

Office of Emergency Management

Emergency Management

Mission

The Office of Emergency Management (OEM) coordinates and collaborates with our partners to reduce the impact of emergencies and disasters, through a comprehensive emergency management program. OEM provides coordination and support for County agencies and community stakeholders; identifies hazards and mitigation opportunities; provides opportunities for planning, training, exercising and evaluation; facilitates continuity of operations; engages in community outreach, all while maintaining fiscal responsibility.

4. Businesses and non-governmental organizations participating in County outreach, training, and exercises	NA	20	26
5. New CEAN users added to subscriber base	6,632	6,201	9,457

Focus

The Office of Emergency Management (OEM) provides emergency management services for Fairfax County including the towns of Herndon, Vienna, and Clifton. The major areas of focus include emergency management planning and policy; the countywide emergency training and exercise program; public preparedness and education; enhancement of response and recovery capabilities, and grants management. OEM is committed to preparing for, responding to, recovering from, and mitigating new and challenging threats. OEM coordinates the emergency management activities of all Fairfax County agencies, as well as the Metropolitan Washington Council of Governments, the Northern Virginia Regional Commission, private organizations, and other local, state and federal agencies.

OEM provides vision, direction and subject matter expertise in the field of emergency management to heighten the County's state of emergency preparedness. In the event of an emergency, OEM activates and manages the County's Emergency Operations Center (EOC). The state of the art EOC is equipped with technological redundancies to ensure operation under the most extreme conditions. The EOC is also activated for large-scale events such as Presidential Inaugurations and sporting events such as the upcoming World Police and Fire Games in 2015. Additionally, OEM manages a fully operational Alternate EOC (AEOC) located in the County Government Center, in compliance with Emergency Management Accreditation Program standards.

Office of Emergency Management

When activated, the EOC becomes the coordination point for all County emergency management activities. In addition, OEM serves as the County's point of contact for federal disaster relief, recovery and mitigation programs. OEM acts as the liaison to county, regional, state, federal, volunteer and private partners in order to prepare for, effectively respond to, and quickly recover from significant emergencies.

OEM develops, reviews, and coordinates emergency management programs to meet the County's homeland security goals and comply with National and International Standards for Emergency Management. OEM ensures County emergency plans are consistent and compatible with the regional and state emergency plans and comply with state, federal and local guidelines.

OEM develops and maintains the County's Comprehensive Emergency Operations Plan (EOP) and provides emergency management guidance for the entire County. The EOP provides an operational framework for County and partner agencies when responding to an emergency in Fairfax County. OEM manages, develops and updates other emergency plans and annexes based on an "all hazards" approach to emergency management.

OEM is responsible for coordinating emergency management training and exercises to prepare County agencies to carry out their roles in the emergency operations plan. Each year, OEM develops and coordinates a variety of seminars as well as functional and table top exercises. All exercises are compliant with federal Homeland Security Exercise and Evaluation Program (HSEEP) guidelines, ensuring that training opportunities are of the highest caliber and consistent with national training standards. The agency hosts the School of Emergency Management Training program, training County and regional personnel on a diverse range of topics including: the National Incident Management System, Continuity of Operations, and coursework sponsored by the Virginia Department of Emergency Management.

OEM conducts emergency management outreach programs necessary to increase the public's awareness in emergency preparedness and homeland security. Through the Fairfax County Citizen Corps program, OEM serves as liaison and administrative support for recruitment, registration and identification of volunteer emergency workers necessary to support emergency response and recovery efforts.

The Office of Emergency Management supports the following County Vision Elements:

Maintaining Safe and Caring Communities

Creating a Culture of Engagement

Connecting People and Places

FY 2014 Funding Adjustments

The following funding adjustments from the FY 2013 Adopted Budget Plan are necessary to support the FY 2014 program:

- Employee Compensation** **\$15,373**
 An increase of \$15,373 in Personnel Services reflects the full year impact of the FY 2013 2.5 percent performance-based scale and salary increase, effective January 2013, for non-uniformed employees. It should be noted that no funding is included for additional employee compensation for this department in FY 2014.
- Reductions** **\$0**
 It should be noted that no reductions to balance the FY 2014 budget are included in this agency based on the agency's lack of flexibility in their Personnel and Operating budgets as well as concerns about potential reductions in Urban Area Security Initiatives (UASI) grant funding from the Department of Homeland Security that would have a significant impact on this agency.

Changes to FY 2013 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the FY 2013 Revised Budget Plan since passage of the FY 2013 Adopted Budget Plan. Included are all adjustments made as part of the FY 2012 Carryover Review, and all other approved changes through December 31, 2012:

- Carryover Adjustments** **\$375,717**
 As part of the FY 2012 Carryover Review, the Board of Supervisors approved encumbered funding of \$375,717 in Operating Expenses.

Office of Emergency Management

Key Performance Measures

Indicator	Prior Year Actuals			Current Estimate
	FY 2010 Actual	FY 2011 Actual	FY 2012 Estimate/Actual	FY 2013
Office of Emergency Management				
Percentage of County and volunteer agencies identified in EOP that receive training	90%	85%	95% / 95%	95%
New CEAN subscribers added to OEM database	6,632	6,201	8,000 / 9,457	11,000

A complete list of performance measures can be viewed at www.fairfaxcounty.gov/dmb/fy2014/advertised/pm/93.pdf

Performance Measurement Results

In FY 2013, the Office of Emergency Management will continue conducting emergency preparedness tabletop and functional exercises and drills. The goal is to provide training opportunities for at least 95 percent of County and volunteer agencies responsible for disaster mitigation, preparedness, response and recovery from large-scale emergencies and disasters impacting Fairfax County. County agencies and volunteer groups with duties and responsibilities outlined in the County Emergency Operation Plan will participate in EOC and AEOC functional drills designed to familiarize agency representatives with the new EOC computer hardware, the incident command system, information software and procedures. OEM offers training opportunities in multiple formats including lecture, hands-on and web-based interaction. The agency will continue to design and conduct exercises utilizing an all-hazard, multi-disciplinary approach to enhance the capabilities of partner agencies.

Community outreach preparedness presentations and programs will continue to be provided on a request-by-request basis. The frequency of requests for presentations from the general public and civic groups are normally in direct correlation with heightened terrorist threat levels and potential or recent catastrophic events. The importance of emergency preparedness continues to grow in Fairfax County, as has the number of outreach preparedness presentations and programs.

OEM added 9,457 Community Emergency Alert Notification (CEAN) subscribers in FY 2012, an increase of 53 percent. This increase was the result of numerous significant weather events within the County during FY 2012. Information on the CEAN and the new regional CAPITALERT systems are both incorporated into all community presentations and outreach programs. In future years, OEM will continue to enhance public emergency notifications through effective use of the CEAN system, and will strive to attract an additional 11,000 subscribers including members of the business community in FY 2013.
