

LIN D. WAGENER, M.Ed

I was appointed to the FLTCCC shortly before my retirement in March 2006, which freed me to become more involved in Fairfax County matters. I was for the last twenty-two years the Director of the Area Agency on Aging for Prince William County, which capped a thirty year management career in the aging field. I bring to the Council and to the Council's Service Committee specific experience in strategic planning and implementing special county-wide projects, plus proposal and program development in the aging and long-term care fields. As a long-term resident of Fairfax County, I believe in the FLTCCC's mission and hope I can assist in its various efforts to influence positively Fairfax County policies and programs. Further, as a certified yoga instructor leading gentle yoga classes for older adults (stretching the body, the mind and relaxing the soul), I remain in contact with the constituency I have served during my long aging career, and now have, myself, joined.
