Board of Supervisors' Adjustments

The following funding adjustments reflect all changes to the FY 2007 Advertised Budget Plan, as approved by the Board of Supervisors on May 1, 2006:

- ◆ The Board of Supervisors made no adjustments to this fund.

Focus

This fund supports storm drainage capital projects through contributions in accordance with the Pro Rata Share Program approved by the Board of Supervisors on December 16, 1991. The Pro Rata Share Program provides a funding source to correct drainage deficiencies by collecting a proportionate share of the total estimated cost of drainage improvements from the developers of the land. Pro Rata funds are used to finance projects within specific watershed areas. As projects are identified and prioritized during scheduled budgetary reviews, Pro Rata funds on deposit are appropriated to this fund.

Fund 316, Pro Rata Share Drainage Construction, is complemented by several other funding sources including, Fund 310, Storm Drainage Bond Construction, and Fund 318, Stormwater Management Program, in order to address the County's stormwater control needs. Beginning in FY 2007 all stormwater projects will be consolidated into these three funds. Fund 310 is supported by General Obligation Bonds approved by the voters in 1988. Fund 318 was created in FY 2006 by the dedication of one penny of the Real Estate tax to address prioritized capital improvements in the County's stormwater system. In the future, Fund 318 will be the primary source of funding of stormwater management funding. This consolidation will allow Stormwater Management to better allocate resources and track funding. As Watershed Management Plans are completed throughout the County, the list of stormwater improvement projects will be updated, and revised funding requirements and strategies will be developed for the entire program.

Development of watershed management plans for the County is currently underway to restore the County's streams and to position the County to comply with various stormwater commitments and regulatory requirements. The physical stream assessment, which provides the fieldwork for the watershed management plans, was completed for the entire County in 2003. Work continues each year toward the completion of the countywide watershed management plans.

No funding is included for Fund 316, Pro Rata Share Drainage Construction in FY 2007. All funding for this program is from private sources. Existing projects will utilize pro rata funds received to support watershed planning, regional pond development and other drainage improvement projects.

Changes to FY 2006 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2006 Revised Budget Plan since passage of the FY 2006 Adopted Budget Plan. Included are all adjustments made as part of the FY 2005 Carryover Review and all other approved changes through December 31, 2005:

- ◆ As part of the *FY 2005 Carryover Review*, the Board of Supervisors approved an increase of \$24,556,371 due to the carryover of unexpended project balances in the amount of \$24,554,871 and an adjustment of \$1,500.

The following funding adjustments reflect all approved changes to the FY 2006 Revised Budget Plan from January 1, 2006 through April 24, 2006. Included are all adjustments made as part of the FY 2006 Third Quarter Review:

- ◆ At the *FY 2006 Third Quarter Review*, the Board of Supervisors approved an increase of \$2,000,000 due to ongoing construction projects and the appropriation of funds to several watershed projects. This increase was supported entirely by pro rata share contributions.

A Fund Statement and a Summary of Capital Projects are provided on the following pages. The Summary of Capital Projects may include some projects without a Total Project Estimate amount. These projects are considered "continuing" projects or projects for which funding is necessary on an ongoing basis (e.g., a contingency or planning project).

¹In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$41 has been reflected as an increase to revenue to accurately record revenue and a decrease of \$1,500 has been reflected in FY 2005 expenditures to offset accruals. The projects affected by these adjustments are Project DF1047, Regional Pond D-47, Project LR1008, Regional Pond R-8 and Project LR1161, Regional Pond R-161. This impacts the amount carried forward resulting in a net increase of \$1,541 to the *FY 2006 Revised Budget Plan*. The audit adjustments have been included in the FY 2005 Comprehensive Annual Financial Report (CAFR). Details of the FY 2005 audit adjustments were included in the FY 2006 Third Quarter Package.

² Represents anticipated developer contributions associated with Project DF1046, Regional Pond D-46.

³ Capital projects are budgeted based on the total project costs. Most projects span multiple years, from design to construction completion. Therefore, funding for capital projects is carried forward each fiscal year, and ending balances fluctuate, reflecting the carryover of these funds.
