39. **AUTHORIZATION TO ADVERTISE A PUBLIC HEARING REGARDING A COUNTY REAL ESTATE TRANSACTION WITH INOVA HEALTH CARE SERVICES (INOVA)** (4 p.m.)

(A) Supervisor Smyth said that the Board owns several parcels of land at the Inova Fairfax Hospital campus, located in the Providence District. County staff has proposed a real estate transaction with Inova that, in short, will allow the County to acquire new, nearby land and to build a new County community services facility on that land. The deal would involve the following real estate transactions:

- The County would continue to own a 29.59 acre parcel on which several Inova buildings are located. The County currently ground leases this land, together with an adjacent 15.32 acre parcel, to Inova. The County would amend the ground lease to release the 15.32 acre parcel from the ground lease and to extend the term of the ground lease as to the remaining 29.59 acres.
- The County would then convey the 15.32 acre parcel to Inova. The County would also convey the following nearby parcels of real property to Inova:
  - A 5.41 acre portion of Tax Map Number 059-2-01-0001B
  - A 1.15 acre portion of Tax Map Number 059-2-01-0001C
- Inova would convey to the County a 4.63 acre portion of Tax Map Number 049-3-01-0141, also known as the Willow Oaks land.
- Inova would build a number of common infrastructure improvements on the Willow Oaks land and other land owned by

Inova. In turn, once the County acquires the Willow Oaks land, it would grant Inova various easements to allow Inova to access the land to build – and later, to maintain – these infrastructure improvements. The County would also grant a pedestrian access easement allowing pedestrians to enter the Willow Oaks land on designated walkways.

- The County would build a four-story community services facility and a parking garage on the Willow Oaks land. One wall of the parking garage would run along the property's boundary line. Inova anticipates that it will build a parking structure on its land directly next to the County garage. These two garages would be connected, and the County would then grant easements allowing Inova to access the County's garage as needed for the operation and maintenance of Inova's garage. Inova would grant similar easements to the County.
- The County would also lease one floor of the new community services building to Inova for a 10-year term.

Under Section 15.2-1800 of the *Code of Virginia*, a public hearing is required for the Board to convey real property or interests in real property.

Therefore, Supervisor Smyth moved that the Board authorize the advertisement of a public hearing, to be held before the Board on **September 28, 2010, at 3:30 p.m.** regarding this proposed real estate transaction with Inova. Supervisor Hyland seconded the motion and it carried by a vote of nine, Supervisor Hudgins not yet having arrived.

**ADDITIONAL BOARD MATTERS****62. REVIEW OF HIRING PRACTICES FOR PEOPLE WITH DISABILITIES**  
(7:21 p.m.)

(BACs) [NOTE: Earlier in the meeting, the Board recognized the twentieth anniversary of the Americans with Disabilities Act (ADA). See Clerk's Summary Item #8.]

Chairman Bulova said that leading up to today's presentation recognizing the twentieth anniversary of the ADA, she had a chance to meet with members of the Fairfax Area Disability Services Board to discuss topics with which they are currently concerned. In the past 20 years, society has made important strides toward making community resources and opportunities more accessible to all residents.

Chairman Bulova noted that individuals with disabilities face major barriers to attaining employment, including inaccurate stereotypes and myths about people with disabilities, reluctance of employers to hire people with disabilities, and the misperceived costs of providing reasonable accommodations. A recent study found that, in June of 2010, only 21.7 percent of people with disabilities were part of the labor force.

Chairman Bulova stated that as a prominent jurisdiction, the County has an opportunity to be a leader in hiring a diverse workforce and ensuring that people with disabilities are afforded meaningful opportunities for employment. With this background, Chairman Bulova relinquished the Chair to Vice-Chairman Gross and moved that the Board direct:

- Staff to determine the feasibility and advisability of implementing the Policy that was drafted by the Disability Services Board, and distributed to the Board, that gives preference – all other things being equal – to hiring qualified applicants with disabilities and report to the Board at a future Personnel Committee meeting.
- The County Executive to review the Board's authority to adopt such a Policy, and, if enabling legislation is necessary, bring this issue to the Board's Legislative Committee.

Supervisor Foust and Supervisor Hyland jointly seconded the motion, which carried by unanimous vote.

**63. DULLES EXPRESS SHUTTLE SERVICE** (7:24 p.m.)

Chairman Bulova noted that Dulles International Airport brings thousands of people to the County everyday. The airport has a significant impact on the

economic success of the County. With advent of the Dulles Rail project, access to the airport will be easier than it has ever been before.

Currently the cost of express transportation to the airport is in excess of \$10 each way to and from the West Falls Church Metro Station. While there is a Metro bus that serves the airport, there are multiple stops along the way which is a deterrent for business travelers, and it does not stop in Tysons on weekdays during the morning and evening rush hour. Chairman Bulova said that perhaps there is an opportunity to provide a more affordable direct connection between the airport and Tysons Corner which would have a positive impact on the economy, increase the ease of access to the airport, and help build ridership for the rail line between Tysons Corner and Dulles Airport.

With that background, Chairman Bulova moved that the Board direct staff in the Department of Transportation to explore the viability of creating a direct Connector shuttle that runs between Dulles Airport and the future Metro station at Tysons West. She added that staff should consult with the Metropolitan Washington Airports Authority and Visit Fairfax to determine potential ridership, need, cost, and economic benefit of a direct shuttle from Tysons to Dulles. If such service is found to be feasible and cost-effective, staff should provide the Board with a recommendation for implementation in time to provide service to and from the Silver Line when Phase I becomes operational. Service would be phased out once Silver Line service to Dulles is up and running. Supervisor Foust seconded the motion.

Following discussion regarding service in the Dulles corridor, Supervisor Hudgins asked to amend the motion to direct staff to review the 5A Metrobus service, and this was accepted.

The question was called on the motion, as amended, and it carried by unanimous vote.

64. **UPDATE ON FISCAL YEAR (FY) 2012 BUDGET DEVELOPMENT**  
(7:29 p.m.)

Chairman Bulova said that during the Board's consideration of the FY 2011 budget, it adopted Budget Guidance for FY 2011 and FY 2012. Part of the guidance included directions to staff to develop strategies for enhanced public engagement in the budget process through a continuation of the Community Dialogue sessions, but with the stepped-up use of technology and television.

In addition, Board guidance called for staff to prepare for a Lines of Business (LOB) review of several specific programs and departments for operational efficiency and improvements.

With reference to her written Board Matter, which provided details on ideas for the public engagement process, including a “book club model,” she noted that staff would return with specifics in September.

Chairman Bulova noted that two Budget Committee meeting dates had been identified for LOBs as follows:

**October 26, 1 p.m.**

County Financial Forecast  
Schools Financial Forecast  
Wastewater Treatment  
Review of Outsourcing

Other Issues

In regard to the review of outsourcing, Chairman Bulova indicated that it would include a discussion on opportunities for outsourcing as part of the FY 2012 budget deliberations.

In regard to the Community Dialogues and a financial forecast, Chairman Bulova clarified that the dialogues would be held in the September-October time period.

Anthony H. Griffin, County Executive, stated that refinements of the current financial forecast, particularly with revenues, would be provided to the Board as that information becomes available.

Vice-Chairman Gross returned the gavel to Chairman Bulova.

65. **BRADDOCK DISTRICT PACKING DAY FOR CARE PACKAGES TO SOLDIERS** (7:35 p.m.)

Supervisor Cook noted the critical service and support provided by military personnel. He added that military personnel are deployed throughout the world providing critical support and security to the nation. He said that service members need the support of their families and community at home. As a small token of appreciation, he asked that people from all over the County consider joining him in an ongoing project called Challenge America 2010, supported by America's Adopt A Soldier.

Supervisor Cook said that in conjunction with VolunteerFest, members of the community are being asked to come together on Saturday, October 23, at Lake Braddock Secondary School to help achieve the goal of packing and

shipping 1000 boxes to service members abroad. Individually, people can help by:

- Giving a few hours of time on Saturday, October 23, at Lake Braddock Secondary School to address and pack "Care Packages" for service members. To volunteer time and help out at this event, contact Mr. Lindsey Smith of the Braddock District Office at 703-425-9300.
- Donating items. A list of suggested items can be dropped off at a number of locations yet to be determined. More information on that will be coming soon, but Supervisor Cook's office will serve as the first drop-off location and is ready to accept donated items.
- Donating funds. The cost to mail a box is \$10.70, and the cost of the contents of one box is approximately \$20. Make checks payable to America's Adopt A Soldier and mail to: America's Adopt A Soldier, PO Box 1049, Springfield, VA 22151.

Supervisor Cook referred to his written Board Matter and outlined the creation of America's Adopt A Soldier ®, founded in 2009.

Therefore, Supervisor Cook asked unanimous consent that the Board direct staff to:

- Invite Ms. Mary Keeser to appear before the Board on September 28 to be recognized for her tireless dedication to the troops and to help raise awareness of this event.
- Advertise the October 23 packing day as part of the County's VolunteerFest activities.

Without objection, it was so ordered.

In response to a query, Merni Fitzgerald, Director, Office of Public Affairs, indicated that this would be one of seven presentations scheduled for September 28.

66. **HONORING MR. MICHAEL COOPER ON HIS INDUCTION INTO THE VIRGINIA HIGH SCHOOL HALL OF FAME (BRADDOCK DISTRICT)**  
(7:39 p.m.)

Supervisor Cook announced that Michael Cooper, head coach at W.T. Woodson High School, has been inducted into the Virginia High School of Fame as part of the Class of 2010. Supervisor Cook referred to his written Board Matter outlining Mr. Cooper's many accomplishments in the County.

Therefore, Supervisor Cook asked unanimous consent that the Board direct staff to invite Mr. Cooper to appear before the Board, at a date to be determined, so that he may be recognized for his ceaseless dedication to the sport of gymnastics and the invaluable contributions he has made to the County. Without objection, it was so ordered.

67. **TYSONS LUNCH TIME SHUTTLE SERVICE: FOLLOW-UP** (7:41 p.m.)

Supervisor Herrity reminded the Board that at its February 23, 2010, meeting, it discussed the implementation of the Tysons Corner lunch time bus service or “Tysons Shuttle.” At that time, the service was making 106 runs on average, and only 75 passengers per day were utilizing it. The recommendation at that date was to give the shuttle more time to develop ridership.

Supervisor Herrity said that the shuttle has now been operational for more than eight months. County Department of Transportation staff provided him with updated numbers for the shuttle, which is still making 106 runs on average. The average numbers of passengers per day is up to 97 (less than 1 per bus trip), with the highest number of riders, 165 (about 5 per bus trip), on Friday, April 16.

Supervisor Herrity noted that it is still fairly early, but it is apparent the ridership has not increased significantly, even taking into account the severe weather experienced during “snowmageddon” and the extreme heat of late. Compounded with the constant construction and congestion in the immediate area, and despite a healthy amount of promotion of this service, the ridership numbers are still extremely low. A circulator service in Tysons will clearly be needed, but this service continues to appear to be well ahead of its time. He stated his belief that there should be better ways to spend scarce transportation dollars than to run empty buses around Tysons at lunch time. It is also bad for the environment.

Accordingly, Supervisor Herrity moved that the Board direct:

- Staff to provide an update in response to the February request to review the effectiveness of the shuttle service and determine if the program is working sufficiently and meeting its original goals.
- The County Executive to provide an update on the possible options available to more effectively utilize these funds if the goals are not being met by the September board meeting.

Chairman Bulova seconded the motion.

Discussion ensued regarding funding and use of the funds, with input from Katharine Ichter, Director, Department of Transportation.

The question was called on the motion, which carried by unanimous vote.

68. **DECLARATION OF NOVEMBER 3, 2010, AS “GOVERNMENT CONTRACTING DAY”** (7:48 p.m.)

Supervisor Herrity asserted that the County has one of the most dynamic and vibrant local economies in the world. The main driver of this economic success is the presence of a large number of successful government contracting firms which are either headquartered or have a large presence in the County. According to the US Census Bureau, the County was first among all US counties in the value of federal contracts performed locally. Since the County is the economic engine of Virginia, these companies are essential to the economic vitality of the Commonwealth as a whole, as well.

Supervisor Herrity noted some of the larger contracting firms with headquarters in the County: Booz Allen Hamilton, Computer Sciences Corporation (CSC), General Dynamics, ManTech International Corporation, Bearing Point, and SRA International. In the last year alone, both Northrop Grumman and Science Applications International Corporation (SAIC) have also joined that list. Lockheed Martin and Raytheon also have large presences in the County. In addition to these larger companies, there are numerous small and mid-size firms that provide essential services to the Federal Government while also providing jobs to County citizens and the tax base needed to fund the services provided to citizens.

To honor these companies, the Eighth Annual Government Contractor Awards will be held on November 3, 2010. This is the region’s premier event honoring the best of the government contracting industry and it is presented by the Fairfax County Chamber of Commerce, the Professional Services Council, and *Washington Technology* magazine.

Because these government contracting firms are a key part of the current and future success in the County, Supervisor Herrity asked unanimous consent that the Board:

- Declare November 3, 2010, as “*Government Contracting Day*” in Fairfax County.
- Direct staff to prepare a proclamation to be presented at the awards dinner.
- Direct the Office of Public Affairs to issue a press release regarding “Government Contracting Day.”

Without objection, it was so ordered.

69. **ENDORSEMENT OF PROPOSED DESIGN CHANGES TO PHASE III OF THE FAIRFAX COUNTY PARKWAY EXTENSION PROJECT (LEE, MOUNT VERNON, AND SPRINGFIELD DISTRICTS)** (7:50 p.m.)

In a joint Board Matter with Chairman Bulova, Supervisor Hyland, and Supervisor McKay, Supervisor Herrity stated that in fall 2004, the Virginia Department of Transportation (VDOT) conducted a Design Public Hearing (PH) on the Fairfax County Parkway Extension Project between the Rolling Road/Franconia-Springfield Parkway interchange and the I-95/Fairfax County Parkway Newington interchange. Following the PH, a design was selected and approved for the project. Subsequently the project was divided into four construction phases due to funding limitations. American Recovery and Reinvestment Act (ARRA) (“stimulus”) funds have now been secured to close the final gap in funding and all four phases of the project have moved into construction.

Supervisor Herrity noted that Phase III of the Parkway construction project includes the northwest portion of the overall 2.1 mile long roadway extension project and runs between the existing Rolling Road/Donegal Lane/Hooes Road intersection and the Rolling Road/Franconia-Springfield Parkway interchange. A design-build contract for the Phase III project was awarded in January 2010. As allowed in the Request for Proposals (RFP), the selected design-build team proposed a design that modified the 2004 PH plans, but that remained within the same right-of-way limits. The proposed design changes include intersection modifications, maintaining the existing alignment of the Fairfax County Parkway along existing Rolling Road, elimination of a storm water detention pond and the relocation, lowering, and shortening of the relocated Rolling Road bridge over the Fairfax County Parkway. These proposed design modifications will not only noticeably improve the maintenance of traffic operations during construction, but will also enhance safety and vehicular operations at the interchange.

Supervisor Herrity explained that in March 2010, VDOT notified FHWA Eastern Federal Lands Highway Division (EFLHD) that a PH was not required for the proposed Phase III design changes; however, a National Environmental Policy Act (NEPA) reevaluation was required. The reevaluation determined that the design modifications were consistent with the 2003 Environmental Assessment (EA) and the 2004 Finding of No Significant Impact (FONSI) decision. A public information meeting was held on April 29, 2010, to inform the public of the proposed design changes and solicit input. In addition, significant public outreach to impacted adjacent communities’ homeowner and neighborhood associations was conducted by FHWA. The Phase III modifications were well received by the public, and no major issues or concerns were raised. In July 2010, the County received a letter from EFLHD indicating that the NEPA reevaluation had been completed, including a robust public outreach and participation process to solicit input and support from the public and stakeholders for the redesign of the proposed roadway, and requesting Board review and action of the proposed modifications to the design plans.

Based on the positive responses received during the public outreach program and the significant operational improvements of the revised design concept, Supervisor Herrity, jointly with Chairman Bulova, Supervisor Hyland, and Supervisor McKay, moved that the Board endorse the proposed design changes to Phase III of the Fairfax County Parkway Extension Project as outlined in the NEPA reevaluation document for Phase III and presented at the April 29, 2010, Public Information Meeting. Supervisor McKay seconded the motion.

Following acknowledgment that this type of item is usually presented as an Action Item, the question was called on the motion, which carried by a vote of nine, Supervisor Frey being out of the room.

70. **YOUTH RUGBY DAY IN FAIRFAX COUNTY** (7:54 p.m.)

Supervisor Herrity explained that the Coventry Commonwealth Games of Virginia is an “Olympic-esque” event that brings men, women, girls, and boys together from all corners of the State in the quest to compete in a range of sporting events and activities. He announced that, for the second year in a row, the County will play a more active role in the Commonwealth Games with Rugby Virginia’s Youth Rugby Tournament being the sole Games event held in Northern Virginia. Hoes Road Park will play host to the rugby tournament hosted by Rugby Virginia and its sponsors, the Virginia National Guard, on both July 30 and August 1. Over these two days more than 500 boys and girls from ages 7 to 17 will compete.

Accordingly, Supervisor Herrity asked unanimous consent that the Board:

- Acknowledge the Rugby Virginia Youth Rugby Tournament by proclaiming July 30 as “*Youth Rugby Day*” in Fairfax County.
- Direct staff to prepare a resolution for presentation at the games.

Without objection, it was so ordered.

71. **LETTER TO THE ENVIRONMENTAL PROTECTION AGENCY (EPA)** (7:55 p.m.)

Supervisor Gross, Chairman of the Board’s Environment Committee, called the Board’s attention to a draft letter to the EPA, Region III, regarding the Total Maximum Daily Load (TMDL) for Accotink Creek. She said that each Board Member should have received in Friday’s mail the draft letter and memorandum from James Patteson, Director, Department of Public Works and Environmental Services (DPWES).

Supervisor Gross explained that the EPA is working on establishing a TMDL for the Accotink Watershed, which includes parts of seven districts in the County,

most of the City of Fairfax, half of the Town of Vienna, Fort Belvoir, and a number of key redevelopment areas including Merrifield, Springfield, Annandale, and the Fort Belvoir Engineer Proving Ground (Fort Belvoir North). She expressed concern that the County is being set up for failure, and the EPA is on a fast track for development of this TMDL. This is a non-traditional TMDL and the first time that a flow TMDL has been developed for a highly urban well-developed watershed such as Accotink Creek. The EPA has added a provision that no more than five percent of the watershed can be under construction at any one time, which would be difficult to monitor given the number, size, and scope of the area. As staff understands it right now, stream restoration will not count toward the TMDL, which limits the County's options.

Supervisor Gross moved:

- Approval of the draft letter to Jon Capacasa, Director, Water Protection Division, US EPA, Region III, which outlines the County's concerns. The County wants to do its part to restore the Chesapeake Bay, but the requirements must not be impossible to meet. Supervisor Gross noted that a paragraph has been added to the bottom of page two of the letter, which is different from the original draft previously received by the Board, and regards the legality of EPA's proposed TMDL under the Clean Water Act.
- The addition of courtesy copies of the letter to all members of the County's Congressional delegation.

Supervisor Herrity seconded the motion.

Discussion ensued regarding the Federal legislative agenda, State involvement, and a public hearing held the previous evening, with input from Randy Bartlett, Director, Stormwater Management Division, DPWES.

Supervisor Cook asked to amend the motion to copy the letter to the County's Delegation to the General Assembly, and this was accepted.

Following discussion regarding the legal analysis, David P. Bobzien, County Attorney, indicated that his office had consulted with outside counsel on this issue and it is fully supportive of the County's position.

The question was called on the motion, as amended, which carried by unanimous vote.

Supervisor Gross expressed appreciation to staff for its analysis.

72. **GIFTS OF HONEY** (8:04 p.m.)

Supervisor Hyland presented to Members of the Board gifts of jars of honey which his bees produced.

73. **NEWINGTON DEPARTMENT OF VEHICLE SERVICES (DVS) MAINTENANCE FACILITY (MOUNT VERNON DISTRICT)** (8:05 p.m.)

Supervisor Hyland noted that the County is the owner of the Newington DVS Maintenance Facility located at 6900 Newington Road in Lorton. The site area is approximately 25 acres and the facility is currently used for vehicle maintenance for school buses, county trucks and vehicles, police motorcycles, et cetera. The operation of this facility is currently in four separate buildings. To meet the current DVS programming needs, consolidate operations in one building and upgrade building safety and technology infrastructure, a new larger facility is proposed to replace the current ones that were constructed in 1964.

Supervisor Hyland said that existing drainage from two large offsite areas converge on this site, upstream of a bridge causing inadequate storm water outfall conditions. To mitigate the impact on the outfall, the Department of Public Works and Environmental Services (DPWES) is proposing to redirect the flow from one of the offsite drainage areas in the east to an area downstream of the bridge, bypassing the bridge opening. This design will require an installation of a proposed storm sewer outlet inside a tree conservation area that was established by a private townhouse development located offsite, on the opposite side of Newington Road. This proposed design is supported by residents of the townhouse development (Newberry Station Homeowners Association). In addition, this option was supported by the Virginia Department of Environmental Quality (DEQ) and the US Army Corps of Engineer (COE) at an onsite meeting on May 27. Since the proffered conditions for this private development only include the existing storm sewer outlet, it is necessary that the proffered conditions be amended. The installation of the stormwater sewer outfall continues to be evaluated by the County.

To proceed with the project, the Board must authorize staff to file a proffered condition amendment (PCA) application on its behalf. This application will be coordinated with the Newberry Homeowners Association, the Newington Civic Association, and the South County Federation. The application is ready to be submitted in the coming weeks.

Therefore, Supervisor Hyland moved that the Board direct staff to take the following actions on its behalf:

- Authorize the Director of DPWES, or his designee, to act as the agent of the Board to file a PCA application with the Department of Planning and Zoning (DPZ).

- Grant expedited processing of the application by DPZ to assure the first available public hearing date before the Planning Commission and the Board.
- Grant concurrent processing of the appropriate site plans for review by DPWES.

This motion does not relieve the applicant of any and all obligations, ordinances, or standards, and will not prejudice the consideration of the applications in any way. Supervisor McKay seconded the motion.

Following discussion relating to fees, Supervisor Hyland asked to amend the motion to direct the County Attorney to provide a determination as to whether fees would be posed here and, if so, whether they could be waived. This was accepted.

The question was called on the motion, as amended, which carried by unanimous vote.

74. **MAINTENANCE OF TELECOMMUNICATIONS FACILITIES ON COUNTY PROPERTY** (8:09 p.m.)

Supervisor Hyland said that a civic association president in the Mount Vernon District brought to his attention maintenance deficiencies at several telecommunication (monopole) facilities in the County. This constituent's pictures show deficiencies at school sites, including broken fences, unlocked gates, exposed wires, trash, and other unsafe conditions that need immediate attention. While all these sites operate under a maintenance agreement with the telecommunication company, since they are on public land and frequently used by children and parents, staff should be involved to bring these sites up to safe conditions.

Therefore, Supervisor Hyland moved that the Board direct staff to:

- Inspect telecommunications facilities on County land to ensure they are safe, secure, and up to County standards.
- Refer this to the School Division authorities for inspection and corrective action.
- Report to the Board with recommendations to address deficiencies.

This motion, the second to which was inaudible, carried by unanimous vote.

75. **FUNDING FOR MAINTENANCE OF STATE OWNED ROADS** (8:12 p.m.)

Supervisor Foust said that the Commonwealth of Virginia is grossly underfunding adequate maintenance of State owned roads. Recently, at the request of Supervisor McKay, the Board sent a letter to the Northern Virginia delegation that strongly expressed its concerns over lack of basic road maintenance. The McLean Citizens Association (MCA) may have identified a way that the legislature can help address this problem. He said that the MCA brought to his attention a study that identifies a possible mechanism to increase State funding for road maintenance in a fair and equitable way. The study was conducted for the Virginia Department of Transportation (VDOT) by the Virginia Transportation Research Council (VTRC). It looked at the current fee structure for permits granted to overweight vehicles operating on Virginia's highways to determine what, if any, additional fees should be associated with highway damage and added maintenance costs caused by such vehicles. The study determined that the damage to roads and bridges done by these overweight vehicles in 2007 exceeded \$200 million and that overweight vehicle fees collected by the State were less than \$3 million. The MCA also forwarded a copy of a letter from Transportation Commissioner David Ahern that summarizes the VTRC's study, and a copy of legislation proposed by VDOT to partially address the specific findings of the study. As stated by Commissioner Ahern, the damage model used by VTRC in its study "shows that the amount of damage caused by overweight vehicles is significantly higher than the amount of fees paid by those vehicles."

Therefore, Supervisor Foust moved to refer consideration of this matter to the Legislative Committee to determine whether the Board should adopt a position on issues related to appropriate State permit fees to charge for overweight vehicles that more equitably reflects the estimated pavement and bridge damage costs attributed to those vehicles. Supervisor McKay seconded the motion and it carried by unanimous vote.

76. **QUARTERLY STATUS REPORT ON OPERATIONS AS OF JULY 2010**  
(8:14 p.m.)

(BACs) Supervisor Foust said that the Board has received the Office of Financial and Programs Auditor's Quarterly Status Report on Operations as of July 2010.

Supervisor Foust noted that the long serving Auditor to the Board, John Adair, retired January 1. Following an exhaustive search and numerous candidate interviews, the Board appointed Mr. Michael Longhi to fill that position.

Supervisor Foust said that Mr. Longhi commenced his employment with the County on July 12. As noted in the report, in the short time since his arrival, he has focused on filling the vacant positions in his office, including the full time position created when the Members of the Board reduced its own office budgets

to fund an additional auditor, and a part-time position created by a retirement. He has also worked to familiarize himself with the status of audits addressed in Mr. Adair's December 2009 Quarterly Status Report with a view toward determining whether additional follow up is needed. And, together with the members of the Audit Committee, he has prepared a list of several potential projects that could ultimately provide the Board direction for the activities of the Auditor to the Board.

Supervisor Foust said that the Board previously directed the Auditor to monitor the Dulles Rail Project with respect to financial and schedule issues. The Metropolitan Washington Airports Authority (MWAA) publishes a detailed monthly progress report for Phase I of the project. In his December 2009 status report, Mr. Adair noted that reviewing the MWAA report on a regular basis would enable County officials to keep informed with regard to the project's progress as well as the reason for change orders. Mr. Longhi has included a table in this report that highlights key financial and schedule data taken from MWAA's most recent progress report. It is anticipated that this table, as it might be modified over time, will appear in each quarterly status report the Board receives from Mr. Longhi. In the current report, it is noted that there have been some relatively minor schedule delays encountered, and that the expectation is that there will be opportunities to regain this time.

Supervisor Foust noted that in the Status Report, there is also a section titled "Audit Committee Direction." The Audit Committee has expressed the desire to develop a forward looking audit plan to prioritize and provide direction for the activities of the Board's Auditor. This section identifies several projects that may be included in that plan. The Audit Committee intends to discuss the plan at its next meeting and to present a proposed audit plan to the full Board for approval. Between now and the next Audit Committee meeting, Board Members who are not on the Audit Committee are encouraged to submit to Mr. Longhi any suggestions they have for activities to be included in the plan. He added that he has forwarded copies of the Dranesville District Budget Task Force Reports to Mr. Longhi to review for this purpose and other Board Members who appointed budget task forces may wish to forward their reports to him as well.

Therefore, Supervisor Foust moved that the Board adopt the Quarterly Status Report. Chairman Bulova seconded the motion.

Chairman Bulova suggested that Mr. Longhi be provided with Budget oversight findings.

Supervisor Gross asked unanimous consent that the Board direct Mr. Longhi to meet with each Board Member. Without objection, it was so ordered.

The question was called on the motion and it carried by unanimous vote.

77. **BOARD POSITION CONCERNING ROUTE 7/ROUTE 193 DESIGN PLANS (DRANESVILLE DISTRICT)** (8:16 p.m.)

In a joint Board Matter with Chairman Bulova, Supervisor Foust said that the project to widen Route 7 from four to six lanes between Rolling Holly Drive and the Dulles Toll Road has been under design by the Virginia Department of Transportation (VDOT) since 2000. A design public hearing was held on the western portion of the project in June 2003 and the Board endorsed the project in August 2003, and the VDOT Chief Engineer approved the design plans in March 2004. Since these actions, the project has been delayed multiple times due to funding shortfalls as well as the need to evaluate alignment and operational alternatives. As a result of the funding gap, the project limits have been reduced and the design modified. The County has committed \$8 million to this initial construction segment out of Commercial and Industrial Revenues for Transportation. Land acquisition is scheduled to begin on this project segment this summer and utility acquisitions this fall.

Supervisor Foust explained that during and since the 2003 public hearing, the continuing points of contention for communities along Georgetown Pike with the project design have been the inclusion of a second left turn lane (dual turn lanes) from eastbound Route 7 onto eastbound Route 193, Georgetown Pike, and the proposed widening and realignment of Georgetown Pike. These communities and elected officials who represent Great Falls and McLean have consistently expressed their concern that the integrity of the historic structure must be maintained and that the dual left turn lanes could induce additional traffic onto Georgetown Pike, a narrow two-lane, winding and undulating roadway with minimal shoulders, and thereby impact the safety of hundreds of residents who must use this road for access as well as other travelers. Georgetown Pike is a historic structure and has been determined eligible for the National Register of Historic Places as well as designated as a Virginia Byway and is planned to remain as a two-lane roadway on the Comprehensive Plan to protect its scenic and historic character.

Supervisor Foust noted that the concerns of the community and its elected officials were heightened in 2009 when VDOT released a design to realign Georgetown Pike at the Route 7 intersection, moving the Pike from its historical roadbed and adding multiple auxiliary lanes to the Pike. These changes were made after VDOT presented its 2007 design to the public and after the Board funded the design in 2008 and without any opportunity for community input to the redesign.

In recognition of the strong continuing opposition of the communities along Georgetown Pike and of their elected representatives to the provision of dual left turn lanes from eastbound Route 7 onto eastbound Georgetown Pike and their opposition to realigning the historic Pike, Supervisor Foust said that it is time for this issue to be revisited a final time. In response to the concerns that have been raised and in view of the fact that VDOT has the legal authority and liability for

the safety and adequacy of roadways within the County and design flexibility under SAFETEA-LU 23 USC 109(c), jointly with Chairman Bulova, Supervisor Foust moved that the Board take the following actions:

- Reconfirm the Board's position regarding Georgetown Pike, as stated in the Comprehensive Plan, including that Georgetown Pike should be maintained within its existing right-of-way and that measures should be taken to maintain the scenic and historic character of the roadway.
- Clarify that the Board does not want to induce or encourage more traffic to use Georgetown Pike, nor does the Board want to retain the current unsafe situation of vehicles wanting to turn left onto eastbound Georgetown Pike, queuing into the Route 7 through lanes.
- Transmit to the Commonwealth for consideration the specific alternative of extending the existing single eastbound left turn lane the distance needed to safely store left turning traffic out of the Route 7 through lanes, and including a raised median to prevent traffic from cutting into the left turn queue and blocking traffic in the main line.
- Clarify that if, in the opinion of the Secretary of Transportation, the single left turn lane will satisfactorily resolve the safety issue associated with the extensive eastbound left turn queue, then that is the Board's preferred alternative at this location, rather than the dual left turn lanes currently shown in the plans.
- Request that prior to the end of the summer the State explore with the Board Chairman and Dranesville District Supervisor potential geometric modifications which may better address community concerns about preserving the historical roadbed of Georgetown Pike at its intersection with Route 7.
- Reaffirm that the Board does not wish for the construction of this project to continue to be delayed, as evidenced by the Board's commitment of \$8 million to the project.
- Request that the State not delay the start of land acquisition, utility relocations, or construction of this project any longer due to the left turn lane or other issues and that land acquisition be initiated as scheduled this summer based on the current approved design plans. A review of the design plans indicates that regardless of the State's decision regarding the Route 7/Georgetown Pike intersection, sufficient State right-of-way already exists along Georgetown Pike for either alternative to be constructed.

Chairman Bulova seconded the motion.

Following discussion regarding a similar situation elsewhere in the County and public hearings on Route 7, and with input from Katharine Ichter, Director, Department of Transportation, the question was called on the motion and it **CARRIED** by a recorded vote of nine, Supervisor Hudgins voting “NAY.”

Supervisor Hudgins asked unanimous consent that the Board direct staff to provide the Board with information regarding historic byways and additional traffic. Without objection, it was so ordered.

78. **HILTON WORLDWIDE, INCORPORATED AND TYSONS PARK PLACE II, LLE – SPECIAL EXCEPTION APPLICATION SE 2010-PR-010 (PROVIDENCE DISTRICT)** (8:43 p.m.)

Supervisor Smyth noted that Hilton Worldwide has submitted Special Exception Application SE 2010-PR-10 for a new comprehensive sign plan for the new Hilton Worldwide headquarters located at 7930 Jones Branch Drive.

Therefore, Supervisor Smyth moved that the Board direct staff to schedule a public hearing to be held before the Board on Special Exception Application SE 2010-PR-010 for September 28. The applicant understands that the Board's scheduling of this application will not prejudice the consideration of the application in any way. Supervisor Herrity seconded the motion and it carried by unanimous vote.

79. **RECONSIDERATION OF REZONING/CONCEPTUAL DEVELOPMENT PLAN APPLICATIONS RZ/CDP 2009-SU-024 AND APPROVAL OF SPECIAL EXCEPTION AMENDMENT APPLICATION SEA 2003-SU-023 (SULLY DISTRICT)** (8:44 p.m.)

Pursuant to Section 16-401 of the Zoning Ordinance and due to intervening engineering and design considerations and opportunities, Supervisor Frey moved that the Board reconsider its July 13, 2010, approval of Rezoning/Conceptual Development Plan Applications RZ/CDP 2009-SU-024. Supervisor Hyland seconded the motion and it carried by unanimous vote.

Supervisor Frey moved:

- Amendment of the Zoning Ordinance, as it applies to the property which is the subject of Rezoning Application RZ 2009-SU-024, from the PDC, I-5, PDH-16, HD, and WS Districts to the PDC, HD, and WS Districts, and approval of the associated Conceptual Development Plan, subject to the proffers dated June 11, 2010, and subject to the following Conceptual Development Plan condition associated with Conceptual Development Plan CDP 2009-SU-024 entitled "Dulles Discovery South" and dated May 5, 2010:

- "Notwithstanding the limitations set forth in Proffer Paragraph 2, the footprint of "Building DD-South" may be rotated up to approximately ninety degrees from the orientation depicted on the CDP entitled 'Dulles Discovery South' (dated May 5, 2010), as reviewed and approved by the Zoning Administrator in consultation with the Sully District Supervisor, and in accordance with the following criteria: (i) the minimum setback from the Centreville Road right-of-way is not reduced from the 275 feet depicted on CDP Sheet 3; (ii) the minimum amount of open space provided on the CDP is not reduced; (iii) the height, gross square feet and footprint of Building DD-South is not enlarged; (iv) no change is made to perimeter landscaping and streetscaping along Centreville Road; and (v) the plan shall be presented to the Franklin Farm Foundation for review and comment prior to the submission of the site plan for the rotated building option if it is selected."

Supervisor Foust, Supervisor Herrity, and Supervisor Hyland jointly seconded the motion and it carried by unanimous vote, Supervisor Cook, Supervisor Foust, Supervisor Frey, Supervisor Gross, Supervisor Herrity, Supervisor Hudgins, Supervisor Hyland, Supervisor McKay, Supervisor Smyth, and Chairman Bulova voting "AYE."

Supervisor Frey moved that the Board reaffirm its previous actions as follows:

- Approval of Proffered Condition Amendment/Final Development Plan Amendment Application PCA/FDPA 2003-SU-035.
- Modification of Section 10-104(3)B and C of the Zoning Ordinance to permit an increase in fence height to a maximum fence height of nine feet around the perimeter of the property to provide security for the proposed tenant.
- Modification of Section 13-303 of the Zoning Ordinance to permit the transitional screening as shown on the CDP/FDP to satisfy the requirements along the eastern and a portion of the southern boundaries.
- Modification of Section 13-304 of the Zoning Ordinance to permit the barriers as shown on the CDP/FDP to satisfy the requirements

along the southern and a portion of the eastern and western property lines.

- Waiver of the Countywide Trails Plan recommendation for a major paved trail along the south side of the to-be-vacated Barnsfield Road.
- Approval of Special Exception Amendment Application SEA 2003-SU-023, subject to the development conditions dated June 9, 2010.

Supervisor Herrity and Supervisor Hyland jointly seconded the motion and it carried by unanimous vote.

80. **STUART/MOSBY MUSEUM FEE WAIVER (SULLY DISTRICT)**  
(8:50 p.m.)

Supervisor Frey said that the Stuart/Mosby Historical Society, a 501 (c)3 organization is proposing to lease the Stone House in the Centreville Historic District to establish the Stuart/Mosby Museum. No construction is proposed and the museum would be a by-right use in the C-6 District. However, the use will require a parking study, and perhaps a shared parking agreement with the existing office tenant. The Stone House contains a total of 1200 square feet and the museum use will require four parking spaces.

In recognition of the limited use of the building, the desire of the community to enhance the viability of the Centreville Historic District, and the extremely small nature of the request, Supervisor Frey moved waiver of the fees associated with the parking study. Supervisor Herrity and Supervisor McKay jointly seconded the motion and it carried by unanimous vote.

81. **SYA EAST TEAM WINS STATE CHAMPIONSHIP (SULLY DISTRICT)**  
(8:51 p.m.)

Jointly with Supervisor Herrity, Supervisor Frey announced that the SYA East Little League All-Star 11-12 year old Division has won the Virginia State Championship. It defeated Vienna National 12-2 in the championship game and will now compete in the Southeast Regional Tournament on August 7 in Warner Robbins, Georgia, where they will take on Tennessee.

Therefore, Supervisor Frey asked unanimous consent that the Board direct staff to invite the SYA East team to appear before the Board for recognition of its outstanding State Championship Title and wish it the best. Without objection, it was so ordered.

82. **FORT BELVOIR BASE REALIGNMENT AND CLOSURE (BRAC) PLAN (LEE DISTRICT)** (8:52 p.m.)

Jointly with Chairman Bulova and Supervisor Hyland, Supervisor McKay said that the BRAC plan has created the immediate need for infrastructure improvements in the surrounding area, particularly transportation improvements. He added that the federal Fort Belvoir BRAC plan will require a significant effort by the federal government to appropriately mitigate the effects of relocating approximately 12,000-19,000 personnel to the County. As base realignment is a federal decision; mitigating the impact of the realignment must also be a federal responsibility. However, the federal government has fallen far short of providing the appropriate funding needed to deal with the traffic impacts that will affect the Fort Belvoir area just over one year from now.

Supervisor McKay said that the federal Fiscal Year (FY) 2010 Defense Appropriations Bill, passed by Congress and signed by President Obama, included \$300 million to be divided among transportation projects providing access to the new Fort Belvoir Community Hospital and the new Walter Reed National Medical Center in Bethesda. The Fort Belvoir funding was provided at the behest of Congressman Jim Moran, and it was anticipated that approximately \$150 million would be available for improvements to ease traffic congestion along Richmond Highway (Route 1) corridor which provides the primary access to Fort Belvoir and the new community hospital. Without these improvements, there will be significant delays in the Route 1 corridor with the opening of the new Belvoir Community Hospital and the other BRAC installations at Fort Belvoir.

Supervisor McKay said that subsequent to the passage of the FY 2010 Defense appropriations bill, a technical problem with how the funds were appropriated was identified. Since that time, Congressman Moran has led the effort to attain passage of the technical adjustment needed to release these funds. However, concerns about the struggling national economy and rising deficit have made what should have been a minor, easy fix more difficult to approve as Congress works to complete its business before the November elections.

The Board is closely monitoring this issue, and therefore, Supervisor McKay moved that the Board direct staff:

- And the County's federal contract lobbyists to continue to work with Congressional staff to convey the Board's sense of urgency to ensure the availability of this essential funding.
- To send individual letters similar to those included with his written Board Matter to the County's Congressional Delegation as soon as possible.

Supervisor Hyland and Chairman Bulova jointly seconded the motion and it carried by unanimous vote.

83. **SMOKING IN COUNTY OWNED BUS SHELTERS** (8:55 p.m.)

Supervisor McKay said that it has recently come to his attention that while there is a County ordinance that prohibits smoking in County buildings, the issue of smoking in County-owned bus shelters has not been addressed.

Supervisor McKay noted that the County owns a majority of the bus shelters located within its borders. The Virginia Clean Air Act requires the provision of “reasonable no-smoking areas, considering the nature of the use and the size of the building in any building owned or leased by the Commonwealth or any agency thereof or a locality.” Furthermore, bus shelters qualify as ‘buildings’ under the Virginia Uniform Statewide Building Code.

Therefore, Supervisor McKay moved that the Board direct staff to prepare a proposed ordinance to prohibit smoking in the County-owned bus shelters. Should the Board adopt such an ordinance, Supervisor McKay also requested that staff prepare letters, for signature by the Chairman, to the Virginia Department of Transportation and Washington Metropolitan Area Transit Authority notifying them that they are required by Virginia law to regulate smoking in the bus shelters they own. Supervisor Cook and Supervisor Foust jointly seconded the motion and it carried by unanimous vote.

84. **REQUEST FOR EXPEDITED PUBLIC HEARING FOR REZONING APPLICATION RZ 2006-LE-010 (LEE DISTRICT)** (8:57 p.m.)

- (A) Supervisor McKay said that Rezoning Application RZ 2006-LE-010 is to rezone a lot on Grovedale Road from R-1, C-5 and H-C Districts to the C-2 and H-C Districts. This application has recently been before the Lee District Land Use Committee and received its recommendation for approval. It is currently scheduled for a September 15 public hearing before the Planning Commission.

Therefore, Supervisor McKay moved the Board direct staff to expedite the public hearing to be held before the Board for Rezoning Application RZ 2006-LE-010 on September 28, 2010. This motion should not be construed as a favorable recommendation by the Board on the proposed application and does not relieve the applicant from compliance with the provisions of applicable ordinances, regulations, or adopted standards in any way. Supervisor Foust and Chairman Bulova jointly seconded the motion and it carried by unanimous vote.

85. **BRIDGEWALK (LEE DISTRICT)** (8:58 p.m.)

Supervisor McKay announced that on Friday, September 10, at 7:30 p.m., members of the Springfield community will march over Veterans Bridge in the heart of the Springfield revitalization district and hold a community celebration at

the American Legion end of the bridge. The celebration will feature music and food from local restaurants.

Supervisor McKay said that this year's BridgeWalk will have an added feature. Following the Army Community Covenant signing at last year's BridgeWalk, the covenant will be renewed this year. The covenant is an affirmation of support by state and local communities to active, guard, and reserve service members and their families.

Therefore, Supervisor McKay invited Board Members to join him on September 10 and see how to celebrate community in Lee District. He asked unanimous consent that the Board direct the Office of Public Affairs to advertise this event. Without objection, it was so ordered.

86. **FIRST SPRINGFIELD 15K/5K RACE AS ONE OF THE FEATURES OF SPRINGFIELD DAYS (LEE DISTRICT)** (9 p.m.)

Supervisor McKay said that this year was the first Springfield 15K/5K race as one of the features of Springfield Days.

Supervisor McKay explained that the brainchild of Mark Russell, race director and owner of Metro Run and Walk (a running and walking specialty store in Springfield Plaza), this race will be a yearly event designed to showcase Springfield. This year, the race featured Lake Accotink Park and the adjacent Crestwood neighborhood.

The race drew almost a 1000 runners and walkers, an impressive number for its first year.

Supervisor McKay said that Mr. Russell and his team made an early decision to donate all the proceeds of the race to support area recreation and fitness programs for youth in need as well as to County parks and schools. The following local organizations, parks, and schools were the recipients of the generosity of the race's sponsors:

- Trails for Youth (supporting trail running and hiking)
- Keen (Kids Enjoy Exercise Now) supporting their new Springfield programs
- Lake Accotink Park for camp and activity scholarships
- South Run RECenter supporting adaptive swimming programs
- Lee High School cross country and track teams

- The 15k/5k free running shoe fund providing shoes to local school athletes who cannot afford them

Therefore, Supervisor McKay asked unanimous consent that the Board direct staff to invite Mr. Russell and his race planning team to appear before the Board for recognition at its meeting on October 19. Without objection, it was so ordered.

87. **AGING IN COMMUNITY FORUM (HUNTER MILL DISTRICT)**  
(9:01 p.m.)

Supervisor Hudgins announced that on October 9, 2010, from 1 p.m. until 5 p.m., *Aging in Reston: A Community Forum for Hunter Mill District* will be held at the Reston Community Center at Hunters Woods. Reston founder Robert E. Simon will be the keynote speaker on his original village concept as it connects to aging in place. Also included will be a panel on innovative aging programs from other locations, and breakout sessions. District residents, along with the Reston Community Center, Reston Interfaith, Reston Association, and Reston Citizens Association are all working together designing a program that explores existing local and County resources.

Supervisor Hudgins noted that a community survey is being conducted by volunteers at community events, and is also available at [www.AgingInReston.org](http://www.AgingInReston.org) to gauge the aging in place concerns of residents, which is being used to shape the October forum agenda. Results of the survey will be shared at the community forum.

The forum is free. Residents are invited to participate in this education session to engage in dialogues about the needs and services for older adults in Reston and surrounding areas, and how they can build an Aging in Community model. Advance registration is requested, and event forms are will be available at the Reston Community Center, [www.restoncommunitycenter.org](http://www.restoncommunitycenter.org), or at the Hunter Mill District web page: [www.fairfaxcounty.gov/huntermill](http://www.fairfaxcounty.gov/huntermill).

Supervisor Hudgins asked unanimous consent that the Board direct staff to work with local media to publicize this community event. Without objection, it was so ordered.

88. **RESTON EXCELSIOR - PLANNED RESIDENTIAL COMMUNITY APPLICATION PRC 86-C-121-03 (HUNTER MILL DISTRICT)** (9:03 p.m.)

Supervisor Hudgins said that Reston Excelsior, LLC (“applicant”) is seeking approval of the Planned Residential Plan (PRC) plan on Section 95, Block 2 within the Reston Town Center (Oracle Campus) for the development of two multifamily residential buildings. The site is identified on the Tax Map as 17-4((1))7B.

The Planning Commission (PC) public hearing was held on June 24, 2010. Staff and the applicant have been meeting to resolve certain issues and concerns that were identified as part of the public hearing. The PC is scheduled for a decision only on September 15, 2010. The applicant has requested an expedited Board public hearing for the PRC application.

Therefore, Supervisor Hudgins moved that the Board direct the Director of the Zoning Evaluation Division, Department of Planning and Zoning, to schedule a public hearing to be held before the Board for Planned Residential Community Application PRC 86-C-121-03 for the next available public hearing after the PC date. This motion should not be construed as a favorable recommendation by the Board on the proposed application and does not relieve the applicant from complying with the provisions of all applicable ordinances. Chairman Bulova seconded the motion, which carried by unanimous vote.

Chairman Bulova noted that Tuesday, August 3, 2010, is National Night Out.
