* The Head Start/Early Head Start Program collects and analyzes data at three intervals each year – Fall, Winter and Spring checkpoints – to determine children’s progress across all areas of development throughout the program year. The survey of parents on service quality is completed in the Fall and Spring. The onset of the COVID-19 pandemic in mid-March 2020 interrupted that schedule of data collection. The program is subsequently unable to report child outcomes, gains, and service quality data for the program year 2019-2020 and child outcomes for the program year 2020-2021.
