

Community Development

PROGRAM DESCRIPTION

Community Development includes Athletic Field development and maintenance, community center construction and renovations and federal funding for development of ongoing capital improvement projects in designated Conservation Areas. These projects, which include various types of improvements, such as community centers, recreational areas, handicapped accessibility improvements, storm drainage, road, sidewalk and street lighting improvements and housing rehabilitation, are designed to revitalize and preserve low and moderate income neighborhoods as affordable, decent places to live and as a housing resource for the County's low and moderate income population.

LINK TO THE COMPREHENSIVE PLAN

Fairfax County's Comprehensive Plan has established a number of objectives and policies in order to:

- ✓ Facilitate improvement and maintenance of existing neighborhoods and preserve existing affordable housing by initiating community development programs where needed.
- ✓ Design facilities to promote and enhance the community identity of existing character.
- ✓ Maximize the use of existing public facilities, including public schools, for community recreation purposes.
- ✓ Locate senior centers in or near residential areas and co-locate affordable elderly housing with senior centers conveniently located to public transportation and community services.
- ✓ Provide new co-located facility for Lorton Community Action Center and Lorton Senior Center.

Source: 2007 Edition of the Fairfax County Comprehensive Plan, as amended

CURRENT PROGRAM INITIATIVES

In recent years, the Board of Supervisors has identified the maintenance and development of Athletic Fields at Fairfax County Schools and Park Authority properties as a critical requirement. In FY 2006, the Board approved the implementation of an Athletic Services Fee dedicated to enhanced maintenance of school athletic fields, the implementation of synthetic turf fields and custodial support for indoor sports organizations. A significant General Fund contribution to Athletic Field maintenance is approved annually as well. Other Community Development programs include public improvement projects, which are targeted at specific neighborhoods known as conservation areas, as well as development and renovation of Community Centers.

Athletic Field Maintenance

In recent years, a significant effort has been made to maintain quality athletic fields at acceptable standards and improve safety for users. Maintenance of athletic fields includes: field lighting, fencing, irrigation, dugout covers, infield dirt, aeration and seeding. Maintenance efforts also include a consistent mowing frequency schedule, and a maintenance schedule for recently completed irrigation and lighting projects. Athletic field maintenance is funded by the General Fund and is supplemented by an Athletic Services Fee. Revenue from this fee is dedicated to enhanced maintenance of school athletic fields, the implementation of synthetic turf fields and custodial support for indoor sports organizations. These maintenance efforts will improve safety standards, enhance playing conditions and increase user satisfaction.

As noted above, the County has been involved in implementation of synthetic turf fields. The fall 2006 Park Bond Referendum provided \$10 million for up to 12 synthetic turf fields. To date, 20 fields have been completed using a combination of 2006 Park Bonds, athletic service fees, General County Funds, proffers and community contributions. The completed fields include: Lake Fairfax (2 fields), Poplar Tree (2 fields), South Run (2 fields), Carl Sandburg (1 field), Franconia Park (1 field), Bryant Center (1 field), Nottoway Park (1 60' diamond field), Spring Hill Park (2 fields), Eleanor C. Lawrence (1 field), Hutchinson Elementary (1 field), Lewinsville (1 field), Mason District Park (1 field), Patriot Park (1 field), Wakefield Park (1 field), Braddock Park (1 field) and Waters field in Vienna (1 field). The cost of one field is currently estimated on average at \$800,000. Turf fields are estimated to have an 8 -12 year life cycle, with field use every day. As more synthetic turf fields are added to the current field inventory, it will become increasingly more important to develop a replacement fund for these fields.

Neighborhood Plans for Conservation Areas

Conservation plans have been adopted by the Board of Supervisors for 15 neighborhoods, of which nine are currently designated. In addition, three redevelopment plans and three rehabilitation districts have been approved. The Board has also approved 31 neighborhood plans under the Community Improvement Program. Improvement planning and coordination of these neighborhood projects and other identified target areas are carried out on a continuing basis by the Department of Housing and Community Development (DHCD), working with neighborhood residents. Public improvement projects have been completed, are underway or are in planning for some of the neighborhoods. These projects include road and storm drainage improvements in the Bailey's and Jefferson Manor Conservation Areas. CDBG funds, as well as funds from other sources, are also made available in the form of low-interest loans to eligible low and moderate income homeowners for repairs and improvements to their homes located throughout the County.

Recreation Facilities for Teens and Elderly

The Department of Community and Recreation Services (DCRS) operates several community centers in the County, which provide leisure time activities, as well as various programs and services, to residents. These centers offer teen and adult clubs, athletic teams, hobby and adult education classes and various activities and programs for senior residents of the County. The centers also provide assistance in organizing clubs, aiding community groups and providing speakers and/or slide presentations on departmental programs. In some cases, community centers house senior centers, usually at a neighborhood level.

Senior centers are also located in park facilities, as stand alone facilities, as well as in former and active schools. Depending on the level of services provided, the facilities vary in size from 700 to 22,368 square feet of space. The need for senior centers is determined through an analysis of the size and density of the existing and projected older populations in relationship to geographic accessibility, the location of major travel corridors and the availability of sites. In 1988, the Board of Supervisors adopted in concept a Senior Center Study which identified future sites for senior centers and adult day health care centers, and specified that services be provided to elderly residents on a neighborhood, community, regional and Countywide basis. The hierarchy of services outlined in the Senior Center Study is as follows:

- ✓ Regional Senior Centers are located on the periphery of residential areas or in commercial/retail areas accessible to nearby communities. The facilities range from 29,000 to 36,000 square feet and serve 220 to 340 participants daily, including collocated day health care services provided by the Department of Health for residents in a seven-mile radius.
- ✓ Community Senior Centers, located in residential areas within a three-mile service area radius, range in size from 10,000 to 15,000 square feet and provide services for 70 to 175 participants daily.
- ✓ Neighborhood Service Centers, located in residential areas with a small, but constant, elderly population which may be geographically isolated from larger centers, require approximately 4,000 square feet of gross floor area and provide services for 30 to 75 participants daily. Senior center projects, which are included in the CIP, are often provided through federal funding and may include elderly housing.

Teen services are also designed to follow the Senior Services Continuum. Both the Senior and Teen Services programs will be housed in the same facilities in order to maximize County resources and provide integrated programming.

CURRENT PROJECT DESCRIPTIONS

1. **FCPS Athletic Field Lighting Requirements** (Countywide): This project provides for the continuous upgrades associated with athletic field lighting at Fairfax County Public Schools middle and high schools. Funding supports the replacement and repair schedule for existing lighting systems. The school system's Office of Design and Construction Services ensures lighting standards are maintained. FY 2010 funding in the amount of \$200,000 supports ongoing installation, replacement and repair projects, and is coordinated by the Department of Community and Recreation Services (CRS).
2. **Athletic Field Maintenance** (Countywide): This is a continuing project to provide maintenance to all of the athletic fields managed by FCPA. Funding is included for continued personnel and operating costs associated with the program including: electricity for lighted facilities, maintenance of lighting systems, water and irrigation system maintenance, minor ball field repairs and capital equipment. This program is designed to improve playing conditions and to achieve safety standards.
3. **Athletic Services Fee – Field Maintenance** (Countywide): This is a continuing project to supplement the level of maintenance by FCPA on athletic fields at FCPS public school sites, which provides a consistent mowing frequency schedule for high school diamond fields, as well as diamond field infield preparation twice a week for elementary, middle and high school fields. It also establishes post-season field treatment standards and a maintenance schedule for recently completed irrigation and lighting projects on FCPS fields. This project is supported by both the Athletic Services fee and the General Fund.
4. **Athletic Services Fee – Turf Field Development** (Countywide): This is a continuing project to facilitate the development of synthetic turf fields at County public park and school sites. This project is supported by the Athletic Services fee and the General Fund, as available.
5. **Athletic Services Fee – Custodial Support** (Countywide): This is a continuing project to provide custodial support for indoor gyms used by community-based indoor athletic organizations during their assigned primary scheduling season. This project is supported by the Athletic Services fee.
6. **Park Maintenance of FCPS Fields** (Countywide): This is a continuing project to provide for the mowing of athletic fields at County public elementary and middle schools. This project is designed to improve the quality of the school fields which represents 62 percent of the total athletic field inventory in the County. This program improves playing conditions, improves safety standards and increases user satisfaction. The program provides for mowing of the fields approximately 28 times annually, as well as the aeration and overseeding of the fields. These services are provided by the FCPA, through established service contracts.

7. **Action Plan Review Team (APRT) – Amenity Maintenance** (Countywide): This project provides \$50,000 in support for routine maintenance of girls' softball field amenities on select Fairfax County Public School sites. These amenities, such as dugouts, fencing and irrigation systems, were added or constructed by the County based on recommendations by the citizen-led Action Plan Review Team (APRT) in order to reduce disparities in the quality of fields assigned to boys' baseball and girls' softball organizations. Routine maintenance is necessary both to maintain equity and to ensure safety.
8. **Youth Sports Scholarship** (Countywide); The Youth Sports Scholarship program provides support to youth from low-income families who want to participate in community-based sports programs. In FY 2008, youth sports scholarship recipients totaled 1,707. Of the total funding, an amount of \$75,000 is included for this program based on the FY 2010 projection of revenue generated from the Athletic Services Fee, and \$75,000 is supported by the General Fund.
9. **Jefferson Manor Public Improvements** (Lee District): \$25,000,000 for the provision of road and storm drainage improvements in the Jefferson Manor Conservation Area. Road, storm drainage and sidewalk improvements have been completed on part of Jefferson Drive, Monticello Road, Farmington Drive and Farnsworth Drive, and Fort Drive, and are planned on Edgehill Drive, Edgehill Court, Albemarle Drive, Williamsburg Road and Fairhaven Avenue. The two remaining phases consist of Phase III (Edgehill Drive, Edgehill Court, Albemarle Drive and part of Fairhaven Avenue) and Phase IV (part of Monticello Road, Williamsburg Road and part of Fairhaven Avenue). The Total Project Estimate (TPE) for Phase III is \$9,000,000, and for Phase IV is \$8,000,000. Funding for Phases III and IV has not yet been determined.
10. **Land Acquisition Reserve** (Countywide): This is a continuing project for the acquisition of land or open space preservation for future County facilities and capital projects. Funding is specifically intended for land acquisition and was created to improve the County's competitiveness in today's market.
11. **Mott Community Center** (Springfield District): \$4,000,000 to refurbish the existing 7,600 square foot Mott Community Center and to construct approximately 6,000 square feet of programmable floor space. The proposed addition would provide for the expansion of social and recreational programs operated by DCRS. The proposed program includes a new computer clubhouse, expansion of the existing gymnasium and storage space. Major renovations include the existing commercial kitchen, replacement of the existing Heating Ventilation and Air Conditioning (HVAC) system, roof and ceilings. In addition, site improvements would be provided, including additional parking and exterior lighting. Funding in the amount of \$600,000 is supported by the General Fund; a source of funding for the unfunded balance will need to be identified.
12. **Salona Property Conservation Easement Acquisition** (Dranesville District): Approximately \$1,000,000 per year for 20 years to support payments for the purchase of the conservation easement on the Salona property, in accordance with action approved by the Board of Supervisors on September 26, 2005.
13. **Lorton Community Center** (Mt. Vernon District): This project will provide for design and construction of a Lorton Community Center. Funding in the amount of \$100,000 was approved during the *FY 2006 Carryover Review* for a complete and thorough re-evaluation of the original feasibility study, to be conducted in order to verify the scope, location and cost of the project. The previous feasibility study, conducted in 1997, identified approximately 17,000 square foot scope for the project and was based on the pre-existing Lorton Library site as the location for this new facility. Due to a new Comprehensive Plan, environmental requirements and new agency scope requirements, additional updates and review are required. The facility will house the Lorton Community Action Center and the Lorton Senior Center and is anticipated to serve over 100 participants daily.
14. **Providence District Community Center** (Providence District): \$13,100,000 for design and construction of a new community center facility as part of the proposed Metro West development located adjacent to the Vienna Metro Station. The community center will be approximately 30,000 square feet, and will include space for a new district supervisor's office. The project is to be built on a site that was proffered by the Metro West developer, and will be funded through a combination of proffered funds and County funds.

15. **Reston Community Center Improvements** (Hunter Mill District): \$85,000 for the renovation of the aquatics area, the replacement of the Heating Ventilation and Air Conditioning (HVAC) system and renovation of the theatre.
16. **McLean Community Center Improvements** (Dranesville District): \$225,000 for the installation of a theatre sound system, design for a Heating Ventilation and Air Conditioning (HVAC) upgrade and expansion of office space for the Scene Shop.
