8	As a peer working on the Diversion First Team at MCRC, I see how the patience and understanding of our on-site law enforcement has made a huge difference with our clients. Marshall, Tonya, John (Joe), Shawn and Janelle to name a few are so very compassionate and protective yet firm with our clients. They are actually helping with the problem of sigma not only for themselves but for the people in the Recovery Community. Kudos to them all.	1/26/2017 3:01 PM
9	The entirety of the regular day LEO assigned here has been great. The Lieutenants have been involved, inquisitive and willing to collaborate on problems as they arise. They all seem to be mission focused and able to be flexible with the clientele and public. The continued support from FCSO/FCPD leadership to improve recruitment and to ward off burnout is something to consider in the future. Being involved with high intensity emotionally charged interactions for hours needs to be considered or we will lose the quality officers we have. This is not the norm for FCPD nor FCSO and it can lead to an erosion of morale. MCRC mental health staff have come a long way in dealing with quite an increase in volume without the increase in disposition locations. The result is a time consuming process that can be frustrating but they continue to put the client first. The need to hire good competent people becomes an issue to prevent burnout as the cases can take upwards of eight hours to come to resolution.	1/26/2017 2:47 PM
10	Police Officers Lt. Ryan Morgan and Officer Marshall (can't remember his last name ... starts with a T, and sheriffs Derrick and Mark are rock stars. Compassionate change agents.	1/26/2017 2:16 PM
