

## CURRENT POPULATION, HOUSING UNITS AND HOUSEHOLDS

The population, housing unit and households estimates are as of January 1 of the respective year on the table. Housing units are obtained from the real estate tax assessment files for the same time period. Households are occupied housing units. Total population is a combination of household population (persons living in housing units) and group quarters population (persons living in facilities such as detention centers, nursing homes, military quarters, dormitories, etc.). The current estimates are summarized by supervisor district and township, planning district, human services region, zip code, sewershed, census block and census block groups.

Population density is based on the total land and water area in the county.

For detailed methodology, please refer to Appendix A.
