## **Program Management**

#### Goal

To enhance the health and medical knowledge of County residents and medical partners through maximizing the use of information technology.

## Objective

To achieve a website rating of Very Helpful or better from 80 percent of Web site users.

## **Dental Health Services**

#### Goal

To improve the health of low-income children through prevention and/or control of dental disease and to improve the oral health of maternity clients of the Fairfax County Health Department.

## Objective

To complete preventative and restorative dental treatment within a 12 month period for at least 40 percent of the children seen.

## **Environmental Health Services**

#### Goal

To protect and improve the health and welfare of all persons in Fairfax County by preventing, minimizing or eliminating their exposure to biological, chemical or physical hazards in their present or future environments.

### Objective

To maintain the percentage of regulated food establishments that are inspected on a frequency that is based on the food borne risk potential of the establishment (high risk establishments will be inspected three times a year, moderate risk twice a year, and low risk once a year) and to maintain the percent of food service establishments found to be in compliance, at the completion of the inspection cycle, with control measures that reduce the occurrence of foodborne illness at 97.5 percent.

| Prior Year Actuals   |                   |                   |                            | Current<br>Estimate | Future<br>Estimate |

## **Objective**

To maintain the percentage of complaints dealing with rats, cockroaches, and other pest infestations; trash and garbage control; and a variety of other general environmental public health and safety issues that are resolved within 60-days at 90 percent and to maintain a target of 90 percent.

## **Communicable Disease Control**

#### Goal

To ensure that adults in the community experience a minimum of preventable illness, disability and premature death, and that health service utilization and costs attributable to chronic diseases and conditions are reduced.

## Objective

For the Communicable Disease (CD) Program, to ensure that 95 percent of completed communicable disease investigations need no further follow-up; and to maintain the incidence of tuberculosis (TB) at no greater than 10.0/100,000 and to move toward the Healthy People 2020 national objective of 1.0/100,000 population, assuring that 97 percent of all TB cases will complete treatment.

### **Objective**

To make it possible for 95 percent of residents to avoid needless rabies post-exposure shots by the timely receipt of negative lab results by maintaining the percentage of rabies tests involving critical human exposure that are completed within 24 hours (potentially saving residents the expense of needless shots) at 95 percent.

## **Community Health Care Network**

### Goal

To provide timely and appropriate access to medical care for low-income, uninsured residents of Fairfax County and the cities of Fairfax and Falls Church.

## Objective

To provide Community Health Care Network clients with stable or improved health outcomes.

## **Maternal and Child Health Services**

#### Goal

To provide maternity, infant and child health care emphasizing preventative services to achieve optimum health and well-being.

## Objective

To achieve a target of 70 percent for the number of children served by the Health Department who are protected against vaccine preventable diseases as a result of completing the recommended vaccination series by 24 months of age.

## **Long Term Care Development and Services**

#### Goal

To promote the health and independence of frail elderly and adults with disabilities, while offering them an alternative to more restrictive and costly long term care options; and to provide respite for family caregivers.

## Objective

To provide adult day health care services to 281 frail elderly and adults with disabilities, so that 90 percent of their family caregivers are able to keep them at home, in the community, preventing the need for more costly and often less desirable long-term care options.

## Objective

To provide Medicaid Nursing Home Pre-Admission Screening so that 80 percent of low income frail elderly and adults with disabilities who meet the criteria for Medicaid waiver services will have access to Medicaid community-based services, thereby reducing the need for more restrictive and/or costly long term care.

# **Community Health Development and Preparedness Goal**

To promote community resiliency and capacity to address emerging public health issues and optimize public health emergency response and recovery efforts.

## Objective

To increase the number of residents reached through integrated agency-wide outreach events by 20 percent.
