

Public Facilities: Water + Sewer

Water + Sewer

General Information

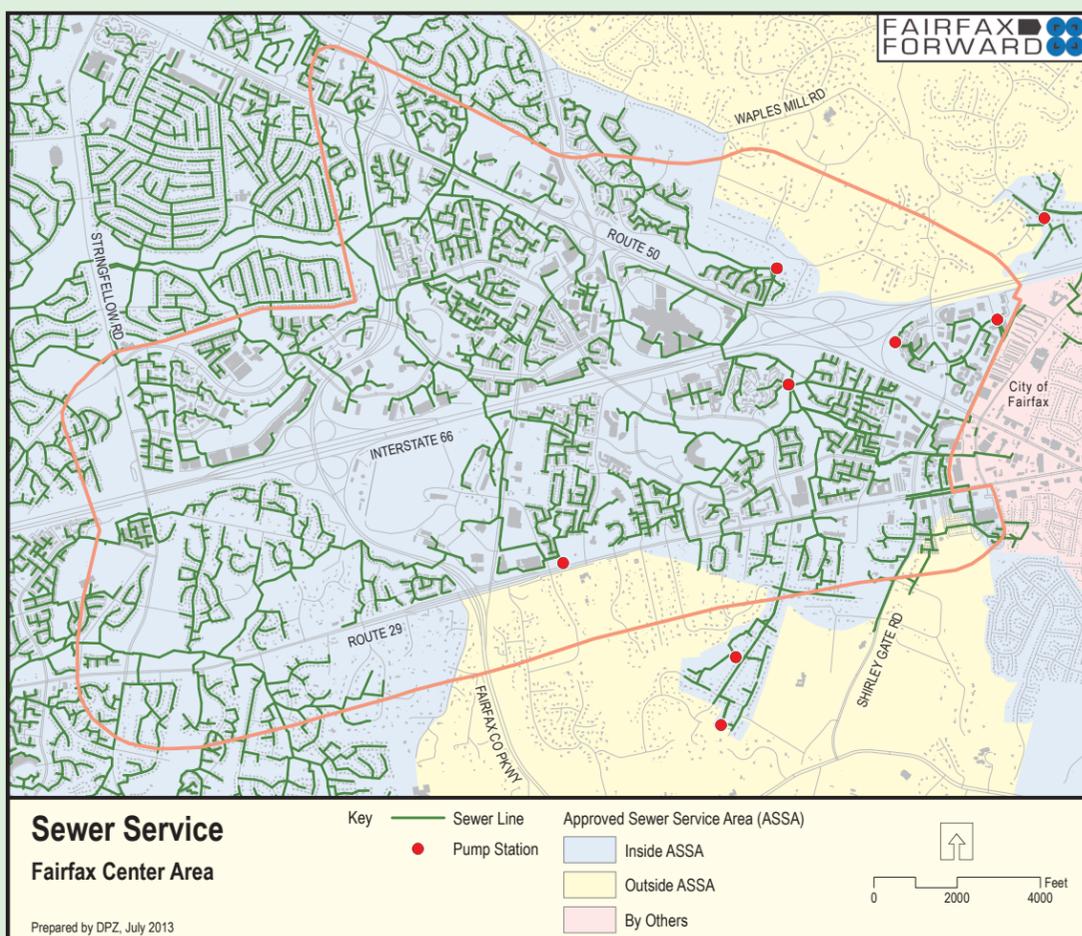

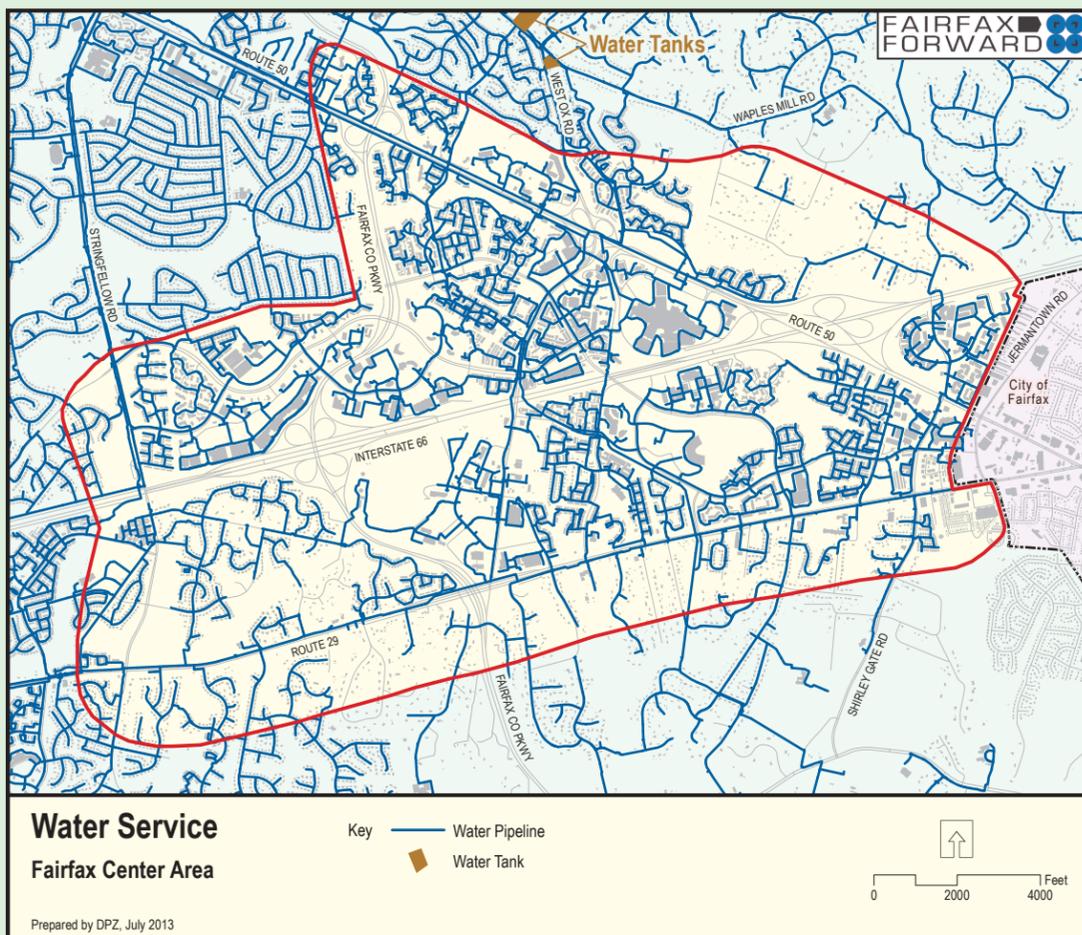

- » Water service is provided by Fairfax Water, which operates two water treatment plants with a combined capacity of 345 million gallons per day. The plants include the Corbalis Treatment Plant on the Potomac River in northwestern Fairfax County, and the Griffith Treatment Plant located on the Occoquan River.
- » Wastewater treatment is provided by the Noman M. Cole Jr. Pollution Control Plant and the Upper Occoquan Service Authority treatment plant.
- » Portions of the Fairfax Center Area are outside of the Approved Sewer Service Area (ASSA), including areas south of Lee Highway and part of the Fairfax Farms subdivision. These areas are generally planned for low-density residential which do not require public sewer service.

Noman M. Cole Jr. Pollution Control Plant located in Lorton, VA.
