Public Meeting Scheduled on Indoor Recreation Needs

The Fairfax County Park Authority will hold a Public Information Meeting on Wednesday, September 21, 2016, to present information on our system-wide study to guide future redevelopment and growth of the RECenter system throughout the county. One part of a multi-faceted outreach and survey program, this meeting is your opportunity to learn more about how we will conduct the study, your opportunities to provide input into the study and how to stay informed of the study's progress.

Last year's Needs Assessment Survey revealed that residents put a high priority on recreational facilities and see a general need for upgrades across the park system. In response, the Park Authority has hired Brailsford & Dunlavey, Inc. (B&D), CENTERS, and Hughes Group Architects (HGA), a nationally-recognized, independent consulting team, to develop a system-wide sustainability plan for the RECenters. The project team will look at potential future operational and facility improvements that effectively and efficiently help to meet the indoor recreation needs of Fairfax County residents.

A Community Interest Survey will be conducted from September 13 to September 30 to gather information about public preferences for recreation programming and operations. The survey will be distributed to RECenter users and pass holders and other Fairfax County residents.

The first of two meetings will begin at 7 p.m. in Conference Room 106/107 of the Herrity Building located at 12055 Government Center Parkway, Fairfax, Va. A second public meeting will be scheduled this winter.

For additional information, please contact the Fairfax County Park Authority at 703-324-8662.
