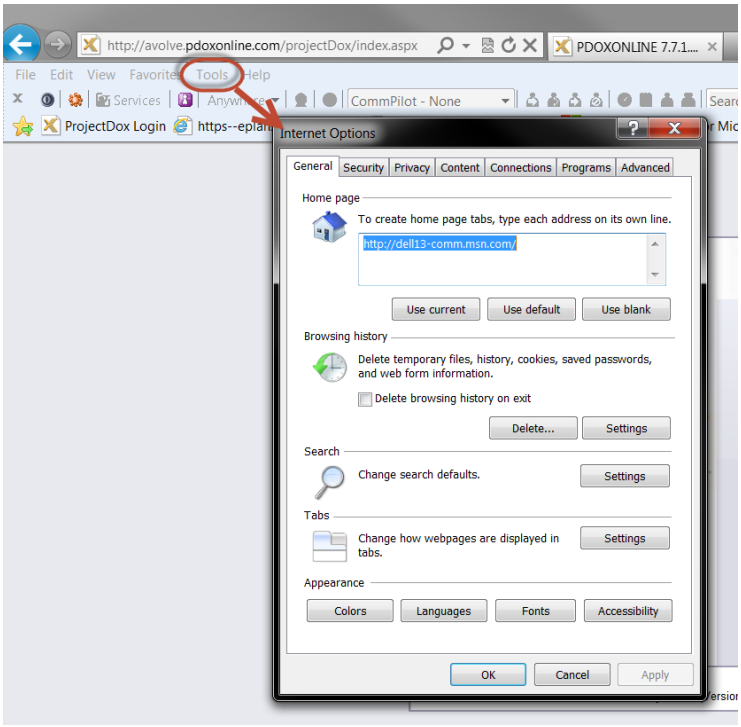
Internet Explorer 10

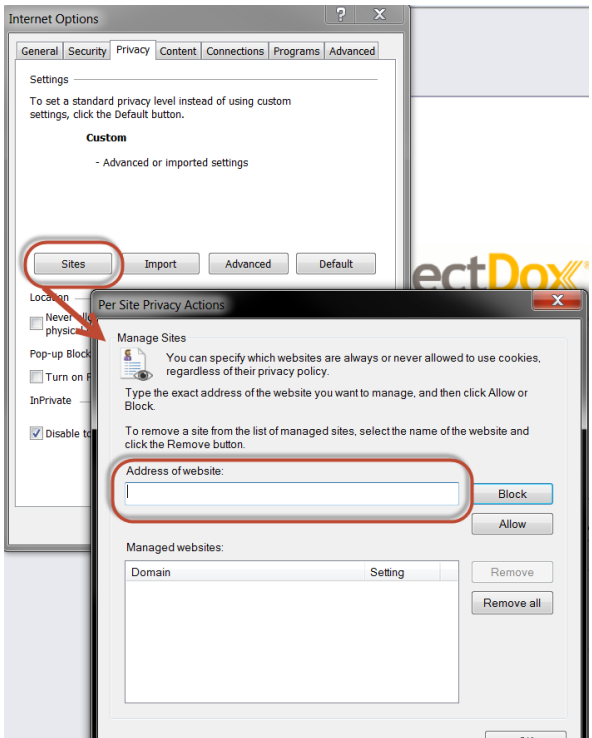
This Support Bulletin provides you with some important information about your ProjectDox® software and the latest compatibility with Internet Explorer 10. By adding the site to your trusted sites, changing some internet options and running compatibility mode it enables IE10 to work with ProjectDox.

By following the simple steps in this bulletin you will be able to use ProjectDox in IE10.

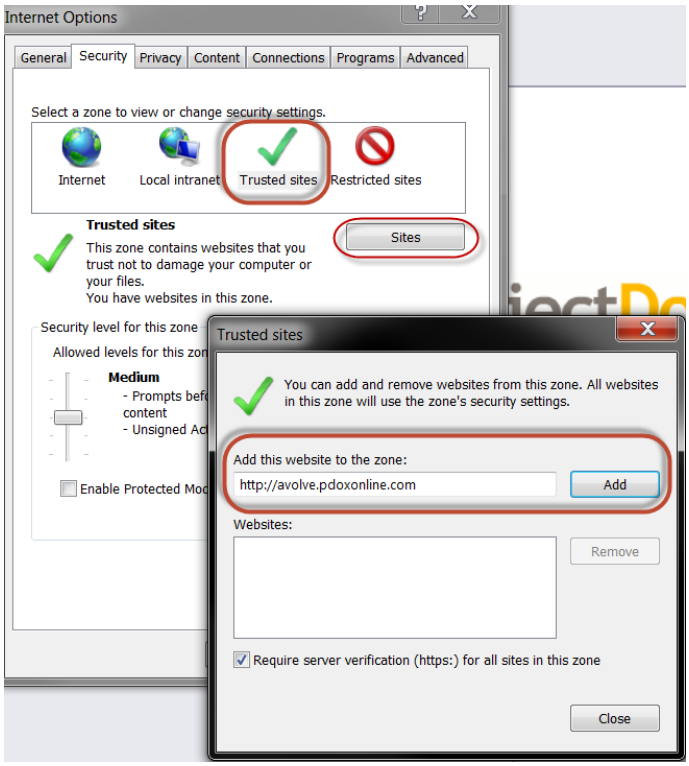
1. Open up Internet Explorer 10.
2. Go to **Tools** and at the bottom of the list select **Internet Options**.



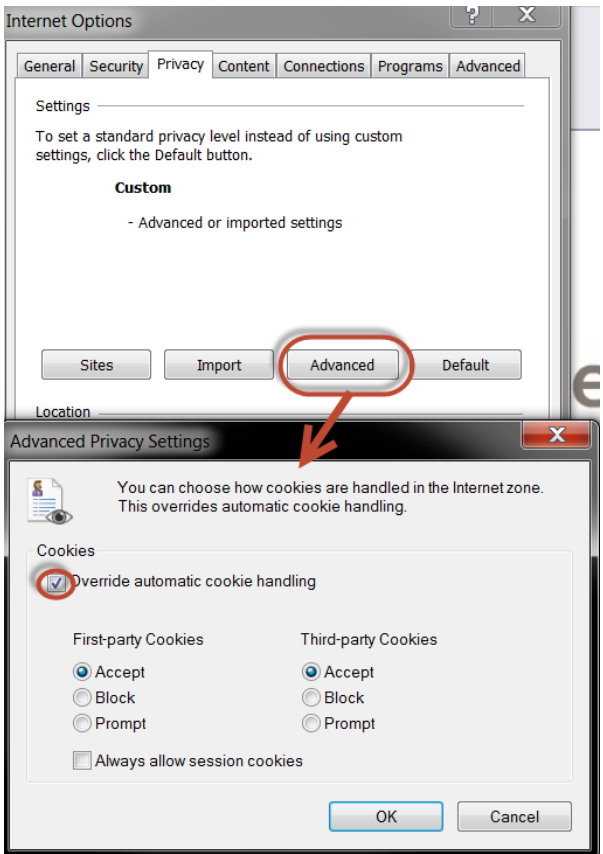
3. Select the **Privacy Tab**. Press the button called **Sites**. Add the ProjectDox website link and click **Allow.**



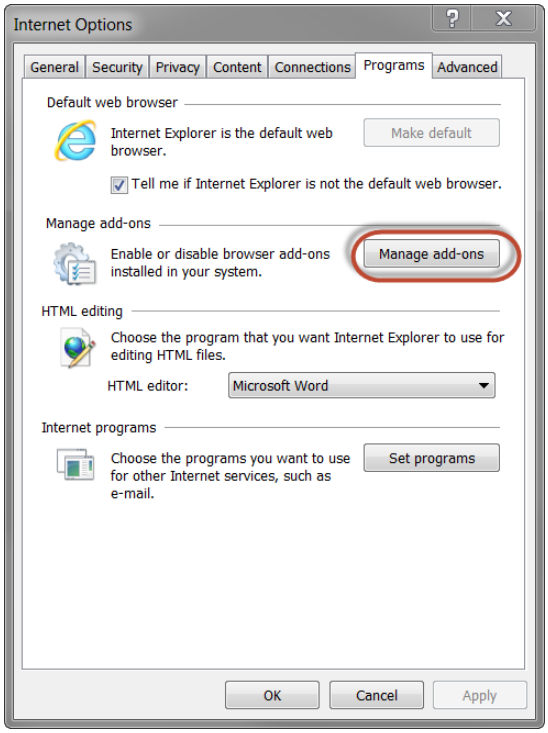
4. Select the **Security Tab**. Select **Trusted Sites** and press the button called **Sites**. Add <u>your ProjectDox website</u> link and click **Add**.



5. Now select the button **Advanced** under the **Privacy Tab.** Select **Override automatic cookie handling**.

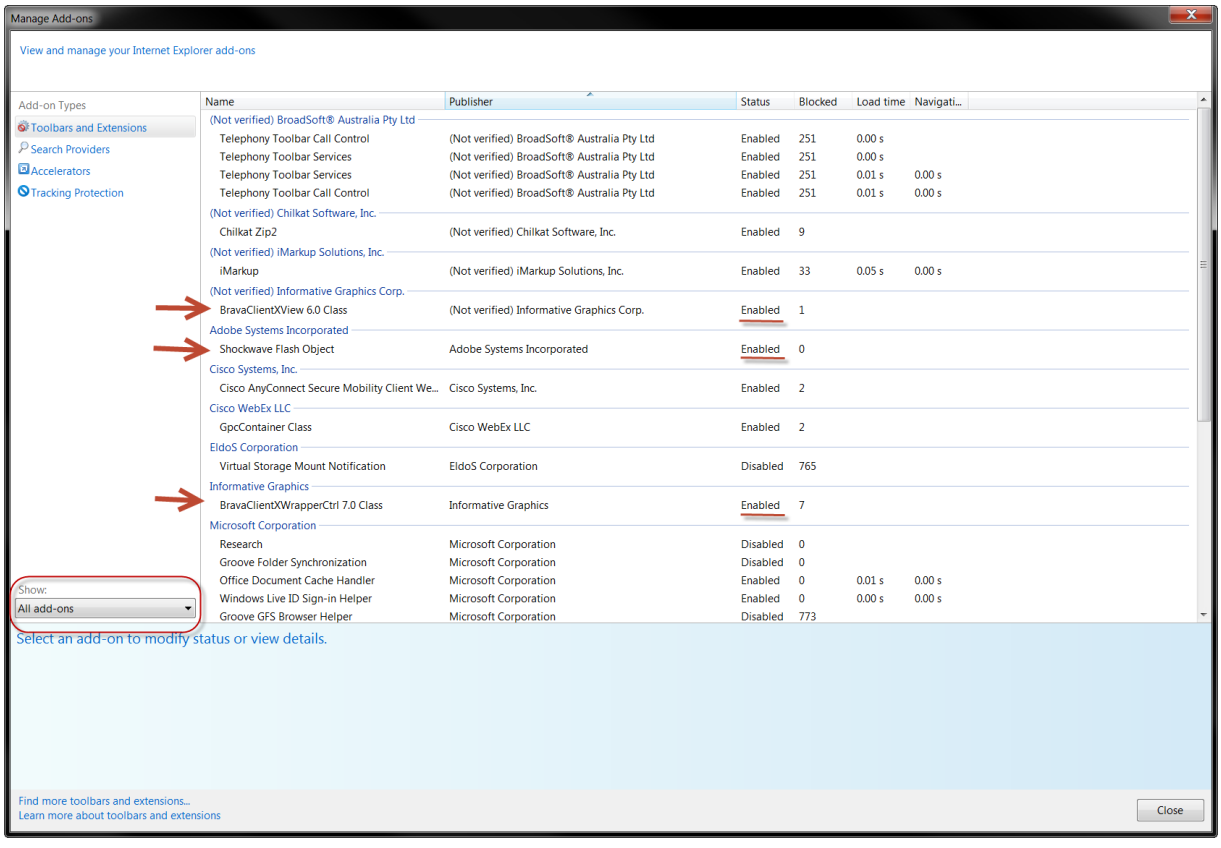


6. Select the **Programs Tab**. Press the button called **Manage add-ons.**

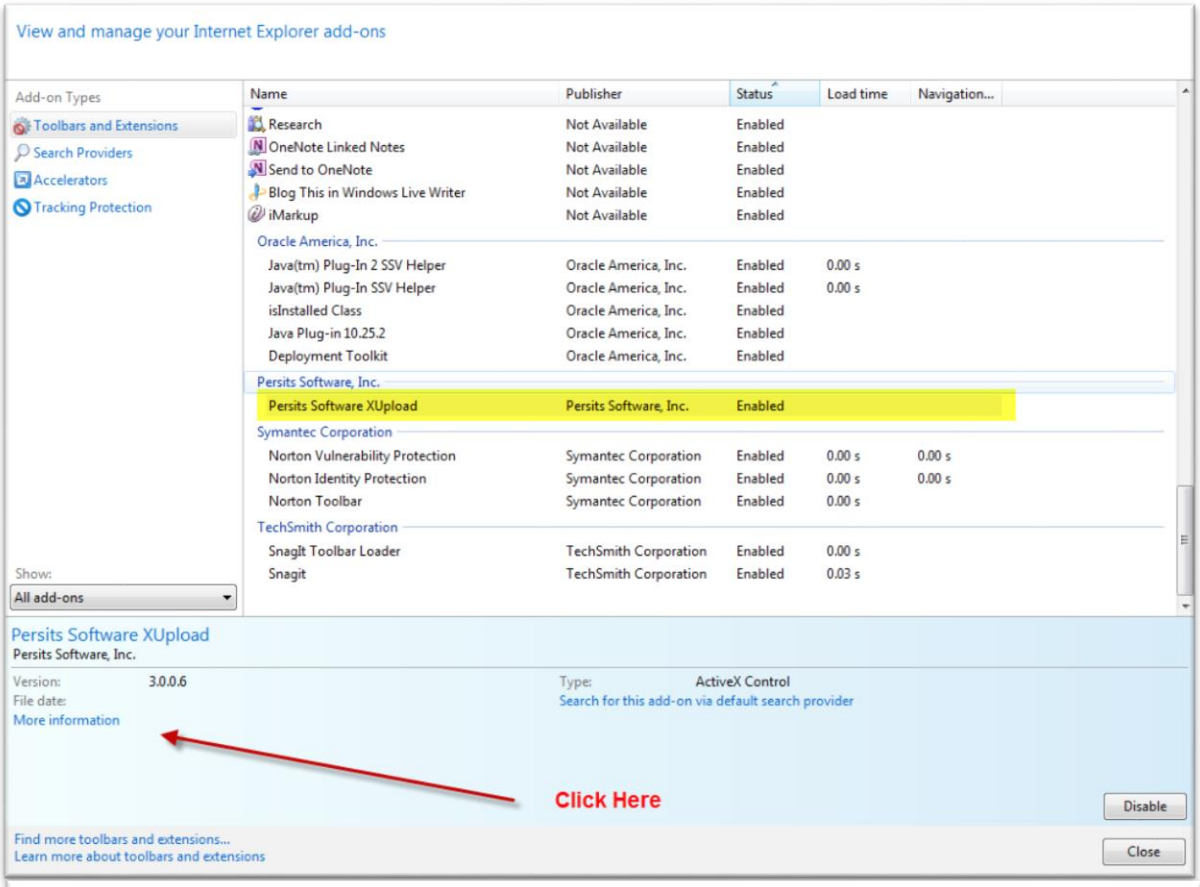


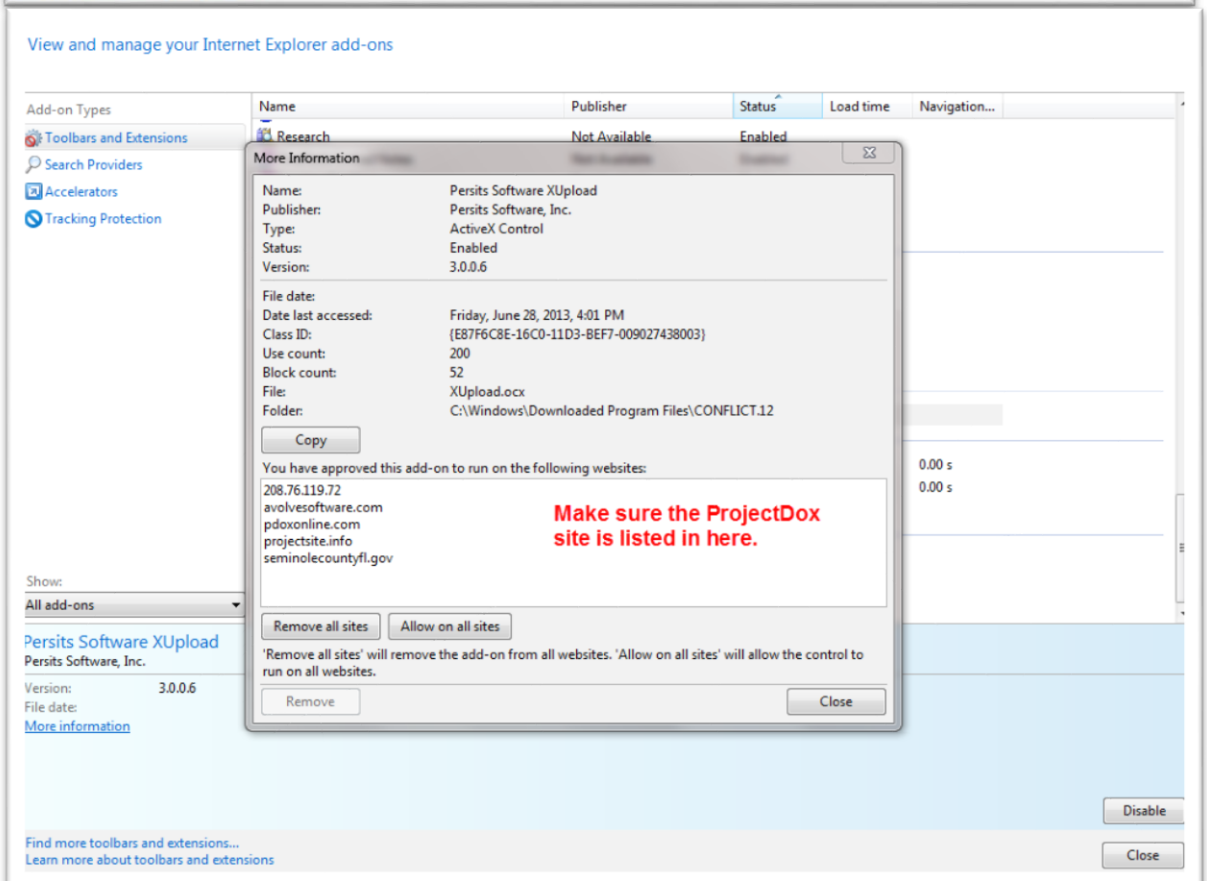
7. Now under **Show:** Select **All add-ons**. On the right there will be all the add-ons. Look into those and verify all of *the Informative Graphics, Chilkat Software Inc, Persists Software XUpload and Microsoft Silverlight* are all enabled.

Note: *If the column called status is not visible, right click on a header such as Publisher and select Columns and finally select status.*

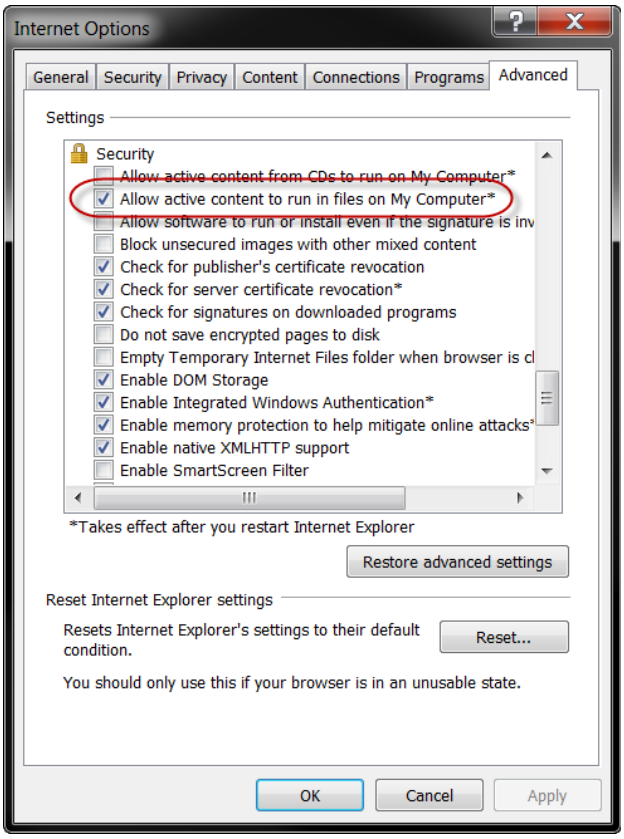


8. Look for **Persists Software XUpload** and click on **more information** on the bottom under Version. Make sure the ProjectDox Site is listed inside the white box. Press the **Close** Button.

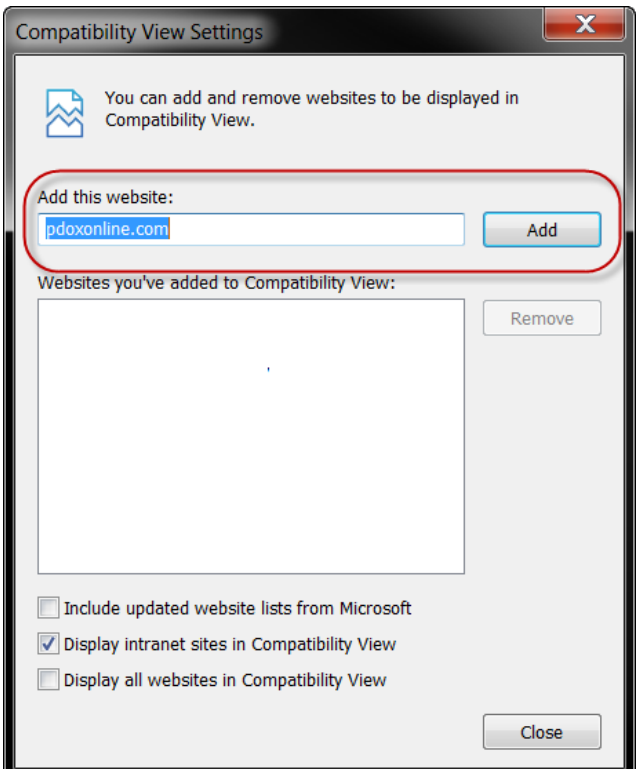




9. Select the **Advanced Tab**. Under **Settings** go to **Security** and under it select **Allow active content to run in files on My Computer.** Press **Ok** Button.



10. Finally, go to **Tools** like in Step 2 but this time select **Compatibility View Settings** on the menu. Add <u>your ProjectDox website</u> link and click **Add. Close all IE Windows and then restart IE**.

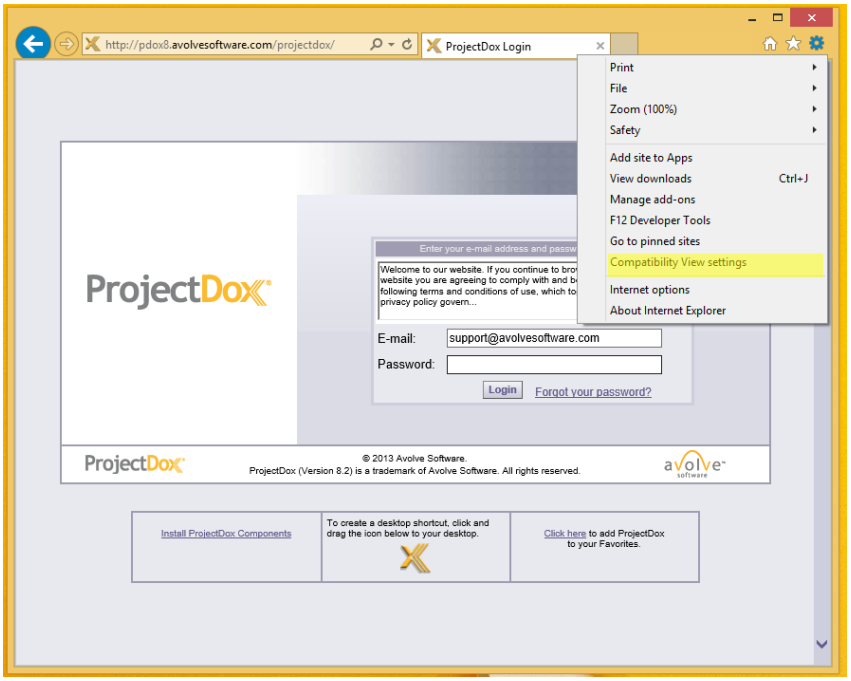


Internet Explorer 11

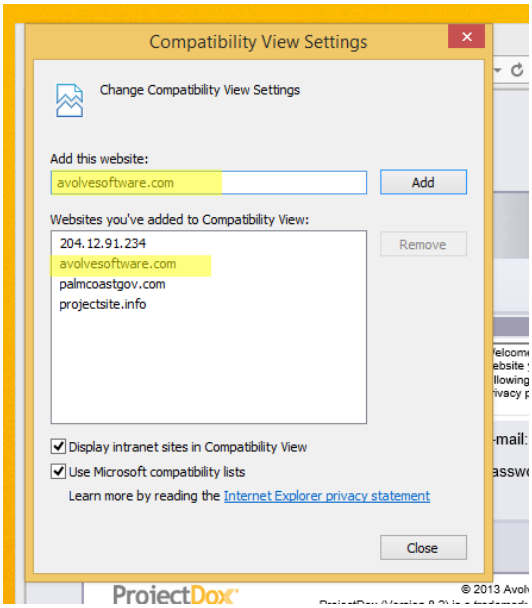
This Support Bulletin provides you with some important information about your ProjectDox® software and the latest compatibility with Internet Explorer 11. By adding the site to your trusted sites, changing some internet options and running compatibility mode it enables IE11 to work with ProjectDox.

By following the simple steps in this bulletin you will be able to use ProjectDox in IE11.

1. Open up Internet Explorer 11.
2. Go to **Tools** and Choose **Compatibility View settings**



3. Make sure the domain of the ProjectDox site is visible in the: **Add this website**.



4. Click **Add** and verify that it is now visible in the: **Websites you've added to Compatibility View:**
