

Fund 60000

County Insurance Fund

Mission

To ensure the health and safety of County residents, employees, and public officials, and to protect the County's financial assets. The agency is committed to providing the highest quality customer service in managing the County's risks and exposures.

AGENCY DASHBOARD			
Key Data	FY 2011	FY 2012	FY 2013
1. County Population	1,096,798	1,109,668	1,114,500
2. County Employees	15,060	14,528	14,567
3. Medical Expenses Inflation (CPI)	3.2%	3.9%	4.2%
4. County-Owned Building Values	\$2,346,082,234	\$2,344,484,934	\$2,596,741,990
5. Investment Return Rate on Insurance Fund	0.75%	0.60%	0.45%
6. Average Age of Workers' Compensation Claim	9.44 Years	10.94 Years	12.78 Years

Focus

Fairfax County has a statutory responsibility to provide Workers' Compensation benefits, including medical treatment and loss of wages due to related disability, to employees who sustain occupational injuries and illnesses. Fund 60000, County Insurance Fund, was established to fulfill this obligation. The fund also provides for countywide commercial insurance and self-insurance. The County self-insures automobile and general liability claims. Special commercial coverage is provided for aviation insurance on County helicopters, real property coverage, and Fire and Rescue Department vehicle damage insurance. Administrative expenses of risk management programs are paid through this fund.

The County Insurance Fund supports the following County Vision Elements:

Maintaining Safe and Caring Communities

Exercising Corporate Stewardship

Fairfax County provides a wide range of services to its employees and residents, which in turn create potential risks and exposures to the County. Some of these risks include injuries involving County employees or damage to County property; injuries to residents or damage to residents' property; automobile accidents; incidents arising from police activity; the actions of public officials; and the operation and maintenance of sewage and storm management systems.

The Risk Management Division approaches its mission from both internal and external perspectives. Recognizing that an organization the size of Fairfax County will experience losses, Risk Management staff work to mitigate losses and manage financial liabilities. This is accomplished through both self-insurance (which generally applies to losses expected to occur regularly, such as Workers' Compensation, automobile and general liability, and police professional and public officials liability) and commercial

Fund 60000 County Insurance Fund

insurance (for losses which occur infrequently but tend to be large exposures, such as real property losses, aircraft liability, and damage to high-value vehicles). Recognizing the importance of prompt and fair resolution of claims against the County, claims administration uses both in-house staff and a contract claims administrator. Risk Management is committed to the prevention of injuries in the workplace and focuses on programs that address countywide injury prevention and reduction through training and awareness campaigns. Finally, Risk Management staff focuses on building and using partnerships with other County agencies, the community, and neighboring jurisdictions to mitigate risks and to ensure excellent communication with the residents of Fairfax County.

FY 2015 Funding Adjustments

The following funding adjustments from the FY 2014 Adopted Budget Plan are necessary to support the FY 2015 program.

- ◆ **Employee Compensation** **\$17,436**
 An increase of \$17,436 in Personnel Services reflects funding for a 1.29 percent market rate adjustment for all employees in FY 2015, effective July 2014.
- ◆ **General Insurance Costs** **\$698,690**
 A net increase of \$698,690 in Operating Expenses is primarily due to anticipated increases in expenses related to current and prior year Workers Compensation claims.
- ◆ **Automated External Defibrillator (AED) Replacement Plan** **\$114,871**
 An increase of \$114,871 in Operating Expenses is due to the implementation of the second year of a five-year plan to replace County AEDs that are approaching the end of their useful life.

Fund 60000

County Insurance Fund

◆ **General Fund Transfer**

It should be noted that the General Fund transfer to this fund is increased by \$2,209,172 to offset increased insurance expenditures. These expenditures have increased \$4,342,793, or 21.8 percent, since FY 2013. Without additional General Fund support, these costs would draw down the Reserve for Catastrophic Occurrences to a level deemed too low given the size of the County. This increase will allow the Reserve for Catastrophic Occurrences to remain funded at the same level as the *FY 2014 Revised Budget Plan*.

Changes to FY 2014 Adopted Budget Plan

The following funding adjustments reflect all approved changes in the *FY 2014 Revised Budget Plan* since passage of the FY 2014 Adopted Budget Plan. Included are all adjustments made as part of the *FY 2013 Carryover Review*, and all other approved changes through December 31, 2013:

◆ **Carryover Adjustments**

\$122,810

As part of the *FY 2013 Carryover Review*, the Board of Supervisors approved funding of \$122,810, including \$12,810 in Personnel Services for a one-time compensation adjustment of \$850 for merit employees paid in November 2013 and \$110,000 to implement the first year of a five-year plan to replace County AEDs that are approaching the end of their useful life.

Key Performance Measures

Indicator	Prior Year Actuals			Current Estimate	Future Estimate
	FY 2011 Actual	FY 2012 Actual	FY 2013 Estimate/Actual	FY 2014	FY 2015
County Insurance Fund					
Percentage of claims processed within 30 days	96%	96%	98%/98%	98%	98%
Preventable accidents per 100,000 miles driven	0.89	0.80	0.60/0.50	0.60	0.60
Ratio of premium paid to value of assets covered	0.123%	0.126%	0.138%/0.122%	0.138%	0.138%

County Insurance Fund

Performance Measurement Results

Workers' Compensation costs are the single greatest challenge to the Insurance Fund. A key factor in containing costs and expediting the return to work of injured employees is prompt and adequate medical evaluation. Awareness of the County's programs in this area, coupled with efficient reporting systems, serve both employee and County interests. The Risk Management Division now averages five days reporting time. With 98 percent of all claims being processed within 30 days, the program achieves its ambitious goals.

Driver safety and accident prevention programs remain a priority to the County. There was a slight decrease in preventable accidents in FY 2013. Stability is anticipated in this area for FY 2014 and FY 2015 and County staff continues to maintain the goal of reducing accident rates.

The commercial insurance portfolio is a key element in protecting the assets of the County against losses in a major event; it ensures that the County is not faced with major property, Workers' Compensation, and liability losses during periods when it cannot afford the costs associated with losses. While the actual premiums tend to increase, County staff successfully continues to maintain low rates for those premiums, surpassing the goal of a 0.138 percent premium rate by attaining a 0.122 percent rate in FY 2013.

Benchmarking

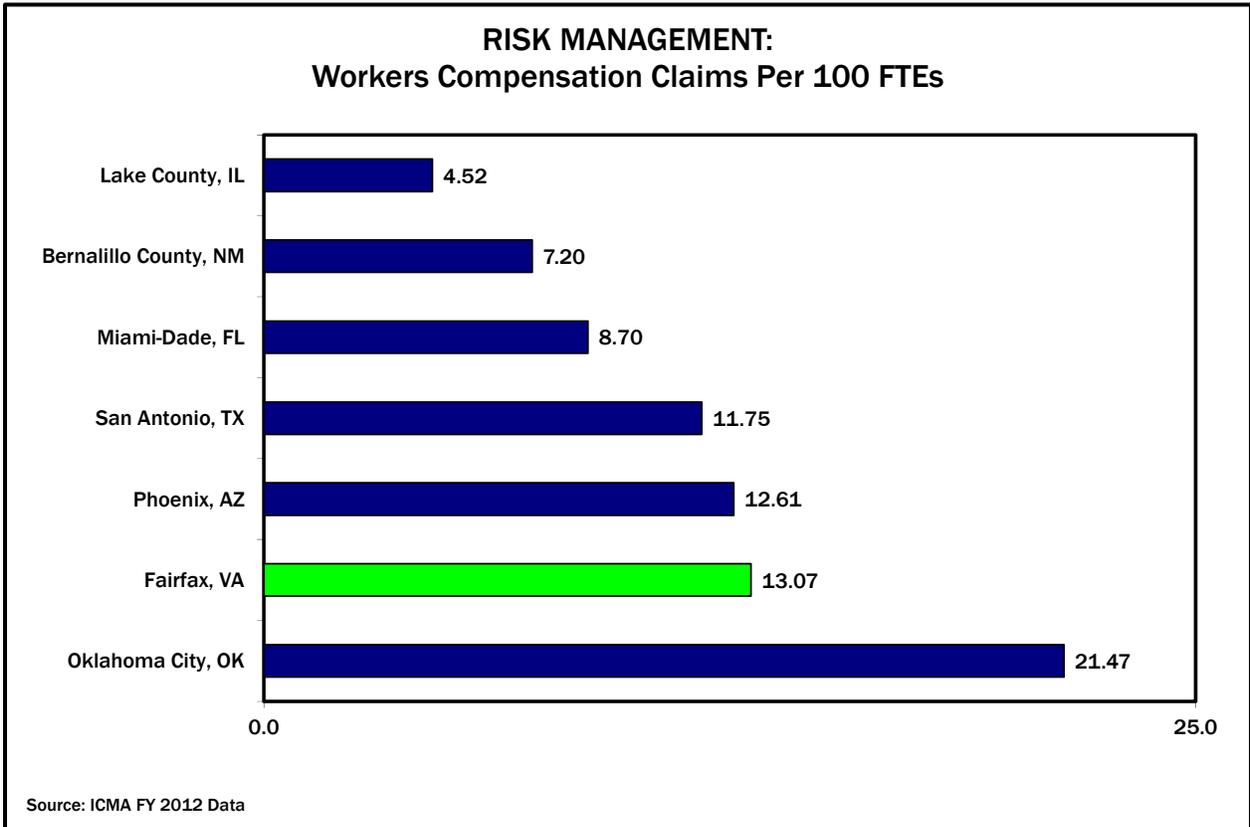

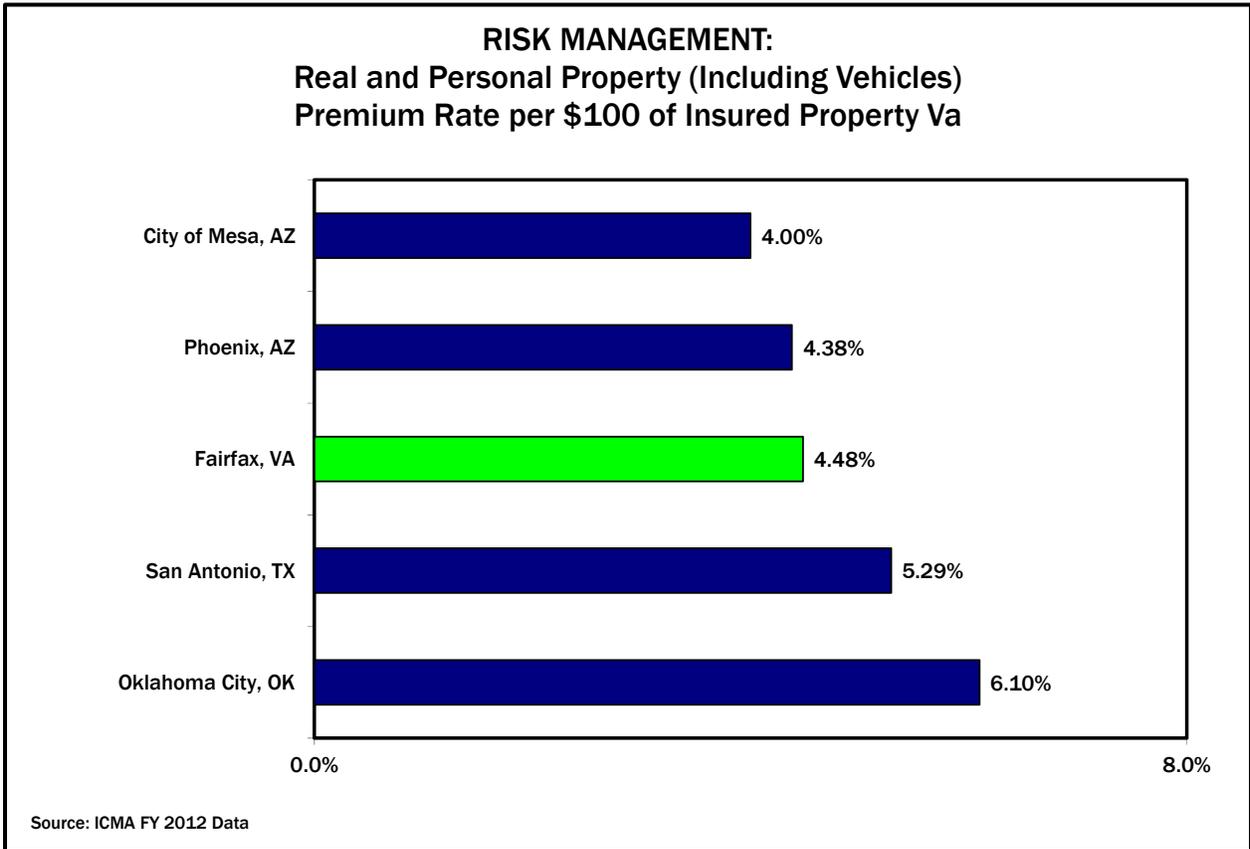

As a means of enhancing accountability, benchmarking data have been included in the annual budget since FY 2005. These data are included in each of the Program Area Summaries in Volume 1 and now in Other Funds (Volume 2) as available. The majority of this benchmarking data come from the International City/County Management Association's (ICMA) benchmarking effort in which Fairfax County has participated since 2000. More than 180 cities, counties and towns provide comparable data annually in 15 service areas. However, not all jurisdictions provide data for every service area. As part of the ICMA benchmarking effort, participating local governments (cities, counties and towns) provide data on standard templates provided by ICMA in order to ensure consistency. ICMA then performs extensive checking and data cleaning to ensure the greatest possible accuracy and comparability of data. As a result of the time required to collect the data and undergo ICMA's comprehensive data cleaning processes, information is always available with a one-year delay. FY 2012 data represent the latest available information. The jurisdictions presented in the graphs on the following pages generally show how Fairfax County compares to other large jurisdictions (population over 500,000). In cases where other Virginia localities provided data, they are shown as well. Risk Management is one of the service areas for which Fairfax County provides data. As can be seen on the following pages, Fairfax County compares favorably to the other large jurisdictions that provided data for this template. The County's General Liability claims, expenditures and percent that proceeded to litigation during the reporting period are all relatively low compared to the other responding cities and counties. An important point to note about the ICMA comparative data effort is that since participation is voluntary, the jurisdictions that provide data have demonstrated that they are committed to becoming/remaining high performance organizations. Therefore, comparisons made through this program should be considered in the context that the participants have self-selected and are more inclined to be among the higher performers than a random sample among local governments nationwide. It is also important to note that not all jurisdictions respond to all questions. In some cases, the question or process is not applicable to a particular locality or data are not available. For those reasons, the universe of jurisdictions with which Fairfax County is compared is not always the same for each benchmark.
