

Contributory Fund Fund 10031 - NOVARIS

Non-Appropriated Funds

The Northern Virginia Regional Identification System (NOVARIS) utilizes state-of-the-art biometric technology to identify criminals. An Automated Fingerprint Identification System (AFIS) enables police to match a fingerprint found at the scene of a crime with any individual who has been arrested in the Washington Metropolitan area by comparing the print or partial print with all prints in the database. System enhancements in FY 2007 not only improved fingerprint identification capabilities, but also support palm print identification and facial recognition. While the core system is housed in Fairfax County, program operations are decentralized among the seven participating Northern Virginia jurisdictions.

As approved by the NOVARIS Advisory Board on July 30, 1997, seven Northern Virginia jurisdictions share costs associated with NOVARIS based on the sworn police and citizen population of each jurisdiction. Fairfax County exercises a fiduciary responsibility for the financial management and operation of NOVARIS, with the County contribution made through the Contributory Fund.

The total Fairfax County FY 2015 contribution to Fund 10031, NOVARIS is \$9,577, which is consistent with FY 2014 Adopted Budget Plan. The contribution supports the County's annual share of costs associated with operations and upgrades of NOVARIS. It should be noted that the Urban Areas Security Initiative (UASI) grant funding supports AFIS system maintenance, upgrades, and replacements for the National Capital Region, including NOVARIS, reducing the participating jurisdictions' program costs.
