

Fund 30030 Library Construction

Focus

This fund supports the construction and renovation of a network of facilities operated by the Fairfax County Public Library that offer library services according to the needs of the community. Approved library construction projects have been primarily financed with General Obligation Bonds and are based on factors such as age and condition of buildings, long-range space needs, projected population growth, usage and demand for services in underserved areas of the County. New library facilities are designed to utilize new information resources delivery, and existing facilities from the early 1960s are being redesigned and renovated to maximize space, as well as accommodate modern technology.

In the fall of 2004, the voters approved a Public Library Bond Referendum totaling \$52.5 million for library projects. Funding provided for the new Burke Centre and Oakton libraries and the renovation of four of the oldest libraries, including Richard Byrd, Martha Washington, Thomas Jefferson and Dolley Madison libraries. These new libraries and the library renovations are now complete. Based on the favorable

construction market and savings in the renovation projects, design work for the renovation and expansion of the Woodrow Wilson Library began in February 2011. Renovations were completed in December 2014. In addition, on November 6, 2012, the voters approved a bond referendum in the amount of \$25 million to renovate the next four priority library facilities. These libraries include Pohick, Tysons Pimmit, Reston and John Marshall. The renovations will provide for upgrades to all of the building systems, including roof and HVAC replacement, which have outlived their useful life and will be designed to accommodate current operations and energy efficiency. In addition, the renovations will provide a more efficient use of the available space, meet customers' technological demands and better serve students and young children. The quiet study areas and group study rooms will be improved, the space to accommodate a higher number of public computers will be increased, and wireless access will be enhanced.

No funding is included in Fund 30030, Library Construction, for FY 2016. Work will continue on existing and previously funded projects.
