## Pedestrian Improvements and Parking Lot Repairs to Begin at Spring Hill RECenter

The Fairfax County Park Authority will start construction on pedestrian improvements and parking lot repairs at Spring Hill RECenter. This facility is located at 1239 Spring Hill Road in McLean, VA. Site improvements will include repaving and sealing of damaged parking lot areas and upgrades to the intersection of Spring Hill and Lewinsville Roads. Improvements to the intersection are required to provide safe passage from the RECenter to Spring Hill Elementary School.

The contractor, Finley Asphalt and Sealing, Inc., will begin mobilizing at the site within the next several weeks. Once construction begins, the project should be completed within three to five weeks, subject to potential weather delays. Construction access to the site will be from the main parking area at Spring Hill RECenter.

Residents should expect occasional construction traffic entering the parking lot of Spring Hill RECenter from Spring Hill and Lewinsville Roads. In addition, construction equipment will be present in and around the parking areas and at the intersection of Spring Hill and Lewinsville Roads during construction. As a safety precaution during construction, portions of the parking lot and intersection will be periodically closed to traffic and pedestrian access. New traffic patterns at the intersection of Spring Hill and Lewinsville Roads can be expected including temporary lane closures.

For more information contact Project Manager Bill Boston at 703-324-2710 or call the Public Information Office at 703-324-8662.
