

A Fairfax County, Virginia Publication

100 0 100 200 300 400 Feet

Map file is 50" X 75" based on USGS 1:24,000 scale  
7 1/2 minute Quad Virginia Coordinate System  
values are of 1983 North Zone in U.S. feet based on  
NAD 83/93 High Precision GPS Network adjustment.

National Geodetic Vertical Datum 1929

### GENERAL NOTES

**Soil Lines**  
Soil survey maps are for general planning purposes. Soil lines are not definitive. Soils gradually phase into one another. Characteristics of neighboring soil types will be found within a soil's borders.

**Marumso Soils**  
Marumso soils are variable but may contain bands of shrinking-swelling "marine clay." Foundation distress and slope failure are possible if precautions are not taken during design and construction.

**Previously Mapped Marine Clay**  
Areas mapped as marine clay in previous soil surveys. See precautions for Marumso Soils.

**Non-Marine Clay High Shrink-Swell Soils**  
Soils containing other shrinking-swelling clay that can lead to foundation distress if precautions are not taken during design and construction.

**Potential Asbestos Containing Soils**  
Soils mapped over bedrock that may contain natural asbestos. Safety precautions must be taken during construction. Asbestos identification in map grid 49-3 may be incomplete; asbestos bedrock may be present in parcels bordering areas of mapped asbestos soil. For asbestos soils in Fairfax City, please contact the City of Fairfax, Orange soils, which overlie a majority of this geology, also contain shrinking-swelling clays which can cause foundation distress.

**Landfill** **Quarry**
