

**Department of Public Works and Environmental Services**

**Pro Rata Share Assessment Form**

Use this form to provide information to the Department of Public Works and Environmental Services to calculate a site's pro rata assessment. Required values shall be input from the appropriate new development or redevelopment VRRM Spreadsheet, or site/subdivision plan.

Plan Name: \_\_\_\_\_

County Plan Number: \_\_\_\_\_

Information Required	Value
Total Site Area (ac)	
Total Post Development Impervious Cover (ac)	
Net Increase in Impervious Area (ac)	
From "Summary" Tab of VRRM Spreadsheet (If Applicable):	
Adjusted Post-Development Phosphorus Load (lb/yr)	
Total Runoff Volume Reduction (cu ft)	

Notes:

1. DEQ's Virginia Runoff Reduction Method (VRRM) spreadsheets are available at <http://www.vwrrc.vt.edu/swc/Virginia%20Runoff%20Reduction%20Method.html>.
2. Refer to PFM § 6-0600 for more information on Pro Rata Share Assessment
