1. **Summary:**

- 1.1. Fairfax County is seeking proposals from qualified and experienced offerors to assist the Community Services Board and the Community Health Care Network with transformation of its behavioral health and primary care services and processes into an integrated system of care with the goal of Level 6 integration as described by the Substance Abuse and Mental Health Services Administration (SAMHSA) and Health Resources and Services Administration (HRSA): http://www.integration.samhsa.gov/integrated-care-models/A_Standard_Framework_for_Levels_of_Integrated_Healthcare.pdf). The County seeks an individual or firm to convene the integration efforts, develop internal processes to achieve integration efforts, and to provide a blueprint for longer term integration efforts.
- 1.2. The County's goals for integrated services are to:
 - a. improve the overall wellness and physical health status of people with the greatest health risks, including those with serious mental illness and/or co-occurring substance use disorders who lack access to health care,
 - b. reduce the numbers of unnecessary hospital visits, and
 - c. improve the system of referral and access to specialty medical care and oral health care services.
- 1.3. Qualified offerors will have experience consistent with the following:
 - a. Experience working in both a public behavioral health agency or community mental health center AND a Federally Qualified Healthcare Center (FQHC) community health center. Experience with special populations such as people experiencing homelessness and people with serious mental illness is expected.

County of Fairfax, Virginia
Informal Solicitation – Primary and Behavioral Health Care Integration Services
Proposal Due Date/Time: October 9, 2015 /2:00 p.m.

3. **Background:**

- 3.1. The Fairfax-Falls Church Community Services Board is one of forty public behavioral health agencies in the Commonwealth of Virginia and provides mental health, substance use, and intellectual and developmental disability services to the residents of Fairfax County and the cities of Fairfax and Falls Church. For more information about the CSB, please visit: www.fairfaxcounty.gov/csb . The CSB strategic plan can be found at <http://www.fairfaxcounty.gov/csb/about/strategic-plan.pdf> .
- 3.2. The current Fairfax County health care system for indigent clients includes an array of public and private arrangements to provide primary health care services to the community. These arrangements include the Health Department’s Community Health Care Network, a Level 3 National Committee for Quality Assurance Primary Care Medical Home, and other contractual agreements with hospitals, laboratories, radiology practices, physician practices, and the private medical sector. Fairfax County has provided primary care services to indigent residents via the Community Health Care Network (CHCN) since 1990, using a public/private partnership model to provide comprehensive care at three health centers to low-income, uninsured residents of Fairfax County and the Cities of Fairfax and Falls Church. The existing CHCN is described here: <http://www.fairfaxcounty.gov/hd/pcc/hdchcn.htm>. Following the award to a new vendor of CHCN services beginning in early 2016, the clinics will also serve individuals with Medicaid and other insurance providers.
- 3.3. One of the CSB’s strategic organizational priorities is to provide access to behavioral and primary healthcare. National research, and local experience, reveals that the population that suffers from behavioral health issues has higher incidents of associated medical conditions (e.g., diabetes, hypertension, metabolic syndrome, obesity, and cardiovascular disease). Co-occurring medical and behavioral health diagnoses are often aggravated by poverty or low income driven health choices, such as delayed wellness and physician visits, poor nutrition and tobacco use. The combination of risk factors and/or poor health and a behavioral health diagnosis complicates and confounds primary care and behavioral health care management, outcomes and recovery. Studies show that individuals with severe and persistent behavioral health illness die approximately 25 - 30 years earlier than the general population. In addition, the population diagnosed with behavioral health disorders is less likely to initiate or continue care for preventative healthcare services and maintenance of chronic conditions, most often resulting in high rates of emergency room usage and hospitalization, ultimately resulting in poor health outcomes and a higher cost of care.
- 3.4. Fairfax County has undergone planning and implementation of changes to its health care delivery system to address changes as a result of the Affordable Care Act. In addition, the Fairfax County Health Care Reform Implementation Task Force established priorities for an integrated, effective health care delivery system that provides appropriate and affordable health care in the Fairfax community. The following link provides information about the Health Care Reform Task Force report, the Action Plan and other resources related to the Health Care Reform Task Force: <http://www.fairfaxcounty.gov/healthreform/>. The Fairfax County Health Collaborative was formed to define the county's role in the future of health safety net services. Through this work, the goal of an integrated, effective health care delivery system that provides appropriate and affordable health care in the Fairfax community was established. Some of the strategies that have been identified to achieve that goal are identified here: <http://www.fairfaxcounty.gov/healthreform/health-collaborative.htm>.

3.5. The principles of an ‘Accountable Care Community’ are important to the County. A community where all service organizations and individuals hold themselves accountable for the care of all people, specifically for those most in need, and where providers are committed to collaborate on issues of mutual concern and integrate services on multiple levels, is the premise on which this solicitation is written. As such, the County hopes to assure a seamless experience for those seeking County health services while achieving the best possible use of Fairfax County dollars in the health of our community. The County strives to achieve the triple aim: improving the patient experience of care, improving the health of populations, and reducing the per capita cost of health care.

In no case shall such assignment of contract relieve the Contractor from his or her obligations or change the terms of the contract.
