

**COUNTY OF FAIRFAX**  
**DEPARTMENT OF PUBLIC WORKS AND ENVIRONMENTAL SERVICES**  
**Request for Qualifications (RFQ)**  
**Rehabilitation and Improvements to the Biosolids Program**

THE COUNTY OF FAIRFAX, VIRGINIA, Department of Public Works and Environmental Services is soliciting statements of qualifications from engineering firms to provide professional engineering services for design and construction administration services to support rehabilitation and improvements to the biosolids program at the Noman M. Cole, Jr. Pollution Control Plant (NMCPCP), an advanced wastewater treatment plant owned and operated by Fairfax County, Virginia with a capacity of 67 million gallons per day.

The NMCPCP biosolids program currently consists of scum/sludge collection, transport, thickening, dewatering, stabilization, incineration, and disposal. The goal of the project is to rehabilitate and make necessary improvements to meet current, planned, and anticipated regulatory changes, enhance operability and maintainability, improve safety, recover energy, and ensure reliable operation for a planning horizon of 20 years. The final scope and project approach will be defined during the initial stage of design and may include improvements to ancillary processes and/or systems that impact or are impacted by, the biosolids program.

The rehabilitation of the four multiple hearth incinerators may be implemented under a design-build concept; therefore, consultants should have relevant experience in design-build procurement and providing bridging services. The team selected for this project will not be considered for the design-build portion of the project.

Consultants who wish to be considered for this work must submit twelve (12) hard copies of their statements of qualifications and four (4) compact discs (CD's) containing the submission in portable document format (PDF) to:

Franklin M. Roberts, P.E., Senior Engineer  
Utilities Design & Construction Division  
12000 Government Center Parkway, Suite 463  
Fairfax, Virginia 22035-0056

The Statements of Qualifications submission must include at a minimum:

- Statement of Interest;
- GSA Standard Form 330 Part I and Part II for the primary firm and all major sub-consultants; and
- List of references with current address and telephone numbers for recent projects of a similar nature.

A Selection Advisory Committee (SAC) will evaluate firms on the following criteria:

- Project Manager's qualifications, relevant experience, and availability;
- Key project team members' qualifications, relevant experience, and availability;
- Firms' (Prime and Subs) relevant experience;
- Ability to respond to project needs and requirements; and
- Past performance.

The SAC will short-list firms, conduct interviews, and make a selection recommendation to the Deputy Director of Department of Public Works and Environmental Services.

All statements of qualifications shall be delivered no later than 4:00 p.m., local prevailing time, June 24, 2013. Statements of qualifications received after this date and time will not be considered. The statements of qualifications shall not exceed twenty-five (25) double-sided sheets or fifty (50) single-sided sheets, including required 330 forms. Fairfax County is committed to protecting the environment. As such, all statements of qualifications must be made of paper product only to allow recycling.

Fairfax County retains the option to develop this project partially or in its entirety under alternate contract approaches through a separate procurement, including Public Private Education Facilities and Infrastructures Act (PPEA) or Design-Build, subsequent to the initial design phase(s) under this contract.

Fairfax County is committed to paying a living wage to all qualified County employees and encourages contractors and subcontractors involved in all County programs, services, and activities to pay a living wage to their employees.

Inquiries pertaining to this request should be directed to Franklin M. Roberts, P.E, Senior Engineer, Wastewater Design & Construction Branch, at 703-324-5857, TTY: 711.

To request this information in an alternate format, please call Maria Logan, Building Design & Construction Division, at 703-324-5800, TTY: 711.
