Contributory Overview

Fund 119, Contributory Fund, was established in FY 2001 to reflect General Fund support for agencies or organizations that receive County contributions. Funding for these organizations was previously included in the General Fund under Agency 88, Contributory Agencies. However, because the expenditures made to these organizations are not in support of direct County operations, the use of direct expenditures from the General Fund distorts the cost of County operations. Therefore, a separate fund was established to show the General Fund support of these organizations in the form of a transfer, rather than as a direct expenditure. FY 2008 funding totals \$13,151,882 and reflects a decrease of \$155,971 or 1.2 percent from the *FY 2007 Revised Budget Plan* funding level of \$13,307,853. The required Transfer In from the General Fund is \$13,037,140. Individual contributions are described in detail on the following pages.

Contributory funding is in compliance with the Board of Supervisors' policy to make General Fund appropriations of specified amounts to various nonsectarian, nonprofit or quasi-governmental entities for the purpose of promoting the general health and welfare of the community. Contributory agency positions are not part of the County merit system and funding for all contributory agencies is reviewed annually. Each request is reviewed on the basis of the benefit to Fairfax County citizens, contractual or regional commitments, the responsibilities of state agencies, and a prior County commitment of funding. When appropriate, a nonprofit agency that provides specific contractual partnership services may be referred to Fund 118, Consolidated Community Funding Pool, for funding consideration by the Consolidated Community Funding Advisory Committee.

Since public funds are being appropriated, disbursements provided to designated agencies are currently made contingent upon submission and review of quarterly, semiannual and/or annual reports. This oversight activity includes reporting requirements prescribed by the County Executive, requiring designated agencies to accurately describe the level and quality of services provided to County residents, as well as the overall financial strength and stability of the County's contributory agencies. Various County agencies may be tasked with oversight of program reporting requirements. Contributory agencies that do not file reports as requested, may, at the discretion of the County Executive, have payments withheld until appropriate reports are filed and reviewed.

It should be noted that population is used by several of the organizations as the basis for their requests for FY 2008 funding from Fairfax County. The population figures cited by the individual organizations for Fairfax County may differ somewhat from one another due to the particular projection service utilized.

The chart on the following pages summarizes the FY 2008 funding for the various contributory organizations.

FY 2008 Funding Adjustments

The following funding adjustments from the FY 2007 Revised Budget Plan are necessary to support the FY 2008 program:

- ◆ The Legislative-Executive Functions/Central Service Agencies program area increases \$44,400 or 2.4 percent for several organizations based on per capita requirements and adjusted County population figures for which population is cited and used in the calculation. This increase is primarily attributable to the Metropolitan Washington Council of Governments (MWCOC) contribution, which increases \$29,511 or 3.5 percent due to the increase in County population and an increase in the FY 2008 per capita rate; the Northern Virginia Regional Commission (NVRC) contribution, which increases \$9,970 or 1.8 percent based on the increase in the County population; an increase of \$3,955 for the National Association of Counties and the Virginia Association of Counties for projected dues increases; and an increase of \$964 or 0.6 percent for the Northern Virginia Transportation Commission (NVTC) based on the share of revenue to be received by NVTC on behalf of the County. It should be noted that population, as determined by the County's own Urban Development Information System (UDIS), maintained by the Fairfax County Department of Systems Management for Human Services, may differ from other particular projection services, e.g., Weldon Cooper Center for Public Service, used by various contributory agencies as the basis for their contributions.

Fund 119 Contributory Fund

- ◆ The Public Safety program area decreases \$244,247 or 53.9 percent due to a reduction in the County's share for the Northern Virginia Regional Identification System (NOVARIS) due to decreased lease and maintenance requirements based on obligations that have been met. Fairfax County's FY 2008 contribution to NOVARIS totals \$159,321 and consists of \$107,924 for the County's share of costs associated with operations and upgrades, as well as \$51,397 for lease agreements and other costs associated with equipment that is specific to Fairfax County operations.
- ◆ The Health and Welfare program area increases \$323,608 or 21.3 percent due to an increase of \$320,608 or 29.8 percent for the Northern Virginia Healthcare Center/Birmingham Green Adult Care Residence, known collectively as Birmingham Green, as well as \$3,000 for Volunteer Fairfax to cover the loss of in-kind support to host the Citizen Corps Council Web site and database. The increase for Birmingham Green is mainly attributable to an increase in the number of assisted living beds available for Fairfax County residents from 19 to 26 associated with construction of the new facility projected to open early FY 2008, as well as per diem increases of 14.7 percent in the subsidy rate for the Adult Care Residence, from \$54.49 per day to \$62.50 per day, and 20.4 percent for the Nursing Facility, from \$19.94 per day to \$24.00 per day based on higher labor costs, as well as increases in health insurance premiums, medical supplies and utility costs.
- ◆ The Parks, Recreation and Cultural program area increases \$57,714 or 1.2 percent due to an increase of \$40,828 or 2.0 percent for the Northern Virginia Regional Park Authority to support the County's annual per capita contribution; \$3,996 or 1.8 percent for the Arts Council of Fairfax which has historically received a Personnel Services adjustment; and \$12,890 or 4.9 percent for the Fairfax Symphony Orchestra, which also receives a Personnel Services adjustment.
- ◆ The Community Development program area decreases \$372,446 or 8.3 percent from the *FY 2007 Revised Budget Plan* primarily due to a decrease of \$298,622 for the Convention and Visitors Corporation based on an adjustment made to the FY 2007 revised allocation to recognize additional FY 2006 revenue; a decrease of \$50,000 for the Police and Fire World Games included as one-time, non-recurring funding as part of the *FY 2006 Carryover Review*; a decrease of \$44,654 or 8.7 percent for the Northern Virginia Soil and Water Conservation District based on a lower amount required in FY 2008 for the soils survey project; a reduction of \$4,000 for the Washington Area Housing Partnership, which will be addressed within the FY 2008 Metropolitan Washington Council of Governments administrative contribution; and \$463 or 0.5 percent less for Northern Virginia Community College primarily due to shifts in population among the contributing jurisdictions. These decreases are partially offset by increases totaling \$25,293 including inflationary adjustments for the Southeast Fairfax Development Corporation, resulting in an increase of \$7,813, and for the Northern Virginia Conservation Trust, resulting in an increase of \$9,057. In addition, the County's contribution to the Occoquan Watershed Monitoring Program increases \$7,152 or 6.7 percent based on Fairfax County's share of the cost; the contribution for Celebrate Fairfax, Inc. increases \$413 or 1.5 percent based on the cost of collection and disposal of waste for the annual Fairfax Fair; and the contribution to the Washington Area Housing Trust Fund increases \$858 or 2.7 percent based on the County's share.
- ◆ The Nondepartmental Program area funding includes \$92,657 for the Fairfax Public Law Library, an increase of \$35,000 over the FY 2007 contribution of \$57,657. The increase is associated with the Judicial Center expansion, where the Law Library will be moved to the first floor with more space to accommodate the increasing needs of a growing population, requiring additional funding for reference materials.

Legislative-Executive Functions/Central Service Agencies:

Fairfax County	FY 2006 Actual	FY 2007 Adopted Budget Plan	FY 2007 Revised Budget Plan	FY 2008 Advertised Budget Plan	FY 2008 Adopted Budget Plan
Dulles Area Transportation Association	\$9,000	\$9,000	\$9,000	\$9,000	\$9,000

The Dulles Area Transportation Association (DATA) is a public-private, nonprofit, 501(c)(3) tax exempt transportation management association dedicated to improving transportation in a 150-square mile area around Dulles Airport including the Route 28, Route 50, Route 7 and Dulles Corridor (the Greater Dulles Area). Its membership is comprised of elected officials of the Commonwealth of Virginia, Fairfax County, Loudoun County, and the towns of Herndon and Leesburg; senior executives of the Metropolitan Washington Area Airports (MWAA) and the Washington Metropolitan Area Transit Authority (WMATA); and other employer firms, property owners and business professionals, with membership open to all. The Board of Supervisors approved the first contribution for DATA in the FY 1993 budget.

DATA currently has over 100 members; 50 are dues-paying individuals corporations and businesses, 10 are dues-paying governmental or quasi-governmental organizations, and the remainder are non-paying local representatives to the General Assembly, representatives of citizen associations, and affiliate members (e.g., Fairfax County Chamber of Commerce), none of whom are obligated to pay dues but allow similar memberships in their organizations.

Fund 119 Contributory Fund

DATA provides a neutral public forum for identifying transportation needs within the Greater Dulles Area, as well as generating solutions to meet them. In Calendar Year 2006, DATA planned and conducted transportation seminars in support of efforts to improve transportation in the greater Dulles area in conjunction with regional members of the Commonwealth Transportation Board and other local governing bodies. During Calendar Year 2007, efforts are underway to expand the successful launch of transit-oriented development seminars to improve understanding of the concept by citizens and businesses in the region. Other programs will emphasize congestion management and mobility approaches including heavy and light rail, bus rapid transit, and highway improvements.

An amount of \$9,000 is funded for DATA for FY 2008, which is consistent with the *FY 2007 Revised Budget Plan*.

Fairfax County	FY 2006 Actual	FY 2007 Adopted Budget Plan	FY 2007 Revised Budget Plan	FY 2008 Advertised Budget Plan	FY 2008 Adopted Budget Plan
Metropolitan Washington Council of Governments	\$810,406	\$838,706	\$838,706	\$868,217	\$868,217

The Metropolitan Washington Council of Governments (COG) is the regional planning organization of the Washington, D.C. area's local governments. COG works toward solutions to regional problems such as transportation, affordable housing, emergency preparedness and environmental issues. Currently, 20 area jurisdictions are members, including Fairfax County. Funding for COG is provided through federal and state grants, contributed services, special contributions (fees for services) and local government contributions.

Annual COG contributions are based on the per capita rate multiplied by the population estimates provided by member jurisdictions. The COG Board of Directors' Finance Committee endorsed a recommendation by the Executive Director to increase the FY 2008 per capita rate from \$0.62478 to \$0.63977 for member contributions. This is an increase of 2.4 percent, or half of the 4.8 percent increase in the annual CPI-U for the Washington-Baltimore-DC-MD-VA-WV area for calendar year 2005.

The FY 2008 Administrative Contribution totals \$701,395 and is an increase of \$34,620 or 5.2 percent over the *FY 2007 Revised Budget Plan* amount of \$666,775. COG calculates each jurisdiction's share based on the region's estimated population. The total FY 2008 County contribution to COG is \$1,121,173. In addition to the Administrative Contribution of \$701,395 and Special Contributions of \$166,822 including \$133,251 for the Regional Environmental Fund and \$33,571 for Water Resources, for a total Fund 119 contribution of \$868,217, an amount of \$24,950 is budgeted in Fund 114, I-95 Refuse Disposal, and \$228,006 (\$206,222 for Water Resource Planning and \$21,784 for Blue Plains Users) is budgeted in Fund 401, Sewer Operation Maintenance Fund - Wastewater Management. Funding of \$12,463 included in the *FY 2007 Adopted Budget Plan* for Airport Noise and Cooperative Purchasing contributions will be addressed within the projected FY 2008 Administrative Contribution, as will \$4,000 for the Washington Area Housing Partnership shown in the Community Development program area for this fund.

National Association of Counties	\$17,498	\$19,294	\$19,294	\$20,259	\$20,259

The National Association of Counties (NACo) is an organization that represents and informs participating governments of current developments and policies that affect services and operations. NACo acts as a liaison with other levels of government, works to improve public understanding of counties, serves as a national advocate for counties and provides them with resources to find innovative methods to meet the challenges they face. NACo is involved in a number of special projects that deal with issues such as homeland security, energy, environment, housing and land use, among others.

Fund 119 Contributory Fund

An amount of \$20,259 is included for FY 2008 dues, which is an increase of \$965 or 5.0 percent over the *FY 2007 Revised Budget Plan*.

Fairfax County	FY 2006 Actual	FY 2007 Adopted Budget Plan	FY 2007 Revised Budget Plan	FY 2008 Advertised Budget Plan	FY 2008 Adopted Budget Plan
Northern Virginia Regional Commission	\$493,115	\$552,769	\$552,769	\$562,739	\$562,739

The Northern Virginia Regional Commission (NVRC) is a regional council of local governments in Northern Virginia created in 1969 pursuant to the Virginia Area Development Act and a regionally-executed charter. In 1995, the Virginia Area Development Act was amended and renamed the Regional Cooperation Act. It sets forth the purpose of planning district commissions as follows: "...to encourage and facilitate local government cooperation in addressing, on a regional basis, problems of greater than local significance. The cooperation resulting from this Act is intended to assist local governments in meeting their own problems by enhancing their abilities to recognize and analyze regional opportunities and take account of regional influences in planning and implementing their public policies and services."

NVRC's policies and programs are established by a 25-member Board of Commissioners composed entirely of elected council and board members of NVRC's 14 member localities. The work of the Commission is supported in part by contributions from the member local governments and by appropriations from the Virginia General Assembly.

NVRC serves as a neutral forum for decision-making; provides member governments with the information and analyses necessary to make sound local and regionally beneficial decisions; provides professional and technical services to enable member governments to plan for their future individually and as a region; and carries out programs and functions at the request of member governments to supplement their own capacities or to achieve economies of scale through regional approaches. NVRC's services are divided into regional policy programs such as the legislative program; demographics and information services; environmental and land use; and human services programs.

The total FY 2008 Fairfax County contribution of \$562,739 is an increase of \$9,970 or 1.8 percent over the *FY 2007 Revised Budget Plan* of \$552,769. This amount provides for the annual contribution of \$503,823, as well as special contributions of \$42,302 to support the Occoquan Watershed Management Program and \$16,614 for the Four-Mile Run-off Program. After a three-year period in which the per capita dues rate was increased from \$0.32 to \$0.50 in six-cent increments, NVRC is holding the per capita rate at \$0.50 for FY 2008. Therefore, the increase is primarily attributable to the population increase. An additional \$7,636 for the Regional Waste Reduction Program is budgeted in Fund 114, I-95 Refuse Disposal.

Northern Virginia Transportation Commission	\$164,683	\$174,674	\$174,674	\$175,638	\$175,638

The Northern Virginia Transportation Commission (NVTC) is the executive agency of the Northern Virginia Transportation District. It was established by state statute as a political subdivision of the Commonwealth of Virginia. The principal business activity of the Commission is to manage and control the functions, affairs and property of the Northern Virginia Transportation District, as defined in the Transportation Act of 1964. It represents its constituent jurisdictions (Alexandria, Falls Church, Fairfax City, Arlington County, Fairfax County and Loudoun County) on the Metro Board.

Fund 119 Contributory Fund

Each NVTC jurisdiction is assigned a percentage of the local portion of NVTC's administrative budget based on the jurisdiction's share of state aid received from NVTC in the previous year. This is determined by the application of a subsidy allocation model that projects the total amount of state aid received by the region and local jurisdictions. This model contains seven formulas including such variables as Metro construction costs, Metrorail service costs, ridership volume and population. These calculated percentages for each jurisdiction are applied to NVTC's remaining administrative budget after other revenue sources such as state aid, interest earned and project chargebacks have been applied.

The NVTC projected expenditure base for FY 2008 is \$1,198,350, an increase of \$57,600 or 5.0 percent over the FY 2007 Budget of \$1,140,750. Fairfax County's contribution will increase based on its share of revenue received by NVTC on behalf of the County. The total FY 2008 Fairfax County funding for this agency is \$175,638, an increase of \$964 or 0.6 percent over the *FY 2007 Revised Budget Plan* of \$174,674.

Public Technology Incorporated	\$25,000	\$20,000	\$20,000	\$20,000	\$20,000

Public Technology Incorporated (PTI) is the nonprofit, membership-based technology research, development and commercialization organization for all cities and counties in the United States. As the only technology organization created by and for cities and counties, PTI works with a core network of leading local government officials – the PTI membership – to identify opportunities for technology research, share best practices, offer consultancies and pilot demonstrations, promote technology development initiatives, and develop educational programming. Officials from PTI's member governments participate in councils and forums that address specific technology areas. Through a corporate partner program with leading technology companies and partnerships with federal agencies and other governmental organizations, PTI shares information about these activities, as well as the expertise of its members with the broader audience of thousands of cities and counties across the United States.

An amount of \$20,000 is included for County membership in PTI based on population, which is consistent with the amount in the *FY 2007 Revised Budget Plan*.

The Virginia Association of Counties (VACo) is an organization dedicated to improving county government in the Commonwealth of Virginia. To accomplish this goal, the association represents Virginia counties regarding state legislation that would have an impact on them. The association also produces conferences, publications and programs designed to improve county government and to keep county officials informed about recent developments in the state, as well as across the nation.

The FY 2008 Fairfax County contribution to VACo is \$208,500, an increase of \$2,990 or 1.5 percent over the *FY 2007 Revised Budget Plan* of \$205,510. It is anticipated that the governing board of VACo will approve that organization's final FY 2008 budget in May 2007.

The Virginia Innovation Group is part of the Innovation Groups (IG), a network of local government professionals seeking innovation and governmental excellence. IG, now in its 25th year of service, provides a national forum for those seeking to innovate and learn new approaches to providing public service. IG's purpose is to assist local governments to build and sustain the capacity to be innovative. It provides an 'organizational' membership, meaning that everyone at every level in member jurisdictions can utilize its services. These include an online document library, research inquiry service, national and regional networking opportunities, training and other learning events, two annual conferences, research and publications. Recently IG, the International City/County Management Association and Arizona State University founded the Alliance for Innovation to assist local governments across the country by identifying the major forces that will drive local government in the future; responding to those forces by identifying and accelerating innovations; identifying and documenting best practices; and reducing the time from when an innovation is identified to when it becomes practice.

During the development of the FY 1999 budget, \$5,000 was first included for membership dues to the Virginia Innovation Group for Fairfax County's share of costs based on population category. For FY 2008, these membership dues are \$6,000, which is consistent with the *FY 2007 Revised Budget Plan* amount.

The Virginia Institute of Government was created by an act of the General Assembly in 1994, and is a nonprofit organization funded half by the Commonwealth of Virginia and half by local government membership contributions. It is part of the University of Virginia and its Weldon Cooper Center for Public Service. Local governments that join the Institute make annual contributions based on membership. While the Institute began with 60 members, it now has a roster of 223 Virginia member localities. The Institute operates with an advisory board of 18 members, each appointed for a single two-year term. It is made up of an equal number of members from the state's legislative and executive branches, as well as local governments.

The Institute is an ongoing informal gathering of organizational development staff from Virginia localities established to exchange ideas and strategies for developing high-performance governments and to help the Institute identify areas of needed assistance. Work products of the Virginia Institute of Government encompass four main areas: training, technical assistance, electronic information services, and select research projects. The Institute also provides staff support to certain state legislative and study committees.

The Commonwealth of Virginia, Fairfax County and the private sector support the Washington Airports Task Force. Its purpose is to develop markets, as well as promote domestic and foreign usage of the Metropolitan Washington Airports. It has yielded hundreds of millions of dollars in economic return for the Washington region and the Commonwealth of Virginia, including investment, tourism income, trade opportunities and jobs. Both Dulles and National Airports continue their significant impact on Fairfax County's economy. The distribution of local direct tax impact from Dulles and National for Fairfax County in 2005 was in excess of \$20 million.

Total Fairfax County funding included for this agency for FY 2008 is \$40,500, which is consistent with the *FY 2007 Revised Budget Plan*. Fairfax County's FY 2008 contribution will be used to maintain a comprehensive, proactive marketing and sales program to promote the region's air service opportunities to the world's airlines and other air service providers; encourage improvement of airport access; ensure adequate Air Traffic Control, Homeland Security and Customs support services from the federal government; support the Airports Authority's \$3.4 million Dulles Improvement Program; encourage the growth of lower fare services, represent the business user in petitions to the federal government for approval of new international services to Washington Dulles; and work for federal international aviation policies, including Open Skies, which gives weight to the economic needs of communities, as well as to the mercantile needs of the air carriers.

NOVARIS	\$401,328	\$403,568	\$403,568	\$159,321	\$159,321

The Northern Virginia Regional Identification System (NOVARIS) utilizes state-of-the-art computer equipment to identify criminals by categorizing and matching fingerprints. It enables police to match a fingerprint found at the scene of a crime with any individual who has been arrested in the Washington metropolitan area by comparing the print or partial print with all prints in the database. A new Automated Fingerprint Identification System (AFIS) will be installed in FY 2007 that will have enhanced technologies, including palm print and facial recognition capabilities. Funding of \$9.65 million was secured through an Urban Areas Security Initiative grant to cover the cost of AFIS system replacements for the National Capital Region, including NOVARIS, the District of Columbia, as well as Prince George's County and Montgomery County.

Participating Washington metropolitan area jurisdictions share costs associated with NOVARIS based on the sworn police population of each jurisdiction as approved by the NOVARIS Advisory Board on July 30, 1997. In FY 2008, Montgomery and Prince George's counties will no longer participate in NOVARIS as those jurisdictions are joining a Maryland regional fingerprint system. However, it is anticipated that Loudoun County and the Virginia State Police will join NOVARIS in FY 2008. The system is housed in Fairfax County and is staffed by personnel contributed by the participating jurisdictions. Fairfax County exercises a fiduciary responsibility for the financial management and operation of NOVARIS, with the County contribution made through the Contributory Fund.

The total Fairfax County FY 2008 contribution of \$159,321 is a decrease of \$244,247 or 60.5 percent from the *FY 2007 Revised Budget Plan* amount of \$403,568. The total contribution consists of \$107,924, which represents the County's annual share of costs associated with operations and upgrades of NOVARIS and \$51,397 in funding for lease agreements and other costs associated with equipment that is specific to Fairfax County operations. The decrease is due to reduced lease and maintenance requirements based on obligations that have been met.

Partnership For Youth	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000

The Board of Supervisors first approved funding of \$50,000 for the Partnership for Youth's mentoring program in FY 2000. The Fairfax Partnership on Youth was created in 1997 as an outgrowth of the Community Initiative to Reduce Youth Violence (CIRYV). Its mission is to bring the community together to reduce youth violence and promote positive youth development. This agency seeks to reduce youth violence by facilitating a forum for public and private providers to collaborate, evaluate and create programs, activities and services to better integrate activities, fill gaps and avoid duplication of efforts in the provision of services to youth in the community.

Among the types of initiatives undertaken by the Partnership for Youth include coordination of the Fairfax Mentoring Partnership; provision of the Support on Suspension (S.O.S.) effort, a voluntary community-based program designed to provide students in grades 6-12 with an opportunity to stay abreast of academic work while out of school due to suspension; the Fairfax County After-School Network for middle school-aged youth to minimize involvement in violence or other risky behaviors; assistance to the County on youth survey analysis; youth services information to provide the community with needed resources; advocacy for youth on issues affecting them; and the Youth Suicide and Depression Prevention Task Force to study and reduce risk factors for young people.

The Fairfax County contribution for FY 2008 of \$50,000 is consistent with the *FY 2007 Revised Budget Plan* and will be used to supplement funds received from the Commonwealth of Virginia, as well as corporate and other private funding sources. In FY 2007, the Partnership received its first federal grant of \$100,000 to support a new S.O.S. site, Alternative House in the Culmore section of the County, and is seeking continued federal funding to expand that program.

In commitment proceedings, the individual against whom the commitment proceeding is brought is invariably represented by appointed counsel, while the family petitioning is rarely represented and is generally not familiar with the rules of evidence or the information required to persuade a judge to order commitment for the individual in severe mental distress. Each County resident who uses this program is assigned a supervising attorney, a third-year law student and a second-year law student to provide legal services. This funding addresses the part-time salaries of one supervising attorney and two part-time assistant supervising attorneys who work with second- and third-year law students from George Mason University Law School. Health Systems Agency of Northern Virginia	\$86,750	\$86,750	\$86,750	\$86,750	\$86,750

The Health Systems Agency (HSA) of Northern Virginia is a regional body charged with coordinating and improving the health care system for Northern Virginia. To accomplish this, the agency establishes short-term objectives and long-range goals, as well as prepares annual implementation plans. In addition, HSA promotes and assists in community-oriented planning among and within local health care systems, documents and evaluates the need for new services in the region, and reviews health service and facility capital expenditure proposals subject to certificate of public need regulation filed by health service provider organizations in the region. Member jurisdictions include the counties of Fairfax, Arlington, Loudoun and Prince William, as well as the cities of Fairfax, Alexandria, Manassas and Falls Church. Funding contributions to HSA from local jurisdictions are encouraged but are not required.

The Health Systems Agency established a per capita contribution standard of \$0.10 approximately ten years ago. Although Fairfax County has grown significantly in population since that time, the Health Systems Agency's local jurisdiction contribution requests have remained constant due to contributions from other sources. In FY 2008, revenue of \$537,141 is projected to be received from four sources: the Virginia Department of Health, \$299,991 or 55.8 percent; grants and contracts, \$48,950 or 9.1 percent; local government contributions, \$185,600 or 34.6 percent; and interest earnings and miscellaneous income of \$2,600 or 0.5 percent. In FY 2008, Fairfax County is the largest local government contributor, providing \$86,750 or 46.7 percent of the support received from the local government units.

The FY 2008 Fairfax County funding amount for the Health Systems Agency is \$86,750, which is the same level as the *FY 2007 Revised Budget Plan*.

The counties of Fairfax, Fauquier, Loudoun and Prince William, as well as the City of Alexandria established the Northern Virginia Healthcare Center Commission in 1987. Each jurisdiction is represented by a member on the Commission, which operates a long-term healthcare facility with 180 beds that opened in May 1991 known as the Northern Virginia Healthcare Center (Nursing Facility). The Northern Virginia Healthcare Center provides nursing care on a 24-hour basis, which includes professional observation, administration of medications and physician-prescribed treatments. Other services include special diets, recreational activities, physical and occupational therapy, and arrangements for physician, laboratory and radiology services.

Fund 119 Contributory Fund

The nursing facility is adjacent to the adult care residence, which is operated through an agreement with Birmingham Green Adult Care Residence. This 64-bed facility is also under the auspices of the Commission. This facility primarily provides room and board, along with assistance in activities of daily living for the aged and homeless. Nursing consultation is available and medical services are arranged either through the staff of the nursing home or other community services. Residents are admitted based on sponsorship by their jurisdiction's Public Welfare/Social Services Department. The adult care residence is a shelter for the aged and homeless who are indigent but self-sufficient, mobile and independent in their activities. The combined facilities are commonly known as Birmingham Green.

Construction of a 92-unit facility that will replace the original 64-bed adult care residence began in early FY 2007. Financing for the new facility was primarily provided through the U.S. Department of Housing and Urban Development. The new apartment-style facility will provide an additional 28 beds for adult care residents. It is anticipated that this expansion will open in early FY 2008.

Operating costs for the facility are partially covered through the Medicaid and General Relief programs at the maximum rates established by the state. To the degree that these funds are inadequate to cover the full costs of the operation of the facility, the sponsoring jurisdictions then subsidize the home on a user formula basis. Each jurisdiction pays for Personnel Services and Operating Expenses at a level proportionate to the number of the jurisdiction's residents at the home. Effective for FY 2008, each jurisdiction's contribution is based on its utilization average for the two previous years.

The total FY 2008 Fairfax County recommended funding for these facilities is \$1,396,691, which is an increase of \$320,608 or 29.8 percent over the *FY 2007 Revised Budget Plan*. This is primarily due to an increase in the number of assisted living beds available to Fairfax County from 19 to 26, as well as per diem increases of 14.7 percent in the subsidy rate for the adult care residence, from \$54.49 per day to \$62.50 per day, and 20.4 percent for the nursing facility, from \$19.94 per day to \$24.00 per day based on higher labor costs, as well as increases in health insurance premiums, medical supplies and utility costs.

Volunteer Fairfax is a private, nonprofit corporation created in 1975 and incorporated in the Commonwealth of Virginia. The center promotes volunteerism through a network of over 700 nonprofit agencies by mobilizing people and other resources to improve the community. Its primary goals are: to assist private nonprofit and public agencies in developing strong, efficiently managed organizations and volunteer programs; to increase corporate and citizens' direct involvement in the community; to provide programs and services through partnerships that contribute to the resolution of community issues; and to increase the public's awareness of both the need for and the benefits of volunteer service to the community. The scope of the center's work also includes active participation in emergency preparedness activities and coordination through its support of the Citizen Corps, the County's Emergency Management Coordinating Council and Emergency Operations Center, the Northern Virginia Voluntary Organizations Active in Disaster, and the Metro Coalition of Volunteer Centers. Volunteer Fairfax responded to the Huntington Flood in June 2006 by mobilizing approximately 200 volunteers for a community clean-up day and played a key role in the County's response to this emergency situation.

As part of the FY 2007 Adopted Budget Plan, the Board of Supervisors increased the County's contribution to this organization by \$20,000, from \$282,247 to \$302,247 in order to provide additional staff support for the agency's Alternative Community Service (ACS) Program. The ACS Program works collaboratively with the County to divert individuals from incarceration by placing and monitoring court-referred clients in nonprofit and public agency community service positions. Funding supports the salary costs associated with a part-time case manager position to address a substantial increase in the number of clients referred to the ACS Program.

Fund 119 Contributory Fund

The center receives funding from Fairfax County as its sole local government source. In addition to the annual contribution, Fairfax County provides in-kind office space to the center at 10530 Page Avenue, the value of which is estimated to be \$44,000. The Fairfax County FY 2008 funding amount for this agency is \$305,247, which is increase of \$3,000 or 1.0 percent over the *FY 2007 Revised Budget Plan* to address the loss of in-kind hosting of the Citizen Corps Council Web site and database. Through 2006, almost 7,000 citizens have registered through this Web site and have been referred to Citizen Corps programs.

Established in 1964, the Arts Council of Fairfax County is a private, nonprofit organization whose goals are to encourage, coordinate, develop and meet the needs of County residents and organizations for cultural programs. It develops and maintains a broad range of visual and performing arts programs designed to contribute to the growth of an integrated area-wide cultural community. It also supports and encourages the development of local artists and organizations by providing opportunities to reach new audiences through participation in Arts Council-sponsored activities.

The FY 2008 Fairfax County contribution of \$220,602 for this agency is an increase of \$3,996 or 1.8 percent over the *FY 2007 Revised Budget Plan* of \$216,606 in order to fund the County's share of salary adjustments. The County's contribution represents 22 percent of the total projected revenue of \$991,202. Other revenue sources include the Fairfax County Arts Group funding, \$120,000; the Virginia Commission Challenge Grant, \$30,500; the Virginia Commission Government Grant, \$5,000; contributions and other grants, \$270,000; membership fees, \$20,000; program fees, \$275,000; equipment/space rental, \$18,000; video production, \$30,000; interest, \$2,000; and other miscellaneous charges, \$100. Fairfax County made its first contribution to the Udvar-Hazy Center of the Smithsonian Institute's Dulles Air and Space Museum in FY 2000 and has provided a total of \$2,100,000 through FY 2007. Since the museum opened in December 2003, over 3.6 million people have visited the center, which brings income to the area. A sample showed that nearly 9 percent of visitors to this facility come from abroad, while 45 percent of the domestic audience drove over 100 miles to visit the center. This translates into overnight stays in the region, with the increased likelihood of visits to other nearby attractions.

Education is a vital part of the mission of the Center. There are classrooms and expanded programs for educators and students, particularly those from Fairfax County. The goal is to teach young people about America's aviation and space heritage, and emphasize the importance of technology.

The FY 2008 funding included for the Dulles Air and Space Museum is \$240,000, which is consistent with the *FY 2007 Revised Budget Plan*. The County's FY 2008 contribution will support the construction of Phase II of the Center, which will include the Restoration Hangar, the Archives and Collections Processing Center, and the Collections Storage area. The total cost to construct Phase II is approximately \$45 million, with over \$31 million secured to date.

During adoption of the FY 2005 Budget, the Board of Supervisors approved funding of \$240,000 to support construction of the U.S. Army Museum at Fort Belvoir in the southeastern part of Fairfax County. The capital campaign to raise \$200 million in private funds has been underway, managed by the Army Historical Foundation, a nonprofit organization dedicated to preserving the Army's heritage. The museum is expected to draw approximately 750,000 to 1 million visitors annually when it opens. The museum will feature unique educational programs and resources in the areas of technology, history, geography, political science, engineering and civics for students of all ages. The opening date is now tentatively set for June 14, 2012, a year later than previously anticipated.

All of the branches of the military either already have a centralized museum, or are in the process of building one. The Air Force Museum is at Wright-Patterson Air Force Base, Ohio; the Navy Museum is at the Washington Navy Yard; and the U.S. Marine Corps opened its National Heritage Center at Quantico Marine Base, less than 20 miles south of Fort Belvoir in Prince William County in November 2006. Lorton Arts Foundation	\$500,000	\$0	\$1,000,000	\$1,000,000	\$1,000,000

As part of the *FY 2005 Carryover Review*, the Board of Supervisors approved \$500,000 to support the Lorton Arts Foundation (LAF) financing and capital renewal plan for operation of a center for the arts at the former Lorton Prison site. The Board had previously approved the negotiation of a lease of the former prison site with the Foundation, which proposed to use funds generated by leasing the various facilities to individual

Fund 119 Contributory Fund

artists and performing arts groups. The Foundation's plan includes public restaurants, residential facilities for artists in residence, and a prison museum in addition to artist studios and a small theater.

Initially LAF believed that the project would be self-sustaining and could operate without additional resources from the County. However, after subsequent review and financial analysis by outside consultants knowledgeable in the creation and operation of facilities of this type, LAF found an underwriter willing to undertake financing of the renovations, but determined that County support would be needed during the first few years of renovation and operational start-up. LAF requested that Fairfax County provide \$1,000,000 annually as maintenance support. They also requested that the County agree to lease back a portion of the rental space if other tenants are not available, for a timeframe and lease rate to be negotiated between the County and LAF. The lease will provide for reducing or eliminating the County's cash support commensurate with the Foundation's ability to become self-sustaining.

Subsequent contributions are dependent on continuing fund-raising efforts which are evaluated each year. Funding of \$1,000,000 was approved by the Board of Supervisors as part of the *FY 2006 Third Quarter Review* for the County's FY 2007 contribution. Accordingly, \$1,000,000 is included for FY 2008 so it is available in that fiscal year when the required matching funds have been raised.

Northern Virginia Regional Park Authority	\$1,918,739	\$2,035,315	\$2,035,315	\$2,076,143	\$2,076,143

The Northern Virginia Regional Park Authority (NVRPA) is a multi-jurisdictional, special-purpose agency established to provide a system of regional parks for the Northern Virginia area. The NVRPA currently operates 19 regional parks and owns 10,257 acres of land, of which more than 7,700 acres are in Fairfax County. Parklands within the system include: Bull Run, Bull Run Marina, Fountainhead, Sandy Run, Pohick Bay, Carlyle House Historic Park, Potomac Overlook, Upton Hill, Algonkian, Red Rock, the W&OD Trail, Occoquan, Hemlock Overlook, Cameron Run, Gateway, Meadowlark Gardens, Ball's Bluff, Temple Hall and Brambleton. In addition, the NVRPA administers extensive regional historic and conservation properties throughout Northern Virginia. These community resources are supported primarily from the annual contributions of its six member jurisdictions: the counties of Fairfax, Loudoun and Arlington, and the cities of Fairfax, Alexandria and Falls Church. Each member jurisdiction's contribution is in direct proportion to its share of the region's population. In the past decade, the entire population served by the NVRPA grew to 1.6 million residents and is expected to approach 2.0 million by 2020.

Current projections indicate that \$4,997,587 will be expended from the NVRPA's General Fund and \$11,236,508 will be expended from the NVRPA's Enterprise Fund for a total of \$16,234,095 in FY 2008. The NVRPA is asking member jurisdictions for \$3,354,027, which is an increase of \$129,000 or 4.0 percent over the FY 2007 amount of \$3,225,027. For FY 2008, NVRPA projects that 79 percent of operating costs will be funded with park revenues, with the remaining 21 percent coming from member jurisdictions. Fairfax County's share for the Northern Virginia Regional Park Authority in FY 2008 is \$2,076,143, which is \$40,828 or 2.1 percent over the *FY 2007 Revised Budget Plan* of \$2,035,315.

Fairfax County comprises 60.90 percent of the total population served by this agency projected for FY 2008, which is a decrease from the 63.11 percent figure for the FY 2007 budget. Localities' contributions are based upon their percentage of the total population as provided by the U.S. Bureau of the Census. It should be noted that in addition to the operating contribution, an amount of \$2,500,000 has been included in Fund 306, Northern Virginia Regional Park Authority, as the FY 2008 annual capital contribution.

It was founded in 1996 as an educational institution to promote the social and economic vitality of Reston through a program of history-based educational activities. Since FY 2000, Fairfax County has provided annual funding of \$20,000 to the Reston Historic Trust. This contribution assists in the operational costs of the Reston Museum, located at Lake Anne Plaza. The museum, which is now in its ninth year of operation, has evolved as a focal point in the community, hosting special events, weekend programs and lectures, and providing exhibits that depict Reston's past and future.

In FY 2008, the agency will continue its efforts on education and community outreach. The County's FY 2008 contribution to the Reston Historic Trust is \$20,000, which is consistent with the *FY 2007 Revised Budget Plan*.

The Claude Moore Colonial Farm at Turkey Run, designated a historical site, is the only privately operated national park in the United States. The park's 18th Century living history family farm site authentically recreates the social, technological, environmental and cultural living conditions faced by Northern Virginians of ordinary means in 1771. For 33 years, it has offered a rare, hands-on learning experience about the basics of life, food, shelter and the environment during the Colonial period. Staff continues to enhance educational materials on colonial Virginia history and makes these materials available free on the Farm's Web site which is also available in eight different languages, making the Farm experience much more accessible to the County's diverse population. The Farm has received national recognition for its innovative educational programming, which reaches over 50,000 persons a year, including thousands of students in Fairfax County.

The FY 2008 level of support of \$31,500 is consistent with the *FY 2007 Revised Budget Plan*. This support provides a critical component in an operating budget generated primarily from weather-dependent, self-supporting programs and fundraising events. The contribution will help ensure continuation of Farm programs to Fairfax County residents – especially the Environmental Living Program, the Farm Skills Program, and school visits to the 18th Century Farm Site. The FY 2008 contribution will also assist the Farm in further developing materials that can be used in the home and classroom and adding much-needed visitor facilities at the Farm. The County's contribution represents 6.8 percent of the Farm's projected revenue of \$461,000 for FY 2008. Other revenue sources include program fees, pavilion rentals, membership dues, endowment income, contributions from the National Park Service and private donations.

The Vienna Teen Center is operated by the Town of Vienna Parks and Recreation Department. The Center, known as Club Phoenix, provides local teenagers with positive, supervised recreational and educational programs and activities. The County's contribution assists the Town of Vienna in the operation and improvement of the Center, and helps provide funding for programs, staffing and the purchase of materials and other supplies.

The Board of Supervisors first approved \$40,000 in funding for the Teen Center in FY 2001. The amount included \$20,000 to supplement operational expenses at the Center including the purchase of capital equipment and \$20,000 for the expansion of teen programs, activities and special events, as well as the staff required to plan, implement and supervise the expanded operations. The FY 2008 contribution of \$40,000 represents 26.0 percent of the Center's projected expenditure and revenue requirements of \$154,093 and is consistent with the *FY 2007 Revised Budget Plan*.

The Virginia Opera Company fosters appreciation of the arts through a variety of educational programs offered to school children. It has grown in recent years to become the eighteenth largest opera in the nation, based on budget and due in large part to its operations in Fairfax County. In the current 2006-2007 season, the Virginia Opera Company will present four fully staged operas at the George Mason University Center for the Arts. It anticipates continuing that level for FY 2008. Furthermore, the Virginia Opera's education program provides County students with access to age-appropriate opera presentations at their schools. In FY 2006, 57 performances were presented to public schools in Fairfax County.

The Virginia Opera Company first received a County contribution of \$25,000 in FY 1999. The FY 2008 contribution for the Virginia Opera Company continues that level of funding, which is also consistent with the *FY 2007 Revised Budget Plan*. The contribution represents approximately 2.8 percent of the Opera Company's projected revenue of \$892,071 for FY 2008.

A private/public partnership was established in 1968 between the Wolf Trap Foundation and the National Park Service for the operation of the Wolf Trap Farm Park for the Performing Arts in Vienna, Virginia. The partnership was founded through a gift of land to the United States Government. The National Park Service maintains the property and conducts parking and audience management.

The Foundation, with a \$26.8 million budget, is responsible for all other aspects of running the facility, including the presentation of a wide variety of performances and educational programs. Foundation programs reach approximately 600,000 people in Fairfax County each year at two sites: the Filene Center, a 7,000-seat outdoor amphitheater in a park-like setting, and the Barns of Wolf Trap, two 18th Century barns reconstructed at Wolf Trap using original building materials and techniques.

In FY 1999, Fairfax County began contributing \$25,000 to Wolf Trap to support the Foundation's efforts to provide Fairfax County citizens with access to the best possible performing arts, as well as position Fairfax County nationally as a leader in the arts and arts-in-education. The amount is not based on a formula, per capita, or any other formal agreement. As part of their deliberations on the FY 2005 budget, the Board of Supervisors approved an increase in the annual contribution from \$25,000 to \$125,000 to support education programs. The FY 2008 contribution remains at \$125,000.

There are now 13 Historic Overlay Districts, with the potential for several more. The BOS frequently requests advice on the preservation of historic structures as part of the County's development review process and the Open Space and Historic Preservation Easement program.

The ARB is comprised of 11 members who have demonstrated knowledge and interest in the preservation of historical and architectural landmarks. The amount funded for FY 2008 is \$3,500, which is consistent with the *FY 2007 Revised Budget Plan*.

Celebrate Fairfax, Incorporated was formed to develop educational or entertainment products, services and events that promote a sense of community among those who live or work in Fairfax County and to coordinate the annual Fairfax Fair. This urban fair symbolizes unity among the civic, business and governmental sectors and demonstrates how public and private partnerships can work together to provide the best for the residents of Fairfax County at a low cost. The Corporation also produces "Fairfax Fine ArtsFest," first introduced in 2003, as well as "Fall for Fairfax," Fairfax County's annual environmental festival sponsored by the Fairfax County Board of Supervisors.

An amount of \$28,289 is funded for FY 2008 for clean-up costs associated with the Fairfax Fair pursuant to the Memorandum of Agreement between the County Board of Supervisors and Celebrate Fairfax, Inc. This amount represents an increase of \$413 or 1.5 percent over the *FY 2007 Revised Budget Plan* of \$27,876 and is attributable to increased costs associated with the collection and disposal of waste tonnage collected at the Fairfax Fair. It should be noted that Celebrate Fairfax, Inc. also receives a high level of community and corporate support, both financial and in-kind. It is anticipated that the Corporation will also continue to receive significant in-kind support from various County agencies in FY 2008 for the Fair.

In FY 2006, the Commission enhanced a *Living Health Calendar* that focused on tips for ensuring healthy lifestyles and was printed in both English and Spanish. The Commission also planned and implemented the second annual Women's Voices Forum that allowed participants throughout Northern Virginia to discuss issues affecting women in society, as well as provide suggestions for further development of policies concerning preventive health, domestic violence, personal safety, financial fitness, elder care and work.

The total FY 2008 Fairfax County contribution to the Commission for Women is \$6,916, which is consistent with the *FY 2007 Revised Budget Plan*.

Convention and Visitors Corporation	\$2,000,000	\$2,425,522	\$3,016,323	\$2,717,701	\$2,717,701

As a result of enabling legislation approved by the 2004 General Assembly, the County was granted the authority to impose an additional two percent Transient Occupancy tax beginning July 1, 2004. As required by the new legislation, no less than 25 percent of the additional revenue is to be designated for and appropriated to a nonprofit Convention and Visitors Corporation located in Fairfax County.

The mission of the Convention and Visitors Corporation, known as Visit Fairfax, is "to create and effectively market exciting products, programs and activities that will distinguish Fairfax County as a premier tourism destination." Visit Fairfax is a 503(c)(3) organization with 25 board members appointed by the Board of Supervisors and the tourism industry.

FY 2008 funding of \$2,717,701, a decrease of \$298,622 or 9.9 percent from the FY 2007 amount based on an adjustment made to the FY 2007 revised allocation to recognize additional FY 2006 revenue, supports the nonprofit Convention and Visitors Corporation in its efforts to attract travelers to the County and generate tourism revenues in the County. This is based on projected Transient Occupancy tax collections associated with the additional two percent authorized for this purpose.

There are 20 members who are appointed by the Board of Supervisors for three-year terms and who may be reappointed. The Commission engages in educational, preservation and research activities to promote interest in the County's historical past and also provides advisory and liaison services to ensure preservation of historic County records and sites. Major programs include: educational activities, cooperative ventures with local universities in implementing history programs, liaison functions with state/national historic preservation organizations, historic record indexing projects, archaeology programs and expansion of photographic archives.

The GRCC's Incubator Program assists entrepreneurs in developing high-growth businesses in various sectors of the regional economy including technology, government services and supporting industries. The program provides business services, technical support and physical space to help emerging businesses grow. Job creation and increased regional prosperity are the program's primary goals. This volunteer-driven program has helped 41 companies over the past six years, produced 32 graduates, created over 160 jobs in the region, attracted \$30 million in investment, and occupied in excess of 52,000 square feet of commercial space in Fairfax County.

It should also be noted that funding of \$25,000 was previously included for the GRCC Incubator Program in the Economic Development Authority budget, but as of FY 2007, funding is now included in Fund 119 as this organization more appropriately fits the status of a contributory agency.

Northern Virginia Community College	\$95,894	\$94,196	\$94,196	\$93,733	\$93,733

Northern Virginia Community College (NVCC) is a comprehensive institution of higher education offering programs of instruction generally extending not more than two years beyond the high school level. The College currently has six campuses (Alexandria, Annandale, Loudoun, Manassas, Springfield for medical education and Woodbridge) with permanent facilities constructed on each site. Each year, the College serves more than 60,000 students in credit-earning courses and more than 20,000 students in continuing education and training activities.

NVCC projects FY 2008 expenditures of \$190,632 for base operating requirements to be funded with \$187,429 from local jurisdictions and \$3,203 carried over from FY 2007. This amount includes \$177,192 for General Administration (President's Office, College Board travel and memberships, student scholarships, loans, and grants), \$12,000 for Community Services (community information), and \$1,440 for a contingency reserve. The base, which is funded by the governing bodies of the local jurisdictions served by the College, as well as any fund balances, supports additional services that cannot be provided under the College's annual state fiscal appropriations. For example, local funding provides for increased matching loan funds and support of community service activities. This local funding is for Operating Expenses only and is not applied toward Personnel Services. The local jurisdictions served by the College are requested to contribute their share of the College's base expenditure, which is calculated on a per capita basis as reported by the College using population figures from the Weldon Cooper Center for Public Service.

The FY 2008 Fairfax County contribution to this agency for operations and maintenance is \$93,733, a decrease of \$463 or 0.5 percent, due primarily to shifts in population among the contributing jurisdictions. This amount reflects the County's share of the services provided to Fairfax County residents as reported by the College and is 50 percent of the local jurisdictions' contributions totaling \$187,429 for FY 2008.

In addition, County funding of \$1,022,100 will be included in Fund 303, County Construction, for an annual capital contribution to the College based on a \$1 per capita population figure provided by the Weldon Cooper Center. Funding provides for the continued construction and maintenance of various capital projects on college campuses within the NVCC system.

Northern Virginia Conservation Trust	\$258,120	\$266,380	\$266,380	\$275,437	\$275,437

During their deliberations on the FY 2001 Advertised Budget Plan, the Board of Supervisors funded a non-recurring (one-time) amount of \$209,076 for the Northern Virginia Conservation Trust (NVCT) (formerly the Fairfax Land Preservation Trust). An amount of \$170,000 was funded to enable the County to further its conservation efforts and meet public need without creating new County positions. This amount included \$80,000 for land costs/purchases directly related to conservation easements, \$45,000 for public outreach funding to support staff and material for educating the public about conservation, and \$45,000 for administrative support for staff and materials for the management of Fairfax County conservation efforts. It was anticipated that the contribution amount would be partially matched by approximately \$75,000 in other contributions to the Trust in FY 2001. The County's total contribution also included \$39,076 that was paid to the Park Authority to eliminate the balance of a loan obligation associated with seed money for the Trust and office space provided by the Park Authority.

The primary purpose of the public/private partnership between NVCT and Fairfax County is for NVCT to assist the County in the preservation of natural areas and historic properties through the use of conservation/open space easements, land gifts and acquisition of open space. The Trust is also tasked with educating the public on the importance of conservation and the County's abundant natural resources through outreach programs. Through this partnership, NVCT has been able to permanently conserve over 568 acres in Fairfax County, recording 29 conservation easements, and attracting five fee-simple land gifts and one land purchase. The most notable recent easement was the joint effort with the County to preserve 41 acres of historic Salona in McLean.

The Trust also operates an "Adventures in Conservation" outreach program to bring hands-on volunteerism and environmental education opportunities to the public. In FY 2007, these activities include planting thousands of native trees, removing invasive plants, and conducting birding trips and guided hikes. FY 2008 funding of \$275,437 is included, which is an increase of \$9,057 or 3.4 percent over the *FY 2007 Revised Budget Plan* of \$266,380.

Northern Virginia Soil and Water Conservation District	\$524,548	\$509,404	\$514,917	\$470,263	\$470,263

The Northern Virginia Soil and Water Conservation District (NVSWCD) is an independent subdivision of the Commonwealth of Virginia to provide leadership in the conservation and protection of Fairfax County's soil and water resources. It is governed by a five-member Board of Directors, three of whom are elected every four years by the voters of Fairfax County and two who are appointed by the Virginia Soil and Water Conservation Board. Accordingly, the work of NVSWCD supports many of the environmental efforts set forth in the Board of Supervisors' Environmental Excellence 20-year Vision Plan. Technical assistance and information are provided to state and local government agencies as well as private citizens. The goal of the NVSWCD is to continue to improve the quality of the environment and general welfare of the citizens of Fairfax County by providing them with a means of dealing with soil, water conservation and related natural resource problems. It provides County agencies with comprehensive environmental evaluations for proposed land use changes with particular attention to the properties of soils, erosion potential, drainage and the impact on the surrounding environment.

In FY 2001, Fairfax County entered into a partnership with the NVSWCD to support the cost of soil mapping the southeastern portion of the County. Under the agreement, the U.S. Department of Agriculture's Natural Resource Conservation Service (NRCS) provided a survey team. However, a delay in finalizing the agreement

Fund 119 Contributory Fund

with the NRCS resulted in the actual expenditures not beginning until FY 2003. Over the past four years, Fairfax County has invested over \$750,000 to complete and entirely update the County's Soil Survey so that it is accurate, reliable and certified to the standards of the NRCS and the National Cooperative Soil Survey. In order to ensure that this valuable resource is used appropriately and effectively, the ongoing expertise of a soil scientist is needed. Subsequently, \$79,435 has been included for FY 2008 in addition to the County's base contribution to integrate the new survey maps and information into the County's Geographic Information System (GIS); create County-specific ratings for the new soils; identify necessary changes to County code; train County staff who deal with soil issues on the use of the new survey; educate the private sector on the new soil survey information and its use; and develop a process for maintaining and updating the soil survey as land uses change.

NVSWCD projects FY 2007 expenditures of \$509,808, for its base operating requirements. The FY 2008 County share for base operating requirements is \$390,828. With \$79,435 for the Soils Survey Project described above, the FY 2008 County contribution totals \$470,263 or 79.8 percent of the agency's expenditures totaling \$589,243. This represents a net decrease of \$44,654 or 8.7 percent from the *FY 2007 Revised Budget Plan*. In addition to County support, NVSWCD has been successful in leveraging state, federal, private and volunteer resources to benefit natural resources in the County. Other revenue sources include grants, interest and other miscellaneous revenues, as well as a beginning balance of \$161,216.

This educational and recreational complex for youth and adults residing in Northern Virginia is located in Front Royal, Virginia. County funding will be used toward capital improvements such painting and repairs to lodges, and making major swimming pool repairs, as well as striping all parking lots. The County contribution also helps minimize camping fees so more young people can attend.

The total FY 2008 Fairfax County funding included for this agency is \$25,000, which is consistent with the *FY 2007 Revised Budget Plan*.

The Occoquan Watershed Monitoring Program (OWMP) and the Occoquan Watershed Monitoring Laboratory (OWML) were established to ensure that water quality is monitored and protected in the Occoquan Watershed. The cost of the OWMP is equally divided between water supply and sewage users. As a result, 50 percent of Operating Expenses is supported by the Fairfax County Water Authority and 50 percent by the participants: Fairfax, Fauquier, Loudoun and Prince William counties, and the cities of Manassas and Manassas Park. The Watershed Monitoring Program Funding Agreement of 1988 requires that Fairfax County provide 12.5 percent of the direct costs.

Given the many diverse uses of the land and water resources in the Occoquan Watershed (agriculture, silviculture, urban residential development, commercial and industrial activity, water supply, and wastewater disposal), the OWMP provides a critical role as the unbiased interpreter of basin water quality information.

Fund 119 Contributory Fund

The total amount included for Fairfax County's FY 2008 share is \$113,787 based upon agency expenditures. This represents an increase of \$7,152 or 6.7 percent over the *FY 2007 Revised Budget Plan* of \$106,635. In addition, it should be noted that with the waiver of the agency's budgeted indirect costs by Virginia Tech, the Fairfax County contribution represents 10.1 percent of the agency's total budget.

Police and Fire World Games	\$25,000	\$0	\$50,000	\$0	\$0

As part of the *FY 2005 Carryover Review*, the Board of Supervisors approved \$25,000 in non-recurring funding as seed money for an organization comprised of representatives from the Police and Fire and Rescue Departments, the Office of the Sheriff, Convention and Visitors Corporation, among others, to prepare a bid to host the 2013 Police and Fire World Games. It was intended to enable preparations for a September 2006 site visit to Fairfax County by members of the World Police and Fire Games Federation to evaluate the County's potential as a future host site. It was anticipated that if the County was selected, it would generate considerable revenue through the thousands of visitors that would come to Fairfax County for the Games and stay in local hotels, as well as eat and shop at County establishments.

Following a September 2006 site visit, the County was subsequently notified that the World Police and Fire Games Federation narrowed its selection to the two European countries. As a result, the County team will focus its efforts on the 2015 games and plans to return \$25,000 to the County.

When the Board approved an additional contribution of \$50,000 as part of the *FY 2006 Carryover Review*, it was with the intent that this funding will be used to attract additional contributions from the private sector; therefore, no funding is included for FY 2008.

Southeast Fairfax Development Corporation	\$184,641	\$190,550	\$190,550	\$198,363	\$198,363

The Southeast Fairfax Development Corporation (SFDC) is a private, nonprofit organization that operates under a Memorandum of Understanding between the Fairfax County Board of Supervisors and the SFDC. For almost 25 years, the Corporation has promoted, encouraged, facilitated and guided economic development and revitalization on the 7.5 mile length of Richmond Highway from the Capital Beltway to Fort Belvoir, the largest of the County's seven designated revitalization areas. It provides marketing and promotion aimed at business attraction and retention; direct assistance to developers and businesses; and to a lesser degree, land use planning and coordination with the Richmond Highway community. It is this community consensus that makes revitalization/redevelopment possible. SFDC is committed to improving the quality of life, creation and retention of jobs, community appearance and increased tax base. Its 18-member volunteer Board of Directors is representative of the community.

Total private investment in Richmond Highway in CY 2005-2006 is estimated at over \$627 million. SFDC continues to foster growth in existing businesses, while simultaneously promoting the physical renovation of the area through initiatives involving beautification, developmental planning, and ongoing market studies and needs assessments. SFDC sees an even greater need for its services as a result of the Department of Defense's (DoD) Base Realignment and Closure (BRAC) recommendations announced in May 2005. It is anticipated that over 22,000 DoD employees will be redeployed to Fort Belvoir and the Engineer Proving Grounds, with an additional 20,000 government contracting jobs also expected to relocate to the area.

The total FY 2008 Fairfax County contribution for SFDC is \$198,363, which represents an increase of \$7,813 or 4.1 percent over the *FY 2007 Revised Budget Plan* based on the CPI-U Index.

VPI/UVA Education Center	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000

In FY 1995, Fairfax County entered into an agreement with the City of Falls Church, the Virginia Polytechnic Institute and State University (VPI), and the University of Virginia (UVA) to provide support for a new Education Center to be constructed in Falls Church. As part of this agreement, the Board of Supervisors agreed to waive all development/regulatory fees and costs, and provide review and inspection services necessary for the development of this center. In addition to one-time FY 1996 sewer availability and connection charges of \$70,881, the County agreed to contribute an annual amount of \$50,000 toward the facility, to be paid each year for 20 years, commencing in FY 1995. The total value of this 20-year contribution will be \$1,000,000.

The total FY 2008 Fairfax County contribution for the VPI/UVA Education Center is \$50,000, which is consistent with the *FY 2007 Revised Budget Plan*.

Women's Center of Northern Virginia	\$29,942	\$29,942	\$29,942	\$29,942	\$29,942

The Women's Center is a private, nonprofit organization that provides personal and professional development services to women in Northern Virginia. Since FY 1978, the Board of Supervisors has contributed to this center in order to provide free or sliding-fee scale services to Fairfax County female residents who are unemployed, separated, abandoned or divorced, and the head of a household. Services include individual and group workshop sessions for women covering such areas as divorce, separation, financial planning and legal rights. It is anticipated that in FY 2008, 60 percent of requests for service will come from Fairfax County residents.

In FY 2008, the Center anticipates receiving approximately 55,000 requests for services from County residents to meet the interrelated psychological, practical, legal and financial needs of these County residents, many of whom are financially disadvantaged and require low-cost services. Access to these services enables community members to become self-sufficient and ultimately more productive community members.

The total FY 2008 Fairfax County contribution included for this agency is \$29,942, which is consistent with the *FY 2007 Revised Budget Plan*.

During deliberations on the FY 1999 Advertised Budget Plan, the Board of Supervisors first approved recurring funding in the amount of \$4,000 for membership fees in the Washington Area Housing Partnership. This contribution represents membership fees in the Washington Area Housing Partnership, a component of the Metropolitan Washington Council of Governments (COG). This organization is a regional, public/private housing partnership that addresses housing issues in the Washington Metropolitan Area. The Partnership undertakes a neighborhood initiative in each of the Northern Virginia, DC, and suburban Maryland regions annually.

No funding is required for this organization for FY 2008 as COG has indicated it will be funded by general membership dues in the coming fiscal year.

Washington Area Housing Trust Fund	\$31,665	\$32,016	\$32,016	\$32,874	\$32,874

As part of their deliberations on the FY 2005 budget, the Board of Supervisors approved funding of \$31,442 to provide a contribution to the Washington Area Housing Trust Fund (WAHTF). The general membership of the Council of Governments (COG) recommended that local governments support a voluntary per capita assessment of \$0.03 to fund WAHTF operations. Capital support is provided through the federal government and private sector grants. Operational funding provided by area local governments will be leveraged to attract capitalization dollars. It also allows the trust fund to loan money at a highly subsidized rate, which helps to lower the cost of housing in this region.

During a 2006 strategic planning process, WAHTF realized that its lending was not having a significant enough impact on regional affordable development and that there were opportunities to merge with another successful community development financial institution, the Unitarian Universalist Affordable Housing Corporation in order to maximize efficiency and both organizations' impact. In October 2006, boards of both organizations, which included representation by Fairfax County, approved combining both into one, which will be renamed in the near future.

WAHTF's mission, however, will remain unchanged, which is to provide flexible capital from a variety of sources including government, philanthropic and corporate entities to increase the supply of affordable and workforce housing for low and moderate income households and housing for various special needs populations in the Washington metropolitan area; to positively impact the delivery of affordable housing finance in this region; and provide technical assistance to help potential borrowers obtain financing and successfully complete affordable housing development.

In FY 2008, Fairfax County's share for the WAHTF is \$32,874, an increase of \$858 or 2.7 percent over the *FY 2007 Revised Budget Plan*.

Wildlife Rescue League	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000

The Wildlife Rescue League (WRL) is a non-profit organization that provides care for sick, injured and orphaned wildlife in order to return them to the wild. Its volunteers work with licensed rehabilitators throughout Virginia and suburban Maryland, as well as with animal shelters, humane societies, wildlife groups, nature centers and veterinary hospitals to provide care. Approximately 75 percent of the calls received are from Fairfax County residents. The WRL is entirely run by volunteers and has no paid staff.

The WRL operates a hotline in Northern Virginia and surrounding areas to assist the public in obtaining information and help in locating a wildlife rehabilitator. They also educate the public about the natural history of native wildlife and how to coexist with it, as well as how to prevent the need for wildlife rehabilitation.

As part of the *FY 2004 Carryover Review*, the Board of Supervisors first approved funding of \$10,000 for this organization. The FY 2008 contribution remains at that level.

Fairfax Public Law Library	\$57,657	\$57,657	\$57,657	\$92,657	\$92,657

The mission of the Fairfax Public Law Library is to promote justice by providing all citizens with access to legal information. The legal resources available in the Law Library are not available to the public at any other single location within the County. In 2001, Fairfax County, the Clerk of the Court, and the Fairfax Bar Association (FBA) entered into an agreement with regard to the Law Library. The agreement provides that Fairfax County, through the Fairfax County Public Library (FCPL), shall have primary responsibility for the administration of the Law Library, while the FBA has primary responsibility for its management.

The Law Library receives over 66 percent of its funding from assessments of \$4 on civil case filings in the General District and Circuit Courts. This is projected at \$195,800 in FY 2008. The annual contribution of \$92,657 from the County is provided to assist the Law Library with operational costs. Other revenue projected for FY 2008 includes \$20,000 from the Fairfax Bar Foundation, \$400 from the Friends of the Law Library, \$18,600 earned for Library services including copier charges, and \$1,600 in miscellaneous income for a total of \$329,057.

Currently located in the Fairfax County Judicial Center, the Fairfax Public Law Library assists the public as well as members of the legal community with locating sources for legal information and provides bibliographic instruction. In addition to the collection, the Law Library has four work stations dedicated to providing general information on divorce, immigration, estate planning and employment for patrons, as well as five computer work stations where the public may access legal materials on CD-ROMs and online databases. In recent years, the Law Library has decreased its printed materials and increased subscriptions to online databases as a result of decreased filing fees.

In FY 2007, the Law Library will move from its current location to the the first floor of the expanded court house facility, due to be completed in April 2007. The Fairfax Public Law Library anticipates that it will serve over 60,000 patrons in FY 2008, approximately 46 percent of whom are legal professionals, while the remaining 54 percent are from the general public. Many are in need of legal information because they are unable to afford legal representation but do not qualify for free legal services.

The total FY 2008 Fairfax County funding for this agency is \$92,657, which is an increase of \$35,000 over *FY 2007 Revised Budget Plan* in order to provide additional Law Library reference materials to meet increased demand from a growing population and the opportunity associated with the expanded Judicial Center.

The FY 2006 Ending Balance of \$1,246,365 included \$1,000,000 for the Lorton Arts Foundation, which was carried over for payment in FY 2007 upon demonstration of successful fundraising.

Fund 703 - NOVARIS

Non-Appropriated Funds

Fairfax County exercises a fiduciary responsibility for the financial management and operation of the Northern Virginia Regional Identification System (NOVARIS). Therefore, this fund is displayed here for information. Participating Washington Metropolitan Area jurisdictions share costs associated with NOVARIS based on the sworn police population of each jurisdiction as approved by the NOVARIS Advisory Board on July 30, 1997. In FY 2008, Montgomery and Prince George's Counties will no longer participate in NOVARIS, as those jurisdictions are joining a Maryland regional fingerprint system. However, it is anticipated that Loudoun County and the Virginia State Police will join NOVARIS in FY 2008.

The Fairfax County contribution is made through the Contributory Fund. The total Fairfax County FY 2008 contribution is \$159,321. The total contribution consists of \$107,924, which represents the County's annual share of costs associated with operations and upgrades of NOVARIS and \$51,397 in funding for lease agreements and other costs associated with equipment that is specific to Fairfax County operations. The NOVARIS Fund Statement is shown on the next page.

NOVARIS utilizes state-of-the-art computer equipment to identify criminals by categorizing and matching fingerprints. It enables police to match a fingerprint found at the scene of a crime with any individual who has been arrested in the Washington metropolitan area by comparing the print or partial print with all prints in the database. In FY 2006, 63,250 fingerprint cards were entered into the system and the database, which helped to identify 700 aliases, 20 wanted individuals, and over 9,000 fingerprints.

A new Automated Fingerprint Identification System (AFIS) will be installed in FY 2007 that will have enhanced technologies, including palm print and facial recognition capabilities. Funding of \$8.65 million has been secured through an Urban Areas Security Initiative grant to cover the cost of AFIS system replacements for the National Capital Region, including for NOVARIS, the District of Columbia, as well as Prince George's County and Montgomery County. This funding is shown in Fund 102, Federal/State Grant Fund, and is reflected in the *FY 2007 Revised Budget Plan* amount for Emergency Preparedness Expenditures found on the fund statement for Fund 102 Federal/State Grant Fund. For further information, please refer to the Fund 102, Federal/State Grant Fund narrative in the Special Revenue section of Volume 2.
