *FY 2008 Third Quarter Review*, approved funding of \$108,000 was transferred from Fund 303, County Construction to Fund 119, Contributory Fund to reflect the designation of three organizations – Fairfax ReLeaf, Earth Sangha and the Center for Chesapeake Communities – as contributory agencies by the Board of Supervisors on September 24, 2007. Fairfax ReLeaf was provided funding of \$52,000 to increase its tree planting capacity; the Center for Chesapeake Communities was provided funding of \$36,000 to develop a tree canopy tracking mechanism and Earth Sangha was provided \$20,000 to collect native plant seeds and grow them in its native plant nursery in Franconia Park.

#### **FY 2009 Adopted Budget Plan Contributions**

#### **Legislative-Executive Functions/Central Service Agencies:**

The Dulles Area Transportation Association (DATA) is a public-private, nonprofit, 501(c)(3) tax exempt transportation management association dedicated to improving transportation in a 150-square mile area around Dulles Airport including the Route 28, Route 50, Route 7 and Dulles Corridor (the Greater Dulles Area). Its membership is comprised of elected officials of the Commonwealth of Virginia, Fairfax County, Loudoun County, and the towns of Herndon and Leesburg; senior executives of the Metropolitan Washington Area Airports (MWAA) and the Washington Metropolitan Area Transit Authority (WMATA); and other employer firms, property owners and business professionals, with membership open to all. The Board of Supervisors approved the first contribution for DATA in the FY 1993 budget.

DATA currently has over 100 members; 50 are dues-paying individuals corporations and businesses, 10 are dues-paying governmental or quasi-governmental organizations, and the remainder are non-paying local representatives to the General Assembly, representatives of citizen associations, and affiliate members (e.g., Fairfax County Chamber of Commerce), none of whom are obligated to pay dues but allow similar memberships in their organizations.

DATA provides a neutral public forum for identifying transportation needs within the Greater Dulles Area, as well as generating solutions to meet them. In Calendar Year 2007, DATA planned and conducted transportation seminars in support of efforts to improve transportation in the greater Dulles area in conjunction with regional members of the Commonwealth Transportation Board and other local governing bodies. During Calendar Year 2008, DATA will continue several activities, including conducting transit-oriented development seminars to improve understanding of the concept by citizens and businesses in the region. Other programs will emphasize congestion management and mobility approaches including heavy and light rail, bus rapid transit, and highway improvements and the effects of green house gases and climate change will be explored. DATA staff will also work with the County's Department of Transportation to execute targeted projects aimed at raising employer and citizen awareness of the challenges and possible solutions to traffic congestion in the region.

An amount of \$9,000 is funded for DATA for FY 2009, which is consistent with the FY 2008 Revised Budget Plan.

The Metropolitan Washington Council of Governments (COG) is the regional planning organization of the Washington, D.C. area's local governments. COG works toward solutions to regional problems such as transportation, affordable housing, emergency preparedness and environmental issues. Currently, 20 area jurisdictions are members, including Fairfax County. Funding for COG is provided through federal and state grants, contributed services, special contributions (fees for services) and local government contributions.

Annual COG contributions are based on the per capita rate multiplied by the population estimates provided by member jurisdictions. The COG Board of Directors' Finance Committee endorsed a recommendation by the Executive Director to increase the FY 2009 per capita rate from \$0.63977 to \$0.65721 for member

contributions. This is an increase of 2.7 percent, or half of the 5.5 percent increase in the annual CPI-U for the Washington-Baltimore-DC-MD-VA-WV area for calendar year 2006.

The FY 2009 Administrative Contribution totals \$720,514 and is an increase of \$19,119 or 2.7 percent over the FY 2008 Revised Budget Plan amount of \$701,395. COG calculates each jurisdiction's share based on the region's estimated population. The total FY 2009 County contribution to COG is \$1,159,545. In addition to the Administrative Contribution of \$720,514 and Special Contributions of \$173,795 (\$138,546 for the Regional Environmental Fund and \$35,249 for Water Resources), for a total Fund 119 contribution of \$894,309, an amount of \$24,950 is budgeted in Fund 114, I-95 Refuse Disposal, and \$240,286 (\$216,533 for Water Resource Planning and \$23,753 for Blue Plains Users) is budgeted in Fund 401, Sewer Operation Maintenance Fund - Wastewater Management.

| Fairfax County                   | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|----------------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| National Association of Counties | \$19,054          | \$20,259                          | \$20,259                          | \$21,272                             | \$21,272                          |

The National Association of Counties (NACo) is an organization that represents and informs participating governments of current developments and policies that affect services and operations. NACo acts as a liaison with other levels of government, works to improve public understanding of counties, serves as a national advocate for counties and provides them with resources to find innovative methods to meet the challenges they face. NACo is involved in a number of special projects that deal with issues such as homeland security, energy, environment, housing and land use, among others.

An amount of \$21,272 is included for FY 2009 dues, which is an increase of \$1,013 or 5.0 percent over the FY 2008 Revised Budget Plan.

| Northern Virginia Regional Commission | \$552,769         | \$562,739                         | \$562,739                         | \$561,079                            | \$561,079                         |

The Northern Virginia Regional Commission (NVRC) is a regional council of local governments in Northern Virginia created in 1969 pursuant to the Virginia Area Development Act and a regionally-executed charter. In 1995, the Virginia Area Development Act was amended and renamed the Regional Cooperation Act. It sets forth the purpose of planning district commissions as follows: "...to encourage and facilitate local government cooperation in addressing, on a regional basis, problems of greater than local significance. The cooperation resulting from this Act is intended to assist local governments in meeting their own problems by enhancing their abilities to recognize and analyze regional opportunities and take account of regional influences in planning and implementing their public policies and services."

NVRC's policies and programs are established by a 25-member Board of Commissioners composed entirely of elected council and board members of NVRC's 14 member localities. The work of the Commission is supported in part by contributions from the member local governments and by appropriations from the Virginia General Assembly.

NVRC serves as a neutral forum for decision-making; provides member governments with the information and analyses necessary to make sound local and regionally beneficial decisions; provides professional and technical services to enable member governments to plan for their future individually and as a region; and carries out programs and functions at the request of member governments to supplement their own capacities or to achieve economies of scale through regional approaches. NVRC's services are divided into regional policy programs such as the legislative program; demographics and information services; environmental and land use; and human services programs.

The total FY 2009 Fairfax County contribution of \$561,079 is a decrease of \$1,660 or 0.3 percent from the FY 2008 Revised Budget Plan of \$562,739. This amount provides for the annual contribution of \$497,304, as well as special contributions of \$45,961 to support the Occoquan Watershed Management Program and \$17,814 for the Four-Mile Run Watershed Management Program. Consistent with the previous two fiscal years, NVRC is holding the per capita rate at \$0.50 for FY 2009. As a result, the decrease is attributable to a slight population decline based on the population estimates generated by the Weldon Cooper Center for Public Service. An additional \$8,085 for the Regional Waste Reduction Program is budgeted in Fund 114, I-95 Refuse Disposal.

The Northern Virginia Transportation Commission (NVTC) is the executive agency of the Northern Virginia Transportation District. It was established by state statute as a political subdivision of the Commonwealth of Virginia. The principal business activity of the Commission is to manage and control the functions, affairs and property of the Northern Virginia Transportation District, as defined in the Transportation Act of 1964. It represents its constituent jurisdictions (Alexandria, Falls Church, Fairfax City, Arlington County, Fairfax County and Loudoun County) on the Metro Board.

Each NVTC jurisdiction is assigned a percentage of the local portion of NVTC's administrative budget based on the jurisdiction's share of state aid received from NVTC in the previous year. This is determined by the application of a subsidy allocation model that projects the total amount of state aid received by the region and local jurisdictions. This model contains seven formulas including such variables as Metro construction costs, Metrorail service costs, ridership volume and population. These calculated percentages for each jurisdiction are applied to NVTC's remaining administrative budget after other revenue sources such as state aid, interest earned and project chargebacks have been applied.

The NVTC projected expenditure base for FY 2009 is \$1,221,880, an increase of \$23,530 or 2.0 percent over the FY 2008 Budget of \$1,198,350. Fairfax County's contribution will increase based on its share of revenue received by NVTC on behalf of the County. The total FY 2009 Fairfax County funding for this agency is \$177,574, an increase of \$1,936 or 1.1 percent over the FY 2008 Revised Budget Plan of \$175,638.

| Public Technology Incorporated | \$20,000          | \$20,000                          | \$20,000                          | \$20,000                             | \$20,000                          |

Public Technology Incorporated (PTI) is the nonprofit, membership-based technology research, development and commercialization organization for all cities and counties in the United States. As the only technology organization created by and for cities and counties, PTI works with a core network of leading local government officials – the PTI membership – to identify opportunities for technology research, share best practices, offer consultancies and pilot demonstrations, promote technology development initiatives, and develop educational programming. Officials from PTI's member governments participate in councils and forums that address specific technology areas. Through a corporate partner program with leading technology companies and partnerships with federal agencies and other governmental organizations, PTI shares information about these activities, as well as the expertise of its members with the broader audience of thousands of cities and counties across the United States.

An amount of \$20,000 is included for County membership in PTI based on population, which is consistent with the amount in the FY 2008 Revised Budget Plan.

| Virginia Association of Counties | \$204,420         | \$208,500                         | \$208,500                         | \$228,099                            | \$228,099                         |

The Virginia Association of Counties (VACo) is an organization dedicated to improving county government in the Commonwealth of Virginia. To accomplish this goal, the association represents Virginia counties regarding state legislation that would have an impact on them. The association also produces conferences, publications and programs designed to improve county government and to keep county officials informed about recent developments in the state, as well as across the nation.

The FY 2009 Fairfax County contribution to VACo is \$228,099, an increase of \$19,599 or 9.4 percent over the FY 2008 Revised Budget Plan of \$208,500 due to an increase in per capita rate from \$0.20 to \$0.22 for member contributions for FY 2009 based on FY 2009 budget approval by VACo's governing board.

| Alliance for Innovation | \$6,000           | \$6,000                           | \$6,000                           | \$6,000                              | \$6,000                           |

The Alliance for Innovation – formerly known as the Virginia Innovation Group – is part of the Innovation Groups (IG), a network of local government professionals seeking innovation and governmental excellence. IG, now in its 29<sup>th</sup> year of service, provides a national forum for those seeking to innovate and learn new approaches to providing public service. IG's purpose is to assist local governments to build and sustain the capacity to be innovative. It provides an 'organizational' membership, meaning that everyone at every level in member jurisdictions can utilize its services. These include an online document library, research inquiry service, national and regional networking opportunities, training and other learning events, two annual conferences, research and publications. Recently IG, the International City/County Management Association and Arizona State University founded the Alliance for Innovation to assist local governments across the country by identifying the major forces that will drive local government in the future; responding to those forces by identifying and accelerating innovations; identifying and documenting best practices; and reducing the time from when an innovation is identified to when it becomes practice.

During the development of the FY 1999 budget, \$5,000 was first included for membership dues to the Alliance for Innovation for Fairfax County's share of costs based on population category. For FY 2009, these membership dues are \$6,000, which is consistent with the FY 2008 Revised Budget Plan amount.

| Virginia Institute of Government | \$20,000          | \$20,000                          | \$20,000                          | \$20,000                             | \$20,000                          |

The Virginia Institute of Government was created by an act of the General Assembly in 1994, and is a nonprofit organization funded half by the Commonwealth of Virginia and half by local government membership contributions. It is part of the University of Virginia and its Weldon Cooper Center for Public Service. Local governments that join the Institute make annual contributions based on membership. While the Institute began with 60 members, it now has a roster of 225 Virginia member localities. The Institute operates with an advisory board of 18 members, each appointed for a single two-year term. It is made up of an equal number of members from the state's legislative and executive branches, as well as local governments.

The Institute is an ongoing informal gathering of organizational development staff from Virginia localities established to exchange ideas and strategies for developing high-performance governments and to help the Institute identify areas of needed assistance. Work products of the Virginia Institute of Government encompass four main areas: training, technical assistance, electronic information services, and select research projects. The Institute also provides staff support to certain state legislative and study committees.

The total Fairfax County FY 2009 funding for this agency is \$20,000, which is consistent with the FY 2008 Revised Budget Plan.

The Commonwealth of Virginia, Fairfax County and the private sector support the Washington Airports Task Force. Its purpose is to develop markets, as well as promote domestic and foreign usage of the Metropolitan Washington Airports. It has yielded hundreds of millions of dollars in economic return for the Washington region and the Commonwealth of Virginia, including investment, tourism income, trade opportunities and jobs. Both Dulles and National Airports continue their significant impact on Fairfax County's economy. The distribution of local direct tax impact from Dulles and National for Fairfax County in 2005 was in excess of \$20 million.

Total Fairfax County funding included for this agency for FY 2009 is \$40,500, which is consistent with the FY 2008 Revised Budget Plan. Fairfax County's FY 2009 contribution will be used to maintain a comprehensive, proactive marketing and sales program to promote the region's air service opportunities to the world's airlines and other air service providers; encourage improvement of airport access; ensure adequate Air Traffic Control, Homeland Security and Customs support services from the federal government; and support the Metropolitan Washington Airports Authority's Capital Development.

| NOVARIS        | \$403,568         | \$159,321                         | \$159,321                         | \$22,551                             | \$22,551                          |

The Northern Virginia Regional Identification System (NOVARIS) utilizes state-of-the-art computer equipment to identify criminals by categorizing and matching fingerprints. It enables police to match a fingerprint found at the scene of a crime with any individual who has been arrested in the Washington metropolitan area by comparing the print or partial print with all prints in the database. A new Automated Fingerprint Identification System (AFIS) was installed in FY 2007 that has enhanced technologies, including palm print and biometric recognition capabilities. Funding of \$8.65 million was secured through an Urban Areas Security Initiative grant to cover the cost of AFIS system replacements for the National Capital Region, including NOVARIS, the District of Columbia, as well as Prince George's County and Montgomery County.

Participating Washington metropolitan area jurisdictions share costs associated with NOVARIS based on the sworn police population of each jurisdiction as approved by the NOVARIS Advisory Board on July 30, 1997. In FY 2008, Montgomery and Prince George's counties no longer participate in NOVARIS as those jurisdictions have joined a Maryland regional fingerprint system. However, Loudoun County and the Virginia State Police joined NOVARIS in FY 2008. The system is housed in Fairfax County and is staffed by personnel contributed by the participating jurisdictions. Fairfax County exercises a fiduciary responsibility for the financial management and operation of NOVARIS, with the County contribution made through the Contributory Fund.

The total Fairfax County FY 2009 contribution of \$22,551 is a decrease of \$136,770 or 85.8 percent from the FY 2008 Revised Budget Plan amount of \$159,321. The contribution consists of \$20,526, which represents the County's annual share of costs associated with operations and upgrades of NOVARIS and \$2,025 in funding for lease agreements and other costs associated with equipment that is specific to Fairfax County operations. The decrease is due to reduced lease and maintenance requirements based on obligations that have been met, as well as the receipt of additional UASI grant funding in FY 2008 to cover AFIS maintenance.

| Partnership For Youth | \$50,000          | \$50,000                          | \$50,000                          | \$50,000                             | \$50,000                          |

The Board of Supervisors first approved funding of \$50,000 for the Partnership for Youth's mentoring program in FY 2000. The Fairfax Partnership on Youth was created in 1997 as an outgrowth of the Community Initiative to Reduce Youth Violence (CIRYV). Its mission is to bring the community together to reduce youth violence and promote positive youth development. This agency seeks to reduce youth violence by facilitating a forum for public and private providers to collaborate, evaluate and create programs, activities and services to better integrate activities, fill gaps and avoid duplication of efforts in the provision of services to youth in the community.

Among the types of initiatives undertaken by the Partnership for Youth include coordination of the Fairfax Mentoring Partnership; provision of the Support on Suspension (S.O.S.) effort, a voluntary community-based program designed to provide students in grades 6-12 with an opportunity to stay abreast of academic work while out of school due to suspension; the Fairfax County After-School Network for middle school-aged youth to minimize involvement in violence or other risky behaviors; assistance to the County on youth survey analysis; youth services information to provide the community with needed resources; advocacy for youth on issues affecting them; and the Youth Suicide and Depression Prevention Task Force to study and reduce risk factors for young people.

The Fairfax County contribution for FY 2009 of \$50,000 is consistent with the FY 2008 Revised Budget Plan and will be used to supplement funds received from the Commonwealth of Virginia, as well as corporate and other private funding sources.

| Subtotal Public Safety | \$453,568 | \$209,321 | \$209,321 | \$72,551 | \$72,551 |

| GMU Law and Mental Illness Clinic | \$51,678          | \$51,678                          | \$51,6 <i>7</i> 8                 | \$51,6 <i>7</i> 8                    | \$51,678                          |

As part of their deliberations on the FY 2005 budget, the Board of Supervisors approved funding of \$51,678 for the George Mason University (GMU) Law and Mental Illness Clinic. In commitment proceedings, the individual against whom the commitment proceeding is brought is invariably represented by appointed counsel, while the family petitioning is rarely represented and is generally not familiar with the rules of evidence or the information required to persuade a judge to order commitment for the individual in severe mental distress. Each County resident who uses this program is assigned a supervising attorney, a third-year law student and a second-year law student to provide legal services. The supervising attorney oversees the general representation and is available to assist the students. The third-year law student acts as the petitioner's advocate, while the second-year student provides paralegal assistance for the third-year student in preparing for the commitment hearing.

The total Fairfax County FY 2009 funding for this agency is \$51,678, which is consistent with the FY 2008 Revised Budget Plan. This funding addresses the part-time salaries of one supervising attorney and two part-time assistant supervising attorneys who work with second- and third-year law students from George Mason University Law School. Their salaries total \$43,678, while the remaining \$8,000 is for indirect costs to the University.

| Fairfax County                                | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|---|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Health Systems Agency of Northern<br>Virginia | \$86,750          | <u> </u>                          | \$86,750                          | Ü                                    | Ü                                 |

The Health Systems Agency (HSA) of Northern Virginia is a regional body charged with coordinating and improving the health care system for Northern Virginia. To accomplish this, the agency establishes short-term objectives and long-range goals, as well as prepares annual implementation plans. In addition, HSA promotes and assists in community-oriented planning among and within local health care systems, documents and evaluates the need for new services in the region, and reviews health service and facility capital expenditure proposals subject to certificate of public need regulation filed by health service provider organizations in the region. Member jurisdictions include the counties of Fairfax, Arlington, Loudoun and Prince William, as well as the cities of Fairfax, Alexandria, Manassas and Falls Church. Funding contributions to HSA from local jurisdictions are encouraged but are not required.

The Health Systems Agency established a per capita contribution standard of \$0.10 over ten years ago. Although Fairfax County has grown significantly in population since that time, the Health Systems Agency's local jurisdiction contribution requests have remained constant due to contributions from other sources. In FY 2009, revenue of \$549,936 is projected to be received from four sources: the Virginia Department of Health, \$91,300 or 16.6 percent; grants and contracts, \$249,500 or 45.4 percent; local government contributions, \$185,600 or 33.7 percent; and interest earnings and miscellaneous income of \$23,536 or 4.3 percent. In FY 2009, Fairfax County is the largest local government contributor, providing \$86,750 or 46.7 percent of the support received from the local government units.

The FY 2009 Fairfax County funding amount for the Health Systems Agency is \$86,750, which is the same level as the FY 2008 Revised Budget Plan.

| Center/Birmingham Green Adult Care | \$1,076,083       | \$1,396,691                       | \$1,396,691                       | \$1,573,880                          | \$1,573,880                       |

The counties of Fairfax, Fauquier, Loudoun and Prince William, as well as the City of Alexandria established the Northern Virginia Healthcare Center Commission in 1987. Each jurisdiction is represented by a member on the Commission, which operates a long-term healthcare facility with 180 beds that opened in May 1991 known as the Northern Virginia Healthcare Center (Nursing Facility). The Northern Virginia Healthcare Center provides nursing care on a 24-hour basis, which includes professional observation, administration of medications and physician-prescribed treatments. Other services include special diets, recreational activities, physical and occupational therapy, and arrangements for physician, laboratory and radiology services.

The nursing facility is adjacent to the adult care residence, which is operated through an agreement with Birmingham Green Adult Care Residence. This 64-bed facility is also under the auspices of the Commission. This facility primarily provides room and board, along with assistance in activities of daily living for the aged and homeless. Nursing consultation is available and medical services are arranged either through the staff of the nursing home or other community services. Residents are admitted based on sponsorship by their jurisdiction's Public Welfare/Social Services Department. The adult care residence is a shelter for the aged and homeless who are indigent but self-sufficient, mobile and independent in their activities. The combined facilities are commonly known as Birmingham Green.

Construction of a 92-unit facility that will replace the original 64-bed adult care residence began in early FY 2007 and was completed in April 2008. Financing for the new facility was primarily provided through the U.S. Department of Housing and Urban Development. The new apartment-style facility will provide an additional 28 beds for adult care residents.

Operating costs for the facility are partially covered through the Medicaid and General Relief programs at the maximum rates established by the state. To the degree that these funds are inadequate to cover the full costs of the operation of the facility, the sponsoring jurisdictions then subsidize the home on a user formula basis. Each jurisdiction pays for Personnel Services and Operating Expenses at a level proportionate to the number of the jurisdiction's residents at the home. Each jurisdiction's FY 2009 contribution is based on a projected increase in the bed utilization rate due to the first full year of operations for the newly expanded assisted living facility.

The total FY 2009 Fairfax County recommended funding for these facilities is \$1,573,880, which is an increase of \$177,189 or 12.7 percent over the FY 2008 Revised Budget Plan. This is primarily due to an increase in the number of assisted living beds available to Fairfax County from 26 to 30, as well as per diem increases of 2.4 percent in the subsidy rate for the adult care residence, from \$62.50 per day to \$64.00 per day, and 8.3 percent for the nursing facility, from \$24.00 per day to \$26.00 per day based on higher labor costs, as well as increases in food related expenses.

| Volunteer Fairfax | \$302,247         | \$305,247                         | \$305,247                         | \$305,247                            | \$305,247                         |

Volunteer Fairfax is a private, nonprofit corporation created in 1975 and incorporated in the Commonwealth of Virginia. The center promotes volunteerism through a network of over 700 nonprofit agencies by mobilizing people and other resources to improve the community. Its primary goals are: to assist private nonprofit and public agencies in developing strong, efficiently managed organizations and volunteer programs; to increase corporate and citizens' direct involvement in the community; to provide programs and services through partnerships that contribute to the resolution of community issues; and to increase the public's awareness of both the need for and the benefits of volunteer service to the community. The scope of the center's work also includes active participation in emergency preparedness activities and coordination through its support of the Citizen Corps, the County's Emergency Management Coordinating Council and Emergency Operations Center, the Northern Virginia Voluntary Organizations Active in Disaster, and the Metro Coalition of Volunteer Centers.

As part of the <u>FY 2008 Adopted Budget Plan</u>, the Board of Supervisors increased the County's contribution to this organization by \$3,000 to \$305,247 to address the loss of in-kind hosting of the Citizen Corps Council Web site and database.

The center receives funding from Fairfax County as its sole local government source. In addition to the annual contribution, Fairfax County provides in-kind office space to the center at 10530 Page Avenue, the value of which is estimated to be \$53,000. The Fairfax County FY 2009 funding amount for this agency is \$305,247, which is consistent with the FY 2008 Revised Budget Plan level.

| Arts Council of Fairfax County | \$216,606         | \$220,602                         | \$220,602                         | \$225,008                            | \$225,008                         |

Established in 1964, the Arts Council of Fairfax County is a private, nonprofit organization whose goals are to encourage, coordinate, develop and meet the needs of County residents and organizations for cultural programs. It develops and maintains a broad range of visual and performing arts programs designed to contribute to the growth of an integrated area-wide cultural community. It also supports and encourages the development of local artists and organizations by providing opportunities to reach new audiences through participation in Arts Council-sponsored activities.

The FY 2009 Fairfax County contribution of \$225,008 for this agency is an increase of \$4,406 or 2.0 percent over the FY 2008 Revised Budget Plan of \$220,602 in order to fund the County's share of salary adjustments. The County's contribution represents 23.3 percent of the total projected revenue of \$966,173. Other revenue sources include program fees, \$425,000; the Fairfax County Arts Group funding, \$120,000; the Virginia Commission Challenge Grant, \$51,065; contributions and other grants, \$50,000; video production, \$30,000; equipment/space rental, \$25,000; the membership fees, \$20,000; interest, \$15,000; Virginia Commission Government Grant, \$5,000; and other miscellaneous charges, \$100. In addition, as noted below, additional funding of \$550,000 for a Challenge Arts Grant program was approved as part of FY 2009 Adopted Budget Plan.

In 1980, the Arts Council Advisory Panel was established to institute a grant system for County arts organizations. The Advisory Panel is the official entity established by the Arts Council for evaluating and ranking all art requests for funds, support services and facilities support from the Fairfax County government. This panel reviews all applications from local arts organizations, and based on eligibility and evaluating criteria, makes recommendations to the County Board of Supervisors for approving grants. It also encourages County arts organizations to seek contributions from a wide range of sources.

The total FY 2009 funding included for the Arts Council of Fairfax County - Arts Groups Grants is \$120,000, which is consistent with the FY 2008 Revised Budget Plan.

As part of their deliberations on the <u>FY 2007 Adopted Budget Plan</u>, the Board of Supervisors included funding of \$550,000 for the establishment of a Challenge Grant Funding Pool for the Arts to be administered by the Council on the Arts. Funding of \$500,000 is available on a competitive basis to community arts organizations, with \$50,000 to support administrative costs of the Arts Council of Fairfax County.

The Challenge Grant Funding Pool is intended as a means to further leverage private funding and enable the arts to continue to flourish in the County. The grants are intended to leverage private funds by requiring a 2:1 dollar match. Funding will support arts in public spaces, as well as the performing arts.

The total FY 2009 funding included for the Challenge Grant Funding Pool for the Arts is \$550,000, which is consistent with the FY 2008 Revised Budget Plan.

| Fairfax County              | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

| Dulles Air and Space Museum | \$240,000         | \$240,000                         | \$240,000                         | \$240,000                            | \$240,000                         |

Fairfax County made its first contribution to the Udvar-Hazy Center of the Smithsonian Institute's Dulles Air and Space Museum in FY 2000 and has provided a total of \$2,340,000 through FY 2008. Since the museum opened in December 2003, over 4.7 million people have visited the center, which brings income to the area. A sample showed that nearly 9 percent of visitors to this facility come from abroad, while 46 percent of the domestic audience drove over 100 miles to visit the center. This translates into overnight stays in the region, with the increased likelihood of visits to other nearby attractions.

Education is a vital part of the mission of the Center. There are classrooms and expanded programs for educators and students, particularly those from Fairfax County. The goal is to teach young people about America's aviation and space heritage, and emphasize the importance of technology.

The FY 2009 funding included for the Dulles Air and Space Museum is \$240,000, which is consistent with the FY 2008 Revised Budget Plan. The County's FY 2009 contribution will support the construction of Phase II of the Center, which will include the Restoration Hangar, the Archives and Collections Processing Center, and the Collections Storage area. To date, over \$44.0 million has been secured to complete Phase II.

| Fairfax Symphony Orchestra | \$265,723         | \$278,613                         | \$278,613                         | \$292,300                            | \$292,300                         |

The Fairfax Symphony Orchestra (FSO) is a nonprofit organization chartered by the Virginia State Commission in 1966. A mixture of public and private contributions supports the orchestra. The FSO provides County residents with the opportunity to hear and learn about symphonic and ensemble music. The orchestra sponsors a variety of programs, including its own concert series, programs in the public schools, master classes for young music students, chamber orchestra for young adults, and the special music collection in the Fairfax County Public Library.

The County's contribution to the FSO supports all facets of the orchestra – Masterworks concerts, educational outreach and special concerts. In addition, County support will allow the orchestra to continue its valuable partnership with the Fairfax County Public Schools and the Fairfax County Park Authority to provide music literacy and outreach programs in FY 2009.

Funding of \$292,300 is included for the FSO, which is an increase of \$13,687 or 4.9 percent over the FY 2008 Revised Budget Plan.

| Fort Belvoir Army Museum | \$240,000         | \$240,000                         | \$240,000                         | \$240,000                            | \$240,000                         |

During adoption of the FY 2005 Budget, the Board of Supervisors approved funding of \$240,000 to support construction of the U.S. Army Museum at Fort Belvoir in the southeastern part of Fairfax County. The capital campaign to raise \$200 million in private funds has been underway, managed by the Army Historical Foundation, a nonprofit organization dedicated to preserving the Army's heritage. The museum is expected to draw approximately 740,000 visitors annually when it opens. The museum will feature unique educational programs and resources in the areas of technology, history, geography, political science, engineering and civics for students of all ages. The opening date is now tentatively set for June 14, 2013, a year later than previously anticipated during the FY 2008 budget process.

All of the branches of the military either already have a centralized museum, or are in the process of building one. The Air Force Museum is at Wright-Patterson Air Force Base, Ohio; the Navy Museum is at the Washington Navy Yard; and the U.S. Marine Corps opened its National Heritage Center at Quantico Marine Base, less than 20 miles south of Fort Belvoir in Prince William County in November 2006. A County contribution of \$240,000 has been included for the U.S. Army Museum for FY 2009, which is the same level as FY 2008.

| Fairfax County         | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Lorton Arts Foundation | \$1,000,000       | \$1,000,000                       | \$1,000,000                       | \$1,000,000                          | \$1,000,000                       |

As part of the FY 2005 Carryover Review, the Board of Supervisors approved \$500,000 to support the Lorton Arts Foundation (LAF) financing and capital renewal plan for operation of a center for the arts at the former Lorton Prison site. The Board had previously approved the negotiation of a lease of the former prison site with the Foundation, which proposed to use funds generated by leasing the various facilities to individual artists and performing arts groups. The Foundation's plan includes public restaurants, residential facilities for artists in residence, and a prison museum in addition to artist studios and a small theater. Initially LAF

believed that the project would be self-sustaining and could operate without additional resources from the County. However, after subsequent review and financial analysis by outside consultants knowledgeable in the creation and operation of facilities of this type, LAF found an underwriter willing to undertake financing of the renovations, but determined that County support would be needed during the first few years of renovation and operational start-up. LAF requested that Fairfax County provide \$1,000,000 annually as maintenance support. They also requested that the County agree to lease back a portion of the rental space if other tenants are not available, for a timeframe and lease rate to be negotiated between the County and LAF. The lease will provide for reducing or eliminating the County's cash support commensurate with the Foundation's ability to become self-sustaining.

Subsequent contributions are dependent on continuing fund-raising efforts which are evaluated each year. Funding of \$1,000,000 was approved by the Board of Supervisors as part of the FY 2006 Third Quarter Review for the County's FY 2007 contribution. Funding of \$1,000,000 is included for FY 2009 so it is available in that fiscal year when the required matching funds have been raised. The FY 2009 funding level is consistent with the FY 2008 Revised Budget Plan.

| Northern Virginia Regional Park |                   |                                   |                                   |                                      |                                   |
| Authority                       | \$2,035,315       | \$2,076,143                       | \$2,076,143                       | \$2,084,140                          | \$2,084,140                       |

The Northern Virginia Regional Park Authority (NVRPA) is a multi-jurisdictional, special-purpose agency established to provide a system of regional parks for the Northern Virginia area. The NVRPA currently operates 21 regional parks and owns over 10,000 acres of land, of which more than 7,700 acres are in Fairfax County. Parklands within the system include: Bull Run, Bull Run Marina, Fountainhead, Sandy Run, Pohick Bay, Carlyle House Historic Park, Potomac Overlook, Upton Hill, Algonkian, Red Rock, the W&OD Trail, Occoquan, Hemlock Overlook, Cameron Run, Gateway, Meadowlark Gardens, Ball's Bluff, Temple Hall, Brambleton, Aldie Mill and Blue Ridge Park. In addition, the NVRPA administers extensive regional historic and conservation properties throughout Northern Virginia. These community resources are supported primarily from the annual contributions of its six member jurisdictions: the counties of Fairfax, Loudoun and Arlington, and the cities of Fairfax, Alexandria and Falls Church. Each member jurisdiction's contribution is in direct proportion to its share of the region's population. In the past decade, the entire population served by the NVRPA grew to 1.6 million residents and is expected to approach 2.0 million by 2020.

Current projections indicate that \$4,823,481 will be expended from the NVRPA's General Fund and \$13,196,383 will be expended from the NVRPA's Enterprise Fund for a total of \$18,019,864 in FY 2009. The NVRPA is asking member jurisdictions for \$3,401,705 which is an increase of \$47,678 or 1.4 percent over the FY 2008 amount of \$3,354,027. For FY 2009, NVRPA projects that 80.6 percent of operating costs will be funded with park revenues, with the remaining 19.4 percent coming from member jurisdictions. Fairfax County's share for the Northern Virginia Regional Park Authority in FY 2009 is \$2,084,140, which is \$7,997 or 0.4 percent over the FY 2008 Revised Budget Plan of \$2,076,143.

Fairfax County comprises 61.3 percent of the total population served by this agency projected for FY 2009, which is an increase over the 60.9 percent figure for the FY 2008 budget. Localities' contributions are based upon their percentage of the total population as provided by the U.S. Bureau of the Census. It should be noted that in addition to the operating contribution, an amount of \$2,596,839 has been included in Fund 306, Northern Virginia Regional Park Authority, as the FY 2009 annual capital contribution.

| Pentagon Memorial Fund | \$0               | \$0                               | \$100,000                         | \$0                                  | \$0                               |

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved one-time funding of \$100,000 to support the Pentagon Memorial Fund. Shortly after the September 11, 2001 attacks, the United States Congress authorized the Secretary of Defense to create a permanent memorial on the grounds of the Pentagon to remember the 184 people killed there that day. The memorial will include 184 benches, each with a lighted reflecting pool beneath it and a nameplate of a victim of the Pentagon. The memorial will provide a place for future generations to remember and reflect on September 11<sup>th</sup> and its significance for the nation, as well as be a place of solace.

The Pentagon Memorial Fund was incorporated in May 2003 as a non-profit 501(c)(3) organization to raise the private funds necessary to design, build, and maintain the Pentagon Memorial. The memorial fund's goal is to raise total funding of \$22 million and has raised more than \$15 million to date. Plans call for the Pentagon Memorial to be dedicated in September 2008.

| Reston Historic Trust | \$20,000          | \$20.000                          | \$20.000                          | \$20,000                             | \$20,000                          |

The Reston Historic Trust is a community-based 501(c)(3) organization located in the heart of the Lake Anne Revitalization District. It was founded in 1996 as an educational institution to promote the social and economic vitality of Reston through a program of history-based educational activities. Since FY 2000, Fairfax County has provided annual funding of \$20,000 to the Reston Historic Trust. This contribution assists in the operational costs of the Reston Museum, located at Lake Anne Plaza. The museum, which is now in its tenth year of operation, has evolved as a focal point in the community, hosting special events, weekend programs and lectures, and providing exhibits that depict Reston's past and future.

In FY 2009, the agency will continue its efforts on education, community outreach, and cultural development, including through collaborative programming and trainings with other area organizations. The County's FY 2009 contribution to the Reston Historic Trust is \$20,000, which is consistent with the FY 2008 Revised Budget Plan.

| Fairfax County             | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|----------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Claude Moore Colonial Farm | \$31,500          | \$31,500                          | \$31,500                          | \$31,500                             | \$31,500                          |

The Claude Moore Colonial Farm at Turkey Run, designated a historical site, is the only privately operated national park in the United States. The park's 18<sup>th</sup> Century living history family farm site authentically recreates the social, technological, environmental and cultural living conditions faced by Northern Virginians of ordinary means in 1771. For 34 years, it has offered a rare, hands-on learning experience about the basics of life, food, shelter and the environment during the Colonial period. Staff continues to enhance educational materials on colonial Virginia history and makes these materials available free on the Farm's Web site which is also available in eight different languages, making the Farm experience much more accessible to the County's diverse population. The Farm has received national recognition for its innovative educational programming, which reaches over 55,000 persons a year, including thousands of students in Fairfax County.

The FY 2009 level of support of \$31,500 is consistent with the FY 2008 Revised Budget Plan. This support provides a critical component in an operating budget generated primarily from weather-dependent, self-supporting programs and fundraising events. The contribution will help ensure continuation of Farm programs to Fairfax County residents – especially the Environmental Living Program, the Farm Skills Program, and school visits to the 18<sup>th</sup> Century Farm Site. The FY 2009 contribution will also assist the Farm in further developing materials that can be used in the home and classroom and adding much-needed visitor facilities at the Farm. The County's contribution represents 6.8 percent of the Farm's projected revenue of \$461,000 for FY 2009. Other revenue sources include program fees, pavilion rentals, membership dues, endowment income, contributions from the National Park Service and private donations.

| Town of Vienna Teen Center | \$40,000          | \$40,000                          | \$40,000                          | \$40,000                             | \$40,000                          |

The Vienna Teen Center is operated by the Town of Vienna Parks and Recreation Department. The Center, known as Club Phoenix, provides local teenagers with positive, supervised recreational and educational programs and activities. The County's contribution assists the Town of Vienna in the operation and improvement of the Center, and helps provide funding for programs, staffing and the purchase of materials and other supplies.

The Board of Supervisors first approved \$40,000 in funding for the Teen Center in FY 2001. The amount included \$20,000 to supplement operational expenses at the Center including the purchase of capital equipment and \$20,000 for the expansion of teen programs, activities and special events, as well as the staff required to plan, implement and supervise the expanded operations. The FY 2009 contribution of \$40,000 represents 23.4 percent of the Center's projected expenditure and revenue requirements of \$171,017 and is consistent with the FY 2008 Revised Budget Plan.

| Virginia Opera Company | \$25,000          | \$25,000                          | \$25,000                          | \$25,000                             | \$25,000                          |

The Virginia Opera Company fosters appreciation of the arts through a variety of educational programs offered to school children. It has grown in recent years to become the eighteenth largest opera in the nation, based on budget and due in large part to its operations in Fairfax County. In the current 2007-2008 season, the Virginia Opera Company will present four fully staged operas at the George Mason University Center for the Arts. It anticipates continuing that level for FY 2009. Furthermore, the Virginia Opera's education program provides County students with access to age-appropriate opera presentations at their schools. In FY 2007, 54 performances were presented to public schools in Fairfax County.

The Virginia Opera Company first received a County contribution of \$25,000 in FY 1999. The FY 2009 contribution for the Virginia Opera Company continues that level of funding, which is also consistent with the FY 2008 Revised Budget Plan. The contribution represents approximately 2.3 percent of the Opera Company's projected revenue of \$1,064,661 for FY 2009.

| Wolf Trap Foundation for the |                   |                                   |                                   |                                      |                                   |
| Performing Arts              | \$125,000         | \$125,000                         | \$125,000                         | \$125,000                            | \$125,000                         |

A private/public partnership was established in 1968 between the Wolf Trap Foundation and the National Park Service for the operation of the Wolf Trap Farm Park for the Performing Arts in Vienna, Virginia. The partnership was founded through a gift of land to the United States Government. The National Park Service maintains the property and conducts parking and audience management.

The Foundation, with a \$28.4 million budget, is responsible for all other aspects of running the facility, including the presentation of a wide variety of performances and educational programs. Foundation programs reach approximately 600,000 people in Fairfax County each year at two sites: the Filene Center, a 7,000-seat outdoor amphitheater in a park-like setting, and the Barns of Wolf Trap, two 18<sup>th</sup> Century barns reconstructed at Wolf Trap using original building materials and techniques.

In FY 1999, Fairfax County began contributing \$25,000 to Wolf Trap to support the Foundation's efforts to provide Fairfax County citizens with access to the best possible performing arts, as well as position Fairfax County nationally as a leader in the arts and arts-in-education. Educational programs focusing on Fairfax County's young children and their teachers, parents and caregivers include development workshops for teachers, family involvement workshops, and field trip performances. The amount is not based on a formula, per capita, or any other formal agreement. As part of their deliberations on the FY 2005 budget, the Board of Supervisors approved an increase in the annual contribution from \$25,000 to \$125,000 to support education programs. The FY 2009 contribution remains at \$125,000.

| Architectural Review Board | \$3,500           | \$3,500                           | \$3,500                           | \$3,500                              | \$3,500                           |

The Architectural Review Board (ARB) administers the Historic Overlay District provisions in the County's Zoning Ordinance and advises the Board of Supervisors (BOS) on other properties that warrant historic preservation through historic district zoning, proffers or easements. There are currently 13 Historic Overlay Districts, with the potential for several more. The BOS frequently requests advice on the preservation of historic structures as part of the County's development review process and the Open Space and Historic Preservation Easement program.

The ARB is comprised of 11 members who have demonstrated knowledge and interest in the preservation of historical and architectural landmarks. The amount funded for FY 2009 is \$3,500, which is consistent with the FY 2008 Revised Budget Plan.

| Fairfax County                  | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

| Celebrate Fairfax, Incorporated | \$27,854          | \$28,289                          | \$28,289                          | \$29,258                             | \$29,258                          |

Celebrate Fairfax, Incorporated was formed to develop educational or entertainment products, services and events that promote a sense of community among those who live or work in Fairfax County and to coordinate the annual Fairfax Fair. This urban fair symbolizes unity among the civic, business and governmental sectors and demonstrates how public and private partnerships can work together to provide the best for the residents of Fairfax County at a low cost. The Corporation also produces "Fairfax Fine ArtsFest," first introduced in 2003, as well as "Fall for Fairfax," Fairfax County's annual environmental festival sponsored by the Fairfax County Board of Supervisors.

An amount of \$29,258 is funded for FY 2009 for clean-up costs associated with the Fairfax Fair pursuant to the Memorandum of Agreement between the County Board of Supervisors and Celebrate Fairfax, Inc. This amount represents an increase of \$969 or 3.4 percent over the FY 2008 Revised Budget Plan of \$28,289 and is attributable to increased costs associated with the collection and disposal of waste tonnage collected at the Fairfax Fair. It should be noted that Celebrate Fairfax, Inc. also receives a high level of community and corporate support, both financial and in-kind. It is anticipated that the Corporation will also continue to receive significant in-kind support from various County agencies in FY 2009 for the Fair.

| Center for Chesapeake Communities | \$0               | \$0                               | \$36,000                          | \$36,000                             | \$36,000                          |

In September 2007, the Board of Supervisors designated three non-profit organizations as contributory agencies in order to further assist the County in achieving a tree canopy goal of 45 percent, requiring the community to plant millions of trees over the next 30 years. In accordance with this effort, \$36,000 was approved for the Center for Chesapeake Communities, a nonprofit organization that helps provide local governments with tools to protect their own natural resources and the Chesapeake Bay, with the recognition that actions at the local level, from land use planning to stream protection, greatly affect the Bay.

The Center's goal is to provide large, small, urban and rural municipalities with the information, education and training that supports sustainable development practices that protect the Bay. The central principle of the Center is that economic, social and environmental goals can be achieved simultaneously if systems, policies and procedures are designed to work interdependently. To help achieve that, the Center maintains a clearinghouse of models, tools and strategies pertaining to stormwater management, site planning, and pollution prevention that local governments are successfully implementing.

The Center also holds topic-specific training sessions where local government officials can hear about the latest environmental protection techniques. The Center also helps to put local government experts in touch with each other to share expertise and experiences on resource protection, planning, and management.

As part of the FY 2008 Third Quarter Review, a funding adjustment of \$36,000 was made to the Center in accordance with Board of Supervisors' approval. The FY 2009 Fairfax County funding included for this agency is \$36,000, which is consistent with the FY 2008 funding level. County funding will assist the Center in developing a tree canopy tracking mechanism that will be used as a regional model to report tree planning for the regional Air Quality Management Plan.

|----------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Commission for Women | \$6,916           | \$6,916                           | \$6,916                           | \$6,916                              | \$6,916                           |

The Commission for Women was created by the Board of Supervisors in 1971 to promote the equality of women and girls in Fairfax County, to advise the Board on the concerns of Fairfax County's women and girls; to present possible solutions; and to effect long-term change through public education, policy reform and building community partnerships. The Commission is comprised of 11 members, nine of whom are appointed by members of the Board of Supervisors and two at-large members appointed by the Board's Chairman. There is also a student representative from a local college or university who is a non-voting member.

In FY 2007, the Commission expanded the circulation *Living Health Calendar's*, which focuses on tips for ensuring healthy lifestyles. The calendar was printed in both English and Spanish. The Commission also planned and implemented two educational forums – the Mothering Our Mothers, Mothering Ourselves symposium, as well as a panel discussion focusing on Women in the Media. In addition, the Commission operated a booth at the Fall for Fairfax event.

The total FY 2009 Fairfax County contribution to the Commission for Women is \$6,916, which is consistent with the FY 2008 Revised Budget Plan.

| Fairfax County                      | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

| Convention and Visitors Corporation | \$3,016,323       | \$2,717,701                       | \$2,965,957                       | \$2,853,586                          | \$2,853,586                       |

As a result of enabling legislation approved by the 2004 General Assembly, the County was granted the authority to impose an additional 2 percent Transient Occupancy tax beginning July 1, 2004. As required by the new legislation, no less than 25 percent of the additional revenue is to be designated for and appropriated to a nonprofit Convention and Visitors Corporation located in Fairfax County.

The mission of the Convention and Visitors Corporation, known as Visit Fairfax, is "to create and effectively market exciting products, programs and activities that will distinguish Fairfax County as a premier tourism destination." Visit Fairfax is a 503(c)(3) organization with 25 board members appointed by the Board of Supervisors and the tourism industry.

FY 2009 funding of \$2,853,586, is a decrease of \$112,371 or 3.8 percent for the Convention and Visitors Corporation based on a reduction of \$248,256 funded as part of the *FY 2008 Third Quarter Review* for an annual adjustment necessary to reconcile actual Transient Occupancy Tax receipts resulting from the additional 2 percent Transient Occupancy Tax with the funding that is provided to the Convention and Visitors Corporation partially offset by an increase of \$135,885 to Convention and Visitors Corporation based on projected transient occupancy tax revenue for FY 2009.

In September 2007, the Board of Supervisors designated three non-profit organizations as contributory agencies in order to further assist the County in achieving a tree canopy goal of 45 percent, requiring the community to plant millions of trees over the next 30 years. In accordance with this effort, \$20,000 was

approved for Earth Sangha, an environmental nonprofit organization committed to helping people become better stewards of the planet by providing numerous volunteer opportunities involving environmental work.

Notably, Earth Sangha supports a native forest gardener network which produces, conserves and restores native plants of the Washington, DC metropolitan area. This program aims to produce batches of seedlings that are genetically diverse, locally adapted and representative of the native forest flora. Volunteer opportunities involve planting the native seedlings, shrubs, wild flowers, grasses and trees in local parks, fields, and forests. Earth Sangha partners with the Fairfax County Department of Public Works and Environmental Services and the Fairfax County Park Authority on several planting events throughout the County, including at Wilburdale Park in Annandale, Waverly Park in Vienna, Frying Pan Park in Herndon, and Sully Historic Park in Chantilly, among others.

As part of the FY 2008 Third Quarter Review, a funding adjustment of \$20,000 was made to Earth Sangha in accordance with Board Supervisors' approval. The FY 2009 Fairfax County funding included for this agency is \$20,000, which is consistent with the FY 2008 funding level.

| Fairfax County History Commission | \$26,022          | \$26,022                          | \$26,022                          | \$26,022                             | \$26,022                          |

The History Commission was created by the Board of Supervisors in 1969 to advise County government and generally promote the public interest in matters concerning the history of Fairfax County. There are 20 members who are appointed by the Board of Supervisors for three-year terms and who may be reappointed. The Commission advises the Board and County on matters involving the County's history; maintains and inventory of historic sites in the County; proposes and monitors historic districts and provides to local groups on matters of historic preservation. Major programs include: educational activities, cooperative ventures with local universities in local history activities, liaison functions with state/national historic preservation organizations, historic record indexing projects, archaeology programs and expansion of photographic archives.

The FY 2009 Fairfax County funding included for this agency is \$26,022, which is consistent with the FY 2008 Revised Budget Plan amount.

| Fairfax County | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

| Fairfax ReLeaf | \$0               | \$0                               | \$52,000                          | \$52,000                             | \$52,000                          |

In September 2007, the Board of Supervisors designated three non-profit organizations as contributory agencies in order to further assist the County in achieving a tree canopy goal of 45 percent, requiring the community to plant millions of trees over the next 30 years. In accordance with this effort, \$52,000 was approved for Fairfax ReLeaf, a nonprofit organization of volunteers who plant and preserve trees and restore forest cover on public and common lands in Northern Virginia. Fairfax ReLeaf activities are aimed at preserving trees and offsetting tree loss by planting thousands of trees each year in order to improve air and water quality, reduce noise, preserve wildlife habitats, and reduce surface runoff. Since its founding in 1992, Fairfax ReLeaf has planted over 79,000 trees in the Counties of Fairfax, Loudon, and Prince William.

Funding provided for Fairfax ReLeaf will support its goals of conserving, restoring, promoting, and sustainable urban forests in Northern Virginia through the provision of volunteer activities, educational programming, and the promotion of tree-friendly policies.

As part of the FY 2008 Third Quarter Review, a funding adjustment of \$52,000 was made to Fairfax ReLeaf in accordance with Board of Supervisors' approval. The FY 2009 Fairfax County funding included for this agency is \$52,000, which is consistent with the FY 2008 funding level.

| Fairfax County           | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|--------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Greater Reston Incubator | \$30,000          | \$30,000                          | \$30,000                          | \$30,000                             | \$30,000                          |

Included for FY 2009 is funding of \$30,000 for the Greater Reston Chamber of Commerce's (GRCC) Incubator Program. The GRCC's Incubator Program assists entrepreneurs in developing high-growth businesses in various sectors of the regional economy including technology, government services and supporting industries. The program provides business services, technical support and physical space to help emerging businesses grow. Job creation and increased regional prosperity are the program's primary goals. This volunteer-driven program has helped 46 companies over the past 10 years, created over 173 jobs in the region, attracted over \$38 million in investment, and occupied in excess of 65,100 square feet of commercial space in Fairfax County.

It should also be noted that funding of \$25,000 was previously included for the GRCC Incubator Program in the Economic Development Authority budget, but as of FY 2007, funding is now included in Fund 119 as this organization more appropriately fits the status of a contributory agency.

| Fairfax County                      | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|-------------------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Northern Virginia Community College | \$94,196          | \$93,733                          | \$93,733                          | \$92,200                             | \$92,200                          |

Northern Virginia Community College (NVCC) is a comprehensive institution of higher education offering programs of instruction generally extending not more than two years beyond the high school level. The College currently has six campuses (Alexandria, Annandale, Loudoun, Manassas, Springfield for medical education and Woodbridge) with permanent facilities constructed on each site. Each year, the College serves more than 60,000 students in credit-earning courses and more than 20,000 students in continuing education and training activities.

NVCC projects FY 2009 expenditures of \$194,275 for base operating requirements to be funded with \$187,429 from local jurisdictions and \$6,846 carried over from FY 2008. This amount includes \$174,292 for General Administration (President's Office, College Board travel and memberships, student scholarships, loans, and grants), \$15,000 for Community Services (community information), and \$4,983 for a contingency reserve. The base, which is funded by the governing bodies of the local jurisdictions served by the College, as well as any fund balances supports additional services that cannot be provided under the College's annual state fiscal appropriations. For example, local funding provides for increased matching loan funds and support of community service activities. This local funding is for Operating Expenses only and is not applied toward Personnel Services. The local jurisdictions served by the College are requested to contribute their share of the College's base expenditure, which is calculated on a per capita basis as reported by the College using population figures from the Weldon Cooper Center for Public Service.

The FY 2009 Fairfax County contribution to this agency for operations and maintenance is \$92,200, a decrease of \$1,533 or 1.6 percent from the FY 2008 Revised Budget Plan, due primarily to shifts in population among the contributing jurisdictions. This amount reflects the County's share of the services provided to Fairfax County residents as reported by the College and is 49.2 percent of the local jurisdictions' contributions totaling \$187,429 for FY 2009.

In addition, County funding of \$1,016,483 is included in Fund 303, County Construction, for an annual capital contribution to the College based on a \$1 per capita population figure provided by the Weldon Cooper Center. Funding provides for the continued construction and maintenance of various capital projects on college campuses within the NVCC system.

| Northern Virginia Conservation Trust | \$266,380         | \$275,437                         | \$275,437                         | \$282,047                            | \$282,047                         |

During their deliberations on the FY 2001 Advertised Budget Plan, the Board of Supervisors funded a non-recurring (one-time) amount of \$209,076 for the Northern Virginia Conservation Trust (NVCT) (formerly the Fairfax Land Preservation Trust). An amount of \$170,000 was funded to enable the County to further its conservation efforts and meet public need without creating new County positions. This amount included \$80,000 for land costs/purchases directly related to conservation easements, \$45,000 for public outreach funding to support staff and material for educating the public about conservation, and \$45,000 for administrative support for staff and materials for the management of Fairfax County conservation efforts. It was anticipated that the contribution amount would be partially matched by approximately \$75,000 in other contributions to the Trust in FY 2001. The County's total contribution also included \$39,076 that was paid to the Park Authority to eliminate the balance of a loan obligation associated with seed money for the Trust and office space provided by the Park Authority. Recurring funding for NVCT began in FY 2002.

The primary purpose of the public/private partnership between NVCT and Fairfax County is for NVCT to assist the County in the preservation of natural areas and historic properties through the use of conservation/open space easements, land gifts and acquisition of open space. The Trust is also tasked with educating the public on the importance of conservation and the County's abundant natural resources through outreach programs. Through this partnership, NVCT has been able to permanently conserve nearly 650 acres in Fairfax County. The most notable recently created preservation area was the permanent protection of 75 acres on the Potomac River Gorge through three conservation easements. This stretch serves as a habitat for a variety of rare species and 30 different vegetation communities. In addition, this stretch provides an important river view shed for National Parks and other public river vistas.

The Trust also operates an "Adventures in Conservation" outreach program to bring hands-on volunteerism and environmental education opportunities to the public. In FY 2008, these activities include planting thousands of native trees, removing invasive plants, and conducting birding trips and guided hikes. FY 2009 funding of \$282,047 is included, which is an increase of \$6,610 or 2.4 percent over the FY 2008 Revised Budget Plan of \$275,437.

| Conservation District            | \$514,917         | \$470,263                         | \$470,263                         | \$496,459                            | \$496,459                         |

The Northern Virginia Soil and Water Conservation District (NVSWCD) is an independent subdivision of the Commonwealth of Virginia to provide leadership in the conservation and protection of Fairfax County's soil and water resources. It is governed by a five-member Board of Directors, three of whom are elected every four years by the voters of Fairfax County and two who are appointed by the Virginia Soil and Water Conservation Board. Accordingly, the work of NVSWCD supports many of the environmental efforts set forth in the Board of Supervisors' Environmental Excellence 20-year Vision Plan. Technical assistance and information are provided to state and local government agencies as well as private citizens. The goal of the NVSWCD is to continue to improve the quality of the environment and general welfare of the citizens of Fairfax County by providing them with a means of dealing with soil, water conservation and related natural resource problems. It provides County agencies with comprehensive environmental evaluations for proposed

land use changes with particular attention to the properties of soils, erosion potential, drainage and the impact on the surrounding environment.

NVSWCD has consistently been able to create partnerships and leverage state, federal and private resources to benefit natural resources protection in Fairfax County. In FY 2008, NVSWCD completed the Little Pimmit Run stream restoration project through the leveraging of \$210,000 in funding from nearby homeowners. In addition, \$1,000,000 in funding from the Virginia Aquatic Resources Trust Fund will enable the realization of the Kingstowne II stream restoration project during FY 2008 and FY 2009. Also in FY 2009, NVSWCD will facilitate partnerships that will leverage a projected \$498,101 in funding and resources for soil and water projects.

The FY 2009 County share for base operating requirements is \$496,459 or 69.2 percent of the agency's projected expenditures totaling \$717,171. This represents a net increase of \$26,196 or 5.6 percent over the FY 2008 Revised Budget Plan.

The Northern Virginia 4-H Educational Center was developed in cooperation with the Virginia Cooperative Extension Service. The Center currently serves 19 localities in Northern Virginia with thousands of the program participants being Fairfax County residents. This educational and recreational complex for youth and adults residing in Northern Virginia is located in Front Royal, Virginia. County funding will be used toward capital improvements such painting and repairs to lodges, and making major swimming pool repairs, as well as striping all parking lots. The County contribution also helps minimize camping fees so more young people can attend.

The total FY 2009 Fairfax County funding included for this agency is \$25,000, which is consistent with the FY 2008 Revised Budget Plan.

| Occoquan Watershed Monitoring |                   |                                   |                                   |                                      |                                   |
| Program                       | \$106,635         | \$113 <i>,</i> 787                | \$113 <i>,</i> 787                | \$120,565                            | \$120,565                         |

The Occoquan Watershed Monitoring Program (OWMP) and the Occoquan Watershed Monitoring Laboratory (OWML) were established to ensure that water quality is monitored and protected in the Occoquan Watershed. The cost of the OWMP is equally divided between water supply and sewage users. As a result, 50 percent of Operating Expenses is supported by the Fairfax County Water Authority and 50 percent by the participants: Fairfax, Fauquier, Loudoun and Prince William counties, and the cities of Manassas and Manassas Park. The Watershed Monitoring Program Funding Agreement of 1988 requires that Fairfax County provide 12.5 percent of the direct costs.

Given the many diverse uses of the land and water resources in the Occoquan Watershed (agriculture, silviculture, urban residential development, commercial and industrial activity, water supply, and wastewater disposal), the OWMP provides a critical role as the unbiased interpreter of basin water quality information.

The total amount included for Fairfax County's FY 2009 share is \$120,565 based upon agency expenditures. This represents an increase of \$6,778 or 6.0 percent over the FY 2008 Revised Budget Plan of \$113,787. In addition, it should be noted that with the waiver of the agency's budgeted indirect costs by Virginia Tech, the Fairfax County contribution represents 10.2 percent of the agency's total budget.

| Fairfax County        | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|-----------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| OpenDoor Housing Fund | \$32,016          | \$32,874                          | \$32,874                          | \$32,890                             | \$32,890                          |

As part of their deliberations on the FY 2005 budget, the Board of Supervisors approved funding of \$31,442 to provide a contribution to the OpenDoor Housing Fund – formerly known as the Washington Area Housing Trust Fund. The general membership of the Council of Governments (COG) recommended that local governments support a voluntary per capita assessment of \$0.03 to fund WAHTF operations. Capital support is provided through the federal government and private sector grants. Operational funding provided by area local governments will be leveraged to attract capitalization dollars. It also allows the trust fund to loan money at a highly subsidized rate, which helps to lower the cost of housing in this region.

During a 2006 strategic planning process, WAHTF realized that its lending was not having a significant enough impact on regional affordable development and that there were opportunities to merge with another successful community development financial institution, the Unitarian Universalist Affordable Housing Corporation in order to maximize efficiency and both organizations' impact. In October 2006, boards of both organizations, which included representation by Fairfax County, approved combining both into one, and is renamed the OpenDoor Housing Fund.

The OpenDoor Housing Fund's mission is unchanged, which is to provide flexible capital from a variety of sources including government, philanthropic and corporate entities to increase the supply of affordable and workforce housing for low and moderate income households and housing for various special needs populations in the Washington metropolitan area; to positively impact the delivery of affordable housing finance in this region; and provide technical assistance to help potential borrowers obtain financing and successfully complete affordable housing development.

In FY 2009, Fairfax County's share for the OpenDoor Housing Fund is \$32,890, an increase of \$16 or 0.1 percent over the FY 2008 Revised Budget Plan.

| Fairfax County              | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |
|-----------------------------|-------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Police and Fire World Games | \$25,000          | \$0                               | \$0                               | \$0                                  | \$0                               |

As part of the FY 2005 Carryover Review, the Board of Supervisors approved \$25,000 in non-recurring funding as seed money for an organization comprised of representatives from the Police and Fire and Rescue Departments, the Office of the Sheriff, Convention and Visitors Corporation, among others, to prepare a bid to host the 2013 Police and Fire World Games. It was intended to enable preparations for a September 2006 site visit to Fairfax County by members of the World Police and Fire Games Federation to evaluate the County's potential as a future host site. It was anticipated that if the County was selected, it would generate considerable revenue through the thousands of visitors that would come to Fairfax County for the Games and stay in local hotels, as well as eat and shop at County establishments.

Following a September 2006 site visit, the County was subsequently notified that the World Police and Fire Games Federation narrowed its selection to the two European countries. As a result, the County team will focus its efforts on the 2015 games and plans to return \$25,000 to the County.

When the Board approved the additional contribution of \$50,000 as part of the FY 2006 Carryover Review, it was with the intent that this funding will be used to attract additional contributions from the private sector; therefore, no funding is included for FY 2009.

| Corporation                   | \$190,550         | \$198,363                         | \$198,363                         | \$203,124                            | \$203,124                         |

The Southeast Fairfax Development Corporation (SFDC) is a private, nonprofit organization that operates under a Memorandum of Understanding between the Fairfax County Board of Supervisors and the SFDC. For almost 25 years, the Corporation has promoted, encouraged, facilitated and guided economic development and revitalization on the 7.5 mile length of Richmond Highway from the Capital Beltway to Fort Belvoir, the largest of the County's seven designated revitalization areas. It provides marketing and promotion aimed at business attraction and retention; direct assistance to developers and businesses; and to a lesser degree, land use planning and coordination with the Richmond Highway community. It is this community consensus that makes revitalization/redevelopment possible. SFDC is committed to improving the quality of life, creation and retention of jobs, community appearance and increased tax base. Its 18-member volunteer Board of Directors is representative of the community.

Total private investment in Richmond Highway in CY 2006-2007 is estimated at over \$874 million. SFDC continues to foster growth in existing businesses, while simultaneously promoting the physical renovation of the area through initiatives involving beautification, developmental planning, and ongoing market studies and needs assessments. SFDC sees an even greater need for its services as a result of the Department of Defense's (DoD) Base Realignment and Closure (BRAC) recommendations announced in May 2005. It is anticipated that over 19,000 DoD employees will be redeployed to Fort Belvoir and the Engineer Proving Grounds, with an additional 23,000 government contracting jobs also expected to relocate to the area. The total FY 2009 Fairfax County contribution for SFDC is \$203,124, which represents an increase of \$4,761 or 2.4 percent over the FY 2008 Revised Budget Plan based on the CPI-U Index.

| VPI/UVA Education Center | \$50,000          | \$50,000                          | \$50,000                          | \$50,000                             | \$50,000                          |

In FY 1995, Fairfax County entered into an agreement with the City of Falls Church, the Virginia Polytechnic Institute and State University (VPI), and the University of Virginia (UVA) to provide support for a new Education Center to be constructed in Falls Church, offering graduate and continuing professional education services. As part of this agreement, the Board of Supervisors agreed to waive all development/regulatory fees and costs, and provide review and inspection services necessary for the development of this center. In addition to one-time FY 1996 sewer availability and connection charges of \$70,881, the County agreed to contribute an annual amount of \$50,000 toward the facility, to be paid each year for 20 years, commencing in FY 1995. The total value of this 20-year contribution will be \$1,000,000.

The total FY 2009 Fairfax County contribution for the VPI/UVA Education Center is \$50,000, which is consistent with the FY 2008 Revised Budget Plan.

| Women's Center of Northern Virginia | \$29,942          | \$29,942                          | \$29,942                          | \$29,942                             | \$29,942                          |

The Women's Center is a private, nonprofit organization that provides personal and professional development services to women in Northern Virginia. Since FY 1978, the Board of Supervisors has contributed to this center in order to provide free or sliding-fee scale services to Fairfax County female residents who are unemployed, separated, abandoned or divorced, and the head of a household. Services include individual

and group workshop sessions for women covering such areas as divorce, separation, financial planning and legal rights. It is anticipated that in FY 2009, 58 percent of requests for service will come from Fairfax County residents.

In FY 2009, the Center anticipates receiving approximately 50,000 requests for services from County residents to meet the interrelated psychological, practical, legal and financial needs of these County residents, many of whom are financially disadvantaged and require low-cost services. Access to these services enables community members to become self-sufficient and ultimately more productive community members.

The total FY 2009 Fairfax County contribution included for this agency is \$29,942, which is consistent with the FY 2008 Revised Budget Plan.

| Washington Area Housing Partnership | \$4,000           | \$0                               | \$0                               | \$0                                  | \$0                               |

During deliberations on the <u>FY 1999 Advertised Budget Plan</u>, the Board of Supervisors first approved recurring funding in the amount of \$4,000 for membership fees in the Washington Area Housing Partnership. This contribution represents membership fees in the Washington Area Housing Partnership, a component of the Metropolitan Washington Council of Governments (COG). This organization is a regional, public/private housing partnership that addresses housing issues in the Washington Metropolitan Area. The Partnership undertakes a neighborhood initiative in each of the Northern Virginia, DC, and suburban Maryland regions annually.

No funding is required for this organization for FY 2009 as COG has indicated it will be funded by general membership dues in the coming fiscal year.

| Fairfax County         | FY 2007<br>Actual | FY 2008<br>Adopted<br>Budget Plan | FY 2008<br>Revised<br>Budget Plan | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

| Wildlife Rescue League | \$10,000          | \$10,000                          | \$10,000                          | \$10,000                             | \$10,000                          |

The Wildlife Rescue League (WRL) is a non-profit organization that provides care for sick, injured and orphaned wildlife in order to return them to the wild. Its volunteers work with licensed rehabilitators throughout Virginia and suburban Maryland, as well as with animal shelters, humane societies, wildlife groups, nature centers and veterinary hospitals to provide care. WRL estimates 65 percent of the calls received are from Fairfax County residents. The WRL is entirely run by volunteers and has no paid staff.

The WRL operates a hotline in Northern Virginia and surrounding areas to assist the public in obtaining information and help in locating a wildlife rehabilitator. They also educate the public about the natural history of native wildlife and how to coexist with it, as well as how to prevent the need for wildlife rehabilitation.

As part of the FY 2004 Carryover Review, the Board of Supervisors first approved funding of \$10,000 for this organization. The FY 2009 contribution remains at that level.

|----------------------------|---------------------------|-----------------------------------|-----------------------------------|--------------------------------------|-----------------------------------|
| Fairfax Public Law Library | \$5 <i>7,</i> 65 <i>7</i> | \$92,657                          | \$92,657                          | \$92,657                             | \$92,657                          |

The mission of the Fairfax Public Law Library is to promote justice by providing all citizens with access to legal information. The legal resources available in the Law Library are not available to the public at any other single location within the County. In 2001, Fairfax County, the Clerk of the Court, and the Fairfax Bar Association (FBA) entered into an agreement with regard to the Law Library. The agreement provides that Fairfax County, through the Fairfax County Public Library (FCPL), shall have primary responsibility for the administration of the Law Library, while the FBA has primary responsibility for its management.

The Law Library receives over 66 percent of its funding from assessments of \$4 on civil case filings in the General District and Circuit Courts. This is projected at \$196,000 in FY 2009. The annual contribution of \$92,657 from the County is provided to assist the Law Library with operational costs. Other revenue projected for FY 2009 includes \$22,000 earned for Library services including copier charges, \$15,000 from the Fairfax Bar Foundation, \$7,300 in miscellaneous income, and \$100 from the Friends of the Law Library for a total of \$333,057.

Currently located in the recently expanded Fairfax County Judicial Center, the Fairfax Public Law Library assists the public as well as members of the legal community with locating sources for legal information and provides bibliographic instruction. In addition to the collection, the Law Library has four work stations dedicated to providing general information on divorce, immigration, estate planning and employment for patrons, as well as five computer work stations where the public may access legal materials on CD-ROMs and online databases. In recent years, the Law Library has decreased its printed materials and increased subscriptions to online databases as a result of decreased filing fees.

In spring 2008, the Law Library moved from its old location to the the first floor of the expanded court house facility. The Fairfax Public Law Library anticipates that it will serve over 80,000 patrons in FY 2009, approximately 38 percent of whom are legal professionals, while the remaining 54 percent are from the general public. Many are in need of legal information because they are unable to afford legal representation but do not qualify for free legal services.

The total FY 2009 Fairfax County funding for this agency is \$92,657, is unchanged from the FY 2008 Revised Budget Plan.

<sup>&</sup>lt;sup>1</sup> For several contributory agencies where Fairfax County funding is based upon actual usage that can fluctuate, unused appropriation falls to fund balance, which is then reappropriated after leaving a nominal balance for flexibility.

# Contributory Fund Fund 703 - NOVARIS

## **Non-Appropriated Funds**

Fairfax County exercises a fiduciary responsibility for the financial management and operation of the Northern Virginia Regional Identification System (NOVARIS). Therefore, this fund is displayed here for information. Participating Washington Metropolitan Area jurisdictions share costs associated with NOVARIS based on the sworn police population of each jurisdiction as approved by the NOVARIS Advisory Board on July 30, 1997. In FY 2008, Montgomery and Prince George's Counties no longer participate in NOVARIS, as those jurisdictions have joined a Maryland regional fingerprint system. However, Loudoun County and the Virginia State Police joined NOVARIS in FY 2008.

The Fairfax County contribution is made through the Contributory Fund. The total Fairfax County FY 2009 contribution is \$22,551. The total contribution consists of \$20,526, which represents the County's annual share of costs associated with operations and upgrades of NOVARIS and \$2,025 in funding for lease agreements and other costs associated with equipment that is specific to Fairfax County operations. The NOVARIS Fund Statement is shown on the next page.

NOVARIS utilizes state-of-the-art computer equipment to identify criminals by categorizing and matching fingerprints. It enables police to match a fingerprint found at the scene of a crime with any individual who has been arrested in the Washington metropolitan area by comparing the print or partial print with all prints in the database. In FY 2007, 80,411 fingerprint cards were entered into the system and the database, which helped to identify over 10,000 fingerprints.

In January 2007, NOVARIS completed upgrading the entire Automated Fingerprint Identification System (AFIS), which included enhanced technologies such as palm print and biometric recognition capabilities. Funding of \$8.65 million was secured through an Urban Areas Security Initiative (UASI) grant to cover the cost of AFIS system replacements for the National Capital Region, including NOVARIS, the District of Columbia, as well as Prince George's County and Montgomery County.

In FY 2008, NOVARIS was awarded additional UASI funds for the maintenance of the new system which reduces member jurisdictions' payments in FY 2009 and FY 2010. Future grants will be explored to fund maintenance after FY 2010.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$21 has been reflected as an increase to FY 2007 revenues to reflect interest earned. The audit adjustment was included in the FY 2007 Comprehensive Annual Financial Report (CAFR). Details of the FY 2007 audit adjustment were included in the FY 2007 Third Quarter Package.

<sup>&</sup>lt;sup>2</sup> This represents the lease/purchase associated with digital photography equipment, and other maintenance expenses paid for by Fairfax County only.

<sup>&</sup>lt;sup>3</sup> Ending balances fluctuate due to variable expenditure requirements and the carryover of unspent funds.

### Mission

We at the Fairfax County Department of Public Safety Communications are the first of the first responders. We are committed to answering all 9-1-1 and non-emergency calls with professionalism, integrity and compassion while efficiently dispatching police, fire and emergency medical services. Customer service is essential to our success, so we treat each caller with empathy and respect. Our dedicated and highly trained professionals routinely offer life-saving medical instructions in addition to providing accurate public safety information. Fairfax County 9-1-1: always there, always ready.

#### **Focus**

The activities and programs in Fund 120, E-911 provides support to the operations of the Department of Public Safety Communications (DPSC) and various other public safety information technology projects. The DPSC is the designated 9-1-1 Public Safety Answering Point (PSAP) for all 9-1-1 calls originating within Fairfax County as well as the city and towns within it. The agency also provides Emergency Medical Dispatch (EMD)/Pre-Arrival Instruction (PAI), which is an emergency medical service (EMS) intervention program where DPSC call takers provide emergency medical instructions until fire-rescue units arrive on the scene. Due to the vital, mission-critical, and time sensitive service provided by DPSC personnel, they can, in many ways, be recognized as the first of the first responders. Additionally, DPSC receives all commercial and residential security, fire and medical alarm calls via private alarm companies. Non-emergency services provided include responding to police non-emergency calls received on non-emergency phone lines; reporting of towed vehicles and private vehicle impounds; and calls that ultimately get routed to the Animal Control Unit for resolution. The department also provides National Crime Information Computer (NCIC) and Virginia Criminal

Information Network (VCIN) teletype operations related to property (e.g., stolen guns and vehicles), people (e.g., protective orders and missing persons), events (e.g., fatal accidents and security matters ), queries (e.g., wanted persons/warrant confirmation). These operations ensure information is shared with the appropriate authorities within the County and on a regional, and federal state level. Additionally, DPSC serves as the official custodian of more than 8,700 hours of audio recordings of all telephone calls and radio traffic pertaining to public safety as the law requires. DPSC receives and responds to court

FY 2009 Adopted Budget Plan (Vol. 2) - 294

subpoenas and Freedom of Information Act (FOIA) requests for audio transmissions. Audio recordings are also maintained for quality assurance and training purposes.

#### **Department of Public Safety Communications**

In FY 2005, the County identified several operational issues within the existing Public Safety Communication Center (PSCC). Issues reviewed and addressed included: organizational placement of the PSCC within County government to ensure an effective representation of its broad public safety service role and broad client base; organizational leadership and management to both reframe the role of the Director position from a sworn officer in the Police Department chain of command structure to a civilian position who will work with additional management level staff to support and encourage innovation and improved efficiency and performance; operational and performance measurement to standardize the process for quality control and quality assurance, and to monitor a complex budget of multiple funding streams and the allocation of funds to the attainment of performance objectives; and recruitment and retention issues. Additionally, as a result of this internal review of existing operations, a change plan was developed to provide a framework for facilitating successful implementation of both current and future action steps. The reorganization of the existing Public Safety Communications Center was a first step in the change plan.

In FY 2006, the Center was moved from a division within the Police Department to independent agency status in Fund 120 as Agency 95, Department of Public Safety Communications. This agency now reports to the Deputy County Executive, along with the other public safety agencies. Early efforts of the new agency centered on reengineering the recruitment program; redesigning the new hire program; promoting programs to encourage retention; enhancing the management structure to provide leadership in the areas of client services and call center operations; and developing of business analyses to measure and monitor performance. The agency will continue to focus on these types of organizational issues into FY 2009 and beyond.

The first-responder positions within the department (primarily Public Safety Communicator positions performing call taking and call dispatch functions) were also moved from the Fairfax County Employees' Retirement System to the Uniformed Retirement System, reflecting consistency within County public safety agencies for front line, first-responder staff. The Uniformed Retirement System is structured to compensate employees who daily perform first-responder functions in a high stress environment. All new hires into first-responder positions within the department are part of the Uniformed Retirement System, and existing first-responder staff had the option of converting to that system in FY 2006.

The changes underway at the DPSC have already begun to have a positive impact on operations and agency leadership is focused on maintaining the momentum of positive change, with emphasis on improving call statistics, recruitment and retention, training, and proactive planning for the DPSC's move to the McConnel Public Safety and Transportation Operations Center (MPSTOC), scheduled for completion in Spring/Summer 2008. As a critical operation in Fairfax County that affects the lives and safety of residents, the changes underway are intended to ensure that the DPSC is able to provide world-class public safety communication services.

#### Public Safety Information Technology Projects

In 1995, an IT project was established to replace and upgrade the County's Public Safety Communications Network (PSCN) and its components. The PSCN supports emergency communications of the Police Department, Fire and Rescue Department, and Office of the Sheriff. This includes public safety call taking (E-911, cellular E-911, and non-emergency), dispatching, and all affiliated communications support. Two of the major technologies utilized are a Computer Aided Dispatch (CAD) system with an integrated mobile data communications component and a wireless radio network for voice communications. The CAD system is used to dispatch appropriate equipment and personnel to events and emergencies and to communicate and track up-to-date information in a rapidly changing environment. The mobile data communications component of CAD allows the dispatch of resources with minimal voice communications, provides field units direct access to local, state, and national databases, and allows continuous contact with the Department of Public Safety Communications.

Installation of the radio network was completed and brought online in October 2000. Subsequent to the September 11, 2001 terrorist attacks, a reevaluation of the network determined that three additional tower sites needed to be added to ensure proper coverage to areas of the County that had grown more populous since the original propagation studies were completed. This expansion was funded through a Homeland Defense grant and is now complete.

In FY 2009, IT Projects expenditure requirements are increasing from the FY 2008 adopted budget funding level, primarily due to an upgrade to the Public Safety Radio System and the purchase of telephone training workstations to be used by the DPSC for call taker training. In addition, on-going operational funding is often necessary for maintenance and support of these IT Projects systems. As in FY 2008, other IT Projects are also required to provide replacement and enhancement of existing systems and equipment. This is necessary to maintain performance, availability, reliability, and capacity for growth due to increases in County population and demand for public safety services. FY 2009 IT Project funding includes support for the replacement cycle of portable two-way radios (currently in use by the Police Department, Fire and Rescue Department and the Office of the Sheriff) and continuation of Mobile Computer Terminal replacements. The replacement and upgrade of these items is critical to the operation of the Public Safety Communications Network (PSCN). IT Project funding reflects a prioritization of public safety communications needs. Continued future support for the PSCN's component systems and equipment is vital for ensuring immediate and systematic response to emergencies.

#### Revenues

Prior to January 2007, Fund 120 was supported by revenue from estimated E-911 fees, Commonwealth reimbursement associated with Wireless E-911, and a General Fund Transfer supporting any difference between revenues and expenditures. The E-911 tax applied to eligible phone lines was adjusted in FY 2006 to match the state authorized maximum charge per line of \$3.00 per month. However, effective January 1, 2007, House Bill 568 as put forth by the Virginia General Assembly, replaces many of the current state and local communications taxes and fees with a centrally administered communications sales and use tax. As part of this restructuring, the \$3.00 E-911 tax has been repealed and replaced with a uniform statewide E-911 tax on landline telephone service. The new landline E-911 tax is administered by the Virginia Department of Taxation and will be imposed on the end user of each access line at the rate of \$0.75 per line. The new tax will appear as a line item on customers' bills.

Revenues from the communications sales and use tax, a public rights-of-way use fee imposed on cable television providers, and the landline E-911 tax is collected and remitted monthly by communications services providers into a new statewide fund, to be known as the Communications Sales and Use Tax Trust Fund. Revenue received into the fund is distributed to localities based on their share of the total local revenues received in FY 2007. Revenues generated by the new landline E-911 tax, as well as other taxes and fees, are collected by the Department of Taxation, deposited into the Communications Sales and Use Tax Trust Fund, and then allocated and distributed to localities. Since the new tax structure took effect mid-way through FY 2007, County staff will be monitoring its impact and will make any necessary adjustment to FY 2009 estimates, if needed, at a regularly scheduled quarterly budget review. In addition, the Wireless E-911 monthly \$0.75 surcharge on all wireless lines will remain and be distributed to localities as part of the Wireless E-911 State Reimbursement.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Changed the CAD system to allow continued access to the Virginia Crime Information Network (VCIN) as a result of state mandated security changes. Additional enhancements will be required in FY 2009 to meet newly identified operational needs.  | V                 | ¥                     |
| Reorganized fire call dispatch operations to have five DPSC dispatchers assigned and available so as to manage multiple simultaneous fire incidents and to provide one relief fire dispatcher.   | A                 |                       |
| <b>Building Livable Spaces</b>   | Recent<br>Success | FY 2009<br>Initiative |
| Continue planning and design phases of the development of the McConnel Public Safety and Transportation Operations Center (MPSTOC) in collaboration with the Commonwealth of Virginia. Site infrastructure construction began in Fall 2005, and construction of the facility commenced in Spring 2006. MPSTOC will house critical safety, transportation and security components of both County and state operations. These include the Department of Public Safety Communications (DPSC), the Emergency Operations Center (EOC), as well as the Virginia Department of Transportation (VDOT) Smart Traffic and Signal Centers and the State Police Communications Center. | <b>A</b>          | R                     |
| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
| Continue the development of a community outreach program to enhance residents' awareness of "who to call when."  | Ø                 | Ø                     |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$222,073

An increase of \$222,073 in Personnel Services associated with salary adjustments necessary to support the County's compensation program including merit increases for uniformed employees based on their current grades and steps and pay for performance increases for non-uniformed staff. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### ♦ Market Rate Adjustment

\$255,272

An increase of \$212,750 in Personnel Services based on the FY 2009 Market Index of 2.96 percent discounted by 50 percent is included for employees on the public safety pay scales (C, F, O and P), effective the first full pay period of FY 2009. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, the market rate adjustment for uniformed employees has been discounted by 50 percent to 1.48 percent and the impact of the lower market rate adjustment funding is reflected above.

#### **♦** Personnel Services Reduction

(\$396.129)

A decrease of \$396,129 in Personnel Services as part of an across-the-board reduction to meet budget limitations based on available revenues as a result of the continued softening of the residential real estate market.

### **♦** Public Safety Operating Expenses

\$788,484

An increase of \$783,958 in Operating Expenses primarily associated with charges associated with the need for temporary redundancy of the Computer Aided Dispatch (CAD), telephone, and radio services as the Public Safety Communications Center relocates to PSTOC. Also included is \$4,526 in increased Department of Vehicle Services charges related to increased fuel costs.

#### ♦ Other Information Technology Operating Expenses

\$70,611

An increase of \$70,611 in Operating Expenses primarily associated with increased repair and maintenance costs for radio transmit sites, towers, and antenna systems used for the public safety radio system.

#### **♦** Carryover Adjustments

(\$5,287,181)

A decrease of \$5,287,181 for one-time purchases carried forward at the FY 2007 Carryover Review.

♦ IT Projects \$7,984,403

Funding of \$7,984,403 has been included in IT Projects, including \$3,008,079 for the first year of a five-year lease-purchase agreement for the new Public Safety Radio System; \$3,300,000 for the second year of the five-year replacement cycle for mobile computer terminals; \$945,000 to complete the five-year lease payment obligation for the Public Safety Subscriber Radio (mobile and portable radios) in use by the Police Department, the Fire and Rescue Department, and the Office of the Sheriff; and \$731,324 for 10 telephone training workstations to be used by the DPSC for call taker training on the new system. Details of specific projects are included on the Project Detail Table that follows.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$17,127

An increase of \$17,127 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Market Rate Adjustment

\$255,272

An increase of \$255,272 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to the Market Rate Adjustment for employees on the public safety pay scales (C, F, O and P). A reduction to the Market Rate Adjustment had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, uniformed employees will be eligible for the full 2.96 percent increase, based on the FY 2009 Market Index, effective the first full pay period of FY 2009.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$1,182,891

As part of the FY 2007 Carryover Review, \$1,182,891 was carried forward into FY 2008. Of this amount, \$1,044,883 was included as encumbered carryover and \$138,008 as unencumbered carryover.

#### **♦** Carryover Adjustments

\$4.104.290

As part of the FY 2007 Carryover Review, unexpended IT project balances of \$4,104,290 were carried forward into FY 2008 to complete current projects.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦ Third Quarter Adjustments**

(\$198,065)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$198,065 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

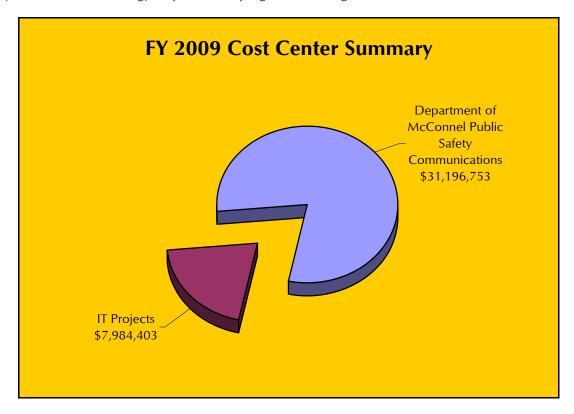

#### **♦** Third Quarter Adjustments

\$832,662

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$832,662 in Operating Expenses cost reimbursement associated with required work to support the Nextel 800 MHz rebanding initiative. The Nextel 800 MHz rebanding initiative is a National Capital Region rebanding effort which requires Sprint Nextel to pay the cost of reassigning the radio frequency spectrum used by Sprint Nextel and other local governments.

## **Cost Centers**

The two cost centers of the Fund include the Department of Public Safety Communications and the Public Safety Information Technology Projects. Both programs work together to fulfill the mission of the Fund.

## **Key Performance Measures**

#### Goal

To provide the telecommunications necessary for the rapid dispatch of Police and Fire and Rescue units to the scene of citizen or other agency requests for assistance. To maintain effective command, control, communications, and information support for public safety field personnel required for the safe, orderly conduct of public safety activities 24 hours a day, 365 days a year.

#### **Objectives**

- ♦ To contribute to the prompt response of field personnel by dispatching emergency calls for services (Priority I-life threatening) within 1.5 minutes (average).
- ♦ To contribute to the prompt response of field personnel by dispatching emergency calls for services (Priority II-serious threat to property or public order) within 1.9 minutes (average).
- ♦ To contribute to the prompt and efficient response of field personnel by dispatching non-emergency calls for services (Priority III-threat to public safety or convenience) within 8.0 minutes (average).

| Dispatch time (in minutes) for Priority III: non-emergency/threat to public safety or convenience | 7.7               | 9.9               | 8.0 / 9.8                  | 8.0                | 8.0     |

### **Performance Measurement Results**

While the Public Safety Communicators of DPSC successfully met the FY 2007 targets for dispatching Priority 1 (life threatening) emergency calls for services, a continued shortage of personnel caused by both a shortage in fully trained staffing and the departure of several skilled, veteran employees led to the agency not meeting its FY 2007 targets for dispatching Priority 2 (serious threat to property or public order) emergency calls for services and for dispatching Priority 3 (threat to public safety or convenience) non-emergency calls for services.

### **FUND STATEMENT**

| <b>Total Disbursements</b>         | \$29,496,406      | \$37,287,122                      | \$43,208,900                      | \$38,908,757                         | \$39,181,156                      |
| <b>Ending Balance</b> <sup>3</sup> | \$13,130,263      | \$2,838,943                       | \$4,316,552                       | \$249,999                            | \$249,999                         |

<sup>&</sup>lt;sup>1</sup> The E-911 tax rate was increased from \$2.50 per line per month to \$3.00 per line per month on September 1, 2005. However, effective January 1, 2007 this fee was repealed under Virginia Assembly HB 568 and replaced by a statewide uniform landline E-911 tax at the rate of \$0.75 per line per month. The new tax will be administered by the Virginia Department of Taxation and deposited into a new Communications and Sales Use Tax Trust Fund, along with other communications and sales use taxes. Monies into the Fund will be distributed to localities on a monthly basis.

<sup>&</sup>lt;sup>2</sup> This revenue category includes FY 2007 actual, FY 2009 Advertised, and FY 2009 Adopted revenue from the City of Fairfax for dispatch services, as well as an FY 2008 Revised estimate of \$832,662 to reflect income from Nextel to cover County expenses related to the Nextel 800 MHz rebanding initiative.

<sup>&</sup>lt;sup>3</sup> IT projects are budgeted based on the total project costs and most projects span multiple years. Therefore, funding for IT projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

This project was established in FY 1995 to replace and upgrade the County's critical Public Safety Communications Network (PSCN) and its component systems. The network's component systems are vital for ensuring immediate and systematic response to emergencies, and replacement and enhancement is necessary to maintain performance, availability, reliability, and capacity for growth due to increases in County population and demand for public safety services. The PSCN supports emergency communications of the Police, Fire and Rescue, and Sheriff's departments. This includes public safety call taking (E-911, Cellular E-911, non-emergency), dispatching, and all affiliated communications support. Two of the major technologies utilized are a Computer Aided Dispatch (CAD) system with an integrated mobile data communications component and a wireless digital radio network for voice communications.

The CAD system is used to dispatch appropriate equipment and personnel to events and emergencies and to communicate and track up-to-date information in a rapidly changing environment. The mobile data communications component of CAD allows the dispatch of resources with minimal voice communications, provides field units direct access to local, state, and national databases, and allows continuous contact with the Public Safety Communications Center (PSCC). As needed, this project provides funding for upgrades to the CAD and its mobile data communications component, originally implemented in 1986. The old systems were technologically obsolete, severely undersized, and at the end of their effective, supportable life cycle. Upgrades ensure continued reliable operation of these critical systems, incorporates software, hardware, and user functionality advances made since the 1980's, and allow for future migration in capability as new technologies emerge.

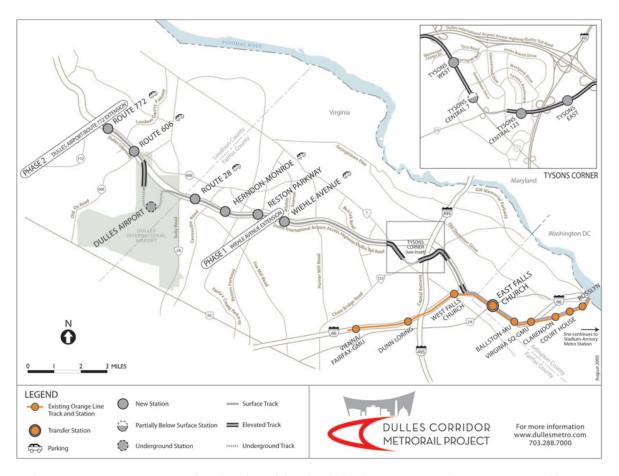

Fairfax County migrated to the new digital radio network in FY 2006 to accommodate growing public safety voice communications requirements and to remedy performance, coverage, fragmentation, and reliability problems associated with an aging, technologically obsolete system at the very end of its sustainable life cycle. Deficiencies in the old system severely impeded critical communications and safety in emergency situations. The new trunked wireless digital voice communications system consolidates all County public safety voice communication and is designed to address coverage, reliability, and operational limitations of the old system used by public safety agencies in the County. It provides capacity for growth and enhancement for the next twenty years.

FY 2009 funding is included for: completion of the five-year lease payment obligation for the portable two-way radios currently in use by the Police Department, the Fire and Rescue Department, and the Office of the Sheriff (\$945,000) and the second year of a five-year replacement cycle for Mobile Computer Terminals (MCTs) (\$3,300,000). Both the two-way portable radios and the MCTs have a useful life of five years. For FY 2009, the County will be upgrading its Public Safety Radio System to a newer technology platform (\$3,008,079), in conjunction with the activation of the PSTOC facility. In October 2007, the County Executive endorsed this measure. The FY 2009 projection represents project costs and Year One of a lease-purchase agreement for the new network infrastructure. The DPSC Vesta 911 and Backup Telephone Training Workstations project represents 10 telephone training workstations to be used by the DPSC for call taker training on the new telephone system (\$731,324).

**Return on Investment (ROI):** The return on investment for this project is realized by the performance, productivity, and effectiveness of public safety services in Fairfax County. Replaced and upgraded technology for these systems is critical to the safety of the public and the public safety personnel they support. Upgraded technology preserves the investments in technology that have been made and allow increased functionality, performance, and reliability to be achieved to facilitate responses to, and management of, emergencies. It mitigates the need for extraordinarily large additions of personnel that would be necessary to provide the same level of service and results without this technology. The increased access to important information, improvements to maintenance and reliability, increased capacity for growth, and enhanced functionality for users now and in the future builds upon past investments, responds to critical existing requirements, and sets the stage for the next generation of public safety communications technology.

### **Focus**

Metrorail service is planned to be extended approximately 23 miles from an area east of West Falls Church station, along the median of the Dulles Connector Road (DCR) through Tysons Corner, then further out the Dulles International Airport Access Highway (DIAAH), through Dulles International Airport, to Route 772 in Loudoun County. The total cost of the Rail to Dulles Project currently is estimated to be approximately \$5.2 billion. Due to financial constraints imposed by the federal government, which are expected to limit federal funding to approximately \$900 million; the project is currently expected to be completed in two phases. Phase I is expected to cost approximately \$2.64 billion for the segment from the Metrorail Orange line to Wiehle Avenue in Reston, including construction of five new stations. Final cost estimates for Phase II, from Wiehle Avenue, through Dulles Airport to Route 772 in Loudoun County, are expected to be developed during FY 2009.

The total project costs are expected to be shared by the federal government, the Commonwealth, Fairfax County, Loudoun County, Metropolitan Washington Airports Authority (MWAA) and operation of the Dulles Toll Road. It should be noted that the County's participation rate is determined on the basis of total project costs and sharing the cost of common features necessary to complete an operational line, such as soft costs, rail yards and power stations.

The primary source of revenue to support construction of the rail line is expected to be tolls from the Dulles Toll Road. There is currently an agreement to transfer control and operation of the Dulles Toll Road from the Commonwealth to MWAA, contingent on the successful negotiation of an acceptable contract as well as other project conditions. For Phase I, the local funding partners, Fairfax County, Loudoun County, and MWAA have entered into an agreement which specifies the level of funding responsibility for each partner; the Fairfax share is approximately 16.1 percent of total costs or approximately \$400.0 million. This is also the maximum permitted under the terms of the Phase I Tax District.

On January 21, 2004, a petition was filed with the Clerk to the Board of Supervisors (the Petition) by owners of commercial and industrial property (the Petitioners) asking the Board of Supervisors to create a Phase I Dulles Rail Transportation Improvement District (the Phase I District), as provided by Chapter 15 of Title 33.1 of the <u>Code of Virginia</u>, as amended (the Act). The Act is similar although not identical to the law that empowered the Board and the Board of Supervisors of Loudoun County to create the Route 28 Highway Transportation Improvement District (the Route 28 District) in both counties in 1988.

The Phase I District was approved and established by the Board of Supervisors on February 23, 2004, following a public hearing. The Phase I District is governed by a District Commission, consisting of four Board members and the Chairman of the Commonwealth Transportation Board (CTB) or his/her designee. The District Commission is advised by a District Advisory Board, composed of landowner representatives. This is the same basic governance structure used for the Route 28 District.

Commercial and industrial property within the district created pursuant to the Act can be taxed to raise funds for transportation improvements in the district. Such a district can be created upon the petition of the owners of at least 51 percent, measured by land area or assessed value, of the real property located within the proposed district that is zoned or used for commercial or industrial purposes. The properties listed on the signature pages of the Petition constituted over 64 percent of such property located within the Phase I District, measured by assessed value.

Per the <u>Code of Virginia</u> § 33.1-435, properties zoned to permit multi-unit residential use but not yet used for that purpose and multi-unit properties primarily leased or rented to residential tenants or other occupants by an owner who is engaged in such a business are deemed to be in commercial use for purposes of the Act. But no other residential properties are subject to any tax that may be levied on behalf of such a district, even if they are within the boundaries of such a district.

The boundaries, as proposed by the Petitioners, encompass most if not all of the Tysons Corner Urban Center, commercial and industrial properties near the proposed Metrorail station at Wiehle Avenue, and the necessary DAAR right-of-way.

The proposed transportation improvements include that portion in the Phase I District of the capital improvements described as the Locally Preferred Alternative (LPA) in a resolution of the Board of Directors of the Washington Metropolitan Area Transit Authority (WMATA), adopted on November 21, 2002.

The Petitioners will contribute up to \$400.0 million of the County's share for Phase I through the imposition of a voluntary tax on commercial and industrial properties within the Phase I District. Included in the proposal is a provision for full coverage of the long-term financing costs for the County's net share of construction costs. At the maximum contribution, under the current plan, the total expected cost including interest costs over the life of the district to be provided by the tax on behalf of the Phase I District is approximately \$882.5 million. As of December 2006, funds for the tax district are expected to fully fund the County's expected share of Phase I costs. Funding requirements in excess of the amount to be provided by the District are expected to be funded by other available revenue sources.

The plan as set forth in the Petition contains specific provisions regarding timing, tax rates, total costs, and percentage of costs to be paid with Phase I District revenue. The plan contemplates the establishment of a Revenue Stabilization Fund (RSF) with early collection of taxes commencing in FY 2005 to build reasonable reserves to help maintain the rate parameters in view of the cyclic pattern of changes in assessed value from year to year. It is anticipated that the RSF and perhaps other rate or coverage covenants will be required by rating agencies to achieve an investment grade rating on bonds issued that are supported by Phase I District tax revenues.

Under the terms of the petition, before any Phase I District revenues are committed the tax rate is capped at 22 cents per \$100 of assessed value, and taxes collected accumulate in the RSF. If a federal Full Funding Grant Agreement (FFGA) for Phase I is not executed, then the owners of 51 percent of the commercial and industrial property within the Phase I District may petition for its dissolution, and individual property owners can ask for the return of taxes previously paid and accumulated in the RSF.

Before committing Phase I District tax revenues, the District Commission must determine that the District's actual share of the financing will not exceed \$400 million of construction funds for Phase I costs, and that a tax rate of no more than 29 cents per \$100 of assessed value will be sufficient to meet the Phase I District's obligations at an assumed rate of growth in assessed value of 1.5 percent. If at the time the District Commission expects either of those parameters to be exceeded, then they must seek approval from the owners of 51 percent of the commercial or industrial property within the Phase I District before proceeding to commit the revenues.

However, once Phase I District revenues have been committed, allowing the financing to be put into place for the sale of bonds supported by those revenues, there is no "hard" cap on the Phase I District tax rate other than the statutory cap of 40 cents per \$100 of assessed value. Thus there would be full latitude to set the tax rate up to the statutory maximum, if necessary, to meet the obligations of the Phase I District, e.g., if necessary to meet debt service requirements in the event assessed value growth rates cannot be sustained at 1.5 percent or greater.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Debt Service Payments

\$650,000

An increase of \$650,000 is estimated for interim debt service financing based on total project expenditure projections and the percentage share for the District's contribution. A bond sale will be planned for FY 2009 or FY 2010 in order to provide the permanent financing.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ There have been no revisions to this fund since approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

# Fund 124 County and Regional Transportation Projects

#### **Focus**

New opportunities to improve transportation and pedestrian access are supported by the creation of a new fund, Fund 124, County and Regional Transportation Projects. The FY 2009 budget includes newly authorized annual funding realized through an increase in the commercial real estate tax rate. These funds will support roadway, pedestrian and transit projects and will provide the opportunity for the County to accelerate the implementation of projects on its long term transportation plan and address transportation requirements that have been long unaddressed due to funding constraints. This new annual funding is authorized under the Transportation Funding and Reform Act of 2007 (HB 3202), approved by the Virginia Assembly on April 4, 2007.

HB 3202 authorized both a County increase in the commercial real estate tax of up to 25 cents, as well new regional taxes and fees to be imposed by the Northern Virginia Transportation Authority (NVTA). NVTA was established by the General Assembly in April 2002 and is responsible for long-range planning and prioritizing regional transportation projects in northern Virginia, including roadways and mass transit. The Authority includes the Counties of Arlington, Fairfax, Loudoun and Prince William, and the Cities of Alexandria, Fairfax, Falls Church, Manassas and Manassas Park. The regional taxes and fees would have raised approximately \$300 million annually for transportation funding in northern Virginia. In February 2008 the Virginia Supreme Court ruled the taxing authority of the NVTA was unconstitutional, invalidating a significant source of this revenue. However, the County's authority to implement an increase in the commercial real estate tax was not affected by the Supreme Court decision.

As part of its deliberations on the FY 2009 budget, the Board of Supervisors approved a commercial real estate tax for transportation rate of 11 cent/\$100 assessed value. This increase will provide approximately \$52 million in new transportation dollars for capital and transit projects in FY 2009. A small portion of those revenues is anticipated to support debt service on a planned \$50 million transportation revenue bond through the Economic Development Authority (EDA). Discussions will continue at the State level on how best to replace the lost NVTA regional funding to meet the transportation challenges of Northern Virginia. Budget adjustments will be made at a future quarterly review to reflect State action to restore or not to restore that funding. At this time, all project funds are held in a Capital Project Reserve for priority projects endorsed by the Board of Supervisors on May 5, 2008.

In FY 2009, the County will improve its capacity to manage an expanded project workload resulting from new transportation funding through the addition of 19/19.0 SYE new staff positions in Fund 124, as approved by the Board of Supervisors in its deliberations on the FY 2009 budget. New staff funding is fully supported by the commercial real estate tax rate and will be phased in over a two year period according to workload requirements. In addition, the Fairfax County Department of Transportation (FCDOT) will streamline the management of transportation projects through staff consolidation. The FCDOT General Fund budget, presented in Volume 1, will now include 75 existing FCDOT staff positions, 13 grant positions, as well as 18 DPWES positions who currently support planning and design for roadway improvements. FCDOT will manage existing General Fund staff and the new Fund 124 staff as a single co-located workforce. This central collocation will enable the County to effectively prioritize, plan, manage and spend current and new transportation funds in order to improve traffic flow, transit and general mobility of Fairfax County residents. In addition, a redesign of the transportation capital projects management function will include the institution of a General Engineering Contract to provide a balance of outside experience and in-house knowledge to swiftly advance the completion of planned projects and provide the necessary coordination with the Virginia Department of Transportation, regional transportation agencies, and local affected communities.

# Fund 124 County and Regional Transportation Projects

It is noted that, as part of the <u>FY 2009 Adopted Budget Plan</u>, Spot Improvements of \$1.0 million (previously funded in Fund 304, Transportation Improvements), \$100,000 for the Road Viewers and Road Maintenance Programs (previously funded in Fund 303, County Construction) and \$100,000 for critical maintenance of existing walkways (previously funded in Fund 307, Pedestrian Walkway Improvements), will be supported by this new fund from within the Capital Reserve Project balances.

Department of Transportation initiatives and accomplishments can be found in the Department of Transportation General Fund budget, Volume 1. Additional initiatives will be added in future fiscal years to reflect progress on an expanded number of roadway, pedestrian and transit projects.

| Total Disbursements                 | \$0               | \$0                    | \$0                    | \$112,889,079             | \$111,700,000          |
| Ending Balance                      | \$0               | \$0                    | \$0                    | \$0                       | \$0                    |

<sup>&</sup>lt;sup>1</sup> Fairfax County's receipt of new regional transportation dollars is contingent on General Assembly action to restore anticipated transportation funding that was eliminated by the February 2008 Supreme Court decision that the new regional taxing authority granted by the General Assembly to the Northern Virginia Transportation Authority was unconstitutional. Appropriate adjustments will be made at a future quarterly review.

<sup>&</sup>lt;sup>2</sup> As part of its action on the FY 2009 Budget Plan, the Board of Supervisors approved a rate of 11 cents/\$100 assessed value to the commercial real estate tax for transportation. The value of a penny increase is approximately \$4.7 million dollars. This amount is a decrease from the previous FY 2009 Advertised Budget Plan estimate of a 12 cent increase based on an estimated penny value of \$4.4 million.

<sup>&</sup>lt;sup>3</sup> The FY 2009 Advertised Budget Plan for Fund 124 had included funding for existing staff, and revenue associated with existing programs that had previously been budgeted within the General Fund Department of Transportation. Revenue included the Seniors on the Go Program, TaxiAccess Program, and parking decals. Based on Board of Supervisor budget actions, funding for existing staff and revenue estimates associated with existing programs have been returned to the General Fund.

<sup>&</sup>lt;sup>4</sup> Capital Projects include roadway, pedestrian and transit funding held in within a Capital Projects Reserve. Adjustments to reflect project funding under individual capital projects will be made at a future quarterly review. Within the total amount available for Capital Projects, funding support is included for Spot Improvements, the Road Viewers Program, the Road Maintenance Program, and critical walkway improvements.

# Fund 191 Public School Food and Nutrition Services

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 191, Fairfax County Public Schools Food and Nutrition Services, totals \$74.9 million in FY 2009 for all Food Service's operational and administrative costs. This fund is entirely self-supporting and is operated under the federally-funded National School Lunch and Child Nutrition Acts.

The Food and Nutrition Services program:

- Procures, prepares and serves lunches and a la carte items to over 145,000 customers daily;
- Offers breakfasts in 162 schools and centers;

Other responsibilities include nutrition education, enforcement of sanitary practices, specifications for food and equipment, and layout and design of kitchens in new schools.

No support from Fund 090, School Operating Fund, is required as sufficient revenues are derived from food sales and federal and state aid.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$66,693.00 has been reflected as a decrease to FY 2007 revenues and an audit adjustment of \$43,009.00 has been reflected as an increase to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008 during their FY 2008 Third Quarter Review.

<sup>&</sup>lt;sup>3</sup> Reflects \$9,024,636 in projected FY 2008 ending balance to be carried over to fund the FY 2009 budget.

# Fund 192 Public School Grants and Self-Supporting Programs

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 192, Public School Grants and Self-Supporting Programs, totals \$57.6 million for FY 2009 and consists of two subfunds: the Grants Subfund and the Summer School and Standards of Learning (SOL) Remediation Subfund. FY 2009 revenue reflects federal, state and private industry grants, summer school fees and transfers from Fund 090, School Operating, and Fund 105, Cable Communications.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$3,112,230 has been reflected as a decrease to FY 2007 revenues and an audit adjustment of \$39,371 has been reflected as a decrease to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008, during their FY 2008 Third Quarter Review.

<sup>&</sup>lt;sup>3</sup> The FY 2009 Adopted Budget Plan transfer from the County Cable Communications Fund as well as the corresponding expenditures which it supports have been adjusted to reflect the final amount available from the County of \$2,927,759.

# Fund 193 Public School Adult and Community Education

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Focus**

Fund 193, Public School Adult and Community Education, provides lifelong literacy and education opportunities for all residents and students of Fairfax County through adult education programs such as basic skill education, high completion school English Speakers of Other Languages (ESOL). FY 2009 expenditures are estimated \$11.7 million.

The Fund also provides for pre-kindergarten through grade 12 support programs, including behind-the-wheel driver education, SAT preparation, summer school, before- and after-school enrichment activities and remediation support.

#### Mission

To protect the public interest through solid waste management planning and regulatory oversight of the County's refuse ordinances by providing efficient and effective collection, recycling, and disposal of solid waste for customers in an environmentally responsible manner.

#### **Focus**

The Solid Waste Management Program is responsible for the management and long-range planning for all refuse and recycling within the County. Operations include a County-owned and operated refuse transfer station, a privately owned and operated Energy/Resource Recovery Facility (E/RRF), two closed municipal solid waste landfills, a regional ash landfill operated by the County, two citizens' disposal facilities, eight drop-off sites for recyclable materials, and equipment and facilities for refuse collection, disposal, and recycling operations. The operation of the Solid Waste Management Program is achieved through the Division of Solid Waste Collection and Recycling and the Division of Solid Waste Disposal and Resource Recovery in the Department of Public Works and Environmental Services.

#### **Division of Solid Waste Collection and Recycling**

The Division of Solid Waste Collection and Recycling manages two funds including Fund 108, Leaf Collection, which provides for the collection and disposal of leaves within leaf collection sanitary districts, and Fund 109, Refuse Collection and Recycling Operations, which provides staff and administration for Funds 108 and 109; the

#### THINKING STRATEGICALLY

Strategic issues for the program include:

- o Developing and maintaining an efficient and effective regulatory program;
- Maintaining and enhancing an integrated solid waste management system;
- o Enhancing the community and protecting the environment;
- o Providing excellent customer service;
- Achieving financial viability through sound financial practices;
- o Continuing external communications and collaboration; and
- o Maintaining and improving internal management systems.

collection and disposal of refuse from sanitary districts within the County, County Agency Routes (CAR); and the overall management and operation of the County's recycling programs. Fund 109 also provides the management and operational control for the Solid Waste General Fund (DSW-GF) Programs for services provided on behalf of the County. The DSW-GF Programs consist of Community Cleanup, Court/Board Directed Cleanups, Evictions, and Health Department Referral operations.

Fund 108, Leaf Collection, is responsible for the collection of leaves within Fairfax County's 34 approved leaf collection districts. In FY 2009, approximately 25,000 homes are included within these districts. Revenue is derived from a levy charged to homeowners within Leaf Collection Districts. The FY 2009 leaf collection levy will remain at the FY 2008 rate of \$0.015 per \$100 of assessed real estate value.

Fund 109, Refuse Collection and Recycling Operations, is responsible for collection of refuse, as well as coordination of curbside recycling operations, from approximately 44,000 household units within Fairfax County's approved sanitary districts. Revenue to support operations is derived from the refuse collection fee. Similar to the leaf collection program, refuse collection services has seen an increase in petitions from citizens to receive refuse and recycling services from the County.

Collection programs in Fund 109 have been impacted by higher disposal charges and increasing operating expenses such as labor and fuel requiring a rate change in the fund. Due to increasing disposal fees for the waste collected, rising personnel expenses and lower fund balances, the annual fee has gradually increased to \$330 in FY 2008. In FY 2009, the rate is recommended to increase by 4.55 percent to \$345 based on increases in operating expenditures resulting from increases in contractor charges for curbside recycling services, refuse disposal charges, costs for services provided by other agencies, other operating equipment, supplies and expenses, as well as replacement equipment cost. The proposed \$345 fee will result in an increase of \$15 to the typical household.

#### **Division of Solid Waste Disposal and Resource Recovery**

The Division of Solid Waste Disposal and Resource Recovery manages three funds. Fund 110, Refuse Disposal, is responsible for delivering refuse collected throughout Fairfax County to the E/RRF, the Prince William County Facility, or an appropriate landfill; transferring yard waste to compost facilities; coordinating the facility use agreement between Fairfax and Prince William Counties; operating the County's Battery, White Goods (major appliances such as: refrigerators, dishwashers, washer and dryers, etc.) and Household Hazardous Waste programs; managing the Citizens' Disposal Facilities; and providing brush mulching services. Fund 112, Energy/Resource Recovery Facility, oversees the disposal of refuse at the E/RRF. Fund 114, I-95 Refuse Disposal, provides management and operational control at the I-95 Landfill for all regional participants.

The County's solid waste disposal program has come under significant financial pressure due to a number of factors, most notably the adverse 1994 United States Supreme Court decision which allowed waste to be hauled out of the County for disposal, as well as the development of several large landfills within Virginia and in neighboring states which are less expensive disposal options than those offered by the County. However, in FY 2007, the Supreme Court revisited waste flow control in the Oneida-Herkimer case and determined that public entities could direct waste to public facilities. The full impact of this decision on the County's flow control authority is still under consideration.

Under the current industry environment, the County has implemented a competitive pricing system for Fund 110, Refuse Disposal. The pricing has proved to be sufficient to cover all disposal costs. In FY 2009, the system disposal charge is set at \$57 per ton, an increase of \$5 over the FY 2008 rate. A contractual disposal rate for FY 2009 will be negotiated with private waste haulers, but is anticipated to be \$55 per ton, an increase of \$5.05 over the \$49.95 per ton in FY 2008. Revenue increases are therefore projected based on this disposal charge increase.

Programs including the County's Recycling Program, the Household Hazardous Waste Program, I-66 closed landfill maintenance and environmental monitoring and the Code Enforcement Program do not pay for their full programmatic costs. The cost of these programs is estimated to be \$4.06 million in FY 2009. In the past these programs have been partially supported through a General Fund Transfer. As part of its deliberations on the FY 2009 Budget Plan, the Board of Supervisors eliminated the entire General Fund Transfer. In order to meet FY 2009 expenditure requirements, the agency has adjusted the discounted disposal rate and will postpone a number of Capital Equipment purchases. The transfer elimination allows General Fund resources to be redirected to meet other County requirements in the FY 2009 budget.

Fund 112, Energy/Resource Recovery Facility, funds the County's waste-to-energy facility which annually processes over 1 million tons of waste. This waste is used to fuel an 80 megawatt power facility. Expenditures in this fund are comprised primarily of a contractual payment made to Covanta Fairfax, Incorporated (CFI) who owns the facility and operates it on behalf of the County. The formula-driven contract between the County and CFI establishes a yearly per-ton estimate/tip fee that the County pays to CFI, based on support requirements for incinerator operations. The yearly estimate is calculated using expenses for plant operations and maintenance costs, bond retirement payments and other pass through costs such as landfilling incinerator ash, reagents and utilities that are offset somewhat by credits derived from the sale of electricity to Dominion Virginia Power and recovery of ferrous and non-ferrous metals from the ash. The E/RRF currently produces over 80 megawatts of electricity, enough to power about 75,000 homes. The County charges a tipping fee to all users of the E/RRF and subsequently pays the contractual disposal fee to Covanta from these revenues. In FY 2009, the payment to Covanta Fairfax is estimated to be \$34.2 million. The budgeted tip fee will be reduced from \$33 per ton in FY 2008 to \$32 per ton in FY 2009 based on current operational costs which are lower than originally estimated for FY 2008, and a continuation of these savings into FY 2009.

Fund 114, I-95 Refuse Disposal, funds the County's sanitary landfill which has served the solid waste disposal needs of the residents of the participating jurisdictions utilizing the facility. The municipal solid waste (MSW) section of the I-95 Landfill closed in December 1995, and since that time the facility has accepted only ash material for land burial. The I-95 Sanitary Landfill continues to operate as a model facility – meeting permit requirements, inspection criteria, and availability requirements for the participating jurisdictions and customers of the facility. The I-95 Complex also serves as the focal point for the management of non-combustible material, which is redirected to debris landfills for final disposal. The fee for Fund 114, I-95 Refuse Disposal, will remain at \$11.50 per ton. The fee is expected to accommodate operating expenditures, as well as provide adequate reserve funding required for capital projects.

Specific description, discussion, and funding requirements for each fund of the Solid Waste Management Program can be found in the subsequent pages.

| Continue to partner with local highway construction contractors to obtain low permeability (clay) for landfill closure. Through this partnership, the County acquires clay – a critical component of landfill closure – at virtually no cost, thereby saving millions of dollars. | ¥                 | ¥                     | 114      |

# **Key Performance Measures – Division of Solid Waste Collection and Recycling Operations**

### **Objectives**

- ♦ To remove at least 95 percent of the leaves placed at the curb by citizens, within each leaf collection district, during the specified leaf collection period.
- ♦ To provide high quality refuse collection services ensuring the removal of trash in County sanitary districts while maintaining a customer service rating of good or better at 95 percent or above.
- ♦ To provide high quality refuse collection services to designated Fairfax County agencies while limiting program cost increases where possible in FY 2009.
- ♦ To continue to exceed the state-mandated recycling rate of 25 percent by at least 5 percent.

| Total County recycling rate (3)  | 31.6%              | 30.0%             | 30.0% / 35.0%              | 30.0%               | 30.0%              |

<sup>(1)</sup> The vacuum leaf customer base continues to grow but the weight of leaves collected appears to be decreasing primarily due to dry collection seasons. The agency will also begin collecting and reporting volume by metric measurements.

<sup>(2)</sup> The agency continues to aggressively promote recycling within the County sanitary districts. Increased recycling will reduce refuse tonnages.

<sup>(3)</sup> The tonnage recycled by private haulers is only reportable on a calendar year basis. Therefore, the actual year reported is the calendar year preceding the fiscal year; that is, the FY 2007 actual reflects CY 2006 data. This figure reflects all recycled tonnage in Fairfax County.

<sup>(4)</sup> The change in the net cost per home for leaf collection calculations are primarily influenced by the fluctuations in Capital Equipment expenditures level. In FY 2007, Capital Equipment expenditures were \$15,941, in FY 2008 the Capital Equipment costs are expected to be \$732,000 and in FY 2009 \$105,000.

<sup>(5)</sup> The net cost per home collected for FY 2008 and FY 2009 is projected to increase primarily due to increased contractor fees and fluctuations in receipts.

<sup>(6)</sup> Due to a re-evaluation of customer outreach within DPWES, leaf customers were not surveyed after the FY 2007 collection season, and therefore, no data was collected.

#### **Performance Measurement Results**

As in previous years, an estimated 95 percent of curbside leaves in each leaf collection district will be removed. The net cost per home for leaf collection fluctuates due to changes in revenues, operating expenses and capital equipment purchases. In FY 2007, the net cost per home for leaf collection is \$60.17, a slight decrease from the FY 2006 total of \$65.27. The net cost per home is anticipated to increase in FY 2008 and FY 2009 based on the replacement of aging capital equipment and greater operating expenses, resulting from rising maintenance, energy prices, and outside contractual costs for dump trucks with drivers.

A satisfaction rating of 95 percent for residential refuse collection services is projected to be maintained. The net cost per ton of residential refuse collected (trash only) is projected to increase from \$266.86 in FY 2007 to \$314.14 in FY 2009 based on rising personnel and operating expenses including disposal costs, higher equipment costs associated with maintenance, and acquisition of new equipment. Overall, refuse tonnages decline slightly from FY 2008 to FY 2009 because increased recycling has lowered corresponding refuse tonnages. Refuse collections are influenced by many external factors including weather conditions, increased traffic slowing route collections, and for County routes; employee retention. Wet weather conditions produce more yard debris, along with heavier overall loads, because of this the agency will begin collecting and reporting the volume of leaves by metric measurements.

In FY 2009 increased costs to County agencies for refuse collection is projected to be held at 1.9 percent. The net cost per ton of refuse collected in from the County agency routes increases from \$101.63 in FY 2007 and \$108.83 in FY 2008 to a projected \$110.91 in FY 2009 based on higher disposal costs and higher overall operating costs (personnel, equipment). The program offers special collections for County agencies in many capacities, including removal of large items not suitable for regular waste collection. These increases will allow the division to support the requirements for refuse and recyclable material collections related to County agencies, while complying with all laws.

The agency is responsible for the overall recycling requirements and goals of the entire County. During FY 2007, the County achieved a recycling rate of more than 35 percent, which exceeds the Commonwealth of Virginia's mandated requirement of recycling a minimum of 25 percent of the total solid waste stream. The percentage recycled is expected to be 30 percent or higher for FY 2008 and FY 2009, based on the agency's continued efforts to manage the waste reduction and recycling program. It should be noted that the volume of recycled waste generated is influenced by many external factors including market conditions for recyclables, as well as resident and business participation in the program.

The Fairfax County Solid Waste Management Plan calls for continuing efforts to reduce the County's waste stream and preserve the disposal capacity for materials that are not readily recyclable. This plan was approved by the Virginia Department of Environmental Quality in FY 2005. As part of this plan, a mandatory program has been implemented to collect mixed paper from every residential unit and business in the County. These recycling efforts will allow more processing capability at the Energy/Resource Recovery Facility and will ensure that the County does not have to rely on landfills in other communities. The agency continues to conduct outreach programs to multi-family dwellings, local businesses and schools to support this mandatory mixed paper recycling program, put into place by the Board of Supervisors.

# **Key Performance Measures – Division of Solid Waste Disposal and Resource Recovery**

#### **Objectives**

- ♦ To provide a sanitary facility for receiving, loading and transporting commercial and residential refuse by the most feasible and economical method available, while maintaining a 100 percent satisfactory rating from state inspections at the I-66 Transfer Station.
- ♦ To deliver no less than the Guaranteed Annual Tonnage (GAT) amount of 930,750 tons of municipal solid waste to the E/RRF as required under the contractual obligations of the Service Agreement between Covanta Fairfax, Inc. and Fairfax County.

♦ To manage the I-95 Landfill in an efficient, environmentally safe manner, meeting 100 percent of the regulatory standards; and to provide a permitted site where ash resulting from the E/RRF and other participating jurisdictions can be properly disposed.

| Percent satisfactory State DEQ inspection ratings at the I-95 Landfill         | 100%               | 100%              | 100% / 100%                | 100%                | 100%                |

<sup>(1)</sup> Material includes combustible waste, yard waste, white goods, tires, debris and brush. Tonnage increase is based upon citizen population increase and anticipated contract fulfillment from neighboring jurisdictions.

<sup>(2)</sup> The County landfill includes refuse disposed by the County and from the region at large. The anticipated decrease in landfill ash tonnage for FY 2008 and FY 2009 is due to the projected slow down in the economy of the region.

<sup>(3)</sup> Calculation includes operational cost of landfill and estimated cost necessary for landfill closure.

#### **Performance Measurement Results**

The I-66 Complex (Fund 110) received satisfactory ratings, the highest possible, from the Virginia Department of Environmental Quality (DEQ) for all inspections conducted during FY 2007. The facility is in compliance with all provisions of the operating permits and the Virginia Solid Waste Management Regulations. The tonnage processed through the I-66 Complex has fluctuated from 934,434 tons in FY 2005 to 956,868 tons in FY 2006, and to 914,872 tons in FY 2007. The current estimate for FY 2008 is 918,527 tons, and for FY 2009 is 943,894 tons. The cost per ton of solid waste processed through the I-66 Transfer Station was \$17.24 in FY 2007, compared to the budgeted amount of \$16.21 due to a lower than expected amount of tonnage coming to the I-66 Transfer Station. The estimated cost per ton processed is \$18.88 in FY 2008 and \$20.73 in FY 2009.

In FY 2007, a total of 1,058,988 tons were delivered to the Energy/Resource Recovery Facility (Fund 112) exceeding the Guaranteed Annual Tonnage (GAT) of 930,750 tons by 128,238 tons or 13.78 percent above the requirement. The extra tonnage resulted in savings of over a \$1 per ton for all the waste processed at the E/RRF site. The estimated tonnage delivery to the E/RRF is 1,023,825 tons for both FY 2008 and FY 2009, a slight decrease of 35,163 tons from the FY 2007 due to the projected impact on tonnage of the slow down in the regional economy. Due to a new Title V Permit obtained by the E/RRF in FY 2007, the Facility will be able to accept larger amounts of waste than previously. The estimated cost to process waste is \$39.70 per ton for FY 2008 and \$36.98 per ton for FY 2009.

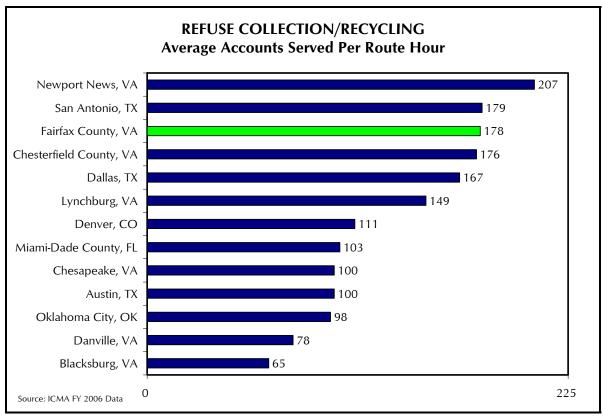

The I-95 Landfill also received the highest satisfactory ratings by DEQ for all inspections conducted during FY 2007. It should be noted that DEQ reduced the number of inspections from 12 times per year to six times per year, four of which are waste facility inspections and two are air quality inspections.

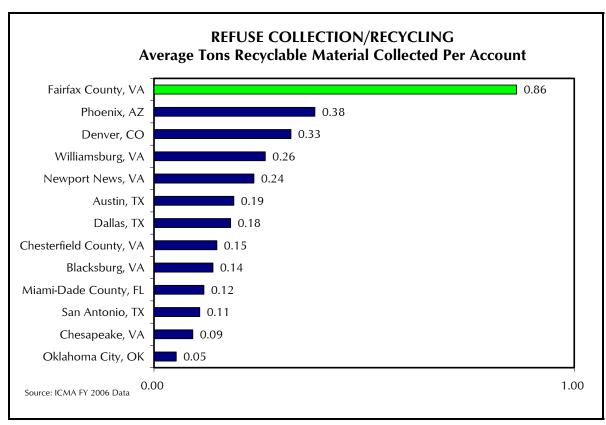

### **Benchmarking**

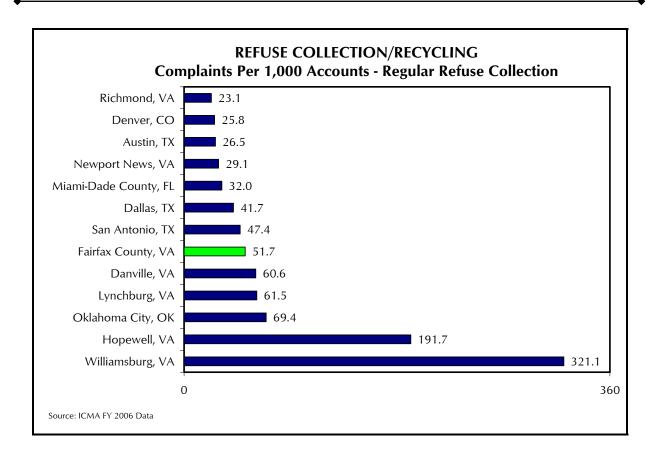

As a means of enhancing accountability, benchmarking data have been included in the annual budget since FY 2005. These data are included in each of the Program Area Summaries in Volume 1 and now in Other Funds (Volume 2) as available. Since 2000, Fairfax County has participated in the International City/County Management Association's (ICMA) benchmarking effort. Approximately 220 cities, counties and towns provide comparable data annually in 15 service areas. However, not all jurisdictions provide data for every service area.

As part of the ICMA benchmarking effort, participating local governments (cities, counties and towns) provide data on standard templates provided by ICMA in order to ensure consistency. ICMA then performs extensive checking and data cleaning to ensure the greatest accuracy and comparability of data. As a result of the time necessary to collect the data and undergo ICMA's rigorous data cleaning processes, information is always available with a one-year delay. FY 2006 data represent the latest available information. The jurisdictions presented in the graphs on the following pages generally show how Fairfax County compares to other large jurisdictions (population over 500,000). In cases where other Virginia localities provided data, they are shown as well.

Refuse Collection/Recycling is one of the service areas for which Fairfax County provides data. An important point to note about the ICMA comparative data effort is that since participation is voluntary, the jurisdictions that provide data have demonstrated that they are committed to becoming/remaining high performance organizations. Therefore, comparisons made through this program should be considered in the context that the participants have self-selected and are inclined to be among the higher performers than a random sample among local governments nationwide. It is also important to note that not all jurisdictions respond to all questions. In some cases, the question or process is not applicable to a particular locality or data are not available. For those reasons, the universe of jurisdictions with which Fairfax County is compared is not always the same for each benchmark. However, as shown below, Fairfax County compares favorably in both efficiency and effectiveness.

# **Unclassified Administrative Expenses -Division of Solid Waste General Fund Programs**

### Mission

To provide funding support for the elimination of unsanitary conditions that present a hazard to the environment and to the health, safety, and welfare of County residents.

#### **Focus**

The General Fund provides funding to operate the Community Cleanup Program, Court/Board-directed Cleanups, the Health Department Referral Program, the Eviction Program and Emergency Storm Cleanup.

The Division of Solid Waste Collection and Recycling (DSWCR) through Fund 109, Refuse Collection and Recycling Operations, provides equipment and personnel for program operations. The Community Cleanup Program supports community and civic associations' efforts to enhance and maintain the appearance of neighborhoods and the environment. In addition, the agency eliminates hazardous conditions identified by the Fairfax County Courts, the Fairfax County Board of Supervisors, the Fairfax County Health Department and the Fairfax County Sheriff's Office with regards to evictions.

All charges incurred by Fund 109, Refuse Collection and Recycling Operations, for providing collection and disposal services for these programs are billed to the General Fund. The overall cost to the General Fund is reduced by the cleanup fees recovered from property owners for cleanup work performed on their property at the direction of the Health Department or the County Courts. The recovered funds are returned to the General Fund.

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

♦ There are no changes to this agency.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this agency.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no adjustments to this agency since the approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

◆ The Board of Supervisors made no adjustments to this agency.

#### Mission

To provide vacuum leaf collection service at the streetline for all customers within designated sanitary leaf districts on three separate occasions during the leaf collection season (the period from October through January) in order to enhance the County's aesthetic environment.

### **Focus**

The Division of Solid Waste Collection and Recycling provides for leaf collection and disposal within 34 Fairfax County Collection Districts. Leaf Districts are established and abolished through a petition process approved by the Board of Supervisors. This process could result in an increase or a decrease in the number of residential or commercial properties within a specific collection district, or a district could be totally eliminated. Petition approvals affect the number of units serviced in a given year.

All leaves collected are either transported to a composting facility in Loudoun County or Prince William County or mulched and provided to citizens. Revenue is derived from a collection levy (service fee) that is charged to homeowners and businesses within the leaf districts. The FY 2009 levy is \$0.015 per \$100 of assessed real estate value, an amount that is unchanged from the FY 2008 level. This will generate an estimated \$2,307,822 in revenue in FY 2009. This level is a slight decrease from the FY 2008 estimate, due to the continued downturn in the housing market which may affect FY 2009 real estate assessments. The County will continue to monitor the impact of real estate values on this fund, to ensure that future year costs of the Leaf Collection Program are covered by the leaf assessment rate.

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Operating Expenses

\$100.639

An increase of \$100,639 in Operating Expenses is associated with an \$86,072 increase in leaf disposal costs charged to this fund based on a projected increase in leaf disposal charges, maintenance, equipment and energy costs; as well as a \$14,567 increase in other miscellaneous expenses to meet leaf collection requirements.

#### **Department of Vehicle Service Charges**

(\$100,000)

A decrease of \$100,000 for Department of Vehicle Service charges based on adjustments for vehicle maintenance requirements.

#### Vehicle Rental Costs

\$54,809

An increase of \$54,809 in Operating Expenses is due to higher contractual costs for dump trucks with drivers, required to transport leaves collected in leaf sanitary districts, based on rising labor and fuel costs.

#### Capital Equipment

Funding of \$105,000 in Capital Equipment includes \$84,000 for the replacement of four leaf vacuum machines based on age, mileage criteria and repair costs. Funding of \$21,000 provides for an additional leaf vacuum machine required for increased productivity as well as the flexibility to improve operations when there are unforeseen mechanical breakdowns and to better handle weather related delays.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the FY 2009 Advertised Budget Plan, as approved by the Board of Supervisors on April 28, 2008:

The Board of Supervisors made no adjustments to this fund.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ There have been no adjustments to this fund since approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

| Assessed Value                         | \$0.015           | \$0.015                           | \$0.015                           | \$0.015                              | \$0.015                           |

<sup>&</sup>lt;sup>1</sup> In FY 2007, revenue earmarked for the Capital Equipment Replacement Reserve was shown as a separate revenue category, but it is actually part of receipts from the Leaf Collection Levy/Fee. For FY 2008 and FY 2009 it is included within the Leaf Collection Levy/Fee.

### Mission

To protect Fairfax County citizens against disease, pollution, and other contamination associated with the improper disposal of refuse, by providing efficient and economical refuse collection services to citizens in 78 refuse collection sanitary districts and to Fairfax County agencies. To reduce the County's municipal solid waste stream through the effective development, implementation and management of comprehensive waste reduction and recycling programs to ensure that Fairfax County meets or exceeds the Commonwealth of Virginia's mandated goal of recycling 25.0 percent of the solid waste stream.

#### **Focus**

The Division Solid of Waste Collection and Recycling (DSWCR), (Fund 109, Refuse Collection and Recycling Operations), is responsible for the collection of refuse and recyclable materials within Fairfax County's sanitary districts and from County agencies. The agency coordinates the County's waste reduction and recycling program. It also responsible for the is administration and program operations of the Solid Waste General Fund Programs (e.g., Health Department Referrals, Community Cleanups, Evictions and Court-Ordered Cleanups) on behalf of the County.

DSWCR implemented two programs in FY 2006 which are geared to managing oversized quantities of materials placed at the curb either by homeowners or through illegal dumping throughout the County. Both of these programs will continue into FY 2009.

The first program is entitled "Megabulk" and assists residents with the disposal of very large piles of refuse that is typically not included with normal curbside refuse collection service. This program provides customers with a convenient and cost competitive way to remove oversized piles of waste while providing a revenue stream for the collection program. This service is available to all County residents, both within and outside the refuse collection districts. Customers are provided with a cost for the service prior to collection and may pay by check or credit card. This service is provided by DSWCR operational staff and is billed individually to each customer based on the size of the pile of refuse that is placed at the curb.

The second program is entitled "Clean Streets Initiative" (CSI) and serves as a partnership with the Fairfax County Health Department in responding to complaints about piles of uncollected waste dumped or illegally placed at the curb or on properties throughout the County. The process involves contact by a resident to the Health Department about piles of trash that are deposited illegally at the curb. The Health Department refers the call to DSWCR where an inspector makes a site visit and determines who owns the property. If a property owner can be identified, then DSWCR contacts the person and the owner is given 10 days to remove the material. If the owner refuses to remove the waste, then DSWCR operational staff removes the material for appropriate disposal and the owner is billed for the service. If the owner still refuses to pay, then steps are taken to recover the costs from the property owner for the value of the service. Minimum costs for a CSI cleanup are \$250 and may increase based on the volume of the cleanup.

Residents within sanitary refuse collection districts, which are created by the Board of Supervisors upon citizen petition, are charged an annual fee for service through the semi-annual property tax collection system. The current fee is \$330 in FY 2008 and will increase by 4.54 percent to \$345 per unit in division anticipates increases in operating expenditures based on personnel adjustments, increasing disposal tipping fees, maintenance and fuel charges, and replacement equipment costs.

County Agency Routes (CAR) is responsible for the collection of refuse from County agencies and a small number of organizations associated with County agencies. Revenue is derived from billings to County agencies based on the cubic yard capacity of the containers assigned to individual agencies. The cost per cubic yard is formula-driven and is based on fiscal year operating requirements. For FY 2009, the calculated rate is \$4.65 per cubic yard, an increase of \$0.11 from the FY 2008 Adopted Budget Plan rate of \$4.54 per cubic yard. In FY 2009, the number of cubic yards collected on CAR is projected to be 294,000 cubic yards.

Recycling Operations is responsible for providing the overall management of solid waste reduction and recycling programs that are required by the County and for developing plans for future recycling programs and waste reduction systems. The goal for FY 2009 is to maintain the recycling rate in the municipal solid waste stream at or above the Commonwealth of Virginia mandated goal of 25 percent. The current recycling rate for FY 2008 is estimated at 30 percent. Revenue is generated from the sale of recyclable materials (aluminum cans, newspaper, cardboard, glass and scrap metal) which serves to partially offset expenditure requirements. In addition, revenue and program support is provided by Fund 110, Refuse Disposal, through billings by Fund 109 for administration and coordination of recycling operations on behalf of Fund 110.

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$318,732

An increase of \$318,732 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### ♦ Operating Expenses

\$672,409

An increase of \$672,409 in Operating Expenses includes a \$104,189 increase in contractor charges for curbside recycling services, an \$161,353 increase in refuse disposal charges, a \$95,302 increase in costs for services provided by other agencies, a \$76,447 increase in other operating equipment, a \$150,000 increase in Department of Vehicle Service charges based on adjustments for rising fuel costs and anticipated vehicle maintenance costs, and an increase of \$85,118 in operating supplies and expenses based on prior year costs.

#### Capital Equipment

\$2,412,000

Funding of \$2,412,000 in Capital Equipment has been included primarily for the replacement of items that have outlived their useful lifespan based on age, mileage and repair costs. Of the funding for replacement items, \$1,917,000 is for the replacement of trucks, packers and crane trucks, and \$435,000 is for the replacement of roll-off compactors and containers. The remaining \$60,000 is for two open top box trailers to transport brush and bulky items from customers to the I-66/I-95 facilities.

#### **♦** Capital Projects

\$225,000

Funding in the amount of \$225,000 has been included for Capital Projects to continue the second phase of the Newington Facility Enhancements which includes repaving the asphalt over much of the 20 year

old parking lot at the facility, remodeling the reception area to maximize one administrative area, and constructing additional office space.

♦ Recovered Costs \$13,318

A decrease of \$13,318 in Recovered Costs reflects the anticipated level of recovered administration overhead costs from other Solid Waste funds, based on the spread of costs of the Fund 109 administration budget.

#### Carryover Adjustments

(\$146,161)

A decrease of \$146,161 is due to the carryover of one-time Operating Expenses as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$89,139

An increase of \$89,139 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$1,363,666

As part of the FY 2007 Carryover Review, the Board of Supervisors approved encumbered carryover of \$1,095,212 including \$146,161 in Operating Expenses and \$949,051 in Capital Equipment. In addition, the carryover of unexpended project balances in the amount of \$268,454 was approved for the completion of the first phase of infrastructure improvements to the Newington Facility.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$126,004

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an expenditure increase of \$126,004 in Operating Expenses due to the appropriation of the State Litter Grant from the Department of Environmental Quality which provides funding for litter prevention and recycling program activities. An increase of \$126,004 in revenue is due to the receipt of these funds.

A Fund Statement, a Summary of Capital Projects, and a Project Detail Table for the projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Table includes project location, description, and a source of funding and completion schedules.

## **FUND STATEMENT**

## Fund Type G10, Special Revenue Funds

| Reserve <sup>7</sup>  | 0                 | 800,000                           | 800,000                            | 1,452,454                            | 1,452,454                         |
| Unreserved Balance  | \$3,221,211       | \$0                               | \$1,545,099                        | \$0                                  | \$0                               |
| Levy per Household Unit   | \$315/unit        | \$330/unit                        | \$330/unit                         | \$345/unit                           | \$345/unit                        |

<sup>&</sup>lt;sup>1</sup>The FY 2009 levy/collection fee per household unit is set at \$345 per unit. Although the Refuse Collection levy is separate and not a Real Estate Tax, it is included on and collected as part of the County's Real Estate Tax bill. This amount does not include approximately 447 units which will be billed directly by the agency.

<sup>&</sup>lt;sup>2</sup>The Recycling Operations program is supported by Fund 110, Refuse Disposal. The estimate for Program Support is calculated using the projected level of expenditures for recycling operations as conducted in Fund 109, Refuse Collection and Recycling Operations, and offset by revenue received from the sale of recycled materials.

<sup>&</sup>lt;sup>3</sup>Recovered Costs represents billings to Fund 108, Leaf Collection, for its share of the total administrative costs for Agency 45, Division of Collection and Recycling. Also included is an amount billed to Fund 110, Refuse Disposal, for administrative costs for the recycling program which is coordinated by Fund 109, Refuse Collection and Recycling Operations.

<sup>&</sup>lt;sup>4</sup>The PC Replacement Reserve provides funding for the timely replacement of obsolete computer equipment.

<sup>&</sup>lt;sup>5</sup>The Construction and Infrastructure Reserve funds emergency repairs necessary at the Newington Solid Waste Facility.

<sup>&</sup>lt;sup>6</sup>The Rate Stabilization Reserve provides funds to mitigate against unusually large rate increases in future years.

<sup>&</sup>lt;sup>7</sup>The Residential/General Equipment Reserve provides the Residential and General Collections Cost Center with set aside funds for future anticipated equipment purchases.

## **FY 2009 Summary of Capital Projects**

Fund: 109 Refuse Collection and Recycling Operations

**Description and Justification:** This on-going project funds the infrastructure improvements, electrical upgrades and maintenance of the Newington Facility and operations. The entire process is anticipated to be performed over the next several years and the work will be done in phases including building and pavement repairs. The first phase was designed to conserve energy and improve the efficiency of the operations. This phase was completed in FY 2007 and consisted of lighting and electrical system upgrades, the replacement/upgrade of the infrared heating system (included a new heating system in the storage building), waste oil heater installation and roof/skylight maintenance.

The second phase includes repaving the asphalt over much of the 20-year old parking lot at the facility resulting from the usage of large heavy trucks, remodeling the reception area and constructing additional office space to accommodate all existing staff. Construction is anticipated to begin in FY 2008. FY 2009 funding of \$225,000 will provide the funding to continue the second phase.

#### Mission

To protect Fairfax County citizens against disease, pollution and other contamination associated with the improper disposal of refuse, through safe and sanitary transportation of solid waste from the I-66 Transfer Station to the I-95 Sanitary Landfill and the Energy/Resource Recovery Facility (E/RRF). The agency also transports debris generated through the Yard Waste program to disposal facilities in Prince William and Loudoun Counties. In addition, this agency operates the Household Hazardous Waste program and the Citizens' Disposal Facilities, including all associated technical and administrative functions.

#### **Focus**

Fund 110, Refuse Disposal, has the primary responsibility for coordinating the disposal of solid waste generated within Fairfax County by channeling the collected refuse to the E/RRF. Refuse that cannot be burned in the E/RRF is directed to a landfill or disposed of through a contractor. Yard debris is transported to Prince William County or a private compost facility. operations coordinated within this fund are the Citizens' Disposal Facilities (CDF), the Household Hazardous Waste (HHW) program, the Ordinance Enforcement program, the White Goods program and the Battery program. The Administrative Center performs the associated with the overall administrative, technical and management functions for

those funds that comprise the Division of Solid Waste Disposal and Resource Recovery. These funds are: 110, Refuse Disposal; 112, E/RRF; and 114, I-95 Refuse Disposal.

The County's solid waste disposal program has come under significant financial pressure due to a number of factors, most notably the adverse 1994 United States Supreme Court decision affecting solid waste flow control which allows waste to be hauled out of the County for disposal, as well as the development of several large landfills within Virginia and in neighboring states which are less expensive disposal options than those offered by the County's comprehensive solid waste management system. Under the current industry environment, the County has implemented a competitive pricing system. The pricing has proved to be sufficient to cover a majority of disposal costs, however public interest, non-revenue generating programs and some capital improvements in the past have been partially supported through a General Fund Transfer. As part of its deliberations on the FY 2009 Budget Plan, the Board of Supervisors approved fully eliminating the \$2.5 million General Fund Transfer. The FY 2009 Advertised Budget Plan had proposed only a decrease of \$1.25 million in the transfer. In order to offset this decrease the agency plans to adjust the discounted disposal rate in order to increase revenue, and it will postpone a number of Capital Equipment purchases. The transfer elimination allows General Fund resources to be redirected to meet other County requirements in the FY 2009 budget. In addition, on December 3, 2007 the Board of Supervisors approved a service agreement with Covanta allowing for the sale of electricity in excess of 80 megawatts, as a result an estimated \$250,000 in additional revenue is anticipated to be generated in FY 2009.

In FY 2009, the system disposal charge is set at \$57 per ton, an increase of \$5 over FY 2008, to fully meet the operating and capital project requirements of this fund. A contractual discount disposal rate for FY 2009 will be negotiated with private waste haulers but is anticipated to be \$55 per ton, an increase of \$5.05 over the \$49.95 per ton total in FY 2008. The Citizen Disposal Facility system fee will remain at \$57 per ton. The Punch Card Program offered to customers at the Citizen Disposal Facility will be discontinued by the end of FY 2008, since the program has seen a significant reduction in usage since credit cards are now accepted. Based on these adjustments the total FY 2009 revenue for the fund is projected to be \$64,602,699, an increase of \$2,849,127 or 4.6 percent over the FY 2008 Adopted Budget Plan total of \$61,753,572.

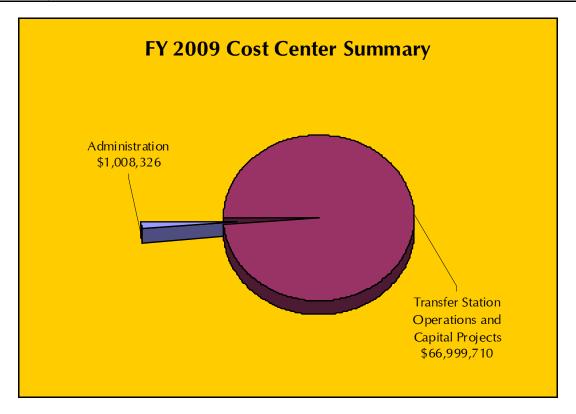

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$363,420

An increase of \$363,420 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Operating Expenses

(\$1,626,443)

A net decrease of \$1,626,443 in Operating Expenses includes a decrease of \$1,825,617 associated with decreased tipping fees charged by Fund 112, Energy/Resource Recovery Facility, based on trends in contractor compensation levels. This decrease is offset by an increase of \$199,174, primarily for rental costs related to the lease, rather than purchase, of five refuse tractors due to be replaced, because it is more cost-effective.

#### Capital Equipment

\$2,528,000

Funding of \$2,528,000 has been included for Capital Equipment primarily for the replacement of items that have outlived their useful lifespan based on age, mileage and repair costs. Of the funding for replacement items, \$1,065,000 is for the replacement for three rubber tire loaders bought under the Guaranteed Buy Back program. Other funding includes \$600,000 for the replacement of three stationary cranes, \$498,000 for the replacement of six refuse trailers, \$143,000 for the replacement of four pick ups, \$42,000 for the replacement of a tractor with broom, \$40,000 for the replacement of a forklift, and \$140,000 for one additional roll-off truck to support the redesigned Citizens Recycling Disposal Facility (CDF) at the I-66 Transfer Station. Purchase expenses will be partially offset by \$747,293 in projected revenue associated with sale of the equipment being replaced.

#### **♦** Department of Vehicle Services Charge

\$264,924

The Department of Vehicle Services Charge is a combined net increase based on adjustments for fuel price increases and vehicle maintenance requirements.

♦ Recovered Costs \$4,234

A decrease of \$4,234 to Recovered Costs reflects the anticipated level of recovered administration overhead costs from other Solid Waste funds, based on the FY 2009 Administration budget.

♦ Capital Projects \$4,574,656

Funding in the amount of \$4,574,656 has been included for Capital Projects for the construction of a Workers Facility at the I-66 Transfer Station to provide a suitable enclosed area for lunches, safety training, and storage of employee uniforms and equipment. This facility will replace two aged temporary trailers previously acquired from the Fire Department.

#### **♦** Carryover Adjustments

(\$55,653)

A decrease of \$55,653 for the one-time carryover of Operating Expenses.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$97,398

An increase of \$97,398 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** General Fund Transfer

(\$1,250,000)

The Board of Supervisors approved the elimination of the General Fund Transfer of \$1,250,000 proposed in the FY 2009 Advertised Budget Plan. In order to continue these programs, the transfer will be replaced by \$980,901 in revenues by further increasing the proposed discounted rate charged to contractors to \$55 per ton, \$249,000 in Capital Equipment savings made possible by delaying the planned purchase of three refuse trailers, and \$20,099 in fund balances.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$6,889,137

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$6,889,137, including encumbered carryover of \$55,653 in Operating Expenses and \$812,062 in Capital Equipment. In addition the Board approved the carryover of \$4,021,422 in unexpended project balances and an additional appropriation from fund balance in the amount of \$2,000,000 for project construction at the Citizen's Disposal Facility including new disposal and recycling areas, a new stormwater management system and new asphalt pavement.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement, a Summary of Capital Projects, and a Project Detail Table for the projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Table includes project location, description, and source of funding and completion schedules.

### Fund 110 Refuse Disposal

<sup>1</sup> The <u>FY 2009 Adopted Budget Plan</u> eliminates a \$1.25 million General Fund Transfer. This subsidy is associated with specific refuse disposal programs that do not fully recover costs. Including the County's Recycling Program, the Household Hazardous Waste Program, the Citizen Disposal Facilities and the Code Enforcement Program. In order to continue these programs, funding will be offset by a \$980,901 increase in revenues by increasing the proposed discounted rate to \$55 per ton, a decrease of \$249,000 in Capital Equipment made possible by delaying the purchase of three refuse trailers, and fund balances of \$20,099.

 $^{2}$  In FY 2009, some Capital Equipment purchases have been delayed or cancelled to balance out the elimination of the General Fund Transfer.

<sup>3</sup> Ending balance fluctuations are a result of operating and revenue requirements that change annually. Funding is carried forward each fiscal year to provide flexibility given the uncertainty of market conditions, tipping fee negotiations, and expenditure requirements.

<sup>4</sup>The Equipment Replacement Reserve provides for the timely replacement of equipment required to operate the I-66 Transfer Station. Funds are transferred from Refuse Disposal revenue to the Equipment Replacement Reserve, as are proceeds from the sale of equipment. The reserve requirement is based on a replacement schedule, comprised of yearly payments to the reserve, which is based on the useful life of the vehicle/equipment.

<sup>5</sup>The Construction Reserve provides for improvements at the I-66 Transfer Station such as the redesign and reconstruction of the Citizens Disposal Facility and the construction of a permanent structure containing employee facilities. In FY 2009, all funds have been appropriated from this reserve.

<sup>6</sup> The System Disposal rate is projected to increase to \$57 per ton subject to market conditions.

<sup>7</sup> In August 1998 (FY 1999), Fairfax County implemented a contractual rate discount that was offered to any hauler that guaranteed all of its collected refuse or a specified tonnage amount would be delivered to the Energy/Resource Recovery Facility (E/RRF) or other County disposal sites. The FY 2007 discounted rate was \$46.95 per ton, the FY 2008 rate is \$49.95, and the FY 2009 rate is projected to increase to \$55.00 per ton subject to market conditions and negotiations.

## Fund 110 Refuse Disposal

#### FY 2009 Summary of Capital Projects

Fund: 110 Refuse Disposal

|-------------------|------------------|-------------|
| I-66 Transfer Sta | ition            | Springfield |

**Description and Justification:** FY 2009 funding in the amount of \$4,574,656 is included to support the construction of a Workers Facility at the I-66 Transfer Station to replace the existing work and training space currently housed in a used trailer. This facility is anticipated to be a two story 12,000 square foot building that contains office space for supervisors, a lunch room, a large conference room for employee training, locker rooms, showers, and adequate number of bathrooms for employees.

Division of Solid Waste Disposal and Resource Recovery

Energy/ Resource Recovery Facility Operations

#### Mission

To serve Fairfax County citizens by providing effective and environmentally-sound solid waste disposal by converting waste-to-energy; by reducing the need for landfill space through volume reduction of solid waste; by reducing the greenhouse gas emissions both by not landfilling waste and by generating renewal energy; and by managing the operational contract in the best interests of the citizens.

#### **Focus**

Fund 112 provides for the management of the contract for the I-95 Energy/Resource Recovery Facility (E/RRF), owned and

Aerial view of the I-95 Energy/Resource Recovery Facility

operated by Covanta Fairfax, Inc. (CFI). Under the terms of the Service Agreement, the County delivers municipal solid waste (MSW) for which it pays a disposal fee to CFI. The E/RRF currently produces over 80 megawatts of electricity, enough to power about 75,000 homes. Pursuant to an agreement between Dominion Virginia Power and CFI signed in 1987 and amended in 1996, Dominion Virginia Power began purchasing electricity from CFI at a lower rate starting in May 2005. As a result, CFI may receive lower electricity revenues until the end of the power purchase agreement in 2015.

The E/RRF is rated for 1,095,000 tons of solid waste, but has the flexibility to operate above that level. For the second year, in FY 2007 Fairfax County generated all of the waste required to meet the County's commitment under the Service Agreement. The County also accepts additional MSW from other regional jurisdictions through the Supplemental Waste program. Refuse is exchanged with Prince William County under a mutually beneficial agreement. These efforts continue to maximize revenues through providing additional MSW to keep disposal rates low for County customers.

The County charges a disposal fee to all users of the E/RRF, and subsequently pays the contractual disposal fee to CFI from these revenues. Revenues from the sale of electricity, recycled ferrous and nonferrous metals, and supplemental waste are used to offset the cost of the disposal fee paid to CFI. When the E/RRF is not able to handle the amount of waste available, some waste is diverted to Virginia landfills. Staff must be constantly vigilant in balancing waste as a commodity to ensure that it is disposed of efficiently, cost-effectively and with the least environmental consequences.

Careful management of the Service Agreement with CFI has allowed the County to hold down disposal fee charges from Fund 112 to other solid waste funds and other users. The rate will be reduced from \$33 to \$32 per ton for FY 2009. Funding from the Rate Stabilization Reserve is used, if necessary, to supplement any difference between this revenue and the actual payments to CFI.

The June 2007 annual stack test indicated that the overall air emissions reductions from the E/RRF, resulting from the Clean Air Act retrofits in 2000, remained well below permit limits:

| Energy/Resource Recovery Facility Emissions Results June, 2007 |               |                      |  |  |  |  |  |
|--|---------------|----------------------|--|--|--|--|--|
| Parameter  | Permit Limit  | Average E/RRF Result |  |  |  |  |  |
| Sulfur Dioxide (SO <sub>2</sub> )                              | 29 ppm        | 3.75 ppm             |  |  |  |  |  |
| Carbon Monoxide (CO)   | 100 ppm       | 6.5 ppm              |  |  |  |  |  |
| Nitrogen Oxides (NOx)  | 205 ppm       | 194.75 ppm           |  |  |  |  |  |

ppm = parts per million Dscm = dry standard cubic meter mg = milligram

ng = nanogram

The E/RRF has helped reduce the overall Fairfax County waste system carbon emissions by about one ton of carbon for every ton of waste processed. This calculation includes the reduction in overall carbon dioxide generated by the waste management system, due to emission reductions that are realized by not transporting waste to a landfill, the actual carbon dioxide that would be generated at the landfill as well as the carbon dioxide that would be emitted to produce electricity using a fossil fuel.

CFI and the County continue to investigate the costs and technical feasibility of innovative projects. One of these could result in the E/RRF providing emergency backup power to the Griffith Water Treatment Plant and the Noman Cole Wastewater Treatment Plant in the event that electricity is not available through regular distribution from Dominion Virginia Power. Another project could allow the E/RRF to use the tertiary water from the Noman Cole Wastewater Treatment Plant as the cooling water at the E/RRF, saving millions of gallons of potable water. The County is always exploring new technology to ensure that the E/RRF continues to provide the required environmental service of waste processing while having the least environmental impact possible.

The ash conditioning system that was added to the E/RRF in FY 2005 is providing the anticipated ash stabilization for ash that is placed in the I-95 Landfill. Ash tests, performed by an independent laboratory, Life Science Laboratories, Inc. of East Syracuse, NY, during the period February 7-15, 2007, characterized the ash from the E/RRF as non-hazardous waste.

Fairfax County and Covanta Fairfax, Inc. continue to discuss a Service Agreement amendment that will provide for continued use of the E/RRF beyond the timeframe of the existing agreement, as recommended in the County's Solid Waste Management Plan.

Execution of the Solid Waste Management Plan initiatives has increased recycling and removed additional amounts of cardboard, paper and metals from the waste stream. Future increased recycling is needed so that the capacity at the E/RRF can be maintained for waste that cannot be easily recycled. Continued operation of the Household Hazardous Waste and Conditionally Exempt Small Quality Generator programs has removed materials with hazardous properties from the waste stream of the E/RRF.

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **Employee Compensation**

\$24,160

An increase of \$24,160 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Contractor Compensation

(\$3,700,147)

A net decrease of \$3,700,147 in Contractor Compensation for the operation of the E/RRF, based on contractor-projected tipping fees for FY 2008 and FY 2009 that permit a \$2.2 million decrease from the current budget level, as well as an accounting change to defer the budgeting of \$1.5 million in anticipated tax liability costs of the facility to the FY 2008 Carryover Review, when the actual tax liability will be known and supported by a General Fund Transfer.

#### Other Contractor Compensation

\$400,000

An increase of \$400,000 in other Contractor Compensation is associated with the Supplemental Power Plan Study as part of the E/RRF's emergency preparedness program to establish a self-contained startup capability for its operations as well as to supply power to the Griffith Water Plant, should Dominion Virginia Power be unable to do so.

#### Other Operating Adjustments

\$109,911

An increase of \$109,911 in Operating Expenses is associated with a \$27,000 increase in repair and maintenance based on previous years experience, a \$72,000 increase for environmental tests conducted by the Health Department based on prior year actuals, and a \$10,911 net increase in other miscellaneous operating costs.

#### ♦ Capital Equipment

\$400,000

An amount of \$400,000 is included for the one-time purchase and installation of four replacement scales based on an independent consultant's analysis which found that the practical service life of the scales had been reached.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$6,020

An increase of \$6,020 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the 2007 Carryover Review the Board of Supervisors approved the General Fund Transfer of \$1,491,162 to offset Covanta's tax liability to Fairfax County.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> Miscellaneous Revenue is generated by the excess amount that Covanta Fairfax, Inc. (CFI) charges for the disposal of Supplemental Waste.

<sup>&</sup>lt;sup>2</sup> The General Fund Transfer offsets Covanta's tax liability to Fairfax County. This expenditure and the offsetting General Fund Transfer support will be funded for FY 2009 as part of the FY 2008 Carryover Review.

<sup>&</sup>lt;sup>3</sup>The contract fee to CFI has not escalated as earlier anticipated. The FY 2009 contractor compensation amount is estimated to be greater than the FY 2007 actual but lower than the FY 2008 estimate. In addition, the FY 2009 budget does not yet include an estimated \$1.5 million for the Covanta tax liability expenditure. This expenditure will be funded for FY 2009 as part of the FY 2008 Carryover Review.

<sup>&</sup>lt;sup>4</sup> The Rate Stabilization Reserve is used to buffer against sharp annual changes in tip fees. Potentially sharp changes could result from issues such as tax changes regarding energy sales, power deregulation, state or EPA environmental fees, and/or contract changes.

<sup>&</sup>lt;sup>5</sup>The Operations and Maintenance Reserve is maintained for ongoing improvements and enhancements to the E/RRF including emissions control efforts. Future projects may include additional retrofits to the air pollution control systems for reductions in nitrogen oxides. The reserve will fund the County's share of the initial capital expenditures of the improvements.

Division of Solid Waste Disposal and Resource Recovery

I-95 Refuse Disposal Operations

#### Mission

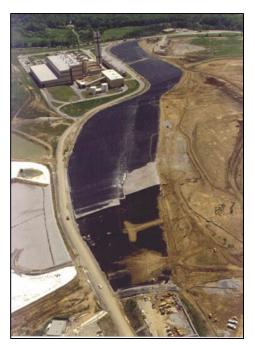

To manage the I-95 Landfill in a manner to provide a site where solid waste and recyclable materials from County citizens are gathered and properly disposed, and a deposit site where ash from the Energy/Resource Recovery Facility (E/RRF) and other participating municipalities can be properly disposed.

#### **Focus**

The County has operated the I-95 Sanitary Landfill for more than 25 years, and has served the solid waste disposal needs of the residents of the participating jurisdictions utilizing the facility. The municipal solid waste (MSW) section of the I-95 Landfill closed in December 1995, and since that time the facility has accepted only ash material for land burial. The I-95 Sanitary Landfill continues to operate as a model facility – meeting permit requirements, inspection criteria, and availability requirements for the participating jurisdictions and customers of the facility. The I-95 Complex also serves as the focal point for the management of non-combustible material, which is redirected to debris landfills for final disposal.

The fee for Fund 114, I-95 Refuse Disposal, will remain at \$11.50 per ton. The fee is expected to accommodate operating expenditures, as well as provide adequate reserve funding required for capital projects.

Agency accomplishments, new initiatives and performance measures for Solid Waste are displayed at a program-wide level. Please refer to the Solid Waste Management Program Overview in Volume 2 of the FY 2009 Adopted Budget Plan for those items.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **Employee Compensation**

\$108,137

An increase of \$108,137 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above

#### **Operating Expenses**

\$327,437

A net increase of \$327,437 is due primarily to increased contractor compensation based on current contractor rates.

#### **Department of Vehicle Services Charges**

(\$350,000)

A net decrease of \$350,000 in Department of Vehicle Service charges based on adjustments for fuel price increases and vehicle maintenance requirements.

#### **Carryover Adjustments**

(\$29,529)

A decrease of \$29,529 due to the carryover of one-time Operating Expenses.

#### ♦ Capital Equipment

\$1,197,000

Funding of \$1,197,000 has been included in Capital Equipment for the replacement of items that have outlived their useful lifespan based on age, mileage and repair costs. Of the funding for replacement items, \$1,085,000 is for four pieces of heavy equipment while the remaining \$112,000 provides for the replacement of a large mower, a construction generator, a small tractor, a pressure washer and a hybrid vehicle. Purchase expenditures will be partially offset by \$270,931 in anticipated revenue associated with sale of the equipment being replaced.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$28,588

An increase of \$28,588 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the <u>FY 2008 Adopted Budget Plan</u>. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$23,396,792

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved encumbered carryover of \$292,751 including \$29,529 in Operating Expenses and \$263,222 in Capital Equipment. In addition, the Board approved the carryover of \$23,104,041 in unexpended project balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

<sup>1</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>2</sup>The Active Cell Closure Reserve is necessary for the closure of active disposal cells of the Ash Landfill and is required by the state in order for landfilling activities to progress.

<sup>3</sup>The Environmental Reserve provides for future Environmental Projects.

<sup>4</sup>The Construction Reserve provides funds to meet the requirements of current and future construction projects necessary for the operation of the I-95 Landfill, such as drainage and roads.

<sup>5</sup>The Post Closure Reserve is required for a 30-year period after the landfill closes and is mandated by federal and state regulations. The FY 2009 reserve of \$23,000,000 represents 51 percent of the estimated requirement of \$44,674,800 and is not sufficient to cover all identified costs. Additional funds will be set aside in future years.

<sup>6</sup> The PC Replacement Reserve provides for the timely replacement of obsolete computer equipment.

<sup>7</sup> Effective July 1, 2000 the jurisdictional rate was reduced from \$14/ton to \$11.50/ton. The FY 2009 rate remains at \$11.50/ton.

#### FY 2009 Summary of Capital Projects

#### **Focus**

The Consolidated Debt Service Fund accounts for the general obligation bond debt service of the County as well as general obligation bond debt for the Fairfax County Public Schools (FCPS). In addition, debt service expenditures are included for the Economic Development Authority Lease Revenue bonds and Certificates of Participation (COPS) associated with County government and School facilities and payments for Fairfax County Redevelopment and Housing Authority (FCRHA) Lease Revenue bonds. Revenues for the debt service funds are derived principally from a transfer from the General Fund. It should be noted that debt service on sewer revenue bonds is reflected in the Enterprise Funds.

The following is a chart illustrating the debt service payments and projected fiscal agent fees required in FY 2009 as well as the sources of funding supporting these costs:

|  | FY 2009<br>Adopted<br>Budget Plan |
|--|-----------------------------------|
| Expenses                                       |                                   |
| County Debt Service                            | \$102,947,432                     |
| Lease Revenue Bonds                            | 14,855,242                        |
| School Administration Building                 | 3,775,873                         |
| Park Authority (Laurel Hill Golf Course)       | 784,063                           |
| Fiscal Agent Fees/Cost of Issuance             | 590,000                           |
| Subtotal                                       | \$122,952,610                     |
| School Debt Service                            | \$148,489,800                     |
| Lease Revenue Bonds (South County High School) | 5,888,375                         |
| Fiscal Agent Fees/Cost of Issuance             | 435,000                           |
| Subtotal                                       | \$154,813,175                     |
| Total Expenses                                 | \$277,765,785                     |
| Funding  |                                   |
| General Fund Transfer                          | \$263,101,335                     |
| Beginning Balance Applied                      | 5,000,000                         |
| School Operating Fund Transfer                 | 3,775,873                         |
| FCRHA Lease Revenue                            | 4,699,514                         |
| Park Authority (Laurel Hill Golf Course)       | 784,063                           |
| Fairfax City Revenue                           | 105,000                           |
| Bond Proceeds to Offset Cost of Issuance       | 300,000                           |
| Total Funding                                  | \$277,765,785                     |

#### **General Obligation Bonds**

Anticipated debt service payments associated with the FY 2008 bond sale have been incorporated into the FY 2009 projections. A 4.5 percent interest rate was used for planning purposes. No additional debt service funding has been included for a General Obligation bond sale in FY 2009 as a spring sale is anticipated such that payments will begin in FY 2010.

#### **Capital Leases**

Funding is included for the following Capital Leases which were issued by other entities, but are actually supported by the County and paid through County Debt Service subject to annual appropriation by the Board of Supervisors:

#### **Economic Development Authority:**

| Herrity and Pennino Buildings  | \$ 8,083,250 |
|--------------------------------|--------------|
| South County Government Center | 2,072,478    |
| South County High School       | 5,888,375    |
| Laurel Hill Golf Course        | 784,063*     |
| School Administration Building | 3,775,873**  |
| Subtotal                       | \$20,604,039 |

#### Fairfax County Redevelopment and Housing Authority:

| Mott & Gum Springs Community Centers                       | \$533,225   |
|--|-------------|
| Baileys Community Center                                   | 413,730     |
| Herndon Harbor Adult Day Health Care Center                | 70,681      |
| Gum Springs Head Start Facility                            | 176,430     |
| James Lee Community Center                                 | 1,060,050   |
| Herndon Senior Center                                      | 1,003,185   |
| Braddock Glen Senior Center and Southgate Community Center | 1,442,213   |
| Subtotal   | \$4,699,514 |

Total \$25,303,553

#### **Debt Service Ratios**

The Board of Supervisors has adopted specific debt indicators within the *Ten Principles of Sound Financial Management* to effectively manage the County's bonded indebtedness. The *Ten Principles* state that the County's debt ratios shall be maintained at the following levels:

- ♦ Net debt as a percentage of estimated market value should always remain less than 3.0 percent; and
- ♦ The ratio of debt service expenditures as a percentage of Combined General Fund disbursements should remain under 10.0 percent.

The Board of Supervisors annually reviews the cash requirements for capital project financing to determine the capacity to incur additional debt for construction of currently funded projects as well as capital projects in the early planning stages. In FY 1992 and FY 1994, bond projects were deferred in order to reduce planned sales and remain within capacity guidelines.

During the adoption of the <u>FY 2008 Adopted Budget Plan</u>, the Ten Principles of Sound Financial Management were revised to allow for the use of variable rate debt. Variable rate obligations are debt obligations that are quite frequently used for short-term or interim debt financing and have an interest rate that is reset periodically, usually for periods of less than one year. Variable rate debt is typically used to take advantage of low short-term rates in anticipation of converting to longer-term fixed rate financing for complex projects or to mitigate the impact of volatile markets. Also, variable rate debt reduces interest costs and typically provides the ability to redeem bonds without a prepayment penalty. It is anticipated that the use of variable rate debt will provide opportunities for interest rate savings, reduce arbitrage payments and promote more accurate sizing for long-term bond issues.

<sup>\*</sup> Reimbursed by a transfer in from the Park Authority.

<sup>\*\*</sup>Reimbursed by a transfer in from the School Operating Fund.

On November 19, 2007 the Board of Supervisors approved the Master Trust Agreement, Bank Note and related documents associated with acquisition of a \$200,000,000 revolving line of credit (LOC) from the Bank of America. Any line of credit borrowings will be in conformance with the FY 2008 Adopted Budget Plan, the FY 2008-FY 2012 Capital Improvement Program, or specific Board of Supervisors action approving such use. Variable rate debt will be used when it is most advantageous to the County in comparison to other financing options. A Variable Rate Debt Committee will carefully review each County department's request for use of the LOC and monitor the usage. The County has developed policies and procedures related to the use of variable rate debt and will monitor LOC usage closely.

As a result of the County financial policies, prudent fiscal management and a strong economy the County has been awarded the strongest credit ratings possible from the three major national rating services. The County holds a Aaa from Moody's Investors Service (awarded 1975), a AAA from Standard and Poor's Ratings Service (awarded 1978), and a AAA from Fitch Ratings (awarded 1997). As of March 21, 2008, Fairfax County is one of only 7 states, 22 counties, and 23 cities to hold a triple-A rating from all three services.

The FY 2009 debt service budget has been prepared on the basis of the construction and bond sale limitations set in place by the Board of Supervisors. The FY 2009 capital program supported by general obligation bonds was reviewed in conjunction with the FY 2009 - FY 2013 Adopted Capital Improvement Program (With Future Years to 2018).

#### Fairfax County Bond Rating Report Card

The following are ratios and annual sales reflecting debt indicators for FY 2005 - FY 2009:

#### Net Debt as a Percentage of Market Value of Taxable Property

| Fiscal Year Ending | Net Bonded Indebtedness | Estimated Market Value <sup>2</sup> | <u>Percentage</u> |
|--------------------|-------------------------|-------------------------------------|-------------------|
| 2005               | 1,931,008,940           | 158,261,300,000                     | 1.22%             |
| 2006               | 1,963,217,876           | 192,187,300,000                     | 1.02%             |
| 2007               | 2,057,354,681           | 232,347,000,000                     | 0.89%             |
| 2008 (est.)        | 2,264,295,513           | 241,220,300,000                     | 0.94%             |
| 2009 (est.)        | 1,979,160,445           | 242,076,000,000                     | 0.82%             |

<sup>&</sup>lt;sup>1</sup> The amount includes outstanding General Obligation Bonds and other tax supported debt obligations as of June 30 in the year shown and is from the Fairfax County Department of Management and Budget.

<sup>&</sup>lt;sup>2</sup> Source: Fairfax County Department of Tax Administration and the Department of Management and Budget.

## Debt Service Requirements as a Percentage of Combined General Fund Disbursements

|                    | <u>Debt Service</u>       | <u>General Fund</u>              |                   |
|--------------------|---------------------------|----------------------------------|-------------------|
| Fiscal Year Ending | Requirements <sup>1</sup> | <u>Disbursements<sup>2</sup></u> | <b>Percentage</b> |
| 2005               | 224,543,583               | 2,799,591,368                    | 8.0%              |
| 2006               | 234,392,854               | 3,113,897,426                    | 7.5%              |
| 2007               | 253,433,433               | 3,223,705,072                    | 8.0%              |
| 2008 (est.)        | 277,935,863               | 3,383,364,669                    | 8.2%              |
| 2009 (est.)        | 277,820,934               | 3,352,592,697                    | 8.3%              |

<sup>&</sup>lt;sup>1</sup> The amount includes debt service expenditures from July 1-June 30 for each year shown above, excluding bond issuance costs and other expenses and is from the Fairfax County Department of Management and Budget.

#### **Annual Bond Sales**

| Fiscal Year Ending       | Sales<br><u>(millions)</u> | Total for the Five-Year<br>Period Ending<br><u>FY 2009</u> |
|--------------------------|----------------------------|--|
| 2005                     | 185.40                     | -  |
| 2006                     | 190.34                     | -  |
| 2007                     | 234.60                     | -  |
| 2008                     | 234.475                    | -  |
| 2009 (est.) <sup>1</sup> | 269.53                     | 1,114.345  |

<sup>&</sup>lt;sup>1</sup> Actual County and School bond sale amounts are based on the cash requirements for each project and municipal bond market conditions. Based on board policy, annual sales will be \$275.0 million per year or \$1.375 billion over a five-year period with a technical limit of \$300.0 million in any given year.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Disbursement Adjustment

(\$1,160,498)

A decrease in disbursements of \$1,160,498 or 0.42 percent is primarily attributed to scheduled requirements for existing debt service and anticipated debt service payments for projected bond sales.

<sup>&</sup>lt;sup>2</sup> Source: Fairfax County Department of Tax Administration and the Department of Management and Budget.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$12,058,292

As part of the FY 2007 Carryover Review, FY 2008 expenditures increased \$12,058,292 or 4.5 percent over the FY 2008 Adopted Budget Plan associated due to increased debt service requirements related to the actual 2007A Bond Sale debt service requirements and anticipated increased requirements for FY 2008 to support projected bond sale requirements during the fiscal year.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Debt Service Expenditures

(\$5,088,879)

Debt service expenditures decreased \$5,000,000 primarily due to revised projections for debt service based on actual bond sales conducted. Also, expenditures were decreased \$88,879 associated with the net impact of an expenditure audit adjustment from FY 2007.

#### **FUND STATEMENT**

<sup>&</sup>lt;sup>1</sup> Principal and interest will be paid by County Debt Service.

<sup>&</sup>lt;sup>2</sup> Principal and interest will be paid from a transfer in from the FCPS Operating Fund in connection with a capital lease.

<sup>&</sup>lt;sup>3</sup> Payments for Salona debt are budgeted in Fund 303, County Construction.

<sup>&</sup>lt;sup>4</sup> Payments for Crescent and Wedgewood debt are budgeted in Fund 319, The Penny for Affordable Housing.

### **Capital Project Funds**

#### **Overview**

The Fairfax County Capital Construction Program (other than sanitary sewer construction and resource recovery projects) is primarily financed through transfers from the General Fund and the sale of General Obligation bonds. Supplementing the General Fund and General Obligation bond monies are additional funding sources including Federal and State grants, contributions, and tax revenues from special revenue districts.

The following pages provide a narrative description of all capital funds, including Capital Construction Contribution Funds. These narratives include a description of each fund, a Fund Statement, a Summary of Capital Projects, and a Project Detail Table for each project funded in FY 2009.

#### **Capital Project Funds**

- Fund 300 Countywide Roadway Improvement Fund
- Fund 301 Contributed Roadway Improvement Fund
- Fund 302 Library Construction
- Fund 303 County Construction
- Fund 304 Transportation Improvements
- Fund 307 Pedestrian Walkway Improvements
- Fund 311 County Bond Construction
- Fund 312 Public Safety Construction
- Fund 314 Neighborhood Improvement Program
- Fund 315 Commercial Revitalization Program
- Fund 316 Pro Rata Share Drainage Construction
- Fund 317 Capital Renewal Construction
- Fund 318 Stormwater Management Program
- Fund 370 Park Authority Bond Construction
- Fund 390 Public School Construction

#### **Capital Contribution Funds**

- ♦ Fairfax County contributes to the Northern Virginia Regional Park Authority Capital Construction Program for maintenance and major renovation projects associated with 21 regional parks. The County also contributes to the Washington Metropolitan Area Transit Authority (WMATA) to support the 106-mile Metrorail System, as well as to maintain and/or acquire facilities, equipment, railcars and buses.
  - Fund 306 Northern Virginia Regional Park Authority
  - Fund 309 Metro Operations and Construction

## Fund 300 Countywide Roadway Improvement Fund

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund serves as a reserve source of funding for required road construction and improvement needs for which funding from other sources is not available. Sources of funding consist primarily of Board-directed transfers from the General Fund or other capital construction funds. Excess funding from projects is held in a reserve for future road construction or improvement projects. Funds may also be transferred from Fund 300, Countywide Roadway Improvement Fund, to other County road construction funds as approved by the Board of Supervisors.

No funding is included for Fund 300, Countywide Roadway Improvement Fund, in FY 2009.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$529,004 due to the carryover of unexpended project balances in the amount of \$513,660 and the appropriation of miscellaneous revenues in the amount of \$15,344.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects, or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| <b>Ending Balance</b> <sup>3</sup>          | \$529,004         | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> Represents receipt of miscellaneous revenues associated with land acquisition reimbursement costs for Project 006616, Gallows/Annandale/Hummer.

<sup>&</sup>lt;sup>2</sup> Represents the transfer of road bond funds from Fund 304, Transportation Improvements, associated with Project 006617, Fox Mill Road at Reston Parkway. On July 10, 2006 the Board of Supervisors approved a construction contract award for this project in the amount of \$945,000 of which \$750,000 was available in Fund 300 with the understanding that the shortfall of \$195,000 would be funded from road bond funds within Fund 304.

<sup>&</sup>lt;sup>3</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund was created specifically to account for proffered developer contributions received for roadway improvements throughout the County. A separate reserve project has been established for each area for which contributions are received, and all receipts are earmarked for these specific areas. As roadway improvement projects are identified that conform to the appropriate funding parameters within each of these areas, funding is reallocated from the specific reserve project to finance the improvements. Estimates for the receipt of proffer funds are based on prior year receipts and anticipated levels of development.

In addition, this fund has been used to provide matching funds to the state for projects identified by the Board of Supervisors in its consideration of the Virginia Department of Transportation (VDOT) Secondary Improvement Budget. Section 33:1-75.1 of the <u>Code of Virginia</u> enables the use of County funds for improvements to the secondary road system and requires that VDOT match up to \$500,000 in County funds, through its Revenue Sharing Program, as a priority before allocating funds to its road systems.

An amount of \$3,925,677 is included in Fund 301, Contributed Roadway Improvement Fund, in FY 2009. All projects funded in FY 2009 are supported by projected contributions and estimated pooled interest earnings. Pooled interest is projected on both the FY 2009 contribution and existing fund balances. A list of projects funded in FY 2009 is included in the Summary of Capital Projects. In addition, an amount of \$110,000 is transferred from FY 2009 miscellaneous developer contributions in this fund to Fund 309, Metro Operations and Construction. This funding supports shuttle bus service in the area of the Franconia/Springfield Metrorail Station and has been provided annually.

Private contributions are currently provided for roadway improvements in the following areas:

#### Fairfax Center (Route 50/I-66) Area -

Developer contributions for this area are based on a developer rate schedule for road improvements in the Fairfax Center area. This schedule is revised periodically by the Board of Supervisors based on the Consumer Price Index. percent of the developer's contribution is paid to the County at the time of the site plan approval. balance of the amount due is paid as building permits are issued. As individual negotiated in proffer agreements, in-kind contributions of an equivalent value for road improvements can also be made in lieu of cash payments. An amount of \$500,000 in contributions is estimated for the Fairfax

Picture of Route 50/Waples Mill Road.

Center area in FY 2009 based upon rezoning plans approved by the Board of Supervisors. In addition, \$21,000 is estimated from interest earnings on the FY 2009 contributions and \$188,478 is projected for interest earnings on the existing fund balance.

Major projects supported by this reserve include improvements to Route 50/Waples Mill Road, Tall Timbers Drive and Route 29 within the Fairfax Center area.

<u>Centreville Area</u> - Commitments from developers in the Centreville area are included in individual proffer agreements from zoning cases and rates of contributions vary by case. An amount of \$50,000 in contributions for the Centreville area is estimated in FY 2009 based on rezoning plans approved by the Board of Supervisors. In addition, \$2,100 is estimated from interest earnings on the FY 2009 contributions as well as \$85,207 from interest earnings on the existing fund balance.

Major projects supported by this reserve include improvements to sections of Stone Road, Clifton Road, Poplar Tree Road and Route 29 within the Centreville area.

<u>Miscellaneous Contributions</u> – This project was created to serve as a source of funding for contributions received for miscellaneous roadway improvements throughout the County. Funds are reallocated to specific projects when required. An amount of \$1,400,000 is anticipated in FY 2009 based upon contributions from proffered commitments in rezoning actions approved by the Board of Supervisors. In addition, \$58,800 is estimated from interest earnings on the FY 2009 contributions and \$628,111 is projected for interest on the existing fund balance. It should be noted that from this anticipated revenue, a contribution of \$110,000 is transferred to Fund 309, Metro Operations and Construction, to support shuttle bus service in the Franconia/Springfield area.

Many different projects throughout the County are supported by this reserve within the following major categories: primary and secondary road improvements, bridge design and construction, intersection/interchange improvements, signal improvements, and transit improvements.

**Tysons Corner Reserve** - This project accounts for private sector contributions received for the Tysons Corner area. An amount of \$500,000 in contributions is estimated in FY 2009. In addition, \$21,000 is estimated from interest earnings on the FY 2009 contributions and \$580,981 is projected for interest earnings on the existing fund balance.

Major projects supported by this reserve include improvements to Dolley Madison Boulevard, proffered projects, and corridor/pedestrian improvements throughout the Tysons Corner area.

#### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$36,555,649 due to the carryover of unexpended project balances in the amount of \$34,149,721 and a net increase of \$2,405,928. This increase was based on higher than anticipated proffers received in the amount of \$1,254,873 and higher than anticipated interest earnings of \$1,151,055.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, source of funding, and completion schedules.

| <b>Total Disbursements</b>      | \$2,660,487       | \$4,350,199                       | \$40,905,848                      | \$4,035,677                          | \$4,035,677                       |
|                                 |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>7</sup>     | \$35,301,708      | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> Represents VDOT Revenue associated with Project 008803, Route 29 Widening.

<sup>&</sup>lt;sup>2</sup> Represents revenue associated with Project 009914, Job Access/Reverse Commute Pedestrian Projects in the Tysons Corner Area.

<sup>&</sup>lt;sup>3</sup> Pooled interest is earned on the contributions as well as the accumulated fund balance in this fund.

<sup>&</sup>lt;sup>4</sup> In order to account for revenues in the proper fiscal year, an audit adjustment of \$12,065 has been reflected as an increase to FY 2007 revenues to record interest earned to the appropriate fund. A separate audit adjustment of (\$14,588) has been reflected as a decrease to FY 2007 revenues to correct posting of revenue to the appropriate fund. This impacts the amount of revenue anticipated in FY 2008 resulting in a net revenue increase of \$2,523 in the FY 2008 Revised Budget Plan. These audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>5</sup> FY 2007 reflects a Transfer In from Fund 304, of \$280,000 for Project 008801, Stone Road and \$150,000 for Project 009900, Miscellaneous Contributions, associated with the West Ox/Monroe Street Project.

<sup>&</sup>lt;sup>6</sup> Represents contributions to be transferred to Fund 309, Metro Operations and Construction, to support Metro shuttle bus service in the Franconia/Springfield area.

<sup>&</sup>lt;sup>7</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### Fund 301 Contributed Roadway Improvement Fund

| 009900        | Miscellaneous Contributions |            |
|---------------|-----------------------------|------------|
|               |                             |            |
| Miscellaneous | Areas                       | Countywide |

**Description and Justification:** FY 2009 funding in the amount of \$1,976,911 is projected in developer contributions and interest earnings and will serve as a source of funding for miscellaneous roadway improvement projects. Commitments from developers in this funding category are included in individual proffer agreements from zoning cases and the level of contribution and location where funds can be spent vary by case. This project serves as a reserve project and funds are reallocated to specific projects when required. Many projects throughout the County are supported by this reserve and fall into the following major categories: primary and secondary road improvements, bridge design and construction, intersection/interchange improvements, signal improvements, and transit improvements.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the FY 2009 Advertised Budget Plan, as approved by the Board of Supervisors on April 28, 2008:

The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund supports the construction and renovation of a network of facilities operated by the Fairfax County Public Library that offer library services according to the needs of the community. Approved library construction projects have been primarily financed with General Obligation Bonds and are based on factors such as age and condition of buildings, long-range space needs, projected population growth, usage and demand for services in underserved areas of the County. New library facilities must be designed to utilize new information resources delivery, with existing facilities from the early 1960s redesigned and renovated to maximize space, as well as modern technology.

In the fall of 2004 the voters approved a Public Library Bond Referendum totaling \$52.5 million for library projects. Funding provides for two new libraries, four renovation projects and capital renewal of libraries prioritized throughout the County. In order to ensure adequate facilities and address demands for services currently unmet, the new Burke Centre and Oakton libraries were approved. Construction of the Oakton Library is complete, with construction of Burke Centre The selection of libraries for renovation was based on the age, condition and usage at each facility. Four of the oldest libraries were included on the bond A picture of the opening of the Oakton Library on September referendum for renovation and expansion. These libraries are between 30- and 40-years-

29, 2007.

old, cannot readily be adapted to the requirements of modern technology, need quiet study space and consistently exceed the minimum standards of use. The design for the renovation and expansion of the Thomas Jefferson Community, Dolley Madison Community, Richard Byrd Community and Martha Washington Community libraries is underway. Capital renewal, including the replacement of building subsystems such as HVAC, roof repairs, electrical systems and other emergency repairs, has begun at prioritized libraries throughout the County. Renewal projects are reflected in Fund 317, Capital Renewal Construction.

Funding of \$1,046,925 is included in Fund 302, Library Construction, in FY 2009. This amount is supported entirely by General Obligation Bonds approved as part of the Fall 2004 Public Library Bond Referendum. A list of all projects funded in FY 2009 is provided in the Summary of Capital Projects that follows.

#### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$43,823,969 due to the carryover of unexpended project balances in the amount of \$41,217,426 and an adjustment of \$2,606,543 to appropriate revenues received in FY 2007. Revenues received include the appropriation of remaining bond funds in the amount of \$2,176,075 associated with the Fall 2004 bond sale, the appropriation of \$430,000 associated with bond premium applied to this fund associated with the January 2007 bond sale and \$468 associated with miscellaneous revenues received in FY 2007 for the sale of plans for various projects.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$50,000

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$50,000 due to the appropriation of revenues received in developer contributions from Lee Village at Silver Lake, LLC as part of a PPEA proposal for a public/private partnership.

A Fund Statement, a Summary of Capital Projects and Project Detail Sheets for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, source of funding and completion schedules.

|  |              |                    |                    |                       |                    |
| Ending Balance <sup>4</sup>            | \$16,766,912 | \$0                | \$0                | \$0                   | \$0                |

<sup>&</sup>lt;sup>1</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. The Fall 2004 Public Library Facilities bond referendum approved by voters on November 2, 2004 included \$52.5 million to provide new library facilities, as well as renovate existing libraries. Capital renewal bonds in the amount of \$2.5 million are reflected in Fund 317, Capital Renewal Construction. An amount of \$13.56 million was sold as part of the January 2007 Bond Sale. It should be noted that an additional \$.43 million has been applied to this fund in bond premium. An amount of \$29.08 million remains in authorized but unissued bonds from the November 2, 2004 bond referendum.

<sup>&</sup>lt;sup>2</sup> Revenue of \$100,000 is anticipated to be received from the City of Fairfax as part of the Project Development Agreement to construct a new Fairfax City Regional Library. An amount of \$12,018 was received in FY 2006 and \$87,982 is anticipated in FY 2008.

<sup>&</sup>lt;sup>3</sup> Revenue of \$50,000 received in developer contributions from Lee Village at Silver Lake, LLC as part of a PPEA proposal for a public/private partnership.

<sup>&</sup>lt;sup>4</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

**Description and Justification:** This project provides for library feasibility studies approved as part of the Fall 2004 library bond referendum. Studies will focus on Woodrow Wilson, Tysons-Pimmit Regional, Pohick Regional, Reston Regional and John Marshall Libraries, and will help to determine the scope and cost of renovation and expansion of these libraries.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

- ♦ During their deliberations on the FY 2009 Advertised Budget Plan, the Board of Supervisors eliminated \$775,000 including: \$125,000 from Project U00005, Survey Control Network Monumentation, which supports the maintenance and establishment of geodetic survey control points for the GIS system; \$500,000 from Project 009702, County Cemetery, which was intended to contribute to the development of a new County cemetery; and \$150,000 from Project 005009, Athletic Field Maintenance, which had been included to begin to address increases in water and electricity costs experienced in recent years. The reductions were used to help offset other FY 2009 requirements.
- ♦ It should also be noted that the Board of Supervisors reduced the transfer from the General Fund by \$1,265,000 including the \$775,000 in reductions specified above, \$190,000 now supported by a transfer from Fund 105, Cable Communications for Project 009432, Telecommunication and Network Connections and the application of \$300,000 in HB 599 state revenue to Project 009416, Parks – ADA Compliance.

#### **Focus**

This fund provides for critical park maintenance and repairs, as well as enhancements to County facilities, Park Authority facilities, and County and School athletic fields. This fund also supports payments and obligations such as lease-purchase agreements, the acquisition of properties, construction and renovation projects associated with County facilities, and the County's annual contributions to the School-Age Child Care (SACC) Center Program, and the Northern Virginia Community College.

Funding in the amount of \$14,894,746 is included in Fund 303, County Construction, in FY 2009. Funding includes an amount of \$9,264,411 supported by a General Fund Transfer, an amount of \$3,290,335 supported by the allocation of HB 599 state revenues, \$300,000 supported by revenue bonds, \$1,090,000 supported by a transfer from Fund 105, Cable Communications and \$950,000 supported by the Athletic Services fee. It should be noted that funding has been limited to the most critical priority projects which are listed on the Summary of Capital Projects that follows.

#### **Park Maintenance Projects**

FY 2009 funding in the amount of \$2,182,076 has been included for Park maintenance of both facilities and grounds. The Park facilities maintained with General Fund monies include but are not limited to: field houses, boat houses, pump houses, maintenance facilities, sheds, shelters and office buildings. Park priorities are based on the assessment of current repair needs including safety and health issues, facility protection, facility renewal and improved services. In addition, Park maintenance requirements are generated through scheduled preventative maintenance or from user requests for facility alterations. Specific funding levels in FY 2009 include:

An amount of \$425,000 for general park maintenance at non-revenue supported Park facilities. These maintenance requirements include major non-recurring repairs and stabilization of new properties, as well as repairs/replacements and improvements to roofs, electrical and lighting systems, sprinklers, HVAC systems, and the replacement of security and fire alarm systems. Details of specific Park facility improvements are included on the Project Detail Sheets that follow.

- ♦ An amount of \$987,076 to fund annual requirements for Parks grounds maintenance at non-revenue supported parks. Grounds maintenance includes the upkeep of sidewalks, mowing of wooded and grassy areas, parking lots, bridges, recreation and irrigation equipment, picnic equipment, tennis courts and trails at County parks.
- ♦ An amount of \$470,000 for minor routine preventive maintenance of non-revenue supported Park Authority structures. These repairs include the replacement of broken windows and doors, equipment repairs, and the scheduled inspection of HVAC, security, and fire alarm systems.
- ♦ An amount of \$300,000 to continue the implementation of Americans with Disabilities Act (ADA) compliance at Park facilities. FY 2009 funding will support continued mandated retrofits at Lake Fairfax Park including the outdoor restroom, parking spaces, and an accessible route to the picnic pavilion.

#### **Athletic Field Maintenance Projects**

FY 2009 funding in the amount of \$4,969,032 has been included for athletic field maintenance. This level of funding is supported by a General Fund transfer of \$4,019,032 and revenue generated from the Athletic Services Fee in the amount of \$950,000. Of the Athletic Services Fee total, \$250,000 of Athletic Services Fee revenue will be dedicated to the enhanced maintenance of school athletic fields, \$500,000 will be dedicated to the Synthetic Turf Development Program, and \$200,000 to custodial support for indoor sports organizations. An effort has been made to provide continuous maintenance to maintain quality athletic fields at acceptable standards and improve safety for users. Maintenance of athletic fields includes: field lighting, fencing, irrigation, dugout covers, infield dirt, aeration, and seeding. These maintenance efforts will improve safety standards, enhance playing conditions, and increase user satisfaction. Specific funding levels in FY 2009 include:

- ♦ An amount of \$2,280,384 to continue athletic field maintenance efforts on Park Authority athletic fields. Athletic field costs include electricity for lighted facilities and maintenance of lighting systems, water and irrigation system maintenance, and minor ball field repairs. This effort is being coordinated by the Fairfax County Park Authority.
- ♦ An amount of \$100,000 to continue the replacement and upgrading of Fairfax County Public Schools (FCPS) boys' athletic field lighting systems used by many County organizations. A standard of 30-foot candles of light in the infield and 20-foot candles of light in the outfield are the recommended levels of lighting. Currently all boys fields have lighting. Funding supports a replacement and repair schedule, as well as improvements to bring older lighting systems up to new standards. Lighting costs are shared with FCPS. FY 2009 funding supports lighting improvements at Sandburg Middle School. The FCPS annually prioritizes funding for field lighting.

♦ Funding in the amount of \$100,000 to continue installing lights on FCPS athletic fields and identified County parks used for girls' softball. Staff from the Department of Community and Recreation Services (CRS) continues to work with community sports groups and coordinate with the FCPS and the Fairfax County Park Authority to identify, prioritize and develop plans for addressing girls' softball field lighting requirements. FY 2009 funding provides for continued softball field lighting installation at Madison High School. This effort is being coordinated by CRS.

- ♦ An amount of \$50,000 for routine maintenance of girls' softball field amenities on select Fairfax County Public School sites. These amenities, such as dugouts, fencing, and irrigation systems, were added or constructed by the county based on recommendations by the citizen-led Action Plan Review Team (APRT) in order to reduce disparities in the quality of fields assigned to boys baseball and girls softball organizations. Routine maintenance is necessary both to maintain equity and to ensure safety. For five years, funding of \$200,000 was provided to support Girl's Fast Pitch Field Maintenance improvements to various girl's softball fields throughout the County as requested by the Fairfax Athletic Inequities Reform (FAIR). Funding for the Girls Fast Pitch Maintenance project ended in FY 2004. FY 2009 funding will provide maintenance to the improvements and amenities made to girl's softball fields.
- ♦ An amount of \$1,000,000 for enhanced maintenance of school athletic fields. This project will provide consolidated funding for an enhanced level of maintenance performed by the Park Authority on FCPS athletic fields, and will directly apply revenue generated by the Athletic Services Fee to the athletic field maintenance program. All funding previously included for spring clean-up of middle and elementary schools and other maintenance provided by the Department of Community and Recreation Services is conducted by the Park Authority and accounted for in a single project. The enhanced level of maintenance will provide a consistent mowing frequency schedule for high school diamond fields, as well as diamond field infield preparation twice a week for all elementary, middle and high school fields. It will also establish post-season field treatment standards and a maintenance schedule for recently completed irrigation and lighting projects on FCPS fields. Of the total funding, an amount of \$250,000 is included for this program based on the FY 2009 projection of revenue generated from the Athletic Services Fee, and \$750,000 is supported by the General Fund.
- ♦ An amount of \$500,000 to support the Synthetic Turf Development Program. This program facilitates the development of synthetic turf fields in the County. Fields are chosen through a review process based on the need in the community, projected community use, and the field location and amenities. In addition, on November 7, 2006, the voters approved a \$25 million Park Bond Referendum of which \$10 million is earmarked to fund the conversion of up to 12 fields from natural turf to synthetic turf.
- ♦ An amount of \$200,000 for custodial support for indoor gyms used by sports organizations. The use of FCPS indoor facilities on the weekend requires FCPS to schedule a school system employee to open and close the facility. Revenue generated from the Athletic Services Fee is used to provide payment for FCPS staff, eliminating the need for indoor sports organizations to pay the hourly rate previously charged. This project is entirely supported by revenue generated from the Athletic Services Fee and managed by the Department of Community and Recreation Services.
- ♦ An amount of \$738,648 to support general maintenance at designated FCPS athletic fields. This maintenance effort includes a consistent mowing frequency of 28 times per year at 473 athletic fields (approximately 176 school sites) and provides for aeration and over-seeding to improve turf coverage and reduce the chance of injury. This program was established in an effort to maintain consistent standards among all athletic fields, improve playing conditions and safety standards, and increase user satisfaction. This effort is managed by the Park Authority; however, all field maintenance will be coordinated between the Park Authority and CRS.

#### **New and Renovated Facilities**

FY 2009 funding in the amount of \$3,352,006 has been included for costs related to the renovation of existing facilities and the construction of new facilities.

- ♦ Funding of \$1,672,006 is included to continue to address property management and development, as well as continued building stabilization mitigation efforts at the Laurel Hill property. Laurel Hill was transferred to the County by the federal government in early 2002. The property includes approximately 2,340 acres of land and 1.48 million square feet of building space. FY 2009 funding will continue to address needs at this site, including a security/maintenance contract, consulting services, structural maintenance and utilities at existing buildings, custodial, planning, engineering positions, and maintenance at park facilities.
- ♦ An amount of \$400,000 to continue recurring maintenance of capital improvements associated with the Commercial Revitalization Program as approved by the Board of Supervisors on December 2, 1996. Maintenance projects include landscaping, mowing, trash pickup, maintenance of bicycle racks, area signs and street furniture. Maintenance is provided in four major revitalization areas of Fairfax County including: Annandale, Route 1, Springfield and Baileys Crossroads.
- ♦ Funding of \$1,090,000 is included for telecommunication systems, I-Net connections and cabling at several new facilities. FY 2009 funding is included for phone system equipment at the West Ox Bus Garage (\$65,000), the Health Department Lab being relocated to Belle Willard (\$100,000), and the Mt. Vernon Mental Health Center (\$25,000). Funding in the amount of \$900,000 is included for I-Net connections for the following facilities: Thomas Jefferson Library, Dolley Madison Library, Girls Probation House, Less Secure Shelter, Gregory Drive Treatment Facility, Health Department Lab, Public Safety Transportation and Operations Center (PSTOC), Burke Centre Library, Wolftrap Fire Station, Richard Byrd Library, Great Falls Fire Station, Martha Washington Library and Mt. Vernon Mental Health Center.
- ♦ An amount of \$190,000 for revitalization initiatives within the Office for Community Revitalization and Reinvestment for revitalization activities include marketing materials for countywide revitalization activities, consultant services and training.

#### **Road Improvement/Developer Default Projects**

FY 2009 funding in the amount of \$825,000 has been included for road improvements and developer default projects. Specific funding levels in FY 2009 include:

- ♦ Funding in the amount of \$750,000 to support the Developer Default program. This project is necessitated by economic conditions surrounding the construction industry that result in some developers not completing required public facilities, including acceptance of roads by the state, walkways, and storm drainage improvements. Land Development Services (LDS) anticipates 18 new projects will be identified for resolution in FY 2009 as well as 50 requests to prepare composite cost estimates to complete specific developer default projects. FY 2009 funding in the amount of \$750,000 is included for developer default projects that will be identified throughout the fiscal year. Of this amount, \$300,000 is projected in developer default revenue, and an additional \$450,000 is supported by the allocation of HB 599 state revenues.
- ♦ An amount of \$75,000 to fund emergency and safety road repairs to County-owned service drives and County-owned stub streets which are currently not accepted by the Virginia Department of Transportation (VDOT) into the state highway system for maintenance. Emergency safety repairs supported through this project include pothole repair, drive surface overlays, sidewalk and curb repairs, traffic and pedestrian signage, and hazardous tree removal.

On an annual basis, this fund typically supports the Road Viewers (\$50,000) and Road Maintenance (\$50,000) programs. New funding for these projects has been eliminated from Fund 303 due to the availability of a new funding source. On April 4, 2007, the Virginia General Assembly approved the Transportation Funding and Reform Act of 2007 (HB 3202), which authorized both a County increase in the commercial real estate tax of up to 25 cents, as well new regional taxes and fees to be imposed by the NVTA. This legislation would have raised approximately \$300 million annually for transportation funding in northern Virginia. In February 2008 the Virginia Supreme Court ruled the taxing authority of the NVTA was unconstitutional, invalidating a significant source of this revenue. However, the County's authority to implement an increase in the commercial real estate tax was not affected by the Supreme Court decision. As part of its deliberations on the FY 2009 budget, the Board of Supervisors approved an 11 cent/\$100 assessed value increase. This increase will provide approximately \$52 million in new transportation dollars for capital and transit projects in FY 2009. At this time, capital project funds to be supported by the County's increase in the commercial real estate tax are budgeted within Fund 124, County and Regional Transportation Projects (Volume 2), and are held in a project reserve. Both the Road Viewers and Road Maintenance projects have subsequently been incorporated within Fund 124 to be supported by these new transportation funds.

#### **Environmental Initiatives**

FY 2009 funding in the amount of \$600,000 has been included for environmental programs.

♦ An amount of \$600,000 is included to provide funding for initiatives that directly support the Board of Supervisors Environmental Agenda. The Environmental Excellence 20-year Vision Plan (Environmental Agenda) includes six topic areas: Growth and Land Use; Air Quality and Transportation; Water Quality; Solid Waste; Parks, Trails and Open Space; and Environmental Stewardship. FY 2009 prioritized initiatives include: continued outreach materials for air quality awareness targeted at County employees, residents, school children and business owners (\$30,000); removal of invasive plants that threaten native plant communities and expansion of Park Authority volunteer and outreach programs (\$150,000); an additional five remote household hazardous waste events (\$75,000); litter campaign and other environmental initiatives (\$66,900); and energy management at 8 park facilities (\$278,100). In addition, an amount of \$108,000 has been provided in Fund 119, Contributory Fund to continue partnering with three non-profit agencies to expand tree planting throughout the County.

#### **Payments and Obligations**

FY 2009 funding in the amount of \$2,946,632 has been included for costs related to annual contributions and contractual obligations.

- ♦ Funding of \$1,080,149 is included for the fourth payment for the Salona property based on the Board of Supervisor's approval of the purchase of the conservation easement on September 26, 2005. The total cost of the property is \$18.2 million with payments scheduled through FY 2026.
- ♦ Funding of \$750,000 is included for the County's annual contribution to offset school operating and overhead costs associated with new SACC Centers.
- ♦ Funding of \$1,016,483 is included for Fairfax County's contribution to the Northern Virginia Community College (NVCC). Funding provides for the continued construction and maintenance of various capital projects on college campuses within the NVCC system. The FY 2009 funding level reflects \$1.00 per capita based on a population figure provided by the Weldon Cooper Center.
- Funding of \$100,000 is included to support payments to developers for interest earned on conservation bond deposits. The County requires developers to contribute funds to ensure the conservation of existing natural resources. Upon satisfactory completion of projects, the developer is refunded the deposit with interest.

#### **Other Capital Projects**

FY 2009 funding in the amount of \$20,000 has been included to support additional Countywide Capital Projects.

• Funding of \$20,000 is included to provide minor upgrades and repairs to existing streetlights throughout the County.

#### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$72,926,039 due to the carryover of unexpended project balances of \$70,912,235 and an adjustment of \$2,013,804. This adjustment includes the appropriation of revenues in the amount of \$274,481 received during FY 2007 associated with the athletic field maintenance fees; the appropriation of \$634,249 in reimbursement received from the Federal Emergency Management Agency (FEMA) associated with Park Authority clean up after the June 2006 Huntington floodings; and the appropriation of \$154,578 in revenues received from VDOT associated with the Burke VRE trail. In addition, an increase of \$1,000,000 is associated with the appropriation of bonds from the fall 2006 Public Safety Bond Referendum for security enhancements at public safety facilities. The General Fund Transfer is increased by \$107,120 to support lighting retrofits and upgrades at Fairfax County Park Authority facilities for energy efficiency and conservation to support the Board of Supervisors' Environmental Agenda. Lastly, an increase of \$843,376 has been redirected from Project 014010, Commercial Revitalization Studies Program, in Fund 340, Housing Assistance Program, to Project 009800, Revitalization Initiatives, in Fund 303, County Construction. This redirected funding will allow for the new Office of Community Revitalization and Reinvestment (OCRR) to support revitalization activities, marketing materials for countywide revitalization activities, consultant services and training. These increases are partially offset by a decrease of \$1,000,000 as a result of redirecting the balances remaining in three countywide senior initiatives projects to the Health Department. The redirected funding will better align senior services to support the County's Long Term Care Strategic Plan and continue to be used to increase affordable assisted living options for low-income seniors and adults with disabilities.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦ Third Quarter Adjustments**

(\$5,147,325)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$5,147,325. A decrease of \$6,500,000 was included as a transfer from Project 009510, Construction Inflation Reserve in Fund 303 to Fund 312, Public Safety Construction to support the Courthouse Expansion and renovation project. The Construction Inflation reserve was funded in FY 2007 in the amount of \$8,000,000 in order to begin to address escalation in the regional construction market effecting construction projects in progress. The balance in the construction reserve after this action is \$1,500,000. This transfer was required due to costs associated with the Courthouse project including: a negotiated settlement associated with construction contractor claims, higher than anticipated costs associated with additional easement requirements, delays in construction effecting the cost of materials, higher than anticipated contract change orders, additional part time, on-site resident architectural support required to proactively address design issues, additional legal counsel support, higher than anticipated critical structures and quality control inspection costs, and added security elements. In addition, a decrease of \$108,000 was included based on a transfer to Fund 119, Contributory Fund due to the designation of Fairfax ReLeaf, Earth Sangha and the Center for Chesapeake Communities as contributory agencies as approved by the Board of Supervisors on September 24, 2007 to increase the County's tree canopy based on recommendations in the Tree Action Plan.

These decreases were partially offset by an increase of \$1,460,675. This increase included an amount of \$220,261 to appropriate revenues received in FY 2008 associated with the final disbursement of a trust agreement between the County and the developer for the South County Government Center. These funds will be used to complete outstanding warranty items and ensure acceptance of the associated roadwork into the VDOT system. In addition, an increase of \$374,000 was included as a transfer from Fund 317, to support higher than anticipated costs associated with HVAC replacement and electrical support systems for a portion of the Government Center which include the Enterprise and Technology Operation Center (data center). The Enterprise Technology and Operations Center (ETOC) houses the County mainframe computer and corporate servers and is essential to on-going County business and service to citizens. Funding is available in Fund 317 based on the completion of several projects and can help offset expenditures associated with this critically required system upgrade. Lastly, an increase of \$866,414 was included as a transfer from Fund 340, Housing Assistance Program to properly align funding for revitalization activities including marketing materials, consultant services, and training within the Office of Community Revitalization and Reinvestment (OCRR).

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, source of funding, and completion schedules.

<sup>1</sup> Miscellaneous receipts in FY 2008 represent revenue received for Project 009425, South County Government Center associated with the final disbursement of trust funds due from the developer.

- <sup>3</sup> Represents funding received from VDOT associated with Project 009491, Burke Station VRE Trails.
- <sup>4</sup> Reflects developer payments for Project Z00002, Developer Streetlight Program, previously anticipated in Fund 308, Public Works Construction, but reflected in Fund 303, County Construction beginning in FY 2007. Due to the small number of active projects in Fund 308, Public Works Construction, revenues and expenditure balances are reflected in Fund 303, County Construction beginning in FY 2007.
- <sup>5</sup> Revenue anticipated for Project Z00025, Hunter Mill District Streetlights, previously anticipated in Fund 308, Public Works Construction, but reflected in Fund 303, County Construction beginning in FY 2007.
- <sup>6</sup> Represents HB 599 state revenues.
- <sup>7</sup> Represents other state aid in the amount of \$310,000 including \$210,000 associated with Project 009452, Burke Centre and Rolling VRE lots, and \$100,000 associated with Project V00000, Road Viewers Program which was not received in FY 2007 and is anticipated in FY 2008
- <sup>8</sup> Represents anticipated revenues from the General Services Administration to support asbestos mitigation efforts at identified Laurel Hill properties.
- <sup>9</sup> Represents insurance reimbursement for Project 009479, Mason District Amphitheater, for costs associated with reconstruction after fire damage.
- <sup>10</sup> Represents revenue generated by the Athletic Field Application fee to support Project 005012, Athletic Services Fee Field Maintenance, Project 005013, Athletic Services Fee Turf Field Development, and Project 005014, Athletic Services Fee Custodial Support.
- <sup>11</sup> Represents revenue received for the establishment of a conservation easement on the Timblin property. Funding in the amount of \$207,800 was received in FY 2007 from a National Oceanic and Atmospheric Agency (NOAA) grant for Project 009525, Acquisition of Conservation Easements for the Timblin property.
- <sup>12</sup> Represents contributions associated with the Turf Field Development Program.
- <sup>13</sup> Represents funding of \$634,249 from FEMA in FY 2007 which reimburses the Fairfax County Park Authority for cleanup expenditures associated with the Huntington floods in June 2006.
- <sup>14</sup> FY 2008 reflects a Transfer In from Fund 340, Housing Assistance Program of \$1,519,790 to Project 009800, Revitalization Initiatives to support countywide revitalization activities.
- <sup>15</sup> FY 2007 reflects a Transfer In from Fund 308, Public Works Construction of \$1,386,312. Fund 308 was closed as part of the FY 2007 Carryover Review due to the small number of projects and revenue and expenditure balances were reflected in multiple funds.
- <sup>16</sup> Represents a Transfer In from Fund 317, Capital Renewal of \$374,000 to Project 009504, Enterprise and Technology Operation Center (ETOC) to fund higher than anticipated costs associated with HVAC replacement and electrical support systems.

<sup>&</sup>lt;sup>2</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. The fall 2006 Public Safety Bond Referendum included an amount of \$24.8 million to fund capital renewal and security improvements at public safety, civil and criminal justice facilities as well as land acquisition for the Herndon Fire Station. FY 2008 funding in the amount of \$1.0 million represents funding for County security enhancements at public safety facilities.

<sup>17</sup> FY 2009 reflects a Transfer In from Fund 105, Cable Communications of \$1,090,000 to support Project 009432, Telecommunication and Network Connections.

- <sup>19</sup> Represents a Transfer Out to Fund 119, Contributory Fund to support Fairfax ReLeaf, Earth Sangha and the Center for Chesapeake Communities as contributory agencies as approved by the Board of Supervisors on September 24, 2007.
- <sup>20</sup> Represents a Transfer Out to Project 064237, Roberts Road/Braddock Road, in Fund 304, Transportation Improvements to help support construction.
- <sup>21</sup> Represents a Transfer Out to Project 009209, Courthouse Expansion and Renovation, in Fund 312, Public Safety Construction to help support construction costs associated with the project..
- <sup>22</sup> Capital projects are budgeted based on total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>18</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$544,301 has been reflected as an increase to FY 2007 expenditures to reflect expenditure accruals. The projects effected by this adjustment are Project 005009, Athletic Field Maintenance, Project 005012, Athletic Services Fee-Field Maintenance, Project 009406, ADA Compliance-Countywide, Project 009442, Parks-Ground Maintenance, Project 009494 Salona Property and Project 009998, Payments of Interest on Bonds. This impacts the amount carried forward resulting in a net decrease of \$544,301 to the FY 2008 Revised Budget Plan. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

### **FY 2009 Summary of Capital Projects**

| 004999     | Boys' Athletic Field Lighting |            |
|------------|-------------------------------|------------|
| Countywide |                               | Countywide |

**Description and Justification:** This project provides for continuing upgrades associated with boys' baseball field lighting at Fairfax County Public Schools (FCPS) middle and high schools. Currently all boys fields have lighting. Funding supports a replacement and repair schedule, as well as improvements to bring older lighting systems up to new standards. The school system's Office of Design and Construction Services recommends a standard of 30-foot candles of light in the infield and 20-foot candles of light in the outfield. FY 2009 funding in the amount of \$100,000 supports the installation of baseball field lighting at Sandburg Middle School. This effort is being coordinated by the Department of Community and Recreation Services.

| 005000     | Girls' Softball Field Lighting |            |
|------------|--------------------------------|------------|
| Countywide |                                | Countywide |

**Description and Justification:** This project provides for the installation of lights on Fairfax County Public Schools (FCPS) middle and high school athletic fields, as well as identified County park facilities used for girls' softball. Staff from the Department of Community and Recreation Services (CRS) work with community sports groups and coordinate with FCPS and the Fairfax County Park Authority to identify, prioritize and develop plans for addressing girls' softball field lighting requirements. FY 2009 funding in the amount of \$100,000 will continue to address softball field lighting installation at Madison High School. This effort is being coordinated by the Department of Community and Recreation Services.

| 005006     | Parks Maintenance of Fairfax County Public Schools' | Athletic Fields |
|------------|---|-----------------|
| Countywide |   | Countywide      |

**Description and Justification:** This project provides for general maintenance of FCPS athletic fields. This maintenance effort includes a consistent mowing frequency of 28 times per year 473 athletic fields (approximately 176 school sites) and provides for aeration and over-seeding to improve turf coverage and reduce chance of injury. FY 2009 funding in the amount of \$738,648 is included for the continuation of the FCPS athletic field maintenance program. This effort is being coordinated by the Fairfax County Park Authority; however, all field maintenance will be coordinated between the Park Authority and the Department of Community and Recreation Services.

| 005012     | Athletic Services Fee – Field Maintenanc | e          |
|------------|--|------------|
| Countywide |  | Countywide |

**Description and Justification:** FY 2009 funding in the amount of \$1,000,000 is included to support enhanced maintenance of athletic fields. Of this total, \$750,000 is supported by the General Fund, and \$250,000 is supported by revenue generated by the Athletic Services Fee. This project provides funding for an enhanced level of maintenance performed by the Park Authority on Fairfax County Public School (FCPS) athletic fields, and directly applies all revenue generated by the Athletic Field Application fee to the athletic field maintenance program. The enhanced level of maintenance provides a consistent mowing frequency schedule for high school diamond fields, as well as diamond field infield preparation twice a week for all elementary, middle and high school fields. It also establishes post-season field treatment standards and a maintenance schedule for recently completed irrigation and lighting projects on FCPS fields.

| 005013     | Athletic Services Fee – Turf Field Developm | nent       |
|------------|---|------------|
| Countywide |   | Countywide |

**Description and Justification:** This project provides support for the Synthetic Turf Development Program. This program facilitates the development of synthetic turf fields in the County and is supported by the Athletic Services Fee. Fields are chosen through a review process based on the need in the community, community use, and the field location and amenities. An amount of \$500,000 is supported by revenue generated by the Athletic Services Fee in FY 2009. In addition, on November 7, 2006, the voters approved a \$25 million Park Bond Referendum of which \$10 million is earmarked to fund the conversion of up to 12 fields from natural turf to synthetic turf.

**Description and Justification:** This project provides custodial support of indoor gyms used by sports organizations and is supported by the Athletic Services fee. The use of FCPS indoor facilities on the weekend requires FCPS to schedule a school system employee to open and close the facility. Revenue generated from the Athletic Services Fee has been used to provide payment for FCPS staff, eliminating the need for indoor sports organizations to pay the hourly rate previously charged. FY 2009 funding in the amount of \$200,000 is included for this project, which is entirely supported by revenue generated from the Athletic Services Fee and managed by the Department of Community and Recreation Services.

**Description and Justification:** This project provides support for routine maintenance of girls' softball field amenities on select Fairfax County Public School sites. These amenities, such as dugouts, fencing, and irrigation systems, were added or constructed by the county based on recommendations by the citizen-led Action Plan Review Team in order to reduce disparities in the quality of fields assigned to boys baseball and girls softball organizations. Routine maintenance is necessary both to maintain equity and to ensure safety. For 5 years, funding of \$200,000 was provided to support Girls' Fast Pitch Field Maintenance improvements to various girls' softball fields throughout the County as requested by Fairfax Athletic Inequities Reform (FAIR). Funding for the Girls' Fast Pitch Field Maintenance project ended in FY 2004. FY 2009 funding in the amount of \$50,000 will provide maintenance for the improvements and amenities added to girls' softball fields.

| Countywide |   | Countywide |

**Description and Justification:** This project provides funding for an annual contribution of \$750,000 to offset school operating and overhead costs associated with new SACC Centers. The construction and renovation costs for SACC centers are funded by the FCPS through General Obligation bonds for which the debt service costs are provided by the County General Fund.

| Various loca | tions in Northern Virginia          | Countywide |

**Description and Justification:** Fairfax County participates with eight other jurisdictions to provide funds for required capital improvements in the Northern Virginia Community College (NVCC) system. An amount of \$1,016,483 is included in FY 2009 for Fairfax County's contribution to the continued construction and maintenance of various capital projects on college campuses. NVCC has assessed \$1.00 per resident for each jurisdiction, based on census data. FY 2009 funding represents \$1 per capita using the Weldon Cooper Center population figure of 1,016,483.

| 009416     | Parks - ADA Compliance |            |
|------------|------------------------|------------|
| Countywide |                        | Countywide |

**Description and Justification:** This project provides for Park Authority compliance with the Americans with Disabilities Act (ADA) of 1990. Title II of the ADA prohibits discrimination on the basis of disability by public entities and requires that each program, service, or activity conducted by a public entity be readily accessible to and usable by individuals with disabilities. The Park Authority continues to retrofit facilities in priority order. FY 2009 funding in the amount of \$300,000 is included to continue modifications at Lake Fairfax Park including the outdoor restroom, parking spaces, and an accessible route to the picnic pavilion. This project is supported from the allocation of HB 599 state revenues.

| 009417     | Parks – General Maintenance |            |
|------------|-----------------------------|------------|
| Countywide |                             | Countywide |

**Description and Justification:** This project provides for major maintenance and repairs at non-revenue producing Park Authority facilities including electrical and lighting systems, security and fire alarm systems, sprinklers, and HVAC improvements. In addition, this project funds roof repairs and structural preservation of park historic sites. Facilities maintained include field houses, boat houses, pump houses, maintenance facility sheds, shelters, and office buildings. Priorities are based on an assessment of current repair needs associated with safety and health issues, facility protection, facility renewal, and improved services. FY 2009 funding in the amount of \$425,000 has been included to address structural stabilization at Wakefield Chapel (\$50,000), security system replacement at nature centers and maintenance facilities (\$75,000), roof replacement at picnic shelters, nature centers and maintenance facilities (\$150,000) and improvements necessary at the Green Spring Garden Park including site stabilization, interior repairs, and roof replacement (\$150,000).

| 009422     | Maintenance-Commercial Revitalization Pro | gram       |
|------------|---|------------|
| Countywide |   | Countywide |

**Description and Justification:** This project provides for recurring maintenance associated with Commercial Revitalization Program (CRP) capital improvements. The CRP was approved by the Board of Supervisors on December 2, 1996. Maintenance projects include landscaping, mowing, trash pick-up, maintenance of bicycle racks, area signs, street furniture, and drinking fountains. Maintenance will be provided in four major revitalization areas in Fairfax County including: Annandale, Route 1, Springfield, and Baileys Crossroads. The inventory of areas maintained in CRP districts continues to increase annually. FY 2009 funding in the amount of \$400,000 will address requests for maintenance at these commercial areas. This project is supported from the allocation of HB 599 state revenues.

| 009432     | Telecommunication and Network Connecti | ons        |
|------------|--|------------|
| Countywide |  | Countywide |

**Description and Justification:** This project provides funding to support phone systems at new facilities including voice/data/wireless cabling, data switch and new telecommunications system. FY 2009 funding in the amount of \$190,000 is included for telecommunications systems at several new facilities including: the West Ox Bus Garage (\$65,000), the Health Department Lab being relocated to Belle Willard (\$100,000) and the Mt. Vernon Mental Health Center (\$25,000). Funding in the amount of \$900,000 is included for I-Net connections for the following facilities: Thomas Jefferson Library, Dolley Madison Library, Girls Probation House, Less Secure Shelter, Gregory Drive Treatment Facility, Health Department Lab, Public Safety Transportation and Operations Center (PSTOC), Burke Centre Library, Wolftrap Fire Station, Richard Byrd Library, Great Falls Fire Station, Martha Washington Library and the Mt. Vernon Mental Health Center. The total amount of \$1,090,000 is supported from Fund 105, Cable Communications.

| 009442     | Parks – Grounds Maintenance |            |
|------------|-----------------------------|------------|
| Countywide |                             | Countywide |

**Description and Justification:** This project provides for grounds maintenance at non-revenue producing countywide parks. Grounds maintenance includes the upkeep of sidewalks and parking lots, bridges, recreation and irrigation equipment, picnic equipment, tennis courts and trails. In addition, grounds maintenance includes contracted mowing of grassy areas at park sites. FY 2009 funding in the amount of \$987,076 is included for grounds maintenance needs at designated Park Authority sites throughout the County.

|------------|------------------------------|------------|
| Countywide |                              | Countywide |

**Description and Justification:** This project provides for minor routine preventative maintenance at non-revenue producing countywide parks. This includes 367 buildings totaling over 400,000 square feet and over 276 pieces of equipment (mowers, tractors, etc.). Facility maintenance includes the replacement of broken windows and doors, equipment repairs, and scheduled inspections of HVAC, security, and fire alarm systems. FY 2009 funding in the amount of \$470,000 is included for continued maintenance at prioritized Park sites. Of this amount, \$96,671 is supported by the General Fund, and \$373,329 from the allocation of HB 599 state revenues.

| 009444         | Laurel Hill Development |              |
|----------------|-------------------------|--------------|
| 8400 Lorton Ro | ad                      | Mount Vernon |

**Description and Justification:** This project addresses property management and development at the Laurel Hill property. Laurel Hill was transferred to the County by the federal government during 2002. The property includes approximately 2,340 acres of land and 1.48 million square feet of building space within 367 buildings. FY 2009 funding in the amount of \$1,672,006 will continue to address the needs at this site, including a security/maintenance contract, consulting services, structural maintenance and utilities at existing buildings, custodial, planning, and engineering positions, and maintenance of park facilities. This project is supported from the allocation of HB 599 state revenues.

| 009700     | Environmental Agenda Initiatives |            |
|------------|----------------------------------|------------|
| Countywide |                                  | Countywide |

**Description and Justification:** This project provides funding for initiatives that directly support the Board of Supervisors Environmental Agenda. The Environmental Excellence 20-year Vision Plan (Environmental Agenda) includes six topic areas: Growth and Land Use; Air Quality and Transportation; Water Quality; Solid Waste; Parks, Trails and Open Space; and Environmental Stewardship. FY 2009 funding of \$600,000 is included for these prioritized initiatives: continued outreach materials for air quality awareness targeted at County employees, residents, school children and business owners (\$30,000); removal of invasive plants that threaten native plant communities and expansion of Park Authority volunteer and outreach programs (\$150,000); an additional five remote household hazardous waste events (\$75,000); litter campaign and other environmental initiatives (\$66,900); and energy management at eight park facilities (\$278,100). In addition, an amount of \$108,000 has been provided in Fund 119, Contributory Fund to continue partnering with three non-profit agencies to expand tree planting throughout the County.

| 009800     | Revitalization Initiatives |            |
|------------|----------------------------|------------|
| Countywide |                            | Countywide |

**Description and Justification:** Funding in the amount of \$190,000 is included to support commercial revitalization initiatives. The Revitalization Initiatives project provides support for the Office of Community Revitalization and Reinvestment within the Office of the County Executive on revitalization activities, marketing materials for countywide revitalization initiatives, consultant services and training.

| 009998     | Payment of Interest on Conservation Bon | ds         |
|------------|---|------------|
| Countywide |   | Countywide |

**Description and Justification:** This project provides for payments to developers for interest earned on conservation bond deposits. The County requires developers to make deposits to ensure the conservation of existing natural resources. Upon satisfactory completion of the project, the developer is refunded the deposit with interest. FY 2009 funding in the amount of \$100,000 is based on prior year actual expenditures and current interest rates.

| U00060     | Developer Default Program |            |
|------------|---------------------------|------------|
| Countywide |                           | Countywide |

**Description and Justification:** This project supports the Developer Default program. This project is necessitated by economic conditions surrounding the construction industry that result in some developers not completing required public facilities, including acceptance of roads by the state, walkways, and storm drainage improvements. The receipt of monies from developer escrow and court judgments and/or compromise settlements is often not sufficient to offset the costs. It should be noted there has been an increased level of activity for this program in recent years and current projections this trend will continue. Land Development Services (LDS) anticipates 18 new projects will be identified for resolution in FY 2009 as well as 50 requests to prepare composite cost estimates to complete specific developer default projects. FY 2009 funding in the amount of \$750,000 is included for developer default projects that will be identified throughout the fiscal year. Of this amount, \$300,000 is projected in developer default revenue, and \$450,000 is supported from the allocation of HB 599 state revenues.

| V00002     | Emergency Road Repair |            |
|------------|-----------------------|------------|
| Countywide |                       | Countywide |

**Description and Justification:** This project provides for emergency and safety road repairs to County-owned service drives and County-owned stub streets which are currently not accepted by the Virginia Department of Transportation (VDOT) into the state highway system for maintenance. Emergency safety repairs include pothole repair, drive surface overlays, sidewalk and curb repairs, traffic and pedestrian signage, and hazardous tree removal. FY 2009 funding in the amount of \$75,000 is included for continued road maintenance and safety repairs.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund supports the land acquisition, design and construction of County transportation improvements. During the 1981 Session of the Virginia General Assembly, legislation was approved that authorized counties with a population over 125,000 to undertake secondary roadway improvements through the use of General Obligation bond revenues or General Fund revenues. Prior to this action, the construction and maintenance of all roadways in Fairfax County had been the exclusive responsibility of the Virginia Department of Transportation (VDOT). The existing road bond program is supported by General Obligation bonds approved by the voters in November 2004. In November 2007 the voters approved new bond funding in the amount of \$110 million.

In future years, Fund 304, Transportation Improvements bond funding will be used in conjunction with new revenue made available to the County under the Transportation Funding and Reform Act of 2007 (HB 3202), approved by the General Assembly on April 4, 2007. This legislation authorized both a County increase in the commercial real estate tax of up to 25 cents per \$100 assessed value, as well new taxes and fees to be imposed by the Northern Virginia Transportation Authority (NVTA). This legislation would have raised \$300 million annually for transportation funding in northern Virginia. In February 2008 the Virginia Supreme Court ruled that the taxing authority of the NVTA was unconstitutional, invalidating the NVTA taxes and fees composing a significant source of this revenue. However, the County's authority to implement an increase in the commercial real estate tax was not affected by the Supreme Court decision. As part of its deliberations on the FY 2009 budget, the Board of Supervisors approved an 11 cent increase, providing approximately \$52 million in new transportation dollars for capital and transit projects in FY 2009. The Board approved a priority list of projects on May 5, 2008. This new source of revenue, related capital project expenditures, as well as new staff to support an expanded workload, is reflected in Fund 124, County and Regional Transportation Projects.

In prior years Fund 304 has been supplemented periodically with General Fund monies and state aid to support spot improvement projects as approved by the Transportation Advisory Commission (TAC) and the Board of Supervisors. These projects consist of intersection improvements such as turn lanes, sidewalk and trail connections, and bus stop improvements. Generally, these improvements are low-cost, quick-hit projects to improve mobility, enhance safety, and provide relief for transportation bottlenecks throughout the County.

The Spot Improvement program has been eliminated from Fund 304, Transportation Improvements, due to the availability of a new funding source for this program. Spot Improvement projects have been incorporated within Fund 124, County and Regional Transportation Projects to be supported by the newly authorized transportation funds and will be implemented as approved by the Board of Supervisors with input from the Transportation Advisory Committee.

#### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$49,256,515 due to the carryover of unexpended project balances in the amount of \$45,893,733 and an adjustment of \$3,362,782. This adjustment included: the appropriation of \$2,782 in miscellaneous revenue received in FY 2007; the appropriation of anticipated FY 2008 revenue of \$860,000 from the sale of land; and a \$2,500,000 state grant from the Virginia National Defense Industrial Authority (VNDIA) for spot transportation improvements and travel demand management related to the Fort Belvoir Base realignment.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$94,000,000 due to the appropriation of bond funds associated with the approval of the fall 2007 Transportation Bond Referendum. Funds will support specific road, pedestrian and bus stop improvement projects approved by the Board of Supervisors on May 7, 2007.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

<sup>1</sup> The sale of bonds is presented here for planning purposes only. Actual bonds sales are based on cash needs in accordance with Board policy. In November 2004, voters approved a Transportation Bond Referendum in the amount of \$165 million, of which \$55 million was included for roadway and pedestrian improvements in Fund 304. An amount of \$6.0 million from the 2004 bond referendum was sold as part of the January 2007 Bond Sale for implementation of the Board of Supervisor's 4 Year Transportation Plan. An amount of \$28.29 million remains in authorized but unissued bonds from the November 2, 2004 bond referendum. In November 2007, voters approved a Transportation Bond Referendum in the amount of \$110 million. A total of \$94 million is associated with Transportation Improvement Projects in Fund 304 and was appropriated at the *FY 2008 Third Quarter Review*.

- <sup>3</sup> A total of \$18,785,000 in revenue from the Virginia Department of Transportation (VDOT) is associated with Project 064233, Spring Hill Road (\$7,700,000), Project 064246, South Van Dorn/Franconia Interchange (\$7,585,000) and Project 064248, Fairfax County Parkway Widening (\$3,500,000). Through FY 2007, an amount of \$7,243,864 has been received and \$11,541,136 is anticipated in FY 2008 and beyond.
- <sup>4</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$14,588 has been reflected as an increase to FY 2007 revenue and a decrease to FY 2008 revenue to reflect the proper receipt of VDOT Reimbursement. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).
- <sup>5</sup> FY 2008 reflects anticipated revenue from VDOT State Secondary Road funds associated with Project 064267, Pedestrian Improvements- VDOT.
- <sup>6</sup> Reflects revenue in the amount of \$1,875,000 from the Governor's Congestion Relief Program for improvements to County intersections to meet air quality standards and relieve traffic congestion. Through FY 2007, an amount of \$874,345 has been received and \$1,000,655 is anticipated in FY 2008 and beyond.
- <sup>7</sup> FY 2008 anticipated developer contributions of \$92,420 are associated with Project 064233, Spring Hill Road (\$12,420) and Project 4YP002, Route 1/Post Office Left Turn Lane (\$80,000).
- <sup>8</sup> The FY 2007 General Fund Transfer reflects the replacement of bond funds utilized to satisfy Federal Transit Authority (FTA) grant Local Cash Match requirements associated with Project 064268, Richmond Highway Public Transportation Initiative and Project 064269, Burke VRE Station Parking Expansion.
- <sup>9</sup> The FY 2007 transfer from Project U00100, VDOT Participation in Fund 308, Public Works Construction was based on the elimination of Fund 308 as part of the FY 2006 Carryover Review.
- <sup>10</sup> The FY 2007 transfer from Project 009468, Braddock District Capital Projects in Fund 303 was to help support construction of Project 064237, Roberts Road/Braddock Road.
- <sup>11</sup> Reflects an amount of \$195,000 in FY 2007 to support Project 006617, Fox Mill Road/Reston Parkway, in Fund 300, County Roadway Improvements.
- <sup>12</sup> FY 2007 reflects an amount of \$150,000 not needed for Fund 304 Project 064242, West Ox Road/Monroe St. transferred back to Fund 301 Project 009900, Miscellaneous Reserve and an amount of \$280,000 for Fund 301 Project 008801, Stone Road.
- <sup>13</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>2</sup> Represents House Bill 599 state revenues.

### Fund 306 Northern Virginia Regional Park Authority

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund. It should be noted that during their deliberations on the FY 2009 – FY 2013 Capital Improvement Program, the Board of Supervisors approved an increase in the fall 2008 bond referendum from \$11 million to \$12 million to support Fairfax County's Northern Virginia Regional Park Authority capital contribution.

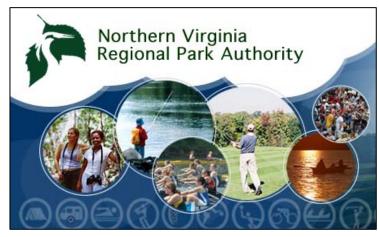

#### **Focus**

This fund supports Fairfax County's annual capital contribution to the Northern Virginia Regional Park Authority (NVRPA). The NVRPA was created in 1959 under the Virginia Park Authorities Act to provide a system of regional parks in the Northern Virginia area. The NVRPA currently operates 21 regional parks and owns more than 10,000 acres of land, of which more than 7,700 acres are in Fairfax County. Parklands within the system include: Bull Run, Bull Run Marina, Fountainhead, Sandy Run, Pohick Bay, Carlyle House Historic Park, Potomac Overlook, Upton Hill, Algonkian, Red Rock, the W&OD Trail, Occoquan, Hemlock Overlook, Cameron Run, Gateway, Meadowlark Gardens, Ball's Bluff, Temple Hall, Brambleton, Blue Ridge and Aldie Mill. In addition, the NVRPA administers extensive regional historic and conservation properties throughout Northern Virginia. These community resources are supported primarily from the annual contributions of its six member jurisdictions: the counties of Fairfax, Loudoun and Arlington, and the cities of Fairfax, Alexandria and Falls Church. Each member jurisdiction's contribution is in proportion to its share of the region's population of approximately 1.6 million residents.

The primary focus of NVRPA's capital program is to continue the restoration, renovation and modernization of existing park facilities, many of which were developed or constructed more than 20 years ago. Additional elements of the capital program include land acquisition, the development of interpretive and educational displays and the adaptation of park features to meet the needs of the disabled. In its conservation efforts, NVRPA is also involved in implementing portions of the Environmental Quality Corridors concept, which defines an open space land system designated for long-term protection in the County. In this role, NVRPA

continues to place emphasis on the acquisition of shoreline properties along the Potomac, Bull Run and Occoquan Rivers, while the Fairfax County Park Authority (FCPA) concentrates on acquiring land along the County's interior stream valleys.

Significant 2007 capital improvements that expanded service to the public include a redesigned water park at Upton Hill Regional Park, a remodeled meeting center at Algonkian Regional Park, campground improvements at Bull Run and Pohick Bay Regional Parks, improved boat ramps and/or docks at Pohick Bay, Sandy Run

and Bull Run Marina and historic preservation work at Pohick Bay, Carlyle House and Red Rock. Other accomplishments in recent years have included mini-golf and shelters/picnic area renovations at Algonkian Regional Park, a light show at Bull Run Special Event Center and pool renovations at Cameron Run Regional Park. Work in progress includes the expansion of the Algonkian Meeting and Event Center Parking lot, additional campground renovations at Fountainhead Park and garden development and expansion at Meadowlark Botanical Gardens. Needed maintenance and safety improvements include renovations to the

### Fund 306 Northern Virginia Regional Park Authority

entrance area of the Potomac Overlook, an irrigation system at Meadowland Botanical Gardens, HVAC and roof renovations at the historic Carlyle House and continuing W&OD trail improvements.

Recent improvements have been supported by a \$10.0 million Park Bond Referendum for Fairfax County's capital contribution to the NVRPA, approved by the voters in the fall of 2004. This referendum supported an expenditure appropriation level of \$2.5 million per year, from FY 2005 through FY 2008. Pending approval of the 2008 referendum, General Obligation bond funding in the amount of \$2,596,839 for the county subsidy is included in FY 2009 for Fund 306, NVRPA. These funds, if approved, will be used to support the total FY 2009 NVRPA capital budget of \$4,238,524 that includes projects such as Bull Run Marina 50<sup>th</sup> Anniversary Park Improvements, Meadowlark Botanical Gardens Development, Washington and Old Dominion Trail improvements, Pohick Bay Regional Park campground renovations, and park energy projects. FY 2009 represents the first of four years of County contributions associated with the planned 2008 referendum. It will allow the NVRPA to continue to address needed capital infrastructure improvements. Annual appropriations will be based on a per capita formula and supported by \$12 million in proposed bond funding.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no revisions to this fund since the approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> The fall 2004 Bond Referendum approved by voters included \$10.0 million to sustain the County's contribution to the NVRPA for four years. The sale of bonds included \$5.0 million in FY 2006 and \$5.0 million in FY 2007. Bond sales were timed to take advantage of favorable interest rates, rather than being equally distributed over the four years of expenditure appropriations. All bonds associated with the fall 2004 referendum have been sold. An amount of \$2,596,839 is included in FY 2009 pending the approval of a fall 2008 Park Referendum.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

During their deliberations on the <u>FY 2009 Advertised Budget Plan</u>, the Board of Supervisors eliminated funding of \$300,000 for Project X00407, Sidewalk Replacement/VDOT. The VDOT participation program allows the County to minimize construction costs by permitting VDOT to conduct repair and replacement of multiple sidewalks within one construction contract. The County is then responsible for reimbursing VDOT at the completion of the project.

#### **Focus**

This fund supports pedestrian and walkway improvements throughout the County, including the Fairfax County Sidewalk Program and the Fairfax County Trail Program. The Fairfax County Sidewalk Program was originally established in coordination with the Fairfax County Public Schools to ensure safe walking conditions for public school students in the County. In recent years, the scope of this program has been expanded to include providing critical walkway and trail segments in coordination with the Trails and Sidewalk Committee to serve the recreation and transportation needs of pedestrians, bicyclists and equestrians in the County. This

program includes projects that link residential areas and public schools, as well as missing walkway and trail segments to provide connections to completed portions of the Countywide trail network. Fairfax County Trail Program was developed to serve the recreation and transportation needs of bicyclists pedestrians, and equestrians in the County. The County is currently responsible for the maintenance and upgrade of approximately 600 miles walkways including the 50 miles of school walkways, improvements to existing trails and bridges, as well as additional trails and stream crossings.

On an annual basis, this fund typically supports the maintenance of existing trails and the VDOT participation program. Funding of \$300,000 was included in Fund 307, Pedestrian Walkway Improvements, in FY 2009 to support the Virginia Department of Transportation (VDOT) participation project for sidewalk repairs and replacement. The VDOT participation program allows the County to minimize construction costs by permitting VDOT to conduct repair and replacement of multiple sidewalks within one construction contract. The County is then responsible for reimbursing VDOT at the completion of the project. This funding was subsequently eliminated.

No FY 2009 funding has been included in Fund 307 for the Emergency Maintenance of Existing Trails project. This program has been eliminated from Fund 307 due to the availability of a new funding source for pedestrian improvements. In future years, funding from new revenue made available to the County under the Transportation Funding and Reform Act of 2007 (HB 3202), approved by the General Assembly on April 4, 2007 will support pedestrian improvements. This legislation authorized both a County increase in the commercial real estate tax of up to 25 cents per \$100 assessed value, as well new taxes and fees to be

imposed by the Northern Virginia Transportation Authority (NVTA). This legislation would have raised \$300 million annually for transportation funding in northern Virginia, and 40 percent would have been returned directly to the jurisdiction in which it was raised. In February 2008 the Virginia Supreme Court ruled that the taxing authority of the NVTA was unconstitutional, invalidating the NVTA taxes and fees composing a significant source of this revenue. However, the County's authority to implement an increase in the commercial real estate tax was not affected by the Supreme Court decision. As part of its deliberations on the FY 2009 budget, the Board of Supervisors approved an 11 cent increase, providing approximately \$52 million in new transportation dollars for capital and transit projects in FY 2009. The Board approved a priority list of projects on May 5, 2008. This new source of revenue, related capital project expenditures, as well as new staff to support an expanded workload, is reflected in Fund 124, County and Regional Transportation Projects. In the future, the Emergency Maintenance of Existing Trails program may be incorporated within Fund 124 in support of the pedestrian improvements program.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$5,665,701 due to the carryover of unexpended project balances in the amount of \$5,857,484 and a net decrease of \$191,783. This adjustment was due to the appropriation of revenues in the amount of \$8,217 associated with developer contributions and miscellaneous revenues received in FY 2007, offset by a transfer out of \$200,000 to Fund 100, County Transit. The transfer to Fund 100 was approved by the Board of Supervisors on May 21, 2007 to provide for enhanced bus service from Reston to West Falls Church and requires a reduction in the scope of Plaza America pedestrian improvements previously approved by the Board as part of the *FY 2007 Third Quarter Review*.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$344,346

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$344,346 due to the appropriation of developer contributions received and anticipated enhancement grant funds. This adjustment includes \$40,600 in developer contributions associated with trails in the Sully District and \$352,000 in Enhancement Grant funds from the Virginia Department of Transportation (VDOT) as approved by the Board of Supervisors on November 19, 2007. These increases are partially offset by a decrease of \$48,254 due to the elimination of Project W00800, Union Mill Trail Upgrade.

A Fund Statement, a Summary of Capital Projects and a Project Detail Table for the project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Table includes project location, description, source of funding and completion schedules.

| Ending Balance <sup>11</sup>          | \$2,252,421       | \$0                               | \$0                               | \$0                                  | \$0                               |

- <sup>1</sup> Reflects HB 599 State Aid. In addition, an amount of \$565,000 in State Revenue Sharing funds associated with Project K00447, Richmond Highway Public Transportation Initiatives is anticipated to be received in FY 2008.
- <sup>2</sup> Represents VDOT supplemental revenue sharing funds in the amount of \$648,921 and local cash match funds from the Northern Virginia Transportation Commission in the amount of \$668,921 based on a Revenue Sharing Program Amendment approved by the Board of Supervisors on February 27, 2006 for the Project K00447, Richmond Highway Public Transportation Initiatives.
- <sup>3</sup> An amount of \$1,225,000 is anticipated from a Transportation Enhancement Act (TEA-21) grant award associated with Project W00500 (W5010), Columbia Pike Trail, Project W00600 (W6070), Mason Neck Trail, Project W00200 (W2120), Walker Road Trail and Project W00200 (W2020), Georgetown Pike Trail. Of this amount, \$1,085,208 has been received. The remaining amount of \$139,792 is anticipated in FY 2008. A second TEA-21 grant in the amount of \$200,000 was approved for Project W00600 (W6130), Mason Neck Trail Segment II. FY 2007 revenues in the amount of \$62,284 have been received with the remaining \$137,716 anticipated in FY 2008. A third set of TEA-21 grants in the amount of \$352,000 were approved on November 19, 2007. Of this amount, \$80,000 is for Project W00300 (W3110), Beulah Road Trail and \$272,000 is for Project W00600 (W6130), Mason Neck Trail Segment II.
- <sup>4</sup> Represents anticipated Congestion Mitigation and Air Quality Improvement (CMAQ) grant funding of \$619,000 for Project W00900 W9030, Route 29/I-66 Underpass and a transfer in the amount of \$165,640 in anticipated CMAQ revenue from Fund 313, Trail Construction for Project 002136, Great Falls Street Trail. An amount of \$424,604 was received in FY 2007 and \$360,036 is anticipated in FY 2008.
- <sup>5</sup>An amount of \$366,680 is anticipated from a Federal Highway Administration National Scenic Byway Grant associated with Project W00200 W2020, Georgetown Pike Trail.
- <sup>6</sup> An amount of \$415,678 was originally anticipated from a Virginia Department of Transportation Enhancement Grant based on actual eligible reimbursements associated with the following projects: Project W00200 W2020, Georgetown Pike Trail (\$233,678), Project W00300 W3110, Beulah Road Trail (\$80,000), and Project W00800 W8090, Union Mill Trail (\$102,000). In FY 2007 an amount of \$32,900 was received for Project W00300 W3110 and \$53,880 was received for Project W00800 W8090. In FY 2008, expenditures will be decreased by \$48,254 due to the elimination of Project W00800 (W8090), Union Mill Trail Upgrade. The remaining amount of \$280,644 is anticipated in FY 2008.
- <sup>7</sup> Represents revenue reimbursement from Virginia Department of Transportation (VDOT) for Project 002136, Great Falls Street Trail.
- <sup>8</sup> Represents developer contributions associated with several sidewalk projects.
- <sup>9</sup> Due to the small number of active projects in Fund 313, Trail Construction, all revenues and expenditure balances are reflected in Fund 307, Pedestrian Walkway Improvements beginning in FY 2007. In addition, the ending balance of \$36,955 was transferred to Fund 307, as part of the *FY 2006 Carryover Review*. This action officially closed out Fund 313. This consolidation allows all walkway, trail and sidewalk projects to be accounted for in one fund and results in a name change for Fund 307 from Sidewalk Construction to Pedestrian Walkway Improvements.
- <sup>10</sup> FY 2008 transfer of \$200,000 to Fund 100, County Transit is necessary to offset costs associated with mid-day service on Connector Bus 504, as approved by the Board of Supervisors on May 21, 2007.
- <sup>11</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### **FY 2009 Summary of Capital Projects**

Fund: 307 Pedestrian Walkway Improvements

#### **Focus**

Fund 309, Metro Operations and Construction, contains the funds provided by Fairfax County to pay the County's allocated portion of the Washington Metropolitan Area Transit Authority's (WMATA) FY 2009 operating and capital budget. The County subsidizes Metrorail, Metrobus, and MetroAccess (paratransit) service, contributes to construction costs associated with the 106-mile Metrorail system, and contributes to the repair, maintenance, rehabilitation, and replacement of capital equipment and facilities for the Metrobus, Metrorail, and MetroAccess systems.

The WMATA budget presented here is based on initial FY 2009 information obtained from WMATA budget staff in fall 2007 as well as Fairfax County Department of Transportation staff estimates. The WMATA Board Budget Committee reviews the WMATA proposed budget between January and May 2008. Based on a fall 2007 WMATA forecast of a FY 2009 net funding need of \$109 million, on December 13, 2007 the WMATA Board adopted its first fare increase in four years. Bus and rail fares for peak hours, as well as parking fees, increased in January 2008 to help close the FY 2009 budget shortfall. Existing fares, which had been in effect since FY 2005, had included a base fare of \$1.35 for Metrorail and base fare of \$1.25 for Metrobus. Beginning January 6, 2008, rush hour Metrorail fares increased 30 to 60 cents depending on the length of the

trip, with the rush hour base fare rising 30 cents from \$1.35 to \$1.65. Daily parking fares, which had cost up to \$4, rose 75 cents per day, and the base cash fare on Metrobus increased 10 cents from \$1.25 to \$1.35 for customers paying cash. The Metrobus fare remained \$1.25 for riders using SmarTrip.

Metro is devising a plan to address the challenge of rising operational costs and an aging infrastructure. On April 4, 2007, the Virginia General Assembly approved the Transportation Funding and Reform Act of 2007 (HB 3202), which authorized new taxes and fees to be imposed by the

Northern Virginia Transportation Authority (NVTA) and would have raised \$300 million annually for transportation funding in northern Virginia, including \$50 million annually for Metro capital expenses. In February 2008 the Virginia Supreme Court ruled that the taxing authority of the NVTA was unconstitutional, invalidating the NVTA taxes and fees that were this source of this revenue. Discussions will continue at the State level on how best to replace this lost funding to meet the transportation challenges of northern Virginia.

An additional potential source of future Metro capital funding is the National Capital Transportation Amendments Act of 2007, not yet approved by Congress. This legislation would provide Metro with \$1.5 billion in capital federal grant funds over 10 years, enabling it to better maintain tracks, repair tunnels and buy new buses and railcars.

Based on current Metro system needs, Metro projects a continuing increase in its subsidy from local jurisdictions. The County's portion of the total WMATA budget is determined by using several formulas that include factors such as jurisdiction of residence of passengers, number of stations located in a jurisdiction, the amount of service in a jurisdiction, the jurisdiction's population, and the jurisdiction's population density.

In FY 2009, General Obligation Bond revenues of \$23.8 million will cover the majority of the County's subsidy for Metro Capital Construction Expenditures. The balance of construction requirements and all of the operating subsidy are met through a General Fund Transfer, Applied State Aid, County Gas Tax Receipts, interest earnings on State Aid balances, and any State Transportation Bond Revenues. These funds are identified in Fund 309, Metro Operations and Construction, even though not all of these funds are directly received or disbursed by the County. State Aid and Gas Tax balances are held and disbursed by the Northern

Virginia Transportation Commission (NVTC) according to a funding formula. These funds are used by Fairfax County in conjunction with the County's General Fund and General Obligation bonds to support WMATA's operating and capital costs. In FY 2009, a total of \$44.9 million in State Aid, \$19.7 million in Gas Tax Receipts, and \$1.4 million in anticipated interest on balances held by NVTC will be used to support the County's subsidy for Metro. A transfer of \$0.1 million from Fund 301, Contributed Roadway Improvement Fund, contributes through a proffer to the operating support of bus service in the Franconia/Springfield area. The Board of Supervisors approved a General Fund Transfer of \$7.5 million to cover the remaining projected operating expenditures. It is noted that, as part of its deliberations on the FY 2009 Budget Plan, the Board of Supervisors approved adjustments to the FY 2009 Advertised Budget Plan, decreasing the General Fund Transfer by \$10.0 million, offsetting this decrease with an additional \$8.5 million in revenue from NVTC State Aid one-time balances and a reduction of \$1.5 million to the existing Fund 309 ending balance. This adjustment allows General Fund resources to be redirected to meet other County requirements in the FY 2009 budget.

### **FY 2009 Funding Adjustments**

The following funding is necessary to support the FY 2009 program:

#### **♦** Metro Annual Operating Requirements

\$68,605,446

The FY 2009 subsidy requirement for WMATA Operating Expenses totals \$68,605,446, an increase of \$5,451,801 or 8.6 percent over the FY 2008 Revised Budget Plan, due to initial estimated funding requirements obtained from WMATA budget staff and the Fairfax County Department of Transportation staff in fall 2007. This funding level:

- Supports existing Metrorail and Metrobus service levels, including \$38,215,444 for Metrobus and the continuation of Springfield Circulator service started in FY 2001; \$21,193,554 for Metrorail; and \$7,796,448 for MetroAccess service; and a WMATA projected prior year audit adjustment of \$1,400,000.
- Includes an overall operating increase of 10.0 percent over the FY 2008 Revised Budget Plan offset by a decrease in payments due to WMATA associated with the current WMATA 12s and 20s Centreville/Chantilly routes. The estimated decrease results from the Board of Supervisor's approval, in February 2006, of the transfer of these non-regional routes to the County in the second half of FY 2009; at that time the service will be provided by the Fairfax CONNECTOR. The General Fund Transfer to Fund 309 incorporates a corresponding reduced requirement resulting from the shift of WMATA's 12s and 20s bus service to the County CONNECTOR for part of the FY 2009 year. The County budget for that CONNECTOR Centreville/Chantilly bus service is included in Fund 100, County Transit Systems.

#### **♦** Metro Capital Requirements

\$28,413,928

FY 2009 Capital Construction expenditures total \$28,413,928, of which \$24,828,000 is focused on the Metro Matters Program, which supports the acquisition of facilities, equipment, rail cars, and buses, as well as provides general infrastructure support to the 106-mile Metrorail system. An additional \$417,000 supports the Beyond Metro Matters Program which addresses capital construction needs beyond those included in the Metro Matters Program. Finally, an amount of \$3,168,928 funds Adopted Regional System (ARS) debt service requirements.

#### ♦ General Fund Support for Metro

\$17,509,851

The General Fund Transfer In of \$17,509,851 represents a decrease of \$2.8 million or 13.8 percent from the FY 2008 Revised Budget Plan based on savings associated with the transfer of the 12s and 20s bus service to the Fairfax CONNECTOR, and the application of a higher level of State Aid and Gas Tax revenue in support of this fund.

#### ♦ Transfer Out to Fund 100, County Transit Systems

\$1,914,505

The budgeted FY 2009 Transfer Out of \$1,914,405 to Fund 100, County Transit Systems, is an increase of 4.1 percent over the FY 2008 budgeted transfer and provides continued support for FAIRFAX CONNECTOR service enhancements. This Fund 309 support for County transit operations is consistent with a FY 2000 change in the NVTC State Aid and Gas Tax funding formula that resulted in a higher annual allocation to Fairfax County. When the formula was updated, the NVTC required that additional formula funds that resulted from the change be used only for transit service enhancements.

#### ♦ Support from Fund 301, Contributed Roadway Improvement Fund

\$110,000

A transfer of \$0.1 million from Fund 301, Contributed Roadway Improvement Fund, also contributes to the operating support of shuttle service in the Franconia/Springfield area. This level is consistent with the prior year level of support.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

◆ The Board of Supervisors made no expenditure adjustments to this fund.

#### **♦** General Fund Support for Metro

The Board of Supervisors reduced the General Fund Transfer by \$10,000,000 for a total General Fund Transfer of \$7,509,851. In order to fully support projected FY 2009 expenditure requirements, this transfer decrease is offset by additional revenue of \$8.5 million in currently available State Aid balances held by NVTC and by \$1.5 million in Fund 309 balance.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

(\$1,740,363)

As part of the FY 2007 Carryover Review, the FY 2008 County Metro subsidy decreased by \$1,740,363. This decrease reflected WMATA's FY 2008 adopted budget for transit needs, including capital costs, rail system enhancements and facility improvements.

### **Key Performance Measures**

#### **Objectives**

♦ To increase the annual number of trips taken on Metrobus routes serving Fairfax County by 1.0 percent from 9,365,000 in FY 2008 to 9,460,000 in FY 2009.

|  |                   | Prior Year Actu   | Current<br>Estimate            | Future<br>Estimate |              |

#### **Performance Measurement Results**

Metrobus trips originating in Fairfax County were reported at the same level in FY 2007 as in FY 2006, with a total of 9.27 million trips. Annual growth of 93,000 trips is anticipated in FY 2008 and an additional 95,000 trips in FY 2009, a 1 percent annual increase. It should be noted that jurisdictional data provided by WMATA has been used to populate this chart. The County operating subsidy per Metrobus trip is projected as \$4.04 for FY 2009.

### **Key Performance Measures**

#### **Objectives**

♦ To increase the number of Metrorail trips originating in Fairfax County by 1.0 percent from 29,100,000 in FY 2008 to 29,400,000 in FY 2009.

<sup>&</sup>lt;sup>1</sup> As part of its actions on the FY 2009 budget, the Board of Supervisors decreased the level of General Fund Transfer support to this fund, and partially offset that support by approving the use of an additional \$8.5 million in one-time State Aid balances held by the Northern Virginia Transportation Commission (NVTC). The State Aid increase of \$8.5 million for Metro Operations is in addition to the \$4.98 million increase already included in the FY 2009 Advertised Budget Plan.

<sup>&</sup>lt;sup>2</sup> No Virginia VTA 2000 bonds are projected to be available to apply to Capital Construction costs in FY 2008 or FY 2009, as all VTA bonds have been applied in previous years.

<sup>&</sup>lt;sup>3</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. As part of the January 2007 bond sale, an amount of \$1.84 million was sold from the November 1990 Transportation Bond, leaving no more bonds remaining from this referendum. On November 2, 2004, the voters approved a \$110 million Transportation Bond of which \$9.16 million was sold as part of the January 2007 bond sale, leaving \$100.84 million in authorized but unissued bonds assocaited with the November 2004 referendum.

<sup>&</sup>lt;sup>4</sup> The <u>FY 2009 Adopted Budget Plan</u> includes a total decrease of \$12,806,458 to the General Fund Transfer. As part of its actions on the FY 2009 budget, the Board of Supervisors approved a transfer decrease of \$8,500,000 associated with the use of one-time State Aid balances held by NVTC in place of a portion of the General Fund Transfer, a decrease of \$1,500,000 reflecting the use of Fund 309 balances to meet other County General Fund requirements, and \$2,806,458 in other adjustments. Other adjustments include a General Fund Transfer decrease of \$1,553,293 made possible by projected growth in State Aid, Gas Tax revenues and interest to support Metro expenditures, and a decrease of \$1,253,165 associated with the elimination of WMATA's provision of 12s and 20s bus service to Fairfax County, starting in February 2009. Bus services in those areas of the County will transition to County CONNECTOR bus service and the County will reflect those costs within the Fund 100, County Transit budget.

<sup>&</sup>lt;sup>5</sup> FY 2008 and FY 2009 expenditures for the Bus Operating Subsidy include \$644,000 in support of the Springfield Circulator service, the same level of support as in FY 2007. The FY 2009 bus operating subsidy increase in support of Metro's projected budget incorporates a decrease of \$1,253,165 for the partial year elimination of WMATA's provision of 12s and 20s bus service to Fairfax County, starting in February 2009, when these services transition to County CONNECTOR bus service.

<sup>&</sup>lt;sup>6</sup> FY 2008 Prior Year Audit Adjustments include an additional County subsidy payment as result of Metro's audit of its FY 2006 audit expenditures for rail, bus and ADA paratransit services. FY 2009 Prior Year Audit Adjustments reflect a WMATA estimated additional County subsidy requirement associated with anticipated FY 2007 audit adjustments.

<sup>&</sup>lt;sup>7</sup> The ending balance in Fund 309, Metro Operations and Construction, varies from year to year and is primarily related to differences between the preliminary budget presented by WMATA's General Manager and WMATA's Adopted budget. In FY 2009 an ending balance of \$2.25 million will be held toward anticipated FY 2010 requirements.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 311, County Bond Construction, supports general County construction projects associated with Human Services facilities, Adult and Juvenile Detention facilities, and transportation related facilities. The primary source of funding is voter approved General Obligation bonds. In addition, this fund receives grant funding from the Federal Transportation Administration (FTA) for Park and Ride Facilities, the Wiehle Avenue Commuter Parking Area, Herndon/Monroe Transit Center, and several Dulles Corridor Improvement projects.

No funding is included for Fund 311, County Bond Construction, in FY 2009.

### **Changes to <u>FY 2008 Adopted Budget Plan</u>**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$71,102,323 due to the carryover of unexpended project balances in the amount of \$69,497,272, and adjustments of \$1,605,051. These adjustments include: the appropriation of miscellaneous revenues received in

FY 2007 in the amount of \$5,051, an increase of \$500,000 from the General Fund and \$1,100,000 from Fund 106, Community Services Board, to support construction costs associated with the renovation and expansion of the Gregory Drive Treatment Facility. This total increase of \$1,600,000 is required to fully fund the project due to significant cost escalations in the regional construction market and delays related to the public outreach and public hearing process.

Artist rendering of the Gregory Drive Treatment Facility

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase in the amount of \$51,570,000 due to the appropriation of \$50,000,000 in bond funds associated with the approval of the fall 2007 School Bond Referendum, which supports renovation and expansion of the Newington garage, and a net adjustment of \$1,570,000. This adjustment includes the appropriation of \$50,000 in revenues received in FY 2008 associated with a Public Private Education Facilities and Infrastructure Act (PPEA) proposal. All PPEA proposals require a processing fee for developers to support County staff review of their proposals. In addition, a transfer from Fund 312, Public Safety Construction, is included in the amount of \$1,520,000 to better align resources associated with bond premium received during the January 2007 bond sale. This bond premium is required to offset higher than anticipated construction costs and utility relocation costs associated with the Less Secure Shelter II project in Fund 311, County Bond Construction.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| Ending Balance <sup>10</sup>                  | \$18,659,020      | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>1</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. As part of the January 2007 bond sale an amount of \$10.3 million was sold for human services/juvenile facilities leaving a balance of \$26.5 million. On November 6, 2007 the voters approved \$50 million as part of the School Bond Referendum to support renovations and expansion at the Newington DVS Garage which support both County and School vehicles. All bonds from the November 7, 2007 referendum remain authorized but unissued.

- <sup>3</sup> Represents anticipated Federal Transportation Administration (FTA) grant funding in the amount of \$1,176,725. FTA funding is based on reimbursements of approximately 75 percent of expenditures which may fluctuate based on actual project scopes. Total FTA reimbursements equal \$39,158,860 and include \$5,205,000 for Wiehle Avenue Commuter Parking, \$25,661,845 for the Herndon/Monroe Transit Center, \$4,225,807 for Park and Ride facilities, and \$4,066,208 for several Dulles Corridor projects.
- <sup>4</sup> Represents anticipated Washington Metro Area Transit Authority (WMATA) contribution for the construction of the West Ox Bus Operations Center.
- <sup>5</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$8,002,540 has been reflected as a decrease to FY 2007 revenues to reflect WMATA bus garage revenue to the current fiscal year. This impacts the amount carried forward resulting in a net increase of \$8,002,540 to FY 2008 revenues. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).
- <sup>6</sup> Represents developer contributions for a PPEA proposal associated with Project 90A015, EAst County Human Services.
- <sup>7</sup> Represents a General Fund transfer of \$3,400,000 associated with Project 04A004, Mount Vernon Mental Health Center Renovation and Expansion project. FY 2008 represents \$500,000 associated with construction costs for Project 04A002, Gregory Drive Treatment Facility.
- <sup>8</sup> FY 2008 reflects a Transfer In from Fund 106, Fairfax-Falls Church Community Services Board (CSB), of \$1,100,000, to support construction costs associated with Project 04A002, Gregory Drive Treatment Facility.
- <sup>9</sup> Represents a Transfer In from Fund 312, Public Safety Construction of \$1,520,000 to support construction costs and utility relocation associated with Project 04A005, Less Secure Shelter. This funding is available in Fund 312 based on bond premium received as part of the January 2007 bond sale.
- <sup>10</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>2</sup> A total of \$3,900,000 is anticipated from the Virginia Department of Transportation (VDOT) for Project 90A011, Dulles Corridor Slip Ramps. To date, \$2,449,599 has been received and \$1,450,401 is anticipated in FY 2008.

# Fund 312 Public Safety Construction

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors approved a reduction of \$2,000,000 in Project 009211, McConnell Public Safety and Transportation Operations Center (MPSTOC), based on lower than anticipated construction contingency requirements due to nearing project completion on time and within budget. This balance is transferred to the General Fund to help offset other FY 2009 requirements.

#### **Focus**

This fund supports the construction of fire and police stations, governmental centers with police substations, the Public Safety and **Transportation** Operations Center (PSTOC), the Judicial Center Expansion, and other public safety facilities. These projects are funded by several public safety bond referenda approved by the voters, and the General Fund. The latest referendum was approved by voters on November 7, 2006. This referendum included \$125 million to support expansion and renovation of fire and rescue facilities, police stations and the West Ox Animal Shelter. In addition, this fund supports and equipment support operating associated with the opening of the Judicial Center and Public Safety and Transportation Operations Center.

Construction is well underway on the Public Safety and Transportation Operations Center (PSTOC) facility.

In FY 2009 funding in the amount of \$800,000 is included in Fund 312, Public Safety Construction.

### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$120,175,980 due to the carryover of unexpended project balances in the amount of \$118,652,236 and an adjustment of \$1,523,744 to appropriate revenues received in FY 2007. Revenues received include an amount of \$1,520,000 associated with bond premium applied to this fund associated with the January 2007 bond sale and \$3,744 associated with miscellaneous revenues received in FY 2007 for the sale of plans.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$4,980,000 primarily due to a transfer in of \$6,500,000 from Fund 303, Project 009510, Construction Inflation Reserve, to Project 009209, Courthouse Expansion and Renovation. This increase was required due to a negotiated settlement associated with construction contractor claims and higher than anticipated costs associated with additional easement requirements, increase in material costs, higher than anticipated contract change order costs, additional part time, on-site resident architectural support required to proactively address design issues, additional legal counsel support, higher than anticipated critical structures and quality control inspection costs, and added inspection of security elements. This increase was partially offset by a decrease of \$1,520,000 necessary to transfer bond premium out to Fund 311, County Bond Construction to help offset a project shortfall identified in Project 04A005, Less Secure Shelter II. The Less Secure Shelter II project requires additional funding to offset significant cost escalation in the regional construction market, as well as unanticipated utility relocations. Bond premium is available within Fund 312 associated with the January 2007 bond sale and can be transferred to better align resources and fully fund the Less Secure project.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Table includes project location, description, source of funding and completion schedules.

| <b>Ending Balance</b> <sup>6</sup>  | \$115,011,435     | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>1</sup> The FY 2009 Adopted Budget Plan assumes a beginning balance of \$2,000,000 based on lower than anticipated construction contingency requirements for Project 009211, McConnell Public Safety and Transportation Operations Center.

<sup>&</sup>lt;sup>2</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. On November 5, 2002, the voters approved a \$60 million Public Safety Bond Referendum to support the construction of a new Public Safety and Transportation Operations Center (PSTOC) and a new fire station including space for the Hazardous Materials Response Unit, as well as the renovation of the Jennings Judicial Center and renovations to prioritized fire stations. As part of the January 2007 bond sale, an amount of \$48.23 million was sold from the November 2002 referendum. Including prior sales, an amount of \$1.52 million remains in authorized but unissued bonds from the November 5, 2002 Public Safety Referendum. In addition, on November 7, 2006, the voters approved a \$125 million Public Safety Bond Referendum to support renovations and priority expansions at public safety facilities. Including prior sales, an amount of \$111 million remains from the November 2006 bond referendum. In addition, an amount of \$1.52 million has been applied to this fund in bond premium associated with the January 2007 bond sale. An amount of \$112.52 million remains in authorized but unissued bonds for this fund.

<sup>&</sup>lt;sup>3</sup> Miscellaneous receipts include the sale of plans for multiple projects.

<sup>&</sup>lt;sup>4</sup> FY 2007 funding represents costs associated with Project 009218, Courthouse IT Equipment and Support (\$5,505,150), Project 009223, Jennings Courtroom Renovations (\$1,100,000), and Project 009209, Judicial Center Expansion and Renovation (\$1,000,000). FY 2008 funding is associated with Project 009218, Courthouse IT Equipment and Support (\$1,800,000), Project 009223, Jennings Courtroom Renovations (\$1,200,000), and Project 009231, PSTOC Operating and Equipment Support (\$1,820,972). FY 2009 funding is associated with Project 009218, Courthouse IT Equipment and Support (\$800,000).

<sup>&</sup>lt;sup>5</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$705,411 has been reflected as an increase to FY 2007 expenditures to reflect expenditure accrual. This impacts the amount carried forward resulting in a net decrease of \$705,411 to the FY 2008 Revised Budget Plan. The project effected by this adjustment is Project 009218, Courthouse IT Equipment and Support. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>6</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund provides for improvements to public facilities including curbs and gutters, sidewalks, street widening and storm drainage improvements to enhance the condition and appearance of participating neighborhoods. Neighborhoods were selected for participation in the program on the basis of their need for general community improvements due to problems of road and yard flooding and/or traffic problems, as well as their willingness to share in the implementation of a Community Plan. The program focuses on the preservation and improvement of the County's older, yet stable, neighborhoods of predominantly single-family homes which are currently vulnerable to deterioration.

Homeowners receiving improvements from the program reimburse the County for their share of actual construction costs. The County pays all engineering, administrative and overhead costs. Each homeowner's share is based on the length of street footage of their lot, the type of improvements installed and the average assessed value of housing in the neighborhood. Homeowners' payments, made once construction is completed, can be paid in one lump sum amount, or in semi-annual installments with interest over a ten-year period. For elderly or disabled homeowners, payment may be extended beyond the ten-year payback period. These homeowner payments are used to offset debt service costs associated with the issuance of General Obligation Bonds for the Neighborhood Improvement Program. Payments are transferred to the County's debt service fund periodically once contributions have accrued to a significant amount. The Neighborhood Improvement Program is also financed with General Obligation Bonds approved by the voters in November 1989 in the amount of \$24.0 million.

It should be noted that as part of the adoption of the FY 2007 – FY 2011 Capital Improvement Program, the Board directed staff to review the County's commercial and neighborhood revitalization programs and to provide recommendations on strategies to enhance the effectiveness of the programs, to identify and make available appropriate financing mechanisms and to put in place the organizational supports necessary to sustain the programs. Subsequently, the Office of Community Revitalization and Reinvestment (OCRR) was created to better coordinate commercial and residential revitalization efforts in the County. This office is responsible for coordinating efforts of County staff and community organizations related to the renovation and restoration of not only large commercial development, but also neighborhood commercial development, older residential areas and neighborhood capital improvements.

No funding is included in Fund 314, Neighborhood Improvement Program for FY 2009. Work will continue on existing and previously funded projects.

### **Changes to <u>FY 2008 Adopted Budget Plan</u>**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$360,919 due to the carryover of unexpended project balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| <b>Total Disbursements</b>             | (\$117)           | \$0                               | \$360,919                         | \$0                                  | \$0                               |
|  |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>4</sup>            | \$441,300         | \$111,508                         | \$100,381                         | \$115,381                            | \$115,381                         |

<sup>&</sup>lt;sup>1</sup> Represents payments from homeowners for their contribution toward construction costs associated with improvements in their neighborhoods. Bond funds are used to finance these projects, and upon completion of construction, the improvements are assessed and the homeowners make their payments with interest. Funds received (i.e., both principal and interest) are periodically transferred to Fund 200, County Debt Service, to partially assist in paying the debt service costs associated with Neighborhood Improvement projects.

<sup>&</sup>lt;sup>2</sup> The negative FY 2007 expenditure reflects a credit for land acquisition associated with Project C00072, Brookland Bush Hill II.

<sup>&</sup>lt;sup>3</sup> The Transfer Out to Fund 200, County Debt Service, offsets debt service costs associated with the issuance of General Obligation Bonds.

<sup>&</sup>lt;sup>4</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

The Commercial Revitalization Program funds the development and promotion of competitive, attractive and stable commercial centers leading to improved facilities for communities. Improvements include underground utilities, sidewalk construction, street lighting, tree planting and other pedestrian amenities. In the November 1988 bond referendum, Fairfax County voters approved \$22.3 million for public improvements in commercial and redevelopment areas of the County. Of this amount, \$17.1 million was dedicated to fund utility and street landscaping projects in three designated revitalization districts: Central Annandale, Central Springfield and Bailey's Crossroads. The remaining amount of \$5.2 million was divided among the revitalization projects in the Town of Vienna, the McLean Central Business District and along a portion of the Route 1 corridor. In addition to bond proceeds, revenue from the Virginia Department of Transportation (VDOT) and developer contributions support improvement efforts within this fund.

Revitalization is one part of an overall County strategy to accomplish the economic rejuvenation of older retail and business centers. Through targeted efforts of the Revitalization Program it is anticipated that these areas will become more competitive commercially, offer better services and improved shopping opportunities and will become viable candidates for private reinvestment.

It should be noted that as part of the adoption of the FY 2007 – FY 2011 Capital Improvement Program, the Board directed staff to review the County's commercial and neighborhood revitalization programs and to provide recommendations on strategies to enhance the effectiveness of the programs, to identify and make available appropriate financing mechanisms and to put in place the organizational supports necessary to sustain the programs. Subsequently, the Office of Community Revitalization and Reinvestment (OCRR) was created to better coordinate commercial and residential revitalization efforts in the County. This office is responsible for coordinating efforts of County staff and community organizations related to the renovation and restoration of not only large commercial development, but also neighborhood commercial development, older residential areas and neighborhood capital improvements.

No funding is included in Fund 315, Commercial Revitalization Program, in FY 2009. Work will continue on existing and previously funded projects.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$4,560,560 due to the carryover of unexpended project balances of \$4,273,560 and an adjustment of \$287,000. This adjustment is due to the appropriation of anticipated VDOT enhancement grant funds for Project 008911, McLean Streetscape as approved by the Board of Supervisors on May 21, 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| <b>Total Disbursements</b>           | \$210,451         | \$0                               | \$4,560,560                       | \$0                                  | \$0                               |
| <b>Ending Balance</b> <sup>4</sup>   | \$583,543         | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> The sale of bonds is presented here for planning purposes. Actual bond sales are based on cash needs in accordance with Board policy. In the fall of 1988, the voters approved a \$22.3 million Commercial Revitalization bond referendum. Including prior sales, a balance of \$2.26 million remains in authorized but unissued bonds associated with the fall 1988 referendum.

<sup>&</sup>lt;sup>2</sup> Represents funds anticipated in FY 2008 from Transportation Enhancement grants for Project 008912, McLean Streetscape.

<sup>&</sup>lt;sup>3</sup> Developer contributions anticipated in FY 2008 include \$250,000 for undergrounding utilities along Chain Bridge Road within Project 008914, Route 1 Streetscape and \$214,221 for Project 008911, Baileys Crossroads Streetscape.

<sup>&</sup>lt;sup>4</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### FY 2009 Summary of Capital Projects

## Fund: 315 Commercial Revitalization Program

| Project # | Description                     | Total<br>Project<br>Estimate | FY 2007<br>Actual<br>Expenditures | FY 2008<br>Revised<br>Budget | FY 2009<br>Advertised<br>Budget Plan | FY 2009<br>Adopted<br>Budget Plan |

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund supports storm drainage capital projects through contributions in accordance with the Pro Rata Share Program approved by the Board of Supervisors on December 16, 1991. The Pro Rata Share Program provides a funding source to correct drainage deficiencies by collecting a proportionate share of the total estimated cost of drainage improvements from the developers of the land. Pro Rata funds are used to finance projects within specific watershed areas. As projects are identified and prioritized during scheduled budgetary reviews, Pro Rata funds on deposit are appropriated to this fund.

Fund 316, Pro Rata Share Drainage Construction, is complemented by Fund 318, Stormwater Management Program, in order to address the County's stormwater control needs. Fund 318 was created in FY 2006 by the dedication of one penny of the Real Estate tax to address prioritized capital improvements in the County's stormwater system. Development of watershed management plans for the County is currently underway to restore the County's streams and to position the County to comply with various stormwater commitments and regulatory requirements. The physical stream assessment, which provides the fieldwork for the watershed management plans, was completed for the entire County in 2003. As Watershed Management Plans are completed throughout the County, the list of stormwater improvement projects will be updated, and revised funding requirements and strategies will be developed for the entire program.

No funding is included for Fund 316, Pro Rata Share Drainage Construction, in FY 2009. All funding for this program is from private sources. Existing projects will utilize pro rata funds received to support watershed planning, regional pond development and other drainage improvement projects.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$20,488,383 due to the carryover of unexpended project balances of \$20,317,516 and an adjustment of \$170,867. This adjustment included the appropriation of \$170,000 in pro rata share funds to support various on-going projects and \$867 in miscellaneous revenues received in FY 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

<sup>&</sup>lt;sup>1</sup> Miscellaneous receipts include the sale of plans for Project DF0361, Clarks Landing.

<sup>&</sup>lt;sup>2</sup> Represents anticipated developer contributions associated with Project DF1046, Regional Pond D-46.

<sup>&</sup>lt;sup>3</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

## **FY 2009 Summary of Capital Projects**

Fund: 316 Pro Rata Share Drainage Construction

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund supports the long-term needs of the County's capital assets to maximize the life of County facilities, avoid their obsolescence, and provide for planned repairs, improvements and restorations to make them suitable for organizational needs. Capital renewal is the planned replacement of building subsystems such as roofs, electrical systems, HVAC, plumbing systems, carpet replacement, parking lot resurfacing, fire alarm replacement and emergency generator replacement that have reached the end of their useful life. Without significant reinvestment in building subsystems, older facilities can fall into a state of ever decreasing condition and functionality, and the maintenance and repair costs necessary to operate the facilities increase.

Fairfax County will have a projected facility inventory of approximately 180 buildings in FY 2009 (excluding schools, parks, housing and human services residential facilities), with a projected FY 2009 total of over 8.0 million square feet of space throughout the County. This inventory is expanding both with the addition of newly constructed facilities and by the acquisition of additional property. With such a large inventory, and the acquisition of additional facilities, it is critical that a planned program of repairs and restorations be maintained. In addition, the age of a major portion of this inventory of facilities is reaching a point where major reinvestments are required in the building subsystems.

Many County facilities have outdated HVAC and electrical systems that are susceptible to failure or are highly inefficient energy users. Sites are identified and each individual project involves a two-step process to complete both design and construction. Roof repairs and waterproofing are conducted in priority order after a detailed evaluation of all roofs at County facilities. Based upon the results of that evaluation, critical requirements are prioritized and a five-year plan is established. Repairs and replacement of facility roofs are considered critical to avoid the serious structural deterioration that occurs from roof leaks. By addressing this problem in a comprehensive manner, a major backlog of roof problems can be avoided. Carpet replacement and parking lot resurfacing are evaluated annually and prioritized based on the most critical requirements for high traffic areas. In addition, emergency generators and fire alarm systems are replaced based on equipment age, coupled with maintenance and performance history. Emergency minor repairs and renovations, usually generated by customer requests, are accomplished under the category of emergency building and repair. These small projects abate building obsolescence and improve the efficiency and effectiveness of facilities and facility systems. The following table outlines the expected service life of building subsystems used to project capital renewal requirements, coupled with actual condition of the subsystem component:

### General Guidelines for Expected Service Life Of Building Subsystems

| <u>Electrical</u>        |                | <u>Plumbing</u>    |                |
|--------------------------|----------------|--------------------|----------------|
| Lighting                 | 20 years       | Pumps              | 15 years       |
| Generators               | 25 years       | Pipes and fittings | 30 years       |
| Service/Power            | 25 years       | Fixtures           | 30 years       |
| Fire Alarms              | 15 years       |                    |                |
|                          |                |                    |                |
| <u>HVAC</u>              |                | <u>Finishes</u>    |                |
| Equipment                | 20 years       | Broadloom Carpet   | 7 years        |
| Boilers                  | 15 to 30 years | Carpet Tiles       | 15 years       |
| Building Control Systems | 10 years       | Systems Furniture  | 20 to 25 years |
|                          |                |                    |                |
| Conveying Systems        |                | <u>Site</u>        |                |
| Elevator                 | 25 years       | Paving             | 15 years       |
| Escalator                | 25 years       |                    |                |
|                          |                | Roofs              |                |
|                          |                | Replacement        | 20 years       |

In order to better define the County's capital renewal needs, a comprehensive facilities condition assessment was conducted on 92 selected Fairfax County facilities (approximately 4.2 million square feet of space), representative of older facilities anticipated to have the most capital renewal requirements in the near future. The assessment included a complete visual inspection of roofs and all mechanical and electrical components for each facility. Maintenance and repair deficiencies were identified and funding requirements estimated. The results indicate a multi-million investment is needed over time. Specifically, the facility condition assessment indicated an estimated total of \$80 million needed through 2010 to repair facilities and meet expected repair and equipment replacement needs. The Facilities Management Department (FMD) prioritized the comprehensive facility assessment lists and classified projects into five categories. Projects were classified as Category F: urgent/safety related, or endangering life and/or property; Category D: critical systems beyond their useful life or in danger of possible failure; Category C: life-cycle repairs/replacements where repairs are no longer cost effective; Category B: repairs needed for improvements if funding is available, and Category A: good condition.

Funding in the amount of \$6,924,321 is included in Fund 317, Capital Renewal Construction, in FY 2009. Funding is supported by the allocation of HB 599 state revenues. Funding provides for the most critical prioritized renewal projects, which are categorized as category F. Some Category F projects funded in FY 2009 support public safety facilities. As part of the fall 2006 public safety bond referendum, the voters approved \$5 million in capital renewal projects at public safety facilities. The entire \$5 million has been committed to prioritized projects; requiring additional funding in FY 2009 for public safety capital renewal.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$11,926,733 due to the carryover of unexpended project balances in the amount of \$10,851,733 and an adjustment of \$1,075,000. This adjustment includes an increase to the General Fund transfer of \$1,075,000 for various projects including: \$775,000 to support critical roof repairs at the Government Center due to significant deterioration and multiple roof leaks; and \$300,000 to support garage repairs and remedial work to repair structural beams and concrete damage at the Herndon Monroe Parking Garage.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$374,000 associated with a transfer out to Fund 303, County Construction to fund higher than anticipated costs associated with HVAC replacement and electrical support systems for a portion of the Government Center which includes the Enterprise and Technology Operation Center (data center). The Enterprise Technology and Operations Center (ETOC) houses all County mainframe computers and corporate servers and is essential to on-going County business and service to citizens. The current HVAC and electrical systems date back to 1992. There have been tremendous changes in the hardware, software, and communications infrastructure supporting County business, resulting in significant additions to the ETOC. This equipment has put a strain on the supporting facility infrastructure which is at, or over capacity. Funding is available in Fund 317 based on the completion of several projects to help offset expenditures associated with this critically required system upgrade.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., contingency or planning project). The Project Detail Tables include project location, description, source of funding and completion schedule.

| <b>Total Disbursements</b>             | \$8,188,512       | \$21,924,321                      | \$33,851,054                      | \$6,924,321                          | \$6,924,321                       |
| Ending Balance <sup>5</sup>            | \$12,851,733      | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. On November 7, 2006, the voters approved a \$125 million Public Safety Bond Referendum, of which \$14 million was designated for capital renewal purposes. Due to extremely favorable interest rates, an amount of \$2.0 million was sold as part of the January 2007 Bond Sale in advance of FY 2008 for capital renewal purposes. An amount of \$12.0 million remains in authorized but unissued bonds from the November 7, 2006 bond referendum.

<sup>&</sup>lt;sup>2</sup> Represents House Bill 599 state revenues.

<sup>&</sup>lt;sup>3</sup> The General Fund transfers support annual capital renewal projects.

<sup>&</sup>lt;sup>4</sup> Represents a Transfers Out to Project 009504, Enterprise and Technology Operation Center (ETOC) Renovation, in Fund 303, County Construction to fund higher than anticipated costs associated with HVAC replacement and electrical support systems.

<sup>&</sup>lt;sup>5</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

## **FY 2009 Summary of Capital Projects**

| Countywide |                    | Countywide |

**Description and Justification:** This project provides for the replacement of fire alarm systems throughout the County. Fire alarm systems are replaced based on age and difficulty in obtaining replacement parts and service. FY 2009 funding in the amount of \$1,020,000 is included for the replacement of fire alarm systems installed in the original Adult Detention Center building in 1975 (\$720,000), and the 10 year old system at the Criminal Justice Academy (\$300,000), both of which are experiencing failure due to age and obsolete system parts. In general, the useful life of fire alarm systems is 15 years.

|            |                         |            |
| Countywide |                         | Countywide |

**Description and Justification:** This project provides for HVAC replacement at prioritized County facilities, based on the severity of problems including overloaded systems, fire hazards, costly repairs, and lack of alternative funding sources. This funding level of \$3,875,000 will provide for HVAC replacement and electrical repairs for the 18 year old system at the Government Center (\$2,200,000), the 36 year old system at the Police Annex (\$850,000), the three year old system at the James Lee Community Center which is experiencing inefficient system operations (\$575,000), and the 50 year old system at the Patrick Henry Shelter (\$250,000). All of these repairs have been classified as safety-imminent repairs, or critical systems beyond their useful life in risk of failure, or life-cycle repairs/replacements where repairs are no longer cost effective. In general, the useful life of HVAC/Electrical systems is 20 years.

| 009431     | Emergency Generator Replacement |            |
|------------|---------------------------------|------------|
| Countywide |                                 | Countywide |

**Description and Justification:** This project provides for the replacement of emergency generators at County facilities. This program was established to address the replacement of generators that have outlived their useful life of 25 years. FY 2009 funding is included to replace the generators and obsolete parts for the 17 year old system at Bailey's Fire Station (\$80,000), the 24 year old system at the Criminal Justice Academy (\$80,000), the 11 year old system at the Gum Springs Community Center (\$80,000), and the 18 year old system at the Mt. Vernon Fire Station (\$80,000). In general, the useful life of generators is 25 years.

| 009600     | Elevator Replacement |            |
|------------|----------------------|------------|
| Countywide |                      | Countywide |

**Description and Justification:** This project provides for the emergency elevator replacement program. This program was established to address the replacement of elevators that have outlived their useful life and are experiencing frequent breakdowns. FY 2009 funding is included to begin to replace obsolete elevator components installed in the 18 year old system at the Government Center (\$1,339,321), and replace the 36 year old system for one elevator at the Historic Courthouse which is used by the public (\$370,000). Funding supports replacement of the elevator equipment, architectural and engineering costs, and installation and modification of related systems. This new elevator equipment will satisfy all current code requirements for elevator safety devices. In general, the useful life of elevators is 25 years.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

◆ During their deliberations on the <u>FY 2009 Advertised Budget Plan</u>, the Board of Supervisors increased the amount of funding charged to Fund 318, Stormwater Management Program. This adjustment reflects an increase of \$3,218,626 in Project FX0005, Operations Support. The Stormwater Planning Division and a portion of the Maintenance and Stormwater Management Division within the Department of Public Works and Environmental Services (DPWES) will charge positions and associated costs totaling \$7,583,839 to the Penny for Stormwater Management fund. These expenses have been historically supported by the General Fund but will be charged to Fund 318 in FY 2009 based on budget constraints. The additional \$3.2 million will move the entire Stormwater Line of Business to the Penny fund, including an additional 75 positions. This adjustment will significantly impact future stormwater project implementation schedules. As a result of this action, a balance of \$15.2 million in new funding remains available for stormwater project improvements in FY 2009.

#### **Focus**

This fund was established to support the long-term needs of the County's Stormwater capital program. Beginning in FY 2006, the Board of Supervisors designated the approximate value of one penny from the County's Real Estate Tax to Fund 318, Stormwater Management Program. In FY 2009, the estimated value of one penny from the County's Real Estate Tax, \$22.8 million, will again be dedicated to the Stormwater Management Program and funding will be posted as revenue from the Real Estate Tax. Beginning in FY 2007 all stormwater projects were consolidated into two funds, Fund 318 and Fund 316, Pro Rata Share Drainage Construction. Fund 316 is supported by the Pro Rata Share Program, adopted in 1991, requiring one-time payments from developers of new developments to pay for a portion of the cost of off-site stormwater improvements. The Capital Fund consolidation has allowed Stormwater Management to better allocate resources and track funding.

This funding is designated for prioritized stormwater projects and is essential to protect public safety, preserve property values and support environmental mandates, such as those aimed at protecting the Chesapeake Bay and the water quality of other local waterways. Projects include: repairs to stormwater infrastructure, measures to improve water quality, such as stream stabilization, rehabilitation and safety upgrades of dams, repair and replacement of underground pipe systems and surface channels, structural flood proofing and Best Management Practices (BMP) site retrofits. This funding also supports development of watershed master plans, increased public outreach efforts and stormwater monitoring activities.

Fund 318, Stormwater Management Program, is defined by five major program categories as follows:

#### Regulatory Compliance

The County is operating under extension of the existing Municipal Separate Storm Sewer System (MS4) discharge permit that expired in FY 2007. Negotiations between the State of Virginia and Fairfax County, as well as negotiations between the state and many surrounding local communities, are continuing into FY 2008 as several issues related to permit compliance are defined and established. It is anticipated that Fairfax County will be under new and increased MS4 regulatory requirements in FY 2009. The increased requirements are anticipated to impact inspection cycles, monitoring efforts and enhanced restrictions for total maximum daily loads (TMDL) of harmful nutrients entering the streams and rivers within the County jurisdiction, as well as impacts to stormwater maintenance programs and reporting requirements.

#### Dam Safety

The program objectives under Dam Safety focus on the annual inspection and assessment of approximately 1,200 publicly maintained stormwater management ponds and approximately 2,400 privately maintained stormwater management ponds, in compliance with state dam safety regulations and the overlapping MS4 regulatory requirements associated with required stormwater management facility inspection cycles. In FY 2009, the Dam Safety program will continue to focus on obtaining the six-year maintenance and operating certificates on all state regulated dams in the County and to provide enhanced outreach efforts for owners of privately maintained facilities. In FY 2008 and continuing into FY 2009, the effort to install electronic flood control signalization to the County's largest hazard dam facilities will continue. The signalization process will provide greater flood monitoring capabilities through instantaneous water level condition assessment. This public safety improvement is intended to eventually provide an enhanced warning system that will link to an early notification system for down stream property owners during flood response events.

#### Infrastructure Reinvestment

The infrastructure reinvestment program provides inspection, assessment and repair of the 1,800 miles of storm drainage conveyance systems and 45,000 stormwater drainage structures in Fairfax County. At the end of FY 2007, the digitizing of 80 percent of the storm drainage network was completed, providing a continuous network of pipes and streams for use in analysis related to the MS4 permit and watershed modeling efforts. This storm drainage layer also provides emergency response support via instantaneous electronic imaging of storm drainage system connectivity for response issues such as hazardous material spills. In addition, 50 percent of the easement layer in the County's Geographic Information System (GIS) network has been completed. Completion of the initial digitizing will continue into FY 2008 and is anticipated to be completed in FY 2009. The storm drainage program is on a five year physical walk surface inspection cycle. The assessment program inspected 75 miles of drainage systems in FY 2007, which has resulted in over 150 opportunities for infrastructure rehabilitation projects. These projects have a wide range in scope that varies from repair to individual structures and single line segments to rehabilitation of entire drainage systems. Correction of these identified repairs will begin in FY 2008 and continue into FY 2009. The number of rehabilitation projects is expected to increase in FY 2009 as the inspection and assessment program continues.

#### **Project Implementation**

While the primary driver of projects in this program is the implementation of the 30 watershed master plans in Fairfax County, the list of projects also includes flood control projects related to the June 2006 flooding, citizen response projects and other special project needs meeting the project implementation criteria that has been established. Project implementation production is anticipated to increase in FY 2008 and FY 2009 as new in-house and outsourced project design and construction processes are better defined and implemented.

#### Watershed Planning

The goal of the watershed planning program is to complete a comprehensive master watershed plan for each of the 30 watersheds in Fairfax County by the Year 2010, in an effort to meet the County's commitment to the 2000 Chesapeake Bay agreement. In addition, the watershed master plans provide a strong basis for management and control of stormwater runoff related to the overall water quality and conveyance in Fairfax County. By late FY 2007 and into early FY 2008, watershed planning will be completed in approximately 55 percent of the land area, while 45 percent of the remaining land area has been initiated for characterization and modeling. Several program modifications have been made to the process to help improve the quality and timeliness of the planning process by providing more focused community involvement processes and bringing consistency to reporting processes. It is anticipated that Fairfax County will meet the commitment to the Chesapeake Bay 2000 agreement by completing the planning of all 30 watersheds by the year 2010.

An amount of \$22,800,000 is included in Fund 318 in FY 2009 to continue the implementation of the County's Stormwater Management Program. In FY 2009, the Stormwater Planning Division (SPD) and a portion of the Maintenance and Stormwater Management Division (MSMD) within the Department of Public Works and Environmental Services (DPWES) will charge positions and associated costs in the amount of \$4,365,213 to Fund 318, including \$234,048 in Agency 89, Fringe Benefits. Administrative expenses will be charged directly to Project FX0005, Operations Support, and will not be charged to individual projects throughout the fund. Historically, these expenses have been supported by the General Fund; however, based on budget constraints in FY 2009, the General Fund cannot fully support the Stormwater program. Other General Fund reductions would have been required had Fund 318 funding not been available to provide this support for the Stormwater program. This adjustment to Fund 318 will impact future stormwater project implementation schedules.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$20,678,769 due to the carryover of unexpended project balances in the amount of \$20,677,273, and an adjustment to appropriate \$1,496 in miscellaneous revenue associated with the sale of plans received in FY 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$2,032,497

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$2,032,497 due to the appropriation of federal grant revenue from the Natural Resources Conservation Service (NRCS). The NRCS grant is for the rehabilitation of Pohick Creek Dam Site Number 4, known locally as Royal Lake, and was approved by the Board of Supervisors on September 10, 2007.

A Fund Statement, a Summary of Capital Projects and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., contingency or planning project). The Project Detail Tables include project location, description, source of funding and completion schedules.

<sup>&</sup>lt;sup>1</sup> FY 2008 Natural Resources Conservation Funds represents federal grant revenue associated with Project FX4000, Dam Safety Projects, Royal Lake (Dam Site 4), as approved by the Board of Supervisors on September 10, 2007.

<sup>&</sup>lt;sup>2</sup> FY 2007 Miscellaneous Revenue represents revenue received for the sale of plans associated with Project FX5000, Stormwater Management Facilities.

<sup>&</sup>lt;sup>3</sup> Due to the small number of active projects in Fund 308, Public Works Construction, all stormwater related project revenues and expenditure balances are reflected in Fund 318, Stormwater Management Program beginning in FY 2007. As a result a transfer of \$3,675,282 from Fund 308 was included as part of the *FY 2006 Carryover Review*. This consolidation allows stormwater related projects, with the exception of bond and prorated funded projects, to be accounted for in one fund.

<sup>&</sup>lt;sup>4</sup> Capital projects are budgeted based on the total project costs. Most projects span mulitple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

## **FY 2009 Summary of Capital Projects**

Fund: 318 Stormwater Management Program

**Description and Justification:** As management plans are developed for each of the 30 watersheds within the County, projects are identified that will restore and protect the County's streams. These projects improve water quality, wildlife habitat and provide increased community stewardship opportunities in support of state/federal requirements and the County's commitment to the Chesapeake Bay 2000 agreement. Implementation includes such practices as public education campaigns, street/parking lot sweeping, acquisition of conservation easements, buffer restoration, wetlands restoration, conversion of stormwater management ponds to Best Management Practice (BMP) facilities, stream restoration and installation of Low Impact Development (LID) features. Implementation strategies and goals are developed on a watershed basis. An amount of \$300,000 is included in FY 2009 for improvements identified in the Cameron Run watershed management plan.

| CU8000  | Cub Run Watershed Projects |                    |
|---------|----------------------------|--------------------|
| Various |                            | Springfield, Sully |

**Description and Justification:** As management plans are developed for each of the 30 watersheds within the County, projects are identified that will restore and protect the County's streams. These projects improve water quality, wildlife habitat and provide increased community stewardship opportunities in support of state/federal requirements and the County's commitment to the Chesapeake Bay 2000 agreement. Implementation includes such practices as public education campaigns, street/parking lot sweeping, acquisition of conservation easements, buffer restoraton, wetlands restoration, conversion of stormwater management ponds to Best Management Practice (BMP) facilities, stream restoration and installation of Low Impact Development (LID) features. Implementation strategies and goals are developed on a watershed basis. An amount of \$300,000 is included in FY 2009 for improvements identified in the Cub Run watershed management plan.

|---|-----------------------|--|--|--|
| Kingstowne Development/Huntley Meadows Park Lee |                       |  |  |  |

**Description and Justification:** This project supports the Kingstowne environmental program, established by the Board of Supervisors in June 1985 and intended to continue until completion of the Kingstowne Development. In FY 2002, the program was expanded to include the water quality monitoring requirements of the U.S. Army Corps of Engineers for the development of the South Van Dorn Street extension. An amount of \$300,000 is included in FY 2009 to support ongoing monitoring and maintenance requirements.

| FX0001     | Interim Watershed Projects |            |
|------------|----------------------------|------------|
| Countywide |                            | Countywide |

**Description and Justification:** Watershed plans for approximately 55 percent of the County are already complete. Implementation of these plans is funded through individual projects. Funding to complete the watershed planning effort for the remaining 45 percent of the County was allocated in FY 2007. Consultants have been selected and contract processes are ongoing. Completion of all remaining watershed plans will be staggered in the next 2-3 years, with several nearing completion during FY 2009. This project provides funding to allow for some project implementation prior to completion of the plans, as well as for projects to begin immediately for each new watershed plan as they are finalized. An amount of \$2,500,000 is included for this project in FY 2009.

| FX0002     | Contributions for Planting Thru Earth Sangha | ı Inc.     |
|------------|--|------------|
| Countywide |  | Countywide |

**Description and Justification:** This project provides a source for funding contributions to Earth Sangha Inc. for joint participation projects related to tree buffer restoration projects throughout Fairfax County. The buffer restoration projects are in support of the overall stormwater program to re-establish native plant buffers adjacent to streams and natural waterways. Earth Sangha is a non-profit organization that will achieve project goals by leveraging the use of volunteers, and provide significant opportunities for community involvement and environmental awareness. The tree buffer restoration initiative through the use of non-profit organizations and volunteer efforts is consistent with the Board of Supervisors' Environmental Agenda, and the County's requirements for public outreach efforts associated with the municipal separate storm system (MS4) permit. An amount of \$60,000 is included for this project in FY 2009.

|------------|--------------------|------------|
| Countywide |                    | Countywide |

**Description and Justification:** This project provides the staff and operational support costs for implementation of the Stormwater program. In FY 2009, the Stormwater Planning Division (SPD) and a portion of the Maintenance and Stormwater Management Division (MSMD) within the Department of Public Works and Environmental Services (DPWES) will charge positions and associated costs to Fund 318 in the amount of \$7,583,839. FY 2009 total funding of \$8,430,000 includes the above adjustment and recovered costs that were previously billed to various projects within this fund. Administrative expenses will be charged directly to Project FX0005, Operations Support, and will not be charged to individual projects throughout the fund. The staff costs represent the internal staff time for positions while working on stormwater projects in Fund 318. Additionally, the project will provide the operational support for the Stormwater program related to Information Technology requirements and computer software support. Other operational support funded under this project will include, but is not limited to, goods and services all required in support of the Stormwater program.

| FX3000     | Stormwater Program Support |            |
|------------|----------------------------|------------|
| Countywide |                            | Countywide |

**Description and Justification:** The County's aggressive stormwater implementation program, and resulting increase in projects, requires additional field inspection, stormwater analysis and construction quality control. Contract employees will be assigned to work under the direction of County staff, and will perform inspection, testing, research and analysis, utility coordination and project close-out. An amount of \$250,000 is included in FY 2009 to support these outsourced services.

| FX4000     | Dam Safety Projects |            |
|------------|---------------------|------------|
| Countywide |                     | Countywide |

**Description and Justification:** This project funds improvements necessary to meet State permit requirements, assessment and monitoring of dams and associated dam repair activities. The Virginia Department of Conservation and Recreation (DCR) regulate some of the dams that are maintained by the Department of Public Works and Environmental Services (DPWES). In order to obtain the required permits, the County must perform enhanced inspections of all dams and address safety requirements. In addition to the dam safety program, the County also maintains in excess of 1,000 non-regulated dams that also require assessment and associated repair activities that are funded under this project. It is anticipated that as the level and frequency of inspections on these smaller facilities increase, additional maintenance requirements will be identified. An amount of \$2,720,000 is included in FY 2009 for this project.

|------------|----------------------------------|------------|
| Countywide |                                  | Countywide |

**Description and Justification:** This project funds a comprehensive engineering and inspection assessment of the public and private stormwater management infrastructure as required under the County's MS4 permit. This work includes field inspection activities, punch list development, private owner training, coordination and outreach, enforcement and construction quality control of rehabilitation activities. An amount of \$1,000,000 is included in FY 2009 to support this project.

| FX6000     | Infrastructure Reinvestment Program |            |
|------------|-------------------------------------|------------|
| Countywide |                                     | Countywide |

**Description and Justification:** This project funds a comprehensive inspection, design and contract administration program to rehabilitate, upgrade and replace dilapidated County storm drainage infrastructure. The County storm drainage network consists of over 1,800 miles of pipe and in excess of 45,000 drainage structures. Much of this drainage system is nearing the end of its useful life. Funds from this project are also being used to build the Geographic Information System (GIS) and computerized project management systems that are used to manage and operate the storm drainage projects. An amount of \$3,700,000 is included in FY 2009 to support the Infrastructure Reinvestment Program.

| FX7000     | Municipal Separate Storm Sewer System Pe | rmit       |
|------------|--|------------|
| Countywide |  | Countywide |

**Description and Justification:** This project supports activities associated with the Virginia Pollutant Discharge Elimination System Municipal Separate Storm Sewer System (MS4) permit, which is required as part of the Clean Water Act amendments of 1987. The permit mandates implementation of a stormwater quality management program. The MS4 discharge permit is considered a 5-year renewal cycle as part of the National Pollutant Discharge Elimination System permits, which were last approved for the County in January 2002. Activities include water quality testing, watershed master planning, capital improvement programs, outreach and education and development of the GIS-based storm sewer system inventory. Permit activities are also affected by other state and federal mandates, including Total Maximum Daily Loads, the Chesapeake 2000 Agreement, and the Virginia Tributary Strategies. The County's MS4 permit expired in January 2007. Currently, the County is operating under extension of the expired permit while negotiations on permit renewal are continuing. The potential for program additions is likely with issuance of the new permit. An amount of \$1,740,000 is included in FY 2009 to support the MS4 permit requirements.

|------------|------------------------------|------------|
| Countywide |                              | Countywide |

**Description and Justification:** This project supports the correction of emergency drainage problems, engineering studies and construction to alleviate flooding problems of a recurring or emergency nature that arise during the fiscal year. Due to their emergency nature, these drainage problems cannot be identified in advance. An amount of \$300,000 is included in FY 2009 to support emergency watershed projects.

| LH8000  | Little Hunting Creek Watershed Projects | 5                 |
|---------|---|-------------------|
| Various |   | Lee, Mount Vernon |

**Description and Justification:** As management plans are developed for each of the 30 watersheds within the County, projects are identified that will restore and protect the County's streams. These projects improve water quality, wildlife habitat and provide increased community stewardship opportunities in support of state/federal requirements and the County's commitment to the Chesapeake Bay 2000 agreement. Implementation includes such practices as public education campaigns, street/parking lot sweeping, acquisition of conservation easements, buffer restoration, wetlands restoration, conversion of stormwater management ponds to Best Management Practice (BMP) facilities, stream restoration and installation of Low Impact Development (LID) features. Implementation strategies and goals are developed on a watershed basis. An amount of \$300,000 is included in FY 2009 for improvements identified in Little Hunting Creek watershed management plan.

# Fund 370 Park Authority Bond Construction

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

This fund provides for the continued design, construction and renovation of Fairfax County parks, and is supported by General Obligation bonds. Projects within this fund provide for improvements to a wide range

of recreational facilities such as playgrounds, picnic areas, trails and recreation center/swimming pool complexes. On November 6, 2006, the voters approved a \$25 million bond referendum to acquire new parks, develop and improve park facilities. The next Park Bond referendum is currently scheduled for fall 2008. As part of its deliberations on the FY 2009 – FY 2013 Capital Improvement Plan, the Board of Supervisors approved \$65 million as the referendum amount.

The Park Authority Board has adopted certain criteria for evaluating proposed acquisitions, including contiguity to existing parkland or stream valley areas, existing zoning and development conditions, reasonable development costs and support within the Fairfax County Comprehensive Plan. The Park Authority also works with the private sector to acquire easements and donations of land and funding in an effort to use land acquisition monies more effectively.

No funding is included for Fund 370, Park Authority Bond Construction, in FY 2009.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$50,862,077 due to the carryover of unexpended project balances in the amount of \$50,542,077 and the appropriation of \$320,000 due to the receipt of bond premium associated with the January 2007 bond sale.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

◆ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| Total Disbursements                   | \$34,540,602      | \$0                               | \$51,332,247                      | \$0                                  | \$0                               |
| <b>Ending Balance</b> <sup>3,4</sup>  | (\$15,327,753)    | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. On November 2, 2004 voters approved a \$65 million Park Authority Referendum to continue land acquisition and the development of existing park facilities. On November 6, 2006, the voters approved a \$25 million Park Authority Bond Referendum to continue land acquisition and park development. As part of the January 2007 bond sale an amount of \$9.69 million was sold for the Park Authority. It should be noted that an additional \$0.32 million has been applied to this fund in FY 2007 bond premiums. Including prior sales, an amount of \$66.66 million remains in authorized but unissed bonds for this fund.

<sup>&</sup>lt;sup>2</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment of \$470,169 has been reflected as a decrease to FY 2007 expenditures to reflect expenditure accruals. The projects affected by this adjustment are Project 474104, Athletic Fields; Project 474106, Athletic Fields–Synthetic Turf; Project 475898, Building Renovations; Project 475004, Natural and Cultural Resources; Project 474404, Infrastructure Renovations; and Project 475098, Natural and Cultural Facilities. These audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> The negative actual FY 2007 Ending Balance and FY 2008 Revised Beginning Balance will be adjusted by authorized but unissued bonds to be sold during FY 2008.

<sup>&</sup>lt;sup>4</sup> Capital Projects are budgeted based on total project cost. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

# Fund 390 Public School Construction

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Focus**

Fund 390, Public School Construction, provides funding for new construction, facility renovation, expansion and improvements authorized by voter referendum, as well as, funds for capital expenditures. Bond funding remaining from the 2001, 2003, 2005 and 2007 bond referenda support capital construction projects in this fund.

In FY 2009, progress will continue on the school bond referendum projects and projects funded by Fund 090, School Operating. Major projects for FY 2009 include facility modifications and renovation, expansion and improvement projects.

| Total Expenditures                 | \$147,929,690                  | \$158,519,596                     | \$489,693,967                                  | \$167,997,005                           | \$167,997,005                     |
| <b>Total Disbursements</b>         | \$147,929,690                  | \$158,519,596                     | \$489,693,967                                  | \$167,997,005                           | \$167,997,005                     |
|                                    |                                |                                   |  |   |                                   |
| <b>Ending Balance</b> <sup>3</sup> | (\$3,656,649)                  | \$0                               | \$0  | \$0                                     | \$0                               |

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$2.00 has been reflected as an increase to FY 2007 revenues and an amount of \$1,243,275.00 has been reflected as an increase to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008, during their FY 2008 Third Quarter Review.

<sup>&</sup>lt;sup>3</sup> The negative FY 2007 Actual Ending Balance and the FY 2008 Revised Beginning Balance will be adjusted by authorized but unissued bonds to be sold in FY 2008.

<sup>&</sup>lt;sup>4</sup> The actual sale of bonds is based upon a review of cash needs rather than cash and encumbrances as presented here for planning purposes. This is consistent with Board policy to sell bonds on a cash basis. Including prior sales, there is a balance of \$450.7 million in authorized but unissued school bonds.

### **Focus**

The Wastewater Management Program (WWM) is operated, maintained and managed within the Department of Public Works and Environmental Services (DPWES). The program currently includes the County-owned Noman M. Cole, Jr. Pollution Control Plant (67 million gallons per day (mgd) capacity), nearly 3,330 miles of sewer lines, 65 pump stations, 54 flow-metering stations, and covers approximately 234 square miles of the County's 407 square-mile area. Capacity entitlement at the other regional facilities totals 91 mgd. A total of 321/320.5 SYE positions will perform wastewater maintenance and operations in FY 2009. The WWM anticipates a total of 355,208 households and businesses (new and existing) connections in Fairfax County will be connected to public sewer in FY 2009.

In addition to providing County residents and businesses with sewer service, Fairfax County provides sewer service to other nearby entities through "Sales of Service" agreements with Arlington County, the cities of Falls Church and Fairfax, the towns of Herndon and Vienna, Fort Belvoir, the Covanta Fairfax, Inc. Waste-to-Energy facility and Fairfax Water. These entities share the capital and operating costs of the WWM based on actual wastewater flow and reserved treatment capacity.

The strategic planning and overall business monitoring is the responsibility of the Wastewater Management Leadership Team, whose responsibilities focus on long range planning, strategic thinking, continuous improvement processing, wastewater capacity, and financial management. This team is comprised of employees from three divisions within WWM, Collections, Treatment, and Planning and Monitoring.

The Wastewater Collection Division (WCD) is responsible for the County's wastewater collection and conveyance system consisting of sewers, force mains, pumping stations and metering stations. The WCD has a proactive sewer system maintenance program that facilitates a safe and effective wastewater collection system. Each year, over 800 miles of sewer lines are inspected and about 400 miles of sewer lines are cleaned to ensure maximum flow carrying capacity and reduce sewer backups and overflows. Over the last five years, WCD has rehabilitated 120 miles of sewer lines to protect the environment and residents of Fairfax County.

The Wastewater Treatment Division (WTD) is responsible for operating and maintaining the County's wastewater treatment facility, the Noman M. Cole, Jr. Pollution Control Plant (NCPCP). The WTD continues to produce a quality effluent to meet regulatory and permit requirements, despite major construction occurring throughout the plant site. The NCPCP continues to make significant efforts to be a "good neighbor" by constructing an odor control system, which improves the air quality around the plant.

The Wastewater Planning and Monitoring Division (WPMD) is responsible for the agency's fiscal planning, engineering planning and wastewater monitoring. The WPMD continues to effectively monitor the long-term planning needs for the Wastewater Management Program in terms of infrastructure upgrades, maintenance and expansions. The WPMD ensures that all financial requirements are fulfilled by maintaining a rate structure to adequately recover all operating and maintenance costs, capital improvements and debt service obligations. The WPMD also plans for system capacity, both in the conveyance system and treatment facilities, by initiating expansion and improvement projects to keep pace with increased wastewater flows. The WPMD safeguards the environment by ensuring compliance with water quality standards and prevention of toxic discharges into the collection system.

WPMD is currently monitoring the new Chesapeake Bay water quality program requirements which require reductions in the amount of nutrient pollutants discharged from wastewater treatment facilities. In December 2004, the state notified the County that the renewal of County's National Pollutant Discharge Elimination System (NPDES) permit will include a requirement that nutrient removal be performed at the "Limits of Technology." Current technology allows for discharge limits of less than 3.0 milligrams per liter for nitrogen and 0.1 milligrams per liter for phosphorus. The County currently has the capability to meet the voluntary nitrogen standard of 8.0 milligrams per liter. A phased approach has been recommended to renovate and upgrade current plant facilities to accommodate these more stringent nutrient discharge requirements. The Sewer Service Charge rate will increase from \$3.74 to \$4.10 per 1,000 gallons of water consumption in FY 2009. This equates to an approximately 9.75 percent increase in rates and will result in an anticipated increase in the annual cost to the typical household of \$27.36. The Sewer Service Charge is adjusted based on Chesapeake Bay federally mandated requirements which will result in the renovation and rehabilitation of existing treatment facilities. Due to the significant level of requirements, it is anticipated that projects will be financed on an as-needed basis with shorter-term financing during FY 2008 and FY 2009.

The system supplements the capacity of its own collections and treatment facilities through "Treatment by Contract" agreements with the District of Columbia Water and Sewer Authority (DCWASA), the Alexandria Sanitation Authority (ASA), the Upper Occoquan Sewage Authority (UOSA) and Arlington County. As stated in the individual agreements, the County pays its share of operating, capital and/or debt costs of each entity's system based on actual wastewater flows and allocated capacity, respectively.

The Wastewater Management Program has issued debt to fund major expansion and upgrade projects for both its own plant and its portion at the "Treatment by Contract" facilities. The following table is showing the remaining debt service as of July 1, 2007.

| Wastewater Management Debt Service |               |               |               |  |  |  |  |
|------------------------------------|---------------|---------------|---------------|--|--|--|--|
| Years                              | Principal     | Interest      | Total         |  |  |  |  |
| 2008                               | \$11,340,648  | \$17,042,264  | \$28,382,912  |  |  |  |  |
| 2009                               | 11,778,400    | 16,611,843    | 28,390,243    |  |  |  |  |
| 2010                               | 12,286,811    | 16,116,153    | 28,402,964    |  |  |  |  |
| 2011                               | 13,416,594    | 15,611,454    | 29,028,048    |  |  |  |  |
| 2012                               | 14,000,122    | 15,041,023    | 29,041,145    |  |  |  |  |
| 2013                               | 14,606,911    | 14,449,149    | 29,056,060    |  |  |  |  |
| 2014                               | 15,207,701    | 13,830,090    | 29,037,791    |  |  |  |  |
| 2015-2029                          | 283,371,074   | 107,072,621   | 390,443,695   |  |  |  |  |
| TOTAL                              | \$376,008,261 | \$215,774,597 | \$591,782,858 |  |  |  |  |

In FY 2009, the County is projected to provide for the treatment of 112.01 million gallons of wastewater per day. Approximately 40 percent of this flow is treated at the NCPCP. The flow is distributed between the NCPCP and the interjurisdictional facilities as detailed in the table below. The table also includes the capacity utilization percentage and the available (unused) capacity for each plant.

| Treatment Plant                    | Capacity<br>(MGD) | FY 2009<br>Projected Daily<br>Average (MGD) | Capacity<br>Utilization<br>(%) | Available<br>Capacity<br>(MGD) |
|------------------------------------|-------------------|---|--------------------------------|--------------------------------|
| DCWASA Blue Plains                 | 31.0              | 29.17                                       | 94%                            | 1.83                           |
| Noman M. Cole, Jr.                 | 67.0              | 44.76                                       | 66.8%                          | 22.24                          |
| Alexandria Sanitation Authority    | 32.4              | 22.90                                       | 70.6%                          | 9.50                           |
| Arlington County                   | 3.0               | 2.30  | 76.7%                          | .70                            |
| Upper Occoquan Sewage<br>Authority | 24.6              | 12.88                                       | 52.3%                          | 11.72                          |
| Total                              | 158.0             | 112.01                                      | 70.9%                          | 45.99                          |

To ensure that WWM remains competitive and provides a high performance operation including improvements to the technical and managerial capacities that will continue to enhance service quality, customer service and financial planning, WWM closely monitors the following areas:

|  | FY 2007  | FY 2008    | FY 2009      |
|--|----------|------------|--------------|
|  | (Actual) | (Estimate) | (Projection) |
| Sewer Service Charge, \$/1,000 gallons | \$3.50   | \$3.74     | \$4.10       |
| Treatment Costs, \$/MGD                | \$1,400  | \$1,450    | \$1,500      |
| Number of Sewer System Overflows       | 14       | 20         | 20           |
| Odor Complaints per year               | 16       | 40         | 40           |

The WWM is comprised of seven separate funds under a self-supporting fund structure (Enterprise Funds) consistent with the Sewer Bond Resolution adopted by the Board of Supervisors in July 1985. For more detailed information of the operational aspects of the various programs, refer to the narrative of Fund 401, Sewer Operation and Maintenance, which immediately follows this Overview. The following is a brief description of the seven active funds:

- ♦ Fund 400 Sewer Revenue is used to credit all operating revenues of the system, as well as most of the interest on invested fund balances. Revenues recorded in this fund are transferred to the various funds to meet their operational requirements. The remaining fund balances are used to set aside funds for various reserves and future system requirements.
- Fund 401 Sewer Operation and Maintenance provides funding for the three divisions responsible for the management and operation of the program, supported by a transfer from Fund 400.
- Fund 402 Sewer Construction Improvements provides funding for the repair, rehabilitation and improvement requirements of the entire program's infrastructure, supported by a transfer from Fund 400.
- Fund 403 Sewer Bond Parity Debt Service is used to record principal, interest and fiscal agent fees for the Series 2004 Sewer Revenue Refunding Bonds in accordance with the current Sewer Bond Resolution, supported by a transfer from Fund 400. In addition, short term variable rate debt will be issued beginning in FY 2008.

- ♦ Fund 406 Sewer Bond Debt Reserve provides debt reserve funds for the 2004 Series of Sewer Revenue Bonds in accordance with the current Sewer Bond Resolution, which are funded from the issuance of sewer revenue bonds and/or program revenues.
- Fund 407 Sewer Bond Subordinate Debt Service records all debt service payments on the UOSA revenue bonds, VRA Loans, and Manassas Debt payments. All future issues or refinancing of debt arising from interjurisdictional capacity rights may be treated as subordinate obligations of the system as provided by the General Bond Resolution for Sewer Revenue Bonds. Funding is supported by a transfer from Fund 400.
- Fund 408 Sewer Bond Construction provides for major program construction projects, which are funded from the issuance of sewer revenue bonds and/or program revenues.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

All availability fees and sewer service charges associated with the Wastewater Management Program are credited to this fund as operating revenues. The total receipts from all revenue sources are used to finance the following: Operation and Maintenance (Fund 401); Construction Improvement Projects (Fund 402); Debt Service (Fund 403); and Subordinate Debt Service (Fund 407). Any remaining balance in Fund 400, Sewer Revenue is used for future year requirements and required reserves.

The Program's Availability Fee and Sewer Service Charge are based on staff analysis and consultant recommendations included in the Forecasted Financial Statement for July 1, 2007 through June 30, 2012.

### **Current Availability Fee Rates**

Availability Charges are fees charged to new customers for initial access to the system. In FY 2009, Availability Fees will increase from \$6,506 to \$6,896 for single-family homes based on current projections of capital requirements. The Availability Fee rates for all types of units are adjusted based on continued increases in expenses associated with treatment plant upgrades and interjurisdictional payments that result from population growth, more stringent treatment requirements and inflation. The following table displays the resulting increase by category.

| Category                  | FY 2008<br>Availability Fee | FY 2009<br>Availability Fee |
|---------------------------|-----------------------------|-----------------------------|
| Single Family             | \$6,506                     | \$6,896                     |
| Townhouses and Apartments | \$5,205                     | \$5,51 <i>7</i>             |
| Hotels/Motels             | \$1,627                     | \$1,724                     |
| Nonresidential            | \$337/fixture unit          | \$357/fixture unit          |

#### **Current Sewer Service Charge**

Sewer Service Charges are revenues received from existing customers and are used to fully recover program operation and maintenance costs, debt service payments and capital project requirements attributable to improving wastewater treatment effluent quality as mandated by state and federal agencies. The Sewer Service Charge rate will increase from \$3.74 to \$4.10 per 1,000 gallons of potable water consumption in FY 2009. This equates to an approximate increase of 9.75 percent increase in rates and will result in an anticipated increase in the annual cost to the typical household of \$27.36. The increase in Sewer Service Charges is adjusted based on federally mandated requirements which will result in the renovation and rehabilitation of existing treatment facilities. New Chesapeake Bay water quality program requirements include reductions in the amount of nutrient pollutants discharged from wastewater treatment facilities. In December 2004, the state notified the County that the renewal of County's National Pollutant Discharge Elimination System (NPDES) permit will include a requirement that nutrient removal be performed at the "Limits of Technology." Current technology allows for discharge limits of less than 3.0 milligrams per liter of nitrogen and 0.1 milligrams per liter for phosphorus. The County currently has the capability to meet a voluntary nitrogen removal standard of 8.0 milligrams per liter. A phased approach is recommended to renovate and upgrade current plant facilities to accommodate these more stringent nutrient discharge requirements. Due to the significant level of requirements, it is anticipated that projects will be financed on an as-needed basis with shorter-term financing during FY 2008 and FY 2009.

| Category                         | FY 2008<br>Sewer Service Charge | FY 2009<br>Sewer Service Charge |
|----------------------------------|---------------------------------|---------------------------------|
| Per 1,000 gallons water consumed | \$3.74                          | \$4.10                          |

The FY 2009 Sewer Service Charge will generate an additional \$8.2 million in revenues over the estimated FY 2008 Revised Budget Plan amount and will partially offset the increased costs associated with capital project construction, system operation and maintenance, debt service and upgrades to effectively meet new, more stringent nitrogen discharge limitations from wastewater treatment plants. Other sources of revenue are projected to remain flat due to the moderation of new development and growth in the County as compared to previous years. The program will also utilize sewer fund balances to partially offset these higher costs. These FY 2009 rate increases are consistent with the recommendations of the Department of Public Works and Environmental Services and the analysis included in the Forecasted Financial Statement for July 1, 2007 through June 30, 2012.

### **Availability Fees and Sewer Service Charges from FY 2005 through FY 2012**

| Fiscal Year | Availability Fee | Sewer Service Charge<br>Per 1,000 gallons water used |
|-------------|------------------|--|
| 2005        | \$5,621          | \$3.20   |
| 2006        | \$5,874          | \$3.28   |
| 2007        | \$6,138          | \$3.50   |
| 2008        | \$6,506          | \$3.74   |
| 2009        | \$6,896          | \$4.10   |
| 2010        | \$7,310          | \$4.50   |
| 2011        | \$ <i>7,7</i> 50 | \$4.94   |
| 2012        | \$8,215          | \$5.42   |

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ At the FY 2007 Carryover Review, the Board of Supervisors approved no changes to the expenditures for this fund. The FY 2008 transfer out was decreased \$10,000,000 due to large carryover fund balances in Fund 401, Sewer Operations and Maintenance and Fund 403, Sewer Bond Parity Debt Service. Both of these funds ended FY 2007 with fund balances that are larger than required in FY 2008 which permitted the reduction in the transfers out.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved no changes to the expenditures for this fund. The FY 2008 revenues were increased \$43,565,000 primarily due to the sale of purchased capacity at the Upper Occoquan Sewage Authority's Treatment Plant (UOSA). On September 10, 2007 the Board of Supervisors authorized the sale of three million gallons per day (mgd) of Fairfax County's unused wastewater capacity at the Upper Occoquan Sewage Authority's Treatment Plant to Prince William County and the City of Manassas. Two mgd of capacity were sold to Prince William County and one mgd of capacity was sold to the City of Manassas to meet their growing needs for additional treatment plant capacity. Fairfax County's allocated capacity at the plant was reduced from 27.6 to 24.6 mgd from the sale of purchased capacity. The sale price per one mgd of capacity at UOSA was \$16,855,000. The proceeds from the sale of this capacity have been appropriated into the County's Integrated Sewer Fund to fund future capacity expansions or to pay down the outstanding debt service on UOSA bonds. This increase was partially offset by a decrease of \$7,000,000 due to a projected decline in availability charges for FY 2008.

### **FUND STATEMENT**

### **Fund Type G40, Enterprise Funds**

### Fund 400, Sewer Revenue

<sup>&</sup>lt;sup>1</sup> On September 10, 2007 the Board of Supervisors approved the sale of 3.0 mgd in Fairfax County unused capacity at the UOSA treatment plant; 2.0 mgd to Prince William County and 1.0 mgd to the City of Manassas at \$16,855,000 per mgd of capacity.

<sup>&</sup>lt;sup>2</sup> The Wastewater Management Program maintains fund balances at adequate levels relative to projected debt service requirements, operation and maintenance expenses and capital improvements. These costs change annually and funding for sewer projects is carried forward each fiscal year; therefore, ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>3</sup> The Operating and Maintenance Reserve was established to provide funding to offset expenses associated with sewer system emergencies occurring within Fund 401, Sewer Operation and Maintenance.

<sup>&</sup>lt;sup>4</sup> The Virginia Resource Authority (VRA) Reserve was established in anticipation of debt service reserve requirements for VRA loans related to future treatment plant costs.

### Mission

To safely collect and treat wastewater in compliance with all regulatory requirements using state-of-the-art technology in the most cost-effective manner in order to improve the environment and enhance the quality of life in Fairfax County.

### **Focus**

The Wastewater Management Program includes wastewater collection and conveyance, wastewater treatment, and planning and monitoring program areas. The primary functions are to strategically plan, efficiently operate and effectively maintain the wastewater system in the best interest of the County and its

customers. Funding for sewer operations and maintenance are financed by a transfer from Fund 400, Sewer Revenue which is used to credit all system revenues collected, including availability fees and sewer service charges associated with the program.

This program operates and maintains nearly 3,330 miles of sewer, 65 pump stations and 54 flow-metering stations. Treatment of wastewater generated is provided primarily through five regional wastewater collection and treatment plants. The regional treatment approach takes advantage of economies of scale in wastewater treatment and ensures the economical and efficient operation and management of the program.

One of the five regional plants is the County's owned and operated Noman M. Cole, Jr.

Photo of the Noman M. Cole Jr. Pollution Control Plant

Pollution Control Plant (NCPCP), which is currently permitted to treat 67 million gallons per day (mgd) of flow. Other regional facilities include the District of Columbia Water and Sewer Authority's Blue Plains Treatment Plant with 31 mgd capacity; Alexandria Sanitation Authority's Treatment Plant with 32.4 mgd capacity; Upper Occoquan Sewage Authority's Treatment Plant with 24.6 mgd capacity; and Arlington County's Treatment Plant with 3 mgd capacity. Fairfax County utilizes all of these facilities to accommodate a total capacity of 158 mgd.

The agency has identified a number of trends that influence the operation and maintenance of the sanitary sewer system. The major trends over the next two to five years include the following:

Chesapeake Bay Water Quality Program Requirements - The new Chesapeake Bay water quality program requires reductions in the amount of nutrient pollutants discharged from wastewater treatment facilities. In December 2004, the state notified the County that the renewal of County's National Pollutant Discharge Elimination System (NPDES) permit will include a requirement that nutrient removal be performed at the "Limits of Technology." Current technology allows for discharge limits of less than 3.0 milligrams per liter for nitrogen and 0.1 milligrams per liter for phosphorus. The County has the capability to meet a current nitrogen removal level of 8.0 milligrams per liter. A phased approach has been recommended to renovate and upgrade current plant facilities to accommodate new more stringent nutrient discharge requirements. The Sewer Service Charge rate will increase from \$3.74 to \$4.10 per 1,000 gallons of water consumption in FY 2009. This equates to an approximately 9.75 percent increase in rates and will result in an anticipated increase in the annual cost to the typical household of \$27.36. The higher increase in Sewer Service Charges is a direct result of the Chesapeake Bay federally mandated requirements which will result in the renovation and rehabilitation of existing treatment facilities. Funding of \$150 million was recommended through the sale of bonds and was anticipated to meet new state regulatory requirements in the Wastewater Management Program (WWM). However, in order to maximize flexibility, an alternate shorter-term financing option is being pursued in FY 2008 and FY 2009 once projects are ready to begin.

Capacity, Maintenance, Operation, and Management (CMOM) - The United States Environmental Protection Agency (USEPA) has been planning for several years to promulgate sanitary sewer overflow (SSO) regulations, which would require municipalities to develop and implement a CMOM program to eliminate any sewer overflows and backups from the wastewater collection systems. The proposed SSO rule and the CMOM program would significantly affect program costs.

Integration of Information Technology - The Geographic Information System (GIS), the Supervisory Control and Data Acquisition (SCADA) system and the Infrastructure Computerized Maintenance Management System (ICMMS) require integration for optimal use. Computing and information technology are an integral part of every aspect of the Wastewater Management Program operations. Today's high customer expectations and increasing reliance on consistent 24-hour services, lead to an increasing dependence on and expectation for stable and reliable integrated information technologies that infuse the business process. Presently, the GIS, the SCADA system, the ICMMS system are partially integrated. Future customer service needs will require a full enterprise integration of the critical information technology systems to reduce total cost of ownership, increase availability of critical business data in the right format, and improve the quality and delivery of services to sewer customers.

#### THINKING STRATEGICALLY

Strategic issues for the Wastewater Management Program include:

- Providing superior wastewater services to achieve a pure and natural state of air and water;
- Improving customer service, customer strategy and satisfaction by providing more comprehensive employee training;
- o Expanding the Health and Safety Program through the improvement of the Emergency Planning and Response areas to ensure a safe work environment;
- Evaluating the program's financial management strategies to ensure proper cash management and debt capacity; and
- o Utilizing automated technologies to enhance the existing computer systems to increase infrastructure rehabilitation projects in the most effective manner.

<u>Capital Improvements</u> - Reinvestment in the sewer system infrastructure ensures optimum operation of all wastewater facilities. This initiative, closely related to CMOM endeavors, emphasizes capital improvements to wastewater collection and treatment facilities to meet requirements of the future sanitary sewer overflow regulations by the USEPA. The program continues to take a proactive stance toward infrastructure rehabilitation; however, CMOM regulations could greatly affect operations.

<u>Asset Management Program</u> - As a result of evaluating the program's financial management strategies, an Asset Management Program was developed. The first phase aligned the program's capital asset policies and procedures with the County's fixed asset policies and developed a process in which to evaluate the program's infrastructure. The second phase developed criteria to identify the program's critical assets. After the criteria was tested and accepted it was applied to all program assets. Phase three will be the condition assessment of all assets beginning with the most critical assets.

The Wastewater Management Program is funded by revenues generated by the customers of the sanitary sewer system and recorded in Fund 400, Sewer Revenue. Sewer service charges support system operation and maintenance costs, debt service payments, and capital projects that is attributable to supporting and improving wastewater treatment services for existing customers. Availability fees support a proportional share of system costs and capital projects attributable to growth of the system required to support new customers. Existing customers are defined as those who have paid an availability fee for access to the system and receive wastewater treatment services. New customers are those who have not paid the availability fee. Upon payment of the availability fee and connection to the system, a new customer becomes an existing customer. The County allocates expenses, interest income, bond proceeds, debt service payments, capital improvement project costs and funding, and operating transfers between existing and new users of the system. In accordance with the County's "Growth Pays for Growth Policy", both existing and new customers must pay for their share of the system's total annual revenue requirements.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Practicing Environmental Stewardship   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to be a leader in protecting the Chesapeake Bay. Received the National Association of Clean Water Agencies (NACWA) Platinum Award for 100 percent compliance with its NPDES discharge permit limits on a Calendar Year basis. Only 256 of the 16,000 wastewater treatment plants in the United States have received this award. | d                 | ¥                     |
| Received a Business for the Bay Environmental Excellence Award for the nutrient removal program at the Noman M. Cole, Jr. Pollution Control Plant.   |                   |                       |
| Accepted by the Commonwealth of Virginia, Department of Environmental Quality (DEQ) as an Exemplary Environmental Enterprise (E3) participant into the Virginia environmental excellence program. The agency plans to seek an Extraordinary Environmental Enterprise (E4) rating in the future.  | M                 | V                     |
| Conducted exemplary work in analytical monitoring for the protection of the environment and the Chesapeake Bay, resulting in the receipt of the Laboratory Analyst Excellence Award from Virginia Water Environment Association/Virginia Wastewater Association (VWEA/VWWA).   | d                 |                       |
| Continue to reduce nutrients discharged to the Chesapeake Bay by using the new Biological Nutrient Removal (BNR) facilities which reduces total nitrogen discharge concentration from 8 milligrams per liter to 3 milligrams per liter.  | N                 | <b>▼</b>              |
| Continue to maintain the sewer collection and conveyance system in accordance with the "best business practices" operating condition by rehabilitating, repairing and replacing failing pumps, sewer lines and force mains.  | M                 | V                     |

| Practicing Environmental Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Achieved 100 percent compliance with the newly established regulatory requirements under Title V of the Clean Air Act.  | V                 |                       |
| Continue to fully treated wastewater to a level better than all state requirements.   | V                 |                       |
| Creating a Culture of Engagement  | Recent<br>Success | FY 2009<br>Initiative |
| Continue the "Adopt a School" program and "Sewer Science Program" to educate and inform students and the community about the role wastewater treatment plays in protecting the environment.                                     | Ĭ                 | <b>I</b>              |
| Continue to participate in the Lorton Citizens' Alliance Team (LCAT) which consists of members from the community, Wastewater Program and the Solid Waste Management Program to address the community's environmental concerns. | ď                 | ¥                     |
| Continue to participate in neighborhood sponsored activities such as Adopt-A-Highway Clean-Up and Pohick Creek Clean-Up.  | V                 | <b>T</b>              |
| Exercising Corporate Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
| Continue to implement the Capital Asset Management Program to identify major rehabilitation and replacement projects over the next five to ten years under the Capital Improvement Program.                                     | V                 | V                     |
| Continue to operate the program in a manner that ensures it remains one of the lowest cost pollution control service providers in the region.   | V                 |                       |
| Continue to maintain Standard and Poor's, as well as Fitch's, bond rating of Triple A, the best financial rating a utility can receive.   | V                 | Ø                     |
| Continue to seek and receive a Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for the Wastewater Management Program's Comprehensive Annual Financial Report.   |                   | V                     |

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$1,000,791

An increase of \$1,000,791 in Personnel Services associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Operating Expenses

\$2,521,077

An increase of \$2,521,077 in Operating Expenses is due primarily to increased costs for interjurisdictional charges based on operations and maintenance charges from Blue Plains, Alexandria Sanitation Authority, the Upper Occoquan Sewage Authority (UOSA), and Arlington County. These cost increases are primarily due to increases in power, fuel and chemicals caused by energy related cost increases.

## ♦ Recovered Costs (\$15,186)

An increase of \$15,186 in Recovered Costs is primarily due to the FY 2009 projected salaries of recoverable positions.

### Capital Equipment

\$487,918

Funding of \$487,918 is included for Capital Equipment requirements associated with replacement equipment that has outlived its useful life and is not cost effective to repair. The equipment includes \$68,000 for office support equipment, \$20,000 for welding equipment, \$26,000 for one auto sampler for laboratory analysis required by the USEPA, and \$91,268 for lab equipment. In addition, funding provides for replacement vehicles including \$120,000 for one ash dump truck to haul incinerated ash, \$98,650 for four pickup trucks for maintenance projects, \$34,000 for one pickup truck to inspect sewer lines required by the USEPA Capacity, Management, Operation and Maintenance (CMOM) program, and \$30,000 for one forklift. All of these vehicles require replacement based on established age, mileage criteria and excessive repairs.

### **♦** Carryover Adjustments

(\$1,206,539)

A decrease of \$1,206,539 due to the carryover of one-time expenses as part of the *FY 2007 Carryover Review*, including \$637,891 in Operating Expenses and \$568,648 in Capital Equipment.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$289,477

An increase of \$289,477 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$1,206,539

At the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$1,206,539 for encumbered carryover, including \$637,891 in Operating Expenses and \$568,648 in Capital Equipment.

#### **♦** Position Redirections

\$0

During FY 2008, the County Executive approved the redirection of 5/5.0 SYE positions from Wastewater Management to establish 1/1.0 SYE Engineer III position in the Construction Management Division to oversee the implementation of Wastewater and Solid Waste projects; 1/1.0 SYE Engineer IV position for the Building and Design Branch to aid with project management responsibilities for new projects occurring throughout the County; 1/1.0 SYE Engineer II position for Solid Waste; and 2/2.0 SYE positions to establish a Professional Engineering Development Program in Land Development Services for recent college graduates and to provide advancement opportunities for the employees.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

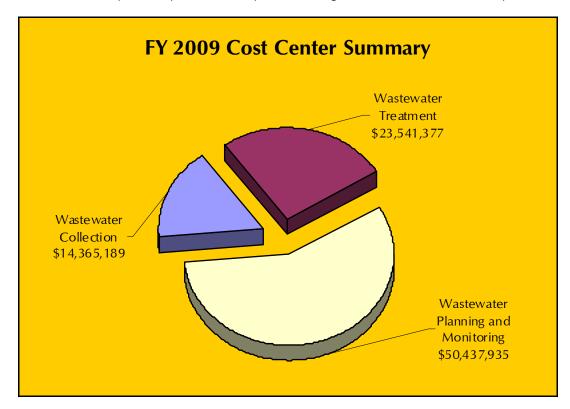

#### **♦** Third Quarter Adjustments

**\$0** 

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$289,484 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan. These funds were reallocated to support operating expenses with a net expenditure change of \$0.

## **Cost Centers**

The three cost centers within Fund 401, Sewer Operation and Maintenance, are Wastewater Collection, Wastewater Treatment and Wastewater Planning and Monitoring. These cost centers work together to fulfill the mission of the sanitary sewer system and carry out the designated initiatives for the fiscal year.

#### Goal

To operate, maintain, and repair the County's wastewater collection system in a manner that protects Fairfax County citizens and the environment.

| Funding Summary                  |                   |                                   |                                   |                                      |                                   |  |  |  |

## Goal

**Total Expenditures** 

To ensure efficient and effective operation and maintenance of the County's wastewater treatment facilities within the laws and standards established by the Congress of the United States in Public Law 92-500 which designates regulatory powers to the USEPA and the Virginia Department of Environmental Quality.

#### Goal

To manage sewer revenue collection; to monitor and report County sewage flows treated at non-County facilities; to plan for growth and development in the County's public sewer system; and to environmentally monitor County treatment facilities, other publicly and privately-owned treatment facilities in the program and nearby embayments.

## **Key Performance Measures**

### **Objectives**

- ♦ To comply with Title V air permit and state water quality permit requirements 100 percent of the time in order to contribute to a pure and natural state of air and water in Fairfax County.
- ♦ To maintain sewer infrastructure effectively in order to experience no more than 25 sewer back-ups, which is less than the current 5-year rolling annual average of 34.
- ♦ To ensure efficient wastewater collection and treatment services by providing service to customers at rates that are the lowest in the area.
- ♦ To provide excellent financial and asset management by ensuring a debt coverage ratio of 1.20 or greater.

<sup>(1)</sup> The agency redefined the definition of emergency repairs to include only true emergency work and no longer include unscheduled work orders in this performance measurement.

### **Performance Measurement Results**

In FY 2007, there were 355,208 (households and businesses) connections to the sanitary sewer system, an increase of 7,407 connections over FY 2006. Approximately 87 percent of Fairfax County households are connected to the sewer system. Approximately 875,000 of the County's estimated 1,050,000 residents are served by public sewer. Odor complaints, particularly around the Noman M. Cole, Jr., Pollution Control Plant, have been reduced significantly with the addition of new odor containment and treatment facilities. These odor control facilities include tank covers for gravity thickeners and packed tower scrubbers on sludge storage tanks, nine carbon absorption odor control scrubbers at various locations on the plant, tank covers for the primary settling tanks and packed tower scrubbers to treat the odorous air from the tanks, and afterburners for the incineration exhaust.

Wastewater flows increased slightly due to rainfall induced infiltration. Sanitary sewer overflows remained constant from FY 2006 mainly due to the increased efforts by the Wastewater Collection including staff monitoring trouble areas, replacing sewer line sags and realigning sewer lines, and utilizing temporary pumps in place to divert flow during severe storm events. Similarly, the number of sanitary sewage blockages is still low and based on the agency's efforts to monitor the sewer program and keep the sewer system clean of grease and debris.

When comparing average annual sewer service billings for the regional jurisdictions, Fairfax County has the lowest average annual sewer service billings at \$284. Other regional jurisdictions range from \$280 to \$500 (as of October 1, 2007). The average sewer service billings for the other regional jurisdictions have been developed by applying each jurisdiction's sewer service rate to appropriate Single Family Residence Equivalents (SFRE) water usage determined from an analysis of Fairfax Water's historical average water usage records for SFREs. Based on the latest rate comparison, Fairfax County had the lowest annual sewer service charge. The program is able to maintain its competitive rates while providing quality service to its customers, protecting the environment, and maintaining sufficient financial resources to fully fund the program's initiatives.

<sup>&</sup>lt;sup>1</sup> The Wastewater Management Program maintains fund balances at adequate levels relative to projected operation and maintenance expenses. These costs change annually; therefore, funding for sewer operations and maintenance is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>2</sup> The PC Replacement Reserve was established for the timely replacement of computer equipment.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 402, Sewer Construction Improvements, provides for wastewater management construction projects through a transfer of funds from Fund 400, Sewer Revenue. All projects in Fund 402 are fully supported by sewer system revenues and are included in the Summary of Capital Projects.

In FY 2009, an amount of \$23,500,000 is included in Fund 402, Sewer Construction Improvements. Funding will provide for the installation of 12,000 linear feet of sanitary sewer lines in the River Oaks Road area; replacement of power generators at several pumping stations; the upgrade and replacement of aging pumping stations equipment throughout the County; the replacement of the Dogue Creek Force Main; the

Photo of the Noman M. Cole Jr. Pollution Control Plant

installation, repair, replacement and renovation of 20 miles of sewer lines using predominantly "no dig" technologies; and the replacement of equipment and facilities at the Noman G. Cole Pollution Control Plant.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$27,039,058 due to the carryover of unexpended project balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement, a Summary of Capital Projects and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, source of funding, and completion schedules.

| Countywide |                          | Countywide |  |  |  |

**Description and Justification:** This project provides for the renovation of pumping stations within the Wastewater Management Program. FY 2009 funding in the amount of \$3,000,000 is for repair, renovation, and replacement of various pumping station equipment and upgrade of back-up generators at pumping stations throughout the county. This funding will ensure proper operations in the wastewater conveyance during power outages.

**Description and Justification:** This project provides for the replacement of the Dogue Creek Force Main. The Dogue Creek Force Main is approximately 4,350 linear feet of 36-inch trunk line. FY 2009 funding in the amount of \$4,000,000 will allow for the replacement of back-up power generators and fund repair, renovation and replacement of pumping station equipment.

**Description and Justification:** This project provides for the completion of sewer extension and improvement projects in those areas of the County with chronic septic systems failures. FY 2009 funding of \$5,000,000 provides for the installation of approximately 12,000 linear feet of eight-inch sanitary sewer line. This funding will address septic failures for eighty-seven dwellings on River Oaks Road as recommended by the Health Department.

**Description and Justification:** This project provides for the systematic rehabilitation of the County's more than 3,330 miles of sanitary sewer lines. FY 2009 funding of \$7,500,000 includes recurring repair, replacement and renovation of 20 miles of sewer lines using predominantly "no dig" technologies.

**Description and Justification:** This project provides for the replacement of equipment and facilities at the Noman M. Cole Jr. Pollution Control Plant to maintain efficient operations and meet permit requirements. FY 2009 funding in the amount of \$4,000,000 supports the carbon replacement for the plant's filter systems, methanol additional facilities for nitrogen removal, surge suppression of voltage spikes, incinerator rehabilitation, rehabilitation of tertiary clarifiers and grit building rehabilitation, replacement of backup generators, completion of the sludge dewatering facility replacement and provide for a stormwater management plan to control the plant's stormwater runoff.

## Fund 403 Sewer Bond Parity Debt Service

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 403, Sewer Bond Parity Debt Service, records debt service obligations incurred from bonds issued in accordance with the 1986 Sewer Bond Resolution. Bond proceeds are used to fund capital improvement requirements in the Wastewater Management Program including upgrades to the treatment facilities serving the County, and construction of nutrient removal facilities for the removal of nitrogen as required by the State Water Control Board. The removal of nitrogen will improve the quality of the effluent produced at all of the treatment plants.

An amount of \$10,649,456 is required for this fund in FY 2009 including \$2,645,000 in principal payments and \$3,999,456 in interest payments associated with outstanding 2004 Sewer Revenue Refunding Bonds, \$4,000,000 in future estimated interest associated with short term borrowing, and \$5,000 in fiscal agent fees. Fiscal agent fees are included for the management of all sewer bond accounts. All debt service payments are supported by Sewer System Revenues.

|                        | Principal   | Interest    | Fees    | Total        |
|------------------------|-------------|-------------|---------|--------------|

| 2004                   | \$2,645,000 | \$3,999,456 |         | \$6,644,456  |
| Future Short Term Debt |             | \$4,000,000 |         | \$4,000,000  |
| Fiscal Agent Fees      |             |             | \$5,000 | \$5,000      |
| Total                  | \$2,645,000 | \$7,999,456 | \$5,000 | \$10,649,456 |

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

There have been no revisions to this fund since the approval of the <u>FY 2008 Adopted Budget Plan</u>.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

• The Board of Supervisors made no adjustments to this fund.

|                                   |                                       |                                   |                                   |                                      |                                   |
| Ending Balance <sup>4</sup>       | \$6,019,500                           | \$1,103,444                       | \$1,019,500                       | \$1,012,415                          | \$1,012,415                       |

<sup>&</sup>lt;sup>1</sup> This fund is supported by a transfer in from Fund 400, Sewer Revenue.

<sup>&</sup>lt;sup>2</sup> The bond principal and interest payments are shown as expenditures. However, for accounting purposes, the Comprehensive Annual Financial Report will show these disbursements as "Construction in Progress" to be capitalized.

<sup>&</sup>lt;sup>3</sup> In order to capitalize the bond costs, this category is designated as an annual non-appropriated amortization expense. An amount of \$7,629 is included for the 2004 bond series which began in FY 2006.

<sup>&</sup>lt;sup>4</sup> The Wastewater Management Program maintains fund balances at adequate levels relative to projected debt service requirements. Fund Balances fluctuate from year to year based on actual debt requirements and are used to cover amortization of issuance costs.

### Fund 406 Sewer Bond Debt Reserve

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 406, Sewer Bond Debt Reserve, fulfills the County's requirement to maintain a Reserve Fund for the 2004 Sewer Revenue Refunding Bonds. As outlined in the 1986 Bond Resolution, this reserve is required to be the lesser of the maximum principal and interest requirements for any bond year or 125 percent of the average annual principal and interest requirements for the bonds.

No funding is required for Fund 406, Sewer Bond Debt Reserve in FY 2009. The recommended reserve to satisfy the existing requirement for the 2004 Sewer Revenue Refunding Bonds is \$6,900,348. The current balance of \$16,606,348 is a sufficient level to satisfy the legal reserve requirements of \$6,900,348 for the 2004 Sewer Revenue Refunding bonds and a planning factor of \$9,706,000 for future debt requirements.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no revisions to this fund since the approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> The fund balance provides a sufficient level to satisfy the legal reserve requirements of \$6,900,348 for the 2004 Sewer Revenue Refunding bonds and a planning factor of \$9,706,000 for future debt requirements. This reserve provides for one year of principal and interest as required by the Sewer System's General Bond Resolution.

# Fund 407 Sewer Bond Subordinate Debt Service

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 407, Sewer Bond Subordinate Debt Service, provides debt service funding for the Upper Occoquan Sewage Authority (UOSA) Bond Series, the Virginia Resources Authority (VRA) loans and the Manassas Park debt payment. The UOSA Bond Series is based on the County's portion of the plant expansion from 27.0 million gallons per day (mgd) to 54 mgd. Two low-interest VRA loans from the State Revolving Fund Program were used to fund the County's share of construction costs for the Alexandria Sanitation Authority treatment plant upgrade for ammonia removal as required by the State Water Control Board.

All debt service payments are supported by Sewer System Revenues through a transfer from Fund 400, Sewer Revenue. Pursuant to the Sewer Bond resolution and respective agreements, these debt obligations are subordinate to the County's Sewer Revenue Bonds and therefore, the payments are made from this fund.

Funding in the amount of \$23,051,559 will provide for the FY 2009 principal and interest requirements, including an amount of \$36,203 for the Manassas Park debt payment, \$16,378,284 for the UOSA plant requirements, and \$6,637,072 for the VRA debt requirements.

The following table identifies the payments required in FY 2009.

|                             | Principal   | Interest     | Total        |
|-----------------------------|-------------|--------------|--------------|
| MANASSAS PARK DEBT PAYMENT: | \$32,835    | \$3,368      | \$36,203     |
| UOSA PLANT EXPANSION:       |             |              |              |
| 1995A                       | \$0         | \$1,568,697  | \$1,568,697  |

<sup>&</sup>lt;sup>1</sup> The bond principal and interest payments are shown here as expenditures. However, for accounting purposes, the Comprehensive Annual Financial Report will show these disbursements as "Construction in Progress" to be capitalized.

<sup>&</sup>lt;sup>2</sup> The Wastewater Management Program maintains fund balances at adequate levels relative to projected debt service requirements. These costs change annually and therefore, fund balances fluctuate from year to year based on actual debt service requirements.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 408, Sewer Bond Construction, provides for major sewer system construction projects including upgrades and expansions of sewer treatment plants utilized by Fairfax County residents that are funded from the sale of sewer revenue bonds, other shorter-term financing, and/or sewer system revenues. Funding has been provided in recent years in Fund 408, Sewer Bond Construction to begin to meet new state regulatory requirements for nitrogen removal and plant upgrades at the District of Columbia Water and Sewer Authority (DCWASA), the Alexandria Sanitation Authority (ASA), the Arlington County Treatment Plant, the Loudon County Sanitation Authority (LCSA) treatment plant; and the Noman M. Cole Jr. Pollution Control Plant.

The new Chesapeake Bay water quality program requires reductions in the amount of nutrient pollutants. In December 2004, the state notified the County that the renewal of County's National Pollutant Discharge Elimination System (NPDES) permit will include a requirement that nutrient removal be performed at the "Limits Technology." Current technology allows for discharge limits of less than 3.0 milligrams per liter for nitrogen and 0.1 milligrams per liter for phosphorus. The County has the capability to meet voluntary nitrogen removal standard of 8.0 milligrams per liter. A phased approach is recommended to renovate and upgrade current plant facilities to accommodate new more stringent nutrient discharge requirements.

A Sewer Revenue Bond sale in the amount of \$150 million was planned to support the Chesapeake Bay water quality program requirements for the operations of the Wastewater Management Program. This included bond proceeds of \$140,294,000 in this fund and \$9,706,000 reserved in Fund 406, Sewer Bond Debt Reserve for legal requirements. As outlined in the 1986 Bond Resolution, this reserve is required to be the lesser of the maximum principal and interest requirements for any bond year or 125 percent of the average annual principal and interest requirements for the bonds. Instead, shorter-term financing options will be pursued in FY 2008 and FY 2009 once projects are ready to begin in order to maximize flexibility. The necessary adjustments will be made to Fund 408, Sewer Bond Construction at an upcoming quarterly review when more definitive project schedules and financing options have been determined. In addition, interest is earned on the fund balance in this fund, and an amount of \$1,000,000 is anticipated in interest earnings in FY 2009.

### **Changes to <u>FY 2008 Adopted Budget Plan</u>**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$67,935,338 due to the carryover of unexpended project balances.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for each project funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, source of funding, and completion schedules.

#### **FUND STATEMENT**

|                                    |                   |                                   |                                   |                                      |                                   |
| <b>Ending Balance</b> <sup>2</sup> | \$15,326,144      | \$86,607,719                      | \$88,434,806                      | \$15,434,806                         | \$15,434,806                      |

<sup>&</sup>lt;sup>1</sup> An amount of \$150 million in revenue bonds was anticipated to be issued in FY 2007 to support capital program requirements for the operations of the Wastewater Management Program including \$140.3 million in this fund and \$9.7 million to be reserved in Fund 406, Sewer Bond Debt Reserve for legal requirements. However, based on the timing of revised project schedules, the planned 2007 Sewer Revenue Bond Sale did not occur and funding was not required in FY 2007. Therefore, projects in FY 2008 and FY 2009 will instead be funded using other shorter-term financing mechanisms. The necessary adjustments will be made to Fund 408, Sewer Bond Construction and Fund 406, Sewer Bond Debt Reserve at an upcoming quarterly review when more definitive project schedules and financing options have been determined.

<sup>&</sup>lt;sup>2</sup> The capital projects in this sewer fund are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### **FY 2009 Summary of Capital Projects**

**Description and Justification:** This project provides for the payment to District of Columbia Water and Sewer Authority (DCWASA) for Fairfax County's share of the project costs associated with upgrades to the Plant. The County pays for approximately 8.4 percent of the total costs for the design and construction of the upgrade for nitrification and sludge handling facilities. FY 2009 funding in the amount of \$10,000,000 is required to meet the County's obligation and is based on the projected construction schedule. Initial design expenditures were funded in Fund 402, Sewer Construction Improvements.

**Description and Justification:** This project provides for the expansion and improvement of the Arlington County Wastewater Treatment Plant for enhanced nitrogen removal. The Fairfax County Board of Supervisors renewed the service agreement with Arlington County in July 1994 for the purchase of permanent sewage treatment capacity allocation of three million gallons per day in the expanded and improved Arlington Wastewater Treatment Plant. FY 2009 funding in the amount of \$12,000,000 is required to meet the County's obligation and is based on the current construction schedule. Initial design expenditures were funded in Fund 402, Sewer Construction Improvements.

**Description and Justification:** This project provides for the upgrade to the Noman M. Cole, Jr. Pollution Control Plant. FY 2009 funding in the amount of \$15,000,000 funds the plant upgrades to meet nitrogen removal standards. Currently, the plant has the capabilities of meeting the current nitrogen removal target of 8.0 milligrams per liter. However, the State is requiring that the plant meet a standard of 3.0 milligrams per liter. In order to meet the 3.0 milligrams per liter limit, an upgrade of the plant's current nitrogen removal process will be required. Initial design expenditures were funded in Fund 402, Sewer Construction Improvements.

**Description and Justification:** This project provides for major repair, replacement, and renovation of facilities at the Noman M. Cole, Jr. Pollution Control Plant to maintain efficient operations and meet permit requirements. FY 2009 funding of \$12,000,000 supports the carbon replacement of the plant's filter systems, surge suppression of voltage, spikes, incinerator rehabilitation, treatment clarifiers and grit building rehabilitation, installation of backup generators, the final phase of sludge dewatering facility replacement and the stormwater management plan to control the plant's stormwater runoff. Initial design expenditures were funded in Fund 402, Sewer Construction Improvements.

### **Internal Service Funds**

### **Overview**

Internal Service Funds account for services provided by specific County agencies to other County agencies on a cost reimbursement basis. The services consist of insurance, central acquisition of commonly used supplies and equipment, vehicle fleet maintenance, communications, and data processing. Revenues of these funds consist primarily of charges to County agencies for these services. Specific funds included in this group are:

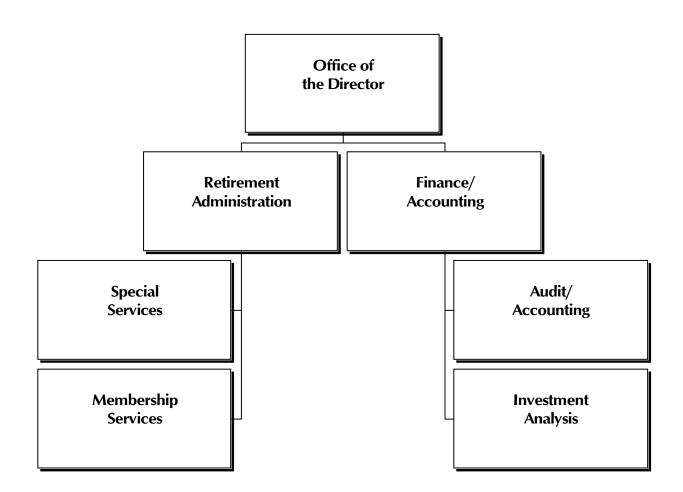

#### **FAIRFAX COUNTY INTERNAL SERVICE FUNDS**

- Fund 500, Retiree Health Benefits, provides for monthly subsidy payments, based on age and years of service at the time of retirement, to eligible retirees of the County to help pay for health insurance. Participants who become eligible to receive benefits are paid based on the period of eligibility within the fiscal year, which may or may not comprise a full year of payments.
- Fund 501, County Insurance Fund, is utilized to meet the County's casualty obligations, liability exposures, and worker's compensation requirements.
- Fund 503, Department of Vehicle Services, ensures that the County, School and Park Authority vehicle fleet is responsive to the transportation needs of all customer agencies and is operated in a safe and cost-effective manner.
- Fund 504, Document Services Division, supports the printing, copier, and micrographic services to County and School agencies.
- Fund 505, Technology Infrastructure Services, is managed by the Department of Information Technology and provides Data Center and Network Services to County agencies. Infrastructure costs associated with the operation and maintenance of the mainframe, data communications, PC replacements, and radio networks are billed to user agencies.
- ♦ Fund 506, Health Benefits Trust Fund, is the County's self-insurance fund which provides health insurance benefits to Fairfax County employees.

#### FAIRFAX COUNTY PUBLIC SCHOOLS INTERNAL SERVICE FUNDS

- Fund 590, Public School Insurance Fund, is an insurance fund that provides administration of workers' compensation accounts, centralization of self-insurance accounts for automobile and general liability, and commercial insurance for other liabilities.
- Fund 591, Public School Health and Flexible Benefits Fund, is the Fairfax County Public Schools self-insurance fund which provides health insurance benefits to its employees.
- ♦ Fund 592, Public School Central Procurement, facilitates accounting of orders for textbooks, supplies, and equipment for the Fairfax County Public Schools (FCPS).

### Fund 500 Retiree Health Benefits Fund

#### **Focus**

As part of the FY 2009 Advertised Budget Plan, all activity in Fund 500, Retiree Health Benefits, was transferred to Fund 603, OPEB Trust Fund. The County established Fund 603 in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEBs) including health care, life insurance and other non-pension benefits offered to retirees. This new standard addresses how local governments should account for and report their costs related to post-employment health care and other non-pension benefits, such as the County's retiree health benefit subsidy, which was previously paid from Fund 500 but will be paid from Fund 603 beginning in FY 2009. For more information on the retiree health benefit subsidy and GASB 45, please refer to the Fund 603, OPEB Trust Fund, narrative in the Trust Funds section of Volume 2.

### Fund 500 Retiree Health Benefits Fund

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ The Board of Supervisors made no adjustments to this fund since approval of the <u>FY 2008 Adopted Budget Plan.</u>

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> As part of the <u>FY 2009 Advertised Budget Plan</u>, all activity in Fund 500, Retiree Health Benefits, was transferred to Fund 603, OPEB Trust Fund in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEBs). For more information on the retiree health benefit subsidy and GASB 45, please refer to the Fund 603, OPEB Trust Fund, narrative in the Trust Funds section of Volume 2. It should be noted that any balances remaining in Fund 500 at the end of FY 2008 will be moved to Fund 603 as part of the *FY 2008 Carryover Review*.

<sup>&</sup>lt;sup>2</sup> The Ending Balance fluctuates based on the use of balance to fund retiree health subsidy payments and to offset General Fund requirements. This policy reflects the recognition that the General Fund should receive credit for any balances that are available at yearend.

Financial Control and Compliance Investing and Cash Flow Management Accounting and Financial Reporting

Payment of Countywide Obligations

Risk Management

#### Mission

To ensure the health and safety of County residents, employees and public officials, and to protect the County's financial assets. The agency is committed to providing the highest quality customer service in managing the County's risks and exposures.

#### **Focus**

Fairfax County has a statutory responsibility to provide Workers' Compensation benefits, including medical treatment and loss of wages due to related disability, to employees who sustain occupational injuries and illnesses. The County Insurance Fund was established to fulfill this obligation. The Fund also provides for Countywide commercial insurance and self-insurance. The County self-insures automobile and general liability claims. Special commercial coverage is provided for aviation insurance on County helicopters, real property coverage, and Fire and Rescue Department vehicle damage insurance. Administrative expenses of risk management programs are paid through this Fund.

Fairfax County provides a wide range of services to its employees and residents, which in turn create potential risks and exposures to the County. Some of these risks include injuries involving County employees or damage to County property; injuries to residents or damage to residents' property, automobile accidents; incidents arising from police activity; the actions of public officials; and the operation and maintenance of sewage and storm management systems.

The Risk Management Division approaches its mission from both internal and external perspectives. Recognizing that an organization the size of Fairfax County will experience losses, Risk Management staff work to mitigate losses and manage financial liabilities. This is accomplished through both self-insurance (which generally applies to losses expected to occur regularly, such as workers' compensation, automobile and general liability, and police professional and public officials liability) and commercial insurance (for losses which occur infrequently but tend to be large exposures, such as real property losses, aircraft liability, and damage to high-value vehicles). Recognizing the importance of prompt and fair resolution of claims against the County, claims administration utilizes both in-

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- Raising awareness of potential risk scenarios;
- o Exploring options for efficiencies in managing financial liabilities; and
- o Continuing to cultivate strong relationships with agencies.

house staff and a contract claims administrator. Finally, Risk Management staff focuses on building and utilizing partnerships with other County agencies, the community, and neighboring jurisdictions to mitigate risks and to ensure excellent communication with the residents of Fairfax County.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue to develop outreach programs to educate residents on County risk management initiatives. Focus on communication tools, such as a risk management brochure, on-site risk management education programs, and other training.   | lacksquare        | ð                     |
| Continue assembling a risk management critical incident response team for catastrophic, security and significant incidents, with staff trained in all areas and working closely with local, state and federal contacts. In FY 2009, expand the agency emergency support role for the County's critical infrastructure and the County's Emergency Operations Plan. | ¥                 | lacksquare            |
| Continue to implement the Automated External Defibrillator (AED) program. Install over 1,000 AED devices in County and School facilities. In FY 2009, AED Public Outreach will encourage development of private AED programs in commercial and not-for-profit sectors of the community.   | lacktriangle      | ð                     |
| Continue to expand the Commercial Driver's License Program in wider efforts to promote driver safety and accident reduction through employee training and risk awareness outreach.  | ð                 | Y                     |
| Corporate Stewardship   | Recent<br>Success | FY 2009<br>Initiative |
| Develop and continue to refine the online reporting process for automobile claims, reducing the timeframe to settle claims.   | ¥                 | Ø                     |
| Implemented an Incident and Injury Prevention Team to focus on expanding mitigation and loss prevention in County agencies, based on trending and modeling of loss data.  | V                 |                       |
| Developed the Risk Management web site to provide full access to Risk Management programs, training, policies, and procedures.  |                   |                       |
| Incorporate Geographic Information Systems (GIS) capabilities in risk management programs to enhance rapid response capabilities, insurance coverage and loss analysis.   |                   | ð                     |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$40.360

A net increase of \$40,360 in Personnel Services associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Personnel Services Reduction

(\$27,402)

A decrease of \$27,402 in Personnel Services as part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a flattening residential real estate market.

#### ♦ General Insurance Costs

\$548,000

A net increase of \$548,000 in Operating Expenses is primarily due to an increase in costs associated with workers' compensation and other self-insurance coverage.

#### **♦** Carryover Adjustments

(\$137,391)

A decrease of \$137,391 is due to the one time carryover of encumbered items related to the County Public Access Automated External Defibrillator (AED) Program.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$14,155

An increase of \$14,155 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### Reduction in Limited-Term Funding

(\$7,260)

A decrease of \$7,260 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$137,391

A total increase of \$137,391 for encumbered carryover in support of the County Public Access Automated External Defibrillator (AED) Program.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$3,491,160

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a net increase of \$3,491,160 including an increase of \$3,504,516 in support of increased costs in Workers' Compensation due primarily to multiple serious cancer and cardiac cases and in other self insurance areas due to significant losses for various automobile liability incidents, sewer back-ups, and fire damage at County owned facilities partially offset by a decrease of \$13,356 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

### **Key Performance Measures**

#### Goal

To identify and limit potential financial losses to the County arising in the normal course of business or as a result of accidents, acts of nature, and any action for which the County can be held liable; to provide prompt and efficient resolution of claims resulting from such losses; and to manage financial resources and commercial insurance options to limit the impact of losses on current operations.

#### **Objectives**

◆ To process 98 percent of all claims within 30 business days from date of incident.

- ♦ To reduce the overall rate of preventable automobile accidents from 0.75 to 0.60 per 100,000 miles driven through an aggressive program of driver education.
- ♦ To maintain the ratio of premium paid to the value of assets covered at 0.185 percent or less in order to maximize the value of County assets insured in relation to the total premium dollars expended.

(1) In FY 2007, the Risk Management Division took over the Commercial Drivers Program and implemented enhancements which increased both the number of persons trained and the overall cost of the program. This has resulted in a rise in efficiency costs which Risk Management anticipates will gradually lower as the number of drivers trained continues to increase.

#### **Performance Measurement Results**

Preventable vehicle accidents, a significant cost to the County in terms of personal injury, lost productivity and repair and liability expense, are projected to decrease substantially by FY 2009, as a result of expanded training and driver improvement programs. Measured by the number of preventable accidents, these programs already have contributed to a drop in accident rates from 1.00 per 100,000 miles driven in FY 2005 to 0.75 per 100,000 miles driven in FY 2007.

Workers' Compensation costs are the single greatest challenge to the Insurance Fund. A key factor in containing costs and expediting the return to work of injured employees is prompt and adequate medical evaluation. Awareness of the County's programs in this area, coupled with efficient reporting systems, serve both employee and County interests. The Risk Management Division systems have assured achievement of the seven day average reporting goal. With 97 percent to 98 percent of all claims being reported within 30 days, the program is achieving its ambitious goals.

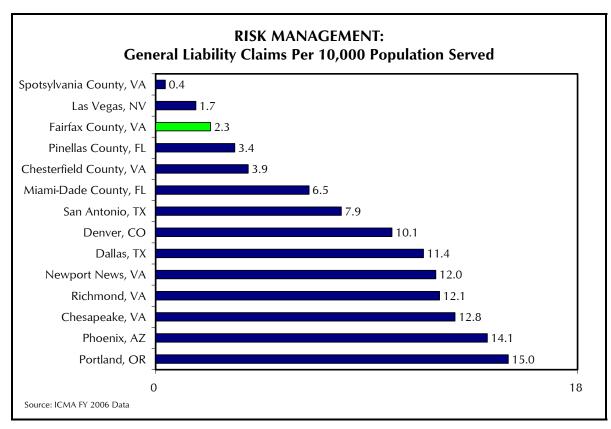

### **Benchmarking**

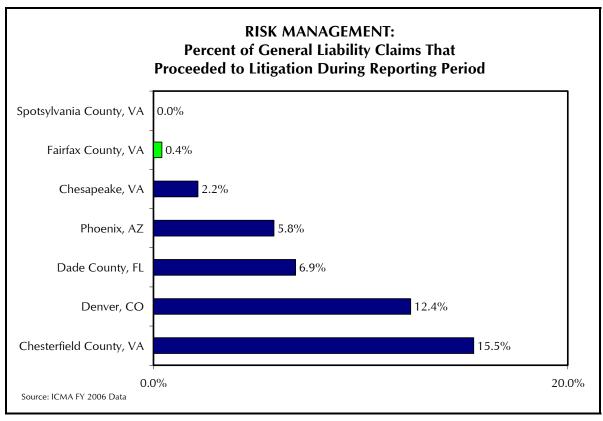

As a means of enhancing accountability, benchmarking data have been included in the annual budget since FY 2005. These data are included in each of the Program Area Summaries in Volume 1 and now in Other Funds (Volume 2) as available. The majority of this benchmarking data come from the International City/County Management Association's (ICMA) benchmarking effort in which Fairfax County has participated since 2000. Approximately 220 cities, counties and towns provide comparable data annually in 15 service areas. However, not all jurisdictions provide data for every service area.

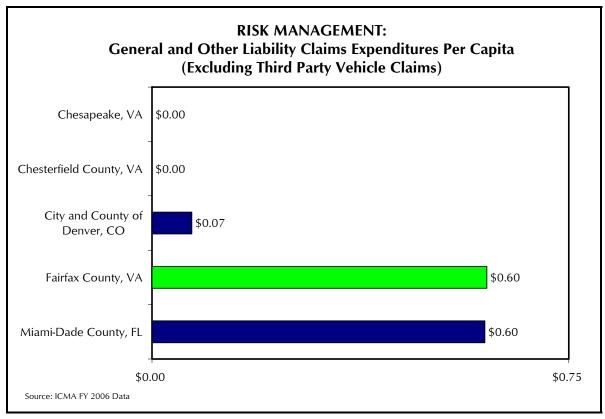

As part of the ICMA benchmarking effort, participating local governments (cities, counties and towns) provide data on standard templates provided by ICMA in order to ensure consistency. ICMA then performs extensive checking and data cleaning to ensure the greatest possible accuracy and comparability of data. As a result of the time required to collect the data and undergo ICMA's comprehensive data cleaning processes, information is always available with a one-year delay. FY 2006 data represent the latest available information. The jurisdictions presented in the graphs on the following pages generally show how Fairfax County compares to other large jurisdictions (population over 500,000). In cases where other Virginia localities provided data, they are shown as well.

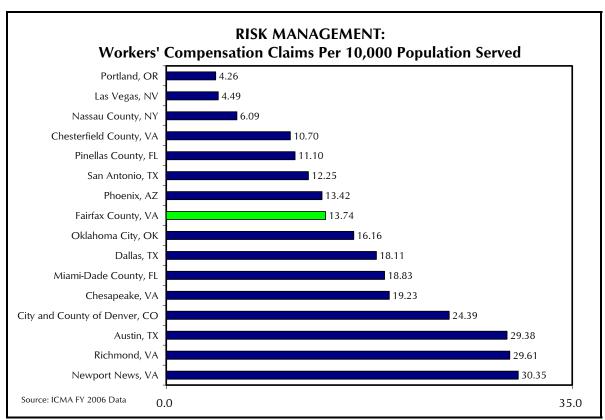

Risk Management is one of the service areas for which Fairfax County provides data. As can be seen on the following pages, Fairfax County compares favorably to the other large jurisdictions that provided data for this template. The County's General Liability claims, expenditures and percent that proceeded to litigation during the reporting period are all relatively low compared to the other responding cities and counties.

An important point to note about the ICMA comparative data effort is that since participation is voluntary, the jurisdictions that provide data have demonstrated that they are committed to becoming/remaining high performance organizations. Therefore, comparisons made through this program should be considered in the context that the participants have self-selected and are inclined to be among the higher performers than a random sample among local governments nationwide. It is also important to note that not all jurisdictions respond to all questions. In some cases, the question or process is not applicable to a particular locality or data are not available. For those reasons, the universe of jurisdictions with which Fairfax County is compared is not always the same for each benchmark.

<sup>&</sup>lt;sup>1</sup> FY 2007 actuals reflect accrued liability adjustments of \$2,093,634 based on an annual independent actuarial valuation. This adjustment results in a corresponding adjustment to the FY 2007 total Disbursements, total Accrued Liability Ending Balance, and Reserve for Catastrophic Occurrences, but it does not affect the cash balance or the Ending Balance, which is calculated using Total Available less Total Expenditures, not Disbursements. It should be noted that the FY 2007 CAFR reflects an adjustment of \$1,519,074 and that in addition to this the fund statement reflects an additional \$574,560 to accurately reflect changes to the Reserve for Catastrophic Occurrences subsequent to the FY 2006 Carryover Review.

#### Mission

To establish efficient and effective delivery of fleet services by providing customer agencies with safe, reliable, economical, and environmentally-sound transportation and related support services which are responsive to the needs of customer departments, and which conserve the value of the vehicle and equipment investment.

#### **Focus**

The Department of Vehicle Services (DVS) provides management and maintenance services to the County's vehicle fleet and maintenance support to the Fairfax County Public Schools (FCPS). At the end of 2007, there was a combined County and School fleet of approximately 5,790 units. Of these units, approximately 2,260

units belong to FCPS. The remaining 3,530 County consist of approximately 1,450 units with specialized equipment (i.e., dump trucks, wreckers) or a police package, 720 vehicles over one half ton in capacity, 730 "light fleet" vehicles supporting programs and services, and 630 motorized units (trailers, mowers, snow plow blades). Not included in the County fleet count are vehicles owned by the Fairfax County Water Authority, FASTRAN programs, **FAIRFAX** CONNECTOR buses.

The department has four maintenance facilities. The Jermantown and West Ox facilities are located on the western side of the County, and the Newington and Alban facilities are located on the south end of the County. These facilities provide timely, responsive and efficient vehicle repairs/services, including effective towing and road services at competitive prices. In order to increase efficiency, productivity, health, morale, and to accommodate future fleet growth at DVS maintenance facilities, the Facility Infrastructure/Renewal Reserve was created as part of the FY 2005 Carryover Review. This reserve continues to fund critical renewal projects such as: upgrading lighting at the Alban, Newington, and Jermantown facilities; expanding the Parts Window at the Newington Facility to allow more mechanics access to the parts room; installing a new Fluid Control Inventory (FCI) System at the West Ox and Jermantown facilities to increase efficiencies; and planned modifications to the Alban Facility to allow the use of three maintenance bays which now cannot be effectively used due to building design: expanding the parking lots at Alban and West Ox to accommodate more buses and the new larger transit style school buses; applying an epoxy floor coating at Jermantown to improve safety and to provide a cleaner environment; and adding a bay and office for the body shop at the Newington facility to improve efficiency and customer safety.

DVS manages the County's Vehicle Replacement Fund, which accumulates funding over a vehicle's life in order to pay for the replacement of that vehicle when it meets replacement criteria. The current replacement criteria include the age, mileage, and condition of the vehicle. This fund is intended primarily for General Fund agencies. As of July 2007, 31 agencies participate in the fund, which includes approximately 2,250 units. Additionally, DVS manages funds for Helicopter, Boat, and Police Specialty Vehicle Replacement for the Police Department; an Ambulance and a Large Apparatus Replacement Fund for the Fire and Rescue Department; and a FASTRAN Bus Replacement Fund for the Department of Community and Recreation Services. These funds allow the Police Department, Fire and Rescue Department, and Department of Community and Recreation Services to make fixed annual payments to ensure the availability of future funds for a regular replacement program.

DVS manages the County's fuel program, including maintenance of the County's 49 fuel sites. These sites are primarily located at police stations, fire stations, schools, DVS maintenance facilities and Public Works facilities. During FY 2007, DVS removed and replaced fuel tanks at Marshall High School and Herndon Intermediate School. DVS upgraded its Fuelforce software in FY 2006, allowing easier

#### THINKING STRATEGICALLY

Strategic issues to be addressed by the Department include:

- Providing high quality vehicle maintenance/repair and fleet management services at a competitive price;
- o Ensuring the workforce is properly trained to maintain vehicles with new technology and fuel sources;
- o Practicing environmental stewardship through various methods such as using alternative fuels, purchasing lower emission vehicles, and pursuing retrofit and fuel treatment technologies to reduce emissions from the current fleet; and
- o Establishing inventory management data and analysis procedures that ensure needed parts are available when required.

access to and downloading of data regarding fuel issues to vehicles. DVS also installed this software at three additional County fuel sites, bringing the total number automated sites to 37 of 49 total sites. In addition, in FY 2007, DVS installed automated software, and obtained maintenance of the largest two fuel sites owned by the Park Authority. DVS tightened controls over fuel charges to ensure agencies charge fuel directly to their agency vehicle codes and minimize the use of miscellaneous fuel codes. In FY 2006, DVS provided customer agencies with the Voyager Fleet Card to procure fuel outside County boundaries. This card is accepted by most major and regional companies in all 50 states, and offers the benefit of downloadable transaction data.

Other services provided by DVS include: emergency roadside repair; oversight and records maintenance, including security administration for the County's Fleet Maintenance System; analysis of current fleet mileage and usage; evaluation of new technologies; operation of the County's motor pool; technical support/review of specifications; and initiating purchase requests for approved County vehicles and related equipment.

In FY 2006, DVS began an aggressive approach to notify agencies when their vehicles were past due for preventive maintenance, emissions, or state inspections. Information on "past dues" is now being sent to department directors and vehicle coordinators on a monthly basis. This approach has resulted in increased compliance with mandated inspections. DVS also continues to explore and expand system capabilities within the Fleet Maintenance System (M4). In FY 2006, DVS installed a parts warranty module into the system, which when fully implemented will allow DVS to easily track parts covered under manufacturer's warranty, increasing warranty claims to vendors and achieving cost savings to customer agencies. In FY 2008, DVS will work closely with customer agencies to customize reports for their use. In FY 2008 and FY 2009, DVS will continue to work on developing a M4-web-based training system on the County's Infoweb for use by DVS employees and customer agencies.

In FY 2005, DVS and the Department of Management and Budget finalized a procedural memorandum for a fleet utilization policy with the goal of balancing the investment in the fleet while ensuring that departments and agencies have the fleet means to support their missions. This policy established a Fleet Utilization Management Committee (FUMC) with the responsibility to routinely review the vehicle and equipment fleet to ensure that fleet use and practices are in compliance with the procedural memorandum. In FY 2009, the

FUMC will continue its annual review of the County fleet to ensure that fleet levels currently in place within each agency are appropriate to actual program and service requirements. It should be noted that a total of 178 vehicles have been rotated, reassigned, or sold as part of previous reviews. The FUMC also routinely reviews agency requests for fleet additions to ensure a legitimate need for fleet growth. Beginning in FY 2007, the FUMC began applying a break-even model to judge if the use of County vehicles, as opposed to leased vehicles or mileage reimbursement to individual employees using their own vehicles, is cost effective for various categories of "light fleet" vehicles supporting programs and services.

DVS continues to strive for economically responsible environmental stewardship by working increased fuel mileage capabilities and reduced emissions characteristics into vehicle specifications. DVS has established a solid base of hybrid cars in the fleet, including one of the few "plug-in" hybrids in the eastern US. In anticipation of the possible adoption of ethanol as a motor fuel, DVS continues to add "flex-fuel" vehicles that can use either E85 or gasoline or any combination. The agency's efforts now include incorporating hybrid technology into new light, medium, and heavy duty trucks. Cooperative hybrid development efforts across the industry are coming to fruition as major truck manufacturers begin to announce the offering of commercialized hybrid power trains in certain medium duty truck chassis applications. Where practical, DVS is rewriting county truck specifications to include options for hybrid power trains.

DVS is now focusing efforts on County subfleets that operate high-use vehicles associated with high fuel consumption, such as FASTRAN and DPWES Solid Waste operations. DVS and DPWES Solid Waste are cooperating in a project to identify one subfleet with high fuel usage and to develop procedures and techniques to improve fuel economy. The selected subfleet is the solid waste transfer tractors and trailers. DVS actively searches for ways to take advantage of new technologies and to manage County resources soundly.

The Washington Metropolitan area continues to be designated by the Environmental Protection Agency (EPA) as in non-attainment of the National Ambient Air Quality Standards for ground-level ozone and particulate matter. As part of the County's numerous environmental efforts, DVS is continuing to retrofit the County and FCPS diesel fleets with diesel oxidation catalysts (DOCs). The DOCs reduce the emissions of particulate matter, hydrocarbons (an ozone precursor) and carbon monoxide. In bid evaluations, DVS favors the cleanest diesel engines. DVS converted one hybrid drive Prius to a plug-in configuration, increasing current fuel economy. DVS also is seeking grant funding to complete the purchase of a hybrid electric school bus as part of a national buyers' consortium. DVS will continue to explore other grant opportunities as they become available.

### New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Practicing Environmental Stewardship   |   | FY 2009<br>Initiative |
|--|---|-----------------------|
| Continue to expand the hybrid fleet as older vehicles are replaced, as well as explore the use of other fuel-efficient vehicles in order to promote cleaner air.   | Y | Ø                     |
| Converted one hybrid drive Prius to a plug-in configuration, increasing current fuel economy. Continue to work with industry partners to promote development and commercialization of hybrid drive systems for light and medium duty trucks. | ð | A                     |
| The four DVS facilities and Administrative Offices were awarded 3 year certificates for successfully renewing participation in the Virginia Environmental Excellence Program (VEEP) at the Environmental Enterprise (E-2) level.             | ¥ |                       |

| Practicing Environmental Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue to implement a plan to reduce vehicle emissions in the County by retrofitting the County and FCPS Diesel Fleets with diesel oxidation catalysts (DOCs). The DOCs will reduce the emissions of particulate matter, hydrocarbons (an ozone precursor) and carbon monoxide.   | Ø                 | ¥                     |
| Develop storm water pollution prevention plans and obtain DEQ storm water permits for DVS facilities.   |                   |                       |
| The Newington Facility achieved certification in the Northern Virginia Auto Body Shop Self-Certification Program of the Virginia Department of Environmental Quality. The West Ox Facility is currently completing actions to reach the certification level.  | ď                 | ¥                     |
| <b>Exercising Corporate Stewardship</b>   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to implement and enhance training on the County's fleet maintenance system, for use by DVS employees and customer agencies.  |                   | <b>▼</b>              |
| Continue to explore and expand system capabilities within the fleet maintenance system, including implementing the recently installed parts warranty module. Improved scheduled maintenance capabilities and vehicle replacement modeling are planned for the future.   | ð                 | ¥                     |
| Continuing the refinement of the fleet utilization policy, in coordination with the Department of Management and Budget and the Office of the County Executive, to balance investment in the fleet while ensuring departments and agencies have the fleet means to support their missions. This policy established a Fleet Utilization Management Committee, which in four separate reviews of the County fleet recommended that 178 vehicles be rotated, reassigned, or sold, resulting in significant savings to the County. Additional annual reviews of the fleet will continue. Beginning in FY 2007, the FUMC applied a breakeven model to judge if the use of County vehicles, as opposed to leased vehicles or mileage reimbursement to individual employees using their own vehicles, is cost effective for various categories of "light fleet" vehicles supporting programs and services. | ð                 | ¥                     |
| Continue to work with customer agencies to develop some customer-unique M4 reports that generate needed information that enables our customers to better manage their fleets.   | ₹                 | $ \mathbf{Z}$         |
| Continue to identify and implement means to improve on-time completion of preventive maintenance and of emissions and state inspections, helping to conserve the value of the County's investment in equipment and vehicles.  | <b>S</b>          | $ \mathbf{V}$         |
| Proposed major modifications to the Alban Facility thus improving the efficiency of vehicle maintenance, and an expansion of the existing parking lot will provide parking to accommodate the increased capability to maintain additional vehicles at the facility.   |                   |                       |

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$582,655

An increase of \$582,655 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Personnel Services Reduction

(\$391,388)

A decrease of \$391,388 in Personnel Services as part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a flattening residential real estate market.

#### **♦** Fuel-Related Expenditures

\$6,982,279

An increase of \$6,982,279 in fuel-related operating costs is due to the unusual price pattern seen in the fall of 2007, especially as it pertains to diesel fuel. All historical trends and other data shows that fuel prices generally begin a slow downward trend after peaking in late summer. The exact opposite has occurred in the fall of 2007. This funding level will support an average agency per gallon price of \$3.32, a 78-cent (or just over 30 percent) increase over the FY 2008 Adopted Budget Plan level and also allows room for moderate growth in overall number of gallons consumed.

#### **♦** Other Operating Adjustments

(\$911,058)

A decrease of \$911,058 is due primarily to the carryover of funds earmarked for the retrofitting of diesel vehicles to meet more stringent air quality requirements and for one-time encumbrances. This decrease is partially offset by small increases for parts and other shop supplies.

#### **♦** Capital Equipment

\$13,184,003

Capital Equipment funding of \$13,184,003 includes the following: \$7,411,808 for the purchase of 310 replacement vehicles that have met established age and mileage criteria; \$3,009,800 is for the purchase of a replacement Helicopter out of the Helicopter Replacement Fund; \$1,850,000 is for the purchase of 5 vehicles out of the Large Apparatus Fund, \$616,698 is for the purchase of 11 buses out of the FASTRAN Replacement Fund; \$250,000 is for the purchase of a boat out of the Boat Replacement Fund. The remaining \$45,697 is for additional capital equipment including a Heavy Duty Storage Racking System, a Hydraulic Shop Press, a Hot Water Pressure Washer, and an Alignment Machine Modification Unit.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$206,171

An increase of \$206,171 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

♦ Fuel Costs \$8,121,568

An increase of \$8,121,568 for fuel-operating costs is due to higher than anticipated costs for unleaded and diesel fuels. In the period from February 2008 to April 2008, unleaded fuel prices have risen nearly 18 percent, while diesel fuel has increased approximately 33 percent during the same period, thus requiring an adjustment in FY 2009 as a result. This funding level will support an average agency per gallon price of \$4.12, an increase of \$1.58, or 62 percent, over the FY 2008 Adopted Budget Plan level.

#### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$13,511,453

An increase of \$13,511,453 due in part to the carryover of \$10,509,223 for encumbered items, including vehicles, fire apparatus and FASTRAN buses. In addition, an amount of \$3,002,230 is for unencumbered carryover to complete infrastructure renewal projects for DVS maintenance facilities, to continue the retrofitting of diesel vehicles to meet more stringent air quality requirements.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

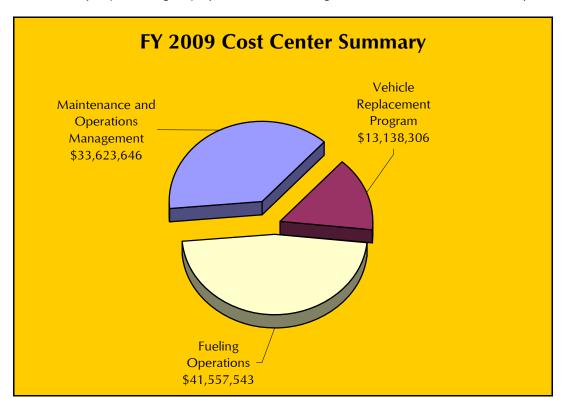

#### **♦** Third Quarter Adjustments

\$2,388,861

As part of the FY 2008 Third Quarter Review, an increase of \$2,388,861 for fuel costs is due to higher than anticipated costs for unleaded and diesel fuels primarily during the period from February 2008 forward. From February through April 2008, unleaded fuel prices rose nearly 18 percent and diesel fuel prices increased approximately 33 percent, thus requiring an adjustment to FY 2008 funding totals.

#### **Cost Centers**

The Department of Vehicle Services provides services in support of the County's fleet under three distinct cost centers: Maintenance and Operations Management, Vehicle Replacement Program, and Fueling Operations. The majority of the agency's positions and funding is centered in maintenance and operations.

### Maintenance and Operations Management (\$\frac{1}{2}\)

### **Key Performance Measures**

#### Goal

To provide timely, responsive, and efficient vehicle repairs/services, including effective towing and road services, at competitive prices for County-owned vehicles.

#### **Objectives**

◆ To maintain a vehicle availability rate of at least 98 percent on 100 percent of operating days.

|   |                   | Prior Year Actu   | ıals                       | Current<br>Estimate | Future<br>Estimate |

<sup>(1) &</sup>quot;Units maintained" in any given year may include vehicles authorized as additions in a previous year, but not received until the indicated year.

#### **Performance Measurement Results**

In FY 2007, DVS was able to ensure, on a countywide basis, that customer agency vehicles were available for use 97.8 percent of the time and were in safe operational condition. A total of 5,676 County and School units (motorized and non-motorized) were maintained, a number slightly lower than the estimate resulting from some vehicles being turned in due to low utilization. The FY 2007 and FY 2008 increases in maintained units and in vehicle equivalents maintained is primarily due to an increase in school buses and police cruisers.

DVS kept the FY 2007 maintenance cost per vehicle equivalent below the rate estimated. Due to an aggressive inventory management campaign, the parts inventory value per vehicle was down while the inventory turnover increased. The inventory fill rate and inventory accuracy were down slightly less than estimated for FY 2007; and both areas will receive more agency focus in FY 2009. FY 2007 customer satisfaction was highly rated at 95 percent.

### **Key Performance Measures**

#### Goal

To provide administrative and financial oversight for the Vehicle Replacement, Large Apparatus, Ambulance, Vehicle Specialty, FASTRAN, and other replacement funds and to ensure that vehicles are replaced within the established criteria (i.e., miles, years and condition).

#### **Objectives**

♦ To order 100 percent of vehicles that meet replacement criteria within the fiscal year.

#### **Performance Measurement Results**

The number of vehicles in the Vehicle Replacement Reserve (VRR) continued to grow in FY 2008, particularly due to the addition of vehicles that were not previously in the fund, but were in classes and agencies eligible to participate. The total number of vehicles in the fund increased from 2,248 to 2,255 in FY 2007, a number which will increase slightly in FY 2008 and FY 2009 with new vehicle additions. DVS replaced 100 percent of FY 2007 VRR vehicles that met the established criteria. The VRR administrative cost per vehicle decreased from \$26.28 in FY 2006 to \$25.95 in FY 2007 partly due to the increased number of replacement fund vehicles and partly due to lower overhead. Customer satisfaction was highly rated in FY 2007 at 95 percent.

### **Key Performance Measures**

#### Goal

To provide County-owned vehicle operators with effective and efficient fueling services in accordance with all federal, state, and County regulations.

#### **Objectives**

♦ To provide in-house fueling services that support fleet operations in order to achieve a cost savings of 5.0 cents per gallon for unleaded gasoline and 15.0 cents per gallon for diesel fuel compared to commercial fuel stations.

<sup>(1)</sup> Includes appropriate mark-up to cover overhead.

#### **Performance Measurement Results**

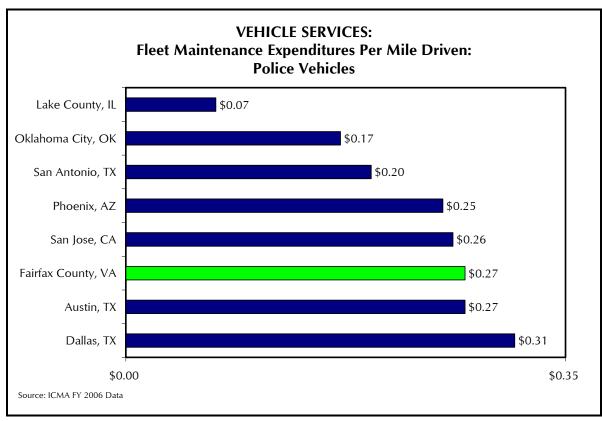

The Fueling Operations measures examine the cost savings between County contracts and private providers, as well as how satisfied County vehicle drivers are with fueling operations. Given the amount of fuel gallons used by the County, the savings are significant, while customer satisfaction ratings remain high at 95 percent. FY 2007 was a difficult year for fuel prices. Similar to the private market, the average fuel cost per gallon for County customers decreased, from \$2.21 in FY 2006 to \$2.18 in FY 2007. However, County customers purchasing unleaded gasoline saved \$0.075 per gallon and diesel fuel purchasers saved \$0.242 per gallon compared to commercial prices.

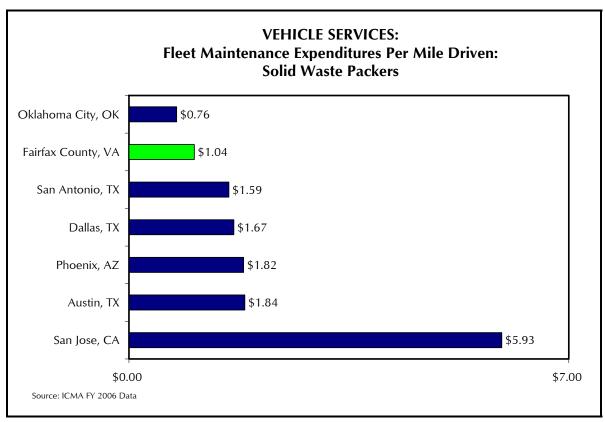

#### **Benchmarking**

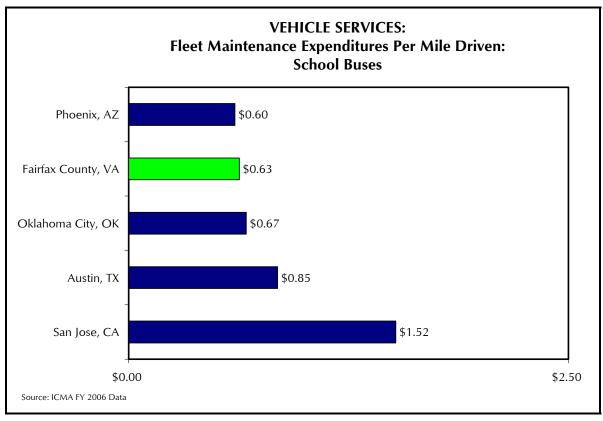

As a means of enhancing accountability, benchmarking data have been included in the annual budget since FY 2005. These data are included in each of the Program Area Summaries in Volume 1 and now in Other Funds (Volume 2) as available. The majority of this benchmarking data come from the International City/County Management Association's (ICMA) benchmarking effort in which Fairfax County has participated since 2000. Approximately 220 cities, counties and towns provide comparable data annually in 15 service areas. However, not all jurisdictions provide data for every service area. An example of which is the Roads/Highways template that Fairfax County does not complete since the Commonwealth has primary responsibility for roadways in Virginia counties.

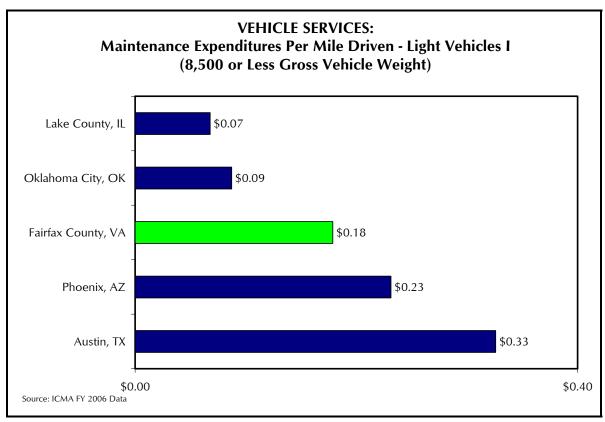

As part of the ICMA benchmarking effort, participating local governments (cities, counties and towns) provide data on standard templates provided by ICMA in order to ensure consistency. ICMA then performs extensive checking and data cleaning to ensure the greatest accuracy and comparability of data. As a result of the time to collect the data and undergo ICMA's rigorous data cleaning processes, information is always available with a one-year delay. FY 2006 data represent the latest available information. The jurisdictions presented in the graphs on the following pages generally show how Fairfax County compares to other large jurisdictions (population over 500,000). In cases where other Virginia localities provided data, they are shown as well.

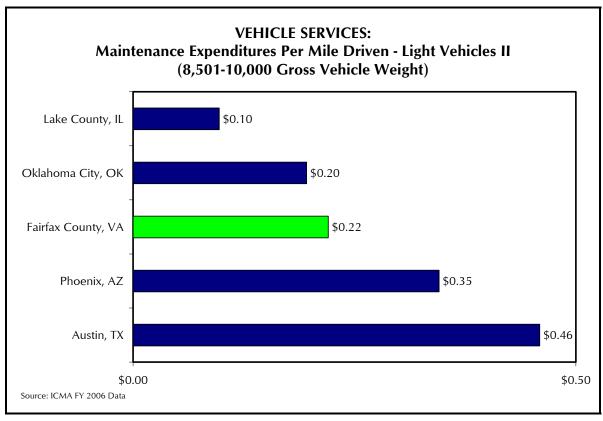

Fleet Management is one of the service areas for which Fairfax County provides data. An important point to note about the ICMA comparative data effort is that since participation is voluntary, the jurisdictions that provide data have demonstrated that they are committed to becoming/remaining high performance organizations. Therefore, comparisons made through this program should be considered in the context that the participants have self-selected and are inclined to be among the higher performers than a random sample among local governments nationwide. It is also important to note that not all jurisdictions respond to all questions. In some cases, the question or process is not applicable to a particular locality or data are not available. For those reasons, the universe of jurisdictions with which Fairfax County is compared is not always the same for each benchmark.

<sup>&</sup>lt;sup>1</sup> As part of the <u>FY 2008 Adopted Budget Plan</u>, an amount of \$2,189,150, previously reflected in the Vehicle Replacement Reserve at the end of FY 2007 was directed to Facility Infrastructure/Renewal Reserve.

<sup>&</sup>lt;sup>2</sup> The Ending Balance in Fund 503, Department of Vehicle Services, fluctuates based on vehicle replacement requirements in a given year. Except in rare cases, vehicles are not replaced until they have met both established age and mileage criteria. In years where more vehicles meet their criteria and are replaced, the ending balance will be lower (and vice versa).

The Department of Cable Communications and Consumer Protection (DCCCP) is the umbrella agency for four distinct functions: Consumer Services; Communications Policy and Regulation; Communications Productions; and Print, Mail and Administrative Services. The total agency staff is dispersed over three funding sources. In FY 2007, the department reorganized the Consumer Protection Division into three separate branches, Consumer Affairs; Regulation and Licensing; and Public Utilities, in an effort to raise the functions of consumer protection to a higher visibility within the County Structure. To better reflect the range of services provided by the three branches, the Consumer Protection Division was renamed Consumer Services. Consumer Services, which mediates complaints, educates consumers, regulates taxicabs, issues licenses and provides utility rate case intervention, is presented within the Public Safety Program Area (Volume 1) and is fully supported by the General Fund. The Cable Communications function, which includes the Communications Policy and Regulation Division and the Communications Productions Division, is responsible for communications regulation and for television programming, and is presented in Fund 105 (Volume 2). Fund 105 is supported principally by revenue received from local cable operators through franchise agreements. The Print, Mail and Administrative Services Division administers countywide printing and duplicating services, mail services and publication sales, and accounting and finance services. Mail Services and Publication Sales along with Accounting and Finance are programs presented in the Legislative-Executive Functions/Central Services Program Area in (Volume 1) and is fully supported by the General Fund. Printing and Duplicating Services, presented in Fund 504 (Volume 2), is funded by revenues received from County agencies and the Fairfax County Public Schools (FCPS). The Department of Information Technology is responsible for management of the Multi-Functional Digital Device/Copier Program and the fiber Institutional Network (I-Net). While the functions of the Department of Cable Communications and Consumer Protection

provide diverse services, they all provide quality customer service to the community and work collaboratively with County agencies, neighboring jurisdictions and professional organizations.

#### Mission

To provide and coordinate high speed production printing services to County agencies as well as to the Fairfax County Public School System.

#### **Focus**

The Department of Cable Communications and Consumer Protection's Print Shop is responsible for providing high speed digital black and white and color printing, offset printing and bindery services. In FY 2007, Printing and Duplicating Services replaced the digital high speed black and white and color printers. A wide format printer was also added to the printing fleet and is capable of printing posters and banners. Printing and Duplicating Services produced over 25.2 million digital black and white impressions, over 2.2 million digital color impressions and

5,302 billable hours in offset printing. satisfaction rating for all printing jobs. and School staff with their printing methods, document layout and bindery options. All direct labor and material costs associated with these services, as well as an equipment replacement reserve fee, are recovered from customer agencies.

The Department of Information Technology is responsible managing the County's Multi-Functional Digital Device (MFDD) Program which provides copier service to all County agencies. The County replaced its copier inventory in recent years with new state-of-theart digital multi-functional devices (DMFD) through an operating lease. These devices are capable copying, printing, faxing and scanning (to email or scan to a desk-top). The replacement and upgrade included new job-based accounting tracking software.

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Improving our competitive advantage, based on cost and service quality, compared to alternative document service providers in the market; and
- o Utilizing new technologies to improve and enhance printing and copying services.

5,302 billable hours in offset printing. The Print Shop recovered all expenses while maintaining a 90 percent satisfaction rating for all printing jobs. The Print Shop also conducts printing consultations to assist County and School staff with their printing requirements and provides recommendations on available printing

Print Shop staff annually produces over 25.2 million digital black and white impressions and over 2.2 million digital color impressions.

### New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Exercising Corporate Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Installed a wide format color printer to allow for large-scale printing of posters, signs and banners.  |                   |                       |
| Developed marketing plan to educate customers on printing services.   |                   |                       |
| Developed and implemented a method to receive continual customer service feedback on printing services.   |                   |                       |
| Continue to improve efficiency and customer service by shifting to automated printing equipment.  |                   |                       |
| Continue to expand enterprise printing networking through the expanded use of digital multi-function copiers. This system includes a new job-based accounting and tracking system which provides greater control over program management. | ₫                 |                       |
| Purchase and install digital pre-press equipment to allow for larger and more complex print runs to be produced in-house.   |                   | V                     |

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$46,197

An increase of \$46,197 for salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Print Shop Operating Adjustments

\$1,000,000

An increase of \$1,000,000 in Operating Expenses based on a trend of higher spending in recent years due to the printing requirements of County agencies and the Fairfax County Public Schools.

#### ♦ MFDD Program Operating Equipment

\$37,785

An increase of \$37,785 in Operating Expenses to support additional multi-function digital devices (MFDD) primarily associated with the opening of new facilities.

#### ♦ Capital Equipment

\$2.378.282

Funding of \$2,378,282 in Capital Equipment for capitalized lease payments associated with MFDD Program copier equipment.

#### **♦** Carryover Adjustments

(\$2,345,382)

A decrease of \$2,345,382 due to the carryover of one-time expenses as part of the *FY 2007 Carryover Review*, including \$2,117,366 in Operating Expenses and \$228,016 in Capital Equipment. Of this amount \$184,548 was included as encumbered carryover; \$1,021,999 as unencumbered carryover for the MFDD Program to cover ongoing requests from County agencies for additional devices due to increased program requirements, workload, and the opening of new facilities; \$138,835 for the appropriation of higher than anticipated revenue from the County's MFDD Program; as well as \$1,000,000 for the County's Print Shop due to a projected increase in the number of jobs requested by County agencies and FCPS.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$12,146

An increase of \$12,146 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$2,345,382

An increase of \$2,345,382 due to the carryover of one-time expenses as part of the *FY 2007 Carryover Review*, including \$2,117,366 in Operating Expenses and \$228,016 in Capital Equipment. Of this amount \$184,548 was included as encumbered carryover; \$1,021,999 as unencumbered carryover for the MFDD Program to cover ongoing requests from County agencies for additional devices due to increased program requirements, workload, and the opening of new facilities; \$138,835 for the appropriation of higher than anticipated revenue from the County's MFDD Program; as well as \$1,000,000 for the County's Print Shop due to a projected increase in the number of jobs requested by County agencies and FCPS.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustment

\$150,000

As part of FY 2008 Third Quarter Review, expenditures and revenues were increased \$150,000 to accommodate higher than expected printing volume from County agencies.

#### **Key Performance Measures**

#### Goal

To provide high speed production printing services to all County agencies and the Fairfax County Public Schools in order to fulfill their informational and educational objectives with printed material.

#### **Objectives**

- ♦ To provide quality printing and duplicating services in a cost-effective and timely manner by recovering 100 percent of offset and digital expenses.
- ♦ To provide an efficient cost per copy charge by managing the MultiFunctional Digital Device program, while maintaining customer satisfaction at 85 percent.

<sup>(1)</sup> This indicator measures performance of the Multi-Functional Digital Device Program which is a function of the Department of Information Technology.

#### **Performance Measurement Results**

In FY 2006, the Print Shop began to track offset printing performance by the number of hours billed, which is the benchmark used by the printing industry. Offset printing hours billed decreased by 19.2 percent in FY 2007. This is due primarily to a one-time decrease in available staff press hours which caused a corresponding increase in offset work being outsourced. In FY 2008 and FY 2009, it is projected that offset printing hours billed will return to near FY 2006 levels. Realignment of personnel services to better match current job assignments generated a decrease in the cost per offset hour billed and a corresponding increase in the cost per digital impression in FY 2007 as compared to FY 2006 actuals. Also digital impressions were down 4.2 percent in FY 2007 which was due to downtime on the old digital printing equipment and the phase-in of the new digital black and white equipment. Beginning in FY 2007, the Print Shop will begin measuring service quality via customer satisfaction surveys. In FY 2007, the Print Shop conducted an initial customer satisfaction survey and found the current satisfaction rate to be 90 percent. For future years, Printing and Duplicating Services has set a goal of a 95 percent satisfaction rating.

<sup>&</sup>lt;sup>1</sup> The \$2.9 million General Fund Transfer supports the equipment lease for the County's Copier Program. The current lease is for three years and is due to expire in mid FY 2009.

<sup>&</sup>lt;sup>2</sup> The ending balance supports the three reserves for the agency and fluctuates depending upon the needs of the fund in a given year.

<sup>&</sup>lt;sup>3</sup> The PC Replacement Reserve provides for the timely replacement of computer equipment for the activities in this fund.

<sup>&</sup>lt;sup>4</sup> The Print Shop Operating Reserve is used to provide financial support to the Print Shop program as the technical and business practices in the industry evolve.

<sup>\*</sup> All staffing and operating support for Infrastructure Services is found in Volume 2, Fund 505.

#### Mission

To provide a reliable and secure technology infrastructure foundation required to support County business processes and systems that strengthen the public service commitment of Fairfax County.

#### **Focus**

The infrastructure activity in the Department of Information Technology (DIT) provides the underlying technology foundation supporting information systems and communications for County government. DIT coordinates all aspects of information technology for the County and plays an enabling role in advancing the strategic value of technology to transform work processes and provide quality services to customers. Funding for DIT activities is included in the General Fund, two funds that DIT manages (Funds 505 and 104), and in Fund 120, E-911 which supports public safety information technology projects. Fund 505, Technology Infrastructure Services, includes technology activities performed for County agencies such as replacement of County desktop computers and servers, operation of the County computer center (Enterprise Technology Operation Center, or ETOC), monitoring and maintenance of the enterprise data communications network, and Radio Center services. Fund 104, Information Technology, funds major information technology projects, including those with countywide strategic importance, such as infrastructure and application system modernization initiatives. Fund 120, E-911, funds DIT activities that support the County's emergency communications and emergency dispatch systems. These activities are reviewed by the Public Safety Policy Governance Board, established in FY 2005, to ensure the integration of public safety initiatives. One of the major infrastructure improvements for the County is the fiber Institutional Network (I-Net), which has recently been implemented for video and data networks. The DIT staff is in the process of migrating the County's data and video functions to the I-Net, and have responsibility to plan for, authorize and manage the expenditures and implementation of this program. The equipment associated with this initiative is directly supported from the I-Net program funds within Fund 105, Cable Communications Fund.

Support for Fund 505 is derived from its customers (County agencies and other entities such as the Fairfax County Public Schools) and a General Fund Transfer, which helps support the new Public Service Radio System; expenditures are primarily driven by customer requests for information technology services (i.e., public safety radio system maintenance, enhanced telecommunications services, use of the data center infrastructure utility-like system for data processing and data storage requirements, and required software maintenance and licenses, etc.).

DIT's Technology Infrastructure Division provides intragovernmental services including the operation and maintenance of the County computer center and server platforms 24 hours a day, seven days per week; the safeguarding of County software license obligations, data repositories and information assets; the maintenance of County data and radio communication networks; and the provision of integrated communication service to all County agencies and other government customers. The County's enterprise network provides bandwidth securely connecting over 200 facilities to the vast array of business applications available on the County mainframe or server platforms. A General Fund Transfer is provided to maintain reserves for

the replacement and upgrade of enterprise computer equipment.

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Maintaining communication interoperability within the County and with other government entities; and
- o Providing adequate storage, backup and security for County data.

DIT also manages a PC replacement fund in Fund 505, ensuring funding is available for scheduled desktop device technology refresh to remain consistent with advancements in technology required for services. The FY 2009 budget recommends continuing a four year replacement cycle, further review various service options for deploying equipment, a status quo in the number of PCs in the program, and study of the types of PCs that are provided for replacement to better match needs of users to types of available desktop technology. In addition, increasing demands on security at the desktop level and client software licensing are included in the cost to deploy PCs. This optimizes both allocation of IT assets and provides more efficient and predictable desktop maintenance and support. The annual amount collected per PC for FY 2009 remains \$500/year, so that the future year cash flow will be sufficient to support the hardware and software components of this essential program.

DIT is also responsible for coordinating radio repair and engineering support to County agencies and the Fairfax County Public School system. Operational maintenance of the radio network is of primary importance to the County public safety agencies, public works agencies, Fairfax County Public Schools (FCPS), and other County agencies. With the deployment of both the new public safety and public service radio systems, the operations of the Radio Center now include interoperability management to ensure 24/7 communication with other jurisdictions. To support the operational and maintenance requirements of the systems, costs will be recovered from user entities such as the FCPS and Fairfax Water, and with a General Fund Transfer.

### New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Ongoing implementation of radio system infrastructure and radio refresh, as well as support for the public safety and public service radio systems, ensuring network monitoring, system performance, database management, interjurisdictional compatibility coordination and interoperability, identity tracking, radio reprogramming, compliance with FCC band modifications (re-banding), and contingency and redundancy testing consistent with emergency management plans.                 | ď                 | <b>Y</b>              |
| Connecting People and Places   | Recent<br>Success | FY 2009<br>Initiative |
| Continue to implement the equipment required for 'lighting up' the County's fiber optic Institutional Network (I-Net), which will, over the next several years, replace most of the commercial carrier provided wide area network and provide the transport layer for the County and Schools voice, data and video traffic.  | ¥                 |                       |
| Continue to expand the use of remote access technology for providing secure, less bandwidth-intensive access to County systems for the County's workforce at small remote sites, and for supporting the expansion of telework.   | <b>d</b>          | $\blacksquare$        |
| <b>Exercising Corporate Stewardship</b>  | Recent<br>Success | FY 2009<br>Initiative |
| Continue the implementation of a new enterprise-wide security architecture that: <ul> <li>uses a multi-pronged approach to providing internal government, business partners and public access to appropriate electronic transactions and services;</li> <li>provides for an advanced authentication process to comply with security and privacy concerns supporting e-government programs; and</li> <li>provides improved monitoring, intrusion detection, and auditing capability.</li> </ul> | ¥                 | ¥                     |
| Continue to implement a multi-phase Network Security Perimeter that uses a multiple firewall strategy to safeguard corporate data, facilitating expansion of e-government transactions and fulfilling the Electronic Protected Health Information (ePHI) requirements of the Health Insurance Portability and Accountability Act (HIPAA).  | ¥                 | M                     |
| Improved network security through implementation of Network Address Translation (NAT), which "hides" internal IP addresses from display to outside sources, and employ Open Standards.   | ¥                 |                       |

| Exercising Corporate Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue server consolidation initiative to optimize allocation of server processing resources, reduce server footprint, operating and software licensing costs, and balance server resources across applications providing increased effectiveness and efficiency of the management and utility of the County's server farm.   | Ø                 | ¥                     |
| Continue to provide additional storage capacities in the County's Storage Area Networks (SAN) that support the increasing portfolio of systems and data. Also provide local "Hot Site" backup capabilities for critical systems data. This initiative will strengthen the County's disaster recovery posture and provide recovery capabilities locally.   | ¥                 | $ \mathbf{Z}$         |
| Continue on-going improvements to the County's critical Enterprise Technology Operations Center (ETOC) as part of a multi-year facility modernization initiative to ensure that the ETOC remains a highly reliable and secure resource supporting the technology systems critical to County business operations, thus improving operational effectiveness within an optimized fail-safe environment.  | ¥                 | $ \mathbf{Z}$         |
| Continue to refresh desktop and laptop computers under the PC Replacement Program, thereby replacing obsolete equipment. PCs in the program are replaced at the end of a four-year cycle. Incorporate 'software assurance' coverage for all PCs on the County network to ensure software licensing obligation and ability to implement enhancements without having to purchase individual software upgrades.  | Ø                 | ¥                     |
| Continue to improve utility and efficiency of corporate and agency specific business applications through the County's Enterprise Application Integrator (EAI) tool 'Webmethods', a middleware product that creates a seamless process between disparate applications.  | ď                 | ¥                     |
| Implemented automated tools within the mainframe processing environment to reduce manual intervention of systems processing, automate first tier problem notification, automated restarts, and escalation processes. The long-term goal is to move toward a "lights out" operation environment that would streamline processes and reduce the dependence of personnel resources for operations and redirect the focus to the growing area of server and network monitoring. | ď                 | ¥                     |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$221,030

An increase of \$221,030 associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Personnel Services Reduction

(\$138,033)

A decrease of \$138,033 in Personnel Services as part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

#### **♦** Infrastructure Services

\$1,459,000

A net increase of \$1,459,000 to fund \$350,000 in staff augmentation for network support; \$359,000 in additional software and hardware maintenance and equipment for Network Services; \$450,000 for data switch replacement; and \$300,000 for increased software and hardware maintenance expenses for the Data Center.

#### ♦ Computer Equipment Replacement Program

\$496,900

A net increase of \$496,900, including a \$696,900 increase in the PC Replacement Program based on the number of PCs scheduled to be replaced in FY 2009, according to the four-year replacement cycle. This amount is partially offset by a \$200,000 decrease in server replacement.

#### ♦ Infrastructure Equipment

(\$2,100,000)

A net decrease of \$2,100,000, based on the postponing of several disaster recovery infrastructure initiatives currently supported by Fund 505.

#### Carryover Adjustments

(\$2,675,895)

A decrease of \$2,675,895 as a result of one-time funding at the FY 2007 Carryover Review.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

**♦** Pay for Performance

\$65,898

An increase of \$65,898 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Reduction in Limited-Term Funding

(\$71,742)

A decrease of \$71,742 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$2,675,895

As part of the FY 2007 Carryover Review, FY 2008 expenditures increased \$2,675,895 due to encumbered carryover of \$2,279,895 and unencumbered carryover of \$396,000.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

The Board of Supervisors made no adjustments to this agency.

### **Key Performance Measures**

#### **Objectives**

♦ To maintain the number of business days to fulfill Telecommunications service requests for a) non-critical requests at a standard of 4 days; b) critical requests at a standard of next business day; and c) emergency requests at a standard of the same day.

- ♦ To maintain the percentage of LAN/PC workstation calls to Technical Support Services closed within 72 hours by at least 75 percent.
- ♦ To maintain the resolution rate for the average first-call problem for the Technical Support Center (TSC), DIT Help Desk at 80 percent.

|  |                   | Prior Year Actu   | Current                    | Future              |                     |

# Fund 505 Technology Infrastructure Services

#### **Performance Measurement Results**

This cost center provides critical infrastructure services, including integrated communication service to all County agencies and other government customers; response to service requested through the help desk; and maintenance of the County data communication networks. The performance measures for this cost center focus on delivering and securing a stable IT environment.

Overall, many factors continue to affect agency performance, including more calls seeking assistance with complex technology; new agency-specific applications that the Technical Support Center had not been trained to help with; increased use of remote access for telework; older generation PCs on the network; and many customized desk-top configurations in agencies. DIT expects that customer requests for service will remain constant from FY 2008 to FY 2009. Recent changes in TSC help desk software have contributed to streamlined call-processing and call-escalation workflows. These improvements have been combined with improved system monitoring and greater reliance on remote interventions to resolve service problems.

# Fund 505 Technology Infrastructure Services

<sup>&</sup>lt;sup>1</sup> This funding supports the system wide charges of the new Public Safety and Public Service radio program for General Fund and General Fund Supported agencies, as well as maintains funding for the replacement and upgrade of enterprise computer equipment.

<sup>&</sup>lt;sup>2</sup> In FY 2009, a Transfer from Fund 105, Cable Communications, will be used to offset costs related to the I-Net for General Fund and General Fund Supported agencies.

<sup>&</sup>lt;sup>3</sup> In FY 2009, a Transfer Out from the PC Replacement Reserve is being utilized to offset General Fund requirements.

<sup>&</sup>lt;sup>4</sup> The fluctuation in ending balance is primarily due to the operation of the PC Replacement and Computer Equipment Reserve Programs. The programs collect funding each year, hold it in reserve until needed, and then expend the funds for replacement equipment. The time period for this action varies based on the needs of the programs.

<sup>&</sup>lt;sup>5</sup> This reserve is designed to assist in the scheduled replacement of mainframe computer and network assets. The funds are held in this Computer Equipment Replacement Fund (CERF).

<sup>&</sup>lt;sup>6</sup> The balance in the PC Replacement Reserve fluctuates annually based on scheduled PC replacements which are on a four-year replacement cycle.

#### **Focus**

Fairfax County Government offers its employees and retirees health insurance options providing choices and competitive premium rates. The County health insurance alternatives include a self-insured point-of-service (POS) plan, a self-insured preferred provider plan (PPO), a self-insured open access plan (OAP), and a fully insured Health Maintenance Organization (HMO) for both active employees and retirees. The County's current health insurance program is a result of revisions enacted in FY 2007. The County partnered with Fairfax County Public Schools and completed a selection process in calendar year 2006 to choose new providers for all health insurance products in order to leverage the County's position in the marketplace and achieve competitive rates. This process resulted in changing one of the County's HMO options to an OAP, a hybrid plan combining aspects of both a POS and PPO, and changing the plan from a fully-insured to selfinsured plan. Self-insurance allows the County to more fully control all aspects of the plan, including setting premiums to smooth out the impact of increases on employees while maintaining adequate funding to cover claims expenses and reserves. In addition, enhanced self-insured vision benefits were added to all health insurance plans with no impact to premium rates for the self-insured plans. These changes to the health insurance options were effective January 1, 2007. It should be noted that the County also intends to examine plans related to Medicare Part D to aid in finalizing an approach to the implementation of this new prescription drug benefit product.

In calendar year 2007, the County Executive directed staff to develop a comprehensive health promotion and wellness program for County employees. The goal of the initiative is to significantly improve employees' overall health and well-being, while also serving to curb rising health care costs. Components of the new program included in Fund 506 include:

- Health Risk Assessments (HRAs) and Targeted Programming. Health Risk Assessments gather information on participants' personal medical history, preventative services, and emotional health and lifestyle choices. Health plan participants can use the HRA in order to help determine their personal health risks and take preventative measures, while allowing the County to use aggregate data to create targeted programming towards health conditions that most affect County employees. As part of the new Health Promotion and Wellness Initiative, HRAs will be available for health plan participants so that they may elect to utilize this tool.
- Enhancement of the County's disease management program. Disease management programs are utilized to detect chronic conditions early and provide assistance to those affected to help manage their disease, resulting in a healthier outcome. Participants receive direct support from health care professionals and are assisted with coordination of physician care, medication reviews, standards of care reminders, assessments, screenings, and action plans. Although some health conditions were already included under the County's disease management program, the enhanced program will cover eleven additional conditions which affect County employees and retirees and impact County claims expenses, including Osteoporosis, Osteoarthritis, Fibromyalgia, and Low Back Pain.
- Reduced membership fees at County RECenters. In response to employee demand, as well as to promote the importance of overall physical health, a 50 percent subsidy for annual memberships at County RECenters is included in the new program. Workplace sites for employees are spread throughout the County; thus, all employees do not enjoy convenient access to the Employee Fitness and Wellness Center (EFWC) located in the Government Center. This benefit enhancement will allow merit employees and retirees to utilize all nine County RECenters at a reduced rate.
- Influenza vaccinations for employees and retirees. Providing flu shots to employees is a simple mechanism to reduce absenteeism due to flu outbreaks, as well as protect the overall health of employees and retirees.

A comprehensive wellness program has the potential to reduce the rate of escalation of health care costs, resulting in savings for self-insured plans through cost avoidance. As such, expenses related to the new Health Promotion and Wellness Initiative are included in Fund 506, Health Benefits Trust Fund, as it is anticipated that increases in self-insured claims expenses will be impacted as benefits of the program begin to materialize.

Fund 506, Health Benefits Trust Fund, is the administrative unit for the County's self-insured health plans. For the self-insured plans, the County pays only for claims and third party administrative fees. The cost to fund claims expenses is covered by premiums from active employees, the employer, retirees and retention of interest earnings.

The self-insured plans (POS, PPO, and OAP) provide in-network and out-of-network options. The POS plan combines the best features of an HMO and a traditional indemnity plan. The second option provides the choice of a PPO, combining an in-network benefit and an out-of-network benefit for those employees and retirees who live outside of the managed care network area. The OAP plan provides a third alternative which combines aspects of both a POS and a PPO.

After significant increases in medical costs at the beginning of the decade, cost growth has begun to moderate in the last few years. On average, most employers nationwide are experiencing single digit cost increases, and the County's experience mirrors this trend. As a result of lower than anticipated medical and prescription claims in recent years, along with prudent management of the plan and aggressive contract negotiations, staff estimates that, on average, the County's self-insured plans will raise premiums by a moderate five percent effective January 1, 2009 for the final six months of FY 2009. The five percent premium increase will allow the fund to remain solvent while maintaining a revenue stream that will cover the cost of health claims and maintain reserve funding. Actual premium increases will vary by plan based on each plan's claims experience.

Advances in medical technology, the increasing cost of medical malpractice and liability insurance, and increased utilization continue to drive increases in medical costs. To mitigate the impact of unanticipated cost increases in future years, the County created a premium stabilization reserve in FY 2005. This reserve allows the County to maintain premium increases at manageable levels and smooth out the employer and employee impact of dramatic cost growth swings. In addition, the targeted ending balance for the fund is based on a balance as a percent of claims paid of at least 10 percent to ensure that the fund balance is adequate to support any unanticipated high cost claims. It should be noted that an ending balance of 10 to 15 percent of claims paid is the targeted industry standard.

The County continues to contribute 85 percent of the total premium for employees enrolled as an individual and 75 percent of the total premium for employees enrolled under either the two-party or family plan. Retirees over the age of 55 currently receive a subsidy from the County toward the cost of health insurance. The current monthly subsidy, approved in FY 2006, commences at age 55 and varies by length of service. Note: There is not a reduction in subsidy payments for employees who retired prior to July 1, 2003 but do not meet the revised requirements for years of service. Details on the retiree health subsidy can be found in the narrative for Fund 603, OPEB Trust Fund, in Volume 2 of the FY 2009 Adopted Budget Plan.

It should be noted that as part of the FY 2005 Carryover Review, a reserve was established to begin to address the County's unfunded liability for postemployment benefits as a result of the Governmental Accounting Standards Board (GASB) Statement No. 45. In order to capture long-term investment returns and make progress towards reducing the unfunded GASB liability, the County created Fund 603, OPEB Trust Fund, as part of the FY 2008 Adopted Budget Plan. As a result of excess revenues received from employer contributions and transfers from the General Fund in FY 2007 and FY 2008, the County was able to identify \$48.2 million to begin to address the County's unfunded liability for postemployment benefits. As part of the FY 2007 Carryover Review, the \$48.2 million balanced was transferred to Fund 603, OPEB Trust Fund. This \$48.2 million in initial funding will reduce the unfunded liability and, consequently, reduce the annual required contribution to Fund 603. As part of the FY 2009 Adopted Budget Plan, the County has identified an additional \$9.9 million in excess employer contributions to be transferred to Fund 603, OPEB Trust Fund, to fund the retiree health benefit subsidy and contribute towards the County's FY 2009 annual required contribution. The annual required contribution will be calculated at each valuation and may change as a result of fluctuations in assets and liabilities. It should be noted that any future balances identified in Fund 506 as a result of excess revenues received from employer contributions will also be considered for possible transfer to Fund 603 to assist in addressing the County's unfunded OPEB liability. For more information on GASB 45, please refer to Fund 603, OPEB Trust Fund, in Volume 2 of the FY 2009 Adopted Budget Plan.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Health Insurance Requirements

(\$4,013,317)

A decrease of \$4,013,317 is primarily attributable to a decrease of \$3,739,955 in benefits paid due to projected savings in FY 2008 as a result of lower than anticipated actual cost growth experience, partially offset by increases due to a 5.0 percent cost growth assumption in FY 2009 and anticipated employee participation. An additional decrease of \$1,430,432 is for Incurred But Not Reported (IBNR) claims based on anticipated requirements. These decreases are partially offset by increases of \$415,070 in administrative expenses and \$742,000 for the new Health Promotion and Wellness Initiative. The increase in administrative expenses includes costs associated with the addition of Health Risk Assessments (HRAs) and an enhanced disease management program to the County's self-insured health plans. Furthermore, funding for the Health Promotion and Wellness Initiative is primarily associated with the cost of subsidizing reduced membership rates for merit employees and retirees at the County's RECenters, but also provides for influenza vaccinations for County employees and retirees and targeted programming to address the mental, physical, and behavioral health of County employees and retirees enrolled in the County's health insurance plans.

#### **♦** Premium Stabilization Reserve

(\$35,684,230)

A decrease of \$35,684,230 is the result of the reduction in the Premium Stabilization Reserve, primarily due to the appropriation of fund balance made as part of the *FY 2007 Carryover Review*. It should be noted that as part of the *FY 2008 Carryover Review*, it is anticipated that based on projected savings as a result of lower than anticipated claims experience in FY 2008, the premium stabilization reserve will increase from the level of appropriation currently anticipated at the <u>FY 2009 Advertised Budget Plan</u>.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Reduction in OPEB Contribution

\$5,100,000

The Board of Supervisors approved an increase of \$5,100,000 in expenditures to offset benefits expenses in the General Fund commensurate with a reduction in the transfer to Fund 603, OPEB Trust Fund, for the contribution towards the annual required contribution (ARC) for the County's GASB 45 liability. In the FY 2009 Advertised Budget Plan, an amount of \$15 million, including \$6.8 million previously funded by the General Fund associated with the explicit and implicit subsidies provided to retirees and an additional \$8.2 million for use towards the ARC, was proposed to be transferred from Fund 506, Health Benefits Trust Fund, to Fund 603 to address the GASB liability. As a result of this adjustment, the transfer to the OPEB Trust Fund will be reduced to \$9.9 million and the remaining \$5.1 million will be reimbursed to the General Fund. For more information on GASB 45, please refer to Fund 603 in Volume 2 of the FY 2009 Adopted Budget Plan.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$26,957,131

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$26,957,131 to reflect an appropriation from fund balance to increase the premium stabilization buffer which allows the fund flexibility in maintaining premium increases at manageable levels.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

◆ The Board of Supervisors made no adjustments to this fund.

#### **FUND STATEMENT**

#### **Fund Type G50, Internal Service Funds**

#### **Fund 506, Health Benefits Trust Fund**

<sup>&</sup>lt;sup>1</sup> Formerly Other Funds Premiums, renamed to more accurately reflect accounting treatment and revenues posted in this line item.

<sup>&</sup>lt;sup>2</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$22,782.39 in revenues has been reflected as an increase to FY 2007 revenues to accurately record interest on investments. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> Fluctuations in the Premium Stabilization Reserve are the result of reconciliations of budget to actual experience. For example it is anticipated that a significant portion of the Revised Budget Plan Premium Stabilization Reserve will be carried forward from one year to the next with adjustments as a result of actual final year-end experience.

<sup>&</sup>lt;sup>4</sup> The FY 2007 Actual Ending Balance increases over the FY 2007 Actual Beginning Balance based on better than anticipated experience during the fiscal year. Fluctuations in the ending balance in budget years are due to the Fund's policy of maintaining the ending balance as a percent of claims at the targeted industry standard.

<sup>&</sup>lt;sup>5</sup> At the FY 2005 Carryover Review, a reserve was created to address the unfunded liability for post-employment benefits as a result of the Governmental Accounting Standards Board (GASB) Statement No. 45. The funding set aside in this reserve was transferred to Fund 603, OPEB Trust Fund, as part of the FY 2007 Carryover Review.

# Fund 590 Public School Insurance Fund

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 590, Public School Insurance Fund, provides administration for workers' compensation insurance, self-insurance funds for automobile and general liability, and the purchase of commercial insurance for other liabilities. FY 2009 expenditures are estimated at \$16.0 million.

<sup>&</sup>lt;sup>1</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008, during their FY 2008 Third Quarter Review.

<sup>&</sup>lt;sup>2</sup> Reflects an additional \$6,418,091 in projected FY 2008 ending balance to be carried over to fund the FY 2009 budget.

# Fund 591 Public School Health and Flexible Benefits

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 591, Health and Flexible Benefits, is a self-insurance fund that provides the administration for health care and a dental benefit plan for employees and retirees. In addition, the fund provides for the payment of eligible health care and dependent care expenses for employees participating in the flexible spending account program. FY 2009 expenditures are estimated at \$312.8 million.

| Total Expenditures                       | \$212,092,827       | \$284,452,870 | \$293,134,802            | \$312,815,685    | \$312,815,685 |
| <b>Total Disbursements</b>               | \$212,092,827       | \$284,452,870 | \$293,134,802            | \$312,815,685    | \$312,815,685 |
|  |                     |               |                          |                  |               |
| <b>Ending Balance</b>                    | \$55,228,456        | \$0           | \$0                      | \$0              | \$0           |

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$23,528.00 has been reflected as an increase to FY 2007 revenues and an audit adjustment of \$600,000.00 has been reflected as a decrease to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008, during their FY 2008 Third Quarter Review.

<sup>&</sup>lt;sup>3</sup> Represents the beginning of a multi-year plan to fund a new liability resulting from implementation of the Governmental Accounting Standards Board Statement 45 (GASB 45). GASB 45 requires public entities to disclose the actuarially determined accrued liability for post-employment benefits, other than pensions, currently offered to employees in retirement. For FCPS, health and dental insurance are the benefits governed by these new rules. Currently, \$18.0 million has been set aside to meet GASB 45 obligations and is assumed to be carried forward as beginning balance for FY 2009. The \$8.0 million transfer represents the actuarial requirement for FY 2009 and the total amount set aside will be \$26.7 million.

<sup>&</sup>lt;sup>4</sup> The Premium Stabilization reserve is appropriated for budgeting purposes to offset any fluctuations in health insurance costs during the fiscal year. However, it should be noted that the reserve is assumed to be carried forward as beginning balance for FY 2009. A future adjustment will be made by the School Board to bring the FY 2009 Beginning Balance in line with the FY 2008 Premium Stabilization Reserve.

# Fund 592 Public School Central Procurement

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 592, Public School Central Procurement, facilitates accounting of orders for textbooks, supplies, library materials, printing and equipment for the Fairfax County Public Schools (FCPS). Central purchases processed through this fund will be charged to individual school accounts; therefore, this Internal Service clearing account does not increase the total FCPS budget. FY 2009 expenditures are estimated at \$14.0 million.

<sup>&</sup>lt;sup>1</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008, during their FY 2008 Third Quarter Review.

#### **Trust Funds**

#### **Overview**

Trust Funds account for assets held by the County in a trustee capacity and include four retirement trust funds, a trust fund to pre-fund other post-employment benefits, and a holding fund for revenue collected for the Route 28 Tax District.

#### **Retirement Trust Funds**

- ♦ Each of the four retirement funds derives income from employer contributions, employee contributions, and returns on investments. Payments are made from these funds to eligible retirees based on established benefit formulas. Three retirement trust funds comprise the Fairfax County Employee Retirement Systems and are administered by the Fairfax County Retirement Administration Agency. The fourth retirement fund is for educational employees and is administered by Fairfax County Public Schools.
  - Fund 600 Uniformed Retirement System
  - Fund 601 Fairfax County Employees' Retirement System
  - Fund 602 Police Officers Retirement System
  - Fund 691 Educational Employees Supplementary Retirement

#### Other Post-Employment Benefits (OPEB) Trust Fund

- ♦ Beginning in FY 2008 the County's financial statements are required to implement Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits. GASB 45 requires that the County accrue the cost of the County's retiree health subsidy and other post-employment benefits during the period of employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits. Fund 603, OPEB Trust Fund, will allow the County to capture long-term investment returns, make progress towards reducing the unfunded liability, and pre-fund the cost of post-employment health care and other non-pension benefits. It should be noted the legal authority to establish a trust fund to pre-fund OPEBs was provided by the Virginia General Assembly and Governor in March 2007.
  - Fund 603 OPEB Trust Fund

### **Route 28 Tax District**

- ♦ Fairfax County, in partnership with Loudoun County, formed the Route 28 Highway Transportation Improvement District in 1987. The District was formed to provide improvements to State Route 28 to accelerate planned highway improvements. The owners of industrial and commercial property within the District are subject to a maximum additional tax assessment of 20 cents per \$100 of assessed value.
  - Fund 700 Route 28 Tax District

## **Employee Retirement Systems Overview**

Fairfax County employee retirement systems include the Uniformed Retirement System (Fund 600), the Fairfax County Employees' Retirement System (Fund 601), and the Police Officers Retirement System (Fund 602). Each of these systems is funded from employees' contributions based on a fixed percentage of pay, County contributions based on a variable percentage of employee pay as determined by actuarial analysis, and return on investments. In order to assure the continued soundness of each fund, an actuarial valuation is conducted annually and, if appropriate, an adjustment is made to the employer's contribution rate.

For the Uniformed Retirement Trust Fund, the employer's contribution comes from two sources: Agency 89, Employee Benefits, in the County's General Fund, for uniformed public safety employees in General Fund agencies and Fund 120, E-911, for the non-administrative staff in the Department of Public Safety Communications. For the Fairfax County Employees' Retirement Trust Fund, the employer's contribution comes from two sources: Agency 89, Employee Benefits, for County employees and Fairfax County Public Schools (FCPS) for school employees. For the Police Officers Retirement Trust Fund, the full amount of the employer's contribution comes from Agency 89, Employee Benefits, in the County's General Fund.

The employer's contribution rate for FY 2009 for each of the three funds is as follows:

| Fund            | FY 2008<br>Rates<br>(%) | FY 2009<br>Adopted Rates<br>(%) | Percentage<br>Point<br>Change<br>(%) | Net General<br>Fund Impact |
|-----------------|-------------------------|---------------------------------|--------------------------------------|----------------------------|

| Total           |                         |                                 |                                      | \$1,606,572                |

Following the current effective actuarial funding policy, contribution rates are adjusted only to fund approved benefit enhancements, to acknowledge changes in actuarial assumptions, both financial and demographic, and to recognize funding adjustments required when the funding ratio falls below 90 percent or rises above 120 percent.

- ♦ The employer contribution rate for the Uniformed system is required to increase by 0.13 percentage points due to a reduction in the Social Security offset multiplier from 40 percent to 30 percent for service-connected disability benefits, approved by the Board of Supervisors on April 28, 2008 and effective July 1, 2008.
- ♦ The employer contribution rate for the Employees' system is required to increase by 0.03 percentage points due to a reduction in the Social Security offset multiplier from 40 percent to 30 percent for service-connected disability benefits, approved by the Board of Supervisors on April 28, 2008 and effective July 1, 2008.
- ♦ The employer contribution rate for the Police Officers system is required to increase by 1.34 percentage points. An increase of 0.45 percentage points is based on a retiree cost of living increase benefit enhancement approved by the system's Board of Trustees effective July 1, 2007. An additional increase in the employer contribution rate of 0.89 percentage points is the result of a corresponding decrease in the employee contribution rate of 1.00 percentage point, from 11.00 percent to 10.00 percent of pay. This decrease in the employee contribution rate will reduce Police Officers' out-of-pocket costs and make the Police benefits package more competitive with surrounding jurisdictions.

It should be noted that the Police Officers and Uniformed systems retain funding ratios within the 90 to 120 percent corridor at 93.3 and 92.6 percent, respectively. The funding ratio for the Employees' system increased from 85.2 percent to 85.5 percent. For more information on the General Fund impact of these employer contribution rate changes, please refer to the Agency 89, Employee Benefits, narrative in the Nondepartmental program area section of Volume 1.

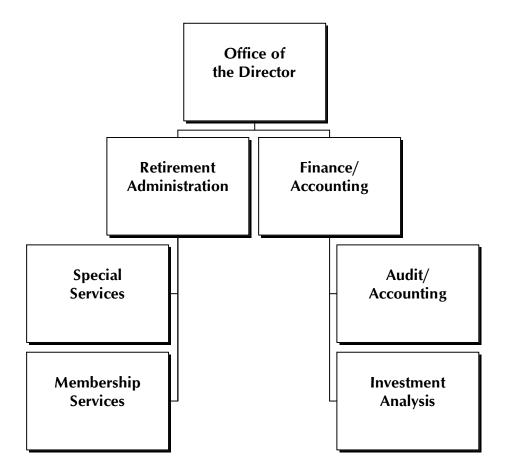

# **Employee Retirement Systems Overview**

The following table displays relevant information about each retirement system:

|  |   |  | EMPLOYEES C                     | OVERED                                  |                                   |                                |  |

#### Mission

As an agent of the Boards of Trustees of the Employees', Police Officers, and Uniformed Retirement Systems, the mission of the Retirement Administration Agency is to administer the systems according to the terms established by the County of Fairfax and to do so in a manner that:

- Safeguards and invests the assets of the systems;
- Maximizes cost effectiveness of the retirement programs by optimizing long-term investment returns within an acceptable level of variation in required funding and by maintaining efficient administrative operations;
- ♦ Maximizes the value of retirement plans in retaining County personnel through communications, education, and counseling programs and by providing quality service;
- Fulfills the obligations of the systems to retirees by providing timely and accurate payments and by providing quality service; and
- Provides technical support and advice to County management and the Board of Supervisors regarding retirement benefits.

#### **Focus**

The Retirement Administration Agency contributes to the County's corporate stewardship through sound management of County resources and assets. To accomplish its specific mission, the Retirement Administration Agency will focus on:

- Support for the Boards of Trustees;
- Services to active employees and retirees;
- ♦ Accurate accounting and control of plan assets;
- ♦ Accuracy of data;
- ♦ Cost efficiency of processes; and
- Investment return and risk control.

Under the direction of the Boards of Trustees for the Police Officers Retirement, Fairfax County Employees' Retirement, and Uniformed Retirement Systems, the Retirement Administration Agency processes benefit payments to eligible Fairfax County retirees and beneficiaries. The agency also processes payments for the retiree health

#### THINKING STRATEGICALLY

Strategic issues for the department include:

- Re-evaluating investment strategies in response to volatile capital markets and an uncertain economic environment;
- Monitoring the success of the corridor policy to make certain that plans are adequately funded for the long term;
- o Reviewing processes to identify opportunities to streamline operations and improve efficiency of services.

benefit subsidy and provides counseling and comprehensive information pertaining to benefits to active and retired County employees. It should be noted that the retiree health benefit subsidy was previously funded out of Fund 500, Retiree Health Benefits. However, as part of the FY 2009 Advertised Budget Plan, Fund 500 was eliminated and the retiree health subsidy will be funded out of Fund 603, OPEB Trust Fund.

The agency receives revenues from various sources, including employee and employer contributions to the various retirement systems, employee payback, and return on investments, to finance the three employee retirement systems. Employee contributions are based on a fixed percentage of pay. For the Uniformed Retirement System, employer contributions come from two sources: Agency 89 for uniformed public safety employees in General Fund agencies and Fund 120, E-911, for the non-administrative staff in the Department of Public Safety Communications. For the Employees' Retirement System, employer contributions come from Agency 89, Employee Benefits, for County employees and Fairfax County Public Schools (FCPS) for school employees. Employer contributions for the Police Officers Retirement System come solely from Agency 89, Employee Benefits, in the County's General Fund. Adjustments are made to the employer's contribution rate only to fund approved benefit enhancements, to acknowledge changes in actuarial assumptions, both financial and demographic, and to recognize funding adjustments required when the funding ratio falls out of the 90 to 120 percent funding corridor. Some revenues are also generated through employee payback, a process by which employees who have left the County can make a "payback" contribution and return to their previous standing in the retirement system upon their return to County employment. Additionally, significant revenues are achieved through returns on fund investments. Revenue projections are based on an assumed actuarial rate of return of 7.5 percent. An actuarial valuation is conducted annually for each of the three funds to assure the continued soundness of the retirement systems. In addition, an experience study - which compares actual experience to actuarial assumptions, both economic and demographic - is conducted once every five years to ensure that the plan is being valued appropriately. Such an experience study was last conducted in FY 2006, with assumption changes made that impacted the employer contribution rates in FY 2007.

#### New Initiatives and Recent Accomplishments in Support of the **Fairfax County Vision**

| Exercising Corporate Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Achieved strong investment returns in FY 2007:  |                   |                       |
| ■ Employees' System 14.8%   |                   |                       |
| ■ Police Officers System 17.5%  | <b>Y</b>          |                       |
| <ul><li>Uniformed System 17.8%</li></ul>  |                   |                       |
| Continue to advise and support the Boards of Trustees in the development and implementation of investment strategies designed to improve risk adjusted returns and to minimize the long-term funding required to provide competitive retirement benefits. | Ø                 | <b>A</b>              |
| Upgraded and replaced databases and processing systems required to maintain records, calculate benefits, and issue benefit payments.  | V                 |                       |
| Install Internet-based application to improve efficiency and service by enabling retirees to access pay information and active employees to access service records and calculate benefit estimates.   |                   | ¥                     |

| Total Expenditures               | \$266,788,087     | \$273,396,670                     | \$304,551,854                     | \$297,862,530                        | \$297,884,946                     |  |  |

<sup>&</sup>lt;sup>1</sup> The table above includes all of the three County retirement funds (Funds 600, 601, and 602), as well as the Retiree Health Benefits Fund (Fund 500) for FY 2007 and FY 2008. However, as part of the FY 2009 Advertised Budget Plan, all activity in Fund 500 was moved to Fund 603, OPEB Trust Fund, including 1/1.0 SYE Accountant II position. It should be noted that the retiree health benefit subsidy will continue to be administered by the Retirement Administration Agency and accounted for in Fund 603, OPEB Trust Fund. Further details on Fund 603 may be found under the Trust Fund section in this volume.

<sup>&</sup>lt;sup>1</sup> As part of the <u>FY 2009 Advertised Budget Plan</u>, 1/1.0 SYE Accountant II position, previously financed by Fund 500, Retiree Health Benefits, was moved to Fund 603, OPEB Trust Fund. It should be noted that this position will continue to reside in the Retirement Administration Agency, although it will be accounted for and financed by Fund 603, OPEB Trust Fund.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$79,851

An increase of \$79,851 in Personnel Services includes salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

♦ Benefit Payments \$28,980,999

An increase of \$28,980,999 in Operating Expenses reflects increased payments of \$29,407,116 to retirees due to a higher number of retirees and higher individual payment levels and an increase in payments to beneficiaries of \$488,883, partially offset by a decrease in the allowance for refunds of \$915,000 based on projected turnover of active members.

#### ♦ Investment Management Fees

\$899,000

An increase of \$899,000 in Operating Expenses reflects an increase in investment management fees due to the projected growth in assets and the investment strategies adopted by the Boards of Trustees.

♦ Banking Services \$30,000

An increase of \$30,000 in Operating Expenses for custodial banking services reflects the need for a new multi-year contract beginning in FY 2009.

#### **♦** Investment Consulting Services

\$25,150

An increase of \$25,150 in Operating Expenses for investment consulting as a result of growth in assets and fee escalation clauses in existing contracts.

#### **♦** Fiduciary Insurance

\$19,919

An increase of \$19,919 in Operating Expenses due to increases in insurance premiums as a result of the need to increase coverage levels.

#### ♦ Travel and Training \$10,400

An increase of \$10,400 in Operating Expenses related to increased costs of trustee training.

♦ Postage \$10,147

An increase of \$10,147 in Operating Expenses as a result of increased postal rates and an increase mail volume due to growth in the number of retirees.

♦ Medical Exam Fees \$10,000

An increase of \$10,000 in Operating Expenses due to increased use of independent medical examinations related to disability retirement applications and re-evaluations.

♦ Actuarial Services (\$54,102)

A decrease of \$54,102 in Operating Expenses for higher actuarial costs as a result of an actuarial audit budgeted in FY 2008 not being required in FY 2009.

#### Other Operating Expenses

\$15,374

A net increase of \$15,374 in all other Operating Expenses due to minor increased costs for various products and services.

#### Carryover Adjustments

(\$55,184)

A decrease of \$55,184 as a result of one-time funding at the FY 2007 Carryover Review.

#### **♦** Transfer to OPEB Trust Fund

(\$5,560,878)

A decrease of \$5,560,878 as a result of the elimination of Fund 500, Retiree Health Benefits, and subsequent transfer to Fund 603, OPEB Trust Fund, in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEBs) including health care, life insurance, and other non-pension benefits offered to retirees. In FY 2009, the retiree subsidy payments and associated administrative expenditures will be funded out of Fund 603, OPEB Trust Fund. Fund 500 balances will be moved to this fund at the end of FY 2008 and the fund will be eliminated. Please refer to Fund 603 for further information.

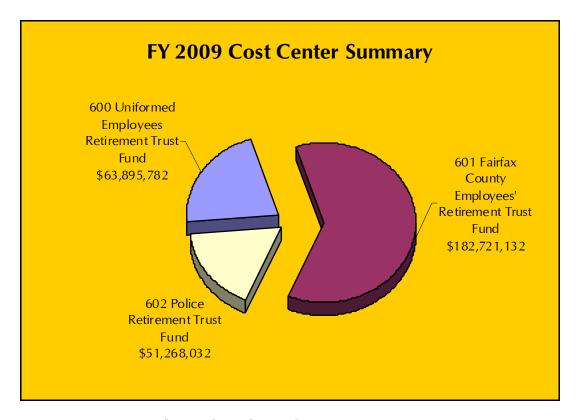

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$22,416

An increase of \$22,416 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$55,184

As part of the FY 2007 Carryover Review, the Board of Supervisors approved encumbered carryover in Operating Expenses of \$55,184 to cover costs committed but not yet billed for the redesign of the retirement system Web site, printing and design of retirement system employee handbooks, personal computers, and contracts for clerical staff assistance.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$31,100,000

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved additional funding of \$31,100,000 to cover anticipated securities lending fees, including \$4,200,000 for Fund 600, Uniformed Retirement System, \$23,800,000 for Fund 601, Employees' Retirement System, and \$3,100,000, for Fund 602, Police Officers Retirement System.

# **Key Performance Measures**

#### **Objectives**

- To maintain at 100 percent the number of retiree benefit payments processed on time.
- ♦ To achieve at least a 7.5 percent return on investment over rolling three year periods.
- ♦ To achieve realized return on investment commensurate with the S&P 500 Index and the Lehman Brothers Aggregate Bond Index.

<sup>(1)</sup> This indicator was previously reported separately as number of retirees and number of active members. Beginning in FY 2001, these indicators were combined and are now shown as the total number of members.

<sup>(2)</sup> This indicator was previously reported as investment costs as a percentage of earnings. However, beginning in FY 2001, the indicator was revised and now reflects the costs as a percentage of assets.

#### **Performance Measurement Results**

For the fourth year in a row, investment returns for each of the three retirement systems were above the long-term average rate of 7.5 percent assumed for actuarial purposes. Returns were 14.8 percent for the Employees' system, 17.5 percent for the Police Officers system, and 17.8 percent for the Uniformed system in FY 2007. These returns were achieved in a year in which returns were strong in both the equity and bond markets. The S&P 500 Index was up 20.6 percent and the Lehman Brothers Aggregate Bond Index was up 6.1 percent. The diversification strategies of the three different systems continued to contribute to the total returns achieved. Returns in non-U.S. equities were particularly strong, with stocks in developed markets returning 27.5 percent and stocks in emerging market countries returning 45.4 percent. Real estate returns were also positive, with equity real estate (REITs) returning 12.6.

These overall returns in the capital markets and each system's asset allocation strategy, combined with the value added by the investment management firms employed by each system, resulted in the strong investment results in FY 2007.

In the universe of public funds used to assess relative performance, results for the Employees' system lagged the median, ranking at the 98<sup>th</sup> percentile. This reflects the investment strategy adopted by the Employees' Board of Trustees designed to reduce risk related to equity markets, with the expectation of underperforming other systems in strong markets and achieving stronger results in weak markets. Returns for the Employees' System continue to rank above median for the ten-year period. The Uniformed return ranked at the 52<sup>nd</sup> percentile, and the Police Officers return ranked at the 50<sup>th</sup> percentile.

<sup>&</sup>lt;sup>1</sup> Unrealized gain/loss will be reflected as an actual revenue at the end of each fiscal year.

<sup>&</sup>lt;sup>2</sup> The Uniformed Retirement Fund maintains fund balances at adequate levels relative to projected requirements. The fund balance fluctuates annually primarily due to interest on investments.

<sup>&</sup>lt;sup>2</sup> The Police Retirement Fund maintains fund balances at adequate levels relative to projected requirements. The fund balance fluctuates annually primarily due to interest on investments.

#### **Focus**

Fund 603, OPEB Trust Fund, was created in order to capture long-term investment returns and make progress towards reducing the unfunded actuarial accrued liability under GASB 45 and funds the cost of other post-employment benefits (OPEBs) including health care, life insurance, and other non-pension benefits offered to retirees, such as the County's retiree health benefit subsidy.

#### **GASB 45**

Beginning in FY 2008 the County's financial statements were required to implement Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits. This standard addresses how local governments should account for and report their costs related to post-employment health care and other non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you-go basis. GASB 45 requires that the County accrue the cost of the retiree health subsidy and other post-employment benefits during the period of employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

In order to begin preparing for the implementation of GASB 45, a reserve was established in Fund 506, Health Benefits Trust Fund, as part of the *FY 2005 Carryover Review* to begin to address the unfunded liability, and an amount of \$10.0 million was set aside in this reserve from excess revenues received from employer contributions. In FY 2007, the County allocated an additional \$8.2 million as a transfer from the General Fund for this reserve as part of the *FY 2007 Adopted Budget Plan*, as well as an additional \$21.8 million as part of the *FY 2006 Carryover Review*. The *FY 2008 Adopted Budget Plan* maintained the \$8.2 million General Fund transfer to the reserve in Fund 506, bringing the balance to \$48.2 million. The County created Fund 603 as part of the *FY 2008 Adopted Budget Plan* and transferred the reserve to the new fund at the *FY 2007 Carryover Review*. This \$48.2 million in initial funding will reduce the unfunded liability and, consequently, reduce the annual required contribution to Fund 603.

After exploring numerous alternatives as to how to prudently invest and accumulate resources for OPEB, County staff recommended and the Board of Supervisors approved on February 25, 2008 County participation in the Virginia Pooled OPEB Trust Fund in cooperation with the Virginia Municipal League (VML)/Virginia Association of Counties (VACo) Finance Program and other jurisdictions in the Commonwealth of Virginia. The County will be represented on the Board of Trustees for the pooled trust and will actively participate in decision-making to prudently invest accumulated resources for OPEB. It should be noted that the Virginia Pooled OPEB Trust Fund would be used for investment purposes only; funds accumulated for OPEB would still be accounted for in Fund 603.

The actuarial valuation as of July 1, 2007 under GASB 45 calculated the County's actuarial accrued liability (AAL), excluding the Schools portion, at approximately \$379.9 million, as shown below.

| Valuation Results as of July 1, 2007 (in thousands) |  |  |  |
|---|--|--|--|
| Unfunded Actuarial Accrued Liability \$379,856      |  |  |  |

This liability will be recalculated at the next valuation and will include adjustments due to benefit enhancements, medical trend experience, and normal growth assumptions. The liability includes the annual retiree health benefit subsidy, which is paid out to County retirees, as well as the liability associated with an "implicit" subsidy provided to retirees. As premiums for the County's self-insured health plans are set using the blended experience of active employees and retirees, retiree premiums are lower than if they were set solely using the experience of the retiree group. GASB 45 requires that the County calculate and include the liability for this implicit subsidy. It should be noted that the July 1, 2007 AAL increased over the initial liability calculation of \$191 million primarily because growth in retiree claims outpaced retiree premium increases as a result of premium increases being held to a moderate level. Increases were moderate based on the fact that premiums for the County's health insurance plans are set based on the claim experience of the group as a

whole and not solely on retiree experience. The increased differential between retiree claims and premiums resulted in an increase in the implicit subsidy and, therefore, an increase in the liability. Conversely, in future years, if retiree claims grow at a slower rate than premiums, the overall liability would actually decrease. The impact of the difference between actuarial assumptions and actual experience is magnified by the fact that, similar to pension benefits, the County must now project the impact over a 30-year period. Thus, a small change in the implicit subsidy in a single year is compounded over time.

The annual required contribution (ARC) as calculated by the actuary at the July 1, 2007 valuation was approximately \$31.6 million. However, due primarily to the \$48.2 million set aside in the GASB 45 liability reserve in Fund 506, as well as annual contributions in FY 2008 towards the retiree health benefit subsidy in Fund 500, Retiree Health Benefits, and the implicit subsidy in the General Fund, it is anticipated that the County will surpass the annual required contribution in FY 2008. As a result, it is estimated that a net OPEB asset will be shown as part of the County's FY 2008 financial statements, as shown below.

| Annual Required Contribution as of the July 1, 2007 Valuation (in thousands) |          |
|--|----------|
| Annual Required Contribution (ARC)   | \$31,648 |
| Resources to Apply toward the ARC:   |          |
| GASB 45 Liability Reserve  | \$48,200 |
| Retiree Health Benefit Subsidy   | \$4,611  |
| Estimated Implicit Contribution  | \$4,000  |
| Estimated Net OPEB Asset   | \$25,163 |

The ARC will be calculated at each valuation and may change as a result of fluctuations in the liability. In FY 2009, the County's contribution towards the ARC will be made through a transfer from Fund 506 as a result of excess revenues received from employer contributions. (It should be noted that the annual required contribution for FY 2009 will not be calculated until the next valuation.) Any future balances identified in Fund 506 as a result of excess revenues received from employer contributions will also be considered for possible transfer to Fund 603 to assist in addressing the County's unfunded OPEB liability.

#### Retiree Health Benefit Subsidy

The County's retiree health benefit subsidy was previously funded out of Fund 500, Retiree Health Benefits; however, as part of the FY 2009 Advertised Budget Plan, the benefit and administrative costs related to the subsidy will be paid from Fund 603 as a result of implementation of GASB 45. The County provides monthly subsidy payments to eligible retirees to help pay for health insurance. Prior to July 2003, the monthly subsidy was \$100 for all eligible retirees. The current monthly subsidy, approved in FY 2006, commences at age 55 and varies by length of service as detailed in the following table. It should be noted that for those retired prior to July 2003, the monthly subsidy is the greater of \$100 and the amounts below. There is not a reduction in subsidy payments for employees who retired prior to July 1, 2003 but do not meet the revised requirements for years of service. However, those employees who retired prior to July 1, 2003 with 15 or more years of service were eligible for the increased subsidy as of July 1, 2003. It should be noted that the retiree health benefit subsidy is provided to retirees on a discretionary basis, and the Board of Supervisors reserves the right to reduce or eliminate the benefit in the future if the cost of the subsidy becomes prohibitive or an alternative is chosen to aid retirees in meeting their health insurance needs.

| Retiree Health Benefit Subsidy               |       |  |  |
|--|-------|--|--|
| Years of Service at Mont<br>Retirement Subsi |       |  |  |
| 5 to 9                                       | \$30  |  |  |
| 10 to 14                                     | \$65  |  |  |
| 15 to 19                                     | \$155 |  |  |
| 20 to 24                                     | \$190 |  |  |
| 25 or more                                   | \$220 |  |  |

The current subsidy structure became effective January 1, 2006 and includes a temporary 25 percent increase approved by the Board of Supervisors in response to the implementation of the new Medicare Part D prescription drug benefit. This increase qualified the County's self-insured health insurance plan to be deemed as actuarially equivalent to the Medicare Part D program. Employers who offer an actuarially equivalent program are eligible to receive a subsidy from the Centers for Medicare and Medicaid Services (CMS) based on retiree enrollment in their plans. The County receives the CMS subsidy on retirees and spouses enrolled in the County's self-insured health plan who do not enroll in Medicare Part D. The federal funding from CMS is expected to completely offset the cost of the 25 percent increase to the retiree subsidy. In addition to the increase, the subsidy structure was changed so that retirees no longer receive a reduced subsidy upon reaching the age of Medicare eligibility. County staff are continuing to work on developing a long-term County strategy for Medicare Part D, which may include elimination of the 25 percent increase in the subsidy at some point in the future. Final recommendations regarding Medicare Part D options will be presented to the Board of Supervisors upon a thorough examination of Medicare Part D plans.

During FY 2009, the average number of subsidy recipients, including new retirees who are eligible to receive the retiree health benefit subsidy, is expected to increase by 92, or 3.9 percent, from 2,330 in FY 2008 to 2,422 in FY 2009. Estimates of the average number of subsidy recipients are based on a review of the projected number of retirements and health subsidy eligibility for personnel already retired from the Fairfax County Employees', Uniformed, and Police Officers Retirement Systems. Retirees who become eligible to receive the subsidy are paid based on the period of eligibility within the fiscal year, which may or may not comprise a full year of payments. It should be noted that in FY 2006, the Board of Supervisors approved an additional benefit to Health Department employees who remained in the Virginia Retirement System (VRS) after their conversion from state to County employment in 1995. Current and future retirees who participate in a County health plan are eligible to receive the differential between the County retiree health benefit subsidy for which the employee is eligible based on years of service, which currently has a maximum of \$220 per month, and that provided by VRS, which has a maximum of \$120 per month. Furthermore, effective July 1, 2006, the County began providing the maximum retiree health benefit subsidy of \$220 per month to those Police officers who were hired before July 1, 1981 and retired or will retire with full retirement benefits with 20, but less than 25, years of service. These Police officers previously received a subsidy of \$190 per month.

#### **Initiatives**

- Provide an appropriate funding level to support the retiree health benefit subsidy and make progress towards reducing the County's unfunded OPEB liability.
- Continue to allow for the timely and accurate distribution of retiree health benefit subsidy payments.
- Estimate actuarial liabilities to comply with GASB's accounting requirements for post-employment benefits other than pensions.
- Invest fund assets appropriately in order to facilitate the capture of long-term investment returns.
- ♦ Continue to develop a long-term County strategy for Medicare Part D, which may include elimination of the 25 percent increase in the subsidy.

<sup>&</sup>lt;sup>1</sup> As part of the <u>FY 2009 Advertised Budget Plan</u>, all activity in Fund 500, Retiree Health Benefits, is moved to Fund 603, OPEB Trust Fund, including 1/1.0 SYE Accountant II position. It should be noted that the retiree health benefit subsidy will continue to be administered by and the position will continue to reside in the Retirement Administration Agency and be financed by Fund 603, OPEB Trust Fund.

#### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$100,590

An increase of \$100,590 in Personnel Services is attributable to the transfer of 1/1.0 SYE Accountant II position from Fund 500, Retiree Health Benefits to Fund 603. This amount includes funding for salary and fringe benefits. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### **♦** Benefit Payments

\$5,783,458

An increase of \$5,783,458 is attributable to the transfer of benefit payments for the retiree health benefit subsidy from Fund 500, Retiree Health Benefits to Fund 603. It should be noted that this amount includes an increase of \$324,788 over the FY 2008 Revised Budget Plan amount of \$5,458,670 in Fund 500. This increase is due to the projected increase in the number of retirees receiving the subsidy.

#### **♦** Investment Services and Administrative Expenses

\$405,368

An increase of \$405,368 in Operating Expenses is associated with anticipated investment services fees and administrative expenses.

#### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$1,041

An increase of \$1,041 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

#### **♦** Reduced Transfer from GASB 45 Liability Reserve

\$0

The Board of Supervisors approved a \$5,100,000 reduction in the transfer from the GASB 45 Liability Reserve in Fund 506, Health Benefits Trust Fund, to Fund 603. A \$15,000,000 transfer was proposed as part of the FY 2009 Advertised Budget Plan for the County's contribution towards the ARC (annual required contribution) to address the actuarial accrued liability under GASB 45. As a result of the Board decision, the contribution towards the ARC will be reduced from \$15,000,000 to \$9,900,000 in FY 2009.

#### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$0

As part of the FY 2007 Carryover Review, the Board of Supervisors approved the transfer of \$48,200,000 from the GASB 45 Liability Reserve in Fund 506, Health Benefits Trust Fund, to Fund 603 in order to begin to invest the funds accumulated to capture long-term investment returns and make progress towards reducing the unfunded actuarial accrued liability under GASB 45.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> As part of the <u>FY 2009 Advertised Budget Plan</u>, all activity in Fund 500, Retiree Health Benefits, has been transferred to Fund 603, OPEB Trust Fund in order to address the implementation of Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEBs). It should be noted that any balances remaining in Fund 500 at the end of FY 2008 will be moved to Fund 603 as part of the *FY 2008 Carryover Review*.

<sup>&</sup>lt;sup>2</sup> The Reserved Ending Balance in Fund 603, OPEB Trust Fund represents the amount of assets held in reserve by the County to offset the estimated Unfunded Actuarial Accrued Liability for other post employment benefits. The balance is anticipated to grow each year as a result of contributions and investment returns. The \$54.9 million reserve in FY 2009 will be applied toward the liability of \$379.9 million calculated as of July 1, 2007.

# Fund 691 Educational Employees' Supplementary Retirement

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Focus**

Fund 691, Educational Employees' Supplementary Retirement, funds retirement benefits for contributing members. Funding is provided from employee and employer contributions and return on investment of the Fund's assets. FY 2009 expenditures are estimated at \$177.0 million.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$3,416,675.00 has been reflected as a decrease to FY 2007 revenues and an audit adjustment of \$2,057,761.00 has been reflected as an increase to FY 2007 expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The FY 2008 Revised Budget Plan reflects adjustments adopted by the Fairfax County School Board on March 27, 2008 during their FY 2008 Third Quarter Review.

### **Focus**

Fairfax County, in partnership with Loudoun County, formed the Route 28 Highway Transportation Improvement District (District) on December 21, 1987. Under Virginia law such a district may be formed only upon the joint petition of owners of at least 51 percent of the land area in each county which is within the boundaries of the proposed district and which has been zoned or is used for commercial or industrial purposes. The District was formed to provide improvements to State Route 28 which connects State Route 7 in eastern Loudoun County to U.S. Route 50 and Interstate 66 in western Fairfax County, running approximately parallel to the County's western border. State Route 28 provides access to Dulles International Airport, along with the Dulles Access Road, which connects the Capital Beltway to Dulles International Airport. This District was formed upon landowner petition to accelerate planned highway improvements proposed by the state which relied primarily on slower pay-as-you-go financing from the Northern Virginia region's share of the State Primary Road Fund allocation. Under the terms of the agreement with the state, the District will fund 75 percent of defined Phase I and Phase II improvements and the state will fund 25 percent.

The District, administered by a Commission appointed by the Board of Supervisors of both counties, may subject the owners of industrial and commercial property within the District to a maximum additional tax assessment of 20 cents per \$100 of assessed value. These funds, in addition to funds received through the State Primary Road Fund allocation formula, are to be used for the road improvements and debt service on bonds issued by the state. Improvements completed for Phase I of the Route 28 project included widening the existing road from two to six lanes and upgrading three major intersections. Legislation authorizing the issuance of Commonwealth Transportation Board (CTB) revenue bonds up to \$160.7 million plus issuance expenses to finance the Phase I improvements to Route 28 was enacted during the 1988 Virginia General Assembly and became effective July 1, 1988. This legislation stipulates that the additional tax assessment in the District and funds allocated to the highway construction district, in which Route 28 lies, would reimburse the state for its debt service payments on its bonds. The Commonwealth issued \$138.5 million in revenue bonds for the District in September 1988.

Fairfax County and Loudoun County have entered into a contract with the District and agreed to levy an additional tax assessment, as requested by the District, collect the tax, and pay all tax revenues to a Fiscal Agent for distribution. The contract specifies that the counties shall pay all revenues collected on behalf of the District to Trustees jointly designated by the CTB and the counties, and the District in turn shall notify the County of the required payment and request a rate sufficient to collect that amount, up to a maximum of 20 cents per \$100 of assessed value. The rate is set at 20 cents per \$100 dollars of assessed value and to date; the District Commission has not proposed a rate reduction in anticipation of expenditure requirements for the next and final phase of planned improvements.

In FY 2009, an amount of \$13,351,114 has been included for Fairfax County collections based on estimated tax collections and an allowance for potential property buy-outs, late payments and penalties.

In August 2002 Fairfax County, Loudoun County, the Commonwealth Transportation Board and the Fairfax County Economic Development Authority (EDA) entered into contractual agreements to provide for construction of a portion of additional improvements on Route 28 (Phase II improvements). Specifically, six separated grade interchanges to be constructed to ease traffic congestion. Funding totaling \$201.7 million was made available from a joint financing plan providing \$75.4 million from CTB funds allocated from the state six-year primary and secondary road plan, approximately \$36.4 million of remaining CTB Route 28 bond authorization, and approximately \$90.0 million of bond funds issued by the EDA in 2003 and 2004 and supported by the two counties. Construction of the first six interchanges is nearly complete.

In October 2006, the CTB, the counties and the Fairfax County EDA approved the financing plan for the construction of the final four interchanges at Willard Road, Frying Pan Park Road, CIT/Innovation Drive and Nokes Boulevard. The plan includes acceptance of a \$5.0 million grant and a \$20.0 million loan from the State Transportation Partnership Opportunity Fund (TPOF); and issuance of Route 28 District revenue bonds; and use of surplus District tax revenues to fund the \$111.1 million project estimate. Fairfax County EDA Revenue bonds are planned to be issued in two series. A total of \$41.505 million was issued on February 27,

2007 and an issue of approximately \$45.0 million is anticipated in July 2008. It should be noted that on July 24, 2007, the CTB notified the District Commission that an additional \$23,936,772 was approved in the CTB's FY 2008-2013 Six Year Improvement Plan as payment toward the State Obligation under the District Contract. Therefore, this additional funding fully replaced the \$20,000,000 originally planned for the TPOF loan.

All bond issues will be fully supported by District tax revenue. In order to maximize revenues available for new debt service, the CTB refunded its outstanding 1992 bonds in October 2002. At the same time the CTB issued \$36.4 million of new bonds for construction, representing the balance of bond authorization remaining from the 1988 acts of the General Assembly. The Fairfax County EDA issued Transportation Contract Revenue bonds in the amount of \$33.375 million in October 2003 and issued \$57.4 million in August 2004. In the event that District revenues are not sufficient to make debt service payments, the state bonds are backed by the appropriated state allocations to the Northern Virginia Transportation District. The EDA bonds will be supported by a Revenue Stabilization Fund (RSF) equal to maximum annual EDA debt service created from surplus revenue collections. As a further credit enhancement for the proposed EDA bonds, both Fairfax and Loudoun Counties have pledged a joint moral obligation in the event that tax revenues and the RSF are not sufficient to support EDA debt service. Also, the Series 2004 Bonds are guaranteed under a separate insurance policy by MBIA Insurance Corporation. The following chart depicts the financing structure as of December 2007:

<sup>&</sup>lt;sup>1</sup> FY 2003 represents partial year tax revenue and interest collections from October 1, 2002 to April 1, 2003. Tax district revenues for FY 2004 and FY 2005 represent all revenue collected from April 2, 2003 through April 1, 2004 and April 2, 2004 through April 1, 2005, April 1, 2006 respectively. FY 2007 is an estimate pending audited figures, FY 2008 and FY 2009 are estimates of combined Fairfax and Loudoun collections plus estimated interest earnings on revenue, debt service reserve and revenue stabilization fund accounts. Actual revenues may also include district buy-out proceeds.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Fiscal Agent Payments

\$2,140,881

An increase of \$2,140,881 in estimated payments to the fiscal agent which includes taxes due of \$12,351,114 based on the anticipated January 1, 2008 assessment and an allowance for one time buyouts and late payments of \$1,000,000.

<sup>&</sup>lt;sup>2</sup> CTB Revenue Refunding and Revenue Bond Debt Service issue of September 26, 2002.

<sup>&</sup>lt;sup>3</sup> Based on completion of EDA bond issues in 2003 and 2004 for an aggregate amount of \$90,785,000. Sale of the Series 2003 bonds in the amount of \$33,375,000 was completed on October 29, 2003. Sale of the Series 2004 bonds in the amount of \$57,410,000 was completed on August 19, 2004.

Fairfax County EDA Transportation Contract Revenue Bonds (Route 28 Project) 2007 A in the amount of \$41,505,000 was completed on February 27, 2007.

Balance Forward represents funds on account with CTB and transferred to the Fiscal Agent upon refunding the 1992 bonds and new money bonds issued October 2002. An amount of \$10.9 million is reserved to fund the Revenue Stabilization Fund (RSF). Excess revenues available after achieving full RSF funding are held with the Fiscal Agent and may be used to fund deficiencies in the Debt Service Fund, additional Phase II improvements or reduce the tax rate in accordance with the District Contract. The tax rate may not be reduced until the District has recorded at least two successive years of excess revenues.

<sup>&</sup>lt;sup>6</sup> An amount of \$1.5 million was transferred to VDOT in September 2005 for 10 percent design of the last four interchanges.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### ♦ Expenditure Increase

\$781

FY 2008 expenditures increased \$707 or .006 percent over the <u>FY 2008 Adopted Budget Plan</u> total of \$11,209,526 based on a higher than anticipated ending balance. All taxes collected, as well as tax district buy out funds, are remitted to the fiscal agent on a monthly basis as collected. In addition, there was an increase of \$74 in beginning balance related to an FY 2007 audit adjustment which increased expenditures available for remittance to the fiscal agent in FY 2008.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Expenditure Increase

\$1,335,517

FY 2008 expenditures increased \$1,335,517 or 11.9 percent over the FY 2008 Revised Budget Plan total of \$11,210,233. This is primarily due to actual real estate assessments being higher than originally forecasted for budgetary purposes. All taxes collected, as well as tax district buy out funds, are remitted to the fiscal agent on a monthly basis as collected.

## **FUND STATEMENT**

### **Fund Type G70, Agency Funds**

### Fund 700, Route 28 Tax District

| Total Expenditures                     | \$10,400,150      | \$11,209,526                      | \$12,545,750                      | \$13,351,114                         | \$13,351,114                      |
| <b>Total Disbursements</b>             | \$10,400,150      | \$11,209,526                      | \$12,545,750                      | \$13,351,114                         | \$13,351,114                      |
|  |                   |                                   |                                   |                                      |                                   |
| <b>Ending Balance</b> <sup>2</sup>     | \$2,653           | \$0                               | \$0                               | \$0                                  | \$0                               |
| Tax rate/per \$100 Assessed Value      | \$0.20            | \$0.20                            | \$0.20                            | \$0.20                               | \$0.20                            |

<sup>&</sup>lt;sup>1</sup> Estimate to provide for sufficient appropriation includes projected tax collections based on assessments, and allowances for late payments, penalties and permitted property buy-outs. All monies collected are required to be remitted to the Fiscal Agent monthly as collected.

<sup>&</sup>lt;sup>2</sup> As all monies collected are required to be remitted to the Fiscal Agent monthly as collected the ending balance should be zero unless as of the closing period there were pending remittances to the Fiscal Agent.

### Introduction

The Housing Overview section describes the programs and projects operated by the Fairfax County Department of Housing and Community Development (HCD) and the multiple sources of funds that support these activities.

As a County agency, HCD undertakes many programs on behalf of the Board of Supervisors. HCD also serves as the administrative arm of the Fairfax County Redevelopment and Housing Authority (FCRHA), a separate legal entity that was established in 1966 pursuant to Chapter 1, Title 36 of the <u>Code of Virginia</u>. FCRHA's roles include planning, design, production, rehabilitation and maintenance of housing, for low- and moderate-income households, and assisting in the revitalization of neighborhoods in Fairfax County. Eleven Commissioners are appointed to the FCRHA for four-year terms by the Board of Supervisors. A chairman and vice-chairman are then selected by a vote of the commissioners.

The sources supporting HCD's operations include County funds, General Obligation Bonds, federal grants, private capital, revenue from program operations (e.g., developer fees, rent from tenants of housing owned by the FCRHA and income from repayment of loans) and, interest income. As a result of these multiple, complex funding streams, HCD has 20 funds. Some funds are appropriated by the Board of Supervisors, while others are allocated by the FCRHA. All are included in this budget in order to provide a complete financial overview. These 20 funds encompass all of the operations of HCD/FCRHA with the exception of several housing developments that are operated by outside management companies under contract with the FCRHA and/or are owned by the FCHRA in partnership with private investors. Separate financial records are maintained for these developments.

FY 2009 anticipated expenditures supporting the HCD and FCRHA activities total \$107,455,537 including \$8,605,870 in General Fund support, \$38,037,773 in other County appropriated funds, and \$60,811,894 in non-County appropriated funds. Total revenue for FY 2009 is anticipated to be \$106,091,550 as shown on the Consolidated Fund Statement. Receipts from federal/state sources are anticipated to be \$52,149,575, or 49 percent of total funding sources. More detailed descriptions of FY 2009 funding levels may be found in the narratives for each fund following this Overview.

Because HCD's programs are supported by multiple sources of funds, the Agency Mission and Focus, Program Goals, Key Accomplishments, FY 2009 Initiatives, and Performance Measures are consolidated in this Overview rather than appearing with each fund. Performance measures for FY 2009 are generally consistent with FY 2008 performance measures; however those related to Commercial Revitalization were transferred to the Office of Community Revitalization and Reinvestment within the Office of the County Executive, and revised measures for the Public Housing, Housing Choice Voucher and Fairfax County Rental Programs are included for FY 2008 and subsequent years. This Overview also provides summary information on the organization, staffing and consolidated budget for HCD.

### Mission

To preserve and increase opportunities for affordable housing in Fairfax County based on need, community priorities and the policy of the Board of Supervisors and the FCHRA. Driven by a community vision, to lead efforts to revitalize older areas of Fairfax County, to spur private reinvestment, maximize existing infrastructure and public investment, reverse negative perceptions, and create employment opportunities.

### **Focus**

HCD connects with the residents of Fairfax County at their roots – home, neighborhood and community. All HCD programs, activities and services revolve around this important link and can be grouped in three service areas: Affordable Housing, Neighborhood Revitalization, and Capital Formation and Capacity Building.

**Affordable Housing** supports individuals and families in their effort to find homes that are safe, affordable, and stable.

**Neighborhood Revitalization** focuses on preserving and improving neighborhoods.

**Capital Formation and Capacity Building** focuses on development of partnerships with private investors and other public agencies resulting in capital investment and financial support for the HCD and FCRHA mission.

These service areas encompass all of the activities of the 20 HCD funds. The total FY 2009 Adopted Budget Plan of \$107.5 million can be distributed to these service areas and the general costs of running the department. It should be noted that many of the functional areas of HCD cross these service areas, so an exact allocation to the service areas is not possible. The FY 2009 Adopted Budget Plan is \$57.9 million less than the FY 2008 Revised Budget Plan due to previously allocated balances that have been carried over into FY 2008 to allow for continuation of the capital projects.

Highlighted below are the main functions included in each of the service areas. Additional information concerning the goals, accomplishments and key initiatives in each of these areas can be found after this summary.

### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Fulfilling its purpose of providing opportunities for affordable housing and economic vitality in thriving diverse communities;
- o Generating resources through the identification of new resources, new capital and new partnerships to support and enhance programs that serve the missions of HCD and the FCRHA;
- o Producing, retaining, acquiring and restoring quality affordable residences, neighborhoods and communities;
- Ensuring the efficient management and maintenance of affordable housing in FCRHA programs in a manner consistent with or exceeding community standards;
- o Providing opportunities to preserve, restore and improve the economic vitality of affordable residential neighborhoods and commercial neighborhoods; and
- o Promoting the planning and implementation of technological innovations in HCD.

## **Affordable Housing:**

### **Affordable Housing Preservation**

As of April 2008, a total of 2,210 affordable units have been preserved for both homeownership and rental purposes in a variety of large and small projects. Of that number, 252 units are preserved as affordable housing for periods of five years or less, and 1,958 units are preserved for 20 years or longer. The FCRHA's major affordable housing preservation successes include: Wedgewood Apartments, 672 units (Braddock District); Janna Lee Village, 319 units (Lee District); Madison Ridge, 216 units (Sully District); Crescent Apartments, 180 units (Hunter Mill District); Coralain Gardens, 105 units (Mason District); Sunset Park Apartments, 90 units (Mason District); and, Hollybrooke II, 98 units and Hollybrooke III, 50 units (Mason District).

### First-Time Homebuyers Program and Moderate Income Direct Sales Program

This program offers new and resale homes at below market prices. These homes are built by private developers and are located within neighborhoods throughout the County. HCD markets the homes and, in most cases, provides financing assistance to first-time homebuyers. In FY 2007, a total of 142 families purchased homes via the Fairfax County First-Time Homebuyers program. Through FY 2007, 1,792 homes have been sold to first-time homebuyers as a result of these programs. At the beginning of FY 2008, a new Homeownership Division was created in HCD to reflect the growing volume of work related to this function.

### Below-Market Mortgages and Downpayment and Closing Costs Loans

The Homeownership Division facilitated the administration of \$12,104,485 of below market mortgage funds in FY 2007. This included 51 loans to families through the Virginia Housing Development Authority's (VHDA) SPARC first-trust mortgage program, 44 loans through the VHDA HOME STRIDE below-market second trust, and eight loans totaling \$62,217 in federal American Dream Downpayment Initiative (ADDI) funds. In addition, the Board approved a new below-market mortgage product for Fairfax County first-time homebuyers in FY 2007, the Homebuyer Equity Loan Program (HELP). This new program uses federal Home Investment Partnership (HOME) grant funds to provide loans of up to \$91,767 for income-eligible households. In FY 2007, the FCRHA made 28 HELP loans totaling an investment of \$2,351,152 in low and moderate-income homeownership in Fairfax County.

### **Homeownership Resource Center**

The Homeownership Resource Center, located on the first floor of the FCRHA headquarters building on Pender Drive (Providence District), serves approximately 600 persons per month and provides information on homeownership, homeownership education, one-on-one and group counseling sessions, opportunities to meet with lenders, required applicant briefings, and coordination of resources for current and prospective first-time homebuyers. In FY 2007, the Homeownership Resource Center responded to nearly 5,000 telephone calls and over 2,400 walk-in clients.

#### **Homeownership Education**

Through a partnership with VHDA, local lenders and housing professionals, six-hour homeownership education classes were provided to potential Fairfax County homebuyers in FY 2007. Completion of the class qualifies graduates to participate in the First-Time Homebuyers Program and the ability to access below-market financing, down payment and closing cost assistance. Classes have been offered in English, Spanish, Vietnamese, Korean, and American Sign Language. During FY 2007, the Fairfax County First-Time Homebuyers Program conducted 21 orientation sessions serving 1,499 attendees, and 33 application sessions serving 381 attendees. Thirty VHDA homebuyer classes were held, serving 923 participants. In addition, first-time homebuyers learn about maintaining their home and their responsibilities as homeowners living within their community. In FY 2007, post-purchase education and counseling was provided on a quarterly basis to participants in the Housing Choice Voucher homeownership program. Also in FY 2007, HCD began providing post-purchase counseling, at settlement, for purchasers of Affordable Dwelling Units (ADUs) being re-sold through the FCRHA.

### **Foreclosure Prevention**

Affordable dwelling units (ADU) were preserved through FCRHA intervention to stop foreclosures due to over-financing, which would have extinguished the affordability covenants. In FY 2009, it is anticipated that Fairfax County will continue to move to aggressively address the market foreclosure crisis. The primary component of the County's planned three-pronged approach is continuing to assist to homeowners in distress via counseling, and expanding counseling resources. Second, it is anticipated that the proposed "Silver Lining Initiative" will be implemented using the existing Home Equity Loan Program (HELP) structure; this initiative is expected to provide affordable first and second trust financing for up to 100 low- and moderate-income first-time homebuyers purchasing a foreclosed home. Neighborhood preservation is the third component of Fairfax County's planned response, and is expected to include strategic purchase, rehabilitation and re-sale of up to 10 foreclosed homes that have fallen into neglect, as well as low-cost loans to income-qualified homeowners through the Home Improvement Loan Program (HILP) to reduce the need for continuous maintenance and improve the appearance and livability of the house.

### **Compliance Monitoring**

Compliance monitoring is an ongoing activity which encompasses a variety of HCD programs. This activity includes monitoring of:

- Over 1,400 properties sold through the First-time Homebuyer Program (including "for-sale" Affordable Dwelling Units (ADUs));
- > 939 privately-owned and operated rental ADUs;
- More than 750 committed Workforce Housing units;

- Over 3,000 Fairfax County/FCRHA-owned Public Housing and Fairfax County Rental Program (FCRP) units; and
- Over 3,000 Housing Choice Vouchers.

In addition, HCD also monitors the use of federal funds received by Fairfax County from the Community Development Block Grant (CDBG) and HOME Investment Partnership (HOME) programs and granted to a variety of organizations.

### **FCRHA Rental Housing**

This function provides housing with rents commensurate with income. It includes properties under the Fairfax County Rental Program (FCRP) for those with modest means, as well as properties owned by limited partnerships affiliated with the FCRHA. In addition, it encompasses properties under the Fairfax County Public Housing Program and rental subsidies under the Fairfax County Housing Choice Voucher Program for those with very low incomes. These resources provide housing for over 6,000 low-and moderate-income households.

### **FCRHA Development Activities**

HCD, in conjunction with the FCRHA, facilitates the development of affordable housing by non-profit and for-profit developers through incentives and financing. HCD and FCRHA also build and own housing for low-and moderate-income families and individuals, and households with special needs. In addition, FCRHA partners with private investors, through limited partnerships, to develop and operate affordable housing.

### **Active Adult Housing and Assisted Living**

This activity provides 408 affordable active adult rental apartments in Fairfax, Herndon, Springfield, Lincolnia, in McLean, and the Mount Vernon/Gum Springs areas of Fairfax County, as well as 112 beds of assisted living at Braddock Glen in Fairfax and at The Lincolnian in Alexandria (Fairfax County).

### **Relocation Monitoring for Federally Funded Projects**

This program provides technical assistance and monitoring for preservation initiatives. This activity also includes relocation services for all federally-funded projects throughout the agency. Staff conducted relocation reviews of 46 projects potentially using federal Community Development Block Grant (CDBG) and HOME funds in FY 2007.

### **Relocation Advisory Services for Condominium Conversion**

These services provide technical assistance to developers under both the Fairfax County Relocation Guidelines and <u>Fairfax County Code</u> for projects where there is substantial rehabilitation and condominium conversion. Technical assistance under the federally mandated Uniform Relocation Act is provided if federal funds are involved in the project.

#### Affordable/Workforce Housing

This initiative is based on the recommendation of the Preservation Action Committee, a citizen task force appointed by the Board of Supervisors, to address the loss of affordable/workforce housing in the County. Strategies include providing incentives to owners of affordable units and financing projects which preserve affordable housing. The Board of Supervisors has dedicated revenue equivalent to the approximate value of one cent of the Real Estate Tax rate revenue for this purpose in Fund 319, The Penny for Affordable Housing Fund. The Board has also created a Workforce Housing Program through amendments to the Fairfax County Comprehensive Plan and Zoning Ordinance, and the adoption of a new Board policy. The Workforce Housing Program, based on the recommendations of the Board-appointed High-Rise Affordability Panel, is a proffer-based incentive system to encourage developers to provide workforce housing in the County's mixed-use development centers. The Board's action sets forth the expectation that 12 percent of all new residential units will be affordable to a range of moderate-incomes up to 120 percent of the Area Median Income (AMI). As of January 2008, the Board of Supervisors had approved 13 rezoning applications that include a total of 757 proffered workforce housing units.

### **Neighborhood Revitalization:**

### Home Improvement Loan Program and Home Repair for the Elderly

These activities provide loans to homeowners and some landlords to fix up their properties. In addition, there is a crew to assist qualified elderly homeowners in making minor repairs at no charge. In FY 2007, over \$435,000 was lent to homeowners for repairs and improvements to their property and 116 qualified disabled or elderly homeowners received free repairs.

### **Neighborhood Improvements**

This activity is targeted at preservation and improvement in residential neighborhoods designated under the Community Improvement Program and in designated Conservation and Redevelopment areas. Following a community planning process and adoption of plans, the program also focuses on improvements to street, sidewalk, storm drainage and other infrastructure designed and constructed in conjunction with the Department of Public Works and Environmental Services (DPWES).

#### **Blight Abatement**

This activity addresses resident concerns about specific properties which are abandoned, dilapidated or otherwise unsafe. Efforts are made to encourage property owners to abate identified blight. If these efforts fail, the County may take direct action to repair or demolish the property. During FY 2007, HCD cleared 71 spot blight cases; 34 cases were abated or remediated; and 37 cases were determined to be not blighted.

### **Capital Formation and Capacity Building:**

### **Funding Opportunities**

This activity focuses on identifying and applying for available funding opportunities to leverage and supplement County funds for projects and programs. It includes federal entitlement grants such as Community Development Block Grant (CDBG) and HOME Investment Partnership Grant (HOME), other federal, state and local grants and loans, and private financing.

#### **Partnering**

This activity links the FCRHA financing abilities with those of the private sector (non-profit and for-profit) to generate additional financial resources. Non-profit corporations or limited liability corporations (LLC) formed by the FCRHA partner with private investors and benefit from Federal Low Income Housing Tax Credits to fund FCRHA affordable housing for families and seniors. In addition, the FCRHA issues revenue bonds to raise funds from private investors to fund affordable housing and community facilities.

### Consolidated Plan/Consolidated Community Funding Advisory Committee (CCFAC)

HCD provides leadership in developing and implementing the County's annual Consolidated Plan in conjunction with the CCFAC, a citizen committee. The Consolidated Plan is the required annual application for several entitlement grants to the County from the U.S. Department of Housing and Urban Development (HUD), which provided about \$9 million for local housing and community development programs in FY 2008.

### **Human Services**

This activity provides resources to the County's non-profit partners through the Consolidated Community Funding Pool (CCFP) for critical human services such as youth programs, housing support services, and services targeted toward the County's immigrant population. A significant portion of the funding comes from CDBG, administered by HCD, which also supports CCFP planning and administers contract awards. CCFP will provide approximately \$11.0 million in total funding for these services in FY 2009.

# Affordable Housing Service Area 🚻 🕰 🛱

### Goal

To implement the Board of Supervisors' Affordable Housing Goal that "opportunities should be available to all who live or work in Fairfax County to purchase or rent safe, decent, affordable housing within their means." This goal will be achieved through providing affordable housing preservation and development, technical assistance, and financing services in conjunction with the FCRHA and both for- and non-profit community partners; managing and maintaining quality affordable rental housing; administering rental housing subsidies in accordance with federal regulations and local policies; and providing homeownership opportunities to eligible households.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision\*

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative | Fund                |
|---|-------------------|-----------------------|---------------------|
| Continue to implement strategies to address the loss of affordable/workforce housing in the County, including providing incentives to owners of affordable units and financing projects which preserve affordable housing. Ensure preservation of existing ADU's through the aggressive pursuit of over-financing and foreclosure prevention techniques. Pursue strategies to serve more individuals and families earning 50 percent or less of the Area Median Income and persons with disabilities. | <b>∀</b>          | ¥                     | 144,<br>319         |
| In FY 2008, acquired the Wedgewood Apartments, a 672-unit rental complex, in order to preserve it as affordable rental property. Will seek permanent financing of the acquisition in FY 2009. (Braddock District)   |                   |                       | 319                 |
| Purchased 8 units at the ParcReston condominium development that will be used for affordable housing. This investment also served as partial payment on five additional units at ParcReston that will be acquired in FY 2008. (Hunter Mill District)  | ✓                 |                       | 142,<br>319         |
| Purchased 13 units at the Legato Corner condominium development for the FCRHA Magnet Housing Program, as part of a partnership agreement with the Fairfax County Public Schools (FCPS), which established preferences for teachers in critical field areas, such as special education and science. (Springfield District)   | ¥                 |                       | 144,<br>319         |
| Purchased four units at the East Market condominium development, three of which will be used as Magnet Housing for FCPS bus drivers. (Springfield District)   |                   |                       | 145                 |
| Convert 46 FCRHA Public Housing units at Audubon to single resident occupancy (SRO) housing. (Lee District)   |                   |                       | 144,<br>969,<br>966 |
| Work with members of the Yorkville Cooperative to pursue the acquisition and preservation of 237 affordable units by the FCRHA. (Providence District)   |                   |                       | 144,<br>319         |

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative | Fund                |
|---|-------------------|-----------------------|---------------------|
| Provide homeownership counseling and services to tenants in Public Housing through the HUD-funded Family and Homeownership Program.   |                   |                       | 143,<br>966         |
| Recommend revisions for the future expansion of the Housing Choice Voucher Homeownership program.   |                   | V                     | 142,<br>145,<br>966 |
| Provide rehabilitation grants for Affordable Dwelling Units and Moderate Income Direct Sales properties.  |                   | V                     | 145                 |
| Continue to improve the property security audit program through greater involvement and coordination with residents, managers, and the Property Improvement and Maintenance Division. Recent successes include Old Mill Gardens, Murraygate, and Audubon.   | ð                 |                       | 941,<br>967         |
| Implement the HUD Resident Opportunity and Self-sufficiency (ROSS) grant-funded Public Housing Homeownership Program. Target families in the "flat rent" program (i.e., rent paid by residents of Public Housing whose income-based rent exceeds the market rent for the property) and those participating in the Family Self-Sufficiency (FSS) program.  |                   | ¥                     | 965                 |
| Continue to provide emergency time-sensitive assistance and housing counseling to Huntington Flood victims though the Home Improvement Loan Program. Implemented a new program to reimburse Huntington residents in the flood zone for flood insurance costs. The program began in May 2007, and had 53 applications by the April 2008.   |                   |                       | 340                 |
| Identify opportunities to link affordable housing preservation activities with the goals of the countywide ten-year plan to end homelessness.   |                   | ₫                     | TBD                 |
| As part of the County's initiative to end homelessness in 10 years, continue a Partnership for Permanent Housing program, which provides Tenant-Based Rental Assistance (TBRA) funds to move up to 25 homeless families from the County's shelters and transitional housing into stable affordable rental housing, and eventually to homeownership. As of April 30, 2008, 25 families were participating in the program.  | V                 | ¥                     | 145                 |
| Continue to assist low-income first-time homebuyers through the Home Equity Loan Program (HELP) to close the gap between an affordable first mortgage and the sales price of a market rate home in the County. HELP participants receive up to \$91,767 in homebuyer assistance; up to \$21,767 in down payment/closing cost assistance and up to \$70,000 in a second mortgage. Two loans totaling \$177,680 were processed in FY 2008 through April 30, 2008. | ¥                 | ¥                     | 145                 |

| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative | Fund                        |
|---|-------------------|-----------------------|-----------------------------|
| Continue predevelopment efforts to support the construction of 90 units of active adult housing and associated site improvements at Olley Glen (formerly Little River Glen III). (Braddock District)  | Ŋ                 | ✓                     | 319,<br>340,<br>948         |
| Construct the Lewinsville Senior Complex which includes: 1) a new 59,000 square foot building containing 60 beds of Assisted Living; 2) a commercial kitchen and dining facility; 3) a wing to include 22 units of active adult housing; 4) renovation of the existing 38,000 square foot building to accommodate up to 80 seniors in an expanded Senior Center, two adult day health care centers to serve up to 40 seniors each, two child day care facilities with upgraded playgrounds to serve approximately 200 children, and site improvements to improve parking, lighting and landscaping; and 5) providing associated road improvements. (Dranesville District) |                   | ¥                     | TBD                         |
| Adopted a new Universal Design Policy governing construction and renovation of FCRHA-owned multifamily properties and projects financed through the Affordable Housing Partnership Program (AHPP).  |                   |                       | 142,<br>144,<br>145,<br>319 |
| Provided financing and consultation to the District Home in the development of Birmingham Green, an affordable assisted living facility that is adjacent to the existing nursing home previously developed by the FCRHA.  | ď                 |                       | 145                         |
| Continue to expand the Magnet Housing program, including construction of Glenwood Mews townhouses (15 units of Magnet Housing) and predevelopment of the West Ox Road project (approximately 30 units of Magnet Housing plus an on-site training facility).   | V                 | ¥                     | 948                         |
| Purchased the 180-unit Crescent Apartment complex on 16.5 acres in Reston to preserve affordable rental units for lower-income families in the County. Continue to evaluate the potential for additional development on the site, in coordination with the Lake Anne revitalization area. (Hunter Mill District)  | V                 | ¥                     | 319                         |
| Continue to assist in financing and providing ongoing rental subsidies to eligible tenants at Chesterbrook, a new property with 97 units of assisted living on property owned by the National Capital Presbytery in the McLean area of the Dranesville District.  | lacksquare        | lacksquare            | 966,<br>144,<br>142         |
| Continue to provide opportunities for low- and moderate-income families to purchase their first home. In FY 2008, through April 2008, 94 families purchased homes using the Fairfax County First-Time Homebuyers Program.   | ď                 |                       | 142                         |
| In FY 2007, federal American Dream Downpayment Initiative (ADDI) Program funds were used to provide eight loans to first-time homebuyers totaling \$68,217. ADDI Program funds have been folded into the Home Equity Loan Program (HELP) for FY 2008 and subsequent years.  | ¥                 | ¥                     | 142,<br>145                 |

| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative | Fund                |
|---|-------------------|-----------------------|---------------------|
| Continue operation of the Homeownership Resource Center to assist low- and moderate-income households who are interested in becoming homeowners. In FY 2008, through April 30, 2008, the Center served 1,653 walk-ins and 1,840 telephone inquiries.  | ď                 | ð                     | 142                 |
| Explore lease to purchase options for eligible FCRHA tenants interested in becoming homebuyers.   |                   | V                     | 145                 |
| Renovated 48 units at Penderbrook Apartments (Providence District) with new kitchen cabinets, appliances, windows, and siding in FY 2007 to ensure that FCRHA properties provide an attractive, safe and decent living environment for tenants.   |                   |                       | 969                 |
| Rehabilitate 195 units at Cedar Ridge Apartments (Hunter Mill District).  |                   | V                     | 144                 |
| Rehabilitate and modernize 154 Public Housing units at Kingsley Park (Providence District) and Audubon (Lee District) properties.   |                   | Y                     | 967,<br>969         |
| Connecting People and Places  | Recent<br>Success | FY 2009<br>Initiative | Fund                |
| Encourage public/private partnerships for the development of workforce and affordable housing on County-owned land.   |                   | V                     | 319                 |
| Continue to provide innovative, residential support services to disabled Fairfax County residents participating in the Housing Choice Voucher and Public Housing programs in partnership with a local non-profit, Psychiatric Rehabilitation Services. Services are made possible through a HUD Resident Opportunity and Supportive Services Grant. |                   |                       | 965,<br>967         |
| Continue a Magnet Housing partnership with INOVA Health System to provide affordable housing close to hospitals for nursing program students. Townhomes completed in FY 2008 at Glenwood Mews are rented to nurses and other allied health providers working for Inova Health System.   | ð                 | <b>V</b>              | 144                 |

<sup>(1)</sup> The \$3:\$1 ratio includes both the Penny for Affordable Housing (Fund 319) and Housing Trust Fund (Fund 144) dollars. The average leveraging ratio for The Penny for Affordable Housing dollars in FY 2007 was \$3.97:\$1.

## **Performance Measurement Results**

In FY 2007, a total of 531 affordable units were preserved via the Fairfax County Redevelopment and Housing Authority's (FCRHA) acquisition, financing, and/or negotiated agreements. For every County dollar expended, an average of \$3.94 was leveraged.

## **Public Housing**

### **Objectives**

♦ To obtain a Public Housing Assessment System (PHAS) rating of 85 percent or better on a 100-point scale in the categories of vacant unit turnaround time, capital fund administration, work order completion, security, unit inspections, self-sufficiency and resident satisfaction.

<sup>(1)</sup> Measure discontinued for FY 2008.

### **Performance Measurement Results**

In FY 2007, the Public Housing program continued to provide high quality housing to nearly 3,000 Fairfax County residents and maintained a high occupancy rate of 99 percent at the properties. Agency indicators in nearly every area of the Public Housing Assessment System (PHAS) are rated very highly, resulting in an overall PHAS rating of 96 percent in FY 2006, the most recent assessment awarded. The cost per client in FY 2007 increased only slightly to \$2,395 per client. Ninety-nine percent of re-certifications were completed on time in FY 2007. The average income served, as a percent of the Area Median Income, was 26 percent in FY 2007 (\$25,515 for a family of four).

<sup>(2)</sup> New measure for FY 2008.

<sup>(3)</sup> This rating covers the fiscal year and is awarded within six months at the end of the fiscal year. A PHAS rating above 90 percent earns the FCRHA a rating of "High Performer."

## **Fairfax County Rental Program (FCRP)**

## **Objectives**

♦ To obtain a Program Assessment rating of 85 percent or better on a 100-point scale in the categories of vacant unit turnaround time, work order completion, security, unit inspections, self-sufficiency and resident satisfaction.

|  | Prior Year Actuals |                   |                            | Current<br>Estimate | Future<br>Estimate |

| Outcome:   |                    |                   |                            |                     |                    |
| FCRP assessment rating (5)   | 78%                | 88%               | 85% / 80%                  | 85%                 | 85%                |

<sup>(1)</sup> For FY 2008 and subsequent years, this measure will be calculated to include residents of all FCRP properties, including those managed by third-party firms. In FY 2007 and prior years, this number only included residents of Fairfax County Rental Program properties under FCRHA management.

- (2) New measure for FY 2008.
- (3) Measure discontinued for FY 2008.
- (4) The estimated income served for FY 2008 and FY 2009 shows the maximum income that can be served in the Affordable Dwelling Units purchased for the FCRP program; actual incomes served are generally significantly lower.
- (5)This assessment is applied to units which are managed by the FCRHA and does not include units that are privately managed.

### **Performance Measurement Results**

In FY 2007, there were 1,783 family housing units in the program, and the cost per client was \$2,446. Occupancy remained at 98 percent and the average income served as a percent of the Area Median Income was 41 percent (\$38,745 for a family of four). Eighty percent of the residents residing in FCRP properties indicated that they were satisfied or very satisfied with the FCRP program. This is a decrease from the FY 2006 actual of 88 percent as the FCRP absorbed a significant number of new units in FY 2007 that resulted in somewhat longer vacancy rates, which had an impact on overall program performance assessment.

## **Section 8**

## **Objectives**

♦ To obtain a Section 8 Management Assessment rating of 85 percent or better on a 100-point scale in the categories of timeliness and quality of inspections, rent calculations, lease-ups and contract enforcement, as well as in nine other areas specified by HUD.

|   | Prior Year Actuals |                   |                            | Current<br>Estimate | Future<br>Estimate |

| HUD SEMAP rating  | 93%                | 86%               | 85% / 103%                 | 85%                 | 85%                |

<sup>(1)</sup> The number of clients housed in FY 2007 declined due to a continued decrease in average household size. However, because of recent additional funding from HUD, the FCRHA anticipates increasing the number of vouchers by approximately 200, resulting in an anticipated 540 additional people served in FY 2008. Should this additional HUD funding not be available in FY 2009, estimates of the number of clients served will be adjusted accordingly.

### **Performance Measurement Results**

HUD changed its Housing Choice Voucher funding methodology from the number of vouchers available to budget authority. As a result, an increase in the average rents as well as an increase in payment standards from 90 percent of the Fair Market Rent (FMR) to 100 percent FMR increased the amount of subsidy per client. This caused a decrease in the number of clients able to be served within the HUD budget authority provided. The number of clients housed in FY 2007 was 8,108 and the average income served as a percent of the Area Median Income was 21 percent (\$19,845 for a family of four). The FCRHA intentionally expended approximately \$500,000 in HAP reserves to fund Housing Choice Vouchers in FY 2007 in anticipation of a potential recapture of those funds by HUD in the future, which resulted in a 102 percent utilization rate for FY 2007. In addition, the FCRHA received bonus points for its successful efforts to deconcentrate poverty among Housing Choice Voucher participants and therefore received a SEMAP rating of 103 percent in FY 2007, which demonstrates highly effective stewardship of this vital federal affordable housing resource.

<sup>(2)</sup> Measure discontinued for FY 2008.

<sup>(3)</sup> New measure for FY 2008.

## **Elderly Housing Programs - Assisted Living**

## **Objectives**

• To accurately track the cost for two subsidized assisted living facilities that contain a total of 112 beds.

<sup>(1)</sup> This indicator includes the new Braddock Glen facility for FY 2008 and FY 2009 estimates. Previously, this measure had only measured the 52-bed Lincolnia facility.

### **Performance Measurement Results**

In FY 2007, this performance measure addressed performance of one assisted living development with 52 beds/units. The cost per client decreased from \$26,176 in FY 2006 to \$21,168 in FY 2007, but is projected to increase in FY 2008 and FY 2009 due to a new methodology that will be used to more accurately depict actual costs. The property maintained a 95 percent occupancy rate in FY 2007.

<sup>(2)</sup> This indicator is in development and will be reported for FY 2009.

## Homeownership

## **Objectives**

♦ To obtain a Program Assessment rating of 95 percent or better on indicators addressing sales rate, foreclosures and rate of participation.

<sup>(1)</sup> Cost also includes staff response to more than 4,900 phone calls and 2,400 walk-ins in FY 2007.

### **Performance Measurement Results**

The number of new and resale units varies from year to year, due to a variety of external factors such as real estate market conditions and the economy. The pace of real estate development in the County determines the timing of the production of affordable dwelling units (ADUS) within new residential developments. In FY 2007, 142 first time homebuyers achieved homeownership utilizing HCD programs, which is 42 more than the FY 2007 estimate, hence a lower cost per new homeowner than estimated. In FY 2007, the service delivery satisfaction rate was 97 percent, higher than the 95 percent in FY 2006.

<sup>(2)</sup> New measure for FY 2008.

# Neighborhood Revitalization Service Area া 🚑 🛱

### Goal

To provide opportunities to preserve, restore and improve the economic vitality of affordable residential neighborhoods and commercial service areas.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision \*

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative | Fund        |
|--|-------------------|-----------------------|-------------|
| Continue the neighborhood improvement program in the Jefferson Manor Conservation Area and ongoing activities associated with neighborhood improvement projects in Bailey's Crossroads, Fairhaven, Gum Springs and James Lee.  | ð                 | ð                     | 144,<br>340 |
| Continue to improve residences through the Home Repair for the Elderly Program. In FY 2008, through April 30, 2008, 106 residences were improved through the program and the average income served by the program was \$17,000, or approximately 25 percent of the Area Median Income for a family of one. | ð                 | ð                     | 142         |

| Cumulative number of properties improved or enhanced since 2000 through County programs | 311               | 568                | 841 / 824                  | 1,061               | 1,310              |

### **Performance Measurement Results**

In FY 2007, 256 properties were improved or enhanced, which was lower than the number estimated because the number of loans related to Huntington-area floods was lower than expected. In addition, \$11 was leveraged for every \$1 in County funds expended.

## **Commercial Area Revitalization**

## **Objectives**

♦ To leverage and/or obtain \$69 in additional funds for every \$1 in County funds spent in commercial service areas.

<sup>(1)</sup> The Department of Tax Administration and DPWES have changed their system for reporting building permits, which is the source of the "Private Investment Funding" number. The actual for FY 2006 is an estimate based on a recent survey of developers conducted by HCD staff. The FY 2007 and FY 2008 Private Investment Funding estimates assume using building permit information, which was the methodology used to develop the estimates and report actual data in FY 2005.

### **Performance Measurement Results**

As part of the FY 2007 Carryover Review, activities related to Commercial Area Revitalization were transferred to the Office of Community Revitalization and Reinvestment within the Office of the County Executive.

# Capital Formation and Capacity Building Service Area া 📮

### Goal

To pursue partnerships with investors, the philanthropic community, the Commonwealth and the federal government that will result in capital investment and financial support for the DHCD and FCRHA mission. In addition, to enhance the potential for successful development and preservation by helping to increase the number of viable development organizations, and assisting these organizations in increasing their development capacity.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision \*

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative | Fund |
|---|-------------------|-----------------------|------|
| Provided funding to AHP Virginia LLC for the preservation and rehabilitation of the Janna Lee Village Apartments, a 319-unit rental complex. The FCRHA owns the land on which the project sits, ensuring long-term affordability. (Lee District)  | ď                 |                       | 319  |
| Provided financing for the acquisition, preservation, and rehabilitation by AHC, Inc. of Sunset Park Apartments, a 90-unit affordable rental complex. (Mason District)  | V                 |                       | 319  |
| Provided financing to AHC, Inc. for the acquisition and preservation of 50 units at Hollybrooke III using The Penny for Affordable Housing Fund. (Mason District)   | lacktriangle      |                       | 319  |
| Provided financing to Fairfield Laurel Glade LLC to refinance the acquisition and provided funding for rehabilitation of Reston Glen Apartments. This joint effort between the FCRHA and Fairfield Residential resulted in the long-term preservation of 40 affordable apartments at this 200-unit property; these 40 units have rents affordable to households earning 50 percent of the Area Median Income (AMI). (Hunter Mill District)  | ð                 |                       | 319  |
| Used federal Community Development Block Grant (CDBG) funds from the Consolidated Community Funding Pool (CCFP) to finance the purchase of one unit by Homestretch for use as transitional housing.   | ð                 |                       | 142  |
| Financed the acquisition of six scattered site units by Good Shepherd Housing for use as low-income rental housing.   | <b>T</b>          |                       | 142  |
| Continue to set aside a portion of Fairfax County's federal Home Investment Partnership (HOME) funds to assist designated Community Housing Development Organizations (CHDO) in developing acquiring and preserving affordable housing. FY 2007 HOME CHDO awardees were: Good Shepherd Housing: \$660,000 for the acquisition of six units to be used as transitional housing units for low-income households; RPJ Housing: \$312,610 for acquisition of one 6-bedroom single family home and bedrooms will be leased as SRO units to low-income tenants with severe mental illness; and Reston Interfaith: \$113,328 for the acquisition of one unit to be used as a transitional housing unit for one low-income household. | ✓                 | ¥                     | 145  |

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative | Fund                     |
|---|-------------------|-----------------------|--------------------------|
| Re-establish the Preservation Loan Fund, which will loan repayments to the Housing Trust Fund.  |                   | V                     | 144                      |
| Refund or refinance high-interest rate financing for FCRHA-owned projects.  |                   | V                     | 948                      |
| Identify strategies to ensure long-term affordability of FCRHA tax credit partnership properties. Tax credit properties nearing the end of Low Income Housing Tax Credit compliance period in FY 2009 are Murraygate (199 units, Lee District), Stonegate (240 units, Hunter Mill District) and Morris Glen (60 units, elderly, Lee District).  |                   | ☑                     | TBD                      |
| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative | Fund                     |
| Continue to promote the FCRHA's Universal Design policy that was adopted in FY 2007 which required that all new multifamily residential structures built by the FCRHA incorporate principles of universal design. Also, multifamily structures renovated by the FCRHA will, to the maximum extent feasible, incorporate the principles of universal design. This new policy is also intended to encourage the incorporation of universal design in projects that are built by developers who seek funding from Fairfax County's Affordable Housing Partnership Program (AHPP). The Fairfax County Board of Supervisors subsequently approved amended AHPP guidelines to reflect the new policy. | Ĭ                 | <b>∀</b>              | 142,<br>144,<br>145, 319 |
| The FCRHA approved partial financing for the development of Olley Glen. The new construction will include 90 units of active adult housing affordable to low-income elderly on the Little River Glen senior housing campus, which already includes 120 units of independent living, a senior center, adult day health care and the Braddock Glen Assisted Living facility. Construction of Olley Glen is projected to begin in mid-2008 if sufficient funding is obtained. (Braddock District)  | ď                 | ☑                     | 142,<br>144,<br>145, 319 |
| Continue to develop various financing plans to promote affordable housing, which includes: predevelopment funds and financing to a nonprofit for the development of Chesterbrook Residences, an assisted living facility; and, permanent financing through the Affordable Housing Partnership Program to Birmingham Green for gap financing to develop an assisted living facility.   | ✓                 | ¥                     | 142,<br>144, 145         |

<sup>&</sup>lt;sup>1</sup> As part of their deliberations on the <u>FY 2009 Adopted Budget Plan</u>, the Board of Supervisors identified funding of \$1,000,000 in Housing Trust Fund balances as a result of the project close-out for Project 013908, West Ox Group that will be carried forward and transferred back to the General Fund. Since these balances are in the *FY 2008 Revised Budget Plan* the beginning balance assumes the availability of these funds and actual adjustments will be identified as part of the *FY 2008 Carryover Review*.

<sup>&</sup>lt;sup>2</sup> Designations are based on fund category, for example, Fund 340, Housing Assistance Programs is included in Capital Projects although some funding is used to support Personnel Services. Fund 949, FCRHA Internal Service Fund, was included as a separate housing fund beginning in FY 1998. Revenues and expenditures for this fund are included in the Consolidated Fund Statement, but do not increase total funding available to the agency. As such, this funding is netted out of the Program Area Summary by Fund.

<sup>&</sup>lt;sup>3</sup> As directed by the Board of Supervisors during its revitalization retreat in December 2006, a new Office of Community Revitalization and Reinvestment has been created in the Office of the County Executive. Funding adjustments, including reallocations from the Department of Housing and Community Development, were made as part of the *FY 2007 Carryover Review*.

Note: Fund 142, Community Development Block Grant, and Fund 145, HOME Investment Partnership Grant, are federally-supported County Appropriated funds and have been reflected under the Federal/State Support Category. While the Board of Supervisors appropriates funding in these Funds by project, the source of revenue is the federal government. The FY 2009 preliminary estimated federal funding for Fund 142, Community Development Block Grant (CDBG), is \$6,162,472 and for Fund 145, HOME Investment Partnership Grant (HOME), is \$2,439,575.

# **Housing and Community Development Program Overview**

### **Housing Fund Structure**

In many cases HCD service areas span multiple elements of the fund structure which follows. For example, staff in the General Fund and the FCRHA Operating support most of the activities of the Department.

### ♦ County General Fund

Fund 001, General Operating

This fund supports positions in Agency 38, HCD, and provides subsidies for the operation of some rental housing programs. Subsidies include support for expenses such as refuse collection, painting, maintenance positions, real estate taxes, and homeowner/condominium fees charged for condominium units owned by the FCRHA.

### ♦ FCRHA General Operating

Fund 940, FCRHA General Operating

This fund includes all FCRHA revenues generated by financing fees earned from issuance of bonds, monitoring and service fees charged to developers, investment income, project reimbursements, consultant fees, and ground rents on land leased to developers. Revenues support operating expenses for the administration of the private activity bonds, the Home Improvement Loan Program staff, and other administrative costs, which crosscut many of the housing programs.

### ♦ Local Rental Housing Program

Fund 941, Fairfax County Rental Program (FCRP)

Fund 941 covers the operation of housing developments that are owned or managed by the FCRHA, other than federally-assisted public housing and certain County-supported rental housing. This includes operating costs for the FCRP units, the Woodley-Hills Estate Mobile Home Park, and projects regulated by the Virginia Housing Development Authority, including group homes for the disabled and mentally handicapped. These latter units are owned and maintained by FCRHA; however, programs for the residents are administered by the Fairfax-Falls Church Community Services Board.

Fund 950, FCRHA Housing Partnerships

Fund 950 was established in FY 2002 to budget and account for revenue and expenditures related to the housing developments owned by partnerships between FCHRA and private investors. Financial records for these partnerships are maintained separately, outside the County financial systems, in order to meet accounting and reporting requirements. However, HCD provides staff support to some of these developments and procures goods and services on behalf of these partnerships which are reflected in Fund 950. Previously, these items were included in Fund 941.

### ♦ Federal Section 8 Rental Assistance

Fund 966, Section 8 Annual Contribution

The Section 8 program is a federal housing rental assistance program for lower income families to assist them in leasing housing in the private marketplace. A portion of rent payments is provided by HUD and is calculated under various formulas, incorporating family income and the fair market rent for various types of housing in the Washington Metropolitan Area. The FCRHA administers the program, providing rental vouchers to eligible participants and rental subsidies to certain housing developments.

## **Housing and Community Development Program Overview**

### ♦ Public Housing Program

- Fund 967, Public Housing, Projects Under Management
- Fund 969, Public Housing, Projects Under Modernization These funds represent the Federal Public Housing Program that supports the operation, modernization, or acquisition of rental housing to be owned and operated by local housing authorities such as the FCRHA. The Public Housing Program had been divided into two separate components: projects in operation and modernization of existing Public Housing facilities. Under the program qualifications for Public Housing, units are leased to low-income tenants, and tenants pay no

more than 30 percent of adjusted income toward dwelling rent or a minimum of \$50 per month.

### ◆ Special Revenue Funds

- Fund 141, Elderly Housing Programs
- Fund 142, Community Development Block Grant (CDBG)
- Fund 143, Homeowner and Business Loan Programs
- Fund 144, Housing Trust Fund
- Fund 145, HOME Investment Partnership Grant (HOME)
- Fund 945, Non-County Appropriated Rehabilitation Loan Program

These funds include housing programs which have a special source of revenue, including rental income, federal/state support, bank funds, or proffered contributions. Elderly Housing Programs in Fund 141 provide for the operation of FCRHA-owned affordable housing for the low- and moderateincome elderly of the County. The CDBG program in Fund 142 is a federal grant that is used to conserve and upgrade neighborhoods through the provision of public facilities, support for community services and stimulation of development of low- and moderate-income housing. The Homeowner and Business Loan Programs in Fund 143 support homeowner assistance, such as the Moderate Income Direct Sales Program, which aids homeowners in the purchase of homes, as well as a federal grant aimed at providing loans to small and minority businesses. Fund 144, Housing Trust Fund, utilizes proffered contributions from private developers, County contributions, and investment earnings to encourage the preservation, development, and redevelopment of affordable housing by the FCRHA, non-profit sponsors, and the private sector. The HOME program in Fund 145 is a federal grant program that supports provision of affordable housing through acquisition, rehabilitation, new construction, and tenant-based rental assistance. Fund 945, Non-County Appropriated Rehabilitation Loan Fund, represents funds raised from private sources for the rehabilitation and upgrading of housing, and works in conjunction with County-appropriated funds in the CDBG and the Homeowner and Business Loan Program funds.

### Capital Projects

- Fund 319, The Penny for Affordable Housing Fund
- Fund 340, Housing Assistance Program
- Fund 341, Housing General Obligation Bond Construction

These funds provide County support for both affordable housing and community revitalization capital projects. Fund 319, The Penny for Affordable Housing Fund, is designed to provide funds to quickly and significantly impact the availability of affordable housing in the County within established criteria. The fund was established in FY 2005 based on the Board of Supervisor's approval to dedicate the equivalent value of one cent of the real estate tax revenue to preserving affordable housing in the County. Fund 340, Housing Assistance Program, supports countywide residential improvement and repair projects, including staff resources, marketing, consultant services and capitalized projects, as well as the Blight Abatement Program. Fund 341, Housing General Obligation Bond Construction, is used to budget and report costs for housing and community development and capital projects that are supported wholly or in part by general obligation bond proceeds.

## **Housing and Community Development Program Overview**

### ♦ FCRHA Development Support

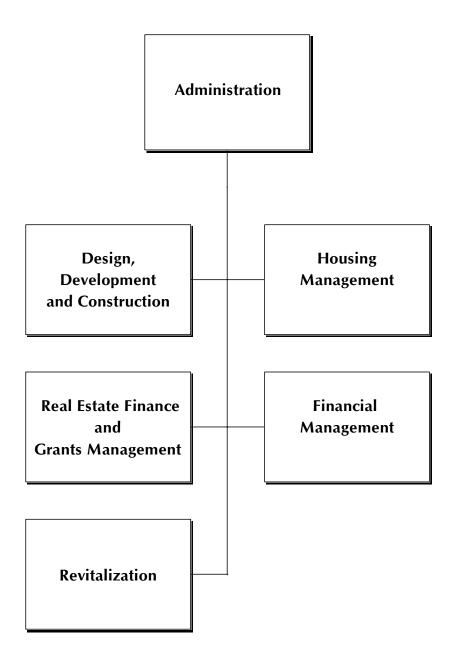

- Fund 946, FCRHA Revolving Development
- Fund 948, FCRHA Private Financing
  Fund 946 provides development support for site investigation for proposed new projects and
  provides temporary advances for architectural and engineering plans, studies, or fees for which
  federal, state, County, or private funds will reimburse the FCRHA at a later date. Funding capital
  improvement projects for existing FCRP units is also provided. Fund 948, FCRHA Private Financing, is
  used to budget and report costs for two types of funds: those borrowed by the FCRHA from private
  lenders and other sources, and funds for FCRHA projects which are generated through the sale of
  FCRHA bonds.

#### FCRHA Internal Service Fund

• Fund 949, FCRHA Internal Service Fund, was established in FY 1998 to charge for goods and services that are shared among several housing funds. These costs include items such as office supplies, telephones, postage, copying, insurance, and audits which have been budgeted and paid from one of the FCRHA's funds and then allocated to the other funds proportionate to their share of the costs. This fund also includes costs associated with the maintenance and operation of FCRHA housing development, such as service contracts for extermination, custodial work, elevator maintenance, and grounds maintenance. The fund allows one contract to be established for goods and services, as opposed to multiple contracts in various funds.

#### FCRHA Grant Fund

Fund 965, Housing Grants, was established in FY 2000 to administer grants awarded to the FCRHA. The grants currently in this fund are awarded by the U.S. Department of Housing and Urban Development (HUD), based on competitive applications for funding, and provide for rent subsidies, counseling services, support services, operating expenses, and property improvements.

### Mission

To provide the residents of the County with safe, decent and more affordable housing for low- and moderate-income households. In addition, the Department of Housing and Community Development seeks to preserve, upgrade and enhance existing neighborhoods through conservation and rehabilitation of housing and through the provision of public facilities and services.

### **Focus**

The Fairfax County Department of Housing and Community Development (HCD) will continue to provide housing opportunities for low-and moderate-income residents in Fairfax County and to assist in the renovation and improvement of neighborhoods. The HCD programs include numerous activities that support Fairfax County Redevelopment and Housing Authority (FCRHA) rental housing, housing for the elderly/group homes, loans for home ownership and home improvement, tenant assistance, community development, community improvement and the development and administration of these programs.

County resources within the General Fund provide support for positions in Agency 38, Housing and Community Development (HCD). These positions coordinate the County's community development and improvement programs, support the development and operation of FCRHA assisted housing, and provide critical support in financial management, computer network operations and strategic planning.

The General Fund also supports the federal public housing and local rental programs by funding a portion of the administrative and maintenance staff costs, as well as refuse collection charges, condominium fees, limited partnership real estate taxes and building maintenance. Funding is also included in FY 2009 to paint various housing projects owned and managed by the FCRHA as part of an ongoing maintenance program.

The preservation of affordable housing in the County is another major focus of HCD. For many residents, living in Fairfax County is a significant financial struggle, requiring, on average, 50 percent above Area Median Income to afford a two-bedroom apartment at the fair market rate. The Center for Regional Analysis at George Mason University estimates that there is an affordable housing deficit of 30,000 units currently, and this is projected to rise to 60,000 by 2020. Fund 319, The Penny for Affordable Housing Fund, represents the County's financial commitment to preserving and creating affordable housing opportunities by dedicating a portion of its revenue specifically for affordable and workforce housing. This fund was established in FY 2006 and receives as revenue the approximate value of one cent on the Real Estate Tax for the preservation of affordable housing. As of April 2008, approximately 2,210 affordable units have been preserved for both homeownership and rental purposes in a variety of large and small projects using money from Fund 319 as a primary resource. For more information on Fund 319, The Penny for Affordable Housing Fund, please see the specific Fund 319 budget narrative in the Housing and Community Development Programs section of Volume 2.

This narrative only includes funding and related issues for the General Fund portion of the HCD budget. The Department of Housing and Community Development Overview includes Key Accomplishments, FY 2009 Initiatives and Performance Indicators for the entire organization.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$223,274

An increase of \$223,274 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Personnel Services Reduction

(\$93,023)

A decrease of \$93,023 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a flattening residential real estate market.

### Carryover Adjustments

(\$788,999)

A decrease of \$788,999 in Operating Expenses is due to one-time carryover of FY 2007 encumbered funding of \$567,999, primarily for consultant services, as well as the one-time carryover of unencumbered funding of \$221,000 to provide real estate tax relief for partnership properties and support other ongoing countywide initiatives.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$60,458

An increase of \$60,458 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the <u>FY 2009 Advertised Budget Plan</u> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### **♦** Charge Administrative Support Costs to the Penny for Affordable Housing

(\$570,000)

An increase in recovered costs of \$570,000, equal to 2.5 percent of the annual funding for the Penny for Affordable Housing Fund, to reflect anticipated charge out of administrative support costs including policy oversight, program management, budgeting, and project management expenses associated with administering the Penny for Affordable Housing Fund.

### **♦** Reduction in Limited-Term Funding

(\$7,704)

A decrease of \$7,704 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$719,374

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved encumbered funding of \$567,999 primarily associated with professional consultant services for public housing budget training, the Yardi Affordable system interface, and organizational development consultant services. The Board also approved unencumbered funding of \$221,000 to support activities associated with ongoing countywide initiatives, as well as to provide real estate tax relief for Cedar Ridge, a recently converted partnership property. This funding is partially offset by a transfer of \$69,625 to support personnel services costs in the new Office of Community Revitalization and Reinvestment within the Office of the County Executive. Additionally, 4/4.0 SYE positions were redirected from the Department of Housing and Community Development to the Office of Community Revitalization and Reinvestment.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

(\$45,585)

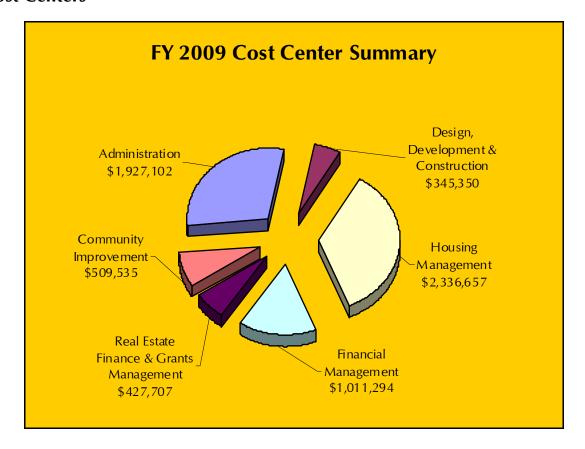

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$45,585 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

### **♦** Position Adjustment

**\$0** 

During FY 2008, 1/1.0 SYE Housing Services Specialist III was transferred from Housing General Fund to Agency 68, Department of Administration for Human Services (DAHS).

### **Cost Centers**

### **Administration**

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 2/2.0 SYE positions were redirected to Administration from Fund 967, Public Housing Projects Under Management.

#### Goal

To provide administrative and computer systems support to the core business areas of the Fairfax County Redevelopment and Housing Authority and the Department of Housing and Community Development by responding to computer network requests from agency employees and public information requests from citizens, agencies and other interested individuals and groups.

## **Design, Development and Construction**

| Funding Summary                  |                   |                                   |                                   |                                      |                                   |  |  |

#### Goal

To provide design, development and construction services to facilitate the availability of affordable housing for low- and moderate-income residents and to implement public improvement projects in the County.

### **Housing Management**

Note: In FY 2009, 11/11.0 SYE positions were redirected from Housing Management to Fund 967, Public Housing Projects Under Management and 3/3.0 SYE positions were redirected to Fund 966, Section 8 Annual Contribution, to better align the agency's positions with the U.S. Department of Housing and Urban Development's Project Based Budgeting Initiative. Also attributable to the Project Based Budgeting Initiative, 4/4.0 SYE positions were redirected from Fund 967, Public Housing Projects Under Management to Housing Management.

#### Goal

To manage and maintain affordable housing that is decent, safe and sanitary for eligible families and to maintain FCRHA housing in accordance with community standards and to provide homeownership opportunities to eligible households.

## **Financial Management**

Note: In FY 2009, 5/5.0 SYE positions were redirected to Financial Management from Fund 967, Public Housing Projects Under Management, as well as 3/3.0 SYE positions from Fund 966, Section 8. These positions were redirected to better align with the U.S. Department of Housing and Urban Development's Project Based Budgeting Initiative.

### Goal

To provide management information for controls and compliance reporting to external oversight entities as required by policies and regulations; to collect revenues, process expenditures and service loans on a timely basis; to provide budgetary preparation and control of all agency funds; to maintain accounting records and prepare financial reports in conformance with generally accepted accounting principles to ensure accurate and auditable financial statements.

Note: As directed by the Board of Supervisors during its revitalization retreat in December 2006, a new Office of Community Revitalization and Reinvestment was created in the Office of the County Executive as part of the FY 2007 Carryover Review. As part of that process, 4/4.0 SYE positions were redirected from Community Improvement (formerly Revitalization) to the Office of Community Revitalization and Reinvestment.

### Goal

To address current program needs associated with countywide residential improvement and repair projects within the Department of Housing and Community Development.

### Mission

To manage affordable rental housing acquired by the FCRHA for the benefit of the elderly, and to maintain and preserve the units for long-term rental availability

### **Focus**

Fund 141, Elderly Housing Programs, accounts for personnel, operating and equipment costs related to the County's support of the operation of the three locally funded elderly housing developments owned or leased by the Fairfax County Redevelopment and Housing Authority (FCRHA). The three elderly housing developments funded in Fund 141 are: Lewinsville Senior Residences in McLean (Dranesville District), Little River Glen in Fairfax (Braddock District), and Lincolnia Senior Center and Residence (Lincolnia area of the Mason District). Funding for three facilities, Gum Springs (Mount Vernon District), Morris Glen (Lee District) and Herndon Harbor House (Dranesville District) are not included in Fund 141. Although they are owned by a limited partnership of which the FCRHA is the managing general partner, the facilities are operated by a private firm. The newly opened

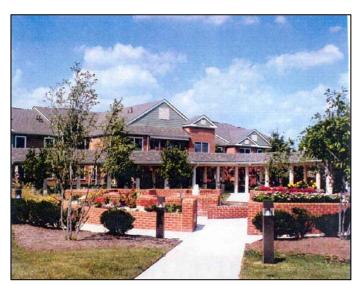

Photo of Little River Glen elderly housing development in Fairfax (Braddock District).

Braddock Glen 60-unit assisted living campus (Braddock District) is owned by the FCRHA and managed by a private firm. Department of Housing and Community Development (HCD) staff administers the contract between the FCRHA and the private firm hired to manage the facilities. In FY 2009, these seven facilities will provide for 408 congregate housing units, four adult day health care centers, a 52-bed adult care residence, and a 60-unit assisted living facility that is affordable to low-income elderly. Olley Glen (Braddock District), which is Phase III of Little River Glen, is undergoing final design and will include 90 units for independent elderly, with an additional 60 units in the planning phase. When completed, the Little River Glen campus will include 270 units for independent elderly, 60 units for assisted-living elderly, two senior centers and an adult day health care center.

In FY 2009, the operation of the Elderly Housing Programs will be supported in part with rental income, a state auxiliary grant for indigent care in the adult care residence component at the Lincolnia Center, County support and federal HOME funds. The County's General Fund transfer of approximately \$1.5 million supports approximately 44 percent of expenditures in Fund 141. The Gum Springs, Morris Glen, Herndon Harbor House and Braddock Glen facilities are self-supporting and do not require County General Fund support in Fund 141.

Other costs related to the County's housing program at these sites, including the operating costs of senior centers, adult day health care centers, and a congregate meal program, are reflected in the agency budgets for the Department of Community and Recreation Services; the Health Department; Fund 103, Aging Grants and Programs; and the County and Schools Consolidated Debt Service Fund.

The elderly housing projects are briefly described below:

- ♦ Lewinsville Senior Residences is a housing facility in McLean in the Dranesville District comprised of 22 efficiency units and a congregate living area serving the residential needs of low-to-moderate income elderly. HCD manages the residential facility, reviews applications to determine eligibility requirements, and provides maintenance services. A congregate meal program is funded through Fund 103, Aging Grants and Programs. In addition, the facility also houses a senior recreation program serving an average of 55 senior citizens, which is run by the County's Department of Community and Recreation Services, and an adult day health care program run by the Health Department serving an average of 35 senior citizens. The FCRHA leases the portion of this facility for the elderly housing program from the County. FY 2009 funding provided in Fund 141 for the operation of the elderly housing component of this facility is \$279,172.
- ♦ <u>Little River Glen</u> is a 120-unit facility which opened in the fall of 1990. The facility is spread over five buildings on an eight-acre site in the Braddock District and serves the residential needs of low-to-moderate income elderly. Four different models of one-bedroom units are available. The space is designed for senior citizens who are capable of living independently and desire participation in the social and recreational opportunities provided on-site. There is a senior center with lounges, recreation/activity rooms, and a commercial kitchen. The Department of Community and Recreation Services runs the senior center and Fund 103, Aging Grants and Programs, funds the congregate meal program. FY 2009 funding provided in Fund 141 for the operation of this facility is \$1,440,591.
- ♦ Lincolnia Center is a multi-purpose facility which opened in January 1990 in the Mason District in response to the residential needs of low-income and indigent elderly. It consists of two separate residential areas: a congregate residence of 26 units which provides independent living for senior citizens with limited means and a 52-bed adult care residence for elderly residents who require assistance with the activities of daily living. Funding for a management contract in the amount of \$895,181 for the Lincolnia Adult Care Residence will cover the costs of caregiving staffs that provide services 24 hours a day for that component of the Lincolnia facility. The Lincolnia Center also houses a senior center with recreation/activity rooms, a commercial kitchen, lounges and an adult day health care center. The Department of Community and Recreation Services administers the senior center and the Health Department staffs and operates the adult day health care center. A congregate meal program is administered by HCD and funded by Fund 103, Aging Grants and Programs, for all program participants and residents. The FCRHA leases the residential portion of this facility for the elderly program from the County. FY 2009 funding provided in Fund 141 for the operation of this facility is \$1,768,571.
- ♦ <u>Gum Springs Glen</u> is a 60-unit garden retirement community for independent seniors which opened in May 2003, in the Mount Vernon District. Gum Springs Glen consists of two two-story buildings with 30 apartments plus common space in each building. There are 56 one-bedroom apartments of approximately 425 square feet and four two-bedroom apartments with approximately 550 square feet. This facility is managed and maintained by a private contractor, with HCD staff serving as contract administrator, and expenditures are completely supported by rental income. In addition to the residential

units, the lower level of Gum Springs Glen provides space for a Head Start program and training center which is operated by the Department of Family Services, Office for Children.

- Morris Glen is a 60-unit garden apartment community located in the Lee District in the Manchester Lakes Community. The facility was completed in December 1995 for moderate-income seniors capable of independent living. Morris Glen consists of two two-story buildings and a small community building. Four different models of one-bedroom units are available as well as a large amount of common area in each residential building. This facility is managed and maintained by a private contractor, with HCD staff serving as contract administrator, and expenditures are completely supported by rental income.
- ♦ Herndon Harbor House is an adult care community that was developed in three phases. Opened in October 1998, Herndon Harbor House I is a 60-unit community that includes two 30-unit residential buildings and is located in the Town of Herndon in the Dranesville District. The facility is managed and maintained by a private contractor, with HCD staff serving as contract administrator, and expenditures are completely supported by rental income. Herndon Harbor House II includes an additional 60 units of congregate housing, for a total of 120 units, and an adult day health care center, both of which were opened in FY 2001. Phase III is a senior center which was completed in May 2005.
- ♦ **Braddock Glen** is a 60-unit affordable, assisted living facility which opened in July 2006 in the Braddock District. This facility is managed by a private contractor and the adult day health care center is managed by the Health Department. The senior recreation program inside the facility is operated by a private contractor, and a congregate meal program is funded by Fund 103, Aging and Grants Program.

Certain expenses reflected in this fund are not directly related to housing operations. The FCRHA, as landlord of these facilities, has inter-agency agreements, which provide for budgeting by HCD for common area expenses for utilities, telecommunications, maintenance, custodial services and contracts. The facilities provide space for general community use as well as for services provided by other County agencies.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$24,974

An increase of \$24,974 in Personnel Services is associated with salary and fringe benefit adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### Personnel Services Reduction

(\$25,388)

(\$50,156)

A decrease of \$25,388 in Personnel Services is part of an across-the-board reduction to meet budget limitations based on available revenues as a result of a continued softening of the residential real estate market.

♦ Maintenance Costs

A total decrease of \$50,156 in Operating Expenses is due to reductions in maintenance costs of \$29,648 based on prior year actuals at the Lincolnia Center, \$13,394 at Little River Glen, and \$7,114 at Lewinsville Senior Residences.

### **♦** Carryover Adjustments

(\$320,814)

A decrease of \$320,814, comprised of \$229,950 in Capital Equipment and \$90,864 in Operating Expenses, is due to encumbered carryover approved as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### Pay for Performance

\$12,374

An increase of \$12,374 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Reduction in Limited-Term Funding

(\$3,431)

A decrease of \$3,431 in Personnel Services is associated with a reduction in funding for limited-term support based on budget limitations.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$320,814

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$320,814 due to encumbered carryover. This is comprised of \$229,950 in Capital Equipment for the Lincolnia Senior Living Facility generator, as well as \$90,864 in Operating Expenses for management and maintenance services, utilities, and other operating expenses.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

(**\$11,24**5

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$11,245 in Personnel Services as part of an across-the-board reduction necessary to address budget limitations resulting from declining revenues. This adjustment accelerated the Personnel Services reduction included for FY 2009 in the FY 2009 Adopted Budget Plan.

### **FUND STATEMENT**

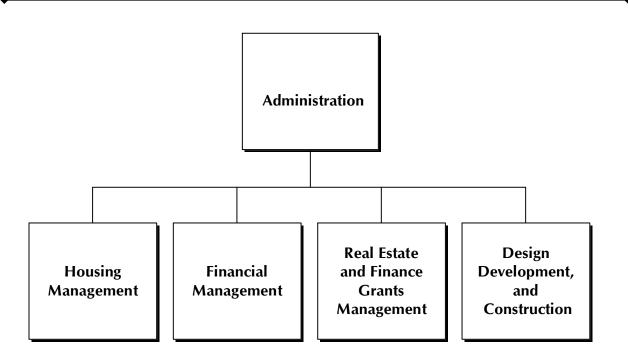

### **Fund Type H14, Special Revenue Funds**

### **Fund 141, Elderly Housing Programs**

<sup>&</sup>lt;sup>1</sup> In order to account for revenue and expenditures in the proper fiscal year, audit adjustments totaling a net decrease of \$80,401.62 have been reflected as an increase of \$5,384.61 to FY 2007 revenues for rental income received, and an increase of \$85,786.23 in FY 2007 expenditures due to accrued leave, maintenance expenditures and allowances for bad debt expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> Ending Balances fluctuate due to Pay for Performance program adjustments, carryover of operating expenditures, audit adjustments and adjustments in the General Fund Transfer.

### Mission

To conserve and upgrade low- and moderate-income neighborhoods through the provision of public facilities, home improvements, public services and economic development, and to stimulate the development and preservation of low- and moderate-income housing.

#### **Focus**

Fund 142, Community Development Block Grant (CDBG), seeks to stimulate the development and preservation of low- and moderate-income housing and the provision of loans, public facilities and improvements directed toward conserving and upgrading low- and moderate-income neighborhoods. It also supports the provision of special outreach and assistance services to low- and moderate-income households. Fairfax County receives an annual Community Development Block Grant through the U.S. Department of Housing and Urban Development (HUD). The use of these funds is subject to eligibility criteria established by Congress for the program and must meet one of three national objectives: (1) benefit to low- and moderate-income populations of the County; (2) elimination of slums and blight; and (3) meet urgent needs. Specific uses of each annual grant are outlined in the Consolidated Plan One-Year Action Plan. The Board of Supervisors has designated the Consolidated Community Funding Advisory Committee (CCFAC) as the citizen advisory group charged with overseeing the Consolidated Plan process. The Consolidated Plan also incorporates the recommendations of the Fairfax County Redevelopment and Housing Authority (FCRHA) concerning the use of the CDBG funds. The CCFAC forwards the Plan to the Board of Supervisors (BOS) for a public hearing and adoption. The Plan is then forwarded to HUD for approval and a final grant award.

Historically, CDBG funds have been used for:

- development and preservation of affordable housing;
- neighborhood improvements in communities designated as Conservation or Redevelopment Areas by the BOS;
- programs providing needed services to the low- and moderate- income population;
- financial and technical assistance to homeowners for housing rehabilitation and repair;
- payments on loans used for affordable housing development; and
- costs to administer this grant and related programs.

### FY 2009 Initiatives

Funding in the amount of \$6,162,472 is estimated for FY 2009. Any unanticipated reduction of CDBG funding from HUD will be incorporated into the County's budget during the FY 2008 Carryover Review.

The following identifies some of the projected funding initiatives:

- ♦ A portion of the County's CDBG entitlement will be combined with County General Funds and the Community Services Block Grant into a Consolidated Community Funding Pool (CCFP), providing funds through a competitive process to non-profit organizations for human services and affordable housing development and preservation. In FY 2009, it is projected that an amount of \$2,037,815 will be available for the CCFP.
- ♦ An amount of \$57,514 is currently projected for the Fair Housing Program to conduct and report on fair housing tests, file fair housing complaints when necessary, train rental agents and housing counselors in the County's rental market, establish and staff the Fair Housing Task Force and continue studying and reporting on the County's fair housing needs.
- ♦ An amount of \$283,177 is projected to support staff and operating costs for the Home Repair for the Elderly Program. This program provides minor home repairs to low-income elderly or disabled residents to enable these individuals to live in safe and sanitary housing.
- ♦ Funding of \$1,049,838 is projected to be available for payments in Section 108 Loans. These loans, approved by the BOS and HUD, are designated for affordable housing preservation and development, the reconstruction of Washington Plaza and road and storm drainage improvements in five conservation areas: Bailey's, Fairhaven, Gum Springs, James Lee, and Jefferson Manor.
- ♦ Also included is support for staff and operating costs to provide federally-mandated relocation and advisory services to individuals affected by federally-funded County and FCRHA programs. In addition, funding is provided for staff support and operating costs for overall program management and planning for CDBG and Section 108 Loan programs. This includes preparation of the annual HUD Consolidated Plan and other program reports, administration and monitoring of non-profit contracts, evaluation of program performance and planning of the development of affordable housing in the County. In FY 2009, funding for these services is estimated to be \$1,698,513 (Planning and Urban Design, General Administration and Housing Program Relocation).
- ♦ The Homeownership Assistance Program provides funding of \$299,739 for the support of staff in the Relocation Services Branch who provide support to the First-Time Homebuyers and Moderate Income Direct Sales Programs. The main duties of these positions include application data entry, waiting list maintenance, application processing, conducting lotteries, annual occupancy certifications and counseling applicants.
- Upon approval of the final HUD award in Spring 2008, it is anticipated that funding of \$735,876 (Contingency, Child Care Center Grant, and Neighborhood Revitalization) will be available for rehabilitation, revitalization and loan programs which will be outlined in the Consolidated Plan One-Year Action Plan for FY 2009.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### ♦ U. S. Department of Housing and Urban Development (HUD) Award

(\$29,844)

A decrease of \$29,844 is associated with the FY 2008 HUD award that was used to project expenditures for this fund in FY 2009.

#### **♦** Carryover Adjustments

(\$5,707,238)

A decrease of \$5,707,238 is associated with the one-time FY 2007 carryover of unexpended project balances and appropriation of program and investment income.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

### Pay for Performance

\$0

A net increase of \$0 as a result of an increase of \$19,389 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$5,707,238

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved a net increase of \$5,707,238 due to the carryover of \$5,427,011 in unexpended project balances and appropriation of \$310,071 in program income, offset by a \$29,844 reduction in the U.S. Department of Housing and Urban Development (HUD) award as approved by the Board of Supervisors on April 30, 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

The Board of Supervisors made no adjustments to this agency.

| <b>Ending Balance</b> <sup>1</sup> | \$72,526          | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

### Mission

The goals of the Homeowner and Business Loan Programs are to enhance the quality of life and economic base of the County by providing support for homeownership, to repair and upgrade existing housing and to assist small and minority businesses. One focus is to provide a means and opportunity for low- and moderate-income households to become homeowners in the County through the First-Time Homebuyers Program operated by the Fairfax County Redevelopment and Housing Authority (FCRHA) and offering units through the Moderate Income Direct Sales (MIDS) program and Fairfax County's Affordable Dwelling Unit (ADU) ordinance. A second focus is to provide affordable loans for housing improvement and rehabilitation to qualifying low-income homeowners or homeowners living in areas targeted for improvement, resulting in the elimination of health and safety code violations, enhancing the quality and appearance of existing housing and retaining existing affordable housing. A third focus is to provide business assistance and counseling services as well as direct loans to qualified small and minority-owned businesses.

### **Focus**

Fund 143, Homeowner and Business Loan Programs, is comprised of three programs designed to meet the agency mission as detailed below:

- ♦ The First-Time Homebuyers Program is designed to provide affordable homeownership opportunities for low- to moderate-income families who otherwise could not afford to purchase a home. The MIDS program that was established in 1978, allows units acquired or constructed by the FCRHA to be sold to moderate-income families, with the purchase made possible by the provision of second trust loans. The resale price of the unit is limited, and the FCRHA has the right of first refusal when the home is resold. Since 1993, the FCRHA has marketed units that are provided under provisions of Fairfax County's ADU ordinance. These units also serve low- and moderate-income households that are comprised of first-time homebuyers earning at least \$25,000. Restrictive covenants apply that limit the sales price and require owners to occupy the home. Homes currently range in price from \$70,000 to \$160,000 and have a 30-year control period. The FCRHA has the right of repurchase or the right to assign the purchase to a new homebuyer. Applicants for both MIDS and ADU units must take homeownership education classes and obtain pre-conditional approval from a lender to participate in drawings to purchase these homes.
- ♦ The Home Improvement Loan Program (HILP) provides loans to low- and moderate-income individuals to repair, modernize or expand the living space for their families to help alleviate overcrowded conditions. Funds are also loaned to homeowners who are cited for health and housing code violations, and for replacement housing, if necessary. Grants are provided to low-income elderly or disabled residents through the Elderly Home Repair Program to make needed repairs and provide for handicapped accessibility, to prevent displacement and to allow these individuals to live in safe and sanitary housing. All work shall comply with all federal, state and local laws and regulations. County appropriated funds within Fund 143, Homeowner and Business Loan Programs, are used in conjunction with bank funds budgeted in Fund 945, Non-Appropriated Rehabilitation Loans, and federal funding in Fund 142, Community Development Block Grant, to increase the assistance available to County residents.
- ♦ The Small and Minority Business Loan Program was initiated in FY 1996, and Fund 143, Homeowner and Business Loan Programs, was expanded to include the receipt of federal funds for operation of this program that provides loans to qualified small and minority-owned businesses. Program funds are administered by the Community Business Partnership (formerly the South Fairfax Regional Business Partnership, Inc.) through an agreement with the Department of Housing and Community Development. Loan repayments from the business loans will be received as revenue in Fund 143, Homeowner and Business Loan Programs, and will be used to pay debt service on the Section 108 Loan 7.

Program income from the MIDS and HILP programs will provide direct loans, as well as administrative support, for the five positions in Fund 940, FCRHA General Operating, that administer the programs, consistent with the business plan approved by the FCRHA and the Board of Supervisors.

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Moderate Income Direct Sales (MIDS) Program

\$558,936

An increase of \$558,936 is due to higher expenditures for an increased number of units and cost per unit repurchased and resold.

### ♦ Small and Minority Business Loan Program

(\$1,151)

A decrease of \$1,151 is due to lower expenditures for U. S. Department of Housing and Urban Development Section 108 Loan 7 repayments based on the repayment schedule.

### ♦ Homeowners Improvement Loan Program (HILP)

(\$116,151)

A decrease of \$116,151 is due to lower expenditures for loan repayments and administrative costs based on a previous three-year average of activity.

#### **♦** Carryover Adjustments

(\$5,478,058)

A decrease of \$5,478,058 is associated with the carryover of unexpended FY 2007 program balances for the Moderate Income Direct Sales Program (MIDS), Rehabilitation Loans and Grants Program, Water Extension and Improvement Projects, and Business Loan Program, as well as an appropriation of one-time unanticipated MIDS program income as part of the FY 2007 Carryover Review.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$5,478,058

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$5,478,058 due to the carryover of \$4,616,181 in unexpended FY 2007 program balances for the Moderate Income Direct Sales Program (MIDS), Rehabilitation Loans and Grants Program, Water Extension and Improvement Projects, and Business Loan Program. The expenditure increase also reflects an appropriation of \$861,877 in unanticipated MIDS program income. FY 2008 revenues increased by \$1,143,012 due to the carryover of FY 2007 unrealized revenue in the County Rehabilitation Loans and Grants Program and the Business Loan Program.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$1,054,023

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase in expenditures of \$1,054,023 for the Moderate Income Direct Sales (MIDS)/Affordable Dwelling Unit (ADU) Project to appropriate a commensurate increase in program income. The funds will be used to support the repurchase of additional MIDS/ADUs.

| Ending Balance <sup>1</sup>                         | \$4,335,046       | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> Projects are budgeted based on the total program costs and most programs span multiple years. Therefore, funding is carried forward each fiscal year and ending balances fluctuate, reflecting the carryover of these funds.

### **Focus**

Fund 144, Housing Trust Fund, was created in FY 1990 to reflect the expenditures and revenues of funds earmarked to encourage and support the preservation, development and redevelopment of affordable housing by the Fairfax County Redevelopment and Housing Authority (FCRHA), non-profit sponsors and private developers. The fund is intended to promote endeavors that will furnish housing to low- and moderate-income individuals in Fairfax County by providing low cost debt and equity capital in the form of loans, grants and equity contributions. Only capitalized costs are eligible for funding from the Housing Trust Fund.

Under the criteria approved by the FCRHA and the Board of Supervisors for the Housing Trust Fund, highest priority is assigned to projects which enhance existing County and FCRHA programs, produce or preserve housing which will be maintained for lower income occupants over the long term, promote affordable housing and leverage private funds.

In FY 1996, the Board of Supervisors authorized the FCRHA to implement a pre-development fund as a component of the Housing Trust Fund.

On behalf of the County, the FCRHA administers the Housing Trust Fund and, on an on-going basis, accepts and reviews applications from non-profit corporations and private developers for contributions from this source. The FCRHA forwards its recommendations of projects to be funded to the Board of Supervisors based on this review. The FCRHA itself may submit proposals meeting the Housing Trust Fund criteria to the Board of Supervisors at any time for the Board's approval.

In FY 2009, revenues are estimated to be \$1,850,000, a decrease of \$90,000 or 4.6 percent from the FY 2008 Revised Budget Plan. This decrease is primarily attributable to lower than anticipated proffered contributions based on an average of the past seven years' actuals, as well as less investment income due to declining interest rates and the expectation that the portfolio will be smaller. FY 2009 expenditures of \$1,850,000 will be allocated to three projects: Affordable Housing Partnership Program, Housing Trust Fund Land/Unit Acquisition and Rehabilitation of FCRHA Properties.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ West Ox Project \$0

As part of their deliberations on the <u>FY 2009 Adopted Budget Plan</u>, the Board of Supervisors identified funding of \$1,000,000 in Housing Trust Fund balances as a result of the project close-out for Project 013908, West Ox Group that will be carried forward and transferred back to the General Fund. Since these balances are in the <u>FY 2008 Revised Budget Plan</u> the beginning balance assumes the availability of these funds and actual adjustments will be identified as part of the *FY 2008 Carryover Review*.

### Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$7,159,104

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase in the amount of \$7,159,104 due to the carryover of unexpended project balances of \$6,680,271 and an adjustment of \$478,833 to appropriate additional investment income and other miscellaneous revenue received in FY 2007.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement, Summary of Capital Projects and Project Detail Tables for the capital projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects includes projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, sources of funding and completion schedules.

| Total Disbursements                | \$5,434,417       | \$1,940,000                       | \$9,102,080                       | \$1,850,000                          | \$2,850,000                       |
|                                    |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>3</sup>        | \$7,391,140       | \$229,060                         | \$229,060                         | \$229,060                            | \$229,060                         |
| Reserved Fund Balance <sup>4</sup> | \$229,060         | \$229,060                         | \$229,060                         | \$229,060                            | \$229,060                         |
| Unreserved Ending Balance          | \$7,162,080       | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> As part of their deliberations on the <u>FY 2009 Adopted Budget Plan</u>, the Board of Supervisors identified funding of \$1,000,000 in Housing Trust Fund balances as a result of the project close-out for Project 013908, West Ox Group that will be carried forward and transferred back to the General Fund. Since these balances are in the *FY 2008 Revised Budget Plan* the beginning balance assumes the availability of these funds and actual adjustments will be identified as part of the *FY 2008 Carryover Review*.

<sup>&</sup>lt;sup>2</sup>In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$2,976.51 has been reflected as an increase to FY 2007 revenue to record interest earned in the appropriate fiscal year. A commensurate increase in FY 2008 expenditures has been made to Project 013906, Undesignated Project, to appropriate the additional FY 2007 revenue. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>4</sup> The Reserved Fund Balance reflects revenue receivable to the Housing Trust Fund for interest owed by Reston Interfaith on an equity lien held by the FCRHA.

### **FY 2009 Summary of Capital Projects**

Fund: 144 Housing Trust Fund

# Fund 145 HOME Investment Partnership Grant

Real Estate Finance and Grants Management

### Mission

The goal of the HOME Investment Partnership Program (HOME) is to provide affordable housing through acquisition, rehabilitation, new construction and tenant-based rental assistance.

### **Focus**

In FY 2009, funding of \$2,439,575 represents an estimated award from the U.S. Department of Housing and Urban Development (HUD). FY 2009 funding will provide for the Tenant Based Rental Assistance program and various other new and ongoing projects. Details for specific projects in Program Year 17 (FY 2009) will be approved by the Board of Supervisors (BOS) and submitted to HUD as part of the Consolidated Plan Action Plan: Use of Funds for FY 2009 in April 2008. After HUD approval, necessary project adjustments will be made.

The HOME Program was established as part of the Cranston-Gonzalez National Affordable Housing Act of 1990. HOME funds are allocated on an annual basis to eligible participating jurisdictions based on a formula allocation system. The HOME Program requires a 25 percent local match from the participating jurisdiction. The local match can come from any Housing and Community Development project that is HOME eligible, regardless of funding source. Any expenditure beginning in October 1992 in qualifying projects can be considered as part of the required matching funds. In FY 2009, the County will have adequate matching funds from eligible projects in Fund 141, Elderly Housing Programs. Therefore, no additional local funds will need to be allocated to meet this requirement.

<sup>&</sup>lt;sup>1</sup> Categories as required by the U.S. Department of Housing and Urban Development (HUD) for reporting purposes.

<sup>&</sup>lt;sup>2</sup> Funding will be moved to specific projects when approved by the Board of Supervisors. Projects may include rehabilitation and acquisition, as well as construction.

# Fund 145 HOME Investment Partnership Grant

### **Position Summary**

DESIGN, DEVELOPMENT AND CONSTRUCTION

Housing Community Developer IV

**TOTAL POSITION** 

1 Position / 1.0 Staff Year

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### ♦ U. S. Department of Housing and Urban Development (HUD) Award

(\$17,812)

A decrease of \$17,812 is associated with the FY 2008 HUD award that was used to project expenditures for this fund in FY 2009.

#### **♦** Carryover Adjustments

(\$6,020,442)

A decrease of \$6,020,442 is primarily associated with the one-time FY 2007 carryover of unexpended project balances.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$6,020,442

As part of the FY 2007 Carryover Review, the Board of Supervisors approved a net increase of \$6,020,442 due to the carryover of \$5,986,043 in unexpended project balances and appropriation of \$52,211 for program income, offset by a \$17,812 reduction in the U.S. Department of Housing and Urban Development (HUD) award as approved by the Board of Supervisors on April 30, 2007. FY 2007 revenues increased by \$6,107,449 primarily due to anticipated reimbursements from HUD for capital projects as expenses are incurred, offset by a \$17,812 reduction due to the amended HUD award.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects for the capital projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| Total Expenditures                   | \$5,018,825       | \$2,457,387                       | \$8,477,829                       | \$2,439,575                          | \$2,439,575                       |
| <b>Total Disbursements</b>           | \$5,018,825       | \$2,457,387                       | \$8,477,829                       | \$2,439,575                          | \$2,439,575                       |
|                                      |                   |                                   |                                   |                                      |                                   |
| <b>Ending Balance</b> <sup>2,3</sup> | (\$87,007)        | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> FY 2009 HOME funding projections include \$1,182,166 for the Homebuyers Assistance Program; a planning factor of \$602,764 for Tenant-Based Rental Assistance; a set-aside of 15 percent, \$365,936, mandated under HOME regulations, from the County's total HOME allocation for eligible Community Housing Development Organizations (CHDOs); a 10 percent set-aside of \$243,958 for administrative expenses as permitted under HOME regulations (including \$21,928 for the Fair Housing Program); and \$44,751 for the American Dream Downpayment Initiative.

<sup>&</sup>lt;sup>2</sup> The FY 2007 negative Ending Balance is attributed to a delay in receipt of HOME Project expenditure reimbursements. These reimbursements will be received in FY 2008.

<sup>&</sup>lt;sup>3</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ Charge Administrative Support Costs to the Penny for Affordable Housing

\$0

An amount of \$570,000 in staff costs, equal to 2.5 percent of the annual funding, will be charged to Fund 319, The Penny for Affordable Housing for expenses incurred by the Department of Housing and Community Development to reflect anticipated charge out of administrative support costs including policy oversight, program management, budgeting, and project management expenses associated with administering the Penny for Affordable Housing Fund.

### **Focus**

Fund 319, The Penny for Affordable Housing Fund, formerly known as the Housing Flexibility Fund, was established in FY 2006 and is designed to serve as a readily available source of funding for the preservation of affordable housing in the County. The Board of Supervisors has dedicated revenue commensurate with the value of one cent from the Real Estate tax to the Preservation of Affordable Housing, a major County priority.

Between 1997 and 2004, the County lost 1,300 affordable units due to condo conversions and prepayments by owners of federally-subsidized apartment complexes. The rapid pace of converting affordable units and selling them as market-rate condominiums accelerated through 2005 due to the significant appreciation of property values in Fairfax County. Between 1980 and 2005, the assessed value of dwellings in Fairfax County rose more than 300 percent. Similarly, rents have been driven up by the significant and growing demand for housing in the County. In fact, the annual income needed to afford a two-bedroom apartment at the fair market rate of \$1,286 per month was estimated to be \$51,440 in FY 2007. This is just over 50 percent of the Area Median Income, meaning that there are many wage earners for whom living in Fairfax County is a significant financial struggle. The Center for Regional Analysis at George Mason University estimates that there is an affordable housing deficit that is projected to rise to 60,000 by 2020. Though current market conditions have seen a leveling off of prices for residential real estate, significant rent increases and the cumulative effect of exceptional growth in real estate values over the last several years has forced many first time buyers and renters, to either look to other areas for housing or simply eliminated the possibility for these families to enjoy home ownership.

In light of these trends, the Board of Supervisors set a County goal to preserve 1,000 units of affordable housing by the end of FY 2007, which the County has surpassed by preserving 1,412 units. County funding and financing are critical to achieving these goals. Fund 319, The Penny for Affordable Housing Fund, represents the County's financial commitment to preserving and creating affordable housing opportunities by dedicating a portion of its revenue specifically for affordable and workforce housing. To maximize the effectiveness of these funds, the Board of Supervisors recommended a minimum leverage ratio of 3:1 with non-County funds and that units funded by Fund 319 remain affordable at a minimum for a period of time consistent with the County's Affordable Dwelling Unit Ordinance, which was amended to be 30 years effective February 2006.

As of April 2008, a total of 2,210 affordable units have been preserved for both homeownership and rental purposes in a variety of large and small projects. Of that number, 252 units are preserved as affordable housing for periods of five years or less, and 1,958 units are preserved for 20 years or longer. A variety of funding sources were used to preserve these units; however, Fund 319 funds were critical for the preservation efforts associated with five large multifamily complexes that were purchased by private nonprofits: 216 units in Madison Ridge in Centreville (Sully District); 148 units in Hollybrooke II and III in the Seven Corners area of Falls Church (Mason District); 90 units in Sunset Park Apartments in Falls Church (Mason District); 319 units in Janna Lee Villages in the Hybla Valley area (Lee District); and 105 units in Coralain Gardens located on Arlington Boulevard in Falls Church (Mason District). Fund 319 was instrumental in preserving two large complexes: 180 units at the Crescent apartment complex in Reston (Hunter Mill District) and 672 units at the Wedgewood apartment complex in Annandale (Braddock District). These projects were purchased by the County and are being managed by the Fairfax County Redevelopment and Housing Authority as part of the low and moderate income rental program. Without the availability of Fund 319 funds, both of these apartment complexes may have been lost as affordable housing.

In FY 2009, expenditures are estimated at \$22,800,000, the current estimate for the equivalent value of one cent on the Real Estate Tax. The majority of the funding will be reflected in the Affordable/Workforce Housing project to be reallocated to specific projects when authorized by the Board of Supervisors. It should be noted that an amount of \$570,000 in staff costs, equal to 2.5 percent of the annual funding, will be charged to this project. As a result of this action, a balance of \$22.2 million in new funding remains available for the Affordable/Workforce Housing project in FY 2009. In addition, \$3.0 million will be allocated to Crescent Apartments for annual debt service.

# **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$2,475,948

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$2,475,948 due to the carryover of \$2,049,257 in encumbered carryover, \$403,609 in unexpended project balances, and \$23,082 to reflect the appropriation of additional revenue received in FY 2007. FY 2008 revenues remain unchanged.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$1,014,104

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$1,014,104 due to expenditures associated with the payment of principal and interest on the 2007 Bond Anticipation Notice (BAN), which matured on February 12, 2008.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for the capital projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description, sources of funding and completion schedules.

| Countywide |                                       | Countywide |

**Description and Justification:** This project will provide funding for the preservation of affordable housing. This funding is supported by real estate revenue, or the approximate value of one penny from the County's Real Estate tax. Funding is provided to meet the Board of Supervisors' Affordable Housing Preservation Initiative. The Board's initial goal to preserve 1,000 units of affordable housing was met by the end of FY 2007; as of April 2008, a total of 2,210 units have been preserved. Between 1997 and 2004, the County lost 1,300 affordable units that had been converted into luxury condominiums or market-rate apartments. It should be noted that an amount of \$570,000 in staff costs, equal to 2.5 percent of the total annual funding for Fund 319, will be charged to this project. As a result of this action, a balance of \$22.2 million in new funding remains available for this project in FY 2009.

# Fund 340 Housing Assistance Program

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

The Housing Assistance Program has been a source of funds for the development of low- and moderate-income housing and support of public improvement projects in low- and moderate-income neighborhoods. The fund also supports the Blight Abatement Program. In addition, proceeds from the U.S. Department of Housing and Urban Development (HUD) Section 108 Loan provide for public improvement projects in five of the County's Conservation Areas: Bailey's, Fairhaven, Gum Springs, James Lee and Jefferson Manor.

In recent fiscal years, the primary use of the fund has been to support the Commercial Revitalization Program, including staff resources, marketing, consultant services and capital projects. However, as part of the *FY 2007 Carryover Review*, a portion of the Commercial Revitalization Program was transferred to the Office of Community Revitalization and Reinvestment (OCRR) within the Office of the County Executive. The transfer included \$420,375 to support 3/3.0 SYE merit staff positions previously supported by the General Fund contribution to the Department of Housing and Community Development, as well as \$653,376 in remaining FY 2007 balance in Project 014010, Commercial Revitalization Studies and Services.

In FY 2009, a General Fund Transfer provides \$515,000 for current program needs, staffing and other activities associated with countywide residential improvement and repair projects within the Department of Housing and Community Development.

# Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$12,755,974

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an expenditure increase of \$12,755,974 due to the carryover of \$11,210,457 in unexpended project balances, which was partially offset by a one-time, nonrecurring transfer of \$653,376 from the FY 2007 year-end project balance in Commercial Revitalization Studies and Services to the new Office of Community Revitalization and Reinvestment (OCRR). The expenditure increase also reflected an appropriation of \$1,870,000 in remaining bond issue from Woodley-Nightingale to fund the design and development of the Residences at North Hill Park, as well as the allocation of \$95,892 in one-time miscellaneous revenues. In addition to the transfer of FY 2007 year-end project balance to the OCRR, expenditures were also offset by a decrease of \$420,375 in the General Fund transfer, which was reallocated to the OCRR as well.

# Fund 340 Housing Assistance Program

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

(\$866,414)

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved a decrease of \$866,414 due to a transfer of funding to Fund 303, County Construction, to support commercial revitalization efforts in the Office of Community Revitalization and Reinvestment within the Office of the County Executive. These adjustments complete the realignment of the Office begun at the *FY 2007 Carryover Review*. The following adjustments are included in this decrease of expenditures: a decrease of \$547,021 in Project 014101, Kings Crossing Redevelopment; a decrease of \$167,670 in Project 014102, Gallows Road Streetscape; a decrease of \$80,654 in Project 014103, Richmond Highway Façade Program; a decrease of \$40,000 in Project 014158, Annandale Marketing; a decrease of \$16,110, in Project 014157, Annandale Façade Program; and a decrease of \$14,959 in Project 014159, Bailey's 7 Corners Streetscape Improvements.

A Fund Statement, a Summary of Capital Projects, and Project Detail Tables for the capital projects funded in FY 2009 are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project). The Project Detail Tables include project location, description and source of funding and completion schedules.

| Ending Balance <sup>3</sup> | \$1,403,552       | \$3,662                           | \$3,662                           | \$3,662                              | \$3,662                           |

<sup>&</sup>lt;sup>1</sup> It should be noted that in the Fall of 1988 a Commercial and Development Bond Referendum was approved, of which \$9.7 million was designated for the redevelopment of the Woodley-Nightingale mobile home park. The FY 2008 Revised Budget Plan appropriation allocates all remaining bond dollars from this referendum.

<sup>&</sup>lt;sup>2</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$156,250 has been reflected as an increase to FY 2007 revenue to record grant drawdown of funds in the appropriate fiscal year. This impacts the amount carried forward resulting in a decrease of \$156,250 to the FY 2008 Revised Budget Plan. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

# Fund 340 Housing Assistance Program

| 014272     | Community Improvement Program Cost | s          |
|------------|------------------------------------|------------|
| Countywide |                                    | Countywide |

**Description and Justification:** In FY 2009, funding of \$515,000 is provided for staff and administrative costs associated with community improvement projects.

Staff costs in Fund 940, FCRHA General Operating, will also be reimbursed from this project and will be realized in Fund 940 as revenue. These positions are responsible for housing development efforts producing financing fee income as well as community improvement projects.

The 3/3.0 SYE Merit Regular positions previously included on the organization chart in the Agency 38, Housing and Community Development General Fund and reimbursed from Fund 340 for revitalization related activities have been transferred to the Office of Community Revitalization and Reinvestment (OCRR) as part of the *FY 2007 Carryover Review*.

# Fund 341 Housing General Obligation Bond Construction

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

#### **Focus**

Fund 341, Housing General Obligation Bond Construction, was established in FY 1990 to budget and report costs for capital projects which are supported wholly or in part by general obligation bond proceeds. In the fall of 1989, voters approved a \$6 million bond referendum for the five neighborhoods designated by the Board of Supervisors as Conservation Areas: Gum Springs; Fairhaven; Bailey's; James Lee; and Jefferson Manor. Funds remaining from that allocation will be used in conjunction with a federal Section 108 loan in Fund 340, Housing Assistance Program, and available Fund 142, Community Development Block Grant, funds to complete or continue the road, storm drainage and sidewalk improvements planned for these communities.

The Department of Housing and Community Development is working toward closing Fund 341, as it is no longer needed to track the allocation and expenditure of proceeds from the 1989 Commercial and Redevelopment Area bonds. All bond authorization remaining from the 1989 referendum has been reallocated to other funds in accordance with previous action by the Board of Supervisors.

# Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no revisions to this fund since the approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

# Fund 940 Fairfax County Redevelopment and Housing Authority General Operating

## Mission

To preserve and increase opportunities for affordable housing in Fairfax County based on need, community priorities and the policy of the Board of Supervisors and the Fairfax County Redevelopment and Housing Authority (FCHRA). Driven by community vision, to lead efforts to revitalize older areas of Fairfax County, to spur private reinvestment, maximize existing infrastructure and public investment, reverse negative perceptions and create employment opportunities.

#### **Focus**

This fund includes all FCRHA revenues generated by financing fees earned from the issuance of bonds, monitoring and service fees charged to developers, management fees, investment income, project reimbursements, consultant fees and ground rents on land leased to developers. Revenue supports operating expenses for the administration of the private activity bonds, Home Improvement Loan Program (HILP) staff and other administrative costs, which crosscut many or all of the housing programs.

In FY 2009, revenue projections for Fund 940, FCRHA General Operating, are \$2,532,898, a decrease of \$677,490 or 21.1 percent from the FY 2008 Adopted Budget Plan as a result of a slowdown in the market. The revenue decrease is primarily attributable to an anticipated decline in developer fee income. Expenditures are \$3,240,490, an increase of \$30,102 or 0.9 percent over the FY 2008 Adopted Budget Plan due primarily to salary adjustments to support the County's compensation program. The difference of \$724,914 will come from fund balance.

Staff costs in the FCRHA Home Improvement Loan Program are supported by revenues from that program. Staff costs associated with FCRHA real estate development and financing activities are supported by the financing and development fees generated by these activities. In FY 2009, Fund 340, Housing Assistance Program, will continue to provide \$515,000 for community improvement activities to address current program needs for staffing and other efforts associated with countywide residential improvement and repair projects within the Department of Housing and Community Development.

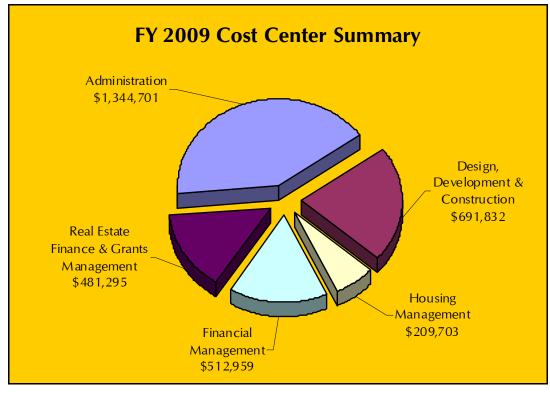

# Fund 940 Fairfax County Redevelopment and Housing Authority General Operating

The FCRHA will continue to make tax-exempt financing available and earn related financing fees. The financing will be used for the agency's own development as well as for the construction or preservation of qualified multi-family housing owned by other developers. However, because many types of projects must compete for an allocation of tax-exempt bond authority from the limited pool of such authority available in the Commonwealth of Virginia, the number of FCRHA tax-exempt bond issues in any year is limited and will vary significantly from year to year. Under this financing mechanism, a percentage of the units in a housing development must meet lower income occupancy requirements. Since 1986, there have been two alternate standards for meeting these requirements. Either 20 percent of the units must be occupied by households with incomes at 50 percent or less of the Washington D.C./Baltimore Metropolitan Statistical Area (MSA) median income (adjusted for household size), or 40 percent of the units must be occupied by households with 60 percent or less of the MSA median income.

The FCRHA will continue to monitor existing tax-exempt financed multi-family housing projects to assure continuing developer compliance with program guidelines.

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 2/2.0 SYE positions were exchanged between Fund 940 and Fund 941, Fairfax County Rental Program and 3/3.0 SYE positions were exchanged between Fund 940 and Fund 967, Public Housing Projects Under Management.

# **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$71,477

An increase of \$71,477 in Personnel Services is associated with salary adjustments to support the County's compensation program as well as adjustments to compensation requirements associated with the implementation of project based accounting. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

#### ♦ Operating Expenses

(\$74,239)

A decrease of \$74,239 in Operating Expenses is due to encumbered carryover as part of the FY 2007 Carryover Review, as well as projected expenditures based on prior year actuals.

# Fund 940 Fairfax County Redevelopment and Housing Authority General Operating

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

### Pay for Performance

**\$0** 

A net increase of \$0 as a result of an increase of \$17,320 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

# Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$32.864

As part of the FY 2007 Carryover Review, \$32,864 was added due to encumbered carryover primarily for consultant costs and various program expenses.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Position Adjustment

**\$0** 

A net increase of 2/2.0 SYE positions including 1/1.0 Housing/Community Developer III and 1/1.0 Housing Services Specialist IV to support the Wedgewood Project. Both positions will be funded through management fees associated with the Wedgewood Project.

| <b>Unreserved Ending Balance</b>       | \$4,436,160       | \$3,503,863                       | \$3,888,513                       | \$3,361,360                          | \$3,180,921                       |

<sup>&</sup>lt;sup>1</sup>The FY 2009 amount reflects prior year actual receipts. In order to account for revenues and expenditures in the proper fiscal year, audit adjustments have been made which decrease the FY 2007 ending balance by \$193,694.12. A commensurate impact is reflected in the balance carried forward to FY 2008. In particular, revenues are increased by \$811.37 and expenditures are increased by \$194,505.49. These adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

 $<sup>^2</sup>$  The FY 2009 decrease is due to anticipated declines in developer fee income. Developer fees for FY 2009 are estimated to be \$158,275 for Cedar Ridge and \$100,000 for Olley Glen.

<sup>&</sup>lt;sup>3</sup> The FY 2009 decrease is due to anticipated declines in program income from Fund 142, Community Development Block Grant; Fund 143, Homeowner and Business Loan Program; and Fund 340, Housing Assistance Programs.

## Mission

To manage affordable rental housing acquired by the Fairfax County Redevelopment and Housing Authority (FCRHA) and to maintain and preserve the units for long term rental availability.

#### **Focus**

The Fairfax County Rental Program (FCRP) is a local rental-housing program developed and managed by the Department of Housing and Community Development (HCD) for the Fairfax County Redevelopment and Housing Authority (FCRHA). The FCRP is designed to provide affordable rental housing in the County for low- and moderate-income families. In addition, the seven group home properties provide housing for persons with disabilities in conjunction with the Fairfax-Falls Church Community Services Board (CSB) and the Virginia Housing and Development Authority (VHDA).

In FY 2009, approximately 1,373 units, including 1,232 currently-owned units, 26 estimated unit acquisitions, and a 115-space mobile home park will be supported under the FCRP for low- to moderate-income residents. Additionally, the FCRP budget includes seven group homes that are managed by the CSB and have a total operating capacity of 68 beds. The FCRP includes projects developed by the FCRHA and other privately

developed or rehabilitated housing units acquired by the FCRHA. The privately developed and rehabilitated sites are located throughout Fairfax County, primarily in converted condominium projects.

The operation of this program is primarily supported by tenant rents. Recently added units include the acquisition of 10 units at Madison Ridge, 2 units at Holly Acres, 4 units at East Market, 4 units at Bryson at Woodland Park, 3 units at Fair Oaks Landing, and 8 additional units at ParcReston. The addition of these units as well as the 26 units expected to be acquired in FY 2009 result in higher Dwelling Rent revenue and Operating Expenses. In FY 2009, the County's General Fund Photo of the units at Madison Ridge charged directly

payments in support of condominium fees in the amount of \$463,500. In addition, debt service contributions are received from Fund 141, Elderly Housing, to provide support for the debt service costs of Little River Glen,

an FCRHA elderly housing development. Accounting procedures require that the debt service for this project be paid out of Fund 941, Fairfax County Rental Program, although the operating costs are reflected in Fund 141, Elderly Housing. Fund 941 is also used to account for debt service payments on two facilities owned by the FCRHA and leased to Fairfax County: the United Communities Ministries (UCM) offices and the Mondloch I emergency shelter (Creighton Square project).

In addition, HCD staff administers the contract between the FCRHA and private firms hired to manage three rental properties, Hopkins Glen, Crescent Apartments, and the recently acquired, Wedgewood Apartments.

The following charts summarize the total number of units in the rental program and group home properties in FY 2009 and the projected costs associated with the units:

| <u>Project Name</u>                        | <u>Units</u> | FY 2009 Cost | <u>District</u> |
|--|--------------|--------------|-----------------|
| Chatham Towne                              | 10           | \$65,999     | Braddock        |
| Little River Square                        | 45           | 296,996      | Braddock        |
| McLean Hills                               | 25           | 206,531      | Providence      |

| 1   | Housing Services Specialist III | 1 | Electrician II          | 3 | General Building Maintenance Workers I  |  |  |
| 3   | Housing Services Specialists II | 1 | GIS Analyst II          | 1 | Administrative Assistant II             |  |  |
| TOTAL POSITIONS 16 Positions / 16.0 Staff Years |                                 |   |                         |   |   |  |  |

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 2/2.0 SYE positions were exchanged between Fund 941 and Fund 940, Fairfax County Redevelopment and Housing Authority General Operating and 1/1.0 SYE Position was transferred from Fund 967, Public Housing Projects Under Management.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$48,886

An increase of \$48,886 in Personnel Services is associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

## **♦** Management Fee Expenses

\$141,986

An increase of \$141,986 in Operating Expenses is due to projected expenditures associated with management fees charged by FCRHA and costs associated with operating the estimated 1,441 units in the rental housing program and group home properties.

#### **♦** Carryover Adjustments

(\$106,172)

A decrease of \$106,172 in Operating Expenses is due to encumbered carryover for professional and consulting services, principal and interest payments, and repairs and maintenance as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$0

A net increase of \$0 as a result of an increase of \$14,974 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the <a href="FY 2009 Advertised Budget Plan">FY 2009 Advertised Budget Plan</a> due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 32, 2007:

#### **♦** Carryover Adjustments

\$345,133

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$345,133 due to debt service funding of \$238,961 for permanent financing of six FCRP projects (Project 014171, Faircrest; Project 014188, Westcott; Project 014195, Laurel Hills; Project 014234, Willow Oaks; Project 014238, Holly Acres; and, Project 014250, Legato), as well as encumbered carryover of \$106,172.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦ Third Quarter Adjustments**

\$616,095

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$616,095 in Operating Expenses due to an increase of \$400,632 to the pay-off of FCRHA mortgages for the Rolling Road and Patrick Street Group Homes; an increase of \$206,800 in Operating Expenses due to expenditures associated with management fees charged by FCRHA; and an increase of \$8,663 for debt service costs associated with Bryson at Woodland Park, Fair Oaks Landing and East Market properties.

<sup>&</sup>lt;sup>1</sup> Audit adjustments totaling a net decrease of \$128,649.86 have been reflected as an increase of \$53,390.68 in FY 2007 revenues due to interested earned and revenue reclassification and an increase in FY 2007 expenditures of \$182,040.54 due to payments to bond holders, accrued leave and the reclassification of expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> FY 2007 revenue included loan proceeds of \$3,007,812 from United Bank for permanent financing of ADUs. These proceeds were offset by a corresponding expenditure of \$3,007,812 to repay funds that originally provided temporary financing. Both the revenue and expenditure were revised by \$3,007,812 to present the FY 2007 actual annual operating revenues and expenditures for the fund.

# Fund 945 FCRHA Non-County Appropriated Rehabilitation Loan Program

### Mission

To enhance the quality and economic life of existing housing in the County through the provision of affordable loans for housing improvement and rehabilitation to qualifying low-income homeowners or homeowners living in areas targeted for improvement.

#### **Focus**

Fund 945, FCRHA Non-County Appropriated Rehabilitation Loan Program, provides the Fairfax County Redevelopment and Housing Authority (FCRHA) portion of funding for the Home Improvement Loan Program (HILP). The Home Improvement Loan Program provides financial and technical assistance to low- and moderate-income homeowners for rehabilitation of their property. The program is designed to preserve the affordable

housing stock in the County and to upgrade neighborhoods through individual home improvements. Resources in Fund 945 include bank loans, homeowners' contributions to the cost of rehabilitation and payments on outstanding home improvement loans made through this fund. Additional funding for the Home Improvement Loan Program is provided in Fund 142, Community Development Block Grant, and Fund 143, Homeowner and Business Loan Programs.

| Ending Balance                             | \$246,843         | \$224,239                         | \$249,875                         | \$256,856                            | \$256,903                         |

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$46.90 has been reflected as an increase in revenues to record interest income in the proper fiscal year. A commensurate impact is reflected in the balance carried forward to FY 2008. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR). Details of the FY 2007 audit adjustment were included in the FY 2007 Third Quarter Package.

<sup>&</sup>lt;sup>2</sup> The category of receipts and expenditures is received in FAMIS, the County's financial system, via journal entries from mortgage servicing reports. Cash transactions are handled by the respective commercial banks servicing each homeowner loan and are not processed by the County.

#### **Focus**

Fund 946, Fairfax County Redevelopment and Housing Authority (FCRHA) Revolving Development, provides initial funds in the form of advances for projects for which federal, state or private financing is available later. Initial project costs, such as development support for new site investigations, architectural and engineering plans, studies and fees are advanced from this fund and are later included in permanent financing plans for repayment to this fund. This funding mechanism ensures that sufficient funding is available to provide adequate plans and proposals for individual projects prior to obtaining construction and permanent project financing.

This fund is supported by multiple revenue sources, including income from investments, miscellaneous income (late fees, development fees) and repayment of advances on behalf of Cedar Ridge, Braddock Glen (Little River Glen II) and Gum Springs Community Center.

No funding for advances is currently required for Fund 946 in FY 2009. As projects that require Revolving Development funds are identified and approved by the FCRHA, adjustments will be made through allocations during the year. Repayment of two previously advanced loans totaling \$16,545 is anticipated in FY 2009.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

## **♦** Funding Adjustments

(\$2,407,579)

A total decrease of \$2,407,579 is due to the one-time carryover of unexpended project balances and one-time project adjustments as part of the FY 2007 Carryover Review.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

# **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustment

\$2,407,579

As part of the FY 2007 Carryover Review, a net increase of \$2,407,579 is due to an increase of \$3,131,209 in Advances as a result of the carryover of unexpended project balances, offset by a decrease of \$723,630 for project adjustments.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$2,404,938

As part of the *FY 2008 Third Quarter Review*, the Board of Supervisors approved an increase of \$2,404,938 due to increases of \$2,000,000 in anticipated advances for Project 014137, Olley Glen and \$445,471 for Project 014273, Halstead; offset by a decrease of \$23,696 due to the cancellation of advances for Project 014263, Bryson at Woodland Park; and \$16,837 for Project 014264, Fair Oaks Landing.

### ♦ Out of Cycle Adjustment for Northampton and Stockwell Manor

\$1,041,000

An increase of \$1,041,000 is due to anticipated advances for Project 014269, Northampton and Project 014270, Stockwell Manor.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| <b>Total Disbursements</b>     | \$881,096         | \$0                               | \$5,853,517                       | \$0                                  | \$0                               |
|                                |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>2</sup>    | \$5,158,615       | \$2,248,362                       | \$666,673                         | \$3,282,278                          | \$792,149                         |

<sup>&</sup>lt;sup>1</sup>In order to account for revenue and expenditures in the proper fiscal year, an audit adjustment totaling \$1,171.05 has been reflected as an increase to FY 2007 revenue to record interest income in the appropriate fiscal year. This adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup>Ending balances fluctuate due to increases and decreases in investment income and the repayment of advances.

# Fund 948 FCRHA Private Financing

#### **Focus**

Fund 948, FCRHA Private Financing, was established to budget and report costs for capital projects which are supported in full or in part by funds borrowed by the Fairfax County Redevelopment and Housing Authority (FCRHA) through the FCRHA sale of notes or bonds, or through equity financing received through the sale of federal low-income housing tax credits. Housing development and improvement projects may be financed with funds borrowed from private lenders, the Virginia Housing Development Authority, or the federal government. At times, the FCRHA invests in short-term notes of the County to provide an interim source of financing until permanent financing from one of these sources can be secured. Fund 948, FCHRA Private Financing, permits accounting for the receipt of funds from the lender and disbursements made by the FCRHA so that the total cost of a project can be maintained in the County's financial system and can be reflected on the FCRHA balance sheet.

An amount of \$858,035 is included in FY 2009 for payment of debt service for three Section 108 Loans (Loans 3, 4 and 5) paid by this fund. Debt service payments, in the amount of \$838,635, are budgeted in Fund 142, Community Development Block Grant (CDBG), and are received as revenue in Fund 948. The expenditures are made from Fund 948 to accommodate accounting requirements. The remaining debt service of \$19,400 will be received from a scheduled repayment on Loan 5.

In FY 2009, necessary adjustments will be made to Fund 948 to track revenue and disbursements, as new projects and additional plans that require private financing are developed and approved by the FCRHA and the Board of Supervisors.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

# Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$3,896,895

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$3,896,895 due to the carryover of unexpended project balances. FY 2008 revenues increased \$2,386,335 primarily due to anticipated bond proceeds and reimbursement for expenditures related to Project 014130, Southgate Community Center and Project 014251, Braddock Glen Adult Day Health Care Center.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

(\$3,743)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$3,743 in expenditures in order to close out a completed project, Project 013966, Glenwood Mews.

| Ending Balance <sup>2</sup>    | \$7,684,563          | \$6,096,333                       | \$6,278,518                       | \$6,273,645                          | \$6,278,518                       |

<sup>&</sup>lt;sup>1</sup> In order to account for revenue and expenditures in the proper fiscal year, audit adjustments totaling a net decrease of \$99,641.75 have been reflected as an increase of \$1,131.25 in FY 2007 revenues due to interest income and an increase in FY 2007 expenditures of \$100,773.00 due to an expenditure accrual. This impacts the amount carried forward resulting in a corresponding decrease of \$100,773.00 to the FY 2008 Revised Budget Plan. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

# Fund 949 FCRHA Internal Service Fund

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Focus**

Fund 949, Fairfax County Redevelopment and Housing Authority (FCRHA) Internal Service Fund, was established in FY 1998 to charge for goods and services that are shared among several housing funds. These costs include items such as office supplies, telephones, postage, copying and audits, which have been budgeted in and expensed from one of the FCRHA's funds, and then allocated out to other funds proportionate to their share of the costs. It also includes costs associated with the maintenance and operation of FCRHA housing developments such as service contracts for extermination, custodial work, elevator maintenance and grounds maintenance. The fund allows one purchasing document to be established for each vendor, as opposed to multiple purchase orders in various funds. Reimbursed charges incurred on behalf of other Department of Housing and Community Development funds will be recorded as revenue.

The FY 2009 funding for both expenditures and revenues within Fund 949, FCRHA Internal Service Fund, is \$3,483,775. Reimbursed charges incurred on behalf of other Department of Housing and Community Development funds will be recorded as revenue.

## Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$584,625

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$584,625, with a commensurate increase in revenues, due to encumbered carryover of \$151,570 and revised expenditure projections.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

• The Board of Supervisors made no adjustments to this fund.

# Fund 950 Housing Partnerships

## Mission

To provide affordable rental housing through partnerships between the Fairfax County Redevelopment and Housing Authority (FCRHA) and private investors.

## **Focus**

Fund 950, Housing Partnerships, was created in FY 2002 to allow the FCRHA to efficiently track partnership properties in the Federal Low Income Housing Tax Credit program, which promotes private investment in affordable housing through partnerships with nonprofit entities such as the FCRHA. The Housing Partnerships Fund supports a portion of the operating expenses for local rental-housing programs that are owned by limited partnerships of which the FCRHA is the managing general partner. In FY 2009, the FCRHA will directly manage four partnership properties: Castellani Meadows, The Green, Tavenner Lane and Murraygate Village. The operation of these developments is primarily supported by tenant rents with a County contribution for real estate taxes. The revenue collected from rents and property excess income is also monitored by Yardi and utilized by the partnerships to reimburse the FCRHA for expenses incurred to support salaries, maintenance and other operating expenses as identified in Fund 950.

Six other partnership properties receive a County contribution for real estate taxes, but are managed by a private management company and are not reported in FAMIS. These other partnership properties include: Herndon Harbor I & II, Gum Springs Glen, Morris Glen, Stonegate, and Cedar Ridge.

# Fund 950 Housing Partnerships

The following chart summarizes the total number of units in the FCRHA managed portion of the Partnership Program in FY 2009 and the projected operating costs associated with the units:

| Project Name               | <u>Units</u> | FY 2009 Cost | <u>District</u>                   |
|----------------------------|--------------|--------------|-----------------------------------|
| Castellani Meadows         | 24           | \$50,579     | Providence                        |
| The Green <sup>1</sup>     | 24           | 156,092      | Providence, Hunter Mill and Sully |
| Tavenner Lane <sup>2</sup> | 12           | 67,715       | Lee                               |
| Murraygate Village         | 199          | 699,965      | Lee                               |
| Total Partnership Program  | 259          | \$974,351    |                                   |

<sup>&</sup>lt;sup>1</sup> The Green consists of several housing units in geographically separate locations. An additional 50 units are part of the federally assisted Public Housing program and are reflected in Fund 967, Public Housing Projects Under Management. However, operating expenses for all 74 units are included in Fund 950 since they are all owned by a limited partnership.

<sup>&</sup>lt;sup>2</sup> An additional 12 units at Tavenner Lane are part of the federally assisted Public Housing program and are reflected in Fund 967, Public Housing Projects Under Management. However, operating expenses for all 24 units are included in Fund 950 since they are all owned by a limited partnership.

# Fund 950 Housing Partnerships

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

\$15,945

An increase of \$15,945 in Personnel Services is associated with salary and fringe benefit adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### **♦** Carryover Adjustments

(\$40,882)

A decrease of \$40,882 in Operating Expenses is due to encumbered carryover as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

### **♦** Pay for Performance

\$0

A net increase of \$0 as a result of an increase of \$4,487 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

# Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$40,882

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$40,882 due to encumbered carryover. FY 2008 revenues remain unchanged.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

◆ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> In order to account for expenditures in the proper fiscal year, an audit adjustment in the amount of \$6,678 has been reflected as a decrease to FY 2007 expenditures to record an expenditure credit. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> The Housing Partnerships Fund maintains fund balances at adequate levels relative to projected operating and maintenance requirements. These costs change annually, therefore, funding is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

# Fund 965 Housing Grants

### Mission

To provide the residents of the County with safe, decent, and more affordable housing for low and moderate-income households.

### **Focus**

Fund 965, Housing Grants, separately tracks grants which are awarded to the Fairfax County Redevelopment and Housing Authority (FCRHA). This fund currently provides accounting for the Resident Opportunity and Self Sufficiency (ROSS) grant received by the FCRHA from the U.S. Department of Housing and Urban Development (HUD). The ROSS grant is a three-year grant that provides and coordinates supportive services that help public housing residents move toward self-sufficiency. Currently, the Department of Housing and Community Development and its partners, Psychiatric Rehabilitation Services, Inc., the Fairfax Area Christian Emergency and Transitional Services, Inc., and the Fairfax County Office of Partnerships are administering four ROSS programs – the Resident Service Delivery Model Program, the Public Housing Family Self-Sufficiency Program, the Neighborhood Networks Program, and the Family and Homeownership Program.

The Resident Service Delivery Model Program provides home-based residential support services, psychoeducational and vocational rehabilitation programming, tenant education, housing counseling, and case management to the elderly and disabled public housing residents in the Rosedale, Greenwood, and The Villages at Falls Church public housing communities.

HUD's Public Housing Family Self-Sufficiency Program provides funds for the FCRHA to support two grantfunded program coordinators. These coordinators are responsible for leveraging public and private support services for selected Pubic Housing families to help them achieve economic independence and selfsufficiency.

The Neighborhood Networks Program provides funds to support community computer-based services to help public housing residents achieve long-term economic self-sufficiency at Ragan Oaks, Barros Circle, Robinson Square and West Ford public housing communities.

The Family and Homeownership Program provides funds for the FCRHA to offer housing counseling services to Public Housing residents.

# Fund 965 Housing Grants

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Carryover Adjustments

(\$583,318)

A decrease of \$583,318 is due to the carryover of unexpended grant balances as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

## Carryover Adjustments

\$583,318

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$583,318 due to the carryover of unexpended FY 2007 grant balances. In addition, 1/1.0 SYE new merit grant Housing Services Specialist III will be supported by existing grant funds to improve efforts at helping Public Housing families achieve a greater level of self-sufficiency.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

<sup>&</sup>lt;sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$648 has been reflected as an increase to FY 2007 revenue and expenditures to reflect a leave payout. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>2</sup> Grant projects are budgeted based on the total grant costs. Most grants span multiple years, therefore, funding for grant projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

## Mission

To ensure that participants in the Federal Section 8 Program, Housing Choice Voucher (HCV) and New Construction, are provided with decent, safe and affordable private market housing.

### **Focus**

The Section 8 program is a Federal Housing Assistance Program for lower income families seeking housing in the private market place. The United States Department of Housing and Urban Development (HUD) provides funds to pay a portion of the family's rent. In most cases, this subsidy is the difference between 30 percent of the eligible family's income and a HUD-approved Fair Market Rent (FMR) for a housing unit, although FMRs are different for the Housing Choice Voucher (HCV) program and the project-based components of the program. The rent subsidy payments are made pursuant to a Housing Assistance Payments (HAP) Contract with the owner of the housing. Housing authorities administer the contract for these subsidy funds on behalf of HUD, which involves making the monthly subsidy payments, verifying that those benefiting from the subsidy are eligible and monitoring compliance with federal regulations. This is done pursuant to an Annual Contribution Contract between the Fairfax County Redevelopment and Housing Authority (FCRHA) and HUD. Administrative fees are established by HUD and earned from HUD by the FCRHA. The administrative fee earned is used to cover expenses associated with administering the Section 8 program.

Under Fund 966, Section 8 Annual Contribution, rental subsidies are provided by HUD to cover the difference between a market-established rent and the rent which is determined to be affordable at a given family's income level. In some cases, the subsidies are associated with a particular housing development and in other cases they are transferable with the tenant. Private developers, local housing authorities and state housing finance agencies all participate in different aspects of the HCV program. Within the Portability Program, one aspect of the HCV program, a tenant from another locality finds housing in Fairfax County and the FCRHA pays the subsidy portion of the rent on behalf of the originating housing authority. A subsequent reimbursement from the originating housing authority is received by the FCRHA as Portability Program Revenue to cover the subsidy payment as well as 80 percent of the originating Housing Authority's administrative fee to cover administrative costs.

The Annual Contributions Contracts for the administration of the Section 8 Housing Assistance Payments contract for the two New Construction properties, Island Walk and Strawbridge Square, terminated effective June 30, 2007. FCRHA will no longer be the Contract Administrator for these two properties.

The FY 2009 funding level of \$40,960,248 consists of housing assistance payments of \$37,725,696 and administrative expenses of \$3,234,552 to support 3,204 Section 8 project units as part of the Federal Housing Assistance Program for lower income families. Effective January 2005, HUD converted the budget for the HCV program to a calendar year process. Therefore, the FY 2009 request for this program is based on the Calendar Year 2007 HUD budget for July 2007 through December 2007 and projected for the full fiscal year for HAP and Administrative Fees. The New Construction Annual Contributions budgets are based on the FY 2007 budgets approved by HUD. As of September 2005, HUD has authorized 3,204 housing choice vouchers to subsidize Fairfax County residents.

The FY 2009 revenue projection is \$40,708,636, a decrease of \$445,634 from the FY 2008 Revised Budget Plan that is primarily due to the loss of the Contract Administration of the New Construction properties.

In accordance with the revised HUD funding formula that became effective January 1, 2005, the administrative fees earned by the FCRHA for the lease-up of authorized FCRHA vouchers decreased. The revised formula decreased the per unit administrative fee earned for each unit leased. This trend is expected to continue through HUD's Federal Fiscal Year 2008 as part of the Congressional review of the Federal Section 8 Choice Voucher Program Budget. It should be noted that an additional amount of \$267,801 is provided as a subsidy in Agency 38, Department of Housing and Community Development, to assist with the anticipated shortfalls as a result of the Congressional actions affecting the HCV Program. Adjustments, if necessary, will be made to Fund 966 upon receipt of the official award.

The current income limits for most components of the HCV Program as established by HUD, effective as of April 20, 2007, are shown below:

| Household Size | Very Low Income | Lower Income |
|----------------|-----------------|--------------|
| 1              | \$33,100        | \$42,000     |
| 2              | \$37,800        | \$48,000     |
| 3              | \$42,550        | \$54,000     |
| 4              | \$47,250        | \$60,000     |
| 5              | \$51,050        | \$64,800     |
| 6              | \$54,800        | \$69,600     |
| 7              | \$58,600        | \$74,400     |
| 8+             | \$62,350        | \$79,200     |

| FY 2008 SUMMARY OF PROJECTS        |                 |  |  |  |
|------------------------------------|-----------------|--|--|--|
| PROJECTS                           | NUMBER OF UNITS |  |  |  |
| Consolidated Vouchers <sup>1</sup> | 3,204           |  |  |  |
| Total Contract P-2509 Fund 966     | 3,204           |  |  |  |

Actual number of vouchers issued may be lower than HUD-approved count due to local market conditions.

Fund 966 covers the following components in FY 2009:

#### ♦ Housing Choice Vouchers – 3,204 issued through the FCRHA

Under this component of the Section 8 housing program, local or state housing authorities contract with HUD for housing assistance payment subsidy funds and issue vouchers to eligible households who may lease any appropriately sized, standard quality rental unit from a participating landlord.

The housing authority maintains a waiting list of those seeking a Housing Choice Voucher, verifies applicant income eligibility before issuing a voucher, inspects the unit the family selects to ensure compliance with HCV Housing Quality Standards, computes the portion of rent the family must pay or the maximum subsidy, contracts with the landlord to pay the subsidy, recertifies eligibility annually, and maintains required financial records and reports. The owner of the housing (landlord), not the housing authority, selects the families to whom the landlord will rent, and renews or terminates the family's lease in accordance with the terms of the lease.

The <u>FY 2009 Adopted Budget Plan</u> is based on the maximum funding available in FY 2008 under the Annual Contributions (ACC) contract with HUD for the Housing Choice Voucher program at the time of budget preparation.

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 3/3.0 SYE positions were exchanged between Fund 966 and Agency 38, Housing General Fund.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

#### **♦** Employee Compensation

(\$154,531)

A decrease of \$154,531 in Personnel Services is associated primarily with the implementation of project based accounting for salaries and the elimination of partial support for some positions. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### **♦** Housing Assistance Program

\$479,104

An increase of \$479,104 in Operating Expenses is comprised of \$471,618 for Housing Assistance Payments based primarily on HUD's projections for the Housing Choice Voucher budget, as well as \$7,486 for Ongoing Administrative Expenses.

#### **♦** Carryover Adjustments

(\$1,266,179)

A decrease of \$1,266,179 in Operating Expenses is due to the carryover of one-time adjustments made as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

\$0

A net increase of \$0 as a result of an increase of \$29,984 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$1,266,179

As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved a net increase of \$1,266,179 due to increases of \$3,418,642 for Housing Choice Voucher (HCV) housing assistance payment funding and \$11,557 for encumbered carryover, offset by a decrease of \$2,164,020 for New Construction projects that have been reassigned to a HUD contracted third party administrator. FY 2008 revenues increased a net \$1,392,828 due primarily to an increase in the FY 2007 HUD HCV Annual Contribution funding and an increase of \$26,588 in Fraud Recovery revenue, offset by a decrease of \$2,265,750 due to HUD's reassignment of the New Construction project contract administrator function to a HUD contracted third party administrator.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

### **♦** Third Quarter Adjustments

(\$474,287)

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved a decrease of \$474,287 due to a decrease of \$270,370 in Operating Expenses required for Portability Housing Assistance Payment expenses due to the one-time absorption of portability clients in an effort to increase Housing Choice Voucher (HCV) program leasing rates and the utilization of current year U.S. Department of Housing and Urban Development annual housing assistance funding. In addition, Personnel Services funding was reduced \$203,917 due primarily to higher than anticipated vacancy rates and lower than anticipated fringe benefit costs.

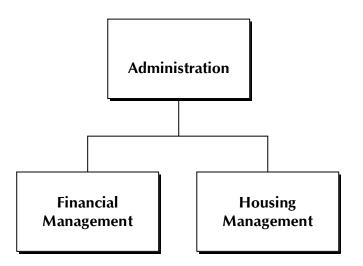

## **FUND STATEMENT**

<sup>1</sup> The FY 2007 beginning balance was adjusted based on the audited FY 2007 Financial Statement and is primarily due to depreciation expenses not accounted for in prior fiscal years.

- <sup>3</sup> In order to account for revenues and expenditures in the proper fiscal year, audit adjustments totaling a net decrease of \$2,928.60 have been reflected as a decrease of \$10,072.24 to FY 2007 revenues to reflect reduced earnings from Housing Assistance Program (HAP) revenue, additional investment income, and additional portability program income and a decrease of \$7,143.64 in FY 2007 expenditures to reflect reduced expenditures associated with HAP, accrued leave, and to reclassify expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).
- <sup>4</sup> The decrease in Annual Contributions is due to the expiration of FCRHA Contract Administration for the New Construction program properties, Island Walk and Strawbridge Square. A corresponding decrease is reflected in Housing Assistance Payments (HAP) expenditures.
- <sup>5</sup> Under new guidelines from HUD, housing agencies have been instructed to keep unused HAP revenue in restricted reserve for future HAP payments. This new guideline has resulted in an increase in Investment Income.
- <sup>6</sup> "Portability In" tenants are being billed to the local originating housing authorities. The increase in Recovered Costs and Servicing Fees is due to an increase in the lease rate anticipated based on actual monthly leasing increases in this jurisdiction. Revenue for FY 2009 is based on Recovered Costs of 100 percent for portability HAP and Utility Allowance Payment (UAP) expenses. A servicing fee will also be earned for 80 percent of the originating housing authority's fees.
- <sup>7</sup> The decrease in HAP expenditures is the net result of an increase in Portability HAP and a decrease from the expiration of FCRHA Contract Administration for the New Construction program properties, Island Walk and Strawbridge Square.
- <sup>8</sup> Fluctuation in ending balances is a result of federal funding reimbursements lost due to the temporary absorption of Portability Program tenants from non-local housing authorities as they transition into the FCHRA.

<sup>&</sup>lt;sup>2</sup> Effective January 2005 the United States Department of Housing and Urban Development (HUD) converted the budget cycle for the Housing Choice Voucher program to a calendar year budget cycle. The <u>FY 2009 Adopted Budget Plan</u> is based on the calendar year 2007 HUD budget from July 2007 through December 2007, and projected Annual Contributions for the period January 2008 through June 2008. Adjustments to projected Annual Contributions, if necessary, will be made at a future quarterly review.

### Mission

To ensure that all tenants of Fairfax County Redevelopment and Housing Authority's (FCRHA) owned and operated public housing units are provided with decent, safe and adequate housing; maintenance and management; social services referrals; and housing counseling.

### **Focus**

The Federal Public Housing Program is administered by the U.S. Department of Housing and Urban Development (HUD) to provide funds for rental housing serving low income households owned and operated by local housing authorities such as the Fairfax County Redevelopment and Housing Authority (FCRHA). There are two components of this program with each having separate funding for operations and capital improvements. Fund 967, Public Housing Program Projects Under Management, is for management and maintenance of public housing properties and includes an annual federal operating subsidy from HUD. Fund 969, Public Housing Under Modernization, provides funds for capital improvements and repairs of existing public housing through an annual Capital Fund Grant (formerly the Comprehensive Grant).

Revenues are derived from dwelling rents, payments for utilities in excess of FCRHA established standards, investment income, maintenance charges, late fees and HUD provided contributions and subsidies. Projected FY 2009 revenues of \$7,319,170 represent an increase of \$1,264,028 or 20.9 percent over the FY 2008 Adopted Budget Plan primarily due to an increase in the projected HUD Operating Subsidy and Dwelling Rental Income. Effective January 1, 2007, the HUD Operating Subsidy calculation is based on HUD's Final Rule (Revisions to Public Housing Operating Fund) published on September 19, 2005, using a formula developed by HUD to provide a mechanism to align expenditures and revenues for Public Housing Authorities. The HUD Annual Contribution represents what HUD will pay on Federal Financing Bank (FFB) loan obligations for projects owned and operated by the FCRHA. This revenue offsets interest and principal expenses related to FFB Loans budgeted in the Other Expenses cost center.

Beginning in FY 2008, the FCRHA is required by HUD to be in compliance with Project Based Accounting and Budgeting, which requires separate reporting for the County's Public Housing properties. The 26 Public Housing properties were grouped into 11 Asset Management Projects (AMPs) for HUD Reporting purposes. In addition to the project reporting requirement, Public Housing Authorities are also required to track and report activities of the Central Office, which resulted in the creation of three new cost centers for tracking various types of Central Office expenses such as indirect administrative costs, which are covered by HUD

prescribed management fees. The expenses for the AMPs will be covered by program revenues, which are mainly Dwelling Rental Income and HUD Operating Subsidy.

In addition to the public housing support provided in this fund, FY 2009 funds totaling \$959,658 are provided in the General Fund, Agency 38, Department of Housing and Community Development, in support of refuse-collection costs, painting expenses and townhouse/condominium-association fees for these properties.

The current income limits for the program as established by HUD as of March 20, 2007 are as follows:

|                   | INCOME LIMITS |          |  |  |  |  |  |
|-------------------|---------------|----------|--|--|--|--|--|
| Number of Persons | Very Low      | Low      |  |  |  |  |  |
| 1                 | \$33,100      | \$42,000 |  |  |  |  |  |
| 2                 | \$37,800      | \$48,000 |  |  |  |  |  |
| 3                 | \$42,550      | \$54,000 |  |  |  |  |  |
| 4                 | \$47,250      | \$60,000 |  |  |  |  |  |
| 5                 | \$51,050      | \$64,800 |  |  |  |  |  |
| 6                 | \$54,800      | \$69,600 |  |  |  |  |  |
| 7                 | \$58,600      | \$74,400 |  |  |  |  |  |
| 8                 | \$62,350      | \$79,200 |  |  |  |  |  |

The Public Housing projects, as reflected in the following chart, are located throughout the County.

| Project Name                          | HUD Number | Number of Units | Supervisory District |

<sup>&</sup>lt;sup>1</sup> This HUD project includes one unit at Heritage Woods South in Braddock District.

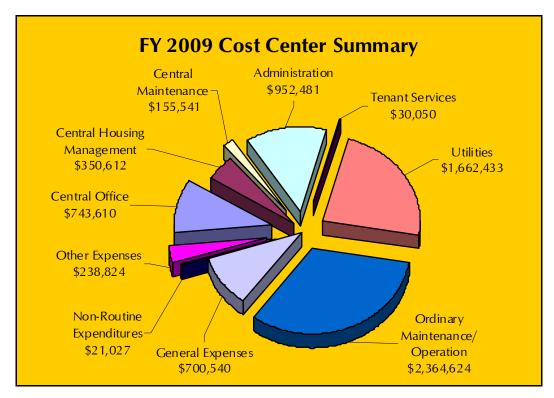

Admissions and Occupancy policies for this program are governed by the Quality Housing and Work Responsibility Act of 1998 (which amended the United States Housing Act of 1937) and are consistent with the objectives of Title VI of the Civil Rights Act of 1964. Eligibility for admission and occupancy to Low-Income Housing requires the applicants to fulfill the following general criteria: (1) qualify as a family, (2) have annual income which does not exceed the income limits for admission to a designated development, and (3) qualify under the Local Preference if head or spouse is employed, attending school or participating in a job training program, a combination thereof at least 30 hours per week; or is 62 or older; or is a primary caretaker of a disabled dependent; or meets HUD's definition of being disabled. Also, applicants must be from households that pay more than 30 percent of gross income for rent and utilities for the past 90 days (excluding telephone and cable costs) and who live or work in Fairfax County, City of Fairfax, City of Falls Church or Town of Herndon.

<sup>&</sup>lt;sup>2</sup> Properties are owned by limited partnerships of which the FCRHA is the managing general partner. Therefore, rental revenue and other expenses for these properties are not reported in Fund 967.

<sup>&</sup>lt;sup>3</sup> There are projected to be 1,065 units of Public Housing; however, only 1,063 are income producing. There are two units off-line, one of which is used as an office and the other as a community room. Per HUD guidelines, the community room is not reported to HUD when requesting the HUD Operating Subsidy. Tavenner Lane and West Glade are reported separately when reporting to HUD, since they are partnership properties and have different reporting requirements. The FY 2009 vacancy rate is projected to be approximately 2 percent for public housing properties, primarily due to normal turnover.

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 11/11.0 SYE positions were exchanged between Fund 967 and Agency 38, Housing General Fund; 3/3.0 SYE positions were exchanged between Fund 967 and Fund 940, Fairfax County Redevelopment and Housing Authority General Operating,; 2/2.0 SYE Grant positions were redirected to Fund 967 from Fund 969, Public Housing Projects Under Management and 1/1.0 SYE position was redirected to Fund 941, Fairfax County Rental Program.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$732.397

An increase of \$732,397 in Personnel Services is necessary to support the County's compensation program, as well as adjustments to compensation requirements associated with the implementation of project based accounting and providing full support for positions that are no longer split funded with other Housing funds. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### Operating Requirements

\$87,565

An increase of \$87,565 in Operating Expenses is primarily attributable to an increase in Operating Maintenance and Operating that is based on prior year actual expenditures.

#### **♦** Carryover Adjustments

(\$102,067)

A decrease of \$102,067 in Operating Expenses is due to the one-time adjustments as part of the FY 2007 Carryover Review.

## **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

#### **♦** Pay for Performance

**\$0** 

A net increase of \$0 as a result of an increase of \$32,961 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system offset by a corresponding reduction in operating expenses to maintain funding at the level supported by projected revenues. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

## Changes to <u>FY 2008 Adopted Budget Plan</u>

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

#### **♦** Carryover Adjustments

\$462,246

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$462,246 in Operating Expenses due to a \$360,179 increase in the fund's adjusting factors project based on FY 2007 actual administrative expenses; a \$67,067 increase to support further implementation of the project based budgeting initiative; and, a \$35,000 increase to support a full-time, live-in staff person to provide services to residents of Audubon.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

#### **♦** Third Quarter Adjustments

\$587,497

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$587,497 due to an increase of \$512,876 in Personnel Services costs associated with salary expenses of positions that will now be funded entirely out of Fund 967, Public Housing Projects Under Management. The costs of these positions were previously funded by multiple FCRHA funds. In addition, Operating Expenses were increased \$74,621 due to rising costs associated with water and sewer utilities.

## **FUND STATEMENT**

**Fund Type H96, Annual Contribution Contract** 

**Fund 967, Projects Under Management**

| <b>Total Disbursements</b>            | \$6,243,908       | \$6,006,640                       | \$7,056,383                       | \$7,219,742                          | \$7,219,742                       |
|                                       |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>5</sup>           | \$2,203,751       | \$1,862,581                       | \$2,259,703                       | \$2,642,019                          | \$2,359,131                       |

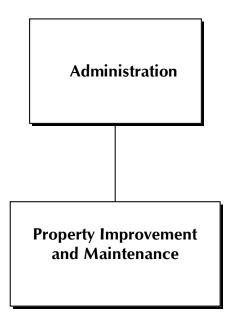

<sup>&</sup>lt;sup>1</sup> Increase in revenues is primarily due to the increase in Dwelling Rental Income projected at FY 2007 actual levels and the increase in Operating Subsidy projected at current levels utilizing HUD's Final Rule criteria.

<sup>&</sup>lt;sup>2</sup> Audit adjustments totaling a net decrease of \$290,337.96 have been reflected as an increase of \$2,616.12 in FY 2007 revenues due to interest earned and revenue reclassification and an increase in FY 2007 expenditures of \$292,954.08 due to accrued leave, adjustment to allowances to reflect the appropriate level and the reclassification of expenditures. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> Category represents a U.S. Department of Housing and Urban Development (HUD) Operating Subsidy based on revenue and expenditure criteria developed by HUD under the Final Rule that was effective January 1, 2007.

<sup>&</sup>lt;sup>4</sup> Expenditure categories reflect HUD required cost groupings. Due to Project Based Accounting and Budgeting, three new cost centers were created to track various Central Office expenses for Fund 967. Increase in expenditures is primarily due to the elimination of split positions which resulted in higher salary expenses for assigned positions that are now 100 percent funded out of Fund 967, as well as projections based on prior year actuals.

<sup>&</sup>lt;sup>5</sup> The Ending Balance fluctuates due to adjustments for expenditures based on Pay for Performance criteria, salary cost adjustments, and revenue changes primarily due to HUD criteria for determining dwelling rental income.

### **Focus**

Fund 969, Public Housing Projects Under Modernization, receives an annual federal grant, determined by formula, to be used for major physical and management improvements to public housing properties owned by the Fairfax County Redevelopment and Housing Authority (FCRHA). This grant program fund which was called the Comprehensive Grant Program (CGP) or the Modernization Program is now referred to as the Capital Fund Program (CFP). It is one of the two components of the Public Housing Program. The other fund supporting this program is Fund 967, Public Housing Under Management, which supports the daily maintenance and management of public housing properties.

Local public housing authorities submit a five-year comprehensive capital and management improvement plan to the U.S. Department of Housing and Urban Development (HUD) as part of the FCRHA's Five-Year Plan. The plan is updated each year as part of the Annual Plan. HUD reviews the plan and releases the annual capital grant amount that supports administrative and planning expenses as well as improvements to one or more projects. Housing authorities may revise the annual plan/budget to substitute projects as long as they are part of the Five-Year Plan.

Three grant positions are supported in this fund for the administration of the program to include monitoring of all construction in process for projects that have been approved by HUD.

The FCRHA submitted an improvement plan in June 2007 for Program Year 36 (FY 2008) funding and received HUD approval for \$1,664,142. Program Year 36 funding provides for staff administration, management improvements and capital improvements for three projects: VA0509, Capital Improvement Fund Year 36; VA1901, Audubon; and VA1927, Robinson Square.

No FY 2009 funding is included for Fund 969 at this time. Funding will be allocated at the time of the award from HUD and will provide Program Year 37 funding for new and ongoing projects.

### **Position Summary**

#### **HOUSING MANAGEMENT**

- 1 Housing/Community Developer IV, G
- 2 Housing/Community Developers III, 2 G

**TOTAL POSITIONS** 

3 Positions / 3.0 Staff Years

**G Denotes Grant Positions** 

Note: As the result of a transition by the U.S. Department of Housing and Urban Development to a project based budgeting model for the maintenance of public housing facilities, a number of positions are being moved within the Fairfax County Department of Housing and Community Development to better align the positions to the developments they support. This realignment is driven by the movement of maintenance positions but also impacts financial and management positions to maintain the level of County support and the number of County positions while complying with the federal requirements. In FY 2009, 2/2.0 SYE grant positions were redirected from Fund 969 to Fund 967, Public Housing Projects Under Management.

## **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

## **♦** Program Adjustments

(\$1,664,142)

A decrease of \$1,664,142 is associated with the allocations provided for Program Year 36 management improvements, administration, planning fees and capital improvements for three projects: VA0509, Capital Improvement Fund Year 36; VA1901, Audubon Apartments; and VA1927, Robinson Square.

### Carryover Adjustments

(\$2,215,891)

A decrease of \$2,215,891 is due to the carryover of unexpended project balances as part of the FY 2007 Carryover Review.

# **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

## **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Program Adjustments

\$1,664,142

Subsequent to the *FY 2007 Carryover Review*, an allocation of \$1,664,142 was provided for Program Year 36 management improvements, administration, planning fees and capital improvements for three projects: VA0509, Capital Improvement Fund Year 36; VA1901, Audubon Apartments; and VA1927, Robinson Square.

### **♦** Carryover Adjustments

\$2,215,891

As part of the FY 2007 Carryover Review, the Board of Supervisors approved an increase of \$2,215,891 due to the carryover of unexpended project balances. FY 2008 revenues increased \$42,317 due to the anticipated reimbursement of expenses for projects previously approved by HUD.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

| Capital/Related Improvements <sup>3</sup> | 1,199,658         | 0                                 | 3,676,302                         | 0                                    | 0                                 |
| Total Expenditures                        | \$1,679,140       | \$0                               | \$3,880,033                       | \$0                                  | \$0                               |
| <b>Total Disbursements</b>                | \$1,679,140       | \$0                               | \$3,880,033                       | \$0                                  | \$0                               |
|   |                   |                                   |                                   |                                      |                                   |
| Ending Balance <sup>4</sup>               | \$2,173,574       | \$0                               | \$0                               | \$0                                  | \$0                               |

<sup>&</sup>lt;sup>1</sup> Subsequent to the *FY 2007 Carryover Review*, an allocation of \$1,664,142 was provided for Program Year 36 management improvements, administration, planning fees and capital improvements.

<sup>&</sup>lt;sup>2</sup> This represents the U.S. Department of Housing and Urban Development (HUD) reimbursements for capital improvements, major repairs/maintenance and modernization of public housing properties.

<sup>&</sup>lt;sup>3</sup> In order to account for revenue and expenditures in the proper fiscal year, audit adjustments totaling a net impact of \$0 have been reflected as an increase of \$46,523.07 in FY 2007 revenues due to revenue accruals and an increase in FY 2007 expenditures of \$46,523.07 due to accrued leave. The audit adjustments have been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>4</sup> Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

## **FY 2009 Summary of Capital Projects**

Fund: 969 Public Housing, Projects Under Modernization

#### **EXPLANATORY NOTE:**

The "Total Available" indicates the revenue in each fiscal year that is to be used to support expenditures. This amount is the total revenue adjusted by the amount of funding that is either appropriated from fund balance or added to fund balance. In some instances, adjustments to fund balance that are not currently reflected in the "Changes in Fund Balance" table also affect the "Total Available." Explanations for these adjustments are provided below. The "Total Available," plus (minus) the effect of these changes matches the expenditure totals by fiscal year on the "Expenditure by Fund/Summary of Non-Appropriated Funds."

Fund 170, Park Revenue Fund, assumption of cash basis accounting reflecting the net effect of deferred revenue of \$143,031 higher than reflected in the County's accounting system.

<sup>1</sup> Not reflected are the following adjustments to balance which were carried forward from FY 2006 to FY 2007:

### **Fairfax County Park Authority Trust Funds**

### **Overview**

The Fairfax County Park Authority operates two separate and distinct Trust Funds. All funds received by the Park Authority Board under these Trust Funds are held and applied solely to expenditures determined by the Park Authority Board as authorized under the Commonwealth's Park Authorities Act. These funds provide support for the Park Authority which currently maintains and operates 420 parks, and over 24,000 acres of park land, including recreation centers, historic sites, nature centers, and golf courses.

The Park Authority, in its memorandum of agreement with the Fairfax County Board of Supervisors, adopted budgeting and reporting procedures for its Trust Funds which are used by the General County Government. These two Trust Funds are being published in accordance with this agreement.

- ♦ Fund 170 Park Revenue Fund
- **♦ Fund 371 Park Capital Improvement Fund**

### Mission

To set aside public spaces for, and assist citizens in, the protection and enhancement of environmental values, diversity of natural habitats and cultural heritage; to guarantee that these resources will be available to both present and future generations; to create and sustain quality facilities and services that offer citizens opportunities for recreation, improvement of their physical and mental well-being and enhancement of their quality of life.

### **Focus**

The Fairfax County Park Authority (Authority) has continued to offer leisure and recreational opportunities for nearly 60 years, since its establishment in 1950, through an impressive array of opportunities which enrich the quality of life for County citizens. This is done through the protection and preservation of open space and

natural areas, nature centers, recreation centers, historic sites, golf courses, athletic fields, public gardens, horticulture sites, trails and neighborhood, community, district and countywide parks, as well as park programs, classes, camps and tours. The Authority currently owns, maintains and operates 420 beautiful parks and over 24,000 acres of land. Based on the 2007 annual survey of 1,025 Fairfax County households, conducted in coordination with George Mason University, 79 percent of the County households considered the park system to be 'extremely' or 'very' important to their quality of life. Delivering high quality service in parks is an important focus for the Park Authority as demand and usage continue to grow.

### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Enhancing citizen quality of life;
- o Protecting and enhancing natural and cultural resources;
- o Creating and sustaining quality facilities and services; and
- o Serving a diverse community.

The Authority seeks to provide quality recreational opportunities through construction, development and maintenance of facilities, playgrounds, picnic areas, tennis courts, multi-use courts, trails and athletic fields, many of which are irrigated and lighted. The Authority strives to improve the quality of life for citizens by keeping pace with County demands, by continually enhancing the park system and also by demonstrating stewardship at over 420 parks on over 24,000 acres of land. Notable enhancements include increased open space through land acquisition, protection of critical natural and cultural resources, expanded trails, new inclusive features and upgraded playability of outdoor

Laurel Hill Golf Course has quickly become one of the favorite courses for Northern Virginia golfers.

facilities. In FY 2007, the Authority acquired 140 acres of undeveloped land on the Occoquan River, protecting this land from future development and preserving remnants of the historic Town of Colchester, the first European settlement in Fairfax County. FY 2007 also marked the opening of the Laurel Hill Golf Clubhouse, an elegant 9,400 square structure featuring materials architectural details that celebrate the heritage of the former DC Department of Corrections Facility. In 2007, four existing natural turf rectangular fields were converted to synthetic turf fields, as approved in the 2006 Bond Program, which included two fields at Poplar Tree Park and two fields at South Run District Park. Construction also started on core improvements at Lake Fairfax Park which, when completed in 2009, will include a new 4,600 square foot one-story administration building, a free standing core-area restroom facility with vending area and a 122 space asphalt parking lot with low impact storm water management features. Also, in its continuing quest to exercise sound stewardship practices, the Authority designed and constructed its first Low Impact Development (LID) parking lot at Hidden Oaks Nature Center.

To address the growing and changing park and recreation desires of citizens, the Authority uses a comprehensive Needs Assessment process that resulted in a 10-Year Action Plan, including a phased-in, 10-year \$376 million Capital Improvement Plan. This process was a significant part of the justification for the 2004 and 2006 voter approved park bond programs totaling \$90 million. A significant planning effort to develop District-level Long Range plans will be undertaken to serve as a guide for future park development in anticipation of a new park bond referendum in fall 2008.

### **Board, Foundation and Partnerships**

The Authority operates under the policy oversight of a 12-member Park Authority Board, in accordance with a Memorandum of Understanding with the County's Board of Supervisors. The Authority manages acquisition, preservation, development, maintenance and operation of its assets and activities through five funds: the General Fund, Park Revenue Fund, General County Construction Fund, Park Authority Bond Construction Fund and Park Capital Improvement Fund. The Park Authority Board has direct fiduciary responsibility for the Park Revenue Fund and the Park Capital Improvement Fund, while the County has fiduciary responsibility for the three other funds. The Authority also aggressively seeks management initiatives and alternate funding sources to sustain the delivery of quality services and facilities. The Park Foundation, established in 2001, serves to coordinate and seek the generous gifts of individuals, foundations and corporations who wish to contribute to delighting current and future generations of park visitors. In FY 2008, the Park Foundation was integral in increasing the Rec-PAC scholarships for income-eligible children by 3 percent, with donations of more than \$51,000, resulting in service to 1,417 participants delivered in an aggregate 7,392 one-week camp sessions. Grants, donations, the Adopt-A-Field and Adopt-A-Park programs, as well as many "friends groups" and other partnerships, have provided over \$2 million in cash and in-kind contributions in FY 2007. The Authority also continues to create other opportunities for youth through partnerships with County agencies and private funding partners.

### **Current Trends**

The Park Revenue Fund is primarily supported from user fees and charges generated at the agency's revenue supported facilities which include recreation centers, golf courses, lake parks, nature centers, historic sites and various other major parks. The Authority's enabling legislation states that revenues must be spent exclusively for park purposes. Revenue received from recreation centers and golf courses are designed to fully recover the annual operating and maintenance costs of these facilities, while the revenue received from the lake parks, nature centers, historic sites and various other major parks only cover a portion of the annual costs. In addition to annual operating and maintenance costs, the Park Authority strives to achieve a positive net cost recovery in order to contribute to capital repairs for revenue funded facilities necessary to maintain and adapt facilities to meet citizen service expectations.

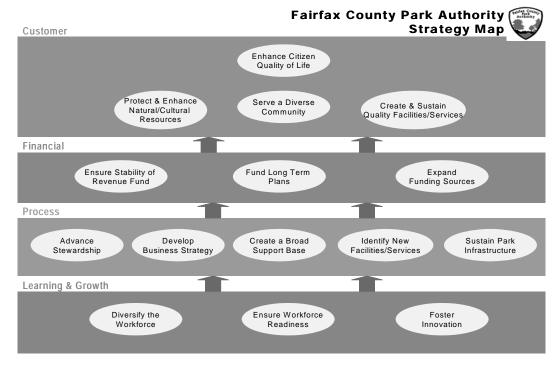

Some park operations are funded from both the General Fund and Park Revenue Fund. The General Fund pays for the administrative salaries and some operating costs. The General Fund also pays for activities associated with the policy, communication and leadership activities of the Director's Office, as well as funding administrative costs for purchasing, accounting and payroll and risk management procedural compliance.

Management of Revenue Fund facilities must quickly respond to changing expectations in order to maintain customer loyalty, and to respond to changing customer expectations. Examples of application of net revenue funds to benefit citizens and customers include: development of Pilates studios at two RECenters; implementation of indoor cycling programs; conversion of an old ball field concession facility to a supplemental class and camp building; initiative of a fall prevention program for seniors; installation of Ultraviolet light systems in swimming pools to improve water quality; upgraded irrigation pump stations at golf courses; on-course restroom facilities on golf courses; development of a mini-golf course at Burke Lake Park; all-weather covers for the driving range at Twin Lakes golf course; and a refreshment station for park users at Jefferson District Park. In addition, revenue supports other operational needs such as information technology, improving both service delivery and management. Recent or near-term initiatives include enabling customer-oriented services such as on-line pass sales/renewals; e-mail classes, camp and Rec-PAC surveys; electronic distribution of camp registration packets; updated Concert series web pages that include new search capability for citizens to find programs; on-line gift card purchasing; plans to develop special web "portals" targeted to seniors and youth; e-newsletters, and developing an enhanced Parktakes on-line.

A Facility Condition Assessment of existing facilities and infrastructure, completed as part of the Needs Assessment, indicates that capital requirements may cost up to \$100 million (for the General Fund and Park Revenue Fund combined) over the next 10 years for repairs and renovations to existing facilities and infrastructure. The decline of these facilities and infrastructure is largely attributable to age, usage, and limited resources to perform required life-cycle maintenance. The desire of the community to preserve and maintain existing parks was evident in the qualitative and quantitative data gleaned from the Needs Assessment process. The Park Authority will be developing a long-term plan to manage both the growing costs for maintenance needs for the park facilities, as well as new debt service requirements associated with the addition of Laurel Hill.

### **Strategic Plan**

The following Strategy Map serves as a model of how the Park Authority creates value for County citizens. It contains the agency's 2006-2010 strategic objectives, identified within the learning and growth, process, financial and customer perspectives. Collectively, these objectives help to meet the Park Authority's overarching goal of improving citizen quality of life.

The customer perspective contains the overarching objectives of the Park Authority's 2006-2010 Strategic Plan, which is to "Enhance Citizen Quality of Life." The agency accomplishes this through its two-dimensional mission statement ("Protect and Enhance Natural and Cultural Resources" and "Create and Sustain Quality Facilities and Services"). In addition, the Park Authority aims to provide programs, facilities and services that engage and meet the needs to "Serve a Diverse Community."

The strategic objectives contained in the other three perspectives of the Map (Learning and Growth, Process, and Financial) position the Park Authority to successfully meet the overarching objectives contained in the Customer Perspective.

The Park Authority 2006-2010 Balanced Scorecard Strategic Plan can be accessed at the Fairfax County Park Authority Web site at http://www.fairfaxcounty.gov/parks/.

# New Initiatives and Recent Accomplishments in Support of the Fairfax County Vision

| Maintaining Safe and Caring Communities   | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Continue to partner with Fairfax County homeless shelters to offer free summer camps to their resident children. In FY 2007, the Parks and Community Together (PACT) Camp for Homeless Children program served 54 children from area shelters for a total of 202 weeks of camp. PACT, which is exclusively underwritten by contributions from local corporations, area businesses, major foundations and caring individuals, expended \$52,387 for this purpose.  | ð                 | ¥                     |
| Continue to support gang awareness and prevention efforts through summer camp programs, staff training and participation on the Annandale Gang Task Force. In FY 2007, expanded RavenQuest, an environmental stewardship summer camp for teens at-risk for gang involvement to serve more than 40 youth. Trained 12 staff through Virginia State Department of Education to identify gang issues.   | ð                 | ¥                     |
| Continue to promote healthy lifestyles and personal health and fitness by adapting exercise programs in response to emerging trends; designing more responsive methods of implementation responding to customers needs for personal training, specialized fitness and wellness programs; and partnering with physical therapists.   | ð                 | $ \mathbf{Z}$         |
| Invest in health and fitness of the County's youth by expanding physical activity hours for youth through teen fitness camps at various RECenters, home school programs and collaborating with Fairfax County Public Schools (FCPS) to provide alternative physical education for more than 500 teens in FY 2007 and FY 2008. In FY 2009, expand cooperative efforts with the Countywide Prevention System, schools, state agencies and health organizations to provide a coordinated outreach targeting youth obesity. | ð                 | ¥                     |
| Initiate Senior Services Program to develop and implement programs targeted to seniors to address Strategic Plan priorities, including development of a senior web portal to target communication about services and opportunities for seniors, implementation of a fall prevention program, providing respite, relief and support to caregivers and those for whom they are caring and development of a comprehensive senior wellness program.   |                   | ¥                     |
| Building Livable Spaces   | Recent<br>Success | FY 2009<br>Initiative |
| The clubhouse at the Laurel Hill Golf Club opened to the public in June of 2007, expanding services and providing an attractive setting for social functions.   | ð                 |                       |

| Connecting People and Places  | Recent<br>Success | FY 2009<br>Initiative |
|---|-------------------|-----------------------|
| Implemented new on-line, e-commerce initiative by launching on-line facility pass sales and renewals. Implement next phase of e-commerce priorities, on-line sales of gift cards, and identify and prioritize future phases of e-commerce enhancements.   | ð                 | ð                     |
| Continue to partner with the Fairfax County Park Foundation and Friends of Frying Pan Farm Park for an Annual Corporate Farm Olympics event to connect businesses to parks by providing team building opportunities at Frying Pan Farm Park.  | ð                 | ð                     |
| Completed Phase II of initial plan for significant upgrades to the golf Web site pages, allowing visitors to receive consistently updated information in a more attractive manner. The sites were expanded to include visuals of the golf courses, event calendars and program descriptions that add to the overall enjoyment of the site.  | V                 |                       |
| Practicing Environmental Stewardship  | Recent<br>Success | FY 2009<br>Initiative |
| Support environmental stewardship on golf courses by expansion of the biological dredging program, adding more bluebird houses in partnership with the Virginia Bluebird Society and achieving designation as a Certified Audubon Sanctuary at Laurel Hill Golf Club. Four of six steps for certification have been completed including Environmental Planning, Chemical Use Reduction and Safety, Water Conservation and Water Quality Management. | ¥                 | A                     |
| Incorporated the Park Authority's first geo-thermal heating and air conditioning system into the Laurel Hill clubhouse. This environmentally friendly system is designed to use less energy than traditional systems.   | ¥                 |                       |
| Continue a meaningful "Watershed Experiences in Parks" program for the FCPS seventh graders by initiating the program at several Resource Management Division sites.  | ð                 | V                     |
| Researched and implemented new technologies to improve the natatorium (aquatic center) environment, enhance bather health and comfort and reduce damage to building structures and equipment. Ultra-violet light disinfection systems were installed in three facilities in FY 2008, with two planned for FY 2009, pending available funding.   | ð                 | ð                     |
| Initiate an Energy Management Program that will begin with initial retrofits at select Park Authority facilities where energy usage is highest and provide initial implementation of the Energy Star program.   |                   | ¥                     |

| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Published the <i>Parktakes</i> magazine, which provides general information on the park system and services in multiple languages (Spanish, Korean, Vietnamese and Farsi). Some <i>Parktakes</i> program listings appeared in Spanish for the first time. Produced flyers and posters in Spanish to promote summer concerts and distributed flyers through direct mail and community organizations in neighborhoods with significant Latino populations. Promoted concerts on ElZol, the number one Spanish language radio station in the Washington metro area. Park Authority rules and regulations translated into five languages. Creating multi-lingual promotional materials to support planned international film festival. | ð                 | ¥                     |
| Increase program offerings in aquatics, fitness, environmental camps and general programs for a diverse community through hiring staff with bilingual skills, creating bilingual print information and encouraging participation by existing specialty groups.   |                   | ¥                     |
| Develop and implement Customer Service Training program.   |                   |                       |
| In partnership with the Fairfax County Public Schools (FCPS) and the Northern Virginia Urban League, developed a Youth Golf partnership for more than 35 at-risk youth at Poe Middle School and Pinecrest Golf Course. In FY 2009, expand program to two sessions with advanced beginner instruction.  |                   | $ \mathbf{Y}$         |
| <b>Exercising Corporate Stewardship</b>  | Recent<br>Success | FY 2009<br>Initiative |
| Completed research on business planning and developed business plan model. Begin implementation of model by creating data collection and compilation component and begin drafting business plan to achieve strategic objective of ensuring stability of the Park Revenue Fund.   | ð                 | ¥                     |
| Implemented initial measures to reduce cost of <i>Parktakes</i> magazine by a targeted \$45,000 per year. Evaluate and implement further reductions.   | V                 | <b>d</b>              |
| As part of an annual, on-going campaign, 2,948 citizens donated a total of \$31,596 to the Class Scholarship Fund in FY 2007, helping to offset the cost of providing class fee waivers to those in financial need.  | I                 | Y                     |
| Completed third year of monitoring customer retention in key revenue areas to establish baseline data.   | V                 |                       |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$891,063

An increase of \$891,063 in Personnel Services associated with salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

♦ New Positions \$170,464

An increase of \$170,464 in Personnel Services for 2/2.0 SYE positions, a Park Recreation Specialist IV and a Park Recreation Specialist III. These positions will allow for enhanced coordination with other public and private programs and partners, and will support the development of a regional communication network for the exchange of information on regional issues and trends.

### Operating Expenses

\$433,480

An increase of \$433,480 in Operating Expenses associated with increases in repairs, maintenance and rising utility costs, as well as renovations to existing Park Authority facilities.

♦ Recovered Costs (\$53,895)

An increase of \$53,895 in Recovered Costs primarily associated with salary adjustments.

### **♦** Capital Equipment

\$651,833

Funding in the amount of \$651,833 is included for Capital Equipment for the replacement of aquatic entertainment equipment, exercise equipment and golf course maintenance equipment, as well as a gym floor cover and campground utility cart.

♦ Bond Costs \$364

An increase of \$364 in Bond Costs, consistent with principal and interest requirements for FY 2009.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

### Pay for Performance

\$156,938

An increase of \$156,938 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

### **♦** Carryover Adjustments

\$0

As part of the FY 2007 Carryover Review expenditures in this fund remained unchanged; however, an amount of \$800,000 was transferred out to Fund 371, Park Capital Improvement Fund, for general park improvements, including critical building repairs.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

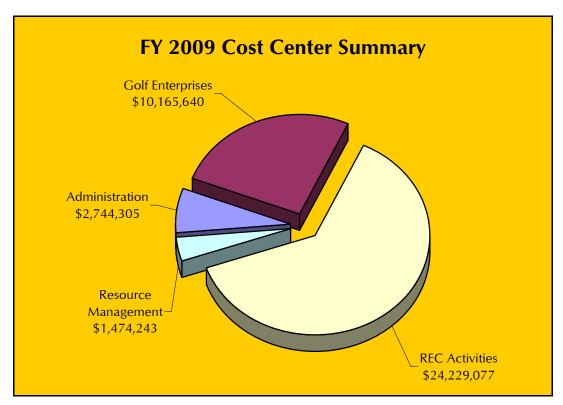

### **♦** Third Quarter Adjustments

\$917, 265

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an expenditure increase of \$917,265 including \$760,000 in Personnel Services, \$207,265 in Operating Expenses, and a decrease of \$50,000 in Capital Equipment, to fund seasonal and temporary staffing and operating costs for expanded revenue generating classes and activities.

### **Cost Centers**

The four Cost Centers of the Park Revenue Fund are Administration, Golf Enterprises, REC Activities and Resource Management. The Cost Centers work together to fulfill the mission of the Fund and carry out the key initiatives for the Fiscal Year.

### **Key Performance Measures**

### Goal

To implement Park Authority Board policies and provide high quality administrative and business support to all levels of the Park Authority in order to assist division management in achieving Park Authority mission-related objectives.

### **Objectives**

♦ To manage expenditures, revenues, and personnel and to provide safety and information technology services for the Park Authority, with at least 95 percent customer satisfaction, while achieving at least 75 percent of the approved administration division's work plan objectives.

### **Performance Measurement Results**

Workloads continued to increase as a result of the opening of several facilities over the last several years including Cub Run Recreation Center, Laurel Hill Golf Course and the recent Laurel Hill Clubhouse, as well as increased audit requirements. Customer satisfaction for FY 2007 was 97 percent and is projected to remain high at 95 percent in FY 2008 and FY 2009, despite increased workload demands without increases to administrative support staff. The division accomplished 75 percent of its work plan objectives for FY 2007, and will continue to make every effort to achieve its objective target of 75 percent for both FY 2008 and FY 2009.

### **Key Performance Measures**

### Goal

To operate and maintain quality golf facilities, programs and services for the use and enjoyment of Fairfax County citizens and visitors; plan for future golf needs countywide; and provide opportunities and programs that enhance the growth of the sport as a life-long leisure activity.

### **Objectives**

- ♦ To increase the number of golf rounds played to nearly 325,000, an increase of 1.6 percent, while maintaining the overall satisfaction rating for golfers at 64 percent.
- ♦ To recover approximately 118 percent of costs.

### **Performance Measurement Results**

In FY 2007, rounds played decreased by 0.5 percent from FY 2006. Small variations in weather, even during one day, can have a large impact on the number of rounds played. Based on recent local and national golf play statistics, the agency expects the number of rounds played for FY 2009 to be 325,000, an increase over the FY 2007 actual of 318,117.

The Service Quality outcome reflects the percent of survey respondents who rated their satisfaction as 8, 9 or 10 on a scale of 1 to 10, with 1 as "worst" and 10 as "best" quality. The satisfaction rating at the end of FY 2007 was 59 percent, 5 percentage points below the FY 2006 result. The Park Authority will strive to achieve the 64 percent target in FY 2008 and FY 2009 by being more responsive to customer input and needs as identified in the survey results. Information derived from a recent golfer satisfaction survey will also provide the foundation on which to build plans for improvement.

The cost recovery estimate of 123.04 percent for FY 2007 was not met, since a delay in the opening of the Laurel Hill Golf Club clubhouse limited the revenue potential of the site. Based on budgeted revenues and expenditures, FY 2008 reflects a cost recovery projection of 122.30 and FY 2009 reflects 117.6 percent.

### **Key Performance Measures**

#### Goal

To provide financially self-sufficient recreational facilities and services that meet the expectations of the citizens of Fairfax County in order to enhance their quality of life by providing opportunities to develop lifetime leisure pursuits.

### **Objectives**

♦ To achieve and maintain a rate of 5.60 service contacts per household, and a customer satisfaction rating of 75 percent in order to provide opportunities for Fairfax County citizens to enhance their recreational, fitness, health and leisure activities while learning about linkages between these resources and a healthy community and personal life.

### **Performance Measurement Results**

Service Quality data is collected via household surveys. The external survey tool is designed to measure how important various park resources or services are in the lives of Fairfax County households. The Service Quality outcome of this survey reflects the percent of respondents who rated their satisfaction as 8, 9 or 10 on a scale of 1 to 10, with 1 as "worst" and 10 as "best" quality. The satisfaction rating at the end of FY 2007 is 76 percent, 4 percentage points above the FY 2006 results. The Park Authority will strive to continue to achieve the 75 percent target in FY 2008 and FY 2009 by developing specific strategies using information from a recent customer satisfaction survey. In FY 2007, The Park Authority achieved a rate of 5.66 service contacts per household, higher than the goal of 5.64. A goal of 5.60 service contacts per household is set for FY 2008 and FY 2009. The percent of households indicating parks/recreation service are "very" important or "extremely" important remains high at 77 percent in FY 2007. The agency will strive for results of 78 percent in FY 2008 and FY 2009.

<sup>(1)</sup> In FY 2006 the Visitors Center at Frying Pan Farm Park opened and drew in more visitors.

### **Performance Measurement Results**

The number of Visitor Contacts represents actual counts of those visitors participating in Resource Management Division (RMD) programs, events or other services and does not include other visitors who use RMD parks and facilities in unstructured activities. The Park Authority will strive for an increase of 3.5 percent in number of contacts in FY 2008 and FY 2009.

The Park Authority's Performance Measurement Satisfaction survey is designed to measure the importance of various park resources or services in the lives of Fairfax County households. The Service Quality outcome of this survey reflects the percent of respondents who rated their satisfaction as 8, 9 or 10 on a scale of 1 to 10, with 1 as "worst" and 10 as "best" quality. The percentage of visitors who were "very" satisfied with programs and services in FY 2007 was 78 percent, and the agency is expected to achieve a target of 75 percent in FY 2008 and FY 2009. The Quality of Life outcome reflects the percent of respondents who indicated that park resources or services were "extremely" or "very" important, when given the choices of "extremely, very, somewhat or not at all" important. The percent of households indicating that natural, cultural and horticultural resources, facilities and services are "extremely" or "very" important to quality of life is 70 percent in FY 2007 and is expected to increase slightly to 72 percent in FY 2008 and FY 2009.

<sup>1</sup> This fund statement reflects cash basis accounting. This method differs from the Park Authority's Comprehensive Annual Financial report (CAFR-FAMIS) which records revenue for unused Park passes in order to be in compliance with Generally Accepted Accounting Principles. The difference in the amount of revenue recognized under the cash basis accounting method used above and not recognized in the Park Authority's CAFR is \$3,946,904. The net effect of deferred revenue is that the FY 2007 Actual Column shown above is \$143,031 higher than reflected in the County's accounting system using accrual basis. This impact is included in the Managed Reserve.

- <sup>2</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$1,126 has been reflected as an increase to FY 2007 revenue to reflect actual interest earnings and an audit adjustment of \$32,771 has been reflected as an increase to FY 2007 expenditures. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).
- <sup>3</sup> Debt service represents principle and interest on Park Revenue Bonds which supported the construction of the Twin Lakes Golf Course.
- <sup>4</sup> Debt service payments for the Note Payable which supported the development of the Laurel Hill Golf Club will be made from Fund 200, County Debt Service.
- <sup>5</sup> The Park Revenue Fund maintains fund balances at adequate levels relative to projected operation and maintenance expenses, as well as debt service requirements. These costs change annually; therefore, funding is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.
- <sup>6</sup> The Managed Reserve includes set aside cash flow and emergency reserves for operations as a contingency for unanticipated operating expenses or a disruption in the revenue stream, as well as revenue set aside as part of the deferred liability plan scheduled to convert to a full accrual Fund Statement in FY 2010.
- <sup>7</sup> The Set Aside Reserve is used to fund renovations and repairs at various park facilities as approved by the Park Authority Board.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

♦ The Board of Supervisors made no adjustments to this fund.

### **Focus**

This fund was established under the provisions of the Park Authority Act to provide for capital improvements to the agency's revenue generating facilities and parks, as well as various park sites where grants, proffers and donations have been received for specific park improvements. Funding is also derived through transfers from Fund 170, Park Revenue Fund; lease payments; and revenue bonds for golf course development. In recent years, transfers from Fund 170 have supported improvements to park facilities; however, the amount of funding received from Fund 170 fluctuates from year to year.

No funding is included for Fund 371, Park Capital Improvement Fund, in FY 2009.

### **Changes to FY 2008 Adopted Budget Plan**

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

♦ As part of the *FY 2007 Carryover Review*, the Board of Supervisors approved an increase of \$17,199,935 due to the carryover of unexpended project balances in the amount of \$9,697,943 and an adjustment of \$7,501,992. This adjustment included \$960,033 in interest earnings and \$5,981,431 in park proffers and contributions, as well as an \$800,000 transfer in from Fund 170, Park Revenue Fund. These adjustments were offset by an increase of \$239,472 to the Facilities and Services Reserve.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from

January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

As part of the FY 2008 Third Quarter Review, the Board of Supervisors approved an increase of \$2,018,000 in support of on-going projects. This adjustment included \$1,618,000 due to the appropriation of revenue received and \$400,000 appropriated from the Facilities and Services Reserve for emergency repairs at the Mt. Vernon RECenter.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

<sup>&</sup>lt;sup>1</sup> Reflects revenues from a Recreation Access Program grant awarded by the Commonwealth of Virginia Transportation Board on December 19, 2002 for improvements at Stratton Woods Park (Project 004567).

<sup>&</sup>lt;sup>2</sup> In order to account for revenues in the proper fiscal year, an audit adjustment in the amount of \$4,934 has been reflected as an increase to FY 2007 revenues to reflect interest earnings in the proper fiscal period. This audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>&</sup>lt;sup>3</sup> As part of the *FY 2007 Carryover Review*, an amount of \$800,000 was transferred from Fund 170, Park Revenue Fund, for several projects, including: \$235,179 for Park Rental Buildings, \$200,000 for ParkNet, \$200,000 for Park General Improvements, and \$164,821 to increase the balance in the Facilities and Services Reserve.

<sup>&</sup>lt;sup>4</sup> Capital Projects are budgeted based on total project cost. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.

<sup>&</sup>lt;sup>5</sup> This Reserve separately accounts for the Ellanor C. Lawrence monies received for maintenance and renovation to this site. In accordance with the FCPA Board, the principal amount of \$1,507,926 received from the donation will remain intact, and any interest earned will be used according to the terms of the Trust.

<sup>&</sup>lt;sup>6</sup> The Golf Revenue Bond Indenture requires that a security reserve and capital repair reserve be maintained in the Capital Improvement Plan for repairs to park facilities.

<sup>&</sup>lt;sup>7</sup>This reserve supports the maintenance and renovation of revenue-generating facilities.

### **FY 2009 Summary of Capital Projects**

### Alcohol Safety Action Program

### Mission

To reduce the incidence of driving under the influence of alcohol (DUI) in Fairfax County through completion of a rehabilitative alcohol/drug education program, case management, public education, and referral to alcohol/drug treatment programs when necessary.

### **Focus**

The Fairfax County Alcohol Safety Action Program (ASAP) serves a probationary function for the Circuit and General District Courts under the supervision of the ASAP Policy Board. The Fairfax ASAP is one of 24 ASAPs in Virginia and clients are court ordered, DMV referred, or participate voluntarily. The core programs are

state mandated and address essential needs of clients including: intake, assessment, rehabilitative alcohol/drug education, referral to treatment, and case management to individuals charged with, or convicted of, driving under the influence of alcohol (DUI). In addition, ASAP provides alcohol/drug education programs for habitual offenders, a drug education program for first-time drug possession offenders, and programs for adolescent substance abusers. ASAP also participates in outreach activities that educate the community about its mission. Programs are available in English, Spanish and Korean. ASAP's continual focus will be the supervision of DUI offenders as well as the enforcement of the Code of Virginia. The agency will also continue to rely on partnerships with the courts, Commonwealth Attorney's office, and treatment providers.

### THINKING STRATEGICALLY

Strategic issues for the department include:

- o Providing educational programs to reduce the incidents of driving under the influence of alcohol or drugs; and
- o Continuing efforts to maintain a fund balance sufficient to avoid deficit status during periods where referrals, and therefore client fee revenues to ASAP, decline.

The County is the fiscal agent for the Fairfax ASAP which is administered through the Department of Administration for Human Services. ASAP is expected to be a self-supporting agency, funded entirely by client fees with the County providing indirect support through office space and utilities. The State imposes a \$400 fee ceiling on per client costs for the state mandated core program. The agreement between the ASAP Policy Board and the Board of Supervisors provides that ASAP will endeavor to develop a reserve fund balance sufficient to avoid deficit status during periods where referrals, and therefore client fee revenues to ASAP, decline. Should surplus client fees above and beyond the balance required for a sufficient reserve fund become available in any fiscal year, the ASAP Policy Board will reimburse the County for the indirect costs noted above, or may request permission from the Board of Supervisors to expend such funds on the program. It should be noted that the number of clients has declined since peaking in FY 2004 due to decreased referrals to ASAP coming from the courts but is expected to level off in FY 2008 and future fiscal years. The generally lower number of referrals (and resulting lower client fee revenues) combined with ongoing expenditure requirements will challenge the agency to maintain a positive fund balance.

### New Initiatives and Recent Accomplishments in Support of the **Fairfax County Vision**

| Maintaining Safe and Caring Communities  | Recent<br>Success | FY 2009<br>Initiative |
|--|-------------------|-----------------------|
| Continue to serve the community by offering alcohol education programs, referral to treatment, and probation supervision to individuals convicted of driving under the influence, over 90 percent of whom, according to DMV records, have not recidivated over a two year period.  | d                 | Ŋ                     |
| Continue to establish new partnerships with Fairfax County Public Schools and other community resources to improve DUI education and public information dissemination to the citizens of Fairfax County.   | d                 | Y                     |
| Creating a Culture of Engagement   | Recent<br>Success | FY 2009<br>Initiative |
| Served approximately 3,575 individuals in FY 2007 in the core alcohol/drug education program, with programs available in English, Spanish and Korean as needed.  | ¥                 |                       |
| <b>Exercising Corporate Stewardship</b>  | Recent<br>Success | FY 2009<br>Initiative |
| Continue efforts to maintain a sufficient fund balance in order to retain the staff necessary to ensure public safety, maximize program benefits, and avoid deficits when client fee revenues decline. This will be closely watched in FY 2008 and FY 2009 as the number of clients has declined since peaking in FY 2004 due to decreased referrals to ASAP coming from the courts. | ð                 | ¥                     |

### **FY 2009 Funding Adjustments**

The following funding adjustments from the FY 2008 Revised Budget Plan are necessary to support the FY 2009 program:

### **♦** Employee Compensation

\$50,160

An increase of \$50,160 is due primarily to salary adjustments necessary to support the County's compensation program. As a result of budget constraints, compensation adjustments for County employees have been reduced. For FY 2009, employee increases as part of the pay for performance system have been discounted by 50 percent and the impact of the lower pay for performance funding is reflected above.

### **Board of Supervisors' Adjustments**

The following funding adjustments reflect all changes to the <u>FY 2009 Advertised Budget Plan</u>, as approved by the Board of Supervisors on April 28, 2008:

### **♦** Pay for Performance

\$12,453

An increase of \$12,453 in Personnel Services is associated with the decision by the Board of Supervisors to eliminate the 50 percent reduction to employee increases as part of the pay for performance system. A reduction to pay for performance increases had been proposed in the FY 2009 Advertised Budget Plan due to budget constraints. However, as a result of the Board's decision, employees will be eligible for the full compensation increase for which they qualify based on performance.

### Changes to FY 2008 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2008 Revised Budget Plan since passage of the FY 2008 Adopted Budget Plan. Included are all adjustments made as part of the FY 2007 Carryover Review and all other approved changes through December 31, 2007:

◆ There have been no revisions to this fund since the approval of the FY 2008 Adopted Budget Plan.

The following funding adjustments reflect all approved changes to the FY 2008 Revised Budget Plan from January 1, 2008 through April 21, 2008. Included are all adjustments made as part of the FY 2008 Third Quarter Review:

♦ The Board of Supervisors made no adjustments to this fund.

### **Key Performance Measures**

### **Objectives**

♦ To provide a comprehensive alcohol/drug education program to individuals charged with driving under the influence of alcohol (DUI) that results in 92 percent of clients who have successfully completed the probationary period two years prior and have not recidivated.

|  | Prior Year Actuals |                   |                            | Current<br>Estimate | Future<br>Estimate |

| Cost per individual served (1)   | \$312              | \$334             | \$487 / \$365              | \$404               | \$418              |
| Service Quality:   |                    |                   |                            |                     |                    |
| Percent of individuals satisfied   | 97%                | 97%               | 97% / 97%                  | 97%                 | 97%                |
| Outcome:   |                    |                   |                            |                     |                    |
| Percent of individuals completing the program two years prior who have not recidivated based on Department of Motor Vehicles (DMV) records | 92%                | 92%               | 92% / 92%                  | 92%                 | 92%                |

<sup>(1)</sup> Please note that the FY 2005 and FY 2006 actuals have been updated due to a methodology change in which categories of individuals are included; this will allow for consistency with FY 2007 actuals, FY 2008 and FY 2009 estimates, as well as future fiscal years.

### **Performance Measurement Results**

It should be noted that clients referred by the Courts to programs other than ASAP's core education program are not required to pay the full state-mandated fee and are not counted in the above table. Service Quality, a measurement of client satisfaction with ASAP education classes, has remained at the 97 percent level since FY 2001, and is projected to remain at this high level. The percentage of individuals completing the core education program two years prior who have not recidivated has remained at 92 percent and is expected to remain at that level in FY 2008 and FY 2009. It should be noted that the number of clients has declined since peaking in FY 2004 due to decreased referrals to ASAP coming from the courts but is expected to level off in FY 2008 and future fiscal years. This generally lower total of referrals combined with ongoing expenditure requirements have resulted in a steady increase in the cost per individual served over this time period. A level over \$400 per individual is not sustainable as the state has imposed a \$400 per client maximum fee. ASAP is taking measures to control expenditures during this extended period of lower referrals from the courts.

### **FUND STATEMENT**

Fund Type G10, Special Revenue Funds

Fund 117, Alcohol Safety Action Program

| Ending Balance <sup>1</sup> | \$90,838          | \$67,981                          | \$90,838                          | \$90,838                             | \$90,838                          |

<sup>&</sup>lt;sup>1</sup> Ending Balance fluctuations are the result of the uncertain nature of dient referrals to ASAP-sponsored programs. The agreement between the ASAP Policy Board and the Board of Supervisors provides that ASAP will endeavor to develop a reserve fund balance sufficient to avoid deficit status during periods where referrals, and therefore client fee revenues to ASAP, decline.
