

**FAIRFAX COUNTY  
DEPARTMENT OF PUBLIC WORKS AND ENVIRONMENTAL SERVICES**

**Request for Qualifications  
Primary and Secondary Rehabilitation Process  
Architectural/Engineering Services**

THE COUNTY OF FAIRFAX, VIRGINIA, Department of Public Works and Environmental Services (DPWES) is soliciting Statements of Qualifications from engineering firms to provide study, design, and construction services for the existing Primary and Secondary Rehabilitation Process at the Noman M. Cole Jr. Pollution Control Plant (NMCPCP) located at 9399 Richmond Highway, Lorton, Virginia.

The NMCPCP is an advanced wastewater treatment plant currently permitted for 67 million gallons per day (MGD). The Primary and Secondary Rehabilitation Process shall meet the County requirement of maintaining plant operations during construction. The project shall consider improvements in safety, structural integrity, operation, and functionality of the Primary and Secondary Process and ancillary facilities with the intentions of satisfying future growth, regulatory requirements, high flow requirements, and facility standardization.

Consultants who wish to be considered for this work must submit eight (8) hard copies of their Statement of Qualifications and one (1) compact disc containing the submission in PDF addressed to the following:

Mujahid Ali, P.E., Senior Project Manager  
Utilities Design and Construction Division  
12000 Government Center Parkway, Suite 463  
Fairfax, Virginia 22035-0056

The Statements of Qualifications submission must include the following:

- Statement of Interest;
- GSA Standard Form 330 Part 1 and Part II for the primary firm and all major sub-consultants; and
- List of references with current addresses and telephone numbers for recently completed projects of a similar nature.

The multi-disciplinary consulting team should have expertise in the evaluation and design of Primary and Secondary treatment process under similar operating conditions to that of the NMCPCP, automation, safety, regulations, energy efficiency, hydraulics, and construction support services. All submissions must be complete and clearly document the capability and experience in designing similar projects for large water or wastewater treatment plants. A Selection Advisory Committee (SAC) will evaluate all firms based on the following:

- Ability and experience of firm/team to deliver the required services
- Project managers' and core team members' qualifications and experience
- Capacity to deliver the services (including any specialized services) in accordance with project schedules considering the firm's current and planned workload
- Performance history on similar projects considering cost control effectiveness, quality assurance, and compliance with performance schedule
- Proposed approach to deliver the services effectively

Firms that are short-listed will be invited by the SAC to present and discuss their qualifications and approach to the project. A detailed scope of work will be provided to the short-listed firms. At the County's option, the selected firm may be requested to provide services during construction.

All Statements of Qualifications shall be delivered no later than 4:00 p.m., local prevailing time on **Friday, June 26, 2015**. Statements of Qualifications received after the submission deadline will not be considered. The statements of qualifications shall not exceed fifty (50) pages of data (twenty five sheets printed front and back, or fifty sheets of single-sided print) including GSA 330 forms.

Fairfax County is committed to paying a living wage to all qualified County employees and encourages contractors and sub-contractors involved in all County programs, services, and activities to pay a living wage to their employees. Further, Fairfax County is committed to protecting the environment. As such, all statements of qualifications must be made only of paper product to allow recycling.

For additional information concerning this project, please contact Mujahid Ali, Senior Project Manager, Wastewater Design and Construction Branch, Utilities Design and Construction Division, at [mujahid.ali@fairfaxcounty.gov](mailto:mujahid.ali@fairfaxcounty.gov) or 703-324-5079.

To request this information in an alternate format, please call Amy Mackintosh, Utilities Design and Construction Division, Department of Public Works and Environmental Services at 703-324-5111, TTY: 711.
