

PEDESTRIAN CONNECTIVITY IN RESTON

Background

In previous community meetings, staff heard that people are interested in enhancing pedestrian connectivity in Reston. To help us better understand how connectivity could be improved, please respond to the questions below. We would also like you to prioritize potential destinations and prioritize types of improvements to make getting to those destinations easier via the charts on the large poster boards in the room.

WHERE DO YOU LIVE?

WHERE DO YOU WALK TO NOW?

Please circle all of the places which are walking destinations for you.

Village Centers / Metro Station (existing or planned) Bus Stops / Schools /

Parks & Recreation Facilities / Town Center /

Other (describe): _____

WHERE WOULD YOU LIKE TO WALK TO?

Please circle all of the places that you would like to walk to but find you do not walk to because of some type of impediment.

I can walk to all the places I want to / Village Centers / Metro Station (existing or planned) / Bus Stops / Schools / Parks & Recreation Facilities / Town Center /

Other (describe): _____

Feel free to add any comments re: why you do not walk to any other places specified above.

PEDESTRIAN CONNECTIVITY IN RESTON (Continued)

IDENTIFY IMPROVEMENTS NEEDED TO HELP YOU GET THERE

Below are listed some types of improvements that could improve Reston's walkability. Please fill in the table with your ideas re: where improvements are needed (in a general way, for example "near Village Centers" or "along main roads near schools) and why improvements are necessary (for example, "sidewalks near Village Centers are too narrow for pedestrians to comfortably pass each other")

<i>Type of Improvement</i>	<i>Where Needed</i>	<i>Why Needed</i>
Sidewalks or multi-use trails along roads		
Multi-use trails away from roads		
Lighting		
Traffic Calming Measures		
Pedestrian underpasses or overpasses		
Pedestrian signage and safety treatments		
Crosswalks		
Curb ramps		
Other (describe)		

Please return to staff or take home and complete and mail to:
