

Domestic Violence Awareness You Can Be a Resource!

Healthy Relationships

Your relationship is healthy if:

- ◆ You trust your partner
- ◆ You make important decisions together
- ◆ You can spend time away from your partner
- ◆ Your partner encourages you to enjoy different activities
- ◆ Your partner likes you for who you are — not for what you look like
- ◆ You are not afraid to say what you think

How do I Support a Friend who has Experienced Domestic Violence?

- ◆ Accept his or her feelings
- ◆ Believe and reassure her or him
- ◆ Remind her/him that no one deserves to be assaulted
- ◆ Listen without judging or trying to “fix it”
- ◆ Remember that it is important for survivors to make their own decisions
- ◆ Encourage her/him to call a Domestic and Sexual Violence Center for support
- ◆ Take care of yourself. Call a Domestic and Sexual Violence Center to talk about your own feelings

If you or someone you know needs assistance, please consult the resources on the other side of this card.

Call us.
