Our ancestors leave behind artifacts and heirlooms that may be one of a kind. How can they be used for your research? How can you share these artifacts, heirlooms and their stories with other family members?

Charles S. “Chuck” Mason, Jr. is a Certified Genealogist, specializing in Southern New Jersey and 19th and 20th Century Death Records. He is a Past President of both the Fairfax and the Mount Vernon (Virginia) Genealogical Societies and the National Institute on Genealogical Research Alumni Association.

Chuck is a grader for the National Genealogical Society's home study course and serves as the NGS Awards Chair. In addition to his many volunteer activities, he teaches genealogy classes for the Fairfax County Parks and Recreation.

Chuck is a co-host of Tracing Your Family Roots at Fairfax Cable Television Channel 10. Rebroadcasts of the show can be viewed at their website at [tracingroots.nova.org](http://tracingroots.nova.org).
