The bill requires the Department of Education to administer the Public Preschool Grant Program and establish (i) guidelines and procedures for grant applications, awards, and renewals; (ii) standards for preschool programs established and maintained by grant recipients, including standards for curriculum, student achievement, attendance, instruction, personnel, and length of school day and school year; and (iii) data collection and reporting requirements for grant recipients. (18103673D)

**HB 319** (Bourne) (HRUL) permits any local school board to offer any slots in its Virginia Preschool Initiative program that remain unfilled by at-risk students after initial enrollment to students who reside in the school division and meet the age requirements but do not qualify as at-risk and to charge a fee for such enrollment. (18103571D)

**Elections**

**HB 357** (Reid) (HPE) provides that at an election without a federal office on the ballot, if the polling hours are extended by a court order, persons who are voting during the extended polling hours shall be permitted to vote a regular ballot. The bill requires that such persons be marked in the pollbook as having voted during the extended polling hours and that such ballots be kept

separate from ballots cast during normal polling hours. Under current law, whenever polling hours are extended by a court order, ballots cast by persons who are voting during the extended polling hours are treated as provisional ballots. The bill makes this current law applicable only to elections with a federal office on the ballot, in accordance with the requirements of the Help America Vote Act of 2002. (18102331D)

**HB 628** (Marshall) (HPE) directs the Attorney General to develop and make available a template memorandum of understanding to be used by the localities when establishing polling places. The bill allows governing bodies to enter into a memorandum of understanding with the entity or person authorized to grant the use of the facility as a polling place. Using the template prescribed by the Attorney General, the parties will specify the terms for use of the facility, including the hours and dates the facility is to be used, the availability of parking at the facility, and the defined space where the elections are to be conducted. Such memorandum of understanding shall be entered into for a period of five years, with the option to renew at the end of the fourth year. Upon the mutual agreement of the two parties, such memorandum of understanding shall be voided. (18100801D)

**SB 150** (Edwards) (SPE) changes one of the criteria for determining when an electoral board is required to ascertain the total votes for each write-in candidate for an office from when less than five percent of the total number of votes cast for that office are write-in votes to when less than 20 percent of the total number of votes cast for that office are write-in votes. (18102921D)

#### *Absentee Voting*

**HB 1226** (Sickles) (HPE) extends from the third day after the election to the first Monday after the election the deadline by which a person voting provisionally due to lack of an accepted form of identification at the polling place has until to submit a copy of one of the accepted forms of identification to the electoral board in order to have his vote counted. The bill also provides that absentee ballots that are returned to the general registrar after the closing of the polls on election day but before noon on the first Monday after the election and that are postmarked on or before the date of the election shall be counted if the voter is found entitled to vote. (18101741D)

**HB 1345** (Guzman) (HPE) requires an application for a mailed absentee ballot to be made by 5:00 p.m. on the twelfth day prior to the election in which the applicant is offering to vote. Currently, such applications must be made by the seventh day prior to the election. (18104533D)

**SB 6** (Ebbin) provides that a registered voter who becomes obligated after noon on the Friday immediately preceding an election to travel outside of his county or city for a business purpose, for a hospitalization, or for the death of a member of his immediate family is entitled to apply for an absentee ballot and to vote absentee in-person. Such a registered voter is required to apply in person not later than 2:00 p.m. on the Monday immediately preceding the election. Currently, the provisions for late applications and in-person absentee voting apply only to those registered voters who become obligated after noon on the Saturday immediately preceding the election. (18100297D)

*Early Voting*

**HB 74** (Sullivan) (HPE) allows any registered voter to vote early in any election in which he is qualified to vote without providing a reason or making prior application for an absentee ballot. The bill requires that early voting be available beginning the twenty-first day prior to any general election, the seventh day prior to any special election held on a date other than the date of a general election, and the seventh day prior to any primary election and ending at 5:00 p.m. on the Saturday immediately preceding the election. The bill further requires early voting to be available during regular business hours each weekday during the applicable period, from 9:00 a.m. to 5:00 p.m. on each Saturday during the applicable period, and from 12:00 p.m. to 4:00 p.m. on each Sunday during the applicable period. The bill removes the current provisions for voting absentee in person but retains those provisions for voting an absentee ballot by mail, including the application requirement and the list of statutory reasons that allow a registered voter to vote absentee by mail. (18101187D)

*Redistricting & Split Precincts*

**HB 299** (Watts) (HPE) requires counties and cities to adjust local election district lines to congressional and state legislative district lines established by the General Assembly and requires that precincts be contained wholly within congressional or state legislative districts when a county, city, or town is divided between two or more such districts. The bill provides that a locality that is unable to comply with this requirement may apply to the State Board of Elections for a waiver to administer a split precinct. The State Board shall have the authority to grant the request or direct the locality to create a precinct with fewer than the required number of registered voters. The measure also prohibits counties, cities, and towns from creating, dividing, abolishing, or consolidating any precincts or otherwise changing the boundaries of any precinct between February 1, 2019, and May 15, 2021, except in certain specified circumstances. Precinct ordinances may be adopted after January 1, 2021, but may not be implemented before May 15, 2021. (18102495D)

**HB 382** (Rasoul) (HPE) provides that no precinct shall be split between congressional or state legislative districts where a county or city is divided between two or more such districts. Counties and cities are required immediately after decennial redistricting to establish precinct boundaries that meet this requirement. The local governing body is authorized to apply to the State Board of Elections for a waiver if the governing body concludes that it cannot meet the requirement in one or more instances. The State Board is authorized to grant the waiver if it concludes that the local governing body has presented clear and convincing evidence of its inability to meet the requirement. Alternatively, the State Board is authorized to direct the local governing body to establish precincts with fewer than the minimum number of required registered voters. (18104414D)

**HB 449** (Rodman) (HPE) repeals the deadline for registering to vote in advance of an election and allows eligible voters to register at any time, including the day of the election. A person who is eligible to vote, but is not registered, may register and be permitted to vote on election day by appearing in person at the polling place for the precinct of which he is a resident and (i) providing certain identifying information; (ii) signing a statement, subject to felony penalties, that he is a qualified voter of that precinct but for not being registered to vote; and (iii) providing proof of

residency. Residency may be proven by presenting (a) his valid Virginia driver's license or other photo identification issued by the Commonwealth, one of its political subdivisions, or the United States that contains a valid address in the precinct or (b) any document that contains a valid address in the precinct together with one of the forms of identification accepted for purposes of voting. The bill requires the State Board to provide instructions for the prompt addition of the voter to the Virginia voter registration system on the day of the election. (18102776D)

**HB 1216** (Sickles) (HPE) requires the clerk of the county, city, or town to send a Geographic Information System (GIS) map, along with the ordinance containing a description of the boundaries, to the local electoral board, the Secretary of the Commonwealth, the Department of Elections, and the Division of Legislative Services when redistricting local election districts or making any changes to the local election districts or precincts. The bill requires the Department to review any ordinance and GIS map received and compare the boundaries contained within with the information in the voter registration system to ensure voters have been assigned to the correct districts and to direct any corrections to be made if necessary. The Department is further required to maintain and make available on its official website maps showing the current election district and precinct boundaries of each county and city. (18101744D)

**SB 322** (Peake) (SPE) requires that, at any level of election district, each precinct be wholly contained within a single election district, except where splitting a precinct among two or more districts is necessary to ensure the population of each district is as nearly equal to the population of every other district as practicable. (18100060D)

**SB 522** (Barker) (SPE) requires county and city governing bodies in each year ending in one, immediately after the completion of decennial redistricting, to establish precinct boundaries so that no precinct is split between two or more congressional, state Senate, House of Delegates, or county or city election districts. If it is impossible to meet this requirement the governing body is given authority to request a waiver from the State Board of Elections to establish a split precinct. The State Board may either grant the waiver or, if the Board finds it more appropriate, approve an exception to the minimum size requirements for precincts. (18103590D)

#### *Voter Registration*

**HB 171** (Filler-Corn) (HPE) allows a person who becomes a naturalized United States citizen after the close of registration records, and who is otherwise qualified to vote, to register to vote up to and including the day of the election. The bill requires the Department of Elections to prescribe procedures for the addition of persons registered under the provisions of the bill to the lists of registered voters. (18101172D)

**HB 272** (Boysko) (HPE) requires notice of a denial of an application for voter registration to be provided by the general registrar to the applicant within five days of the denial. **HB 356** (Reid) (HPE) requires notice of a denial of an application for voter registration to be provided by the general registrar to the applicant within 10 days of the denial. Such notice is required to be made by all available means, including by telephone and email. The bill provides that if the general registrar is able to reach the applicant by telephone, any missing information may be provided and corrections may be made by the applicant by telephone. The bill requires the registration application to request that the applicant provide his telephone number and email address. The bill contains technical amendments. (18100159D)

**HB 944** (Lopez) (HPE) permits a person who is otherwise qualified to register to vote and is 16 years of age or older, but who will not be 18 years of age on or before the day of the next general election, to preregister to vote. The preregistration does not entitle such a person to vote in any election except as already permitted by law. The bill requires the Department of Elections to maintain a record of all preregistered voters in the Virginia voter registration system, which shall automatically register a person who is preregistered upon that person's reaching 18 years of age. The bill requires the Department to provide to the general registrars voter confirmation documents for such voters. (18101639D)

### **Environment**

**HB 1059** (Tran) (HAG) requires any person who unlawfully discharges any deleterious substance into state waters to give written notice to the State Water Control Board. Current law requires written notice to be given only to the Director of the Department of Environmental Quality. (18102373D)

**SB 582** (Hanger) (SACNR) increases the threshold for the substitution of real property when lands are converted or diverted from open-space land use, requiring the substitute land to have "substantially" greater value as permanent open-space land than the land being converted or diverted. The bill establishes several requirements that an applicant for such conversion or diversion, such as an electric utility or a pipeline company, shall meet, including the requirements

that it demonstrate the essentiality of its project, show that no feasible alternative exists, pay for appraisals conducted by a certified general real estate appraiser, and explain why, if the substitute land is not adjacent to the land to be converted or diverted, adjacent land could not be acquired. The bill also requires the creation of a stewardship fund for the substitute land. (18104710D)

*Onsite Sewage and Treatment Systems*

**HB 675** (Hodges) (HHWI) provides that effluent quality standards and maintenance requirements for onsite treatment works designed by individuals licensed as professional engineers shall not exceed those established in the Virginia Pollutant Discharge Elimination System (VPDES) General Permit for Domestic Sewage Discharges of Less Than or Equal to 1,000 Gallons Per Day for fresh water discharge. The bill requires the plans to bear a certification and to be signed and sealed by the professional. The locality is required to accept such plans in satisfaction of the local plan review requirement. The bill also directs the Department of Environmental Quality to examine the possibility of expanding the use of the agreement in lieu of a stormwater management plan, currently authorized for use in the construction of certain single-family residences, to include any nonresidential development site of less than one acre in a rural Tidewater locality. (18104164D)

**SB 576** (Hanger) (SACNR) allows a person engaging in more than one jurisdiction in the creation and operation of a stream restoration project for purposes of reducing nutrients or sediment entering state waters the same opportunity to submit standards and specifications for Department of Environmental Quality approval that describe how land-disturbing activities shall be conducted as an alternative to submitting soil erosion control and stormwater management plans as allowed in current law to a person engaging in more than one jurisdiction in the creation and operation of a wetland mitigation or stream restoration bank pursuant to a mitigation banking instrument signed by the Department, the Marine Resources Commission, or the U.S. Army Corps of Engineers. (18103641D)

The bill also excludes the transfer of a portion of information contained in one public body's public record to another public body from being considered as a transfer of an entire public record. The bill requires a party who alleges that a parent's disability should be a factor to be considered to not be in the best interests of the child, or should otherwise be a reason to deny or restrict such a parent's custody or visitation rights, to prove that the child's best interests would not be met or served due

to such parent's disability. The bill allows a parent with a disability to demonstrate how supportive parenting services would appropriately address any threats to the child's best interests and further allows the court to order that such services be ordered by the court. The bill requires a court to make written findings where the court denies or restricts custody or visitation of a parent with a disability or where supportive parenting services are not ordered. The same requirements apply to the denial or approval of a prospective foster parent with a disability, or removal of a child from the home of a foster parent with a disability, and to the denial of a final order of adoption wherein the prospective adoptive parent has a disability. The bill also exempts from the requirement to obtain a license as a child-placing agency a private, nonprofit organization that assists parents with the process of delegating parental or legal custodial powers of their children, including assistance with identifying appropriate placements for their children, or that provides services and resources to support parents and legal guardians to whom custody has been transferred pursuant to a temporary delegation of parental or legal custodial powers.
