

# Fairfax County Public Schools

## PROGRAM DESCRIPTION

Fairfax County Public Schools (FCPS) determines the need for new facilities and additions to existing schools by comparing available capacity with anticipated enrollment. Capacity is an estimate of the number of student spaces available within an educational facility, taking into account: (1) educational specifications for elementary, middle and high schools; (2) program requirements; and (3) appropriate pupil-teacher ratios. Variations in the educational programs offered within a school may cause its capacity to vary from year to year.

### LINK TO THE COMPREHENSIVE PLAN

Fairfax County's Comprehensive Plan has established a number of objectives and policies in order to:

- ✓ Provide an environment for the highest quality system of education from pre-school through 12<sup>th</sup> grade.
- ✓ Ensure a quality education system by providing comprehensive education, training programs and facilities, and provide a wide range of educational facilities that accommodate instructional programs for County students.
- ✓ Provide administration and maintenance facilities to conveniently serve the areas they support, and encourage full utilization of existing school facilities, whenever possible and reasonable, to support educational and community objectives, including use of schools for community recreation purposes.
- ✓ Encourage as part of the development and redevelopment process, commitments for school renewals and additions, and ensure that construction of new facilities and rehabilitations of existing facilities cost-effectively meet FCPS requirements.

## CURRENT PROGRAM INITIATIVES

In September 2012, total FCPS membership was 180,664 students, an increase of 2,953 students from the 2011-2012 school year. Projections indicate membership will continue to increase over the next ten years. Membership is projected to grow to 184,577 students by the 2013-2014 school year, an increase of 2.1 percent. This increase is projected to occur in all categories that include general education, special education, Family and Early Childhood Education Program (FECEP), court and alternative programs. Projections indicate total enrollment will increase from 184,577 in the 2013-2014 school year to 195,806 students by 2017-2018. Total membership for 2022-2023 is expected to be 200,146 students, an increase of 4,340 students from the 2017-2018 school year.

FCPS has continued its aggressive implementation of capital projects authorized to date. During the past four years, construction was completed on four elementary school, one middle school, numerous renovations and several hundred infrastructure and miscellaneous capital maintenance projects. Over 75

percent of FCPS buildings are over 25 years of age. Renovations are aimed at assuring that all schools, Countywide, are safe, functional and provide the facilities necessary to support current educational programs regardless of the age of the buildings, in addition to protecting the capital investment.

A School Bond Referendum was approved by County residents in November 2011 containing 22 projects. Continuing growth, infrastructure management and renovation needs may require approval of a new School Bond Referendum in the fall of 2013.
