

# RECREATION

## AT ELLANOR C. LAWRENCE PARK

### ATHLETIC FIELDS

The synthetic athletic turf field complex at Ellanor C. Lawrence Park consists of soccer, baseball and softball fields, fitness stations and trails. Synthetic turf fields are considered state-of-the-art facilities. Synthetic turf fields provide a high quality playing surface that can be utilized throughout the year. With field shortages throughout the county, they serve as a partial solution to field space concerns as well as providing great playing conditions with minimal maintenance and superior site drainage.

### PICNIC SHELTER AND AMPHITHEATER

The park's picnic and amphitheater facilities are often used for events and programs. These are reservable by the public and serve as a focus for the park's programming.

### TRAILS

Hiking and pedestrian trails are a key part of the visitor experience at Ellanor C. Lawrence Park, and connect to the wider County trail network.
