## Executive Summary

### Chapter 1 Introduction

1.1	Background	1-1
1.2	Purpose	1-1
1.3	Plan Organization	1-2

### Chapter 2 Watershed Condition

2.1	General Watershed Condition	2-1
2.2	History of the Watershed	2-2
2.3	Land Use and Impervious Cover	2-5
2.4	Subwatersheds and Tributaries	2-11
2.5	Summary of Existing Reports and Data	2-11
2.5.1	Stream Water Quality Report	2-11
2.5.2	Environmental Baseline Report	2-15
2.5.3	Proposed Drainage Plan	2-16
2.5.4	Fairfax County Master Plan Drainage Projects	2-16
2.5.5	Fulfilling the Promise: The Occoquan Watershed in the New Millennium	2-16
2.5.6	Infill and Residential Development Study	2-18
2.5.7	Natural Resources Management Plan	2-20
2.5.8	Virginia Department of Environmental Quality Water Quality Data	2-21
2.5.9	Virginia Natural Heritage Resources	2-22
2.5.10	Stream Protection Strategy	2-22
2.5.11	Stream Physical Assessment	2-24
2.5.12	Fish and Benthic Macroinvertebrate Studies	2-32
2.5.13	Summary of Previous Studies	2-33
2.6	Hydrologic and Hydraulic Modeling	2-33

### Chapter 3 Subwatershed Issues

Introduction	3-1
3.1 Upper Popes Head Subwatershed	3-1
3.1.1 Subwatershed Characteristics	3-1
3.1.2 Storm Drain Infrastructure	3-3
3.1.3 Stream Geomorphology	3-7
3.1.4 Stream Quality	3-7
3.1.5 Stream Ecology	3-8
3.1.6 Problem Areas from Public Forum	3-8
3.1.7 Modeling Results	3-8
3.1.8 Summary	3-9

3.2	East Fork Subwatershed	3-10
3.2.1	Subwatershed Characteristics	3-10
3.2.2	Storm Drain Infrastructure	3-12
3.2.3	Stream Geomorphology	3-16
3.2.4	Stream Quality	3-16
3.2.5	Stream Ecology	3-17
3.2.6	Problem Areas from Public Forum	3-17
3.2.7	Modeling Results	3-17
3.2.8	Summary	3-18
3.3	Piney Branch Subwatershed	3-19
3.3.1	Subwatershed Characteristics	3-19
3.3.2	Storm Drain Infrastructure	3-21
3.3.3	Stream Geomorphology	3-24
3.3.4	Stream Quality	3-24
3.3.5	Stream Ecology	3-26
3.3.6	Problem Areas from Public Forum	3-27
3.3.7	Modeling Results	3-27
3.3.8	Summary	3-28
3.4	Popes Head 2 Subwatershed	3-29
3.4.1	Subwatershed Characteristics	3-29
3.4.2	Storm Drain Infrastructure	3-31
3.4.3	Stream Geomorphology	3-35
3.4.4	Stream Quality	3-35
3.4.5	Stream Ecology	3-36
3.4.6	Problem Areas from Public Forum	3-36
3.4.7	Modeling Results	3-36
3.4.8	Summary	3-38
3.5	Castle Creek Subwatershed	3-39
3.5.1	Subwatershed Characteristics	3-39
3.5.2	Storm Drain Infrastructure	3-41
3.5.3	Stream Geomorphology	3-44
3.5.4	Stream Quality	3-44
3.5.5	Stream Ecology	3-46
3.5.6	Problem Areas from Public Forum	3-46
3.5.7	Modeling Results	3-47
3.5.8	Summary	3-48
3.6	Popes Head 3 Subwatershed	3-49
3.6.1	Subwatershed Characteristics	3-49
3.6.2	Storm Drain Infrastructure	3-51
3.6.3	Stream Geomorphology	3-55
3.6.4	Stream Quality	3-55
3.6.5	Stream Ecology	3-56
3.6.6	Problem Areas from Public Forum	3-56
3.6.7	Modeling Results	3-56
3.6.8	Summary	3-58
3.7	Lower Popes Head Subwatershed	3-59
3.7.1	Subwatershed Characteristics	3-59
3.7.2	Storm Drain Infrastructure	3-61
3.7.3	Stream Geomorphology	3-65
3.7.4	Stream Quality	3-65
3.7.5	Stream Ecology	3-66
3.7.6	Problem Areas from Public Forum	3-66
3.7.7	Modeling Results	3-66
3.6.8	Summary	3-68

## **Chapter 4 Watershed Plan Actions**

4.1	Summary of Watershed Actions	4-1
4.2	Watershed Project Descriptions	4-1
4.3	Watershed Plan Vision	4-10
4.4	Goals, Objectives and Actions	4-12
Goal A:	Protect and improve the ecological health of Popes Head Creek and its tributaries.	4-13
Goal B:	Have a well informed community that is actively involved in watershed stewardship.	4-27
Goal C:	Maintain the Occoquan Reservoir as a clean and sustainable source of potable water for Fairfax County.	4-31
4.5	Benefits of Plan Actions	4-42
4.6	Implementation of Plan Actions	4-43
4.6.1	Total Cost of Implementation	4-54
4.7	Monitoring Plan	4-60

## **Chapter 5 Policy Recommendations**

5.1	Policy Recommendations	5-1
5.2	Benefits of Policy Recommendations	5-9
5.3	Implementation of Recommendations	5-10
5.4	Monitoring Plan	5-12

## **Glossary**

<b>Appendix A</b>	<b>Citizen Advisory Committee Meeting Minutes</b>
<b>Appendix B</b>	<b>Public Workshop and Reviews Meeting Minutes</b>
<b>Appendix C</b>	<b>Recommendations from Existing Studies</b>
<b>Appendix D</b>	<b>Comparison of Fish and Benthos Collections From 1976 and 1999-2002</b>
<b>Appendix E</b>	<b>Popes Head Creek Stormwater Management (SWMM) RUNOFF and TRANSPORT Model</b>
<b>Appendix F</b>	<b>Stormwater Pond Retrofit Projects</b>
<b>Appendix G</b>	<b>Low Impact Development Projects</b>
<b>Appendix H</b>	<b>Stream Restoration Projects</b>
<b>Appendix I</b>	<b>Culvert Retrofit Projects</b>
<b>Appendix J</b>	<b>Road Crossing Projects</b>
<b>Appendix K</b>	<b>Obstruction Removal Projects</b>
<b>Appendix L</b>	<b>Non-Structural Projects</b>
