

Talk about **Opioid Use Disorders** with your patients

A CLINICAL PRACTICE SIMULATION

Do you see patients with opioid use disorder?

Practice conversation techniques with virtual patients to present treatment options and address concerns to engage them in treatment.

- Understand the medications available to treat OUD, and their effectiveness.
- Use shared decision making and motivational approaches to help patients with OUD engage in healthier behavior and begin recovery through treatment.
- Learn more about a DATA-2000 waiver and/or use buprenorphine to treat patients in an office setting.
