

County of Fairfax, Virginia

MEMORANDUM

DATE: January 25, 2021
TO: Board of Supervisors
FROM: Bryan J. Hill, County Executive 
SUBJECT: 2021 Legislative Report No. 1 – Board Legislative Committee Meeting of January 22, 2021

The regular 2021 Session of the Virginia General Assembly convened on January 13, 2021 and is scheduled to adjourn on February 11, 2021. Governor Northam is then expected to call a special session to extend the session to the 46 days typical of a “short” session. Legislation from the regular session will carry over to the first special session.

Due to the COVID-19 pandemic, the 2021 General Assembly is operating under unusual circumstances. The Senate is meeting at the Science Museum of Virginia, while the House is meeting virtually. Both chambers have set strict bill limits (seven bills per Delegate and 12 bills per Senator), resulting in a lower volume of legislation overall. As of January 23, just 1,179 bills and resolutions have been introduced. The majority of this legislation remains in various subcommittees and is expected to move forward in the coming weeks.

The Legislative Committee met on January 22 to consider several issues of importance to the County. The Committee offers the following report and recommendations for action to the Board.

Legislative Committee Actions of January 22, 2021:

Members Present: Legislative Chairman Walkinshaw

Supervisor Foust
Supervisor Gross

Support. (21101534D-E)

Absentee Voting

HB 1888 (VanValkenburg) (Passed House; SPE) makes various reforms to absentee voting processes and procedures, including those related to availability and accessibility. The bill requires certain actions to be taken to process absentee ballots returned before the day of an election, including verifying the correct completion of the voter affirmation statement, and provides for an opportunity for an absentee voter to make corrections to the statement in certain circumstances. The bill requires the establishment of drop-off locations for the return of voted absentee ballots. Additionally, a central absentee voter precinct is required to be established in each locality; currently, establishment is optional. On the day of the election, officers of election are required to begin processing absentee ballots in the central absentee voter precincts prior to the close of polls, but no ballot vote counts are permitted to be transmitted outside of the central absentee voter precinct before the close of polls; a violation of such prohibition is a Class 1 misdemeanor. When reporting election results to the Department of Elections, the general registrars are required to report absentee ballots cast early in person separately from all other absentee ballots. Additionally, a voter who has applied for and received an absentee ballot may choose to instead vote at his polling place on election day, and such voter shall be entitled to cast a provisional ballot. The bill requires a ballot marking tool with screen reader assistive technology to be made available for

absentee voters with a print disability. Restrictions on the availability of absentee voting for first-time voters who registered by mail are repealed. The bill contains technical amendments for organizational and readability purposes. Support. (21101608D-E)

HB 2239 (Robinson) (HPE) requires certain actions to be taken to process absentee ballots that are returned by mail before election day. The general registrar is required to examine the ballot envelopes to verify completion of the required voter affirmation; mark the pollbook, or the absentee voter applicant list if the pollbook is not available, that the voter has voted; and open the sealed ballot envelopes and insert the ballots in optical scan counting equipment or other secure ballot container without initiating any ballot count totals. Current law requires only that the general registrar undertake at least one such activity before election day. So that ballots can be separated from ballot envelopes and scanned, the bill requires that the office of the general registrar be used as a central absentee voter precinct. The bill requires that absentee ballots processed at any central absentee voter precinct be sorted by the precinct to which the voter who cast the absentee ballot is assigned and that the resulting vote totals from such ballots be reported separately for each voter precinct. Oppose. The bill creates a substantial workload and logistical challenges. (21101712D)

SB 1153 (Suetterlein) (SPE) provides that absentee ballots processed at a central absentee precinct must be sorted by the precinct to which the voter who cast the absentee ballot is assigned and that the resulting vote totals from such ballots must be reported separately for each voter precinct. SB 1245 (Deeds) (SPE) requires the establishment of a drop-off location for the return of marked absentee ballots at the office of the general registrar and each voter satellite office. On the day of any election, a drop-off location shall be available at each polling place in operation for such election. The bill allows the general registrar of any county or city to establish additional drop-off locations within the county or city as he deems necessary. The Department of Elections is required to set standards related to the establishment and operation of drop-off locations, including security requirements. The bill also requires general registrars to take certain actions to preprocess absentee ballots returned before election day and to notify an absentee voter of any errors or issues with the completion or return of his absentee ballot that would render the ballot void. The general registrars are required to enter into the voter's record in the registration system that the voter's absentee ballot has an issue requiring correction and to notify the voter in writing or by email of the error or failure, in addition to providing information on how to correct the issue. The absentee voter then has until noon on the third day following the election to make necessary corrections so that his ballot may be counted. This ballot cure process applies only to those absentee ballots received by the Friday immediately preceding the day of the election. The bill contains technical amendments for organizational purposes. Support with amendments to remove the requirement to establish the locations of satellite voter offices through local ordinances. (21100967D)

Electronic Meetings

HB 1931 (Levine) (HGL) authorizes a public body to conduct through electronic communication means a meeting for which, on or before the day of the meeting, a member of the public body

holding the meeting notifies the chair that such member is unable to attend the meeting due to a family member's medical condition that requires the member to provide care for such family member, thereby preventing the member's physical attendance. The bill also clarifies that participation in an electronic meeting by a member of a public body due to the inability to attend because of a personal matter is limited each calendar year to two such meetings, which is current law, or 25 percent of the meetings held that calendar year rounded up to the next whole number, whichever is greater. This bill is a recommendation of the Virginia Freedom of Information Advisory Council. Support. (21101369D).

SB 1271 (McPike) (Reported from SGL) allows a public body, or a joint meeting thereof, to meet by electronic communication means without a quorum of the public body physically assembled at one location when a locality in which the public body is located has declared a local state of emergency, provided that (i) the catastrophic nature of the declared emergency makes it impracticable or unsafe to assemble a quorum in a single location and (ii) the purpose of the meeting is to provide for the continuity of operations of the public body or the discharge of its lawful purposes, duties, and responsibilities. Under current law, public bodies may only meet in such manner when the Governor has declared a state of emergency, and only for the purpose of addressing the emergency. Finally, the bill requires public bodies meeting through electronic communication means during a local or state declaration of a state of emergency to (a) make arrangements for public access to such meeting through electronic communication means, including videoconferencing if already used by the public body, and (b) provide the public with the opportunity to comment at such meetings when public comment is customarily received. The general registrars are required to ensure the video coverage is recorded and retained until the deadline to request a recount has passed and, if any contest or recount is pending thereafter, until it has been concluded. The bill provides that each live video recording must include date and time indicators and be linked to the official website of the county or city. The Department of Elections is required to post links on its official website to the video coverage for viewing by the public. HB 1883 (VanValkenburg) (HPE) requires the governing body of a covered jurisdiction, prior to enacting or seeking to administer any voting qualification or prerequisite to voting, or any standard, practice, or procedure with respect to voting, to either (i) institute an action in the Circuit Court of the City of Richmond for a declaratory judgment that the covered practice neither has the purpose or effect of denying or abridging the right to vote on account of race or color or membership in a language minority group nor will result in the retrogression in the position of members of a racial or ethnic group with respect to their effective exercise of the electoral franchise or (ii) submit such covered practice to the Office of the Attorney General for issuance of a certification of no objection. No covered practice can be given effect until the Circuit Court of the City of Richmond has entered such judgment or the Attorney General has issued such certification. The bill permits certain persons to institute an action to compel the governing body of a covered jurisdiction to institute an action in the Circuit Court of the City of Richmond or to seek issuance of a certification of no objection and provides for appeals by the governing body or certain persons to decisions made by the Attorney General. A covered jurisdiction is defined by the bill as any county or city that is determined by the Attorney General using annual American Community Survey data to have a voting age population that contains two or more racial or ethnic groups, each constituting at least 20 percent of its voting age population, but excludes any county or city that, on or after January 1, 2008, was exempt from the preclearance requirements of § 5 of the Voting Rights Act of 1965, as amended, pursuant to a declaratory jurisdiction issued by the United States District Court for the District of Columbia under § 4 of that Act. The bill further prohibits at-large methods of election from being imposed or applied in a locality in a manner that impairs the ability of a protected class, defined in the bill, to elect candidates of its choice or to influence the outcome of an election, by diluting or abridging the rights of voters who are members of a protected class. Prior to enacting or administering a covered practice, defined in the bill, the governing body of a locality is required to publish the proposed covered practice and accept public comment for a minimum of 30 days on the proposed covered practice; after the public comment period, a 30-day waiting period is required. During this period, any person who will be subject to or affected by the covered practice may challenge the covered practice as (i) having the purpose or effect of denying or abridging the right to vote on the basis of race or color or membership in a language minority group or (ii) resulting in the retrogression in the position of members of a racial or ethnic group with respect to their effective exercise of the electoral franchise. The bill permits the local governing body to instead submit the proposed covered practice to the Office of the Attorney General for issuance of a certification of no objection and, once such certification is issued, to enact or administer the covered practice. Certain unlawful actions, including knowingly communicating false information to voters, that are currently subject to criminal penalties will create civil causes of action under the bill. The preregistration does not entitle such person to vote in any election except as already permitted by law. The bill requires the Department of Elections to maintain a record of all preregistered voters in the Virginia voter registration system, which shall automatically register a person who is preregistered upon that person reaching 18 years of age or becoming eligible for advance registration as already permitted by law, whichever comes first. The bill requires the Department to provide to the general registrars voter confirmation documents for such voters. (21100907D)

HB 1902 (Carr) (Passed House; SACNR) prohibits the dispensing by a food vendor of prepared food to a customer in a single-use expanded polystyrene food service container, as defined in the bill. The bill requires certain chain restaurants to stop using such containers by July 1, 2023, and sets the date for compliance by all food vendors as July 1, 2025. The bill exempts nonprofit organizations from the definition of "food vendor" and provides a process by which a locality

may grant consecutive one-year exemptions to individual food vendors on the basis of undue economic hardship. The bill provides a civil penalty of not more than \$50 for each day of violation, to be collected in a civil action brought by the Attorney General or the relevant locality. The penalties collected are to be deposited in the Litter Control and Recycling Fund or to the treasury of the relevant locality, as appropriate. A portion of the penalties deposited in the Fund are to be used for public information campaigns to discourage the sale and use of expanded polystyrene products. Finally, the bill directs the Department of Environmental Quality to post to its website information on compliance and the filing of complaints. This bill is a reenactment of Chapter 1104 of the Acts of Assembly of 2020. (21100816D-E)

HB 1934 (Simon) (HLC) prohibits a public service corporation or other utility from constructing or installing a gas pipeline greater than 12 inches in diameter under any public road or state highway within a residential subdivision including under the median or any sidewalk running parallel to any such public road or state highway without prior written application and approval by the board of supervisors or other governing body of the locality in which such public road or state highway is located. Violations of the prohibitions are subject to a penalty of \$10,000 per each day of noncompliance. The bill also provides that any land use permit or other permit or any grant of use of right-of-way issued prior to July 1, 2021, by any agency or department of the Commonwealth, including the Department of Transportation, or of any locality, in connection with the construction or installation of any pipeline subject to the provisions of this bill, shall be void until the public service company or other utility has met the requirements of this bill. HB 2030 (Krizek) (HAG) requires a person who uses a neonicotinoid pesticide, defined in the bill, to give prior written notice at every address within one-half mile and authorizes the Board of Agriculture and Consumer Services to adopt regulations to enforce the provisions of the bill. A violation of the failure to give notice is a Class 1 misdemeanor and shall be subject to an additional fine of up to \$500,000 if death or serious physical harm to any person is caused by the violation. The bill also authorizes any locality to regulate or prohibit the distribution, possession, or sale of any neonicotinoid or other pesticide that the locality deems harmful to pollinators or to regulate or prohibit any outdoor use in an area that is zoned for residential, business, commercial, or industrial use. A person who violates such ordinance shall be subject to a civil penalty, not to exceed \$50 for the first violation or violations arising from the same set of operative facts, and \$200 for subsequent violations within a 12-month period, but not to exceed \$3,000 within a 12-month period. (21102676D)

SB 1265 (Deeds) (SACNR) authorizes the Department of Environmental Quality to conduct inspections of the land-disturbing activities related to construction of any natural gas transmission pipeline equal to or greater than 24 inches inside diameter. Current law authorizes such inspections only if such inside diameter is greater than 36 inches. Aspects of the program include (i) the synthesis of multiple mapped data inputs, divided into categories, each representing a different overarching conservation value, and periodic revision of such values; (ii) access to the model by the public and all state and federal agencies; and (iii) incorporation of the model into acquisition or grant decisions when appropriate. The bill requires the Virginia Land Conservation Foundation to report on the success of the program and incorporate the program into needs assessments for expenditures from the Virginia Land Conservation Fund. (21103330D-S1)

Firearms

SB 1250 (Deeds) (SJUD) provides that for the purposes of conducting a criminal history record information check for a firearm transfer, the term "rent" includes a temporary change in dominion or control of a firearm for use at or on the premises of a dealer's business location in exchange for money or other consideration. Under current federal law, the rental of a firearm for use on a dealer's business premises is not considered to be a sale, disposition, or delivery of the firearm; therefore, such rental would not allow for a National Instant Criminal Background Check System check to be performed. The bill would allow the Virginia State Police to conduct a Virginia state criminal history record information check instead. (21100585D)

Health and Human Services

HB 1963 (Bagby) (HAPP) provides that funding for local health departments shall consist of such state funds as may be allocated for the operation of the local health department together with local matching funds and estimated self-generated local service revenues, the total amount of which shall constitute the cooperative local health budget available to a local department of health, and that the amount of local matching funds for which a county or city is responsible shall be based on the county's or city's revenue generation capacity factor, as defined in the bill; in no case, however, shall the amount of local matching funds required be greater than 45 percent or less than 18 percent of the total amount of the cooperative local health budget for the local health department that serves the county or city, after deducting estimated self-generated local service revenues. The bill directs the Department of Health to biennially review the local matching fund amount for each county and city, determine whether such amount should be revised as a result of changes to the county's or city's revenue generation capacity, and report the results of such review and any recommendations for changes to a county's or city's local matching fund amount to the Governor and the General Assembly. (21102417D)

[Oppose] (21101712D) - The bill creates a substantial workload and logistical challenges.
Summary: Elections; absentee voting; ballots to be processed before election day and sorted and counted by precinct. Requires certain actions to be taken to process absentee ballots that are returned by mail before election day. The general registrar is required to examine the ballot envelopes to verify completion of the required voter affirmation; mark the pollbook, or the absentee voter applicant list if the pollbook is not available, that the voter has voted; and open the sealed ballot envelopes and insert the ballots in optical scan counting equipment or other secure ballot container without initiating any ballot count totals. The bill requires that absentee ballots processed at any central absentee voter precinct be sorted by the precinct to which the voter who cast the absentee ballot is assigned and that the resulting vote totals from such ballots be reported separately for each voter precinct.

<p>[Support with Amendment] (21100967D) - Support with amendments to remove the requirement to establish the locations of satellite voter offices through local ordinances. On the day of any election, a drop-off location shall be available at each polling place in operation for such election. The bill allows the general registrar of any county or city to establish additional drop-off locations within the county or city as he deems necessary. The Department of Elections is required to set standards related to the establishment and operation of drop-off locations, including security requirements. The bill also requires general registrars to take certain actions to preprocess absentee ballots returned before election day and to notify an absentee voter of any errors or issues with the completion or return of his absentee ballot that would render the ballot void. The general registrars are required to enter into the voter's record in the registration system that the voter's absentee ballot has an issue requiring correction and to notify the voter in writing or by email of the error or failure, in addition to providing information on how to correct the issue. The absentee voter then has until noon on the third day following the election to make necessary corrections so that his ballot may be counted. This ballot cure process applies only to those absentee ballots received by the Friday immediately preceding the day of the election. Allows a public body, or a joint meeting thereof, to meet by electronic communication means without a quorum of the public body physically assembled at one location when a locality in which the public body is located has declared a local state of emergency, provided that (i) the catastrophic nature of the declared emergency makes it impracticable or unsafe to assemble a quorum in a single location and (ii) the purpose of the meeting is to provide for the continuity of operations of the public body or the discharge of its lawful purposes, duties, and responsibilities. Under current law, public bodies may only meet in such manner when the Governor has declared a state of emergency, and only for the purpose of addressing the emergency. Compensation		
<u>State-Supported Employee Compensation</u>		
477 LL	Governor Northam's Budget: Contingent on FY 2021 revenues meeting projections, provides \$15.5 million for a 1.5% one-time bonus on September 1, 2021 for state-supported local employees. The funding is also contingent on the governing local authority of such employees using such funds to support the provision of a bonus.	Appears that the County will not be able to draw down state funding in FY 2022, unless the County provides a bonus for state-supported local employees. The County would be reimbursed approximately \$0.42 million.
68	Governor Northam's Budget: Provides \$2.6 million to fund salary increases for regional jail officers consistent with those received by deputy sheriffs to equalize the pay grade for all entry-level correctional officers in local and regional jails.	The Sheriff's Office believes that there is no fiscal impact as they are not a regional jail.
68	Governor Northam's Budget: Provides \$2.3 million in FY 2022 to fund 25% of staffing needs for Sheriffs' and Commonwealth's Attorney's offices. This restores funding that was previously unallotted.	The County would realize a potential increase for the Compensation Board reimbursement. TBD.
71, 74	Governor Northam's Budget: Provides \$1.7 million in FY 2022 to fund targeted salary increases for Commissioners of Revenue and local Treasurers' offices. This restores funding that was previously unallotted.	The County would realize a potential increase for the Compensation Board reimbursement. TBD.
73	Governor Northam's Budget: Provides \$1.8 million in FY 2022 to adjust salaries of circuit court clerks to address pay equity with those of the district court clerk positions. This restores funding that was previously unallotted.	Applies to entry-level positions. As a result, the County would realize a potential increase for the Compensation Board reimbursement. TBD.
Judiciary/Public Safety		
<u>State Aid to Localities with Police Departments (HB 599)</u>		
408	Governor Northam's Budget: An increase of \$8.6 million was initially included during the regular session, but subsequently unallotted by the Governor. While the December forecast is projecting General Fund revenues to grow in FY 2021 and FY 2022, HB 599 funding is being kept flat at the FY 2020 level.	Fairfax County will receive the same amount as in FY 2020.
<u>Hate Crimes</u>		
406	Governor Northam's Budget: Provides \$1.5 million in FY 2022 to the Department of Criminal Justice Services for competitive grants to localities to combat hate crimes. This funding was included in the budget passed by the 2020 GA and was unallotted due to COVID-19.	TBD.
<u>Marijuana Expungement</u>		
479	Governor Northam's Budget: Provides \$5 million in FY 2021 and \$20 million in FY 2022 to pay for the cost of expungement reforms, including automatic expungement of misdemeanor marijuana convictions.	TBD.
<u>COVID-19 Response</u>		
411	Governor Northam's Budget: Provides approximately \$42.0 million in FY 2021 and approximately \$36.9 million in FY 2022 for coordinating response and recovery efforts related to the pandemic. This is in addition to separate funding for vaccination and public health education initiatives shown on the Human Services section.	TBD. Funding is available for the purchase, storage, and distribution of personal protective equipment to fulfill requests received through the Virginia Emergency Support Team.
<u>Equity Emergency Management Positions</u>		
413	Governor Northam's Budget: Provides \$237,772 to fund two equity emergency management analyst positions to support local governments that participate in the Health Equity Program. Positions will provide technical assistance and guidance as localities integrate equity into their emergency management programs, support ongoing responses to COVID-19, and build resilience in at-risk communities. Positions will be supported by the COVID-19 Supplemental Emergency Management Performance Grant through FY 2022.	TBD.
<u>Body Worn Cameras</u>		
391	Governor Northam's Budget: Extends the work of the Body Worn Camera Workgroup until November 2021. The work group is directed to examine the workload impact, as well as other fiscal and policy impacts, of the use of body worn cameras on the Commonwealth's public safety and judicial agencies as a whole.	TBD.

**BUDGET PROPOSALS FOR 2020 - 2022
DURING THE 2021 GENERAL ASSEMBLY SESSION
as of January 8, 2021**

Budget Bill Item #	Issue	Fairfax County Impact
Human Services		
Children's Services Act (CSA)		
292	Governor Northam's Budget: Includes an increase of approximately \$2.7 million GF and approximately \$5 million non-GF in FY 2022 to reflect the shifting of costs from Title IV-E to Medicaid for children in psychiatric residential treatment facilities. The Department of Medical Assistance Services has indicated that these costs are no longer to be covered by Title IV-E, which is a state-federal cost-share, and will instead be covered by Medicaid, which includes a local match.	Because of a federal ruling about the order of payer, Medicaid, not Title IV-E, will be the first payer for residential services. Fairfax County CSA will begin paying a match to Medicaid for services that had been covered by Title IV-E with no local match. Budget analysis estimates the added fiscal impact as being approximately \$150,000 annually to cover expenses for about 10 youth in foster care placed in residential annually.
292	Governor Northam's Budget: Provides \$921,296 GF in FY 2022 to reflect the state share of certain costs for children in foster care shifting from Title IV-E to CSA due to the implementation of the federal Family First Prevention Services Act, which limits federal Title IV-E funding for certain congregate care placements (but expands the eligible uses of Title IV-E funding for prevention services).	This item appears similar or same as the issue above. The first item appears to give money to DMAS to cover their additional costs, while this one covers the additional expenditures to the state CSA budget. The projected additional cost to Fairfax would be the same for both items - \$150,000 annually. We can anticipate that the state CSA reimbursement will be reduced by this amount to cover residential care for children in foster care at the local match rate for residential.
293	Governor Northam's Budget: Delays the deadline for submission of a report on rate setting for private special education day placement services from September 1, 2020, to September 1, 2021; provides \$100,000 GF in FY 2022 for the Office of Children's Services to contract for assistance in implementing rate setting. Directs the implementation of statewide rate-setting effective July 1, 2022. Extends the moratorium on rate increases above 2 percent through the end of the biennium.	This will provide a statewide mechanism to control and regulate special education costs in private settings (which have been rising around 7 percent annually). In Fairfax County, the average annual expenditures have increased by 1.8 - 4.7%, a cost increase lower than other parts of the state. The current two percent rate cap has resulted in a reduction in sum sufficiency by not permitting local CSA programs to cover rates over the capped amount in rate setting states like MD. Due to federal law for special education, the Individualized Education Plan (IEP) must be honored and the costs paid, regardless of VA rate structuring. If these costs to the school system are passed on to local government, then Fairfax will now be covering costs with local funds that previously had a state match. The state has basically limited their financial responsibility for the cost increases and passed it on to the locality (school and then county). The two percent cap does not apply to ancillary services and may not result in lowering overall expenditures. The cost expenditures are also driven by utilization and purchase of more days of service, which will not be controlled by rate setting. The current language in the Appropriations Act is directed at localities, not at Private Special Ed programs or the state. It does not prohibit schools from charging greater than two percent, and merely limits the actions of local government, passing on the expense to the school system. The County estimates that uncovered costs may range from \$25-50K in FY 2021 for youth placed in MD and DC programs.
Early Childhood Services		
145	Governor Northam's Budget: During the Special Session I, the amended budget restored most of the funding in FY 2022 for Early Childhood initiatives that were unallotted at the 2020 Reconvened Session of the General Assembly. The Governor's Budget includes approximately \$11.1 million in FY 2022 to restore the remaining unallotted amounts for the Virginia Preschool Initiative (VPI) by increasing the funded per pupil amount from \$6,959 to \$7,655.	Based upon the current County VPI service level (FY 2021), the County would draw down an additional \$2.1 million in state funding.
145	Governor Northam's Budget: Restores Supplemental Education Assistance Programs in FY 2022 that were previously unallotted at the 2020 Reconvened Session of the General Assembly by including \$5 million in FY 2022 for incentive payments to retain early childhood educators.	TBD. Likely positive for educators in community early childhood programs.
145	Governor Northam's Budget: Requires that local VPI programs enroll special education students (defined as students with an Individualized Education Plan) at 10 percent of total enrollment or higher. VPI programs that are unable to meet this target shall provide reasons that the target was not met in their annual comprehensive report.	No fiscal impact anticipated.

Budget Bill Item #	Issue	Fairfax County Impact
<u>Child Welfare</u>		
354	Governor Northam's Budget: Restores approximately \$9.2 million GF in FY 2022 for the statewide Family First Prevention Services Act (FFPSA) prevention services program. FFPSA is federal legislation that is designed to help keep children safe and out of the foster care system if possible, by keeping families together.	TBD. It is unclear how this funding will be distributed throughout the state. To implement the Families First requirements, it may be necessary to shift workforce resources within Fairfax County's Department of Family Services (DFS).
<u>Health Departments</u>		
302 H	Governor Northam's Budget: Provides \$10.2 million GF in FY 2022 for costs associated with updating the current funding formula for local health departments. A portion of the funding is to be used to hold harmless localities that would otherwise experience a decline in state support. Language directs the Virginia Department of Health to conduct an analysis of local match rates and report to the Governor every two years, and warns that similar hold-harmless funding is not guaranteed in future years.	Does not impact Fairfax County, as the Health Department is already supported at the 45% maximum locality match rate.
299	Governor Northam's Budget: Provides \$30 million GF in FY 2021 and \$59 million GF in FY 2022 to support a mass COVID-19 vaccination campaign, including purchase of equipment, support for local health departments, and warehousing and shipping costs.	Amount of funding support for Fairfax County Health Department is TBD.
299	Governor Northam's Budget: Adds \$722,472 GF in FY 2021 and over \$1.4 million GF in FY 2022 for COVID-19 data modeling.	No budget impact to the Fairfax County Health Department.
307	Governor Northam's Budget: Provides \$6.5 million GF in FY 2021 and \$12.5 million GF in FY 2022 to further enhance the Virginia Department of Health's communication efforts in response to the COVID-19 pandemic through the Virginia's Health is in Our Hands campaign.	No budget impact to the Fairfax County Health Department.
	Governor Northam's Budget: Provides approximately \$3 million GF in FY 2022 and 26 positions to support epidemiologist and communicable disease nurse positions at the Office of Epidemiology for public health emergency response and the COVID-19 pandemic response.	No budget or personnel impact to the Fairfax County Health Department.
<u>Mental and Behavioral Health</u>		
321	Governor Northam's Budget: Provides approximately \$3.5 million GF in FY 2022 to support the diversion and discharge of individuals with dementia from state hospitals, to include contracts to support serving individuals in private settings and funding for a pilot mobile crisis program targeted toward individuals with a diagnosis of dementia. Directs the Secretary of Health and Human Resources to convene a workgroup to make recommendations for the use of evidence-based services for individuals with dementia to improve quality of care and reduce hospitalizations.	TBD.
321	Governor Northam's Budget: Provides \$2.5 million GF in FY 2022 for discharge assistance planning for individuals returning to the community from state hospitals.	This change places a fund that was typically more at the local level in control of the state. It is not a reduction, but an example of an ongoing shift of DBHDS attempting to control financial line items historically largely managed by the CSBs.
320	Governor Northam's Budget: Provides \$80,000 GF in FY 2021 and \$691,612 GF in FY 2022 for administrative costs for implementation of the "Marcus Alert" legislation enacted in the special session.	The CSB has expressed interest in this. DBHDS will be making a determination on which localities will get the initial funding within a month.
	Governor Northam's Budget: Expands allowable uses for previously-appropriated funds for Crisis Intervention Team (CIT) training to support CIT initiatives.	This will allow the CSB some financial flexibility for training, but will have minimal impact due to the small dollar amount of the CIT training budget from the state.
	Governor Northam's Budget: Allows DBHDS to divert Local Inpatient Purchase of Services (LIPOS) funding from localities to a different state funding line.	LIPOS pays for local private hospitalizations. DBHDS is proposing to have this budget moved to a state line item. This is being presented as no net loss to the CSBs and it is unclear how DBHDS plans to administer these dollars once they are moved. They are also planning on taking back any unused funds. This move has the potential to have a significant impact on the amount of outstanding dollars the CSB has for private regional hospitalizations.

**BUDGET PROPOSALS FOR 2020 - 2022
DURING THE 2021 GENERAL ASSEMBLY SESSION
as of January 8, 2021**

Budget Bill Item #	Issue	Fairfax County Impact
318	Governor Northam's Budget: Authorizes the State Board of Behavioral Health and Developmental Services to promulgate emergency regulations for licensing of children's residential facilities to align with federal requirements in the Family First Prevention Services Act provisions for children's residential service providers to meet the standards for qualified residential treatment programs (QRTPs). Any regulation changes promulgated shall be budget neutral and not exceed funding appropriated for these services.	TBD.
<u>Department of Social Services</u>		
349, 350, 351	Governor Northam's Budget: Provides approximately \$2 million GF and approximately \$2.9 million non-GF in FY 2022 to expand the Supplemental Nutrition Assistance Program's Employment and Training program to 95 additional local departments of social services.	No impact for DFS/Fairfax County.
349	Governor Northam's Budget: Provides \$75,000 GF in FY 2022 for an emergency approval process for kinship caregivers in order to help place children with eligible relatives.	No impact for DFS/Fairfax County.
<u>Safety Net Programs</u>		
356	Governor Northam's Budget: Provides \$3 million non-GF in FY 2022 to extend Temporary Assistance for Needy Families (TANF) grant funding to the Federation of Virginia Food Banks to provide child nutrition programs.	Positive.

**BUDGET PROPOSALS FOR 2020 - 2022
DURING THE 2021 GENERAL ASSEMBLY SESSION
as of January 8, 2021**

Budget Item #	Issue	Fairfax County Impact
	Public Education	Fairfax County Public Schools (FCPS) Impact (School Operating Fund)
	<u>Update Sales Tax Revenue</u>	
145 C.25 for Sales Tax	Governor Northam's Budget: Reflects the most recent estimates of sales tax revenue dedicated to public education for FY 2021 and 2022. The net change in state funding to school divisions (due to both the estimated sales tax revenue increase and the Basic Aid offset) is an increase of approximately \$42.3 million in FY 2021 and an increase of approximately \$46.6 million in FY 2022 compared to the estimates from the Special Session I.	Sales tax results in reduced funding of \$17.3 million in FY 2021 and \$12.7 million in FY 2022 as compared to FCPS' FY 2021 Approved Budget. <i>Note: In FY 2021, a separate one-time COVID-19 relief payment was provided to school divisions to offset the impact of the reduction of sales tax revenue estimates on the local share of Basic Aid. FCPS' allocation totaled \$11.3 million for FY 2021.</i>
	<u>Update Lottery Revenue</u>	
145 B.22	Governor Northam's Budget: Total Lottery proceeds are projected to increase by approximately \$27.1 million in FY 2021 and by approximately \$24.8 million in FY 2022, compared to the Lottery estimate during the Special Session I. Lottery proceeds are being used to fund the state's share of the cost of various programs, such as the Infrastructure and Operations Per Pupil Fund, Early Reading Intervention, K-3 Primary Class Size Reduction, Special Education Regional Tuition, and SOL Algebra Readiness.	Lottery revenues result in an increase of \$0.5 million in FY 2021 and \$0.5 million in FY 2022 as compared to FCPS' FY 2021 Approved Budget.
	<u>Update Average Daily Membership (ADM) and Fall Membership</u>	
145A.1	Governor Northam's Budget: Revises projected ADM based on the latest actual ADM and fall membership data available, reflecting a significant downward adjustment due to the impact of the COVID-19 pandemic on student enrollment. On a statewide basis, the revised ADM projections are 44,096 students lower in FY 2021 and 44,296 students lower in FY 2022 than the original projections during the Special Session I. The ADM and fall membership updates result in an estimated decrease of \$201.2 million in FY 2021 and \$202.9 million in FY 2022.	FCPS' ADM is projected to be 8,060 students lower in FY 2021 and 7,600 students lower in FY 2022, resulting in a state funding decrease of \$37.6 million in FY 2021 and \$28.9 million in FY 2022 as compared to FCPS' FY 2021 Approved Budget. <i>Note: A separate amendment includes a No Loss Program provision.</i>
	<u>One-time Bonus Payment in FY 2022</u>	
145C.44	Governor Northam's Budget: Contingent on FY 2021 revenues meeting projections, provides approximately \$80 million for a two percent, one-time bonus payment in FY 2022 on September 1, 2021. While the bonus payment must be provided by school divisions in order to receive the state funds, a required local match based on the division composite index is not specifically required in FY 2022 under this action. State funding is provided to school divisions that certify to the Virginia Department of Education (VDOE) that a minimum average two percent bonus OR "equivalent action" will be provided in FY 2022, by September 1, 2021, to all instructional and support employees in the division.	For FY 2022, funding of \$7.7 million is included for the state's share of a two percent, one-time bonus payment to FCPS. The FCPS cost of providing a two percent bonus is \$39.3 million. After accounting for the state's share of a two percent bonus, the net expenditure increase to FCPS would be \$31.6M. It is important to note that FCPS did not include a compensation increase that would meet the requirement to receive the state's share of a one-time bonus payment, resulting in a \$7.7 million loss in state funds. If FCPS were to accept the bonus funding, it would result in an additional \$31.6 million local funding match requirement.
	<u>School Safety</u>	
145 B.7.g	Governor Northam's Budget: Includes approximately \$26.6 million for school counselors in FY 2022. The funded staffing standards for school counselors in FY 2021 are 455-to-1 in elementary schools, 370-to-1 in middle schools, and 325-to-1 in high schools. This action reduces the staffing ratios to 325-to-1 in all schools in FY 2022.	For FY 2022, FCPS' total counselors funded in Basic Aid increased from 465 to 558 compared to the FY 2021 Approved Budget, a net increase of 93 funded positions for the state share. FCPS currently meets the staffing ratio included in the Governor's proposal.

Budget Item #	Issue	Fairfax County Impact
<u>No Loss Funding in FY 2021 and FY 2022</u>		
145 C.40	<p>Governor Northam's Budget: Recognizes the effects of the COVID-19 pandemic on school enrollment by providing approximately \$299.4 million in FY 2021 and approximately \$214.2 million in FY 2022 for No Loss funding compared to projections during the Special Session I.</p>	<p>FCPS would receive \$32.4 million in FY 2021 and \$18.3 million in FY 2022 as a result of this policy change. No Loss funding was not included in the FY 2021 Approved Budget as the policy change came after the budget was approved. This exists because of the technical update to ADM. The Governor's budget revises ADM projections based on the latest actual ADM and fall membership data.</p> <p>The Governor's introduced budget includes a No Loss provision which ensures that each school division's bottom line for FY 2022 does not fall below their FY 2022 Special Session I budget allocations.</p>
<u>Other Items of Interest</u>		
	<p>Governor Northam's Budget: Reduces unfunded liabilities in the VRS teacher retirement plan by directing a deposit of an estimated \$61.3 million in FY 2021 to expedite repayment of contributions that were deferred during the 2010-2012 biennium.</p>	<p>It is anticipated that this action will have a potential impact on future contributions beginning in FY 2023.</p>
<u>Impact to the Fairfax County Public Schools' (FCPS) Operating Fund Budget</u>		
<p>Governor Northam's Budget: Compared to the FCPS' FY 2021 Approved Budget, Governor Northam's budget includes a \$21.9 million increase state aid and a \$17.3 million decrease in sales tax revenue for FY 2021.</p> <p>For FY 2022, Governor Northam's Budget includes a \$3.0 million increase state aid and a \$12.7 million decrease in sales tax revenue compared to FCPS' FY 2021 Approved Budget.</p>		

**BUDGET PROPOSALS FOR FY 2020 - FY 2022
DURING THE 2020 GENERAL ASSEMBLY SESSION
as of January 8, 2021**

Budget Item #	Issue	Fairfax County Impact
Transportation		
REGIONAL ITEMS		
<u>Northern Virginia Transportation Authority (NVTA) Funding</u>		
451	<p>Governor Northam's Budget: Includes the regional funds provided for in HB 2313 (2013), including approximately \$635.3 million for distribution of NVTA Fund revenues over the biennium (approximately \$20.6 million increase).</p>	<p>The amount received by the County is dependent on actual collections of the revenue sources. Through its Six Year Program, NVTA allocates 70 percent (approximately \$444.7 million) to regional projects. This funding has already been approved for projects through adoption of NVTA's FY 2018-2023 Six Year Program.</p> <p>Fairfax County should receive approximately \$85.7 million over the biennium to allocate for local projects approved by the Board of Supervisors (30 percent funding returned to localities), minus the respective shares provided to Vienna and Herndon. Approximately \$14 million annually of this "30 percent funding" will likely be transferred to the Commonwealth's WMATA Capital Fund for the County's share of local funding for State of Good Repair, as required by HB 1539/SB 856 (2018).</p>
<u>Regional Gas Tax</u>		
440	<p>Governor Northam's Budget: Provides approximately \$405.9 million over the 2020-2022 biennium for regional gas taxes (for NVTC, PRTC, Hampton Roads Transportation Accountability Commission (HRTAC) and the Interstate 81 Corridor Improvement Fund). Estimates \$109.9 million for NVTC over the 2020-2022 biennium (no change).</p>	<p>The amount received by NVTC and the County is dependent on actual collections of the revenue sources.</p>
STATEWIDE PROGRAMS		
<u>Department of Rail and Public Transportation (DRPT)</u>		
430/442	<p>Governor Northam's Budget: Provides approximately \$1.055 billion for Public Transportation Programs. There are no changes in the funding for the following related programs:</p> <ul style="list-style-type: none"> • \$221.96 million for Operating Assistance; • Approximately \$122.6 million for Capital Assistance; • Approximately \$341.97 million for WMATA operating and capital costs (state share of WMATA assistance); • \$4 million for federally mandated state safety oversight of fixed rail guideway transit agencies, i.e. the Metrorail Safety Commission (MSC); • \$50 million in each year as the state match for federal PRIIA funding; • \$320 million for the WMATA Capital Fund, which includes the local and regional funding redirected as part of HB 1539/SB 856 (2018); and, • Directs the Secretary of Transportation to ensure that at least \$5 million of the annual allocation to the new Transit Ridership Incentive Fund (established in HB 1414/SB 890) is used to provide operating assistance to transit programs that reduce congestion in urban areas. The Secretary is directed to report on the methodology that will be implemented by June 30, 2021. 	<p>The statewide Operating and Capital funding is subject to the transit prioritization process required by the 2018 GA, entitled MERIT, as well as the new programs created in HB 1414/SB 890, so the impact to Fairfax Connector and VRE is currently unclear.</p> <p>DRPT is currently working to implement the new Transit Ridership Incentive Program, which provides operations assistance to reduce congestion in urban areas. This program could also benefit the County.</p>
442	<p>Governor Northam's Budget: Retains language requiring DRPT, in cooperation with Fairfax and Prince William Counties, to conduct an evaluation of enhanced public transportation services, including the cost and feasibility of extending the Blue Line and other multimodal options along I-95 and U.S. Route 1 from the Franconia-Springfield Metro Station to Marine Corps Base Quantico in Prince William County.</p>	<p>This could provide additional information about viable transit options on the I-95/U.S. Route 1 corridor. The report is due by December 1, 2021.</p>
442	<p>Governor Northam's Budget: HB 1539/SB 856 (2018) required urban transit agencies to develop and update a strategic plan every five years and the Commonwealth Transportation Board (CTB) to withhold 20 percent of state funding to the Washington Metropolitan Area Transit Authority (WMATA) if the agency does not adopt or update a strategic plan every three years. The Governor's proposed budget includes language allowing the CTB to delay these strategic plan requirements due to the ongoing COVID-19 pandemic.</p>	<p>This may provide transit systems sufficient time to develop and update their plans, which could be beneficial.</p>
443	<p>Governor Northam's Budget: Retains language requiring DRPT to evaluate the cost of extending VRE service to Gainesville.</p>	<p>This study is due in June 2021. Another study on this issue was completed by VRE in the past three years.</p>

DURING THE 2020 GENERAL ASSEMBLY SESSION

Budget Item #	Issue	Fairfax County Impact
	<u>Rail Programs</u>	
443	Governor Northam's Budget: Provides approximately \$384 million for Financial Assistance for Rail Programs (\$50 million increase), including: \$6 million for Rail Industrial Access (no change); approximately \$29 million for Rail Preservation Programs (no change); and, approximately \$349 million for Passenger and Freight Rail Financial Assistance Programs (\$50 million increase). The \$50 million increase is transferred from the General Fund to the Commonwealth Transportation Board (CTB) for the purpose of extending intercity passenger rail service from Roanoke to Blacksburg-Christiansburg and increasing the frequency of rail service along the I-81/Route 29 Corridor from Washington, DC.	TBD
430	Governor Northam's Budget: Retains language requiring that the Major Employment and Investment (MEI) Project Approval Commission approve any Memorandum of Understanding between any political subdivision of the Commonwealth, any political subdivision of the United States, federal government agency, Amtrak, VRE, and any private railroad corporation regarding the construction of the Long Bridge or of any issuance of bonds or sale of any land by the new Virginia Passenger Rail Authority.	Would require some legislative approval (the MEI Commission includes members of both the House and Senate) prior to moving forward with the Long Bridge project.
	<u>Virginia Department of Transportation (VDOT)</u>	
	<u>Environmental Monitoring and Evaluation</u>	
445	Governor Northam's Budget: Provides approximately \$82.3 million for Environmental Monitoring and Evaluation (approximately \$.7 million increase), including approximately \$17.4 million for Environmental Monitoring and Compliance for Highway Projects (approximately \$1.2 million increase) and approximately \$58.0 million for Municipal Separate Storm Sewer System (MS4) Compliance Activities (approximately \$.5 million decrease).	The funding change is minimal.
430	Governor Northam's Budget: Retains language requiring the Secretaries of Transportation and Natural Resources to evaluate the scope of drainage outfalls originating from VDOT-maintained roads and make recommendations to address the issue. An interim report is due by December 31, 2020, and a final report, if not provided in the December report, is due by September 30, 2021.	Could provide additional information on how to address stormwater issues.
	<u>Highway Construction</u>	
447	Governor Northam's Budget: Provides approximately \$7.43 billion for Highway Construction Programs, an approximately \$32.3 million decrease from last year's budget. This includes: approximately \$584.9 million for State of Good Repair (approximately \$122.1 million decrease); approximately \$518.6 million for the High Priority Projects Program (approximately \$106.2 million decrease); approximately \$762.6 million for the Construction District Grant Program (approximately \$39.6 million decrease); approximately \$4.58 billion for Specialized State and Federal Programs (approximately \$181.3 million decrease); and, \$902.0 million for Legacy Construction Formula Programs (\$417.4 million increase). Of the Specialized State and Federal Programs: <ul style="list-style-type: none"> • Approximately \$233.4 million is for RSTP; • Approximately \$106.2 million is for HSIP; • Approximately \$166.2 million is for CMAQ; • Approximately \$209.7 million is for Revenue Sharing (approximately \$9.7 million increase); • Approximately \$40.4 million is for the Surface Transportation Block Grant Program Set-Aside; • Approximately \$30.7 million is for the Virginia Transportation Infrastructure Bank (VTIB) (approximately \$26.7 million increase); • Approximately \$20.1 million is for the Transportation Partnership Opportunity Fund (TPOF) (approximately \$18.1 million increase); • Approximately \$2.32 billion represents the estimated project participation costs from localities and regional entities (approximately \$358.7 million increase); • \$218.4 million in the second year represents the bond proceeds to be used for the Route 58 Corridor Development Program. Item 452 also provides \$120 million from the Transportation Trust Fund (TTF) to the U.S. Route 58 Corridor Development Fund in lieu of state recordation taxes that law allocates to the fund; and, • Included in the amounts for specialized state and federal programs is the reappropriation of approximately \$1.06 billion from bond proceeds from various bond programs (approximately \$553 million increase). This is likely due to the increase of new programs, including the I-95 Express Lanes and I-66 Outside the Beltway Project Agreements, the I-81 Corridor Improvement Program, and the Interstate Operations and Enhancement Program. 	<p>Many of these funds are subject to the Smart Scale prioritization process, so the impact to Fairfax County is unclear.</p> <p>Slightly increases the current funding levels for Revenue Sharing.</p> <p>RSTP, CMAQ, HSIP, and Transportation Alternative funds are similar to what was allocated in previous years.</p> <p>Due to the significant changes in transportation revenues that were approved by the GA during the 2020 session, along with the approval to reallocate previously appropriated funds to address needs due to the revenue impacts of the Covid-19 pandemic, the direct impact for several of these programs is yet to be determined.</p>
447	Governor Northam's Budget: Includes \$5 million from the General Fund to support the planning, development, and construction of multi-use trails, with priority given to new trails with a total length longer than 35 miles. The language also notes that the CTB must seek to ensure geographic diversity in the use of these funds.	TBD

**BUDGET PROPOSALS FOR FY 2020 - FY 2022
DURING THE 2020 GENERAL ASSEMBLY SESSION
as of January 8, 2021**

Budget Item #	Issue	Fairfax County Impact
	Highway Maintenance	
448	Governor Northam's Budget: Provides \$4.09 billion for Highway System Maintenance and Operations, a \$174.1 million increase. This includes \$971.0 million for interstates (\$15.0 million increase); \$1.27 billion for primaries (\$55.4 million increase); \$1.24 billion for secondaries (\$59.8 million increase); and, \$430.7 million for Transportation Operations Services (\$21.1 million increase).	Using historical estimates, approximately \$26 million more may be available for maintenance and operations within Northern Virginia.
	Special Structures	
449	Governor Northam's Budget: Provides \$5 million for this new program, a \$35 million decrease.	The reduction is in accordance with the Budget passed in Fall 2020 that allows the CTB to take necessary steps to address the reduction in revenues, to reduce the impacts on currently programmed projects, and to allow for the phased implementation of the additional revenues made available by HB 1414/ SB 890. The Commonwealth report on the overall condition of special structures identified only one such structure in Northern Virginia, so this should have little impact to the region.
	Toll Facilities	
450	Governor Northam's Budget: For the 2020-2022 biennium, provides \$177.3 million for toll facilities (\$9.6 million decrease), including approximately \$3 million for Debt Service (\$.2 million decrease); \$100.9 million for Maintenance and Operations (\$9.4 million decrease); and, \$73.5 million for the Revolving Fund (no change).	TBD.
	Other	
438	Governor Northam's Budget: Retains positions hired to address the workload associated with REAL ID. Would have been reduced from 2,222 to 2,162 in FY 2022.	These positions are necessary to continue the issuance of REAL ID cards, which was delayed by the onset of COVID-19. No additional funding is required for these positions since they will be paid for out of the \$10 REAL ID surcharge approved in 2019.
