What?

Review a presentation on the preferred, land use concept for a portion of the Baileys Crossroads Community Business Center (see map above). This concept will make this area more urban and accessible to pedestrians, bicyclists and transit riders while maintaining compatibility with surrounding neighborhoods.

The preferred concept was developed based on public input on two previous conceptual options. It incorporates desired elements from both.

Good to know

- *The preferred concept will be used to recommend changes to the Comprehensive Plan for this area, as well as ways to implement the changes.*
- *Public participation was an important part of this planning study. Community meetings provided key opportunities for residents to offer comments and input. Summaries of all community meetings and comments are available online.*
- *An 11-member Citizens Advisory Committee (CAC) was appointed by the Mason District supervisor to coordinate community outreach activities. This committee directed and advised county staff and a consultant on conducting effective community outreach throughout the process.*
