

NEXT STEPS FOR THE TASK FORCE

(Note: Represents staff's understanding, and is for discussion purposes only. To be refined and revised through Task Force input.)

1. Public Input to Prototypes

At the winter workshops and online, the Task Force will seek specific public input to a variety of key aspects for the future of Tysons.

2. Draft Preferred Alternative

The consulting team and staff will work with the Task Force to create the "Preferred Alternative." The preferred alternative will use results of the analyses, Task Force work to date, and public input to identify the following:

- the amount and type of new development by geographic subareas of Tysons
- a transportation network
- a network of parks and open space
- urban design framework
- implementation strategies such as governance, financing, and phasing of development and infrastructure

3. Transportation Analysis of Draft Preferred Alternative

Once the Task Force has completed its work on the Preferred Alternative, it will be provided to the transportation consultant for its analysis. The transportation consultant's analysis will then be forwarded to the Virginia Department of Transportation for its review and comments as required under Chapter 527 regulations.

4. Executive Summary

While VDOT is conducting its review (approximately a 90 day period), the consulting team will work with Task Force members to draft the Executive Summary document. This will be written in plain English and will include illustrations of the vision for the transformation of Tysons Corner and an overview of the Task Force's recommendations. The full Task Force will review and revise this document to ensure that it is consistent with their consensus.

5. Comprehensive Plan Text Amendment

County staff and the consulting team will draft the initial Plan text amendment. As is done with all amendments, the initial Plan text amendment for Tysons will be reviewed by senior staff in the Department of Planning & Zoning, the Department of Transportation, and other County departments as appropriate.

6. Final Task Force Recommendations

Once required reviews and comments by VDOT and County staff are complete, the Task Force will forward the recommended Plan text amendment to the Planning Commission and the Board of Supervisors for public hearings.
