

Response to Questions on the FY 2011 Budget

Request By: Supervisor McKay

Question: What would be the cost of reinstating longevity pay for 15 and 20 year employees of the police department?

Response: As no compensation increases were awarded to County employees in FY 2010, it is assumed that reinstating longevity pay for the Police Department in FY 2011 would include the cost of longevities for employees who reached 15 or 20 years of service during FY 2010, as well as those employees who reach the 15 or 20 year threshold in FY 2011. In total, it is projected that the FY 2011 fiscal impact of reinstating longevity pay would be \$655,358. (This assumes that FY 2010 longevities are paid beginning July 1, 2010.)
