## Huntington Grove Beautification and Safety Enhancement

The future of our community has been greatly enhanced by substantially increasing the amount of plant material in our community and beginning work to replace a split rail fence that is at the end of its useful life. The fence has become unsightly and will soon lose its safety value of providing a buffer between the playground and the stormwater pond. Huntington Grove HOA was able to install native plants valued at over \$5000 right in the middle of our community of 40 townhomes. The initial planting took place over two successive weekends of April 10-11 and April 17-18, with volunteer labor. We also had fence rails delivered, which we installed ourselves, including cutting some rails to make them fit.

## Community Toolbox

After a year-long journey, the SCA successfully completed the Handbook project. SCA members volunteered personal time to deliver the Handbook. A total of 52 in-kind volunteer hours have been expended to date to help deliver the Handbook, as well as to translate, review, and for desktop publishing of the Spanish-translated version. On behalf of the Springfield Civic Association President, Board of Directors, and the membership, we thank you for making this initiative possible for the SCA!
