
Sugarland Run Project List

Watershed Management Area: Sugarland- Folly Lick

SU9117

Rank: 46

SU9117A	SU-FL-0002	Retrofit existing dry ponds 0637DP and 0934DP as enhanced extended-detention basins including removing trickle ditches and trickle ditch in roadside swale (next to Hiddenbrook)
SU9117B	SU-FL-0002	Retrofit existing dry ponds 0827DP as enhanced extended-detention basins including removing trickle ditches

SU9118

Rank: 35

SU9118A	SU-FL-0001	Retrofit dry pond 0573DP to enhanced extended-detention basin including removal of concrete trickle ditch.
SU9118B	SU-FL-0001	Retrofit dry pond 0784DP (already naturalized) to enhanced extended-detention basin including removal of concrete trickle-ditch
SU9118C	SU-FL-0001	Retrofit dry pond 0227DP to enhanced extended-detention basin including removal of concrete trickle-ditch; Remove landscaping waste & log jam just downstream of pond outlet

SU9121

Rank: 22

SU9121A	SU-FL-0002	Retrofi existing dry pond 0260DP into enhanced extended-detetnion basin including removing trickle ditch
SU9121B	SU-FL-0002	Construct enhanced extended-detention basin

SU9122

Rank: 45

SU9122	SU-FL-0002	Retrofit existing dry pond 0283DP into enhanced extended-detention basin including removing trickle ditch
--------	------------	---

SU9123

Rank: 58

SU9123	SU-FL-0003	Retrofit existing regional dry pond 1440DP (Regional ID S-04) to enhanced extended-detention basin including removing trickle ditch
--------	------------	---

SU9127

Rank: 7

SU9127	SU-FL-0003	Retrofit existing dry pond into enhanced extended-detention basin
--------	------------	---

SU9133

Rank: 21

SU9133A	SU-FL-0006	Construct enhanced extended-detention basin.
SU9133B	SU-FL-0006	Construct enhanced extended-detention basin
SU9133C	SU-FL-0006	rain garden/bioretention
SU9133D	SU-FL-0006	rain garden/bioretention
SU9133E	SU-FL-0006	rain garden/bioretention

Sugarland Run Project List

SU9138

Rank: 26

SU9138	SU-FL-0008	New enhanced extended-detention basin, drainage area approx 34 acres
--------	------------	--

SU9142

Rank: 17

SU9142	SU-FL-0009	Retrofit existing dry pond (no StormNet ID) into enhanced extended-detention basin
--------	------------	--

SU9201

Rank: 33

SU9201A	SU-FL-0004	Remove tree obstructions, use logs to add log vanes to protect eroding banks, buffer restoration, break up concrete along bend & use to reinforce toe, extend rock below outfall to straight part of channel, add
SU9201B	SU-FL-0004	Construct enhanced extended-detention basin and improve outfall at SPA point SUFL3-1-P5

SU9202

Rank: 15

SU9202	SU-FL-0006	Daylight stream (265') and restore to natural channel, including buffer restoration, provide extensive energy dissipation
--------	------------	---

SU9204

Rank: 47

SU9204A	SU-FL-0006	Create meander and add structures to slow flow, add riparian buffer planting - woody trees preferred with shrubs and low plants/flowers where vegetation height is restricted
SU9204B	SU-FL-0006	Create meander and add structures to slow flow, add riparian buffer planting - woody trees preferred with shrubs and low plants/flowers where vegetation height is restricted

SU9503

Rank: 9

SU9503A	SU-FL-0008	Rain garden at entrance courtyard to Fortnightly Square
SU9503B	SU-FL-0008	Rain garden at entrance courtyard to Fortnightly Square

SU9511

Rank: 25

SU9511A	SU-FL-0007	Repair and vegetate swale with standing water. Replace with rain garden.
SU9511B	SU-FL-0007	Rain garden at inlet in apartment complex
SU9511C	SU-FL-0007	Rain garden at inlet in apartment complex
SU9511D	SU-FL-0007	Rain garden at inlet in apartment complex
SU9511E	SU-FL-0007	Rain garden at inlet in apartment complex
SU9511F	SU-FL-0007	Rain garden at inlet in apartment complex
SU9511G	SU-FL-0007	Rain garden at inlet in apartment complex

Sugarland Run Project List

SU9900

Rank: N/A

SU9900A	SU-FL-0007	Targeted rain barrel program at Westfield subdv
SU9900B	SU-FL-0008	Targeted rain barrel program at Fortnightly Square, Haloyon of Herndon Sect 5, Van Vlecks subdv, Ballou subdv, Saubers subdv, Herndon Station, & Herndon Park Station
SU9900C	SU-FL-0009	Targeted rain barrel program at Chandon subdv

Sugarland Run Project List

Watershed Management Area: Sugarland- Headwaters

SU9148

Rank: 65

SU9148	SU-SU-0047	Retrofit dry pond DP1219 to enhanced ED dry basin, remove concrete TD, naturalize basin btm, create marsh areas & meandering flow path to OS
--------	------------	--

SU9149

Rank: 63

SU9149A	SU-SU-0047	New extended detention SW pond adj. to playground/bball court, drainage area 7 ac
SU9149B	SU-SU-0047	New extended detention SW pond in meadow area to capture drainage channel, drainage area approx. 5 acres
SU9149C	SU-SU-0047	New cons. wetland, capture drainage channel
SU9149D	SU-SU-0047	New extended detention SW pond, drainage area 5 ac
SU9149E	SU-SU-0047	New extended detention SW Pond adjacent to walking path, drainage area approx. 6 acres, can capture runoff fr. drainage channel
SU9149F	SU-SU-0047	New naturalized dry pond, drainage area approx. 6 acres, can capture runoff fr. drainage channel
SU9149G	SU-SU-0047	New extended detention SW pond, drainage area approx. 14 acres, capture runoff fr drainage channel
SU9149H	SU-SU-0047	Improve ex. wetlands, add OS to capture runoff fr 14 acres.
SU9149I	SU-SU-0047	Break up concrete channel without disturbing riparian buffer to the extent possible, remove invasives and restore buffer where needed, plant natural meadow behind houses @ Bayard Dr. Improve bridges to protect

SU9150

Rank: 23

SU9150	SU-SU-0049	New SWM pond behind apartments and school, capture outfalls fr. inlet and drainage channel, drainage area approx 26 acres
--------	------------	---

SU9208

Rank: 49

SU9208	SU-SU-0049	Restore naturalized stream channel - include step pool features (A-type stream) and/or check dams, break up concrete channel and re-use for energy dissipation, restore/repair downstream bridge, add energy dissi
--------	------------	--

SU9209

Rank: 64

SU9209	SU-SU-0051	Repair headcuts, add checkdams/energy dissipation, vegetate understory, remove invasives
--------	------------	--

SU9210

Rank: 54

SU9210	SU-SU-0050	Break up concrete channel and leave in place for energy dissipation, re-plant riparian understory, homeowner education re: yard waste
--------	------------	---

Sugarland Run Project List

SU9909

Rank: N/A

SU9909	SU-SU-0048	Targeted Rain Barrel program Polo Fields HOA
--------	------------	--

SU9910

Rank: N/A

SU9910	SU-SU-0048	Naturalize dry pond DP0164
--------	------------	----------------------------

Sugarland Run Project List

Watershed Management Area: Sugarland- Lower

SU9100

Rank: 44

SU9100	SU-SU-0008	Retrofit dry pond 1445DP to enhanced extended detention dry basin, including installation of OS & clearing of blocked culvert pipe
--------	------------	--

SU9101

Rank: 60

SU9101A	SU-SU-0012	Retrofit dry pond 1447DP to enhanced extended detention dry basin, including removal of trickle ditch, installation of OS and increase spillway elev.
SU9101B	SU-SU-0012	Retrofit dry pond 1446DP to enhanced extended detention dry basin, including removal of trickle ditch, install OS and naturalize basin bottom.

SU9103

Rank: 38

SU9103A	SU-SU-0018	Un-clog low flow orifice, retrofit existing dry pond to enhanced extended detention dry basin including removal of concrete trickle ditch and installing structure above outlet to prevent future clogging (microp
SU9103B	SU-SU-0018	Retrofit existing farm pond to wet pond or constructed wetland, including installation of OS and expanding pond into adjacent vacant lot

SU9105

Rank: 36

SU9105	SU-SU-0013	Retrofit existing farm pond to wet pond or constructed wetland, including installation of outlet structure and draining water level.
--------	------------	--

SU9400

Rank: 8

SU9400	SU-SU-0013	Repair and replace culvert @ Kentland Drive, Create aquatic bench and micropool upstream, repair & stabilize bank erosion adjacent to culvert retrofit
--------	------------	--

Sugarland Run Project List

Watershed Management Area: Sugarland- Lower Middle

<i>S-01</i>			<i>Rank: 1</i>
S-01	SU-FF-0001	Currently Designed Regional Pond	
<i>S-05</i>			<i>Rank: 4</i>
S-05	SU-SU-0026/27	Currently Designed Regional Pond	
<i>S-07</i>			<i>Rank: 2</i>
S-07	SU-FF-0002/03/04	Currently Designed Regional Pond	
<i>SU9001</i>			<i>Rank: 5</i>
SU9001A	SU-FF-0001	LID: install bioswales, remove riprap and allow channels to naturalize, install rg, wetland or pond at toe of slope at 96c	
SU9001B	SU-FF-0001	LID: install bioswales, remove riprap and allow channels to naturalize, install rg, wetland or pond at toe of slope at 96c	
SU9001C	SU-FF-0001	LID: install bioswales, remove riprap and allow channels to naturalize, install rg, wetland or pond at toe of slope at 96c	
<i>SU9005</i>			<i>Rank: 11</i>
SU9005A	SU-SU-0026	infiltration trench/vegetated swale	
SU9005B	SU-SU-0027	Naturalize farm pond edges, allow emerging wetlands to increase, add OS, drain	
SU9005C	SU-SU-0026	create rain garden in church yard w/ educational signage	
SU9005D	SU-SU-0026	SW Retrofit: Retrofit dry pond DP0562 to enhanced ED basin, remove conc. TD, raise OS, encourage wetland plants	
SU9005E	SU-SU-0027	SW Retrofit: Retrofit dry ponds 0570DP to enhanced ED dry basin, remove conc. TD, naturalize basin btm w/ wetland plants	
SU9005F	SU-SU-0027	SW Retrofit: Retrofit dry ponds 1332DP to enhanced ED dry basin, remove conc. TD, naturalize basin btm w/ wetland plants	
SU9005G	SU-SU-0026	LID: vegetated filter strip or rain garden above and below culvert	

Sugarland Run Project List

SU9007

Rank: 13

SU9007A	SU-FF-0004	Retrofit farm pond to constructed wetland or wet pond, add wetland plants, expand
SU9007B	SU-FF-0004	Retrofit farm pond @ 99s to constructed wetland or wet pond w/ OS & lowered water level
SU9007C	SU-FF-0002	Install new SW pond or wetland near nature trail, remove TD & replace gravel bed (north of stream) with rain garden
SU9007D	SU-FF-0004	New SW: new swm pond to intercept storm drains western part of Cedar Chase, drainage area approx. 6.5 acres
SU9007E	SU-FF-0004	Culvert Retrofit: ProRata DR-7: remove sed, replace culvert, raise road bed, create u/s micropool
SU9007F	SU-FF-0003	Culvert Retrofits: Pro Rata Project No. DR-6 - plunge pool d/s, repair/replace culvert & raise road bed
SU9007G	SU-FF-0003	Pro Rata Project DR-5 - remove sediment, replace culvert, raise road bed and stabilize stream banks
SU9007H	SU-FF-0004	Retrofit farm pond to constructed wetland, drain & install OS
SU9007I	SU-FF-0004	Retrofit dry pond 1063DP enhanced ED dry basin, remove TD, nat. basin btm, raise OS
SU9007J	SU-FF-0002	SW pond retrofit: Retrofit dry pond 0727DP to enhanced extended detention dry basin, naturalize w/ wetland plantings and raise OS for add'l storage
SU9007K	SU-FF-0004	Road crossing improvement: Replace culvert at Shaker Woods Rd crossing and stabilize stream banks (Pro Rata Project DR-8)
SU9007L	SU-FF-0004	SW Retrofit: Retrofit dry pond DP0564 to enhanced ext. det.dry basin incl. removing T.D, raising OS, and naturalizing basin btm

SU9106

Rank: 53

SU9106A	SU-SU-0021	Retrofit dry pond 1382DP to enhanced ED dry basin, remove concrete trickle ditches, naturalize basin btm.
SU9106B	SU-SU-0021	Retrofit dry pond 1454DP to enhanced ED dry basin, including removal concrete TD, naturalize basin btm.
SU9106C	SU-SU-0021	create rain garden in depressed area w/ inlet

SU9107

Rank: 24

SU9107	SU-SU-0028	Retrofit dry pond 1034DP to function properly as extended detention/bioretenion basin including raising low flow outlet structure, construct micropool above outlet to reduce clogging, reinforce/re-plant draina
--------	------------	---

SU9108

Rank: 41

SU9108A	SU-SU-0028	Retrofit dry pond to enhanced ED dry basin, raise OS, improve quality of vegetation in basin
SU9108B	SU-SU-0028	Retrofit 0570DP to enhanced ED dry basin, raise OS, provide signage

Sugarland Run Project List

SU9110

Rank: 48

SU9110	SU-SU-0028	Enlarge existing dry pond and retrofit to enhanced extended detention basin
--------	------------	---

SU9111

Rank: 32

SU9111	SU-SU-0029	SW retrofit basin to high quality constructed wetlands w/ sed forebays, proper OS, defined marsh areas and high quality wetland plantings
--------	------------	---

SU9112

Rank: 34

SU9112A	SU-SU-0030	SW Retrofit: restore pond to original capacity, remove sediment and regrade, install OS, plant w/ native wetland plantings
SU9112B	SU-SU-0030	Retrofit existing outlets for dry pond 0074DP to extended detention, northern outlet must accomodate base flow, basin already naturalized with quality vegetation
SU9112C	SU-SU-0030	Install stilling pond below culvert & rip rap t

SU9115

Rank: 3

SU9115A	SU-MB-0001	Retrofit dry pond 0828DP into enhanced ED dry basin, 85 ac. total drainage area, install OS & remove concrete TD
SU9115B	SU-MB-0001	Retrofit in-line dry pond 0308DP, 22 ac. total drainage area, install OS & wetland plantings, signage for education

SU9200

Rank: 6

SU9200	SU-SU-0028	Repair eroded banks throughout SPA erosion reach SUSU1-2-E4, re-connect stream with floodplain; Improve HB stream channel (re-grade banks) and outfall at SPA ditch SUSU1-2-D9 and clear obstructions upstream and
--------	------------	--

SU9901

Rank: N/A

SU9901A	SU-FF-0003	Riparian buffer restoration downstream of Suart Hills Way crossing
SU9901B	SU-SU-0024	Remove construction debris, cut/fill spoils, reforest or restore riparian buffer
SU9901C	SU-SU-0026	Non-structural - riparian buffer restoration along Leesburg Pike @ driving range, will also provide highway screening
SU9901D	SU-SU-0027	Riparian buffer restoration downstream of farm pond
SU9901E	SU-SU-0031	Vegetate steep slopes, install terraced gardens/bioretenion below outfall, plan better/sturdier vegetation (meadow plants) in low, flat area

Sugarland Run Project List

SU9902

Rank: N/A

SU9902A	SU-FF-0001/SU-SU-0030	Rain barrel program Sugar Creek Sec. 1 HOA
SU9902B	SU-FF-0004	Rain Barrel Program Stuart Hills HOA, Cedar Chase HOA, and Oak Creek Estates
SU9902C	SU-FF-0004	Rain Barrel Program Forest Heights Estates & Stoney Creek Woods HOA
SU9902D	SU-MB-0001	Rain barrel program Hastings Hunt sec. 6 HOA and portion of Jenkins Ridge HOA
SU9902E	SU-SU-0027	Rain barrel program Holly Knoll HOA
SU9902F	SU-SU-0031	Rain Barrel Program Crestbrook HOA

SU9903

Rank: N/A

SU9903A	SU-MB-0001	Conservation easement or lot purchase to preserve riparian buffer and forested open space
SU9903B	SU-SU-0019/20/21	Conservation easement to preserve riparian buffer, wide buffer for habitat preservation most desirable

SU9904

Rank: N/A

SU9904	SU-SU-0030	Educate homeowners on erosion control BMPs and yard waste as an improper control measure
--------	------------	--

Sugarland Run Project List

Watershed Management Area: Sugarland- Upper

<i>SU9139</i>			<i>Rank: 51</i>
SU9139	SU-SU-0040	SW Retrofit: Retrofit dry pond 1456DP to naturalized dry basin, remove conc. TD & naturalize with wetland plantings	
<i>SU9140</i>			<i>Rank: 70</i>
SU9140A	SU-SU-0041	Create a enhanced ED dry basin, replace manhole w/ OS, naturalize w/ wetland plantings	
SU9140B	SU-SU-0041	Retrofit ex. dry pond to enhanced ED dry basin, naturalize basin btm, raise OS.	
<i>SU9141</i>			<i>Rank: 39</i>
SU9141	SU-SU-0041	Retrofit ex. dry pond to enhanced ED dry basin, naturalize w/ wetland plants	
<i>SU9143</i>			<i>Rank: 39</i>
SU9143A	SU-SU-0041	SW Retrofit: Retrofit dry pond off Grove St to enhanced ED dry basin, naturalize basin btm, add OS	
SU9143B	SU-SU-0041	SW Retrofit: Retrofit dry pond off Grove St to enhanced ED dry basin, naturalize basin btm, add OS	
<i>SU9146</i>			<i>Rank: 70</i>
SU9146A	SU-SU-0041	Ex. swale & rain garden drains to dry pond present, naturalize w/ wetland plants & remove conc. TD	
SU9146B	SU-SU-0041	New extended detention SW pond, drainage area approx. 10 acres	
<i>SU9147</i>			<i>Rank: 65</i>
SU9147	SU-SU-0046	Retrofit dry pond DP0372 to enhanced extended-detention basin, including removal of trickle ditch	
<i>SU9206</i>			<i>Rank: 37</i>
SU9206	SU-SU-0040	Comprehensive stream restoration, repair bridges & headcuts in drainage channels, stop mowing riparian zone, possible LID throughout parking lots (already have curb cuts)	
<i>SU9207</i>			<i>Rank: 12</i>
SU9207	SU-SU-0042	Repair drainage outfall and stabilize/provide energy dissipation, add rip rap/boulder toe all along outer bend through straight section downstream, stop cutting riparian vegetation	

Sugarland Run Project List

SU9505

Rank: 61

SU9505A	SU-SU-0041	veg. filter/infil trench in church pkg lot
SU9505B	SU-SU-0041	potential rain garden @ inlets adjacent to building
SU9505C	SU-SU-0041	vegetate swale & create rain garden w/ OS
SU9505D	SU-SU-0041	veg. filter/infil trench in church pkg lot

SU9510

Rank: 27

SU9510A	SU-SU-0040	potential green roof areas on commercial bldgs.
SU9510B	SU-SU-0040	rain garden possible @ Cardinal Bank
SU9510C	SU-SU-0040	Improve swale along FFX Co. Pkwy., naturalize with wetland plants, install check dams
SU9510D	SU-SU-0040	potential green roof areas on commercial bldgs.
SU9510E	SU-SU-0040	potential green roof areas on commercial bldgs.
SU9510F	SU-SU-0040	Create curb cut & lower planting beds
SU9510G	SU-SU-0040	Create curb cut & lower planting beds
SU9510H	SU-SU-0040	Disconnect roof drains to landscape areas & install rain garden in courtyard

SU9512

Rank: 50

SU9512B	SU-SU-0042	Grass swales can be naturalized, potential for green roofs, educational and outreach program @ hospital
---------	------------	---

SU9513

Rank: 29

SU9513	SU-SU-0043	LID: New veg/grass swale w/ check dams & infiltration trench to bioretention, good location for rain garden
--------	------------	---

SU9514

Rank: 72

SU9514	SU-SU-0045	New LID treatments around parking lot. Remove trapezoidal ditch and naturalize/bioretention/infiltration.
--------	------------	---

SU9515

Rank: 62

SU9515A	SU-SU-0045	Rain garden to capture pipe outfalls at manhole in SE corner of property
SU9515B	SU-SU-0045	rain garden

Sugarland Run Project List

SU9905

Rank: N/A

SU9905A	SU-SU-0040	Targeted rain barrel program @ Crestview Sec. 1 & Runnymede Manor
SU9905B	SU-SU-0040	Targeted rain barrel program @ Stuart Woods, Reston Sec. 49 & Towns at Stuart Pointe

SU9906

Rank: N/A

SU9906A	SU-SU-0042	Naturalize dry pond DP0564 with wetland plantings
SU9906B	SU-SU-0043	Vegetate existing dry pond
SU9906C	SU-SU-0044	Vegetate existing swale
SU9906D	SU-SU-0045	Vegetate SW Facility DP0421
SU9906E	SU-SU-0045	Vegetate SW Facility DP0440
SU9906F	SU-SU-0046	Vegetate SW Facility DP0202

SU9907

Rank: N/A

SU9907	SU-SU-0043	Conservation easement and riparian buffer restoration, minimum of 100' wide to provide nutrient removal, sediment control, flood control, slated for industrial development contains numerous tributaries
--------	------------	---

Sugarland Run Project List

Watershed Management Area: Sugarland- Upper Middle

S-02

Rank: 14

S-02	SU-RI-0003	Currently Designed Regional Pond
------	------------	----------------------------------

SU9002

Rank: 20

SU9002A	SU-RI-0003	New SW: new swm pond to intercept storm drains from Caris Glenne HOA, drainage area approx. 7 acres in low area adjacent to gas easement
SU9002B	SU-RI-0003	LID: New rain garden, educational signage
SU9002C	SU-RI-0003	Retrofit dry pond 0337DP @ 166l to enhanced ED dry basin, remove concrete low flow channel, deepen basin; Drainage improvement @ 166n, remove conc. channel & improve outfalls
SU9002D	SU-RI-0003	Culvert Retrofit: Repair/stabilize culvert under path & eroded banks, pot. for micropool u/s of sidewalk culvert, educational signage

SU9120

Rank: 43

SU9120A	SU-SU-0032	SW Retrofit: Retrofit dry pond 0434DP to constructed wetland, add OS and improve channel and storage
SU9120B	SU-SU-0032	Retrofit dry pond 0845DP to enhanced ED dry basin, remove conc. trickle ditch, naturalize basin btm w/ wetland plants

SU9124

Rank: 10

SU9124A	SU-RI-0001	SW Retrofit: Retrofit DP off Northpoint Glen Ct to enhanced ED dry basin, remove conc. TD, naturalize basin btm & repair embankment damage
SU9124B	SU-RI-0001	SW Retrofit: Retrofit dry pond 1032DP to enhanced ED dry basin, naturalize basin btm & regrade to prevent short circuiting

SU9128

Rank: 18

SU9128	SU-RI-0002	Retrofit dry pond 0887DP to enhanced ED dry basin, remove conc TD, naturalize basin btm & incoming swale, install OS, pot. infiltration capacity
--------	------------	--

SU9129

Rank: 55

SU9129	SU-RI-0002	Clear outlet at dry pond 0336DP, install micropool above outlet structure to help avoid future clogging, re-plant floodplain/pond with proper floodplain/riparian vegetation, break up conc. channel u/s
--------	------------	--

SU9130

Rank: 66

SU9130	SU-SU-0034	New SW: new swm pond in undeveloped OS lot, drainage area approx. 28 acres, create swale behind homes to direct runoff to new facility
--------	------------	--

SU9131

Rank: 30

SU9131	SU-SU-0036	New SW: new swm pond in Neil A. Armstrong Elem School, drainage area approx. 13.5 acres, educational opportunities; intercept outfalls from adjacent HDR area
--------	------------	---

Sugarland Run Project List

SU9134

Rank: 28

SU9134A	SU-SU-0036	New SWM pond in lower part of swale between both fields, convey SW fr. development to new basin; Naturalize stream channel, add structures to slow flow, add riparia
SU9134B	SU-SU-0036	regrade pkg. lot islands for bioretention

SU9135

Rank: 52

SU9135A	SU-SU-0039	Retrofit SWM pond to enhanced ED basin, naturalize basin, remove conc. trickle ditch, define swale or add sed. forebay
SU9135B	SU-SU-0039	Install infil trench/veg filters along parking lot islands
SU9135B	SU-SU-0039	Install infil trench/veg filters along parking lot islands
SU9135C	SU-SU-0039	add rain garden at front courtyard, disconnect roof leaders

SU9136

Rank: 67

SU9136	SU-SU-0039	New SW: new swm pond in OS lot east of Herndon Pkwy, drainage area approx. 40 acres
--------	------------	---

SU9137

Rank: 19

SU9137	SU-SU-0038	New swm pond in OS lot, drainage area approx. 18 acres adjacent to walking path, good educational opportunity
--------	------------	---

SU9144

Rank: 56

SU9144A	SU-SU-0037	New SW: new swm pond in OS lot along Cameron Glen Dr., drainage area approx. 6 acres
SU9144B	SU-SU-0037	new swm pond in OS lot along Fountain Dr., drainage area approx. 13 acres, educational opportunities
SU9144C	SU-SU-0037	New swm pond in LIC lot along Bowman Towne Dr., drainage area approx. 6 acres
SU9144D	SU-SU-0037	new swm pond, drainage area approx. 13 acres, educational opportunities

SU9203

Rank: 69

SU9203	SU-SU-0039	Culvert retrofit US of driveway culvert, infiltration trench along p lots, raise 1 culvert for higher flows to help develop floodplain, remove debris jam at US trib, break up concrete channel and use as toe prot
--------	------------	---

SU9205

Rank: 15

SU9205A	SU-SU-0035	Add check dams & vegetate banks.
SU9205B	SU-SU-0035	Add check dams & vegetate banks.

Sugarland Run Project List

SU9500

Rank: 59

SU9500A	SU-SU-0032	LID: New LID treatments in interior courtyard -rain garden/veg filters. Implement educational programs w/ Herndon H.S.
