## Bridge Replacement to Begin at Green Spring Gardens Park

The Fairfax County Park Authority will start construction to replace the existing pedestrian bridge at Green Spring Gardens. The park is located at 4603 Green Spring Rd. in Alexandria, Va. This \$300,000 project consists of removing the existing bridge, installing a new 45-foot single span steel frame bridge and associated stream bank restoration work. The project is made possible from storm damage mitigation funding as a result of severe damage to the existing pedestrian bridge abutments which occurred during Tropical Storm Lee in the fall of 2011.

The contractor, McGee Civil Construction, LLC, will begin mobilizing at the site soon. Once construction begins, the project should be completed within three months, subject to potential weather delays. Construction access to the site will be from the main parking area at Green Spring Gardens.

Residents should expect occasional construction traffic entering the parking lot of Green Spring Gardens from Braddock Road. In addition, construction equipment will be present on the trails and in the vicinity of the bridge during construction. As a safety precaution, portions of the existing trails including the bridge will be closed to users throughout the duration of the project.

For more information contact Project Manager Bill Boston at 703-324-2710 or call the Public Information Office at 703-324-8662.
