

Implementing the Future of Tysons Corner

Tuesday, September 18, 7:00 - 9:00 PM

Capital One Auditorium, 1680 Capital One Dr., McLean, VA 22102

You are invited to attend this informative presentation on strategies to implement best planning practices. The Tysons Land Use Task Force is in the process of creating a new vision for the area. This vision will be based on the Task Force's Guiding Planning Principles, which call for transforming Tysons into a vibrant urban center with walkable streets, mixed-use neighborhoods, inclusive housing choices, lively open spaces, distinctive architecture, and other community amenities.

A critical part of the Task Force's planning process is an ongoing dialogue with the public. During this dialogue, the Task Force has heard many people state that "good ideas are nothing without good implementation." The focus of this event is to present a wide range of tools and strategies that have been successful in areas facing similar development challenges and could be used to achieve the Task Force's goals for Tysons Corner.

Agenda

Welcome & Introduction - Clark Tyler, *Task Force Chair*

Importance of Implementation in Planning for Transit Oriented Development – GB Arrington, *Vice President, PB PlaceMaking*
