AUDIT FINDINGS

NARRATIVE

The audit of Foundations Program began on June 30, 2016 which is one of the four facilities operated by Fairfax County Juvenile and Domestic Relations District Court, began with a meeting with the Director of the Foundations Program Denise Studeny. PREA auditors Vernon Harry and Susan Heck conducted interviews and reviews on June 30, 2017 and on July 1, 2017. Employee background records and training files for the employees, contractors and the volunteers are maintained at the Foundations Program. These files were reviewed and no issues were noted. Administrators for the agency who also perform HR functions are located at Foundations Program. The Program Director also serves as PREA compliance manager. The Agency Head Ivy Tillman and PREA Coordinator Karla Hardy were also interviewed. This facility is a non-secure group home with a maximum capacity of 12 residents but only three residents were in facility at the time audit was being conducted. There were no instances of sexual abuse or sexual harassment since last PREA audit. The Director completed the new advanced investigator class and several of her staff who are qualified mental health providers completed the required PREA training course for mental health providers.

Program Director of the Foundations Program conducts and documents unannounced rounds to identify and deter staff sexual abuse and sexual harassment. There have been no substantiated or unsubstantiated incidents of sexual abuse or harassment in the program. The telephones for the residents are located in the recreation room and at the staff desk in the back by resident living quarters. The phone numbers for making reports were posted in the vicinity of the phone

There was PREA information posted in multiple places throughout the home. The notice of audit was also posted in various locations. Only the Program Director performs intake and vulnerability screenings. All three of the residents were interviewed and ten staff were interviewed. All current residents reported receiving vulnerability assessments and PREA education at intake. A review of resident files confirmed that residents are given vulnerability assessments on the day of intake and receive their PREA education on the same day. Residents knew how to report any victimization and articulated multiple ways to make a report. Staff members were able to describe the steps to take should they receive a report of sexual abuse or sexual harassment.

The agency has an excellent relationship with the Fairfax Police Department and they respond to the facility if they need assistance. The agency also has a QMHP trained staff to provide mental health services.

There were no instances on noncompliance with the standards noted during the audit.

DESCRIPTION OF FACILITY CHARACTERISTICS

The Foundations Program is located at 12720 Lee Highway Fairfax, VA which is on a main highway but is surrounded by a residential area of the city. The facility is a non-secure group home administered by the FJDRDC that houses females from 13-17; the population on the day of the audit was 3. The facility reports the average length of stay for residents is 80 days. The Foundations Program works with females ages 13-17 that have been involved with the Juvenile Justice System who are returning back into the local community. The program opened in October, 1975 and houses twelve individual bedrooms. There are six bathrooms and 3 “quad” or group living spaces where the residents stay at night. Also, there is a school wing that has two classrooms and a resource room. The other living areas are a day room, recreation room, dining room, multipurpose room and kitchen. The new facility was completed in January of 2009.

No staff is ever alone in the building to supervise residents. There have been no previous judicial findings of inadequate staffing and no findings of inadequacy from Federal Investigative agencies or by the licensing authority (Department of Juvenile Justice). Staffing ratios include one staff person for every 8 residents. The program is well staffed with a minimum of two counseling staff on duty at any one given time. During the overnight hours, there are two awake overnight counselors on duty. The program will comply with the aforementioned staffing plan and has not had any deviations from the plan.

The third quad area is not fully visible to staff stationed at the back-work station posing a blind spot. That issue has been remedied with the installation of a convex safety mirror near the back-work station. The program does not currently have video monitoring; however, the cameras have been installed and they anticipate the cameras being operational in the next several months which will even further enhance the security at the facility.

The Foundations Program offers individual, family, and group counseling services. Residents and staff follow a daily schedule. Residents attend school daily, participate in the therapeutic routine, and are responsible for participation toward a positive peer culture. Foundations is a highly structured program designed to meet specific needs relating to each girl’s presenting problem. It is intended to serve adolescent girls involved in chronic status offenses and/or delinquent behavior such as running away, truancy, burglary, shoplifting, auto theft, property crimes, assault, etc. Additionally, the program has services and resources to respond to girls who have experienced significant levels of trauma and victimization.

There have been no substantiated or unsubstantiated incidents of sexual abuse or harassment in the program.
