

Cultivating Biodiversity in the Home Garden

13th Annual EcoSavvy Symposium

Biodiversity of plant and animal life is critical to a healthy ecosystem. Learn how to create a landscape that provides an oasis for pollinators and other wildlife through the use of native plants.

Saturday, February 18, 2017
8:30 am-12:30 pm
Green Spring Gardens, Alexandria

Featured speakers:

Bill McLaughlin
Plant Curator, USBG

Alonso Abugattas
Natural Resource Manager,
Arlington County

Photo:
Doug Tallamy

*In cooperation with the Virginia Native Plant Society,
Potowmack Chapter*
