### **ACTION**

<u>Scope Approval – Roundtree Park Improvements (Mason District)</u>

### <u>ISSUE</u>:

Approval of the project scope for design and construction of bathroom/shelter renovations, playground replacement, bridge replacement, trails and parking lot pavement replacement and related site work at Roundtree Park.

### **RECOMMENDATION:**

The Park Authority Executive Director recommends approval of the project scope for design and construction of bathroom/shelter renovations, playground replacement, bridge replacement, trails and parking lot pavement replacement and related site work at Roundtree Park.

### TIMING:

Park Authority Board action is requested on March 13, 2019, to maintain the project schedule.

### BACKGROUND:

The approved Planning and Development Division FY 2019 Work Plan includes a 2016 Park Bond project to perform improvements at Roundtree Park. Due to the aging infrastructure at Roundtree Park, dating to the mid-1970s, and to meet current ADA accessibility standards, extensive repairs, replacement and maintenance are required (Attachment 1).

The project team was assembled with representatives from Park Operations, Resource Management, Park Services, and Planning and Development Divisions to establish the project scope in accordance with the approved FY 2019 Planning and Development Division Work Plan. Staff selected the consulting firms Shaffer, Wilson, Sarver & Gray, P.C. (SWSG) and Bowman Consulting Group, LTD., to assist with project scoping and perform design services for the project.

The project team identified necessary end of lifecycle facility replacements, upgrades and accessibility improvements required throughout the park. The scope of work anticipated to renovate Roundtree Park includes:

• Provide accessible parking

# Board Agenda Item March 13, 2019

- Provide accessible trails and walkways throughout the park
- · Resurface parking lot, trails, and basketball court
- Replace playground including drainage, surfacing and site amenities
- Renovate bathroom/shelter to comply with accessibility standards
- Replace game tables with standard picnic tables on a concrete pad

In addition to the scope above the project team is recommending resurfacing the existing asphalt trails in the Holmes Run Stream Valley and replacing the existing 20-foot wooden bridge with a standard fiberglass bridge over Cow Branch (Attachment 2).

The project cost estimate for preparing the bid documents and completing the recommended scope of work is \$1,300,000 (Attachment 3). Staff estimates that the improvements to Roundtree Park will result in \$1,000 of additional annual revenue through a twenty percent increase in shelter rentals. Staff estimates that maintenance costs to operate the park will remain the same with a lifecycle replacement cost of \$1,000,000 in year 20.

The proposed timeline for completing the project is as follows:

PhasePlanned CompletionScopeFirst Quarter CY 2019Design / PermittingSecond Quarter CY 2019ConstructionSecond Quarter CY 2020

### FISCAL IMPACT:

Based on the scope cost estimate, funding in the amount of \$1,300,000 is necessary to fund this project. Funding is currently available in Fund 300-C30400, in the amount of \$1,300,000 in PR 000078-049, 2016 Park Bond, Park Renovations and Upgrades, Roundtree Park Improvements.

### **ACTION**

<u>Scope Approval – Upper Long Branch Stream Valley Trail Improvements (Braddock District)</u>

### ISSUE:

Approval of the project scope to improve 7,200 linear feet of existing gravel trail by resurfacing to an eight-foot-wide asphalt trail and replace one stream crossing with a fiberglass bridge and related work in the upper section of the Long Branch Stream Valley Park near Rutherford Park.

### **RECOMMENDATION:**

The Park Authority Executive Director recommends approval of the project scope to improve 7,200 linear feet of existing gravel trail by resurfacing to an eight-foot-wide asphalt trail and replace one stream crossing with a fiberglass bridge and related work in the upper section of the Long Branch Stream Valley Park near Rutherford Park.

### TIMING:

Board action is requested on March 13, 2019, to meet desired construction schedules.

### **BACKGROUND:**

The Park Authority Board approved the list of trail projects identified for funding from the remaining balance of 2012 Park Bond and 2016 Park Bond designated for trail improvements on October 25, 2017. This list of funded projects includes improvements to an existing section of stream valley trail in the Long Branch Stream Valley between Olley Lane and Woodland Way in the Braddock. This project consists of the resurfacing of approximately 7,200 linear feet of 8-foot-wide asphalt trail, replacing one stream crossing with a fiberglass bridge, a 250 foot reroute of an existing trail and several culvert replacements (Attachment 1).

A project team was assembled with representatives from Park Operations, Resource Management and Planning and Development Divisions to establish the project scope in accordance with the approved FY 2019 Planning and Development Division Work Plan. The civil engineering firm, Christopher Consultants was hired to assist the project team in developing the project scope.

Staff recommends the following scope of work for this project to include:

# Board Agenda Item March 13, 2019

- Construction of 7,200 LF of 8-foot-wide asphalt trail over existing gravel trail
- Construction of a 45-foot fiberglass bridge and demolition of an old wooden bridge
- Construction of pipe culverts to improve trail drainage
- Construction of 250 LF of 8-foot-wide asphalt trail in Rutherford Park
- Installation of a large box culvert in Rutherford Park

The detailed cost estimate for the construction of trail improvements, including the associated contingency and administrative costs as outlined above is \$674,650 (Attachment 2). This project will not generate additional revenue. Staff estimates a decrease of \$3,357 in annual maintenance costs for this trail with a lifecycle replacement cost of \$208,090 in year 20 for repaying the trail.

The proposed timeline for completion of the project is as follows:

Phase Planned Completion

Design May 2019
Permitting October 2019
Construction June 2020

### FISCAL IMPACT:

Based on the scope cost estimate, funding in the amount of \$674,650 is necessary to fund the Long Branch Stream Valley Park Trail Improvements Project. Funding is currently available in Fund 300-30400 in the amount of \$200,000 in PR-000091-045, Existing Facility Renovation, 2012 Park Bond, Countywide Trails Project - Long Branch SV Trail and in the amount of \$474,650 in PR-000078, Park Renovations and Upgrades, 2016 Park Bond, Countywide Trails Project to fund this project.

#### **INFORMATION**

### Monthly Contract Activity Report

The Monthly Contract Activity Report lists all contract activities in support of the Capital Improvement Program (CIP) authorized during January 2019 in value over \$100,000. The report lists professional services and construction activities to include awards made via competitive bidding as well as awards made through the use of open-ended contracts. An activity is reported when procurement begins and is listed on the report until a Notice to Proceed (NTP) is issued.
