**CONSTRUCTION OF SUNRISE VALLEY WETLANDS**

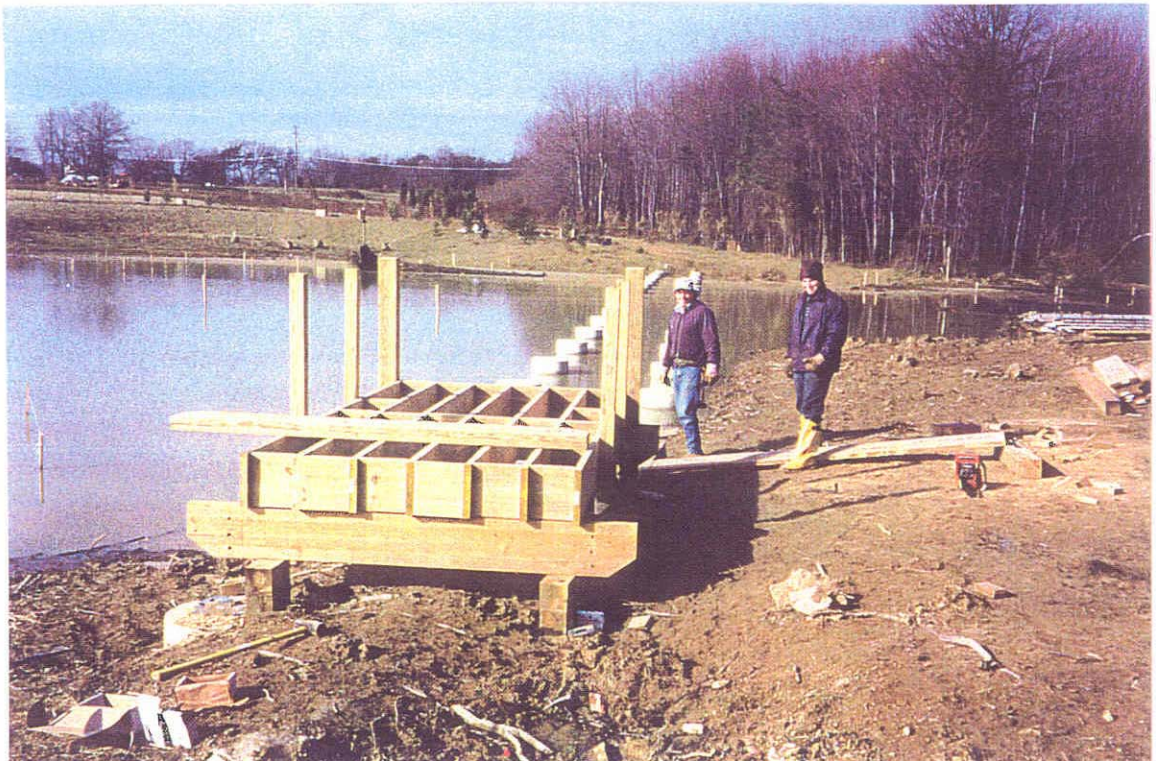
1. Aug.11, '94 Land clearing, viewed from what is now the upper wetlands, looking east.

2. Aug. 11, '94 A new berm was built around the east and north sides of the existing farm pond.

7. Oct. 29, '94 A claymax liner was put down in the wetlands area.

8. Oct. 29, '94 Hydric soil which had been removed from another site, was placed in the northwest section of the wetlands, on top of the liner.

11. Dec. 15, '94 Numerous trees and shrubs were planted along with the seeding of grasses and wetland plants.



15. Jan. 8, '95 Planting completed. Looking northeast, the bridge is not quite finished.
