Little Hunting Creek

Watershed Management Plan

December 2004

Prepared for:
Fairfax County

Stormwater Planning Division
Department of Public Works and
Environmental Services

Prepared by:
Woolpert LLP

In association with the:
**Institute for Environmental
Negotiation at the University of
Virginia**

Acknowledgements

The *Little Hunting Creek Watershed Management Plan* was developed with the assistance of the Little Hunting Creek Steering Committee. We wish to thank the following individuals and organizations for contributing their time and knowledge in developing this plan:

Casey Arnold, Arnold Construction

Glenda Booth, Fairfax County Wetlands Board

Alex Echols, Wessynton Community

Whit Field, Northern Virginia Conservation Trust

Harry Glasgow, Friends of Huntley Meadows

Joan Gros, Mount Vernon Lee Chamber of Commerce

Chris Lamond (Alternate), Huntley Meadows Park

Betsy Martin (Alternate), Friends of Little Hunting Creek

Jeff McKay, Lee District Supervisor's Office

John Muse, Virginia Department of Transportation

Paul Phelps, Mount Vernon Council of Civic Associations

James Rees, Mount Vernon Ladies Association

Gary Roisum, Huntley Meadows Park

Paul Siegel, Friends of Little Hunting Creek

Bob Slusser (Alternate), Southeast Fairfax Development Corporation

Brent Steury, National Park Service, George Washington Parkway

Becky Witsman, Southeast Fairfax Development Corporation

Special thanks to the following past members of the Little Hunting Creek Steering Committee:

Michael Aho, Lee District Supervisor's Office

Heather Germaine, National Park Service, George Washington Parkway

Katie Goldberg, Northern Virginia Conservation Trust

Christine Tollefson, Lee District Supervisor's Office

Barbara Wood, Thomas Jefferson School for Science and Technology

The Little Hunting Creek Watershed Management Plan was initiated by the Fairfax County Stormwater Planning Division and the Project Team consists of:

Fairfax County Staff

Carl E. Bouchard, P.E., Director, Stormwater Planning Division

Fred Rose, P.E., Branch Chief, Watershed Planning and Assessment Branch

Paul Shirey, P.E., Project Manager, Watershed Planning and Assessment Branch

Woolpert LLP

Shelly Frie, Project Manager

Jack Wall, Project Engineer

Jeff Wright, Project Engineer

Jeffrey Swallow, GIS Analyst

Erin Nimmo, Project Engineer

Mindy Davis, Manuscript Designer

Erin Elliott, Manuscript Editor

Institute for Environmental Negotiation, Department of Urban and Environmental Planning of the School of Architecture at the University of Virginia

Karen Firehock, Public Involvement Coordinator

Matt Robbie, Graduate Research Associate

Special thanks to the following past members of the Little Hunting Creek project team:

Seshadri Iyer, Curtis Moy Ostrodka and Bradley Vanderwarker

Executive Summary

Background	ES-1
Purpose	ES-2
Watershed Condition	ES-2
Plan Goals, Objectives and Actions	ES-3
Benefits of Plan Actions	ES-5
Plan Implementation	ES-6
Monitoring Plan	ES-8

Chapter 1

Introduction

1.1	Background	1-1
1.2	Purpose	1-2
1.3	Plan Organization	1-2

Chapter 2

Watershed Condition

2.1	General Watershed Information	2-1
2.2	History of the Watershed	2-2
2.3	Land Use and Impervious Cover	2-3
2.4	Subwatersheds and Tributaries	2-4
2.5	Summary of Existing Reports and Data	2-5
2.5.1	Stream Water Quality Report	2-5
2.5.2	Volunteer Water Quality Monitoring	2-6
2.5.3	Wetland Data	2-7
2.5.4	Environmental Baseline Report	2-7
2.5.5	Immediate Action Plan Report	2-8
2.5.6	Future Basin Plan Report	2-8
2.5.7	Gum Springs Drainage Master Plan	2-8
2.5.8	Fairfax County Master Plan Drainage Projects	2-8
2.5.9	Infill and Residential Development Study	2-9
2.5.10	Fairfax County Virginia Pollutant Discharge Elimination System Permit Data	2-9
2.5.11	Virginia Department of Environmental Quality Water Quality Data	2-9
2.5.12	Virginia Natural Heritage Resources	2-10
2.5.13	Stream Protection Strategy	2-10
2.5.14	Stream Physical Assessment	2-11
2.5.15	Modeling Approach and Results	2-17

Chapter 3

Subwatershed Condition

3.1	North Little Hunting Creek Subwatershed	3-1
3.1.1	Subwatershed Characteristics	3-1
3.1.2	Storm Drain System Infrastructure	3-3
3.1.3	Stream Geomorphology	3-5
3.1.4	Stream Quality	3-6
3.1.5	Problem Areas from Public Forum	3-8
3.1.6	Modeling Results	3-8
3.2	South Little Hunting Creek Subwatershed	3-10
3.2.1	Subwatershed Characteristics	3-11
3.2.2	Storm Drain System Infrastructure	3-12
3.2.3	Stream Geomorphology	3-13
3.2.4	Stream Quality	3-14
3.2.5	Problem Areas from Public Forum	3-15
3.2.6	Modeling Results	3-16
3.3	Paul Spring Branch Subwatershed	3-18
3.3.1	Subwatershed Characteristics	3-19
3.3.2	Storm Drain System Infrastructure	3-21
3.3.3	Stream Geomorphology	3-23
3.3.4	Stream Quality	3-24
3.3.5	Problem Areas from Public Forum	3-26
3.3.6	Modeling Results	3-27
3.4	North Branch Subwatershed	3-28
3.4.1	Subwatershed Characteristics	3-29
3.4.2	Storm Drain System Infrastructure	3-31
3.4.3	Stream Geomorphology	3-33
3.4.4	Stream Quality	3-34
3.4.5	Problem Areas from Public Forum	3-36
3.4.6	Modeling Results	3-36
3.5	Potomac River Subwatershed	3-38
3.5.1	Subwatershed Characteristics	3-38
3.5.2	Storm Drain System Infrastructure	3-39
3.5.3	Stream Geomorphology	3-40
3.5.4	Stream Quality	3-40
3.5.5	Problem Areas from Public Forum	3-41
3.5.6	Modeling Results	3-41

Chapter 4

Plan Strategy

4.1	Watershed Plan Vision	4-1
4.2	Goals, Objectives, and Actions	4-3
4.3	Benefits of Plan Actions	4-33
4.4	Implementation of Plan Actions	4-41
4.5	Monitoring of Plan Actions	4-49

Chapter 5

Policy and Land Use Recommendations

5.1	Watershed Plan Vision	5-1
5.2	Goals, Objectives, and Actions	5-1
5.3	Benefits of Plan Actions	5-14
5.4	Implementation of Plan Actions	5-14
5.5	Monitoring of Plan Actions	5-16
