

Sally S. Hottle

I have been the Springfield Representative to the Commission on Aging since 1998. I represented the COA on the Long Term Care Task Force and am now a member of the LTCCC where I serve on the Access Committee. I am well aware of the need for a comprehensive long term care system that will address the challenges faced by seniors, adults with disabilities and their caregivers. It is my strong desire to be instrumental in ensuring that Northern Virginia is a community that provides the best possible services to meet the needs of all citizens including those just mentioned.
