

UTILITY WORK HAS STARTED

In preparation for Metro's arrival to Tysons

January 2008

Enhancing Route 7 ***Improving Travel Flow & Pedestrian Access on Leesburg Pike***

- The utility relocations are part of the Route 7 enhancement along the future rail project alignment.
- Additional Project Improvements:
 - Utilities to be moved underground
 - Sidewalks added on both sides
 - Route 7 widened to four lanes in each direction
 - Dual left turns at Tyco, Spring Hill and Gosnell/West Park intersections
 - Pedestrian bridges across Routes 7 and 123

Work to Begin Along Service Roads

- Utility work has started with Washington Gas Company working in the service road south of Leesburg Pike in front of Business Bank (east of Gosnell Road) and moving east towards Route 123.
- Short sections of one lane of the service road will be closed as work requires and traffic will be eastbound only in that section. The work lane will reopen after construction is completed. Access to all businesses will be maintained.

Utility Crossings on Route 7

- Washington Gas will be working in a small section of the main lanes of Leesburg Pike (Route 7) just east of Gosnell Road at night (between 9pm and 5am).
- One or two lanes may be closed during part of the overnight hours, but all lanes will be restored to service by 5am each morning.

Utility Relocation Overview

The Dulles Corridor Metrorail Project has started utility relocations along Route 7 between Route 123 and the Dulles Toll Road. These relocations are necessary prior to starting the construction of the rail project.

Timeline for Utility Relocation Work

- Washington Gas is scheduled to conclude all their work in approximately 4 months.
- Several other utility companies will be relocating utilities along the service roads - taking approximately **24 months** to complete.
- Information regarding the other project utility relocations will be distributed in January. If you have questions, please contact Dulles Transit Partners at 703-288-5900.

During Utility Relocation

Temporary Lane Closures on Service Roads Only
