Amid a pandemic, government requires new engagement approaches.

Engagement is more than a survey; requires building long-term relationships.

Better outcomes for residents and stakeholders.

Greater ownership in community decisions.

What is Inclusive Community Engagement?

From One Fairfax Policy:

"To foster civil discourse and dialogue, community engagement shall ensure that the breadth of interests, ideas, and values of all people are heard and considered. Outreach and public participation processes will be inclusive of diverse races, cultures, ages and other social statuses.

Effective listening, transparency, flexibility and adaptability will be utilized to overcome barriers that prevent or limit participation in public processes."

Engage Fairfax

Engage Fairfax is the reimagined look at community engagement. Inclusive, equitable and authentic engagement align with and support One Fairfax and the Strategic Plan.

One Fairfax

One Fairfax racial and social equity policy commits the county to intentionally consider equity when making policies or delivering programs and services. Engagement is at the heart of achieving that vision.

Strategic Plan

The Countywide Strategic Plan will guide Fairfax County over the next decade and more. The choices and decisions made need to be infused with equitable community engagement practices.

Benefits of a Consistent Approach to Engagement

Framework provides a direction for improving our current community engagement practices. It enables departments to continue effective strategies while integrating inclusive community engagement concepts to expand and deepen participation.

Ensures stakeholders have fair and equal access regardless of the host department.

Raises awareness and collaboration among departments so we avoid duplicative or dueling engagement – more coordination.

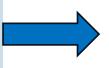

Supports engagement through countywide, centralized functions to provide guidance, tools, networks, data analysis and more capacity.

6 Themes From Root Cause Analysis

We conducted a thorough analysis to help to identify why we have inequitable outcomes.

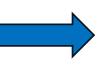

- 1.) Longstanding cultures within agencies where community engagement efforts are designed to benefit the government and not the community.
- 2.) Structured in a way that makes it difficult for agencies to share engagement resources.
- 3.) There is sometimes fear and distrust in the community due to historical, structural, and institutional racism. Some people in our communities are dealing with past traumas that make them distrustful of government or are hesitant to engage with government.

6 Themes From Root Cause Analysis

We conducted a thorough analysis to help to identify why we have inequitable outcomes.

- 4.) There is no standardized countywide training for employees on community engagement: its importance, best practices, the diverse communities we serve, etc.
- 5.) As a government, we sometimes do not collect or use data about our communities effectively and we sometimes do not share our data with other county agencies or with the community.
- 6.) We do not have a clear vision or consistent process for equitable community outreach and engagement.
