

# Reminders to Bus Passengers

- ✓ **On winter weather days, telephone information lines are usually very busy. You are encouraged to call the Fairfax Connector Information Center before bad weather strikes if you have questions about whether your route operates during winter weather.** Additionally, you can visit the Connector web site at [www.fairfaxconnector.com](http://www.fairfaxconnector.com).
- ✓ **Road conditions can change during a winter storm.** When Snow Service is announced at 5:00 AM, buses will operate Snow Service until conditions warrant a change in service level. Check information sources to determine what levels of service will operate during the remainder of the day.
- ✓ **Remember that ice creates driving conditions that are more dangerous than snow.** Large buses are not able to maintain as much control on icy roads, so the Fairfax Connector probably will not be able to operate regular service during ice storms.
- ✓ While bus drivers strive to maintain schedules during inclement weather, passengers should **anticipate and be prepared for delays.** During winter weather, delays are unpredictable and can be caused by snowplows, traffic accidents, hazardous driving conditions, or other drivers.
- ✓ **Disregard snowflake symbols on bus stop signs.** These symbols are outdated and are being removed.
- ✓ **Snow piled up along the roadsides can make it difficult for buses to stop and safely board or de-board passengers at regular bus stops.** Be prepared to walk a little farther, if necessary, to avoid snow banks.
- ✓ The Fairfax Connector **bus schedules are available at [www.fairfaxconnector.com](http://www.fairfaxconnector.com).**
- ✓ Remember that the **Fairfax Connector's top priority is passenger safety.** When your bus driver deviates from normal routes, schedules, or stops, it is to maintain passenger safety while trying to provide the best and safest possible level of service.

# Winter Weather Tips for Connector Passengers

- 1 Before winter weather strikes, find out if your bus route will operate and what streets your bus will travel when "Snow Service" is announced. (See map and snow routes on other side).
- 2 Identify your service area — is your bus route considered Fairfax Connector **South** or Fairfax Connector **North**? (See "Identify Your Service Area").
- 3 Determine type of service for your area:
  - a) Normal Service
  - b) Snow Service
  - c) Not OperatingTo find out which level of service your bus will operate:
  - Watch Cable Channel 16
  - Tune into radio station WMAL-AM 630,
  - Log on to [www.fairfaxconnector.com](http://www.fairfaxconnector.com), or
  - Call the Fairfax Connector Information Center at 703-339-7200, TTY 703-339-1608
- 4 Plan ahead, get up early, allow extra time, dress warmly, and anticipate delays.

Revised January 2006

# Identify Your Service Area

Because weather conditions may vary in different areas of the County, the Fairfax Connector will be divided into two general service areas:

## Fairfax Connector SOUTH

## Fairfax Connector NORTH

The bus routes that will be operated when Snow Service is announced for a service area are listed to the right. The roads on which these routes will travel are shown on the maps included in the Winter Weather Travel Guides for the North and South service areas. If the route(s) you usually use is not listed, it will not be operating when Snow Service is in effect.

The bus routes that will be operated when Snow Service is announced are listed in the table to the right. If the route(s) you usually use is not listed, it will not be operating when Snow Service is in effect. To view the roads on which Connector SOUTH routes will travel, refer to the map included in this brochure. To see the roads on which Connector NORTH routes will travel, pick up a copy of the NORTH Snow Service & Winter Weather Travel Guide which includes a map of that service area.

## Snow Service Routes

SOUTH	NORTH	
101*	RIBS 1*, 2*, 3*	
109*	402	
123*	403*	622*
151*, 152*	425	623
171*	427	922*
301*	504	924
303*	505*	926
304*	551	927*
305*	552*	929
306*	553*	950*
307*	556*	951
321*, 322*	585	952
321*, 322*	605*	980
401	621*	989*

**\*Refer to Snow Service Route modification on opposite side of this brochure.**

Route 554 customers can use Route 556 or RIBS 1 and 3 during Snow Service. See map in the North Guide.

The following South Bus Routes will not operate during snow service:  
161, 162, 231, 232, 310, 380

Fairfax County is committed to nondiscrimination on the basis of disability in all county programs, services and activities. Reasonable accommodations will be provided upon request. For information or to request this information in an alternate format, call 703-324-1100, TTY 703-324-1102.

# Determine Type of Service for Your Area

On winter weather days, the same type of service may not operate in both service areas. To find out what type of service is operating in your area:

- Call the Fairfax Connector Information Center  
703-339-7200,  
TTY 703-339-1608

- Tune in to radio station  
WMAL AM 630

- Watch cable television Channel 16 (the Fairfax County Government Channel)

- Log on to  
[www.fairfaxconnector.com](http://www.fairfaxconnector.com)

In addition, local television news stations will be provided with this information; however, due to the volume of information they receive, frequent announcements are not assured. The announcement may read:

*example announcement*  
**Fairfax Connector North - Snow Service**  
**Fairfax Connector South - Normal Service**

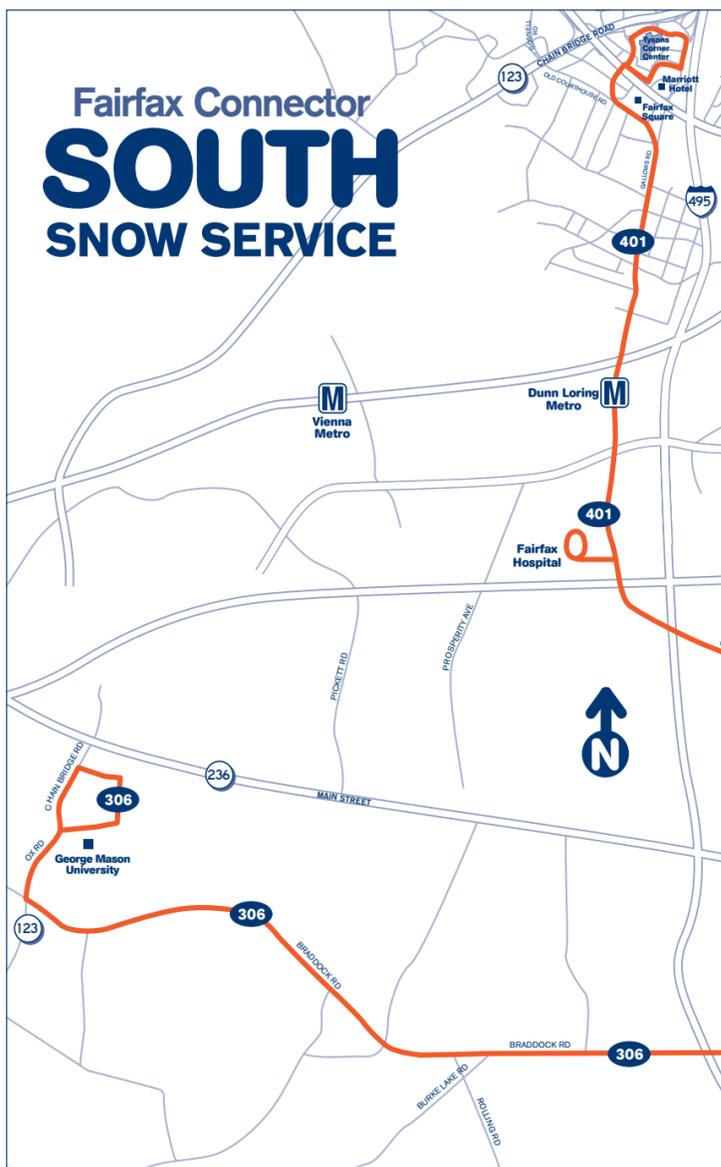

In this example, Connector North will operate snow service, while Connector South will operate normal service on all routes.

There are three possible levels of service:

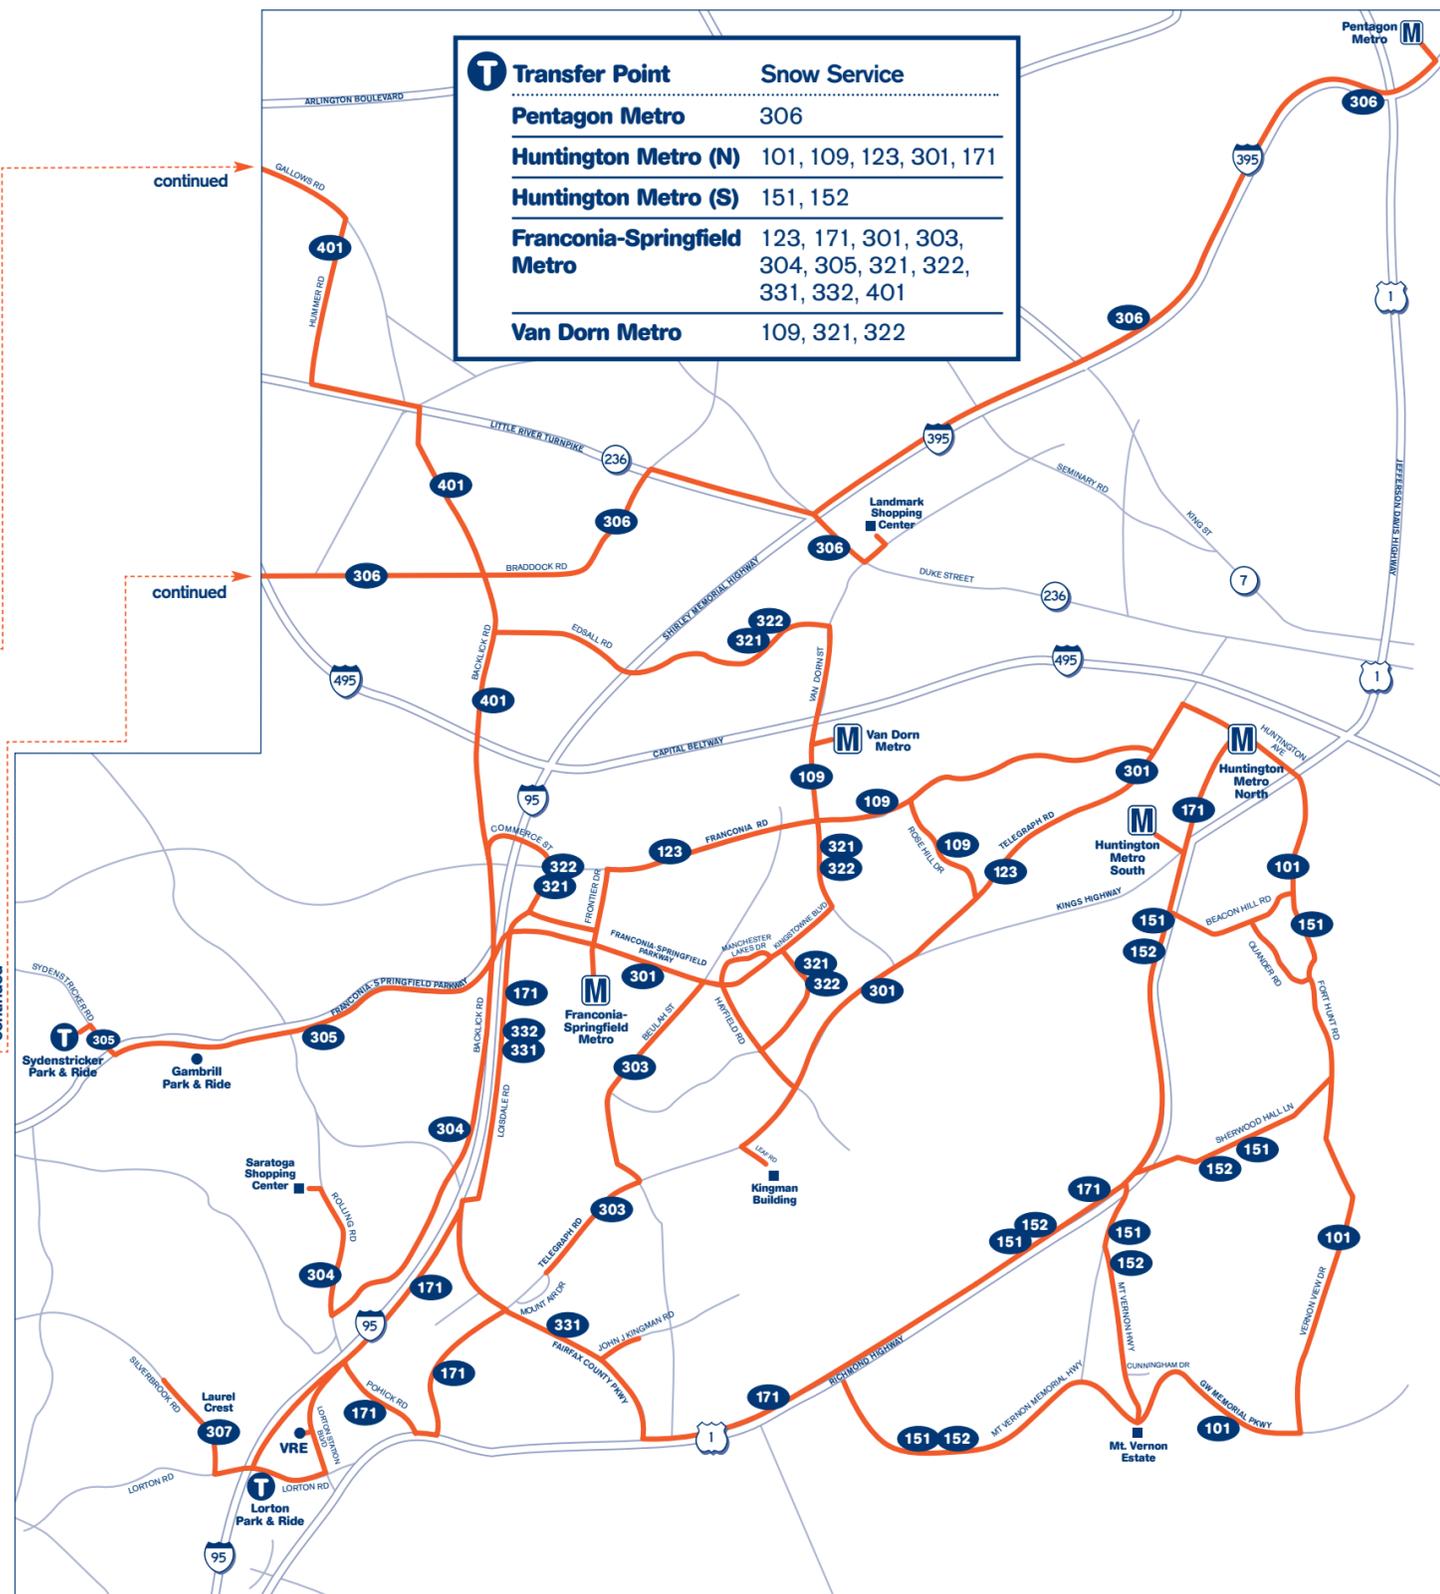

- Normal Service**
- Snow Service**
- Not Operating**

When Snow Service is announced at 5:00 AM, buses will operate Snow Service until conditions warrant a change in service level. Check information sources to determine what levels of service will operate during the remainder of the day.

# Fairfax Connector SOUTH SNOW SERVICE

Buses will travel only on these roads when "Snow Service" is announced. (See the Snow Service Routes section for routes operated during Snow Service.) Safety is your driver's first priority. Please be patient and anticipate delays.

## FAIRFAX CONNECTOR Snow Service Summary

Because weather conditions may vary in different areas of the County, FAIRFAX CONNECTOR Snow Service is divided into two general service areas: FAIRFAX CONNECTOR SOUTH and FAIRFAX CONNECTOR NORTH. Snow Service announcements will be made by service area affected.

When Snow Service is announced, it will remain in effect until conditions warrant a change in service. The types of service that may be operated within each of the two areas are:

- Normal Service
- Snow Service
- No Service (Not Operating)

To find out what type of service will be operated:

- Watch Cable Channel 16
- Tune into radio station WMAL-AM 630
- Log onto [www.fairfaxconnector.com](http://www.fairfaxconnector.com)
- Call the Fairfax Connector Information Center at 703-339-7200, TTY 703-339-1608

The FAIRFAX CONNECTOR routes that will operate, and any modifications that will be made to their regular routing, when Snow Service is in effect are listed in the FAIRFAX CONNECTOR SNOW SERVICE ROUTES table to the right.
